These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86-1, page 5.

Federal short-term, mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for January 1986.

EMPLOYMENT TAX

Notice 86-1, page 33.

Minimum distributions required for the 1985 calendar year need not be made until December 31, 1986, from qualified plans and individual retirement accounts and annuities (IRAs) pursuant to sections 401(a)(9), 408(a)(6), and 408(b)(3) of the Code, as amended by section 521 of the Tax Reform Act of 1984. An IRA with a current favorable opinion letter need not be amended to provide the distribution rules in section 408(a)(6) and (b)(3), as amended, until further notice.

ADMINISTRATIVE

Rev. Proc. 86-1, page 6.

Rulings; determination letters; closing agreements. Revised procedures are provided for issuing rulings, determination letters, and information letters, and for entering into closing agreements on specific issues. Rev. Proc. 85-1 superseded.

Rev. Proc. 86-2, page 19.

Technical advice to District Directors and Chiefs, Appeal Offices. Revised procedures are provided for furnishing technical advice to District Directors and Chiefs, Appeals Offices. Taxpayers' rights when such advice has been requested, are also set forth. Rev. Proc. 85-2 superseded.

Rev. Proc. 86-3, page 26.

Areas in which advance rulings will not be issued. A revised list sets forth those areas of the Code under the jurisdiction of the Associate Chief Counsel (Technical) in which the Service will not issue advance rulings or determination letters. Rev. Procs. 85-22, 85-24, 85-27, 85-28, 85-34 and 85-59 superseded.

Announcement 86-1, page 35.

Regulations imposing reporting requirements on charitable organizations that dispose of certain donated property within two years after the date of the contribution of the property will be modified.

A list of Announcements of Actions on Decisions of the Tax Court published in the Bulletin from January through December 1985 on page 4.
Cumulative Listing of Organizations Challenging Revocation of Status begins on page 35.
Finding List of Revenue Rulings, Revenues Procedures, Treasury Decisions, etc. published in the Bulletin from July through December 1985 begins on page 37.
Finding List of Previously Published Rulings currently mentioned in the Bulletin from July through December 1985 on page 39.
Index of Items published in the Bulletin from July through December 1985 begins on page 40.
Announcement of Voluntary Suspensions and Disbarments begins on page 49.

Department of the Treasury
Internal Revenue Service

T 22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Cumulative List of Announcement Relating Decisions of the Tax Court Published in the Internal Revenue Bulletin from January 1, 1985 thru December 31, 1985

It is the policy of the Internal Revenue Service to announce in the Internal Revenue Bulletin at the earliest practicable date the determination of the Commissioner to acquiesce or not acquiesce in a decision of the Tax Court which disallows a deficiency in tax determined by the Commissioner to be due.

Notice that the Commissioner has acquiesced or nonacquiesced in a decision of the Tax Court relates only to the issue or issues decided adversely to the Government.

Actions of acquiescences in adverse decisions shall be relied on by Revenue officers and others concerned as conclusions of the service only to the application of the law to the facts in the particular case. Caution should be exercised in extending the application of the decision to a similar case unless the facts and circumstances are substantially the same, and consideration should be given to the effect of new legislation, regulations, and rulings as well as subsequent court decisions and actions thereon.

Acquiescence in a decision means acceptance by the Service of the conclusion reached, and does not necessarily mean acceptance approval of any or all of the reasons assigned by the court for its conclusions.

No announcements are made in the Bulletin with respect to memorandum opinions of the tax court.

The announcements published in the weekly Internal Revenue Bulletins are consolidated semiannually and annually. The semiannual consolidation appears in the first Bulletin for July and in the Cumulative Bulletin for the first half of the year and the annual consolidation appears in the first bulletin for the following January and in the Cumulative Bulletin for the last half of the year.

The Commissioner ACQUIESCES in the following decisions:

Taxpayer	Docket No.	Report Volume	Report Page
Cologne Life Reinsurance Co.[1]	10337-81	80	859
Cooper, Robert E.[2]	3164–75 6401–75	67	870
Gershman Family Foundation, Harold & Julia[3]	16385-84	83	217
Sibla, Richard R.[4]	2864-76	68	422

---

[1] Acquiescence relating to whether the taxpayer is entitled to take into account the reserves held and the premiums received under its risk premium reinsurance contracts in computing the deduction under section 809(d)(5) of the Code.

[2] Nonacquiescence published in 1978-1 C.B. 2, relating to whether payments made by petitioner for meal expenses in connection with his employment as a fireman are deductible under section 162(a) of the Code or excludable under section 119(b)(3), is withdrawn and acquiescence is substituted therefore.

[3] Acquiescence relating to whether the petitioner, a disqualified person with respect to the private foundation, committed an act of self-dealing proscribed by section 4941(d)(1)(A) of the Code when he transferred to the foundation a promissory note subject to two senior notes secured by an all-inclusive deed of trust.

[4] Nonacquiescence published in 1978-1 C.B. 3, relating to whether payments made by petitioner for meal expenses in connection with his employment as a fireman are deductible under section 162(a) of the Code or excludable under section 119(b)(3), is withdrawn and acquiescence is substituted therefore.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates determined under the alternate method as provided by section 1.1274-6T of the Temporary Income Tax Regulations are set forth for the month of January 1986. See Rev. Rul. 86-1, this page.

Section 483.—Interest on Certain Deferred Payments

Federal short-term, mid-term and long-term rates determined under the alternate method as provided by section 1.1274-6T of the Temporary Income Tax Regulations are set forth for the month of January 1986. See Rev. Rul. 86-1, this page.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 280G, 467, 468, 483, 7872.)

Federal short-term, mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for January 1986.

Rev. Rul. 86-1

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of January 1986 are as follows:

	Period for Compounding			
	Annual	*Semiannual*	*Quarterly*	*Monthly*
Short-Term				
AFR	8.32%	8.15%	8.07%	8.01%
110% AFR	9.17%	8.97%	8.87%	8.81%
120% AFR	10.02%	9.78%	9.66%	9.59%
Mid-Term				
AFR	9.44%	9.23%	9.13%	9.06%
110% AFR	10.41%	10.15%	10.02%	9.94%
120% AFR	11.39%	11.08%	10.93%	10.83%
Long-Term				
AFR	10.13%	9.89%	9.77%	9.69%
110% AFR	11.18%	10.88%	10.74%	10.64%
120% AFR	12.22%	11.87%	11.70%	11.59%

Section 7872.—Treatment of Loans with Below-Market Interest Rates

Federal short-term, mid-term and long-term rates determined under the alternate method as provided by section 1.1274-6T of the Temporary Income Tax Regulations are set forth for the month of January 1986. See Rev. Rul. 86-1, this page.

Part III. Administrative Procedural, and Miscellaneous

26 CFR 601.201. Rulings and determination letters.

Rev. Proc. 86-1

CONTENTS

SECTION 1. PURPOSE
SECTION 2. SCOPE
SECTION 3. CHANGES
SECTION 4. GENERAL PRACTICE AND DEFINITIONS
.01 Issuance of rulings by National Office
.02 Issuance of determination letters by District Director
.03 Taxpayer
.04 Ruling
.05 Determination letter
.06 Information letter
.07 Revenue ruling
.08 Closing agreement

SECTION 5. RULINGS ISSUED BY THE NATIONAL OFFICE

.01 In income and gift tax matters—when rulings will be issued on consummated transactions, section 1.9100 requests, and specific procedures for accounting period and method changes
.02 In estate tax matters
  1 In matters involving additional tax under section 2034A(c)
.03 In generation-skipping transfer tax matters
.04 In employment and excise tax matters
.05 In administrative provisions matters
.06 Rulings to business associations or groups
.07 Rulings pending adoption of regulations
  1 Usual procedures
  2 Business emergency

SECTION 6. DETERMINATIONS UNDER SECTION 999(D) OF THE CODE

SECTION 7. DETERMINATION LETTERS ISSUED BY DISTRICT DIRECTOR

.01 In income and gift tax matters
.02 In estate tax matters
.03 In generation-skipping transfer tax matters
.04 In employment and excise tax matters
.05 Letters not issued by District Director
.06 Letters issued under section 1033 of the Code
.07 Requests concerning income, estate or gift tax return

SECTION 8. DISCRETIONARY AUTHORITY TO ISSUE RULINGS AND DETERMINATION LETTERS

.01 No rule areas
.02 Alternative plans
.03 Ordinarily no ruling on page of integrated transaction
.04 Constructive sales price under section 4216(b) or 4218(c) of the Code

SECTION 9. INSTRUCTIONS TO TAXPAYER

.01 Duplicate request for ruling
.02 Penalties of perjury statement
.03 Issuance of single ruling letter
.04 Multiple issue ruling request
.05 Complete statement of facts and other information required; Specific guidelines for requesting rulings under certain Code sections
.06 Statement required as to identical issue in return
.07 "Two-part" ruling request
  1 Complete statement of facts
  2 Summary statement of facts to be controlling
    (a) Election of "two-part" procedure
    (b) Taxpayers rights and responsibilities
    (c) Service's rights
    (d) Inconsistent with other procedures
.08 Statement of relevant authorities in support of taxpayer's views
.09 Statement of deletions under section 6110 of the Code
.10 Requests to be signed by taxpayer or authorized representative who must be
  1 an attorney
  2 a certified public accountant
  3 a person enrolled to practice before the Service, and have a power of attorney (Form 2848)
.11 Copies of ruling letter
.12 Office where request for ruling and determination letter should be sent
.13 Request for ruling that lacks essential information
.14 Request for conference
.15 Requests for ruling processed in regular order; expeditious handling procedures
.16 Individual Tax Division primary responsibility
.17 Corporation Tax Division primary responsibility
.18 Status request
.19 Section 6110 procedures regarding protest of disclosure of ruling letter
.20 Request for delay of public inspection
.21 Attach a copy of ruling letter to taxpayer's return
.22 Procedures for protesting adverse rulings under section 367 of the Code
.23 Appeal procedures for adverse determination letters under section 521 of the Code

SECTION 10. HANDLING OF RULING REQUESTS

.01 21 calendar day contact
.02 Subject matters included in 21 day procedure
  1 Individual Income Tax Branch
  2 Corporation Tax Branch
  3 Specialty Tax Branch
  4 Engineering Branch and Reorganization Branch
.03 Procedures followed regarding ruling requests
  1 21 calendar day Branch contact
  2 Multiple Branch jurisdiction
  3 Modification transaction
  4 Informal opinions not binding
  5 Process under present procedures

SECTION 11. CONFERENCES IN THE NATIONAL OFFICE

.01 Conference only in connection with a ruling request; how it is scheduled
.02 One conference of right; who will attend from the Service
.03 Employment tax matters
.04 No tape or other verbatim recording
.05 Tentative recommendations
.06 Additional conferences
.07 Post conference submissions

SECTION 12. DISTRICT OFFICE REFERRAL OF MATTERS TO THE NATIONAL OFFICE

.01 Request for determination letters
.02 No rule areas

SECTION 13. REFERRAL OF MATTERS TO DISTRICT OFFICES
SECTION 14. REVIEW OF DETERMINATION LETTERS
SECTION 15. WITHDRAWAL OF REQUESTS
SECTION 16. ORAL ADVICE TO TAXPAYERS
.01 Discuss substantive and procedural tax issues
.02 Technical assistance from District Office or Service Center
SECTION 17. EFFECT OF RULINGS
.01 Reliance; revocation or modification; section 7805(b)
.02 District Director's responsibility
.03 Contrary conclusion by field office
.04 Ways in which a ruling found to be in error is modified or revoked
.05 Situation in which revocation or modification of a ruling will not be applied retroactively except in rare or unusual circumstances
.06 Application of ruling restricted to transaction; not affected by regulations issued later
.07 Retroactivity; ruling on continuing or series of actions; illustrations
.08 Retroactivity; sale or lease subject to excise tax
.09 Retroactivity; completed transactions
SECTION 18. EFFECT OF DETERMINATION LETTERS
SECTION 19. EFFECT OF INFORMATION LETTERS
SECTION 20. PROCEDURE FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF RULINGS AND DETERMINATION LETTERS
.01 Application of section 7805(b) of the Code
.02 Form of request to limit the retroactive effect of a modification or revocation of a ruling letter
.03 Taxpayer's right to conference
.04 Form of request to limit the retroactive effect of a modification or revocation of a determination letter
.05 Taxpayer's right to a conference when technical advice is requested
SECTION 21. EFFECT ON OTHER DOCUMENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 85-1, 1985-1 C.B. 440 which provides procedures for issuing rulings, determination letters and information letters, and for entering into closing agreements on specific issues involving the interpretation or application of the federal tax laws. It also tells taxpayers and their representatives where to send requests for rulings, determination letters and information letters. It gives the steps to follow so that requests may be handled more efficiently. Changes to this revenue procedure will be incorporated annually in a new revenue procedure published as the first revenue procedure of the year.

SEC. 2. SCOPE

This revenue procedure applies only to ruling requests, information letters, and closing agreements under the jurisdiction of the Associate Chief Counsel (Technical), and to requests for determination letters under the jurisdiction of field offices that relate to Code sections under the jurisdiction of the Associate Chief Counsel (Technical). The Chief Counsel through the Associate Chief Counsel (Technical) provides basic principles and rules for the uniform interpretation and application of the federal tax laws under the jurisdiction of the Associate Chief Counsel (Technical). The procedures for obtaining rulings, etc., that apply specifically to federal firearms, alcohol and tobacco taxes under subtitle E of the Internal Revenue Code are under the jurisdiction of the Bureau of Alcohol, Tobacco and Firearms. The procedures for obtaining rulings, determination letters, etc., on employee plans and exempt organizations are under the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations). See Rev. Proc. 83-36, 1983-1 C.B. 763. However, the jurisdiction of the Associate Chief Counsel (Technical) includes section 521 of the Code, on exemption of farmer's cooperatives from tax; section 526, on shipowners' protection and indemnity associations; section 527(a), (b), (c), (d), (e), and (g), on political organizations, and section 528, on certain homeowners' associations.

SEC. 3. CHANGES

.01 A table of contents has been added to the beginning of this revenue procedure to assist taxpayers and Service personnel.

.02 Section 5.01 has been amended to indicate the specific sections of this revenue procedure (Rev. Proc. 86-1) that are applicable to requests for accounting period changes.

.03 Section 9.02 has been amended to require a penalties of perjury statement with any change in a ruling request.

.04 Section 9.05 has been amended to require that telephone numbers also be a part of the factual information submitted with each request for a ruling or a determination letter. Also, the list of revenue procedures that provide specific guidelines for requesting rulings has been revised by updating the list.

.05 Section 16.01 has been amended, as previously announced in Rev. Proc. 85-50, 1985-40 I.R.B. 26, to allow personnel in the rulings divisions to discuss orally substantive tax issues with taxpayers or their representatives on a time-available basis.

SEC. 4. GENERAL PRACTICE AND DEFINITIONS

.01 The Service answers inquiries of individuals and organizations, when appropriate in the interest of sound tax administration, about their status for tax purposes and the tax effects of their acts or transactions. The National Office issues rulings in such matters.

.02 District Directors of Internal Revenue apply the statutes and tax treaties, regulations, revenue rulings, and other precedents published in the Internal Revenue Bulletin in determining tax liability, collecting taxes, and issuing information letters and determination letters in answer to taxpayers' inquiries or requests. For purposes of this revenue procedure, any reference to District Director or district office includes their respective offices or, when appropriate, the director of an Internal Revenue Service Center.

.03 The word "taxpayer" includes all persons subject to any provision of the Internal Revenue Code and, when appropriate, their representatives and issuers of section 103 obligations. Any reference to National Office means only the Office of the Associate Chief Counsel (Technical).

.04 A "ruling" is a written statement

issued to a taxpayer by the National Office that interprets and applies the tax laws to that taxpayer's specific set of facts. Rulings are issued only by the National Office, under the general supervision of the Associate Chief Counsel (Technical). Issuing rulings has been largely delegated to the Directors of the Corporation Tax Division and the Individual Tax Division.

.05 A "determination letter" is a written statement issued by a District Director in response to a written inquiry by a taxpayer that applies the principles and precedents previously announced by the National Office to a specific set of facts. A determination letter is issued only when a determination can be made on the basis of clearly established rules in the statute or regulations, or by a position in a ruling, opinion, or court decision published in the Internal Revenue Bulletin that specifically answers the question presented. A determination letter will not be issued if a determination cannot be made, for example, when the question presents a novel issue, or if the matter is excluded from the jurisdiction of a District Director under section 7 of this revenue procedure.

.06 An "information letter" is a statement issued either by the National Office or by a District Director that calls attention to a well-established interpretation or principle of tax law, without applying it to a specific set of facts. It may be issued if the request indicates that the taxpayer is seeking general information. If the request does not meet the requirements of section 9 of this revenue procedure, but the Service thinks that the general information may help the individual or organization, it may issue an information letter.

.07 A "revenue ruling" is an interpretation by the Service that has been published in the Internal Revenue Bulletin. It is the conclusion of the Service on how the law is applied to an entire set of facts. Revenue rulings are issued only by the National Office and are published for the information and guidance of taxpayers. Internal Revenue Service officials, and other interested parties.

.08 A "closing agreement" is an agreement between the Commissioner of Internal Revenue or the Commissioner's delegate and a taxpayer on a specific issue or issues or liability that is entered into under the authority in section 7121 of the Code. A closing agreement prepared in an office under the responsibility of the Associate Chief Counsel (Technical) is based on a ruling that has been signed by the Commissioner, or the Commissioner's delegate, that says that a closing agreement will be entered into on the basis of the holding of the ruling letter. Closing agreements are final, unless fraud, malfeasance, or misrepresentation of a material fact can be shown. Closing agreements may be entered into when it is advantageous to have the matter permanently and conclusively closed, or when a taxpayer can show good and sufficient reasons for an agreement and the government will sustain no disadvantage by its consummation. In appropriate cases, taxpayers may be asked to enter into a closing agreement as a condition to the issuing of a ruling. If, in a single case, closing agreements are requested for each of a number of taxpayers, such agreements are entered into only if the number of taxpayers is 25 or less. However, if the issue and holding are identical for all taxpayers and they number more than 25, a "mass closing agreement" will be entered into with the taxpayer who is authorized by the others to represent the entire group.

SEC. 5. RULINGS ISSUED BY THE NATIONAL OFFICE

01. *In income and gift tax matters,* the National Office issues rulings on prospective transactions and on completed transactions that occurred before the return is filed for the year in which such transactions are consummated. However, the National Office will issue rulings after the return is filed if a ruling was required by section 367 of the Code (as in effect prior to the amendment made by the Tax Reform Act of 1984) and the ruling request was filed on time under that section. Further, see Rev. Proc. 79-63, 1979-2 C.B. 578, which concerns applications for extensions of the time for making an election or application for relief under section 1.9100-1 of the regulations. If a request for an extension of time under section 1.9100-1 is submitted after the return is filed but before the return is examined, the procedures under Rev. Proc. 86-1 are applicable. If an examination of the return has begun, or is being considered by an Appeals Office, the procedures of Rev. Proc. 86-2, page 19, this Bulletin, are applicable. The National Office issues rulings on the exempt status of organizations under section 521. See Rev. Proc. 84-46, 1984-1 C.B. 541. Specific instructions and guidelines relating to corporate distributions and the determination of the earnings and profits of corporate taxpayers are contained in Rev. Proc. 75-17, 1975-1 C.B. 644. In such matters only the provisions of sections 9.10, 9.11, 9.14 and 11 of this revenue procedure (Rev. Proc. 86-1) are applicable. Specific instructions and guidelines relating to a change in method of accounting for federal income tax purposes are contained in Rev. Proc. 84-74, 1984-2 C.B. 736. In such matters only the provisions of sections 8.02, 9.02, 9.08, 9.10, 9.11, 9.15, 9.17, 9.18 and 9.21, 11, 15, 16 and 17 of this revenue procedure (Rev. Proc. 86-1) are applicable. In matters relating to accounting period changes only the provisions of sections 8.02, 9.02, 9.08, 9.10, 9.11, 9.15, 9.17, 9.18, and 9.21, 11, 15, 16, and 17 of this revenue procedure (Rev. Proc. 86-1) are applicable. The National Office ordinarily does not issue rulings if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period, and (1) that issue is being examined by a District Director or is being considered by an Appeals Office, or (2) that issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director or by an Appeals Office. If a return dealing with an issue for a particular year is filed while a request for ruling on that issue is pending, the National Office will issue the ruling unless it is notified by the taxpayer that an examination of that issue or the identical issue on an earlier year's return has been started by a District Director. See section 9.06. However, even if an examination has begun, the National Office ordinarily will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued. The National Office does not issue rulings on

the replacement of involuntarily converted property, whether or not replacement has been made, if the taxpayer has already filed a return for the tax year in which the property was converted. See section 7.06 of the District Director's authority to issue determination letters in this connection. In addition, the National Office does not issue rulings on the classification of an organization if a return has been filed for the organization for an earlier period.

.02 *In estate tax matters*, the National Office issues rulings with respect to transactions affecting the estate tax of a decedent before the estate tax return is filed. If the estate tax return is due to be filed before the ruling is issued, the taxpayer should secure an extension of time for filing the return for the maximum period of six months, and notify the National Office Branch considering the request for ruling that an extension has been secured. If the return is filed before the ruling is issued, the taxpayer must disclose on the return that a ruling has been requested, attach a copy of the pending ruling request to the return, and notify the National Office that the return has been filed. The National Office will make every effort to issue the ruling within three months of the day on which the return was filed. If the ruling cannot be issued within that three month period, the National Office will notify the District Director having jurisdiction of the return who may, by memorandum to the National Office, grant an additional period for the issuance of the ruling. The National Office will not rule on matters relating to the application of the estate tax to property or the estate of a living person.

1 *In matters involving additional tax under section 2032A(c)*, the National Office issues rulings on prospective transactions and on completed transactions that occurred before the return is filed for the year in which such transactions are consummated.

.03 *In generation-skipping transfer tax matters*, the National Office issues rulings on transactions that affect the generation-skipping transfer tax before the return is filed. Rulings are not issued until after the generation-skipping trust, or trust equivalent, has been established. Rulings are not issued on a generation-skipping transfer tax matter before the distribution or termination takes place. Notwithstanding the foregoing, the National Office will issue rulings regarding the application of the generation skipping transfer tax effective date rules (section 2006(c) of the Tax Reform Act of 1976, Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 365, as amended by section 702(n)(1) of the Revenue Act of 1978, Pub. L. 95-600 1978-3 C.B. (Vol. 1) 1, 169) to wills, trusts, and trust equivalents in existence on June 11, 1976.

.04 *In employment and excise tax matters*, the National Office issues rulings on prospective transactions and on completed transactions either before or after the return is filed for those transactions. In employment tax matters, generally the taxpayer is the employer. However, if the worker asks for the ruling, both the worker and the employer are considered to be the taxpayer and both are entitled to the ruling. The National Office usually will not issue rulings if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period and (1) that issue is under examination by a District Director or under consideration by an Appeals Office, or (2) that issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director or by an Appeals Office. However, if a District Director began an examination of the issue involved in the ruling request, the National Office usually will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued.

.05 *In administrative provisions matters*, the National Office issues rulings on issues arising under the Internal Revenue Code, and related statutes, and the regulations thereunder, that relate primarily to the time, place, manner, and procedures, for reporting and paying taxes; assessing and collecting taxes (including interest and penalties); abating, crediting, or refunding overassessments or overpayments of tax; and filing information returns. Rulings ordinarily are not issued, if, at the time the ruling is requested, the identical issue is involved in the taxpayer's return for an earlier period and (1) that issue is being considered by a District Director or an Appeals Office, or (2) that the issue has been examined by a District Director or considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund, or credit of tax has not expired, or a closing agreement covering the issue or liability has not been entered into by a District Director or Appeals Office. If a return involving an issue for a particular year is filed while a request for a ruling on that issue is pending, the National Office will issue the ruling unless an examination of that issue or an examination of the identical issue on an earlier year's return has been started by a District Director. But, even if consideration has begun, the National Office ordinarily will issue the ruling if the District Director agrees, by memorandum, to permit the ruling to be issued.

.06 The National Office does not issue rulings to business, trade, or industrial associations or to similar groups concerning the application of the tax laws to members of the group. It may, however, issue rulings to these groups or associations on their own tax status or liability if the request meets the requirements of this section.

.07 Pending the adoption of regulations (either temporary or final) that interpret the provisions of any act, the issuing of rulings will be considered under the following conditions.

1 If the ruling request presents an issue on which the answer seems clear by applying the statute to the facts, a ruling will be issued under the usual procedures.

2 If the ruling request presents an issue on which the answer seems reasonably certain but not entirely free from doubt, a ruling will be issued only if it is established that a business emergency requires a ruling or that unusual hardship will result from failure to obtain a ruling. If the taxpayer believes that a business emergency exists or that an unusual hardship will result from failure to obtain a ruling, the taxpayer should submit with the request a separate letter stating the facts necessary for the Service to reach a conclusion. In this connection, the Service will not consider a "business emergency" to result from circumstances under the taxpayer's control, such as scheduling within an inordinately short time the

closing date for a transaction or a meeting of the board of directors or the shareholders of a corporation. However, if the ruling request presents an issue that cannot be readily resolved before regulations are issued, a ruling will not be issued.

SEC. 6. DETERMINATIONS UNDER SECTION 999(d) OF THE CODE

Under Rev. Proc. 77-9, 1977-1 C.B. 542, the National Office issues determinations under section 999(d) of the Code that may deny certain benefits of the foreign tax credit, deferral of earnings of foreign subsidiaries and domestic international sales corporations (DISC) to a person, if that person, or a member of a controlled group (within the meaning of section 993(a)(3)) that includes that person, or a foreign corporation of which a member of the controlled group is a United States shareholder, agrees to participate in, or cooperate with, an international boycott.

SEC. 7. DETERMINATION LETTERS ISSUED BY DISTRICT DIRECTOR

.01 *In income and gift tax matters.* District Directors issue determination letters in response to taxpayers' written requests on completed transactions that affect returns over which they have examination jurisdiction. This applies only if the question presented is specifically answered by statute or regulation, or by the position stated in a ruling, opinion or court decision published in the Internal Revenue Bulletin. A determination letter usually is not issued for a question concerning a return to be filed by the taxpayer if the same question is involved in a return already filed. District Directors do not issue determination letters on the tax consequences of prospective or proposed transactions, except as provided in section 7.06.

.02 *In estate tax matters.* District Directors issue determination letters in response to written requests affecting the estate tax returns over which they have examination jurisdiction, but only if the question presented is specifically answered by statute or regulation, or by the position stated in a ruling, opinion, or court decision published in the Internal Revenue Bulletin. District Directors do not issue determination letters on matters concerning the application of the estate tax to property or the estate of a living person.

.03 *In generation-skipping transfer tax matters.* District Directors issue determination letters in response to written requests affecting the generation skipping transfer tax returns over which they have examination jurisdiction, but only if the questions presented are specifically answered by statute or regulation, or by a position stated in a ruling, opinion, or court decision published in the Internal Revenue Bulletin. District Directors do not issue determination letters or matters concerning the application of the generation-skipping transfer tax before the distribution or termination takes place.

.04 *In employment and excise tax matters.* District Directors issue determination letters on completed transactions in response to written requests from taxpayers over which they have examination jurisdiction, but only if the question presented is specifically answered by statute or regulation, or by the position stated in a ruling, opinion, or court decision published in the Internal Revenue Bulletin.

.05 Notwithstanding the provision of section 7.01, 7.02, 7.03 and 7.04, a District Director will not issue a determination letter in response to a request that presents a question specifically answered by statute or regulation, or by the position stated in rulings, etc., published in the Internal Revenue Bulletin, if (1) it appears that the taxpayer has directed a similar inquiry to the National Office, (2) the same issue involving the same taxpayer is pending in a case before an Appeals Office, (3) the determination letter is requested by an industry, trade association, or similar group, or (4) the request involves an industrywide problem. Under no circumstances will a District Director issue a determination letter unless it is clearly shown that the request concerns a return that has been filed or is required to be filed over which the District Director has or will have examination jurisdiction. Notwithstanding the provisions of section 7.04, a District Director will not issue a determination letter on an employment tax question if the specific question for the same taxpayer has been or is being considered by the Central Office of the Social Security Administration or the Railroad Retirement Board. Nor will District Directors issue determination letters for determination of a constructive sales price under section 4216(b) or 4218(e) of the Code. The National Office, however, will issue rulings in this area. See section 8.04.

.06 District Directors issue determination letters on the replacement of involuntarily converted property under section 1033 even though the replacement has not been made, if the taxpayer has filed an income tax return for the year in which the property was involuntarily converted.

.07 A request received by a District Director on a question concerning an income, estate, or gift tax return already filed will be, in general, considered in connection with the examination of the return. If a response is made to such a request before the return is examined, it will be considered a tentative finding in any later examination of that return.

SEC. 8. DISCRETIONARY AUTHORITY TO ISSUE RULINGS AND DETERMINATION LETTERS

.01 The Service ordinarily will not issue rulings or determination letters in certain areas because of the factual nature of the problem involved, or for other reasons. Rev. Proc. 86-3, page 26, this Bulletin, provides a list of these areas. This list is not all inclusive, since the Service may decline to issue a ruling or a determination letter on other grounds, whenever warranted by the facts or circumstances of a particular case. The National Office and District Directors may, when it is considered appropriate and in the best interest of the Service, issue information letters calling attention to well-established principles of tax law.

.02 A ruling or a determination letter is not issued on alternative plans of proposed transactions or on hypothetical situations.

.03 The National Office ordinarily will not issue rulings on only part of an integrated transaction.

.04 The National Office will issue rulings in all cases on the determination of a constructive sales price under section 4216(b) or 4218(c) and in all other cases on prospective or future transactions if the law or regulations requires a determination of the effect of a proposed transaction for tax purposes.

SEC. 9. INSTRUCTIONS TO TAXPAYER

.01 The taxpayer should submit a request for a ruling or a determination letter in duplicate if (1) more than one issue is presented in the request, or (2) a closing agreement is requested on the issue presented. It is not necessary to submit requests in duplicate under other circumstances except as set forth in section 9.09.

.02 A request for a ruling or determination letter and any factual information or change in the ruling request submitted at a later time must be accompanied by a declaration in the following form: "Under penalties of perjury, I declare that I have examined this request, including accompanying documents, and to the best of my knowledge and belief, the facts presented in support of the requested ruling or determination letter are true, correct, and complete." The declaration may not be made by the taxpayer's representative. It must be signed by the person or persons on whose behalf the request is made. The person who must sign for a corporate taxpayer must be an officer of the corporate taxpayer who has personal knowledge of the facts. The officer must be one whose duties are not limited to obtaining a ruling or determination letter from the Service. The person signing for a trust or partnership must be a trustee or partner who has personal knowledge of the facts.

.03 If more than one issue is presented in a request for a ruling, the Service generally will issue a single ruling letter. However, the taxpayer may request a separate ruling letter on any of the issues. Unless the Service determines that it is not feasible or not in the best interest of the Service to comply with such a request, it will issue separate ruling letters.

.04 When multiple issues are involved in a single factual situation and separate letters requesting rulings are submitted, a statement to this effect must be included in each ruling letter request. The Service in issuing each ruling will state that separate rulings have been issued or requests for rulings are pending.

.05 Each request for a ruling or a determination letter must contain a complete statement of all of the facts relating to the transaction. Such facts include: names, addresses, telephone numbers, and taxpayer identification numbers of all interested parties; the location of the District Office that has or will have examination jurisdiction over the return, not the Service Center where the return is filed; a full and precise statement of the business reasons for the transaction, and a carefully detailed description of the transaction. (The term "all interested parties" does not mean that a list is required of all shareholders of a widely-held corporation requesting a ruling relating to a reorganization, or a list of employees where a larger number may be involved.) If the request deals with only one step of a larger integrated transaction, the facts, circumstances, etc. relating to the entire transaction must be submitted. However, see section 8.03 of this revenue procedure (Rev. Proc. 86-1). In addition, true copies of all contracts, wills, deeds, agreements, instruments, and other documents in the transaction must be submitted with the request. Original documents, such as contracts, wills, etc., should not be submitted because they become part of the Service's file and will not be returned. All material facts in documents must be included in the taxpayer's letter requesting a ruling or in supplemental letters, and not merely incorporated by reference, and must be accompanied by an analysis of their bearing on the issue or issues, specifying the provisions that apply. If the request concerns a corporate distribution, reorganization, or similar transaction, the corporate balance sheet and profit and loss statement should be submitted. If the request relates to a prospective transaction, the most recent balance sheet and profit and loss statement should be submitted.

Material facts furnished to the Service by telephone or orally at a conference must be promptly confirmed by letter to the Service with a declaration in the form described in section 9.02. This confirmation must be furnished within 21 calendar days to be considered part of the request. An extension of the 21-day period will be granted only if justified in writing by the taxpayer and approved by the Chief or Assistant Chief of the branch to which the case is assigned. A request for extension should be submitted before the end of the 21-day period. If unusual circumstances close to the end of the 21-day period make a written request impractical, within the 21-day period the National Office should be told of the problem and that the written request for extension will be coming soon. Such a request must be sent promptly. The taxpayer or taxpayer's representative will be told promptly and later in writing of the approval or denial of the requested extension. There is no right of appeal to a denial of an extension request. Because the purpose of these procedures is to speed up the ruling process, the taxpayer is encouraged to submit the required relevant material promptly. Therefore, requests for extension should be justified by compelling facts and circumstances. If the Service is not made aware, as provided above, of problems in meeting the 21-day period, or if the request is not sent promptly after the National Office is notified of problems in meeting the 21-day period, the Service will process the case on the assumption that no further submission will be received.

Specific guidelines for requesting rulings under certain Code sections follow: Rev. Proc. 84-48, 1984-1 C.B. 547, as amplified by Rev. Proc. 84-49, 1984-1 C.B. 548, and Rev. Proc. 84-50, 1984-1 C.B. 550, (guidelines for submitting requests for rulings under sections 103 and 7478); Rev. Proc. 80-36, 1980-2 C.B. 769, as amended by Rev. Proc. 83-73, 1983-2 C.B. 593 (certification of manufacturers under section 44C); Rev. Proc. 68-11, 1968-1 C.B. 761 (guidelines for a ruling request under section 117); Rev. Proc. 81-62, 1981-2 C.B. 684 (guidelines concerning a request for a ruling under section 302 or 311); Rev. Proc. 81-68, 1981-2 C.B. 723 (guidelines concerning a request for a ruling under section 332, 334(b)(1) or 334(b)(2)); Rev. Proc. 81-52, 1981-2 C.B. 625 (guidelines concerning a request for a ruling under sections 331 and 337); Rev. Proc. 81-42, 1981-2 C.B. 611 (guidelines concerning a request for a ruling under section 302(b)(4)); Rev. Proc. 83-59, 1983-2 C.B. 575 (guidelines concerning a request for a ruling under section 351); Rev. Proc. 81-41, 1981-2 C.B. 605 (guidelines concerning a request for a ruling under section 355); Rev. Proc. 68-23, 1968-1 C.B. 821, as modified by Rev. Proc. 77-17, 1977-1 C.B. 577, and as amplified by Rev. Proc. 76-20, 1976-1 C.B. 560 and Rev. Proc. 80-14, 1980-1 C.B. 617, Rev. Proc. 69-19, 1969-2 C.B. 301, as amplified by Rev. Proc. 74-36, 1974-2 C.B. 491, Rev. Proc. 77-5, 1977-1 C.B. 536, Rev. Proc. 78-27, 1978-2 C.B. 526, and Rev. Proc. 78-28, 1978-2 C.B. 526 (guidelines concerning a request for a ruling under section 367). However, see section 7.367(b) of the Temporary Income Tax Regulations and section 1.367(a) of the Income Tax Regulations under the Tax Reform Act of 1976, which superseded the previously mentioned revenue procedures relating to section 367, to the extent of overlapping rules; Rev. Proc. 81-70, 1981-2 C.B. 729 (guidelines for estimating the basis of stock acquired in a section 368(a)(1)(B) reorganization); Rev. Proc. 81-60, 1981-2 C.B. 680 (guidelines concerning a request for a ruling under section 368(a)(1)(E)). See, however, Rev. Proc. 86-3, page 26, this Bulletin, which provides that a ruling whether a transaction constitutes a corporate recapitalization within the meaning of section 368(a)(1)(E) will not be issued except when the recapitalization is an integral part of a larger transaction and it is impossible to determine the tax consequences of the larger transaction without making a determination with regard to the recapitalization, Rev. Proc. 77-30, 1977-2 C.B. 539, as clarified by Rev. Proc. 78-18, 1978-2 C.B. 491 and Rev. Proc. 78-23, 1978-2 C.B. 503, and Rev. Proc. 77-37, 1977-2 C.B. 568, as amplified by Rev. Proc. 77-41, 1977-2 C.B. 574 and Rev. Proc. 83-81, 1983-2 C.B. 598 and Rev. Proc. 84-42, 1984-1 C.B. 521 (certain other guidelines concerning requests for rulings handled by the Reorganization Branch of the Corporation Tax Division); Rev. Proc. 71-19, 1971-1 C.B. 698 (guidelines concerning requests for rulings on unfunded deferred compensation); Rev. Proc. 83-25, 1983-1 C.B. 689 (guidelines for requesting changes in accounting period for Subchapter S corporations); Rev. Proc. 72-13, 1972-1 C.B. 735, Rev. Proc. 74-17, 1974-1 C.B. 438, and Rev. Proc. 75-16, 1975-1 C.B. 676 (guidelines on classification of limited partnerships); Rev. Proc. 82-58, 1982-2 C.B. 847 (guidelines on classification of organizations as liquidating trusts); Rev. Proc. 82-36, 1982-1 C.B. 490 (guidelines concerning requests for consent to elect not to defer gain or loss on deferred intercompany transactions); Rev. Proc. 79-63, 1979-2 C.B. 578 (factors considered and information needed for granting extensions under section 1.9100-1 of the Income Tax Regulations.

A ruling request that involves a question of whether a rate order, proposed or issued by a regulatory agency, will meet the normalization requirements of sections 46(f), 167(l), and 168(e)(3) of the Code, ordinarily will not be considered unless the taxpayer states in the request for ruling whether:

(1) the regulatory authority responsible for establishing or approving the taxpayer's rates has reviewed the request and believes that the request is adequate and complete, and

(2) the taxpayer will permit the regulatory authority to participate in any National Office conference concerning the request.

.06 The request must contain a statement of whether, to the best of the knowledge of the taxpayer and the taxpayer's representative(s), if any, the identical issue is in a return of the taxpayer within the meaning of section 267 of the Code, or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504) and, if so, whether the issue (1) is being examined by a District Director, (2) has been examined and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired or a closing agreement covering the issue or liability has not been entered into by a District Director, (3) is being considered by and Appeals Office in connection with the taxpayer's return for an earlier period, or has been considered by an Appeals Office and the statutory period of limitation on either assessment or for filing a claim for refund or credit of tax has not expired or a closing agreement covering the issue or liability has not been entered into by an Appeals Office, or (4) is pending in litigation in a case involving the taxpayer or a related taxpayer. The request must also contain a statement whether, to the best of the knowledge of the taxpayer and the taxpayer's representative(s), the identical or similar issue has been (i) submitted to the Service, but withdrawn before a ruling was issued, or (ii) ruled on by the Service to the taxpayer or to the taxpayer's predecessor and, if so, when and with what results. If, after the request is filed but before a ruling is issued, the taxpayer knows that an examination of the issue by a District director has been started, the taxpayer must notify the National Office of such action. If a return is filed before a ruling is received from the National Office concerning the issue, a copy of the request must be attached to the return. This alerts the District Office and avoids premature District action on the issue.

.07 As an alternative procedure (known as the "two-part" ruling request procedure) for the issuance of rulings on prospective transactions, the taxpayer may submit a summary of the facts considered to be controlling the issue, in addition to the complete statement required for ruling requests by section 9.05. If the National Office agrees with the summary, the National Office will use it as the basis for the ruling. To use this procedure, the taxpayer should submit the following with the request for a ruling:

1 A complete statement of facts about the transaction, together with related documents, as required by section 9.05; and

2 A summary statement of the facts believed to be controlling in reaching the request conclusion. When the taxpayer's statement of controlling facts is accepted, the Service will base its ruling on these facts and only this statement will ordinarily be incorporated in the ruling letter. It is emphasized, however, that:

(a) The taxpayer may elect this procedure for a "two-part" ruling request. It is not to be considered a required substitute for the regular procedures provided by this revenue procedure;

(b) The taxpayer's rights and responsibilities are the same under the "two-part" ruling request procedure as those provided in this revenue procedure;

(c) The Service reserves the right to rule on the basis of a more complete statement of facts it considers controlling and to seek more information in developing facts and restating them; and

(d) The "two-part" ruling request procedure will not apply if it is inconsistent with other procedures, such as those dealing with request for permission to change accounting methods or periods; applications for recognition of exempt status under section 521 of the Code; or rulings or employment tax status.

.08 If the taxpayer advocates a particular conclusion, an explanation of the grounds for the assertion must be furnished, together with a statement of relevant authorities in support of the taxpayer's views. Even though the taxpayer is urging no particular tax treatment of a proposed or prospective transaction, the taxpayer's views on the tax results of the proposed action and a statement of relevant authorities to support those views must be furnished. In addition, the taxpayer is encouraged to inform the Service, and discuss the implications of any legislation, tax treaties, court decisions, regulations, revenue rulings or revenue procedures that the taxpayer determines to be contrary to the position advanced. If the taxpayer determines that there are no contrary authorities, a statement to this effect would be helpful in the ruling request. Identification and discussion of contrary, authorities will generally enable Service personnel to arrive more quickly at a full understanding of the issue and the relevant authorities. There is a further advantage to the taxpayer. When Service personnel receive the request, they will have before them the taxpayer's thinking on the effect and applicability of contrary authorities. Such information should, therefore, make research easier and lead to earlier action by the Service. Conversely, failure to disclose and distinguish significant contrary authorities may result in requests for additional memoranda that will delay action on the ruling request.

.09 To assist the Service in making the deletions required by section 6110(c) of the Code from the text of rulings and determination letters, to be made open to public inspection under section 6110(a), a deletions statement must accompany each request. The statement must either state that no information other than names, addresses, and identifying numbers need be deleted or, if more information is proposed to be deleted, the statement must indicate the deletions proposed by the person requesting the ruling or determination letter. If the latter alternative is chosen, the statement must be made in a separate document, and it must be accompanied by a copy of the request for a ruling or determination letter and supporting documents, on which must be shown by the use of brackets, the material that the person making the request believes should be deleted pursuant to section 6110(c). The statement of proposed deletions must indicate the statutory basis, under section 6110(c), for each proposed deletion. The statement of proposed deletions must not appear to be referred to anywhere in the request for a ruling or determination letter. If the person making the request decides to ask for additional deletions before the ruling or determination letter is issued, additional statements may be submitted. The procedures in this paragraph also apply to additional information that is submitted after the initial request.

.10 A request by or for a taxpayer must be signed by the taxpayer or the taxpayer's authorized representative. if the request is signed by a representative, or if the representative is to appear before the Service in connection with the request, the representative must be:

1 an attorney who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth, or the District of Columbia, and who files with the Service a written declaration that he or she is currently qualified as an attorney and is authorized to represent the taxpayer.

2 a certified public accountant who is qualified to practice in any state, possession, territory, commonwealth, or the District of Columbia, and who files with the Service a written declaration that he or she is currently qualified as a certified public accountant and is authorized to represent the taxpayer; or

3 a person, other than an attorney or certified public accountant who is currently enrolled to practice before the Service, and who files with the Service a written declaration that he or she is currently enrolled (including in the declaration either the enrollment number or the expiration date of the enrollment card) and is authorized to represent the taxpayer. (See Treasury Department Circular No. 230 (31 CFR Part 10), 1985-51 I.R.B. 6, for the rules on who may practice before the Service.) These requirements do not apply to an individual representing his or her fulltime employer, or to a bona fide officer, administrator, administratrix, trustee, etc., representing a corporation, trust, estate, association, or organized group. An unenrolled preparer of a return (other than an attorney or certified public accountant referred to in (1) and (2) above) who is not a full-time employee or a bona fide officer, administrator, administratrix, trustee, etc., may not represent a taxpayer in connection with a ruling or a determination letter. Any authorized representative, whether or not enrolled to practice, must also comply with the conference and practice requirements of the Statement of Procedural Rules (26 CFR 601). Form 2848, Power of Attorney, and Form 2848-D, Authorization and Declaration, may be used with regard to rulings, closing agreements, and determination letters requested under this revenue procedure.

.11 If a taxpayer has more than one representative, it is sufficient to send a copy of the ruling to any one of them. Copies of a ruling will be sent to no more than two representatives, provided that they are located at different mailing addresses. If a taxpayer does not designate which representative is to receive a copy of the ruling, a copy of the ruling will be sent to the first representative named on the latest power of attorney. If the original of the ruling is to be sent to a representative, the power of attorney should contain a statement to that effect and designate the mailing address of the representative.

.12 A request for a ruling letter by the National Office should be sent to the Internal Revenue Service, Associate Chief Counsel (Technical), Attention CC:IND:S:3, Room 6545, 1111 Constitution Avenue, N.W., Washington, DC 20224. A request for a determination letter should be sent to the District Director of Internal Revenue whose office has or will have examination jurisdiction over the taxpayer's return.

.13 If a request for a ruling or determination letter does not comply with all the provisions of this revenue procedure, the request will be acknowledged, and the requirements that have not been met will be pointed out. If a request for a ruling lacks essential information, the taxpayer will be told that if the information is not received within 30 calendar days, the request will be closed. If the information is received after the request is closed, it will be reopened and treated as a new request as of the date the essential information is received. A request for a ruling letter sent to the District Director that does not comply with the provisions of this revenue procedure will be returned by the District Director for corrections before it is sent directly to the National Office.

14. A taxpayer who wants to have a conference on the issue or issues involved should indicate this in writing when, or soon after, filing the request.

.15 The Service processes requests for ruling and determination letters in regular order and as expeditiously as possible. Consideration of a request for processing ahead of its regular order, or by a specified time, delays the processing of other matters. Requests for processing ahead of the regular order must be made in writing, preferably in a separate letter sent with, or soon after, the request. If the request is not made in a separate letter, then the letter in which the request is made should say, at the top of the first page: "Expeditious Handling Is Requested. See page of this letter." The request should give a compelling need for such treatment. The Service cannot give assurance that any letter will be processed by the time requested. For example, the scheduling of a closing date for a transaction or a meeting of the board of directors or shareholders of a corporation, without regard for the time it may take to obtain a ruling or determination letter, will not be considered sufficient reason for handling a request ahead of its regular order. Nor will the possible effect of fluctuation in the market price of stocks on a transaction be considered sufficient reason for handling a request out of order. Requests by telegram will be treated in the same manner as requests by letter. Ruling and determination letters ordinarily are not issued by telegram. A request for expeditious handling will not cause the Communications and Records Group to route the case to the Ruling. Branch ahead of normal processing; and a request for expeditious handling will not be considered until the underlying ruling request has been found to satisfy the section 6110 requirements.

.16 The Director, Individual Tax Division, has primary responsibility for providing basic principles for uniform interpretation and application of the federal tax laws in those areas involving: income taxes of noncorporate taxpayers (including individuals, partnerships, estates, and trusts political organizations under section 527 (except subsection (f)); employment taxes and taxes on self-employment income; estate, gift, generation-skipping transfer, and certain excise taxes; and procedure and administration provisions of the Internal Revenue Code, except those that apply specifically to employee plans, exempt organizations, and actuarial determinations.

.17 The Director, Corporation Tax Division, has primary responsibility for providing basic principles of and rules for uniform interpretation and application of the federal tax laws in those areas involving: income taxes and earnings and profits of corporate taxpayers; changes in methods and periods of accounting, depreciation, depletion, valuation and other engineering issues; the taxable status of exchanges and distributions in connection with corporate organizations, reorganizations, and liquidations; and the exemption of farmers' cooperatives (under section 521), shipowners' protection and indemnity associations (under section 526), and certain homeowners associations (under section 528).

.18 A taxpayer may obtain information regarding the status of a request by calling the person whose name and telephone number is shown on the acknowledgement of receipt of the request.

.19 If, after receiving the notice under section 6110(f)(l) of the Code of intention to disclose the ruling or determination letter (including a copy of the version proposed to be open to public inspection and notation of third-party communications under section 6110(d)), the person requesting the ruling or determination letter wants to protest the disclosure of certain information in the ruling or determination letter, that person must within 20 calendar days send a written statement to the Internal Revenue Service office indicated on the notice of intention to disclose, identifying those deletions that the Service has not made and that the person requesting the ruling or determination letter believes should have been made. That person must also submit a copy of the version of the ruling or determination letter proposed to be open to public inspection on which the person indicates, by use of brackets, the deletions proposed by the taxpayer that have not been made by the Service. Generally, the Service will not consider the deletion under this subparagraph of any material that the taxpayer did not propose to be deleted before the ruling or determination letter was issued. Within 20 days after it receives the response to the notice under section 6110(f)(1), the Service will mail to that person its final administrative conclusion regarding the deletions to be made. The taxpayer does not have the right to a conference to resolve any disagreements concerning material to be deleted from the text of the ruling. However, these matters may be taken up at any conference that is otherwise scheduled regarding the request.

.20 After receiving the notice under section 6110(f)(1) of the Code of intention to disclose (but not later than 60 calendar days after the notice is mailed), the person requesting a ruling or determination letter may send a request for delay of public inspection under either section 6110(g)(3) or section 6110(g)(3) and (4). The request for delay must be sent to the Internal Revenue Service office indicated on the notice of intention to disclose. A request for delay must contain the date on which it is expected that the underlying transaction will be completed. The request for delay under section 6110(g)(4) must contain a statement from which the Commissioner may determine that there are good reasons for the delay.

.21 A taxpayer who receives a ruling or determination letter before filing a return about any transaction that has been consummated and that is relevant to the return being filed should attach a copy of the ruling or determination letter to the return when it is filed.

.22 Protests to adverse rulings under section 367 will be processed as follows:

Under Rev. Proc. 77-5, 1977-1 C.B. 536, a taxpayer may protest an adverse, or terms and conditions, ruling letter issued on or after January 31, 1977 under section 367(a)(1) of the Code. This protest procedure applies only to transactions consummated prior to 1985 or described in a request for ruling filed before March 1, 1984. Under Rev. Proc. 77-5 the protest may not be made later than the close of the 45th calendar day after the date of the ruling letter. A protest is considered made on the date of the postmark of a letter of protest sent to the Associate Chief Counsel (Technical), or the date that the letter is hand delivered to the Service. The letter must include: (1) a copy of the ruling letter; (2) the reasons for the protest including, if applicable, (a) the grounds for asserting that none of the principal purposes for the exchange is the avoidance of federal income tax, (b) the grounds for asserting that the terms and conditions in the ruling letter pursuant to which an exchange to which section 367 applies will be considered not to be in pursuance of tax avoidance are not reasonable, and (c) the arguments supporting a protest of the validity of a ruling position published by the Service, such as a position in the guidelines announced in Rev. Proc. 68-23, 1968-1 C.B. 821 (factual material not previously submitted and considered by the Service should not be included in the protest); (3) a statement of whether a conference is desired; and (4) names of persons (including authorized representatives) expected to attend the conference, if a conference is granted. The Associate Chief Counsel (Technical) will establish an ad hoc advisory board to consider each protest, whether or not a conference is requested. The taxpayer will be granted one conference upon request. Whether or not such a request is made, the board may ask for one or more conferences or for written submissions. The taxpayer will be notified of the time, date, and place of the conference, and of the names of the members of the board. The board will consider all materials submitted in writing by the taxpayer and oral arguments presented at the conference. The board will make its recommendation to the Associate Chief Counsel (Technical) who will make a decision in the matter. Any oral arguments made at a conference by the taxpayer, which have not previously been submitted to the Service in writing, may, if desired, be submitted to the Service in writing if postmarked no later than the end of the 7th calendar day after the day of the conference. The taxpayer will be informed of the decision of the Associate Chief Counsel (Technical) by certified or registered mail.

.23 For appeal procedures with regard to adverse determination letters under section 521 of the Code and revocation or modification of exemption rulings and determination letters under section 521, see Rev. Proc. 84-46, 1984-1 C.B. 541.

SEC. 10. HANDLING OF RULING REQUESTS

.01 Within 21 calendar days after a ruling request is received in the branch, Service personnel will contact the taxpayers to discuss informally the procedural and substantive issues in the ruling request.

.02 The following subject matters are included in the 21 calendar day procedure:

1 Individual Income Tax Branch

(a) Partnerships and trusts

(b) Real estate investment trusts

(c) Stock options

(d) Employment and self-employment taxes (except ruling requests from individuals for employment status submitted on Forms SS-8)

(e) Credit for employment of certain new employees

(f) Rental value of parsonages

2 All matters within the jurisdiction of the Corporation Tax Branch, except cases

(a) involving a request for change in accounting methods or periods, generally governed by Rev. Proc. 84-74, 1984-2 C.B. 736,

(b) relating to the last-in, first-out method of computing inventory,

(c) concerning insurance issues on contracts with reserves based on segregated asset accounts,

(d) concerning insurance issues requiring actuarial computations.

3 All matters within the jurisdiction of the Specialty Tax Branch.

4 All matters within the jurisdiction of the Engineering Branch (except cases involving a request for a change in accounting methods), and the Reorganization Branch.

.03 Procedures to be followed regarding ruling requests are:

1 Within 21 calendar days after a ruling request has been received in the branch having jurisdiction, a representative of the branch will contact the taxpayer to discuss the procedural issues in the ruling requests covered by this procedure. Considering the complexity of some cases or the number of issues involved, it may not be possible for the branch representative to discuss the substantive issues in the ruling request during this initial contact. However, when possible, as to each issue coming within the jurisdiction of the branch, the branch representative will tell the taxpayer:

(a) whether the branch representative will recommend the Service rule as the taxpayer requested, rule adversely on the matter, or not rule;

(b) whether the taxpayer should submit additional information or representations to enable the Service to rule on the matter; or

(c) whether because of the nature of the transaction, or the issue presented, a tentative conclusion on the issue cannot be reached.

2 When the rulings requested involve matters within the jurisdiction of more than one branch or more than one office in the same branch, a representative of the branch that received the original ruling request will tell the taxpayer within the initial 21 calendar day contact period: (1) that the rulings requested involving matters within the jurisdiction of another branch or another office in the same branch have been referred to the other branch or office for consideration; and (2) that a representative of the other branch or office will contact the taxpayer within 21 calendar days after receiving the referral to informally discuss the procedural and, to the extent possible, the substantive issues if covered by this procedure.

3 If something less than a fully favorable ruling is indicated, the branch representative will tell the taxpayer if minor modifications of the transaction or adherence to certain published positions will warrant the issuance of a favorable ruling. In addition, the branch representative may tell the taxpayer what representations must be furnished in a document to comply with the requirements of the Service. However, the branch representative will not suggest precise changes that would materially alter the form of the proposed transaction. If, at the conclusion of the discussion, the branch representative determines that a meeting in the National Office would better serve the purpose of developing or exchanging information, a meeting will be offered and an early meeting date arranged. This meeting will not be the taxpayer's conference of right, as described in this revenue procedure.

4 The Service will not be bound by the informal opinion expressed by the branch representative or any other authorized Service representative under this procedure, and such an opinion cannot be relied upon as a basis for granting retroactive relief under the provisions of section 7805(b) of the Code.

5 The ruling request will then be processed under present procedures.

SEC. 11. CONFERENCES IN THE NATIONAL OFFICE

.01 A taxpayer may request a conference only in connection with a ruling request. Normally, a conference is scheduled only when the National Office considers it to be helpful in deciding the case or when an adverse decision is indicated. If conferences are being arranged for more than one request for a ruling involving the same taxpayer, they will be scheduled so as to cause the least inconvenience to the taxpayer. If a conference has been requested, the taxpayer will be notified by telephone, if possible, of the time and place of the conference. The conference must be held within 21 calendar days after such contact has been made. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those stated in section 9.05.

.02 A taxpayer is entitled, as a matter of right, to only conference in the National Office unless one of the circumstances discussed in section 11.06 develops. This conference normally will be held at the branch level of the appropriate division in the office of the Associate Chief Counsel (Technical) and will be attended by a person who, at the time of the conference, has authority to sign the ruling letter for the branch chief in the case being discussed. When more than one branch has taken an adverse position of an issue within its jurisdiction presented in a ruling request, or when the position ultimately adopted by one branch will affect another branch's determination, a representative from each branch with the authority to sign for the branch chief will attend the conference. If more than one subject is to be discussed at the conference, the discussion will constitute a conference on each subject. In order to promote a free and open discussion of the issues, the conference usually will be held after the branch has had an opportunity to study the case. However, at the request of the taxpayer or representative, the conference of right may be held at an earlier stage in the consideration of the case than the Service ordinarily would designate. No taxpayer has a "right" to appeal the action of a branch to a division director or to any other official of the Service.

.03 In employment tax matters, only the party entitled to the ruling is entitled to a conference.

.04 Since conference procedures are informal, no tape, stenographic, or other verbatim recording of a conference will be made.

.05 The senior Service representative present at the conference insures that the taxpayer has full opportunity to present views on all of the issues that are in question. The Service representative explains the Service's tentative decision on the substantative issues and the reason for that decision. If the taxpayer advances prospective application under section 7805(b) of the Code, the Service, representative will discuss the tentative recommendation concerning the request for relief and the reason for the tentative recommendation. No commitment will be made as to the conclusion that the Service will finally adopt.

.06 An invitation to an additional conference will be extended if, after the conference of right, an adverse holding is proposed but on a new issue or on the same issue but on different grounds from those discussed at the first conference. There is no right to another conference when a proposed holding is reversed at a higher level with a result less favorable to the taxpayer if the ground or arguments on which the reversal is based were discussed at the conference of right. The provision of this revenue procedure limiting the number of conferences to which a taxpayer is entitled will not prevent a taxpayer from attending further conferences when, in the opinion of National Office personnel, such conferences are necessary. All additional conferences of the type discussed in this paragraph are held only at the invitation of the Service.

.07 It is the responsibility of the taxpayer to furnish in writing to the National Office any additional data, lines of reasoning, precedents, etc. that are proposed by the taxpayer and discussed at the conference but that were not previously or adequately presented in writing. The taxpayer must furnish the additional information within 21 calendar days. If the additional information is not received within that time, a ruling will be issued on the basis of the information on hand or, if appropriate, no ruling will be issued. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those stated in section 9.05.

SEC. 12. DISTRICT OFFICE REFERRAL OF MATTERS TO THE NATIONAL OFFICE

.01 Request for determination letters received by District Directors that, under the provisions of this revenue procedure, may not be acted upon by a District Office, will be forwarded to the National Office for reply. The District Office will let the taxpayer know that this action has been taken. District Directors will also refer to the National Office any request for a determination letter that in their judgment should have the attention of the National Office.

.02 If the request involves an issue on which the Service will not issue a ruling or determination letter, the request will not be forwarded tot the National Office. The District Office will let the taxpayer know that the Service will not issue a ruling or a determination letter on the issue. See section 8.01 of this revenue procedure.

SEC. 13. REFERRAL OF MATTERS TO DISTRICT OFFICES

Requests for rulings received by the National Office that, under section 5 of this revenue procedure, may not be acted upon by the National Office will be forwarded to the District Office that has examination jurisdiction over the taxpayer's return. The taxpayer will be notified of this action. If the request is on an issue or in an area of the type discussed in section 8.01 and it is decided not to issue a ruling or an information letter, the National Office will let the taxpayer know and the request will then be forwarded to the appropriate District Office for association with the related return.

SEC. 14. REVIEW OF DETERMINATION LETTERS

Determination letters issued under sections 7.01, 7.02, 7.03 and 7.04 are not reviewed by the National Office before they are issued. If a taxpayer believes that a determination letter of this type is in error the taxpayer may ask the District Director to reconsider the matter. The taxpayer may also ask the District Director to request technical advice from the National Office. In such an event the procedures in Rev. Proc. 86-2 must be followed.

SEC. 15. WITHDRAWAL OF REQUESTS

A request for a ruling or determination letter may be withdrawn at any time before the signing of the letter of reply. If a request for a ruling is withdrawn, the National Office may give its views on the subject matter of the request to the District Director whose office will have examination jurisdiction over the taxpayer's return for consideration in connection with any later examination of the taxpayer's return. Even though a request is withdrawn, all correspondence and exhibits will be kept by the Service and will not be returned to the taxpayer. In appropriate cases, the Service may publish its findings in a revenue ruling or revenue procedure.

SEC. 16. ORAL ADVICE TO TAXPAYERS

.01 The Service does not issue rulings or determination letters on oral requests. However, personnel in the rulings divisions ordinarily will discuss with taxpayers or their representatives inquiries regarding: substantive tax issues; whether the Service will rule on particular issues; and questions relating to procedural matters about submitting ruling requests (including the application of section 9, of this revenue procedure, to a particular case). Any discussion of substantive issues will be at the discretion of the Service on a time-available basis, and will not be binding on the Service.

.02 A taxpayer may seek oral technical assistance from a Taxpayer Service Representative in a District Office or Service Center when preparing a return or report, under other established procedures. Oral advice is advisory only and the Service is not bound to recognize it in the examination of the taxpayer's return.

SEC. 17. EFFECT OF RULINGS

.01 A taxpayer may not rely on a ruling issued to another taxpayer. A ruling, except to the extent incorporated in a closing agreement, may be revoked or modified at any time under appropriate circumstances. See section 4.08 for the effect of a closing agreement. If a ruling is revoked or modified, the revocation or modification applies to all years open under the statutes, unless the Commissioner or the Commissioner's delegate exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the revocation or modification. The manner in which the authority generally is exercised is given later in this section. For information on rulings relating to the sale or lease of articles subject to the manufacturer's excise tax and the retailer's excise tax, see section 17.08.

.02 When determining a taxpayer's liability, the District Director must ascertain whether (1) any ruling previously issued to the taxpayer has been properly applied, (2) the representations upon which the ruling was based reflected an accurate statement of the material facts, and (3) the transaction actually was carried out substantially as proposed. If, in the course of determining the tax liability, the District director finds that a ruling should be modified or revoked, the findings and recommendations of the District Director will be forwarded to the National Office for consideration before further action. Such a referral to the National Office will be treated as a request for technical advice and the procedures of Rev. Proc. 86-2 will be followed. Otherwise the ruling is to be applied by the District Office in its determination of the taxpayer's liability.

.03 Appropriate coordination with the National Office will be undertaken if any field official having jurisdiction over a return or other matter proposes to reach a conclusion contrary to a ruling previously issued to the taxpayer.

.04 A ruling found to be in error or not in accord with the current views of the Service may be modified or revoked. Modification or revocation of a ruling may be made by (1) a notice to the taxpayer to whom the ruling was issued, (2) an enactment of legislation or ratification of a tax treaty, (3) a decision of the United States Supreme Court, (4) the issuing of temporary or final regulations, or (5) the issuing of a revenue ruling, a revenue procedure, or other statement published in the Internal Revenue Bulletin. Consistent with these provisions, if a ruling relates to a continuing action or a series of actions, the ruling will ordinarily be applied until any one of the actions described above has taken place, or until specifically withdrawn. Publication of a notice of proposed rulemaking will not affect the application of any ruling issued under the procedures stated in this revenue procedure.

.05 Except in rare or unusual circumstances, the revocation or modification of a ruling will not be applied retroactively to the taxpayer for whom the ruling was issued or to a taxpayer whose tax liability was directly involved in the ruling if (1) there has been no misstatement or omission of material facts, (2) the facts developed later are not materially different from the facts on which the ruling was based, (3) there has been no change in the applicable law, (4) the ruling was originally issued with respect to a prospective or proposed transaction, and (5) the taxpayer directly involved in the ruling acted in good faith in reliance upon the ruling and the retroactive revocation would be to the taxpayer's detriment. For example, the tax liability of each shareholder is directly involved in a ruling on the reorganization of a corporation. However, the tax liability of members of an industry is not directly involved in a ruling issued to one of the members, and the holding in a revocation or modification of a ruling to one member of an industry may be retroactively applied to other members of the industry. By the same reasoning, a tax practitioner may not obtain the nonretroactive application to one client of a modification or revocation of a ruling previously issued to another client. If a ruling is revoked by letter with retroactive effect, the letter will, except in fraud cases, state the grounds upon which the revocation is being made and the reasons why the revocation is being applied retroactively.

.06 A ruling issued on a particular transaction represents a holding of the Service on that transaction only. However, the application of that ruling to the transaction will not be affected by the later issuing of regulations (either temporary or final), if the conditions specified in section 17.05 are met. If the ruling is later found to be in error or no longer in accord with the position of the Service, it will not give the taxpayer protection for a like transaction in the same year or later year.

.07 However, if a ruling is issued covering a continuing action or a series of actions and it is determined that the ruling was in error, or no longer in accord with the position of the Service, the Associate Chief Counsel (Technical) ordinarily will limit the retroactivity of the revocation or modification to a date that is not earlier than that on which the ruling is modified or revoked. To illustrate, if a taxpayer receives a ruling that certain payments are excludable from gross income for federal income tax purposes and it is later determined that the ruling is in error or no longer in accord with the position of the Service, the Associate Chief Counsel (Technical) ordinarily will restrict the retroactive application of the revocation or modification of the ruling. If a taxpayer rendered service or provided a facility that is subject to the excise tax on services or facilities, and in reliance on a ruling issued to the same taxpayer did not pass the tax on to the user of the service of the facility, the Associate Chief Counsel (Technical) ordinarily will restrict the retroactive application of the revocation or modification of the ruling. If an employer incurred liability under the Federal Insurance Contributions Act, but in reliance on a ruling made to the same employer, neither collected the employee tax nor paid the employee and employer taxes under the Act, the Associate Chief Counsel (Technical) ordinarily will restrict the retroactive application of the revocation or modification of the ruling for both the employer tax and the employee tax. In the last situation, however, the restriction of retroactive application ordinarily will be conditioned on the furnishing by the employer of wage data, as may be required by section 31.6011(a)-1 of the Employment Tax Regulations.

.08 A ruling holding that the sale or lease of a particular article is subject to the manufacturer's excise tax or the retailer's excise tax may not retroactively revoke or modify an earlier ruling holding that the sale or lease of such an article was not taxable, if the taxpayer to whom the ruling was issued, in reliance upon the earlier ruling, parted with possession or ownership of the article without passing the tax on to the customer. Section 1108(b), Revenue Act of 1926.

.09 For rulings involving completed transactions, other than those described in sections 17.07 and 17.08, taxpayers will not be given the protection against retroactive revocation provided in section 17.05, since they will not have entered into the transactions in reliance on the ruling.

SEC. 18. EFFECT OF DETERMINATION LETTERS

A determination letter issued by a District Director has the same effect as a ruling issued to a taxpayer under section 17 of this revenue procedure. However, if the District Director is of the opinion that a conclusion contrary to that expressed in the determination letter is indicated, the matter need not be referred to the National Office. A District Director may not limit the modification or revocation of a determination letter but may refer the matter to the National Office for the possible exercise by the Commissioner of the Commissioner's delegate of the authority to limit the modification or revocation.

SEC. 19. EFFECT OF INFORMATION LETTERS

An information letter issued by the National Office or by a District Director is advisory only and the provisions of section 17 do not apply.

SEC. 20. PROCEDURE FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF RULINGS AND DETERMINATION LETTERS

.01 Pursuant to section 7805(b) of the Code, it is within the discretion of the Commissioner or the Commissioner's delegate to prescribe the extent, if any, to which any ruling (including termination letters) will be applied without retroactive effect.

A taxpayer to whom a ruling or determination letter has been issued may request that the Associate Chief Counsel (Technical), the Commissioner's delegate, exercise the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of any subsequent revocation or modification of the ruling or determination letter.

.02 In the case of a ruling, a request to limit the retroactive effect of the revocation or modification of a ruling must be in the form of, and meet the requirements for, a ruling request generally. These requirements are set forth in section 9 of this revenue procedure. Specifically, the request must state that it is being made pursuant to section 7805(b), contain a statement of the relief sought and an explanation of the reasons and arguments in support of the relief requested, and also be accompanied by any documents bearing on the request. The explanation in support of the application of section 7805(b) should include a discussion of the five items enumerated in section 17.05 of this revenue procedure as they relate to the taxpayer's particular situation.

A request for the application of section 7805(b) of the Code may take the form of a separate request for ruling when, for example, a revenue ruling has the effect of modifying or revoking a ruling previously issued to the taxpayer or when the Service notifies the taxpayer of a change in position that will have the effect of revoking or modifying such a ruling. However, when such notice is given by the District Director during the course of an examination of the taxpayer's return, or during consideration by the Chief, Appeals Office, a request to limit the retroactive effect of the modification or revocation of a ruling must be made in the form of a request for technical advice. See section 12.03 of Rev. Proc. 86-2. When germane to a pending ruling request, a request for the application of section 7805(b) may be made as part of the request, either initially or at any time before the ruling is issued. When a ruling that concerns a continuing transaction is modified or revoked by, for example, a subsequent revenue ruling, a request to limit the retroactive effect of the modification or revocation of the ruling must be made before the return is examined that contains the transaction that is the subject of the request for ruling.

.03 When a request for the application of section 7805(b) of the Code is made in a separate ruling request, the taxpayer has the right to a conference in the National Office in accordance with the provisions of section 11 of this revenue procedure. If the request is made initially as part of a pending ruling request or is made before the conference of right is held on the substantive issues, the section 7805(b) issue will be discussed at the taxpayer's one conference of right. (See section 11.05 of this revenue procedure). If the request for the application of section 7805(b) is made as part of a pending ruling request after a conference has been held on the substantive issue, and the Service determines that there is justification for having delayed the request, then the taxpayer will have the right to one conference of right concerning the application of section 7805(b) with the conference limited to discussion of this issue.

.04 In the case of a determination letter that the District Director proposes to modify or revoke, a request to limit the modification or revocation of the determination letter must be made by requesting the District Director who issued the determination letter to seek technical advice from the National Office, since a District Director has not been delegated authority under section 7805(b) of the Code to limit the modification or revocation of a determination letter. See section 12.03 of Rev. Proc. 85-2. The Taxpayer's request must state that it is being made pursuant to section 7805(b), contain a statement of the relief sought and an explanation of the reasons and arguments in support of the relief requested, and also be accompanied by any documents bearing on the request. The explanation in support of the application of section 7805(b) should include a discussion of the five items enumerated in section 17.05 of this revenue procedure as they relate to the taxpayer's particular situation.

.05 When technical advice is requested with respect to the application of section 7805(b) of the Code under the circumstances set forth in .04 above, the taxpayer has a right to a conference in the National Office to the same extent as does any taxpayer who is the subject of a technical advice request. See section 8 of Rev. Proc. 86-2.

SEC. 21. EFFECT OF OTHER DOCUMENTS

Rev. Proc. 85-1, as modified by Rev. Proc. 85-50 and as amplified by Rev. Proc. 85-57, is superseded.

.04 Conditions for nonretroactivity

SECTION 12. PROCEDURES FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF TECHNICAL ADVICE

.01 Application of section 7805(b) of the Code
.02 Form of request to limit retroactivity before a return is filed—continuing transaction
.03 Form of request to limit retroactivity during course of an examination
.04 Form of request to limit retroactivity—technical advice that does not modify or revoke prior memorandum
.05 Taxpayer's right to conference

SECTION 13. EFFECT ON OTHER DOCUMENTS

SECTION 1. PURPOSE

The purpose of this revenue procedure is to update Rev. Proc. 85-2, 1985-1 C.B. 452, which provides revised procedures for furnishing technical advice to District Directors and Chiefs, Appeals Offices, by the Associate Chief Counsel (Technical). It also tells taxpayers about their rights when a District Director or a Chief, Appeals office, requests such advice. Changes to this revenue procedure will be incorporated annually in a new revenue procedure published as the second revenue procedure of the year.

SEC. 2. SCOPE

.01 The Chief Counsel through the Associate Chief Counsel (Technical) provides principles and rules for uniformly interpreting and applying the federal tax laws under the jurisdiction of the Associate Chief Counsel (Technical). The procedures for obtaining technical advice specifically applicable to federal firearms, alcohol and tobacco taxes under subtitle E of the Internal Revenue Code are under the jurisdiction of the Bureau of Alcohol, Tobacco and Firearms. The procedures for obtaining technical advice specifically on employee plans and exempt organizations are under the jurisdiction of the Assistant Commissioner (Employee Plans and Exempt Organizations). See Rev. Proc. 80-26, 1980-1 C.B. 671. The procedures that apply to technical advice for employee plans and exempt organizations are followed in obtaining technical advice on exemption of farmers' cooperatives from tax under section 521 of the Code, even though the Associate Chief Counsel (Technical) has jurisdiction for issuing technical advice under this section. The Associate Chief Counsel (Technical) also has jurisdiction for issuing technical advice under section 526, on shipowners' protection and indemnity associations; section 527 (a), (b), (c), (d), (e), and (g), on political organizations; and section 528, on certain homeowners' associations, under this revenue procedure.

.02 In the Office of the Associate Chief Counsel (Technical), the authority to issue technical advice has been largely redelegated to the Branch Chiefs in the Individual Tax Division and the Corporation Tax Division.

SEC. 3. CHANGES

.01 A table of contents has been added to the beginning of this revenue procedure to assist taxpayers and Service personnel.

.02 Section 5.13 has been added to set forth the requirements for filing Form 2848 (Power of Attorney) with requests for technical advice.

SEC. 4. DEFINITIONS AND NATURE OF TECHNICAL ADVICE

.01 For purposes of this revenue procedure, the word "taxpayer" includes all persons subject to any provision of the Internal Revenue Code and, when appropriate, their representatives and issuers of section 103 obligations.

.02 Any reference to the National Office means only the Office of the Associate Chief Counsel (Technical).

.03 Any reference to District Director or District Office includes the office of the Director of the Foreign Operations District, where appropriate. Any reference to Chief, Appeals Office, includes Associate Chief, Appeals Office.

.04 "Technical advice" means advice or guidance furnished by the National Office upon requests of a District or an Appeals Office in response to any technical or procedural question that develops during any stage of any proceeding on the interpretation and proper application of tax law, tax treaties, regulations, revenue rulings, or other precedents published by the National Office to a specific set of facts. Such proceedings include (1) the examination of a taxpayer's return, (2) consideration of a taxpayer's claim for refund or credit, or (3) any other matter involving a specific taxpayer under the jurisdiction of the Chief, Examination Division, such as the consideration of a taxpayer's application to enter into an agreement about the useful life method, and rate of depreciation of business property provided by section 167(d) of the Code. These proceedings include an examination to determine whether obligations issued are described in section 103(a). They also include processing and considering nondocketed cases in an Appeals Office. Technical advice is furnished as a way of helping Service personnel close cases and establish and maintain consistent holdings throughout the Internal Revenue Service. A District Director or an Appeals Office may raise an issue in any tax period, even though technical advice may have been asked for and furnished for the same or a similar issue for another tax period. Technical advice does not include memoranda on matters of general technical application furnished to District or Appeals Offices when the issues are not raised in connection with a proceeding involving a specific taxpayer.

.05 If a District Director, Chief, Appeals Office, or a taxpayer requests technical advice on a determination letter under section 521 of the Code, the procedures under Rev. Proc. 80-26, 1980-1 C.B. 671, and Rev. Proc. 84-46, 1984-1 C.B. 541, as well as section 601.201(n) of the Statement of Procedural Rules must be followed.

.06 Only the National Office can revoke a ruling letter. Therefore, if a District Director or a Chief, Appeals Office, thinks that a ruling letter previously issued to a taxpayer should be modified or revoked, the procedures in section 5 of this revenue procedures must be followed.

.07 The provisions of this revenue procedure apply only to a case under the jurisdiction of a District director or Chief, Appeals Office. Technical advice may be requested on issues considered in a prior Appeals disposition, not based on mutual concessions for the same tax period of the same taxpayer, if the Appeals Office that had the case concurs in the request. A District Director may not request technical advice on an issue if an Appeals Office is currently considering an identical issue of the same taxpayer (or of a related taxpayer within the meaning of section 267 of the Code or a member of an affiliated group of which the taxpayer is also a member within the meaning of section 1504). A case remains under the jurisdiction of the District Director even though an Appeals Office has the identical issue under consideration in the case of another taxpayer (not related within the meaning of sections 267 and 1504, respectively) in an entirely different transaction. With respect to the same taxpayer or the same transaction, when the issue is under the jurisdiction of an Appeals Office, and the applicability of more than one kind of tax is dependent upon the resolution of that issue, a District Director may not request technical advice on the applicability of any of the taxes involved.

SEC. 5. REQUESTING TECHNICAL ADVICE

.01 The District of Appeals Office is responsible for determining whether to request technical advice on any issue being considered. Each request must be submitted through channels and signed by a person who is authorized to sign for the District Director or Chief, Appeals Office, and should include, in writing, the arguments submitted by the District or Appeals Office in support of its position on the issue or issues. All requests for technical advice from Appeals Offices should be submitted to Associate Chief Counsel (Technical) through the Director, Appeals Division, CC:AP:PT. However, while the case is under the jurisdiction of the District Director or the Chief, Appeals Office, a taxpayer may request that an issue be referred to the National Office for technical advice. All requests for technical advice should be made at the earliest possible stage of the proceedings. The grounds for a request are that a lack of uniformity exists on the disposition of the issue or that the issue is unusual or complex enough to warrant consideration by the National Office. Taxpayers may also request technical advice when seeking an extension of time fixed by regulations for making an election or application for relief pursuant to section 1.9100-1 of the Income Tax Regulations. See section 5.11 of this revenue procedure for additional information. Although taxpayers are encouraged to make written requests setting forth the facts, law, and argument on the issue, and reasons for requesting National Office technical advice, they may make the request orally. If, after considering the taxpayer's request, the examining officer or Appeals Officer thinks that the circumstances do not warrant referral of the case to the National Office, the examining officer or Appeals Officer will tell the taxpayer. (See section 6 for taxpayer's appeal rights when an examining officer or an Appeals Officer declines to request technical advice).

.02 When technical advice is going to be requested, whether or not on the request of the taxpayer, the taxpayer will be told about it and given a copy of the arguments submitted by the District Director or Chief, Appeals Office, in support of its position on the issue or issues, except as noted in section 5.10. If the examining officer or the Appeals Officer initiates the action, the Service will give the taxpayer a copy of the statement of the pertinent facts and the questions proposed for submission to the National Office. The request for technical advice should be worded to avoid possible misunderstanding in the National Office of the facts or the specific points at issue.

.03 If the Service initiates the request for technical advice, the taxpayer has 10 calendar days after receiving the statement of facts and specific questions to indicate in writing any disagreement about them. The taxpayer must justify in writing an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office. Every effort should be made to reach agreement on the facts and the specific points at issue. If agreement cannot be reached, the taxpayer may send, within 10 calendar days after receipt of notice, a statement of the taxpayer's understanding of the new specific points at issue. This statement will be forward to the National Office with the request for technical advice. The taxpayer must justify in writing an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office.

.04 If the taxpayer initiates the action to request technical advice and the taxpayer's statement of the facts and points at issue is not wholly acceptable to the District or Appeals Office, the Service will tell the taxpayer in writing what the areas of disagreement are. The taxpayer has 10 calendar days after receiving the written notice to reply to it. The taxpayer must justify in writing an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division or the Chief, Appeals Office. If agreement cannot be reached, both the statements of the taxpayer and the District or Appeals Office will be forwarded to the National Office with the request for technical advice.

.05 If it has not already been done, the taxpayer may submit a statement explaining the taxpayer's position on the issues and citing precedents that the taxpayer believes will bear on the case. This statement will be forwarded to the National Office with the request for technical advice. If the taxpayer's statement is received after the request for technical advice has been forwarded to the National Office, it will be forwarded there to be associated with the request for technical advice. The taxpayer is encouraged to comment on any legislation, tax treaties, regulations, revenue rulings, revenue procedures, or court decisions contrary to the taxpayer's position.

.06 At the time the taxpayer is told that the matter is being referred to the National Office, the taxpayer will also be told about the right to a conference in the National Office if an adverse decision is indicated and will be asked to say whether such a conference is desired.

.07 In connection with requests for technical advice, the taxpayer also has the same 10 days as in sections 5.03 and 5.04 to submit the statement described in section 5.09 of proposed deletions under section 6110(c) of the Code. If the taxpayer does not submit it, the District Director or the Chief, Appeals Office, will tell the taxpayer that such a statement is required. If the District Director or the Chief, Appeals Office, does not receive that statement within 10 days after such notification, the District Director or the Chief, Appeals Office, may decline to submit the request for technical advice. If the District Director or the Chief, Appeals Office, decides to request technical advice in a case in which the taxpayer has not submitted the statement of proposed deletions, the National Office will make those deletions that the Commissioner determines are required by section 6110(c).

.08 The requirements for submitting statements and other material for proposed deletions in technical advice memoranda before public inspection is allowed do not apply to requests for any documents to which section 6104 of the Code applies.

.09 To help the National Office make the deletions required by section 6110(c) of the Code in technical advice memoranda to be made open to public inspection under section 6110(a), a deletions statement must accompany requests. The statement must either state that no information other than names, addresses, and identifying numbers need be deleted, or if more information is proposed to be deleted, the statement must indicate the deletions proposed by the taxpayer. If the latter alternative is chosen, the statement must be made in a separate document, and it must be accompanied by a copy of all statements of facts and supporting documents that are submitted to the National Office under sections 5.03 and 5.04. The material that the taxpayer wants deleted must be shown in brackets. The statement of proposed deletions must show the statutory basis, under section 6110(c), for each proposed deletion. The statement of proposed deletions must not appear or be referred to anywhere in the request for technical advice. If the taxpayer decides to request additional deletions under section 6110(c) before the National Office replies to the request of technical advice, the taxpayer may submit additional statements. The procedures in this paragraph also apply to additional information submitted during consideration of the technical advice request.

.10 The provisions of this section (about referring issues upon the taxpayer's request, telling the taxpayer about the referral of issues, giving the taxpayer a copy of the arguments submitted by the District Director or Chief, Appeals Office, in support of its position on the issue or issues, submitting proposed deletions, and granting conferences in the National Office) do not apply to technical advice memoranda, described in section 6110(g)(5)(A) of the Code, on cases involving criminal or civil fraud investigations and jeopardy or termination assessments. However, in these cases the taxpayer may provide the statement of proposed deletions to the National Office after all proceedings in the investigations or assessments are complete but before the Commissioner mails the notice, under section 6110(f)(1), of intention to disclose the technical advice memorandum.

.11 See Rev. Proc. 79-63, 1979-2 C.B. 578, which concerns applications for extension of the time for making an election or application for relief pursuant to section 1.9100-1 of the Income Tax Regulations. If a taxpayer requests an extension of time under section 1.9100-1 during an examination or when being considered by an Appeals Office, the procedures of Rev. Proc. 86-2 are applicable, except for Sec. 6. The examination officer or Appeals Officer is not authorized to deny consideration of a request for technical advice that involves section 1.9100-1 relief. All such requests must be referred to the National Office. See section 4.03 of Rev. Proc. 79-63.

.12 Form 4463, Request for Technical Advice, should be used for transmitting requests for technical advice to the National Office.

.13 Any authorized representative, whether or not enrolled to practice, must comply with the conference and practice requirements of the Statement of Procedural Rules (26 CFR 601). Form 2848, Power of Attorney, and Form 2848-D, Authorization and Declaration, may be used with regard to requests for technical advice under this revenue procedure.

SEC. 6. APPEAL BY TAXPAYERS OF DISTRICT OR APPEALS OFFICE DETERMINATION NOT TO SEEK TECHNICAL ADVICE

.01 If the examining officer or Appeals Officer thinks that a taxpayer's request for referral of an issue to the National Office for technical advice does not warrant referral, the examining officer or Appeals Officer will tell the taxpayer.

.02 The taxpayer may appeal the decision of the examining officer or the Appeals Officer not to request technical advice by submitting to that official, within 10 calendar days after being told of the decision, a statement of the facts, law, and arguments on the issue, and the reasons why the taxpayer believes the matter should be referred to the National Office for technical advice. The taxpayer must justify in writing a request for an extension of time beyond the 10 calendar days. The justification must be approved by the Chief, Examination Division, or the Chief, Appeals Office.

.03 The examining officer or the Appeals Officer submits the taxpayer's statement through channels to the Chief, Examination Division, or the Chief, Appeals Office, along with the examining officer's or the Appeals Officer's statement of why the issue should not be referred to the National Office. The Chief determines, on the basis of the statement, whether technical advice will be requested. If the Chief determines that technical advice is not warranted and proposes to deny the request, the taxpayer is told in writing about the determination. In the letter to the taxpayer, the Chief states the reasons for the proposed denial (except in unusual situations when doing so would be prejudicial to the best interests of the Government). The taxpayer has 10 calendar days after receiving the letter to notify the Chief of agreement or disagreement with the proposed denial. The taxpayer may not appeal the decision of the Chief, Examination Division, or the Chief, Appeals Office, not to request technical advice from the National Office. However, if the taxpayer does not agree with the proposed denial, all data on the issue for which technical advice has been sought, including the taxpayer's written request and statements, will be submitted to the Assistant Commissioner (Examination) or the Director, Appeals Division, for review. If the Assistant Commissioner (Examination) or the Director, Appeals Division, thinks the circumstances warrant it, he or she may consult the Associate Chief Counsel (Technical) or his or her representatives. After this review, the District Office or the Appeals Office is notified whether the proposed denial is approved or disapproved.

.04 While the matter is being reviewed, the District Office or the Appeals Office suspends action on the issue (except when the delay would prejudice the Government's interest) until it is notified that the proposed denial is approved or disapproved. This notification is made within 30 calendar days after receipt of the data. The review is solely on the basis of the written record and no conference is held on the matter.

SEC. 7. WITHDRAWAL OF REQUESTS

.01 The District Director or Chief, Appeals Office, may withdraw a request for technical advice at any time before the responding transmittal memorandum is signed. The District Director or Chief, Appeals Office, must notify the taxpayer in writing of intent to withdraw the request for technical advice except (1) when the period of limitation on assessment is about to expire and the taxpayer has declined to sign a consent to extend the period, or (2) when such notification would be prejudicial to the best interests of the government. If the taxpayer does not agree that the request for technical advice should be withdrawn, the procedure in section 6 of this revenue procedure must be followed.

.02 When a request for technical advice is withdrawn, the National Office may send its views to the District Director or the Chief, Appeals Office, when acknowledging the withdrawal request. In an Appeals case, acknowledgment of the withdrawal request should be sent to the appropriate Appeals Office, through the Director, Appeals Division, CC:AP:PT. In appropriate cases, the subject matter may be published as a revenue ruling or as a revenue procedure.

SEC. 8. CONFERENCES IN THE NATIONAL OFFICE

.01 If after an analysis of the technical advice request it appears that advice adverse to the taxpayer will be given, and if a conference has been requested, the taxpayer will be told, by telephone if possible, the time and place of the conference. The conference must be held within 21 calendar days after such contact has been made. If conferences are being arranged for more than one request for technical advice for the same taxpayer, they will be scheduled to cause the least inconvenience to the taxpayer. An extension of the 21-day period will be granted only if the taxpayer justifies it in writing and the Chief or Assistant Chief of the technical branch to which the case is assigned approves it. Because the purpose of these procedures is to facilitate the technical advice process, requests for extensions should be justified by compelling facts and circumstances. The request for extension should be submitted before the end of the 21-day period. If unusual circumstances near the end of the 21-day period make a written request impractical, within the 21-day period the National Office should be told orally about the problem and of the forthcoming written request for extension. These requests must be promptly submitted. The taxpayer or taxpayer's representative will be told promptly and later in writing of the approval or denial of the requested extension. There is no right to appeal the denial of an extension request. If it is not advised of problems with meeting the 21-day period, or if the request is not sent promptly after the National Office is notified of problems with meeting the 21-day period, the Service will process the case on the basis of the existing record.

.02 A taxpayer is entitled by right to only one conference in the National Office unless one of the circumstances discussed in this section exists. This conference is normally held at the branch level in the appropriate division (Individual Tax Division or Corporation Tax Division) of the office of the Associate Chief Counsel (Technical). It is attended by a person who has authority to sign the transmittal memorandum discussed in section 9.07 on behalf of the Branch Chief. When more than one branch has taken an adverse position on an issue within its jurisdiction presented in a request for technical advice, or when the position ultimately adopted by one branch will affect another branch's determination, a representative from each branch with authority to sign for the Branch Chief will attend the conference. In appropriate cases, the examining officer or the Appeals Officer may also attend the conference to clarify the facts in the case. If more than one subject is discussed at the conference, the discussion constitutes a conference for each subject. To promote a free and open discussion of the issues, the conference usually is held after the branch has an opportunity to study the case. However, the taxpayer may request that the conference of right be held at a stage earlier in the consideration of the case than the Service would ordinarily designate. The taxpayer has no right to appeal the action of a branch to a Division Director or to any other official of the Service.

.03 Because conference procedures are informal, no tape, stenographic, or other verbatim recording of a conference is made.

.04 The senior Service representative at the conference ensures that the taxpayer has full opportunity to present views on all the issues in question. The Service representatives explain the Service's tentative decision on the substantive issues and the reasons for it. If prospective application under section 7805(b) of the Code is advanced by the taxpayer, the Service representative will discuss the tentative recommendation concerning the request for relief and the reason for the tentative recommendation. No commitment will be made as to the conclusion that the Service will finally adopt.

.05 An invitation to an individual conference is made if, after the conference of right, an adverse holding is proposed either (1) on a new issue or (2) on the same issue but on grounds different from those discussed at the first conference. When a proposed holding is reversed at a higher level with a result less favorable to the taxpayer, the taxpayer has no right to another conference if the grounds or arguments on which the reversal is based were discussed at the conference of right. The limitation on the number of conferences to which a taxpayer is entitled does not prevent inviting a taxpayer to attend further conferences when National Office personnel think they are necessary. These additional conferences are held only at the invitation of the National Office.

.06 The taxpayer is responsible for furnishing in writing to the National Office within 21 calendar days after the conference any additional data, line of reasoning, precedents, etc., that the taxpayer proposed and that were discussed at the conference but not previously or adequately presented in writing. An extension of the 21-day period may be granted only if the taxpayer justifies it in writing and the Chief or the Assistant Chief of the Technical branch to which the case is assigned approves it. Procedures for requesting an extension of the 21-day period and notifying the taxpayer or the taxpayer's representative of the Service's decision are the same as those in section 8.01. Any additional material should be submitted in duplicate to the National Office. If the additional information would have a significant impact on the facts in the request for technical advice, the National Office sends a copy to the District Director or the Chief, Appeals Office, for comment on the facts contained in the additional information submitted. The District Director or the Chief, Appeals Office, gives the matter prompt attention.

.07 A taxpayer must get information on the status of the request for technical advice by contacting the District or Appeals Office that requested the technical advice.

.08 A District Director or a Chief, Appeals Office, may get current information on the status of the request for technical advice by calling the person whose name and telephone number are shown on the acknowledgment of receipt of the request for technical advice.

SEC. 9. PREPARATION OF TECHNICAL ADVICE MEMORANDUM BY THE NATIONAL OFFICE

.01 As soon as the request for technical advice is assigned, the technical employee analyzes the file to see whether it meets all requirements of section 5. If it does not comply with the requirements of section 5.09 relating to the statement of proposed deletions, the National Office makes the deletions from the technical advice memorandum that the Commissioner determines are required by section 6110(c) of the Code.

.02 Usually, within 21 calendar days after the Branch Office receives the request for technical advice, a representative of the Branch telephones the District or Appeals Office to discuss the procedural and substantive issues in the request that come within the Branch's jurisdiction. The Branch representative informs the District or Appeals Office:

(a) that the case is being returned because substantial additional information is required to resolve an issue, because significant unresolved factual variances exist between the statements of facts submitted by the District or Appeals Office and the taxpayer, or because major procedural problems cannot be resolved by phone; or

(b) that the case is not being returned but more information is needed or minor procedural deficiencies exist; or

(c) what the Branch representative's tentative conclusion is and the estimated date that the technical advice memorandum will be mailed; or

(d) that a tentative conclusion has not been reached because of the complexity of the issue and the estimated date the tentative conclusion will be made.

.03 Within 21 calendar days after the Branch receives the additional information requested in section 9.02(b), the Branch representative telephones the District or Appeals Office to discuss the procedural and substantive issues in the request that come within the jurisdiction of the Branch. The representative indicates either (1) the tentative conclusion and the estimated date the technical advice memorandum will be mailed, or (2) the fact that a tentative conclusion has not been reached because of the complexity of the issue and the estimated date the tentative conclusion will be made.

.04 Because the Branch representative's tentative conclusion may change during the preparation and review of the technical advice memorandum, it is not, under any circumstances, considered final. The District or Appeals Office may not tell the taxpayer what the tentative conclusion is.

.05 When the technical advice request concerns matters within the jurisdiction of more than one Branch or more than one office in the same Branch, a representative of the Branch that received the original technical advice request informs the District or Appeals Office within the initial 21 calendar day period: (1) that the matters within the jurisdiction of another Branch or another office in the same Branch have been referred to the other Branch or office for consideration, and (2) that a representative of the other Branch or office will contact the District or Appeals Office about the referral of the technical advice request within 21 calendar days after receiving it in accordance with section 9.02.

.06 Generally, before replying to the request for technical advice, the National Office informs the taxpayer orally or in writing of the material likely to appear in the technical advice memorandum which the taxpayer proposed be deleted but which the Service determined should not be deleted. If so informed, the taxpayer may submit within 10 calendar days any further information, arguments, or other material that should be deleted. The Service attempts, if possible, to resolve all disagreements about proposed deletions before the National Office replies to the request for technical advice. However, the taxpayer does not have the right to a conference to resolve any disagreements about material to be deleted from the text of the technical advice memorandum. These matters, however, may be considered at any conference otherwise scheduled for the request.

.07 Replies to requests for technical advice are addressed to the District Director or the Chief, Appeals Office. When a request for technical advice is from Appeals, the response to the appropriate Appeals Office will be routed through the Director, Appeals Division, CC:AP:PT. The replies to technical advice requests are in two parts. Each part identifies the taxpayer by name, address, identification number, and year or years involved. The first part of the reply is a transmittal memorandum. In unusual cases it is a way of giving the District or Appeals Office administrative information or other information that under the nondisclosure statutes or for other reasons, may not be discussed with the taxpayer. The second part (the "technical advice memorandum") contains: (1) a statement of the issues; (2) a statement of the pertinent facts in the issues; (3) a statement of the pertinent law, tax treaties, regulations, revenue rulings and other precedents published in the Bulletin, and court decisions; (4) a discussion of the rationale developed by the National Office; and (5) the conclusions of the National Office. The conclusions give direct answers, whenever possible, to the specific questions of the District or Appeals Office. The discussion of the issues is in enough detail so the District or Appeals officials know the reasoning underlying the conclusion. Accompanying the technical advice memorandum is a notice, under section 6110(f)(1) of the Code, of intention to disclose a technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications under section 6110(d)). The District Director or the Chief, Appeals Office, forwards this notice to the taxpayer when the District Director or the Chief, Appeals Office gives a copy of the technical advice memorandum to the taxpayer according to section 9.08.

.08 The general practice of the Service is to give a copy of the technical advice memorandum to the taxpayer after it has been adopted by the District Director or the Chief Appeals Office. However, in the case of technical advice memoranda described in section 6110(g)(5)(A) of the Code, relating to cases involving criminal or civil fraud investigations and jeopardy or termination assessments, a copy of the technical advice memorandum is not given to the taxpayer until all proceedings in the investigations or assessments are completed.

.09 If after receiving the notice under section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum the taxpayer wants to protest the disclosure of certain information in it, the taxpayer must submit a written statement within 20 calendar days identifying those deletions not made by the Service that the taxpayer believes should have been made. The taxpayer must also submit a copy of the version of the technical advice memorandum proposed to be open to public inspection with brackets around deletions that are proposed by the taxpayer but that have not been made by the National Office. Generally, the National Office does not consider the deletion of any material that the taxpayer has not proposed be deleted before the National Office reply is sent to the request for technical advice to the District Director or the Chief, Appeals Office. Within 20 days after it receives the taxpayer's response to the notice under section 6110(f)(1), the National Office must mail the taxpayer its final administrative conclusion about the deletions to be made.

SEC. 10. ACTION ON TECHNICAL ADVICE IN DISTRICT AND APPEALS OFFICES

.01 The District Director or the Chief, Appeals Office, processes the taxpayer's case on the basis of the conclusions in the technical advice memorandum unless (1) the District Director or the Chief, Appeals Office, thinks that the conclusions reached by the National Office in a technical advice memorandum should be reconsidered, or (2) the Chief, Appeals Office, in the case of technical advice unfavorable to the taxpayer, decides to settle the issue in the usual manner under existing authority.

.02 The District Director or the Chief, Appeals Office, gives the taxpayer (1) a copy of the technical advice memorandum described in section 9.07, and (2) the notice under section 6110(f)(1) of the Code of intention to disclose the technical advice memorandum (including a copy of the version proposed to be open to public inspection and notations of third party communications under section 6110(d)). This requirement does not apply to technical advice memoranda involving civil fraud or criminal investigations; jeopardy or termination assessments, as described in section 5.10; or documents to which section 6104 applies.

.03 In those cases in which the National Office tells the District Director or the Chief, Appeals Office, that a copy of the technical advice memorandum should not be given to the taxpayer, the District Director or the Chief, Appeals Office tells this to the taxpayer if the taxpayer requests a copy.

SEC. 11. EFFECT OF TECHNICAL ADVICE

.01 Except in rare or unusual circumstances, a holding in a technical advice memorandum that is favorable to the taxpayer is applied retroactively. Moreover, since technical advice, as described in section 4.04 of this revenue procedure, is issued only on closed transactions, a holding that is adverse to the taxpayer is also applied retroactively unless the Associate Chief Counsel (Technical) exercises the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of the holding.

.02 A holding that modifies or revokes a holding in a prior technical advice memorandum is applied retroactively, with one exception. If the new holding is less favorable to the taxpayer than the earlier one, it generally is not applied to the period in which the taxpayer relied on the prior holding in situations involving continuing transactions.

.03 If a technical advice memorandum relates to a continuing action or a series of actions, it is ordinarily applied until specifically withdrawn or until the conclusion is modified or revoked by enactment of legislation, ratification of a tax treaty, or issuance of a United States Supreme Court decision, regulations (temporary or final), a revenue ruling, or other statement published in the Internal Revenue Bulletin. Publication of a notice of proposed rulemaking does not affect the application of a technical advice memorandum.

.04 Generally, a technical advice memorandum that revokes or modifies a letter ruling or another technical advice memorandum is not applied retroactively for either the taxpayer to whom or for whom the ruling or memorandum was originally issued or for a taxpayer whose tax liability was directly involved in such ruling or memorandum if: (1) there has been no misstatement or omission of material facts; (2) the facts later developed are not materially different from the facts on which the ruling or memorandum was based; (3) there has been no change in the applicable law; (4) the ruling was originally issued for a prospective or proposed transaction; and (5) the taxpayer directly involved in the ruling or memorandum acted in good faith in relying on the ruling or memorandum and the retroactive revocation would be to the taxpayer's detriment. The tax liabilities of members of an industry are not directly affected by a ruling or a memorandum issued to or for one of the members. The holding in a revocation or modification of a ruling or a memorandum to or for one member of an industry may be retroactively applied to other members of that industry. A tax practitioner may not obtain the nonretroactive application for one client. When a ruling to a taxpayer or a memorandum involving a taxpayer is revoked with retroactive effect, the notice to the taxpayer, except in fraud cases, sets forth the grounds on which the revocation is being made and the reasons why the revocation is being applied retroactively.

SEC. 12. PROCEDURES FOR REQUESTING APPLICATION OF SECTION 7805(b) IN THE CASE OF TECHNICAL ADVICE

.01 Pursuant to section 7805(b) of the Code, it is within the discretion of the Commissioner or the Commissioner's delegate to prescribe the extent, if any, to which any ruling (including technical advice) will be applied without retroactive effect.

A taxpayer to whom a technical advice memorandum has been addressed or with respect to whom a technical advice request is pending may request that the Associate Chief Counsel (Technical), the Commissioner's delegate, exercise the discretionary authority under section 7805(b) of the Code to limit the retroactive effect of any holding stated in the technical advice memorandum or to limit the retroactive effect of any subsequent modification or revocation of the technical advice memorandum.

.02 When a technical advice memorandum that concerns a continuing transaction is modified or revoked by, for example, a subsequent revenue ruling or final regulations, a request to limit the retroactive effect of the modification or revocation of the technical advice memorandum must be made in the form of a request for a ruling when the request is submitted before the return is examined that contains the transaction that is the subject of the request for ruling. See section 20.02 of Rev. Proc. 86-1, page 6, this Bulletin.

.03 When a taxpayer is informed of the modification or revocation of a technical advice memorandum, ruling letter, or determination letter during the course of an examination of the taxpayer's return by the District Director or during consideration by the Chief, Appeals Office, a request to limit the retroactive application of the modification or revocation of the technical advice memorandum, ruling letter, or determination letter must itself be made in the form of a request for technical advice. See section 5 of this revenue procedure. However, the taxpayer must also submit a statement, which will be forwarded to the National Office with the request for technical advice, that the request for technical advice is being made pursuant to section 7805(b) of the Code. This statement must also set for the relief sought and an explanation of the reasons and arguments in support of the relief requested, and it must be accompanied by any documents bearing on the request. The explanation in support of the application of section 7805(b) should include a discussion of the five items enumerated in section 11.04 of this revenue procedure as they relate to the taxpayer's particular situation.

.04 A request to limit the retroactive effect of a holding in a technical advice memorandum that does not modify or revoke a technical advice memorandum may be made as part of that technical advice request, either initially, or at any time before the technical advice memorandum is issued by the National Office. In such a case, the taxpayer must also submit a statement in support of the application of section 7805(b) of the Code, as described in .03 above.

.05 When a request for technical advice concerns only the application of section 7805(b) of the Code, the taxpayer has the right to a conference in the National Office in accordance with the provisions of section 8 of this revenue procedure. If the request for application of section 7805(b) is included in the request for technical advice on the substantive issues or is made before the conference of right on the substantive issues, the section 7805(b) issue will be discussed at the taxpayer's one conference of right. If the request for the application of section 7805(b) is made as part of a pending technical advice request after a conference has been held on the substantive issue, and the Service determines that there is justification for having delayed the request, then the taxpayer will have the right to one conference of right concerning the application of section 7805(b) with the conference limited to discussion of this issue.

SEC. 13 EFFECT ON OTHER DOCUMENTS

Rev. Proc. 85-2 is superseded.

---

26 CFR 601.201: Rulings and determination letters.

Rev. Proc. 86-3

SECTION 1. PURPOSE AND NATURE OF CHANGES

.01 The purpose of this revenue procedure is to update Rev. Proc. 85-22, 1985-1 C.B. 550, as amplified and modified by subsequent revenue procedures, by providing a revised list of those areas of the Internal Revenue Code under the jurisdiction of the Associate Chief Counsel (Technical) in which the Internal Revenue Service will not issue advance rulings or determination letters.

.02 Changes

1 New section 3.0133 refers to section 871. See Rev. Proc. 85-59, 1985-50 I.R.B. 16.

2 New section 3.0134 refers to section 956. See Rev. Proc. 85-59, 1985-50 I.R.B. 16.

3 New section 4.014 refers to section 103. See Rev. Proc. 85-28, 1985-1 C.B. 581.

4 New section 5.13 refers to sections 331, 337, 453, and 1239. See Rev. Proc. 85-24, 1985-1 C.B. 558.

5 Old Sections 5.19 and 5.31 have been deleted. See Rev. Proc. 85-34, 1985-29 I.R.B. 13, and Rev. Proc. 85-27, 1985-1 C.B. 580.

SEC. 2. BACKGROUND AND SCOPE OF APPLICATION

.01 Background

Whenever appropriate in the interest of sound tax administration, it is the policy of the Service to answer inquiries of individuals and organizations regarding their status for tax purposes and the tax effects of their acts or transactions, prior to the filing of returns or reports that are required by the revenue laws.

There are, however, certain areas in which, because of the inherently factual nature of the problems involved, or for other reasons, the Service will not issue advance rulings or determination letters. These areas are set forth in three sections of this revenue procedure. Section 3 reflects those areas in which advance rulings and determinations will not be issued. Section 4 sets forth those areas in which they will not ordinarily be issued. "Not ordinarily" connotes that unique and compelling reasons must be demonstrated to justify a ruling or determination letter. Those sections reflect a number of specific questions and problems as well as general areas. Section 5 lists specific areas for which the Service is temporarily not issuing advance rulings and determinations because those matters are under extensive study.

With respect to the items listed, revenue rulings or revenue procedures may be published in the Internal Revenue Bulletin from time to time to provide general guidelines regarding the position of the Service.

Additions or deletions to this revenue procedure as well as restatement of items listed will be made by modification of this revenue procedure. Changes will be published as they occur throughout the year and will be incorporated annually in a new revenue procedure published as the third revenue procedure of the year. These lists should not be considered all inclusive. Decisions not to rule on individual cases, as contrasted with those that present significant pattern issues, are not reported in this revenue procedure and will not be added to subsequent revisions.

The authority and general procedures of the Technical Function of the National Office of the Internal Revenue Service or the Offices of the District Directors of the Internal Revenue with respect to the issuance of advance rulings and determination letters with respect to Code sections under the jurisdiction of the Associate Chief Counsel (Technical) are outlined in Rev. Proc. 86-1, page 6, this Bulletin.

.02 Scope of Application.

This revenue procedure is not to be considered as precluding the submission of requests for technical advice to the National Office from the Office of a District Director of the Internal Revenue or a Chief, Appeals Office.

SEC. 3. AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED

.01 Specific questions and problems.

1 Section 79.—Group Term Life Insurance Purchased for Employees.—Whether a group insurance plan for 10 or more employees qualifies as group-term insurance if the amount of insurance is not computed under a formula that would meet the requirements of section 1.79-1(c)(2)(ii) if the group consisted of fewer than 10 employees.

2 Section 83.—Property Transferred in Connection with Performance of Services.—Whether a restriction constitutes a substantial risk of forfeiture if the employee is a controlling shareholder. Also, whether a transfer has occurred if the amount paid for a purported transfer of property involves a nonrecourse obligation.

3 Section 105(h).—Amount Paid to Highly Compensated Individuals under a Discriminatory Self-Insurance Medical Expense Reimbursement Plan.—Whether, following a determination that a self-insured medical expense reimbursement plan is discriminatory, that plan had previously made reasonable efforts to comply with tax discrimination rules.

4 Section 117.—Scholarships and Fellowship Grants.—Whether an employer-related scholarship or fellowship grant is excludable from the employee's gross income if there is no intermediary private foundation distributing the grants, as there was in Rev. Proc. 76-47, 1976-2 C.B. 670.

5 Section 119.—Meals or Lodging Furnished for the Convenience of the Employer.—Whether the value of meals or lodging is excludable from gross income by an employee who is a controlling shareholder of the employer.

6 Sections 121 and 1034.—One-Time Exclusion of Gain from Sale of Principal Residence by Individual Who Has Attained Age 55; Rollover of Gain on Sale of Principal Residence.—Whether property qualifies as the taxpayer's principal residence.

7 Section 162.—Trade or Business Expenses.—Whether compensation is reasonable in amount.

8 Section 163.—Interest.—The income tax consequences of transactions involving 'shared appreciation mortgage" (SAM) loans in which a taxpayer, borrowing money to purchase real property, pays a fixed rate of interest on the mortgage loan below the prevailing market rate and will also pay the lender a percentage of the appreciation in value of the real property upon termination of the mortgage. This applies to all SAM arrangements where the loan proceeds are used for commercial or business activities, or where used to finance a personal residence if the facts are not similar to those described in Rev. Rul. 83-51, 1983-1 C.B. 48. (Also sections 61, 451, 461, 856, 1001, and 7701).

9 Section 170.—Charitable, Etc., Contributions and Gifts.—Whether a charitable lead interest qualifies as a guaranteed annuity interest for purposes of section 170(f)(2)(B) of the Code if that interest may be prepaid before the expiration of the specified term of that interest or before the death of the life or lives used to measure the term of such interest.

10 Section 170.—Charitable, Etc., Contributions and Gifts.—Whether a taxpayer who advances funds to a charitable organization and receives therefor a promissory note may deduct as contributions, in one taxable year or in each of several years, amounts forgiven by the taxpayer in each of several years by endorsement on the note.

11 Section 213(a).—Medical, Dental, Etc., Expenses.—Whether a capital expenditure for an item that is ordinarily used for personal, living, or family purposes, such as a swimming pool, has as its primary purpose the medical care of the taxpayer or the taxpayer's spouse or dependent, or is related directly to such medical care.

12 Section 264(b).—Certain Amounts Paid in Connection with Insurance contracts.—Whether "substantially all" the premiums of a contract of insurance are paid within a period of 4 years from the date on which the contract is purchased. Also, whether an amount deposited is in payment of a "substantial number" of future premiums on such a contract.

13 Section 264(c)(1).—Certain Amounts Paid in Connection with Insurance Contracts.—Whether section 264(c)(1) of the Code applies.

14 Section 269.—Acquisitions Made to Evade or Avoid Income Tax.—Whether an acquisition is within the meaning of section 269 of the Code.

15 Section 274.—Disallowance of Certain Entertainment, Etc., Expenses.—Whether a taxpayer who is traveling away from home on business may, in lieu of substantiating the actual cost of meals, deduct a fixed per-day amount for meal expenses that differs from the amount prescribed in Rev. Proc. 83-71, 1983-2 C.B. 590, or any later revenue procedure that modifies Rev. Proc. 83-71.

16 Section 302.—Distributions in Redemption of Stock.—Whether section 302(b) of the Code applies when the consideration given in redemption by a corporation consists entirely or partly of its notes payable, and the shareholder's stock is held in escrow or as security for payment of the notes with the possibility that the stock may or will be returned to the shareholder in the future, upon the happening of specified defaults by the corporation.

17 Section 302.—Distributions in Redemption of Stock.—Whether section 302(b) of the Code applies when the consideration given in redemption by a corporation in exchange for a shareholder's stock consists entirely or

partly of the corporation's promise to pay an amount based on, or contingent on, future earnings of the corporation, when the promise to pay is contingent on working capital being maintained at a certain level, or any other similar contingency.

18 Section 302.—Distributions in Redemption of Stock.—Whether section 342(b) of the Code applies to a redemption of stock if after the redemption the distributing corporation uses property that is owned by the shareholder from whom the stock is redeemed and the payments by the corporation for the use of the property are dependent upon the corporation's future earnings or are subordinate to the claims of the corporation's general creditors. Payments for the use of property will not be considered to be dependent upon future earnings merely because they are based on a fixed percentage of receipts or sales.

19 Section 302.—Distributions in Redemption of Stock.—Whether the acquisition or disposition of stock described in section 302(c)(2)(B) of the Code has, or did not have, as one of its principal purposes the avoidance of federal income taxes within the meaning of that section, unless the facts and circumstances are materially identical to those set forth in Rev. Rul. 56-556, 1956-2 C.B. 177, Rev. Rul. 56-584, 1956-2 C.B. 179, Rev. Rul. 57-387, 1957-2 C.B. 225, Rev. Rul. 77-293, 1977-2 C.B. 91, Rev. Rul. 79-67, 1979-1 C.B. 128, or Rev. Rul. 85-19 1985-1 C.B. 94.

20 Section 302(b)(4) and (e) (pre-TEFRA sections 346(a)(2) and (b)).—Partial Liquidation.—The amount of working capital attributable to a business or portion of a business terminated that may be distributed in partial liquidation.

21 Sections 311 and 336.—Taxability of Corporation on Distribution; General Rule.—Upon distribution of property in kind by a corporation to its shareholders, in complete liquidation under section 331 of the Code (when under the facts a sale of the property by the corporation would not qualify under section 337) and section 346(a) (pre-TEFRA section 346(a)(1)), in partial liquidation under section 302(b)(4) and (e) (Pre-TEFRA sections 346(a)(2) an (b)) or in redemption of stock under section 302(a), followed by a sale of the property, whether the sale can be deemed to have been made by the corporation under the doctrine of *Commissioner v. Court Holding Company*, 324 U.S. 331 (1945), 1945 C.B. 58.

22 Section 312.—Effect on Earnings and Profits.—The determination of the amount of earnings and profits of a corporation.

23 Section 368(a)(1)(B).—Definitions Relating to Corporate Reorganizations.—The acceptability of an estimation procedure or the acceptability of a specific sampling procedure to determine the basis of stock acquired by an acquiring corporation in a reorganization described in section 368(a)(1)(B).

24 Section 368(a)(1)(E).—Definitions Relating to Corporate Reorganizations.—Whether a transaction constitutes a corporate recapitalization within the meaning of section 368(a)(1)(E) of the Code (or a transaction that also qualifies under section 1036) except when the recapitalization is an integral part of a larger transaction and it is impossible to determine the tax consequences of the larger transaction without making a determination with regard to the recapitalization.

25 Section 451.—General Rule for Taxable Year of Inclusion.—The tax consequences of a nonqualified unfunded deferred compensation arrangement with respect to a controlling shareholder employee eligible to participate in the arrangement.

26 Sections 451 and 457.—General Rule for Taxable Year of Inclusion; Deferred Compensation Plans with Respect to Service for State and Local Governments.—The tax consequences to unidentified independent contractors in nonqualified unfunded deferred compensation plans. This applies to plans established under section 451 of the Code by employers in the private sector and to eligible state plans under section 457. However, a ruling with respect to a specific independent contractor's participation in such a plan may be issued.

27 Section 453.—Revolving Credit Sales as Installment Sales.—Whether a proposed sampling procedure will be acceptable by the Service for the purpose of determining the portion of revolving credit balances to be treated as installment account balances. See Rev. Proc. 64-4, 1964-1 (Part 1) C.B. 644, and Rev. Proc. 65-5, 1965-1 C.B. 720.

28 Section 641.—Imposition of Tax.—Whether the period of administration or settlement of an estate is reasonable or unduly prolonged.

29 Section 642(c).—Deduction for Amounts Paid or Permanently Set Aside for a Chargeable Purpose.—Allowance of an unlimited deduction for amounts set aside by a trust or estate for charitable purposes when there is a possibility that the corpus of the trust or estate may be invaded.

30 Section 704(b)(2).—Partner's Distributive Share Determined.—Whether the allocation to a partner under the partnership agreement of income, gain, loss, deduction, or credit (or an item thereof) has substantial economic effect.

31 Section 704(e).—Family Partnerships.—Matters relating to the validity of a family partnership when capital is not a material income producing factor.

32 Section 856.—Definition of a Real Estate Investment Trust.—Whether a corporation whose stock is "paired" with or "stapled" to stock of another corporation will qualify as a real estate investment trust under section 856 of the Code if the activities of the corporations are integrated.

33 Section 871(g)(1)(B).—Original Issue Discount Obligations.—Whether a debt instrument having original issue discount within the meaning of section 1273 is not an original issue discount obligation within the meaning of section 871(g)(1)(B)(i) when the instrument is payable 183 days or less from the date of original issue (without regard to the period held by the taxpayer) and such debt instrument is issued by a domestic corporation and is purchased by its controlled foreign corporation.

34 Section 956(b)(1)(C).—United States Property Defined.—Whether an indebtedness is excludable from the definition of the term "obligation" under section 1.956-2(d)(2)(ii) of the regulations because the indebtedness is collected within one year from the time it is incurred or matures within one year from the time it is incurred but is not collected within such period solely by reason of the inability or unwillingness of the debtor to make payment within such period.

35 Section 1221.—Capital Asset Defined.—Whether specialty stock al-

located to an investment account by a registered specialist on a national securities exchange is a capital asset.

36 Section 1551.—Disallowance of Surtax Exemption and Accumulated Earnings Credit.—Whether a transfer is within section 1551 of the Code.

37 Section 2031.—Definition of Gross Estate.—Actuarial factors for valuing interests in the prospective gross estate of a living person.

38 Section 2055.—Transfers for Public, Charitable and Religious Uses.—Whether a charitable lead interest qualifies as a guaranteed annuity interest for purposes of section 2055(e)(2)(b) of the Code if that interest may be prepaid before the expiration of the specified term of that interest or before the death of the life or lives used to measure the term of such interest.

39 Section 2512.—Valuation of Gifts.—Actuarial factors for valuing prospective or hypothetical gifts of a donor.

40 Section 2522.—Charitable and Similar Gifts.—Whether a charitable lead interest qualifies as a guaranteed annuity interest for purposes of section 2522(c)(2)(B) of the Code if that interest may be prepaid before the expiration of the specified term of that interest or before the death of the life or lives used to measure the term of such interest.

41 Section 7701.—Definitions.—Whether a foreign arrangement that is a participant in a domestic arrangement classified as a partnership for U.S. tax purposes will itself be classified as a partnership.

42 Section 7701.—Definitions.—Whether a foreign limited liability company will be classified as a partnership if the taxpayer requests classification as a partnership and (1) the taxpayer is a corporation and less than 20 percent of the interests in the limited liability company are held by independent parties or (2) the taxpayer is not a corporation and independent parties hold only a nominal interest in the company.

43 Section 7701.—Definitions.—Whether an organization, formed in a state that has a statute corresponding to the Uniform Limited Partnership Act or the Revised Uniform Limited Partnership Act, lacks the corporate characteristic of continuity of life where, in the case of the removal of a general partner, the partnership agreement allows less than a majority in interest of limited partners to elect a new one to continue the partnership.

44 Section 7701.—Definitions.—Whether a limited partnership will be classified as a partnership if the partnership agreement does not provide that, notwithstanding anything to the contrary that may be expressed or implied in the agreement, the interests of all of the general partners, taken together, in each material item of partnership income, gain, loss, deduction, or credit is equal to at least one percent of each such item at all times during the existence of the partnership. In determining the general partners' interests in such items, limited partnership interests owned by the general partners shall not be taken into account.

45 Section 7701.—Definitions.—Whether a limited partnership will be classified as a partnership if the partnership agreement does not expressly provide that, upon the dissolution and termination of the partnership, the general partners will contribute to the partnership an amount equal to: (a) the deficit balances in their capital accounts; or (b) the excess of 1.01 percent of the total capital contributions of the limited partners over the capital previously contributed by the general partners; or (c) the lesser of (a) or (b).

.02 General Areas

1 The results of transactions that lack bona fide business purpose or have as their principal purpose the reduction of federal taxes.

2 A matter upon which a court decision adverse to the government has been handed down and the question of following the decision or litigating further has not yet been resolved.

3 A matter involving the prospective application of the estate tax to the property or the estate of a living person.

4 A matter involving alternate plans of proposed transactions or involving hypothetical situations.

5 A matter involving the federal tax consequences of any proposed federal, state, local or municipal legislation. The Service may provide general information in response to an inquiry.

6 Whether reasonable cause exists under Subtitle F (Procedure and Administration) of the Code.

7 Whether a proposed transaction would subject the taxpayer to a criminal penalty.

8 A request that does not comply with the provisions of Rev. Proc. 86-1.

9. Whether, under the common law rules applicable in determining the employer-employee relationship, a professional staffing corporation (loan-out corporation) or the subscriber is the employer of individuals if:

(a) the loan-out corporation hires employees of the subscriber and assigns the employees back to the subscriber or;

(b) the loan-out corporation assigns individuals to subscribers for more than a temporary period (1 year or longer).

SEC. 4. AREAS IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT ORDINARILY BE ISSUED

.01 Specific questions and problems.

1 Sections 38, 39, 46, and 48.—Investment Tax Credit.—Application of these sections where the formal ownership of property is in a party other than the taxpayer, except when title is held merely as security.

2 Section 61.—Gross Income Defined.—Determination as to who is the true owner of property in cases involving the sale of securities, or participation interests therein, where the purchaser has the contractual right to cause the security, or participation interest therein, to be purchased by either the seller or a third party.

3 Sections 61 and 163.—Gross Income Defined; Interest.—Determinations as to who is the true owner of property or the true borrower of money in cases in which the formal ownership of the property or liability for the indebtedness is in another party.

4 Section 103.—Interest on Certain Governmental Obligations.—Whether the interest on state and local governmental obligations will be excludable from gross income under section 103(a) of the Internal Revenue Code if the proceeds of issues of obligations (other than advance refunding issues) are placed in escrow or otherwise not expended for a governmental purpose for an extended period of time even though the proceeds are invested at a yield that will not exceed the yield on the governmental obligations prior to their expenditure.

5 Section 103.—Interest on Certain Governmental Obligations.—Whether municipal bonds will meet the "security interest test" under section 103(b)(2)(B)

of the Code and section 1.103-7(b)(4) of the regulations because an underlying arrangement is inferred, as illustrated in Rev. Rul. 80-251, 1980-2 C.B. 40, and Rev. Rul. 80-339, 1980-2 C.B. 42, when payments not pledged as security for the bonds are received in respect of the bond-financed property used in the trade or business of nonexempt persons in an amount equal to more than 25 percent of the principal or interest payments on the bonds.

6 Section 103.—Interest on Certain Governmental Obligations.—Whether an issue of industrial development bonds is exempt under section 103(b) of the Code when 10 percent or more of the proceeds of the issue (minus "neutral costs," as described in Rev. Rul. 80-171, 1980-2 C.B. 44) are used to finance a facility in what an owner (or a related person) or a lessee (or a related person), who was a user of the facility at any time before the bonds were issued, will be a user of the facility after the bonds are issued.

7 Section 103.—Interest on Certain Governmental Obligations.—Whether amounts received as proceeds from the sale of municipal bond financed property and pledged to the payment of debt service or pledged as collateral for the municipal bond issue are sinking fund proceeds within the meaning of section 1.103-13(g) of the Income Tax Regulations or replaced proceeds described in section 103(c)(2)(B) of the Internal Revenue Code.

8 Section 162.—Trade or Business Expenses.—Whether the requisite risk shifting and risk distribution necessary to constitute insurance are present for purposes of determining the deductibility under section 162 of amounts paid (premiums) by a taxpayer for insurance, unless the facts of the transaction are within the scope of Rev. Rul. 77-316, 1977-2 C.B. 53, or Rev. Rul. 78-338, 1978-2 C.B. 107.

9 Section 167.—Depreciation.

(a) Useful lives of assets.

(b) Depreciation rates.

(c) Salvage value of assets.

10 Sections 167 and 168.—Depreciation; Accelerated Cost Recovery System.—Application of these sections where the formal ownership of property is in a party other than the taxpayer, except when title is held merely as security.

11 Section 170(c).—Charitable, etc., Contributions and Gifts.—Whether a taxpayer who transfers property to a charitable organization and thereafter leases back all or a portion of the transferred property, may deduct the fair market value of the property transferred and leased back as a charitable contribution.

12 Section 302.—Distribution in Redemption of Stock.—The tax effect of the redemption of stock for notes, when the payments on the notes are to be made over a period in excess of 15 years from the date of issuance of such notes.

13 Section 302(b)(4) and (e)(pre-TEFRA section 346(a)(2)).—Partial Liquidation.—Whether a distribution will qualify as a distribution in partial liquidation under section 302(b)(4) and (e)(1)(A) (pre-TEFRA section 346(a)(2)) of the Code unless it results in a 20 percent or greater reduction in (1) gross revenue, (2) net fair market value of assets, and (3) employees.

14 Sections 302(b)(4) and (e) (Pre-TEFRA sections 346(a)(2) and (b)), 331, 332, 333 and section 346(a) (Pre-TEFRA section 346(a)(1)).—Effects on Recipients of Distributions in Corporate Liquidations.—The tax effect of the liquidation of a corporation preceded or followed by the reincorporation of all or a part of the business and assets when more than a nominal amount of the stock (that is, more than 20 percent in value) of both the liquidating corporation and the transferee corporation is owned by the same shareholders; or when a liquidation is followed by the sales of the corporate assets by the shareholders to another corporation in which such shareholders own more than a nominal amount of the stock (that is, more than 20 percent in value).

15 Section 306.—Disposition of Certain Stock.—Whether the distribution or disposition or redemption of "section 306 stock" in a closely held corporation is in pursuance of a plan having as one of its principal purposes the avoidance of federal income taxes within the meaning of section 306(b)(4) of the Code.

16 Sections 331 and 346(a).—Gain or Loss to Shareholders in Corporate Liquidations.—The tax effect of the liquidation of a corporation by a series of distributions, when the distributions in liquidation are to be made over a period in excess of 3 years from the adoption of the plan of liquidation.

17 Section 337.—Gain or Loss; Certain Liquidations.—The application of this section to a corporation upon the sale of property, in connection with its liquidation, to another corporation, when more than a nominal amount of the stock (that is, more than 20 percent in value) of both the selling corporation and the purchasing corporation is owned by the same persons.

18 Section 341.—Collapsible Corporations.—Whether a corporation will be considered to be a "collapsible corporation," that is, whether it was "formed or availed of" with the view of certain tax consequences. However, ruling requests will be considered on this matter when the enterprise (1) has been in existence for at least 20 years or has clearly demonstrated that it has realized two-thirds of the taxable income to be derived from the manufacturing, constructing, producing, or purchasing of property as stated in section 341(b)(1)(A) of the Code and as described in Rev. Rul. 72-48, 1972-1 C.B. 102, (2) has had an aggregate change in the shareholders' interests of not more than 10 percent during that period (except for transfers among family members, as defined in section 267(c)(4), or redemptions of stock to pay death taxes pursuant to section 303), and (3) has conducted substantially the same trade or business during that period. The period referred to in (2)and (3) above is the lesser of 20 years of corporate existence or the period in which the enterprise has realized two-thirds of the taxable income from activities specified in section 341(b)(1)(A).

19 Section 351.—Transfers to Controlled Corporation.—The tax effect of the transfer when part of the consideration received by the transferors consists of bonds, debentures, or any other evidence of indebtedness of the transferee and the term of the "indebtedness" is either less than 10 years or a determination as to whether the "indebtedness" is properly classified as debt or equity is required in order to establish that the requirements of section 351 are met.

20 Section 355.—Distribution of Stock and Securities of a Controlled Corporation.—Whether the active business requirement of section 355(b) of the Code is met when, within the 5-year period described in section

1355(b)(2)(B), a distributing corporation acquired control of a controlled corporation as a result of the distributing corporation transferring cash or other liquid or inactive assets to the controlled corporation in a transaction in which gain or loss was not recognized as a result of the transfer meeting the requirements of section 351(a) or 368(a)(1)(D).

21 Section 816.—Definition of Life Insurance Company.—Whether the requisite risk shifting and risk distribution necessary to constitute insurance are present for purposes of determining if a company is an "insurance company" under section 1.801-3(a) of the regulations, unless the facts of the transaction are within the scope of Rev. Rul. 77-316, 1977-2 C.B. 53, or Rev. Rul. 78-338, 1978-2 C.B. 107.

22 Section 864.—Definitions.—Whether a taxpayer is engaged in trade or business within the United States and whether income is effectively connected with the conduct of a trade or business within the United States.

23 Section 871.—Tax on Nonresident Alien Individuals.—The determination as to whether an alien individual is either a resident or nonresident of the United States will not be made with respect to situations in which the determination is dependent on factual representations that cannot be confirmed until the close of the alien individual's affected taxable year(s), that is, representations concerning an alien individual's projected stay and activities in the United States.

24 Sections 894.—Income Affected by Treaty.—Whether a taxpayer has a permanent establishment in the United States for the purpose of any United States Income Tax Treaty.

25 Section 897(e).—Coordination with Nonrecognition Provisions—Whether any nonrecognition provision shall apply for purposes of section 897, unless the transaction clearly falls within the provision of section 897(e)(1). See Rev. Rul. 84-160, 1984-2 C.B. 125.

26 Section 901.—Taxes of Foreign Countries and of Possessions of United States.—Whether a person claiming credit has established, based on all of the relevant facts and circumstances, the amount, if any, paid by the dual capacity taxpayer pursuant to the qualifying levy, that is not paid in exchange for a specific economic benefit. Section 1.901-2A(c)(2) of the regulations.

27 Section 992.—Requirements of a Domestic International Sales Corporation.—The tax effects of a Domestic International Sales Corporation's stock being held by individuals who are also shareholders in a related supplier corporation.

28 Section 7701.—Definitions.—Whether what is generally known as a foreign corporation will be classified as a partnership for U.S. tax purposes if the taxpayer requests classification as a partnership.

29 Section 7701.—Definitions.—Whether a foreign partnership will be classified as an association for U.S. tax purposes if the taxpayer requests classification as an association.

.02 General areas.

1 Any matter in which the determination requested is primarily one of fact, e.g., market value of property, or whether an interest in a corporation is to be treated as stock or indebtedness.

2 The tax effect of any transaction to be consummated at some indefinite future time.

3 Any matter dealing with the question of whether property is held primarily for sale to customers in the ordinary course of trade or business.

4 The tax effect of a transaction if any part of the transaction is involved in litigation among the parties affected by the transaction, except for transactions involving bankruptcy reorganizations.

SEC. 5. AREA UNDER EXTENSIVE STUDY IN WHICH RULINGS OR DETERMINATION LETTERS WILL NOT BE ISSUED UNTIL THE SERVICE RESOLVES THE ISSUE THROUGH PUBLICATION OF A REVENUE RULING, REVENUE PROCEDURE, REGULATIONS OR OTHERWISE

.01 Section 61.—Gross Income Defined.—Whether amounts voluntarily deferred by a taxpayer under a deferred compensation plan maintained by an organization described in section 501 of the Code are currently includible in the taxpayer's gross income.

.02 Sections 61 and 162.—Gross Income Defined; Trade or Business Expenses.—The tax consequences with respect to a salary reduction arrangement under which an employee receives and returns salary amounts to the employer. (Also sections 3121, 3306 and 3401).

.03 Section 79.—Group-Term Life Insurance Purchased for Employees.—Whether life insurance provided for employers under a "retired lives reserve" plan will be considered group-term insurance (also sections 61, 72, 83, 101, 162, 264, and 641).

.04 Section 101.—Certain Death Benefits.—Whether proceeds of "self-insured" life and survivor benefit plans established through a trust qualified under section 501(c)(9) of the Code are excludable from the beneficiary's gross income as amounts paid by reason of the death of the insured under section 101(a).

.05 Section 103.—Interest on Certain Governmental Obligations.—With respect to requests made pursuant to Rev. Proc. 79-12, 1979-1 C.B. 492, whether municipal bonds will meet the "trade or business test" and the "security interest test" under sections 103(b)(2)(A) and (B) of the Code and section 1.103-7(b)(5) of the regulations when the proceeds are used to finance facilities such as electric energy, gas or water facilities and, pursuant to a contract to take, or to take or pay for, a nonexempt person purchases 75 percent or more of the actual output of the facility but less than 25 percent of the subparagraph (5) output of the facility as defined in section 1.103-7(b)(5)(ii)(b) of the regulations.

.06 Section 103.—Interest on Certain Governmental Obligations.—With respect to requests made pursuant to Rev. Proc. 84-49, 1984-1 C.B. 548, whether bonds issued to provide owner-occupied mobile homes (not permanently fixed to real property) are exempt from federal income tax under section 103(a) of the Code.

.07 Section 162—Trade or Business Expenses.—Whether payments paid or accrued by a corporation to an exempt organization as described in section 501(c)(7), (c)(9), (c)(17) or (c)(20) of the Internal Revenue Code, are deductible under section 162.

.08 Sections 162 and 262.—Commuting Expenses.— Whether expenses are non-deductible commuting expenses.

.09 Section 168(f)(8).—Special Rule for Leases.—The tax consequences in certain areas specifically reserved in the

Temporary Income Tax Regulations under the Economic Recovery Act of 1981, relating to special rules for leases. The areas specifically reserved are: section 5c.168(f)(8)-8(b)(9) on retirements and casualties; section 5c.168(f)(8)-9 on the transfer of investment tax credit by section 168(f)(8) leases; section 5c.168(f)(8)-10 on leases between related parties; and section 5c.168(f)(8)-11 on consolidated returns.

.10 Section 216.—Deduction of Taxes, Interest, and Business Depreciation by Cooperative Housing Corporation Tenant-Stockholder.—If a cooperative housing corporation, as defined in section 216(b)(1) of the Code, transfers an interest in real property to a corporation (not a cooperative housing corporation), in exchange for stock or securities of the transferee corporation, which engages in commercial activity with respect to the real property interest transferred, whether (1) the income of the transferee corporation derived from the commercial activity, and (2) any cash and property attributable to the real property interest transferred that may be distributed by the transferee corporation to the cooperative housing corporation, will be considered as gross income of the cooperative housing corporation for the purpose of determining whether 80 percent or more of the gross income of the cooperative housing cooperation is derived from tenant-stockholders within the meaning of section 216(b)(1)(D).

.11 Section 302(b)(4) and (e) (also Pre-TEFRA section 346(a)(2) and (b)).—Partial Liquidation.—Whether the absence of an actual redemption of stock is a meaningless gesture within the meaning of Rev. Rul. 79-257, 1979-2 C.B. 136, as amplified by Rev. Rul. 81-3, 1981-1 C.B. 125, when:

(i) The corporation has outstanding more than one class of stock and there are priorities are dividend or liquidating distributions or any other differences in stock rights, or

(ii) Either under the terms of the stock or as established contractually, there are outstanding any rights affecting the corporation's stock, such as, but not limited to, warrants, options, convertible securities, shareholder agreements, or rights of first refusal.

.12 Section 306(b)(4).—Transactions Not in Avoidance.—Whether section 306(b)(4) of the Code applies to the distribution and disposition or redemption of "section 306 stock" that is subject to mandatory redemption.

.13 Sections 331, 337, 453, and 1239.—The Tax Effects of Installment Sales of Property Between Entities with Common Ownership.—The tax effects of a transaction in which there is a transfer of property by a corporation to a partnership or other noncorporate entity (or the transfer of stock to such entity followed by a liquidation of the corporation) when more than a nominal amount of the stock of such corporation and the capital or beneficial interests in the purchasing entity (that is, more than 20 percent in value) is owned by the same persons, and the consideration to be received by the selling corporation or the selling shareholders includes an installment obligation of the purchasing entity.

.14 Section 334(b)(2) (pre-TEFRA).—Liquidation of Subsidiary.—Whether an acquiring corporation may treat the life insurance reserves received in the liquidation as unsecured liabilities assumed.

.15 Section 336 (pre-TEFRA).—Distribution of Property in Liquidation.—Whether the liquidation of a life insurance subsidiary is a termination pursuant to section 815(d)(2) as in effect before the enactment of the Tax Reform Act of 1984.

.16 Section 338 (pre-TEFRA section 334(b)(2)).—Certain Stock Purchases Treated as Asset Acquisitions.—The Tax consequences, under subchapter L, from the stock purchase and the deemed purchase of the assets of a life insurance subsidiary.

.17 Section 351.—Transfer to Corporation Controlled by Transferor.—Whether section 351 applies to the transfer of widely held developed or undeveloped real property or interests therein; widely held oil and gas properties or interests therein; or any similarly held properties or interests to a corporation in exchange for shares of stock of such corporation when (i) the transfer is the result of solicitation by promoters, brokers, or investment houses, or (ii) the transferee corporation's stock is issued in a form designed to render it readily tradable.

.18 Section 351.—Transfer to Corporation Controlled by Transferor.—Whether section 351 of the Code applies to the transfer of an interest in real property by a cooperative housing corporation (as defined in section 216(b)(1)) to a corporation in exchange for stock or securities of the transferee corporation engages in commercial activity with respect to the real property interest transferred.

.19 Section 368.—Definitions Relating to Corporate Reorganizations.—Whether a transaction qualifies under either section 368(a)(1)(B) or section 351(a) of the Code by reason of Rev. Rul. 67-448, 1967-2 C.B. 144, when the same transaction is structured under sections 368(a)(1)(A) and 368(a)(2)(E) (as a reverse triangular merger) and fails to qualify for an advance ruling under those sections merely because (i) the "substantially all" requirement set forth in section 3.01 of Rev. Proc. 77-37, 1977-2 C.B. 568, is not met, or (ii) the "control" requirement of section 368(a)(2)(E)(ii) is not met where the step transaction doctrine may be applied to treat a prior redemption of stock as part of the plan of reorganization.

.20 Section 422A.—Incentive Stock Options.—Whether Holding (1) of Rev. Rul. 80-244, 1980-2 C.B. 234, relating to section 1036, applies to incentive stock options.

.21 Section 565.—Whether the consent dividend procedure under section 565 applies to corporations other than those corporations to which sections 535, 545, 556, 852, and 857 are applicable.

.22 Section 671.—Trust Income Deductions, and Credits Attributable to Grantor and Others as Substantial Owners.—Whether the grantor will be considered the owner of any portion of a trust when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies of insurance on the life of the grantor or the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, and (4) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.23 Section 704(e).—Family Partnerships.—Any matter relating to a family partnership in which, on formation of the partnership or other specified date, there is a special allocation of an item of income, gain, loss deduction or credit for the purpose of fixing or freezing the value of a partner's partnership interest.

.24 Section 721.—Nonrecognition of Gain or Loss on Contribution.—Whether section 721 applies to the contribution of widely held developed or undeveloped real property or interests therein; widely held oil and gas properties or interest therein; or any similarly held properties or interests to a partnership in exchange for an interest in the partnership when (i) the contribution is the result of solicitation by promoters, brokers, or investment houses, or (ii) - the interest in the transferee partnership is issued in a form designed to render it readily tradable.

.25 Section 801(b)—Life Insurance Company Taxable Income Defined.—Whether the liquidation of a life insurance subsidiary pursuant to either section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination under section 315(d)(2) causing a distribution from the subsidiary's policyholders surplus account.

.26 Section 805(a)(8)—Other Deductions.—Whether a portion of the purchase price of the stock of the life insurance subsidiary is properly allocable to insurance in force.

.27 Section 811 (b)(34)—Amortization of Premium and Accrual of Discount-Exception.— Whether the difference between the face value of bonds held by a life insurance subsidiary liquidating under section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) and the amount allocable to such bonds pursuant to the liquidation is market discount and need not be accrued.

.28 Section 815(d)(2), as in effect before the enactment of the Tax Reform Act of 1984—Termination as Life Insurance Company.—Whether the liquidation of a life insurance subsidiary pursuant to section 334(b)(2) (pre-TEFRA) or section 338 (added by TEFRA) is a termination requiring the application of section 801(c) or section 802(b)(3) as in effect before the enactment of the Tax Reform act of 1984.

.29 Section 816(b).—Life Insurance Reserves Defined.—Whether the life insurance reserves acquired in the liquidation of a life insurance subsidiary qualify as unsecured liabilities assumed by the acquiring corporation for purposes of section 334(b)(2) (pre-TEFRA) and section 338 (added by TEFRA).

.30 Section 818(b)—Treatment of Capital Gains and Losses, etc.—Whether the purchase of the stock of a life insurance subsidiary and its subsequent liquidation under section 334(b)(2) (Pre-TEFRA) or section 338 (added by TEFRA) is, in fact, a purchase of the subsidiary's insurance contracts.

.31 Section 1502.—Regulations.—Whether a parent cooperative housing corporation (as defined in section 216(b)(1)) will be permitted to file a consolidated income tax return with its transferee subsidiary if the transferee engages in commercial activity with respect to the real property interest transferred to it by the cooperative housing corporation.

.32 Section 2503.—Taxable Gifts.—Whether the transfer of property to a trust will be a gift of a present interest in property when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies or insurance on the life of the grantor of the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, (4) the trust beneficiaries have the power to withdraw, on demand, any additional transfers made to the trust, and (5) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.33 Section 2514.—Powers of Appointment.—If the beneficiaries of a trust permit a power of withdrawal to lapse, whether section 2514(e) of the Code will be applicable to each beneficiary in regard to the power when (1) the trust corpus consists or will consist substantially of insurance policies on the life of the grantor or the grantor's spouse, (2) the trustee or any other person has a power to apply the trust's income or corpus to the payment of premiums on policies of insurance on the life of the grantor or the grantor's spouse, (3) the trustee or any other person has a power to use the trust's assets to make loans to the grantor's estate or to purchase assets from the grantor's estate, (4) the trust beneficiaries have the power to withdraw, on demand, any additional transfers made to the trust, and (5) there is a right or power in any person that would cause the grantor to be treated as the owner of all or a portion of the trust under sections 673 to 677.

.34 Sections 3121, 3306, and 3401.—Employment Taxes.—Who is the employer of an "employee-owner" as defined as section 269A of the Code.

.35 Section 7701.—Definitions.—The classification of arrangements formed as trusts under local law, in which the trust borrows money to purchase equipment or property and leases it to third parties, and in which the grantor or grantors have a beneficial interest in the trust and the power to manage the activities of the trust.

.36 Section 7701.—Definitions.—The classification of limited liability companies for federal income tax purposes.

.37 Section 7701.—Definitions.—The classification of an arrangement as a fixed investment trust when the arrangement has multiple classes of equitable ownership.

SEC. 6. EFFECT ON OTHER REVENUE PROCEDURES

Rev. Procs. 85-22, 85-24, 85-27, 85-28, 85-34, and 85-59 are superseded.

Required Distributions from IRAs and Qualified Plans under Sections 401(a)(9), 408(a)(6), and 408(b)(3) of the Internal Revenue Code and Amendments to IRAs as a result of Amendments by Section 521 of the Tax Reform Act of 1984 (Pub. L. 98-369)

Notice 86-1

This notice provides that minimum distributions required for the 1985 calendar year need not be made until December 31, 1986, from qualified plans and individual retirement accounts and annuities (IRAs) pursuant to sections 401(a)(9), 408(a)(6), and 408(b)(3) of the Internal Revenue Code, as amended by section 521 of the Tax Reform Act of 1984 (TRA of 1984). It also provides that an IRA with a current favorable opinion letter need not be amended to provide the distribution rules in section 408(a)(6) and (b)(3), as amended, until further notice.

Section 401(a)(9), as amended, requires qualified plans to make minimum distributions to certain participants and beneficiaries for the 1985 calendar year. Section 408(a)(6) and (b)(3), as amended, requires distributions from IRAs for the 1985 calendar year to be made, pursuant to regulations of the Secretary, under rules similar to those of section 401(a)(9) for qualified plans. Distributions not required to be made until April 1, 1986, shall be considered distributions for the 1985 calendar year. For qualified plans and IRAs (including IRAs from which distributions were required to commence prior to the 1985 calendar year), if minimum distributions required to be made to participants (or individuals) and beneficiaries for the 1985 calendar year are made on or before December 31, 1986, such distributions will be deemed for purposes of sections 401(a)(9), 408(a)(6), and 408(b)(3), as amended, to have been made within the time limits for making minimum distributions for the 1985 calendar year. Minimum distributions required for the 1986 calendar year must also be made on or before December 31, 1986 for those participants (or individuals) and beneficiaries for whom distributions are required for the 1985 calendar year (even if such 1985 calendar year distributions are made in the 1986 calendar year).

Further guidance will be provided in the future with respect to the minimum distribution requirements of sections 401(a)(9), 408(a)(6), and 408(b)(3).

An IRA with a current favorable opinion letter, i.e., issued on or before December 31, 1985, need not be amended to provide the distribution rules in section 408(a)(6) and (b)(3), as amended, until further notice. In addition, a sponsor of an IRA with a current favorable opinion letter should not submit a request for an opinion letter on amendments proposed to be made to comply with section 408(a)(6) and (b)(3), as amending IRAs with current favorable opinion letters, the Service will publish sample language for IRAs, including IRAs used for funding simplified employee pensions (SEPs), that, if adopted, will satisfy section 408(a)(6) and (b)(3). In the case of an existing IRA or a newly established IRA which is established by executing Form 5305 or Form 5305A, the current (Rev. 11-83) editions of those forms may be used until further notice. However, an IRA which does not have a current favorable opinion letter and which is not established by executing Form 5305 or Form 5305A must contain rules similar to the minimum distribution rules in section 401(a)(9), as amended, in order to comply with section 408(a)(6) and 408(b)(3), and thus be the subject of a favorable opinion letter.

The guidance in this Notice may be relied upon to comply with sections 401(a)(9), 408(a)(6) and 408(b)(3), as amended, with respect to distributions for the 1985 calendar year.

Part IV. Items of General Interest

Dispositions by Charitable Organizations of Certain Donated Property

Announcement 86-1

This announcement concerns modification of the rules under section 6050L of the Internal Revenue Code regarding information reporting by charitable organizations that dispose of certain donated property within 2 years after the date of the contribution of the property. This reporting requirement applies only where the donee charity signs an appraisal summary (Form 8283) with respect to the donated property. The donor is required to obtain the donee's signature on an appraisal summary for items whose value when aggregated with that of similar items of property contributed during the donor's taxable year exceeds $5,000. Taxpayers may rely on this announcement until final regulations are issued under section 6050L. The Service expects to issue final regulations in 1986 in which the modifications discussed in this announcement will be incorporated.

Background

On December 31, 1984, the Service published section 1.170A-13T and section 1.6050L-1T of the temporary regulations. Section 1.170A-13T(c) sets forth substantiation requirements that apply to donors for deductions claimed in excess of $5,000 for certain charitable contributions of property. Section 1.170A-13T(c)(1) provides that, for purposes of the donor's determination of whether the claimed value of property he contributed during his taxable year exceeds $5,000, the claimed value of all similar items of property donated to any charitable organization during that year are aggregated. In addition to other requirements, the regulations provide in section 1.170A-13T(c)(2)(i) that an appraisal summary (Form 8283) must be attached to the tax return of the donor on which a deduction for a contribution subject to the regulations is first claimed.

Section 1.6050L-1T(a) provides that, if the donee of any "charitable deduction property" sells, exchanges, or otherwise disposes of the property within 2 years after the date of the contribution of the property, the donee must make an information return on Form 8282. Charitable deduction property is defined in section 1.6050L-1T(d) as any property (other than money or publicly traded securities) contributed after December 31, 1984, with respect to which a donee signs an appraisal summary (as described in section 1.170A-13T(c)(4)).

Donee Reporting Exclusion

Under final regulations donee reporting will not be required with respect to an item of charitable deduction property disposed of by sale if the appraisal summary signed by the donee with respect to the item contains, at the time of the donee's signature, a statement signed by the donor that the appraised value of the item does not exceed $500. In the case of an appraisal summary that includes more than one item, the exclusion is available with respect to an item only if the item is clearly identified as having a value of $500 or less. However, for purposes of the donor's determination of whether the appraised value of the property exceeds $500, all shares of nonpublicly traded stock, or items that form a set (such as, for example, a collection of books written by the same author, components of a stereo system, or six place settings of a pattern of silverware), are considered one item. The requirement to obtain a statement from the donor on the appraisal summary is satisfied with respect to an appraisal summary submitted to the donee on or before January 31, 1986, if the donee obtains the required statement from the donor on or before March 31, 1986, on either an amended appraisal summary or an attachment for the original appraisal summary.

In addition, no reporting will be required with respect to an item consumed or distributed without consideration if the consumption or distribution is in furtherance of a purpose or function constituting a basis for the donee's exemption under section 501 of the Internal Revenue Code. For example, no reporting is required with respect to medical supplies consumed or distributed by a tax-exempt relief organization in aiding disaster victims.

Cumulative List of Announcements Relating to Section 7428(c) Validation of Certain Contributions Made During Pendency of Declaratory Judgment Proceedings from December 2, 1985 through December 31, 1985

The following is a cumulative listing of names of organizations that are presently challenging, under section 7428 of the Internal Revenue Code, the revocation of their status as organizations entitled to receive deductible contributions in declaratory judgment suits in the Tax Court, the United States District Court for the District of Columbia, or the United States Claims Court. The initial announcement listing the names of these organizations appeared as Announcement 85-169 in Internal Revenue Bulletin No. 1985-48, dated December 2, 1985. The purpose of this announcement is to inform potential donors to these organizations of the protection under 7428(c) for certain contributions made during the litigation period.

Protection under section 7428(c) of the Code begins on the date that the notice of revocation is published in the Internal Revenue Bulletin and ends on the date on which a court first determines that an organization is not described in section 170(c)(2), as more particularly set forth in section 7428(c)(1). In the case of individual contributors, the maximum amount of contributions protected during this period is limited to $1,000.00, with a husband and wife being treated as one contributor. This protection is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organizations that were the basis for the revocation. This protection also applies (but without limitation as to amount) to organizations described in section 170(c)(2) which are exempt from tax under section 501(a). If the organization ultimately prevails in its declaratory judgment suit, deductibility of contributions would be subject to the normal limitations set forth under section 170.

The names of organizations that have timely filed declatory judgment suits under section 7428 of the Code, challenging revocation of their status as eligible donees under section 170(c)(2) are listed below.

The Adam School, Inc.	New York, NY
Tony and Susan Alamo Foundation	Alma, AR
American Dental Association Disaster Victims Relief Emergency Loan Fund	Chicago, IL

[1] A cumulative list of all Revenue Rulings, Revenue Procedures, Treasury Decisions, etc. published in Internal Revenue Bulletins 1985-1 through 1985-25 will be found in Internal Revenue Bulletin 1985-26, dated July 1, 1985.

Finding List of Current Action on Previously Published Rulings[1]

Bulletins 1985-26 thru 1985-52

*Denotes entry since last publication

Delegation Orders:

156 (Rev. 5)
Superseded by
156 (Rev. 6), 1985-43 I.R.B. **18**

209
Superseded by
209 (Rev. 1), 1985-44 I.R.B. **16**

Revenue Procedures:

66-3
Modified by
85-56, 1985-46 I.R.B. **45**

76-9
Superseded by
85-58, 1985-48 I.R.B. **39**

76-47
Clarified by
85-51, 1985-44 I.R.B. **16**

78-16
Modified & Superseded by
85-44, 1985-35 I.R.B. **36**

79-2
Superseded by
85-58, 1985-48 I.R.B. **39**

80-30
Amplified by
85-43, 1985-33 I.R.B. **21**

80-39
Clarified by
85-51, 1985-44 I.R.B. **16**

81-12
Superseded by
85-43, 1985-33 I.R.B. **21**

82-61
Modified by
85-49, 1985-40 I.R.B. **26**

83-36
Amplified by
85-43, 1985-33 I.R.B. **21**

84-3
Modified and Superseded by
85-45, 1985-36 I.R.B **56**

84-20
Superseded by
85-33, 1985-26 I.R.B. **20**

84-46
Modified by
85-32, 1985-26 I.R.B. **20**

84-61
Superseded by
85-40, 1985-34 I.R.B. **39**

84-65
Superseded by
85-48, 1985-39 I.R.B.**9**

84-68
Superseded by
85-47, 1985-37 I.R.B. **10**

85-1
Amplified by
85-57, 1935-46 I.R.B. **46**

85-12
Superseded by
85-53, 1984-45 I.R.B. **16**

Revenue Procedure—Continued

85-22
Modified by
85-34, 1985-29 I.R.B. **13**

85-22
Amplified by
85-59, 1985-50 I.R.B. **16**

85-25
Supplemented by
85-52, 1985-44 I.R.B. **17**

Revenue Rulings:

54-396
Distinguished by
85-107, 1985-30 I.R.B. **15**

58-82
Superseded by
85-149, 1985-39 I.R.B. **5**

58-418
Superseded by
85-98, 1985-29 I.R.B. **5**

58-606
Modified & Superseded by
85-150, 1985-39 I.R.B. **5**

59-136
Modified & Superseded by
85-151, 1985-39 I.R.B. **5**

60-225
Superseded by
85-152, 1985-39 I.R.B. **6**

61-1
Amplified by
85-97, 1985-29 I.R.B. **5**

62-140
Amplified by
85-164, 1985-42 I.R.B. **6**

67-129
Obsoleted by
85-123, 1985-32 I.R.B. **8**

68-55
Amplified by
85-164, 1985-42 I.R.B. **6**

70-328
Revoked by
85-126, 1985-33 I.R.B. **5**

70-564
Distinguished by
85-172, 1985-43 I.R.B. **7**

72-526
Revoked by
85-186, 1985-46 I.R.B. **6**

73-156
Clarified by
85-118, 1985-31 I.R.B. **6**

73-586
Superseded by
85-114, 1985-31 I.R.B. **17**

75-445
Distinguished by
85-171, 1985-43 I.R.B. **5**

75-516
Obsoleted by
85-123, 1985-32 I.R.B. **8**

75-517
Revoked by
85-123, 1985-32 I.R.B. **8**

75-518
Revoked by
85-123, 1985 I.R.B. **8**

Revenue Rulings—Continued

75-519
Revoked by
85-123, 1985-32 I.R.B. **8**

75-520
Revoked by
85-123, 1985-32 I.R.B. **8**

77-27
Modified & Superseded by
85-142, 1985-37 I.R.B. **5**

77-253
Modified & Superseded by
85-142, 1985-37 I.R.B. **5**

77-264
Amplified by
85-134, 1985-35 I.R.B. **4**

78-1
Amplified by
85-103, 1985-30 I.R.B. **20**

[1] A cumulative finding list for previously published rulings mentioned in Internal Revenue Bulletins 1985-1 through 1985-25 will be found in Internal Revenue Bulletin 1985-26, dated July 1, 1985.

Index

Internal Revenue Bulletins 1985-26 Through 1985-52

For index of items published during the first six months of 1985, see I.R.B. 1984-26, dated July 1, 1985.

The abbreviation and number in parentheses following the index entry refer to the specific item; numbers in roman and italic type following the parentheses refer to the Internal Revenue Bulletin in which the item may be found and the page number on which it appears.

Key to Abbreviations

RR	Revenue Ruling
RP	Revenue Procedure
TD	Treasury Decision
CD	Court Decision
PL	Public Law
EO	Executive Order
DO	Delegation Order
TDO	Treasury Department Order
TC	Tax Convention
SPR	State of Procedural Rules
PTE	Prohibited Transaction Exemption

Announcement of the Disbarment, Suspension and Consent Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries From Practice Before the Internal Revenue Service

Under Section 330, Title 31 of the United States Code (1970 ed.), the Secretary of the Treasury, after due notice and opportunity for hearing, is authorized to suspend or disbar from practice before the Internal Revenue Service any attorney, certified public accountant, enrolled agent, or enrolled actuary who has violated the rules and regulations governing such practice.

Attorneys, certified public accountants, enrolled agents and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify such disbarred or suspended practitioners, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been disbarred or suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date of disbarment or period of suspension. This announcement will continue to appear in the weekly Bulletin for five successive weeks for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended or disbarred and will later be consolidated and published in the Cumulative Bulletin.

After due notice and opportunity for hearing, the following individual has been disbarred from further practice before the Internal Revenue Service:

Name	Address	Designation	Effective Date
Allan T. Quello	Wayzata, MN	Attorney	October 12, 1985

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and address of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletins for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Arnold Asman	Great Neck, NY	Certified Public Accountant	Indefinite from October 12, 1985
Thomas P. Cornett	Toledo, OH	Enrolled Agent	Indefinite from December 1, 1985
Horace N. Tremelling	Spring Valley, CA	Enrolled Agent	Indefinite from October 17, 1985

Name	Address	Designation	Term of Suspension
Frank Riggsby, Jr.	Sierra Vista, AZ	Enrolled Agent	Indefinite from October 17, 1985
Edward L. Lambert	Rancho Mirage, CA	Certified Public Accountant	From November 6, 1985 Until January 8, 1990
Benjamin Ostfield	Minneapolis, MN	Attorney and Certified Public Accountant	Indefinite from November 20, 1985
Kenneth D. Short	Ellicott City, MD	Attorney	Indefinite from November 6, 1985

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86-2, page 4.

Credit for producing oil from a nonconventional source. A taxpayer may receive the production credit on sales of gas during a calendar year in which the taxpayer also received the incentive price from other sales of gas from the same wells under section 107 of the Natural Gas Policy Act of 1978 (NGPA).

Rev. Rul. 86-3, page 4.

Business expenses; state legislator; legal expenses. A politician may not deduct legal fees under section 162(e)(2) of the Code paid to defend against criminal charges arising from participation in a political campaign in support of a candidate for political office.

Rev. Rul. 86-4, page 5.

Controlled corporations; stock distribution; device to distribute earnings and profits. The transfer of a small percentage of investment assets relative to the other assets transferred by a corporation to a controlled corporation prior to the distribution of the stock of the controlled corporation is a factor to be considered in determining whether the transaction is a device for the distribution of earnings and profits. Rev. Rul. 56-557 clarified.

ADMINISTRATIVE

Rev. Proc. 86-4 page 7.

Electronic filing pilot project. Specifications are set forth for qualified income tax return preparers to file 1985 individual income tax returns electronically.

Announcement 86-2, page 54.

New Form 8308, Report of a Sale or Exchange of Certain Partnership Interests, has been developed for partnerships to report a sale or exchange of all or a part of a partnership interest involving unrealized receivables or substantially appreciated inventory items.

Finding Lists begin on page 57.
Announcement of Suspensions on page 55.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 29.—Credit for Producing Fuel from a Nonconventional Source

Credit for producing oil from a nonconventional source. A taxpayer may receive the production credit on sales of gas during a calendar year in which the taxpayer also received the incentive price from other sales of gas from the same wells under section 107 of the Natural Gas Policy Act of 1978 (NGPA).

Rev. Rul. 86-2

ISSUE

Whether taxpayer is allowed the credit under section 29(a) of the Internal Revenue Code for producing fuel from a nonconventional source for sales of gas during part of a calendar year, notwithstanding that during the same calendar year other sales of gas from the same wells were made under the incentive pricing provisions of section 107 of the Natural Gas Policy Act of 1978 (NGPA).

FACTS

During the first part of the 1983 calendar year, the taxpayer sold gas produced from a tight formation at an incentive price under section 107(b) of the NGPA. But for section 107 of the NGPA, the gas in question would qualify under section 103 (ceiling price for new, onshore production wells) of the NGPA. For the remainder of the calendar year, the taxpayer sold the gas at a price not higher than the maximum lawful price under section 103 of the NGPA. All sales were made to an unrelated person within the meaning of section 29(d)(8) of the Code.

LAW AND ANALYSIS

Section 29(a) of the Internal Revenue Code (formerly section 44D, but renumbered by section 47(c)(1) of the Tax Reform Act of 1984, 1984-3 (Vol. 1) C.B. 1, 333) provides for a credit against income tax of an amount equal to $3 multiplied by the barrel of oil equivalent of qualified fuels which were sold by the taxpayer to an unrelated person during the taxable year, and the production of which is attributable to the taxpayer.

Section 29(e) of the Code provides that subsection (a) applies with respect to natural gas that is produced from a tight formation and that is sold during the taxable year only if that natural gas is sold at a lawful price which is determined without regard to the provisions of section 107 of the NGPA of 1978 and subtitle B of title I of the NGPA.

The provision now contained in section 29(e) was amended by section 611(a) of the Economic Recovery Tax Act of 1981 (ERTA) (1981-2 C.B. 256, 343). Before this amendment, that provision had required that if the taxpayer made an election under section 107(d) of the NGPA to receive the incentive price, the taxpayer could not receive the credit provided by section 29(a) of the Code. This was an irrevocable election that, according to the NGPA, had to be made either before the well was drilled or within 30 days after the passage of any Act providing a tax credit. Because Congress recognized that fluctuating market conditions might cause variation in whether the incentive price or the production credit was more advantageous, what is now section 29(e) was amended to allow the taxpayer to use either one, so long as both are not used for the same gas.

HOLDING

The taxpayer is allowed the production credit under section 29(a) of the Code for sales of gas during part of a calendar year, notwithstanding that during the same calendar year other sales of gas from the same wells were made under the incentive pricing provisions of section 107 of the NGPA.

Section 162.—Trade or Business Expenses

26 CFR 1.162-20: Expenditures attributable to lobbying, political campaigns, attempts to influence legislation, etc., and certain advertising.

Business expenses; state legislator; legal expenses. A politician may not deduct legal fees under section 162(e)(2) of the Code paid to defend against criminal charges arising from participation in a political campaign in support of a candidate for political office.

Rev. Rul. 86-3

ISSUE

If a politician makes expenditures for legal fees to defend against charges of buying votes in an election, are the expenditures deductible under section 162(a) of the Internal Revenue Code?

FACTS

A performed voluntary campaign work on behalf of a candidate in a party primary election for a county law enforcement office. *A* was indicted for buying votes during the course of this campaign work. *A* paid substantial legal fees in connection with the defense of the criminal charges. At the time the alleged illegal acts were committed, *A* was a state legislator and an independent businessman.

LAW AND ANALYSIS

Section 162(a) of the Code provides, in part, that there shall be allowed as a deduction all the ordinary and necessary expenses paid or incurred during the taxable year in carrying on any trade or business.

Section 162(e)(2)(A) of the Code provides, in effect, that no trade or business expense deduction shall be allowed for any amount paid or incurred for participation in, or intervention in, any political campaign on behalf of any candidate for public office.

Section 1.162-20(c)(1) of the Income Tax Regulations provides, in part, that expenditures for political campaign purposes (including the support of, or opposition to, any candidate for public office) are not deductible.

The deductibility of expenses for legal fees depends on the factual context in which the expenses originate. *See United States v. Gilmore*, 372 U.S. 39 (1963), 1963-1 C.B. 355. Thus, whether a taxpayer ultimately is convicted of a criminal offense does not determine deductibility under section 162(a) of costs for defense. A taxpayer may therefore deduct expenses that are incurred for legal fees in an unsuccessful defense against criminal charges if the charges grow out of activities in the taxpayer's trade or business and the expenses are otherwise deductible under section 162(a). *See*

Commissioner v. Tellier, 383 U.S. 687 (1966), 1966-1 C.B. 32.

For purposes of section 162 of the Code, the office of a state legislator is a "trade or business." Section 7701(a)(26) of the Code provides that the term "trade or business" includes the performance of the functions of a public office. *See* Rev. Rul. 84-110, 1984-2 C.B. 35. Therefore, legal expenses incurred "in carrying on" the trade or business of being a state legislator are deductible, unless they are made nondeductible by specific provisions of the Code or regulations.

In the present situation, the criminal charges in connection with which *A* incurred legal fees grew out of *A*'s participation in a political campaign in support of a candidate for public office. Expenditures for purposes of such political campaigns are not deductible under section 162(a) of the Code. *See* section 1.162-20(c)(1) of the regulations. The charges against *A* grew out of a factual context, a political campaign, in which *A*'s expenses are not deductible. *A*'s legal fees in contesting the charges, therefore, are, likewise, not deductible.

HOLDING

Under section 162(e)(2) of the Code, *A* may not deduct legal fees paid to defend against criminal charges arising from *A*'s participation in a political campaign in support of a candidate for public office.

Section 355.—Distribution of Stock and Securities of a Controlled Corporation

26 CFR 1.355-1: Distribution of stock and securities of a controlled corporation.

Controlled corporations; stock distribution; device to distribute earnings and profits. The transfer of a small percentage of investment assets relative to the other assets transferred by a corporation to a controlled corporation prior to the distribution of the stock of the controlled corporation is a factor to be considered in determining whether the transaction is a device for the distribution of earnings and profits. Rev. Rul. 56-557 clarified.

Rev. Rul. 86-4

ISSUE

Whether the transfer of a small percentage of investment assets relative to the other assets transferred by a corporation to a controlled corporation prior to the distribution of the stock of the controlled corporation may be considered evidence that the transaction is a device for the distribution of earnings and profits within the meaning of section 355(a)(1)(B) of the Internal Revenue Code.

FACTS

P corporation has been engaged in the active conduct of two businesses, business *Q* and business *R*, throughout the past 5 years. For bona fide business reasons, *P* is required to separate ownership of the two businesses. Accordingly, *P* proposes to transfer all the assets associated with business *R* and investment assets not related to business *R* to corporation *S*, a newly-formed corporation, in exchange for all the outstanding stock of *S* and the assumption by *S* of related liabilities. *P* will then distribute all the *S* stock to *P*'s shareholders, pro rata. The fair market value of the investment assets is 20*x* dollars, and the fair market value of all the assets associated with business *R* is in excess of 155*x* dollars.

LAW AND ANALYSIS

Section 368(a)(1)(D) of the Code provides that a reorganization includes a transfer by a corporation of all or part of its assets to another corporation if, immediately after the transfer, the transferring corporation, or one or more of its shareholders, or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock of the corporation to which the assets are transferred is distributed in a transaction which qualifies under section 354, 355, or 356.

Section 355(a)(1) of the Code provides generally for the distribution, without recognition of gain or loss to the shareholders, of stock of a corporation controlled by the distributing corporation, provided certain requirements are met. Pursuant to section 355(a)(1)(B), the distribution will not qualify under section 355 if the transaction was used principally as a device for the distribution of the earnings and profits of the distributing corporation, or the controlled corporation, or both. Section 1.355-2(b)(3) of the Income Tax Regulations provides that in determining whether a transaction was used principally as a device for the distribution of earnings and profits, all the facts and circumstances of the transaction must be considered. Particular attention must be paid to the nature, kind, and amount of the assets of the distributing and controlled corporations.

Rev. Rul. 83-114, 1983-2 C.B. 66, holds that a contribution to capital followed by a pro rata distribution of a controlled corporation's stock, while not *per se* a transaction used principally as a device for the distribution of earnings and profits, may constitute evidence thereof. A determination as to whether the transaction is a device for distribution of earnings and profits requires an evaluation of all the facts and circumstances surrounding the transaction, including the business reasons for the contribution to capital and subsequent stock distribution. See also Rev. Rul. 78-383, 1978-2 C.B. 142.

On the other hand, in Rev. Rul. 56-557, 1956-2 C.B. 199, involving facts similar to those described above, it was held that, in connection with the transfer by the distributing corporation to the newly-formed controlled corporation of 155*x* dollars of assets relating to an active business, the transfer of 20*x* dollars of assets having no relation to the transferred business did not render the provisions of section 355 inapplicable. Neither the facts nor the discussion set forth in that ruling clearly indicate the reasons for the transfer of the investment assets. Rev. Rul. 56-557 might be read to indicate that a relatively small percentage of investment assets among the transferred assets is not relevant to the inquiry as to whether the transaction is a device for the distribution of earnings and profits under section 355(a)(1)(B) of the Code. Because the ruling is misleading, Rev. Rul. 56-557 needs clarification.

HOLDING

In the present situation, the transfer by *P* to *S* of investment assets not related to the transferred business is a factor to be considered in determining whether the transaction is a device for the distribution of earnings and profits regardless of the percentage of such assets relative to the total amount of assets transferred. The percentage of investment assets transferred relative to the other assets held by *P* and *S* will be taken into account, along with the other facts and circumstances surrounding the transaction, including the reasons for the asset transfers and stock distribution, in determining whether the transaction is a device for the distribution of earnings and profits, and, thus, fails to qualify under section 355 of the Code.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 56-557 is clarified.

I. ELECTRONIC RETURNS

1. Overview

This Revenue Procedure sets the specifications for the 1986 Individual Tax Return Electronic Filing Test of Tax Year 1985 returns. In this Test, qualified individual income tax return preparers will transmit tax return information to the Internal Revenue Service over communications lines and will retain related paper documents (taxpayer declarations, Forms W-2, etc.) for submission every two weeks. To participate in this Test, preparers must follow all requirements and specifications in this Revenue Procedure and must provide a signed statement to that effect (see attachment IV). Preparers will also have to successfully complete a test transmission by January 30, 1986. The data for the test transmission will be provided by the Service. In addition, preparers will be required to give each taxpayer for whom they file an electronic return a copy of a letter provided by the Internal Revenue Service (see attachment I). Approval to participate will be for 1986 only. Specifications and application procedures for 1987 will be issued in the fall of 1986.

The Service reserves the right to revoke the electronic filing privilege of any preparer/transmitter who varies from these requirements and specifications or does not consistently transmit error-free returns.

2. Composition of an Electronic Return

a. An electronic return consists of data transmitted to the Service electronically and data filed with the Service on paper documents. In total, an electronic return must contain the same information as a comparable return filed entirely on paper documents.

b. For the 1986 test, electronically transmitted data is limited to entries from the return, Forms, and schedules listed below. Forms W-2, W-2P and W-2G will have selected data transmitted electronically. The paper copies will be transmitted to the Service attached to the back of the Forms 8453. All other schedules and forms listed are to be filed with the Service only in electronic form.

Form 1040 U.S. Individual Income Tax Return
  Schedule A Itemized Deductions
  Schedule B Interest and Dividend Income
  Schedule E Supplemental Income Schedule (limited to three (3) rental properties)
  Schedule R Credit for the Elderly and Permanently and Totally Disabled
Schedule W Deduction for a Married Couple When both Work
Form W-2 Wage and Tax Statement
Form W-2P Statement for Recipients of Annuities, Pensions, Retired Pay, or IRA Payments, when there is tax withholding
Form W-2G Statement for Recipients of Certain Gambling Winnings
  Form 2106 Employee Business Expense
  Form 2441 Credit for Child and Dependent Care Expenses
  Form 4562 Depreciation and Amortization
  Form 8283 Non-Cash Contributions

(Note: Taxpayers who would normally file Form 1040A or Form 1040EZ are *not* excluded from the test. They will instead file these electronically in the format of a Form 1040. Participating preparers are not to charge an additional fee for using the long Form 1040 format for short form filers).

c. The non-electronic portion of the return consists of the following segments:

(1) Copy B of a Form W-2, W-2P, or W-2G which would be attached to the front of a return filed entirely on paper documents.

(2) A document containing a required signature, such as Form 2120 (Multiple Support), a physician's statement required in connection with an entry on Schedule R, a proof of blindness certification from a physician or registered optometrist, an Exemption for Non-Custodial Parent (Form 8332) and Form 8453 (Taxpayer Declaration). Form 8453 is required for all electronic returns. (See part IV of these instructions and attachment II, Form 8453).

(3) Any other documents which are (a) not required by the Service, (b) are not IRS forms or schedules, (c) are not covered in sub-paragraph (2) above, and (d) are voluntarily being included with the return by the taxpayer as supporting material.

d. The non-electronic material described in sub-paragraph 2.c above must be stapled together, with the Taxpayer Declaration (Form 8453) on top, followed by the material described in 2.c(1), the remaining material described in 2.c(2), then the material in 2.c(3).

3. Exclusions

The following types of returns are excluded from the 1986 test.

1. Those returns with tax owed, with remittance or with an even balance.

2. Decedent or power of attorney returns, including returns filed by surviving spouses.

3. Amended or corrected returns. (even if the return being amended was filed electronically). Only one electronic return should be filed for any taxpayer for the filing season.

4. Returns containing Forms or Schedules not listed above.

5. Returns for any tax period other than January 1, 1985 to December 31, 1985.

6. Returns not transmitted by a preparer approved by the Service for electronic filing.

7. Returns filed after April 15, 1986, even if the taxpayer has secured an extension.

8. Returns subject to community property rules, with filing status "married filing separately".

9. Returns with Casualty Loss Deduction.

10. Returns containing multiple Schedules E or more than three rental properties on a Schedule E.

11. Returns with dollars and cents entries (even dollars only accepted).

12. Returns claiming a Mortgage Interest Credit on line 45 of Form 1040.

13. Returns containing more than 20 pages on continuation statements.

14. Returns containing vehicle entries in Section C of Form 4562.

II. PREPARER ELIGIBILITY REQUIREMENTS

A participating preparer must meet the following qualifications:

1. prepared individual income tax returns for compensation in 1984 and 1985 in one of the test metropolitan areas,

2. used computers to prepare individual income tax returns for at least two years, either directly or through a service bureau,

3. has substantial communication experience under IBM 3780 RJE bisynchronous protocol at 4800 BAUD through a dial-up modem, or will be associated with another firm which has such experience,

4. will observe all requirements of this revenue procedure,

5. will provide an acceptable test transmission to the Service.

III. ADVERTISING STANDARDS

In addition to meeting normal Service advertising standards, as outlined in Rev. Proc. 81-38, Limited Practice Without Enrollment, Section 8, Solicitation and Advertising, preparers must not advertise electronic filing outside the three Test metropolitan areas. Advertising must not infer a special relationship with the Internal Revenue Service. Claims for faster refunds should be consistent with the language in official Service publications.

IV. TAXPAYER DECLARATIONS (FORM 8453)

1. Prior to submitting an electronic return, a preparer must obtain the taxpayer's signature on a declaration form (see attachment II). In addition, the preparer must obtain all other documents currently required to be filed with returns, as detailed in I.2.c above.

The declaration will serve the following purposes:

—authenticate the return.

—authorize the preparer to file the return on behalf of the taxpayer.

—provide a transmittal for the associated paper documents that will be stapled to the declaration.

—authorize the preparer to transmit via a third-party transmitter.

2. If the amounts on the declaration differ from corresponding amounts on the return, the preparer will be required to file a corrected declaration or file a corrected return. If a taxpayer declaration is found to be missing, the preparer must expeditiously provide a signed form; otherwise the return will be considered unsigned.

3. Preparers must use the official Form 8453 or a substitute form which duplicates the official form in format, language and content. Computer printed Forms 8453 are acceptable.

4. After the declaration has been preperly executed, including the taxpayer and preparer signatures, the preparer will transmit the electronic portion of the return to the Service in accordance with Service specifications (see Section VI for signature requirements). By transmitting the electronic portion of the return to the Service the preparer is stipulating that the declaration has been executed and that the official descriptions of each entry of the electronic return apply (i.e., retained copies do not contain any unauthorized caveats).

5. The preparer will assign a unique 14 digit Declaration Control Number (DCN) to each Form 8453. Its structure will be as follows:

Position	Comments
1-2	These two digits must be "00".
3-7	The Electronic Filer Identification (EFIN). This is a unique number assigned by the IRS to each participating preparer for each site where electronic returns are prepared. The first two digits will always be the District Office code.
8-13	A sequential number assigned to each return by the preparer.
14	This digit must be "6". (e.g. 00-12345-678910-6)

6. The DCN must be recorded in the upper right hand corner of the Form 8453 for each taxpayer. Hyphens must appear between the 2nd and 3rd, 7th and 8th and 13th and 14th digits.

V. FILING OF ELECTRONIC RETURNS AND DISTRIBUTION OF COPIES

1. The Service will advise electronic filers when they can begin to file electronic returns. This will be as early in the filing period as possible, but only after all the programs, equipment, and facilities related to electronic filing have been thoroughly tested. Until this notification has been issued, electronic returns will not be accepted by the Service.

2. Similarly, if the electronic filing system breaks down for a potentially lengthy period, the Service will advise preparers to discontinue electronic filing until they are notified by the Service that the problem has been resolved.

3. Because electronic filing is a new program and tax return processing is very complex, prudence dictates that the Service have contingency plans to cover the remote possibility that filers will be requested to provide to the Service paper copies of returns previously filed electronically. This would only be necessary if all of the back-up systems built into electronic filing by the Service become inoperable simultaneously.

4. To Be Filed With The Service.

a. Participating preparers must transmit to the Service all electronic data, all taxpayer declarations, and all other materials described in Section I.2.c above.

b. The preparer will maintain the documents referred to in Section I.2.c in DCN order and place them in the provided folders in groups of 100.

c. Beginning on January 31, 1986, and every two weeks thereafter through May 22, 1986, the preparer will send this material to the Cincinnati Service

Center, in accordance with shipping instructions described in paragraphs V.4.d-k below. No Form 8453 may be sent to the Service for any electronic return that has not been acknowledged as received by the Service. Each shipment should include forms for all electronic returns filed during that period which have been acknowledged by the Service.

d. A Form 1332, Block and Selection Record, (see attachment III) must be the first item inside each folder. The Service will provide these forms. Record the last DCN at the top of the form as illustrated in attachment III. If a return has been rejected or not acknowledged by the Service (see Section VIII) pull the applicable Forms 8453 from the folder and circle the last two digits of the sequential number for each such form not included in the folder. If rejected or unacknowledged returns are subsequently transmitted, the applicable Forms 8453 must be renumbered.

e. The paper documents in each folder must be maintained in ascending sequence following the Form 1332. The first DCN must be recorded on the tab of the folder.

f. Place folders in the IRS Standard Type 3 Cartons that have been provided to you, so that the identifying sequence number information appearing on the tab is visible from the open end of the container.

g. The sequence of folders in the carton is from right to left, beginning with the lowest number. The top of the returns must always be at the open end of the container. Number and ship boxes in strict DCN sequence.

h. Place the lids provided on the cartons and seal with gummed tape which is at least 2 inches wide.

i. Ship cartons to:

Internal Revenue Service
Cincinnati Service Center
200 W. 4th St.
Covington, KY 41011
Attn: Alan Law
Stop #21

j. The initial supply of shipping materials will be forwarded directly to your offices. If additional supplies are needed, contact the Management Support Branch of the Cincinnati Service Center at 606-292-5241.

k. Cartons should be shipped via a carrier that will ensure receipt at the service center within two days of shipment.

5. To Be Retained By The Preparer—The preparer must retain a copy of the material furnished to the taxpayer. The preparer copy of the electronic material (described in Paragraph I.2.b) may be retained on magnetic media. In addition, the preparer must retain the acknowledgement file received from the Service to facilitate taxpayer inquiries. The retention period for this material must be consistent with IRC 6107.

6. To Be Provided To The Taxpayer—The preparer must furnish the taxpayer with a printed copy of all material filed with the Service covered in Paragraphs I.2.b and I.2.c(2), and any material covered I.2.c(3) initiated by the preparer. In addition, the preparer should advise the taxpayer to retain copies of materials described in Paragraph I.2.c(1) and materials described in Paragraph I.2.c(3) which were not provided by the preparer. The copy of the electronic material described in Paragraph I.2.b can be contained on replicas of official forms or on forms designed by the preparer. If the latter, data entries must be referenced to the line numbers on official forms.

VI. ELECTRONIC FILER REQUIREMENTS AND RESPONSIBILITIES

1. The Service will accept electronic returns only from preparers who have been approved for electronic filing.

2. Electronic filers must not prepare or transmit returns for taxpayers (or their representatives) who do not personally appear before them (at least one taxpayer on a joint return) unless the taxpayers are residents of the metropolitan area during the filing season.

3. Normally the electronic filer must be identified on the electronic return as the paid preparer, and must also sign the Form 8453 as the preparer.

4. If an electronic filer accepts returns prepared by individuals or by other preparers solely for purposes of electronic input, this will be considered to come under the "mechanical assistance" exception described in Treasury Regulation 301.7701-15(d)(1), and hence the approved firm will not be considered to be a paid preparer for purposes of 301.7701. However, in these cases the following requirements must be met:

a. The electronic filer must sign the Form 8453 as the transmitter, and obtain the taxpayer's signature on the same form.

b. The return must meet all of the consistency tests required for any other electronic return. However, the minor correction provisions in VI.6 are not applicable. The taxpayer or the preparer must correct the source material prior to submission. If the electronic filer corrects any material, the electronic filer becomes the return preparer.

c. If the return was prepared by another paid preparer, that other firm must be identified in the appropriate field of the electronic return as the paid preparer, and a copy of the tax return signed and prepared by that other firm must be attached to the Form 8453. If the return was self-prepared by the taxpayer, a copy of the return, signed by the taxpayer, must be retained by the preparer and the paid preparer field on the electronic return must be left blank.

5. If electronic returns are transmitted to the Service via a communications company, and the communications company does not alter the return information, the Service will consider the actions of the approved preparer as a permissible disclosure under Treas. Reg. 301.7216-2h, and will consider the actions of the communications company as an "auxiliary service" under Treas. Reg. 301.7216-1(b)(2)(i)(B).

6. If an electronic return is corrected in a non-substantive way after the taxpayer's signature has been obtained on Form 8453, but before the transmission to the Service, it will not be necessary for the preparer to obtain the taxpayer's signature on a new Form 8453, provided the following conditions are met:

a. The corrections do not affect any of the amounts included on the Form 8453 signed by the taxpayer.

b. The non-substantive changes are limited to corrections of arithmetic errors, inconsistencies due to rounding, and corrections of spelling errors.

7. Once an electronic return is submitted, it cannot be recalled or intercepted in process. Hence, if either the preparer or the taxpayer wishes to change any entries, an amended return must be filed, in the form of a paper document.

8. The preparer must promptly satisfy Service requests to resolve prob-

lems relating to missing or inconsistent Forms 8453 and provide copies of such forms within 24 hours upon request by the Service.

9. If a preparer shows a consistent pattern of failing to correctly carry out all requirements of this Revenue Procedure, or consistently files returns not meeting Service specifications, the Service may take unilateral action to revoke the electronic filing privilege for the remainder of the year.

10. The preparer must provide access to all materials that the preparer is required to maintain for the purpose of ensuring compliance with the retention requirements of this Revenue Procedure.

VII. ELECTRONIC FILING COMMUNICATIONS REQUIREMENTS

1. These procedures will only apply to this limited test and may not be relevant when this project is expanded in subsequent years.

2. Returns can be transmitted by preparers or by communications firms acting for preparers. For purposes of this section both will be termed transmitters. The Internal Revenue Service will arrange a schedule of days and times when approved transmitters may transmit return data, in the format covered in this Revenue Procedure. Normally, all data communications will be over the Public Telephone Switching Network to the Cincinnati Service Center. However, if a firm prefers to provide a dedicated line for transmission of its data it should contact the Electronic Filing Office at (202) 566-7541. Telephone numbers, specific password conventions and a test transmission schedule will be developed between the IRS and transmitters at a later time.

3. All data communications over the Public Telephone Switching Network between transmitters and the Service will be accomplished using the following requirements:

a. 4800 BAUD line speed.

b. EBCDIC or ASCII character code.

c. IBM 3780 communications protocol.

d. Half-duplex, Synchronous Bell compatible dial-up MODEMs.

e. Line-level and system-level security (passwords).

4. Transmitters will be responsible for the security of all transmitted data. Transmittals will not be considered filed returns until they successfully pass through the IRS Electronic Filing Pre-Processor. The Service will acknowledge all recognizable returns to the sender via return transmission within 24 hours of receipt (see Section VIII for Acknowledgement File).

5. The receipt date of the electronic record will constitute the receipt date of the return if it is acknowledged by the Service.

VIII. ACKNOWLEDGEMENT OF ELECTRONICALLY FILED RETURNS

Each transmission of a file of electronic returns will normally be acknowledged to the transmitter within 24 hours of successful receipt. The transmitter should immediately match the acknowledgement file back to the original file transmitted. Any tax return transmitted which is not acknowledged will have been bypassed by the Service due to transmission or file format problems and must be resubmitted to be considered a filed return. Any return not acknowledged as received by the Service will be considered not filed.

Note: Any transmitter who receives acknowledgements for returns which were *not transmitted on the designated transmission* or who does not receive transmission of an Acknowledgment File within 48 hours must immediately contact the Cincinnati Service Center at 606-292-5241.

IX. OVERVIEW OF TRANSMISSION PROCEDURES

(See appendices A through C for all record formats.)

The following sequence of events will constitute a tax return data transmission session:

1. The Cincinnati Service Center will call the number of the transmitter's MODEM during the scheduled time and initiate the authentication procedure.

2. When the transmitter has been authenticated, a tax return data session will commence. During the session, two types of transmissions will occur. The transmitter will send return records and the Service will acknowledge the previous transmission.

3. Each transmitter sending session will consist of no more than 500 tax returns (approximately 30 minutes line time). If more returns are available for transmission, they must be sent in subsequent transmissions during the same scheduled time slot (on the same day). Broken transmissions must be re-initiated from the beginning; there is no checkpoint capability at the IRS site. The IRS Service Center will continue to poll the transmitter for returns after each session until an "End of Returns" record is sent by the transmitter.

4. After receiving the "End of Returns" record, the IRS Service Center will send to the transmitter an Acknowledgement File for each return file received in the prior day's transmission. The IRS center will break the connection after the last Acknowledgement File for the transmitter has been sent.

X. EVALAUTION REQUIREMENTS

To assist the Service in evaluation, participants will be required to compile narrative reactions of clients to electronic filing, and reactions of the preparer to electronic filing, including statistics on the number of taxpayers eligible for electronic filing and the number of electronic returns filed. This information will be sent to the Service in June 1986. The Service will provide forms for these purposes at a later date.

APPENDIX A

ELECTRONIC RETURN FILE SPECIFICATIONS

Summary

After the transmitter has been authenticated, the sequence of record transmissions is as follows:

1. TRANS record (this record identifies the transmitter).

2. Tax Return records (including all form, schedule, and statement records).

3. Summary record.

4. Recap record.

This sequence will be repeated for each 500 returns transmitted.

5. End of Returns record (follows the final Recap record for final filing session of the day).

After the End of Returns record, the acknowledgement transmission will commence. The sequence of acknowledgement records is as follows:

1. The original Trans record.

2. An Ack record for each recognizable return received.

3. The original Recap record plus counts for accepted and rejected returns.

I. GENERAL DESCRIPTION

a. The IBM byte count convention may be used as an option, but is not required. This option is for a four byte counter to precede each block and a four byte counter to precede each logical record.

b. The first record on a transmitted file (the TRANS record) contains information regarding the transmitter and file format. This record should be followed by the records comprising the tax returns being transmitted. The last record on a transmitted file (the RECAP record) will provide balancing counts of returns.

c. A tax return will consist of a variable number of fixed-field records. The size and format of the logical record for each page of each form, schedule etc., are specified herein. In addition, a variable field/record format option is acceptable. See details under Variable Length Option.

d. Maximum-sized physical record (i.e., block) is 4500 characters. Physical records may be of varying lengths but the logical records described herein may not be broken between physical records.

e. Each logical record should contain all data fields pertaining to one printed page of an official form, schedule or continuation statement. The logical record therefore contains either an entire form, schedule or statement, or a logical part (i.e., a page) of a form, schedule or statement. The complete tax return must consist of all logical records pertaining to it in the following sequence: ***Return, Schedules, Forms, Statements and Summary***. Schedules must be in alphabetical sequence and forms must be in numeric sequence. Forms W-2, W-2G, and W-2P records shall appear as the final forms in the Form Record sequence. Return, Schedule, Form, and Statement Records may contain additional sequential Page Records if they consist of more than one printed page. (Pages are only numbered within a form schedule or statement, not across the return.) All records must appear in the proper sequence with the proper control information, and the counts of the schedules and forms must balance to the Summary Record or the return will be rejected.

f. If there are no entries on the form, schedule, or statement, the form, schedule, or statement should not be generated. If there is no significant data for any page within a form or schedule a "skip" short record may be used (see format in SKIP PAGE record layout). Numeric fields may be filled with spaces to facilitate data compression when transmitted.

g. The first logical record for a tax return (i.e., the Return Record for page 1 of the tax form) will include the tax period and return type and a unique 16-digit field for user-assigned return transmission number which will include the preparer's identification and the date, time and sequence of the transmitted return. This 16 digit Return Sequence Number appears in the RETURN record and consists of the following fields:

(1) Electronic Filer Identification Number (EFIN) (5 characters)

(2) EFIN suffix for optional use by preparers (2 characters)

(3) Julian date of transmission (3 characters)

(4) Transmission sequence number for the given Julian date (2 characters)

(5) Sequential number assigned to the return (4 characters)

h. If the number of data items appearing on the same line exceeds the number that can be contained in the space provided on the printed form or schedule, the data must be provided on a separate continuation statement (STM) record. There is a maximum of 20 statement page records per return in total. If STM is used, no data should be entered in the base return. The first line entry for the continued item on the base form or schedule record itself shall read "STMbnn ("nn" being the applicable statement number). All of the applicable entries must then be on the statement record and cannot be split between the continued item record(s) and the statement. The first statement record will contain a literal description of the item continued (e.g., "Interest Income, Schedule B"). The second statement record for all continuations of tabular data should contain the column headings (e.g., "Name of Payer . . . Amount . . .") spaced with the headings as they would appear on the printed form they continue. Conform to the same column headings. The related dollar amount must be on the first line of entry. Each following statement record from "LN03" on will contain, left justified, the related data fields in the same format as they appear in the base layout. Statements can always be used at the option of the preparer, even if the open-ended item can be contained in the space provided on the printed form or schedule. See details under Statement Record Layout in VI, below.

i. All money fields are 12 characters, 11 numerics followed by the sign character. Money fields containing no significant data must be filled with spaces. The significant numeric characters should be right justified, and zero filled. Dollar signs, decimal points, or other non-numeric characters are not permitted. The right-most position of any negative money field must contain the negative sign; for positive fields this position is always blank. Money fields must be all whole dollars (no cents).

j A summary record will be the final record for each tax return. This record will contain preparer identification data and counts of the Schedules, Forms and Statements included in the return and indicators for paper documents retained by the preparer for subsequent transmission to the IRS.

k. Except where designated, do not enter blanks or spaces between data elements.

j. The file should be unlabeled (no standard header or trailer records).

l. Each file must contain only complete returns.

Following is the format of each record.

II. TRANS RECORD

The first record on each file is the TRANS record which will contain the following (for this purpose, Transmitter is the firm handling the data communication):

Field#	Identification	Length	Description
(1)	Record I.D.	5	Value "TRANS"
(2)	Transmitter Name	35	Alphanumeric
(3)	EIN of Transmitter	9	Numeric
(4)	Address	35	Alphanumeric
(5)	City, State, Zip Code	35	Alphanumeric
(6)	Area Code, Telephone Number	10	Numeric
(7)	Type Transmitter (Preparer's Agent or Preparer)	16	Alphanumeric
(8)	Reserved	6	Blank
(9)	Reserved	12	Blank
(10)	Transmission Date	6	MMDDYY
(11)	Electronic Transmitter Identification Number	7	Numeric
(12)	Julian Date of Transmission	3	Numeric
(13)	Transmission Sequence Number for Julian Date in (12)	2	Numeric
(14)	Reserved	1	
(15)	Record Type	1	F = fixed, V = variable length option

III. VARIABLE LENGTH OPTION

The variable format will be indicated by a "V" in the Record Type field of the initial Transmitter (TRANS) Record for a file. In this format the data field is preceded by the applicable field identification number shown in specific record layouts. The field identification number is enclosed with field delimiters ([ ]). These characters will also enclose the control information (i.e., Record I.D. field) which begins each return, schedule or form record. The beginning of record control information remains in the same fixed format shown; the individual data fields need only contain the significant data (i.e. no leading zeros or trailing spaces). The Summary and Statement records, which are not keyed to field numbers, must be full length expanded records but must still be enclosed in field delimiters.

Each variable record will end with a Record Terminus Character (#). *IMPORTANT*: THE FOLLOWING THREE CHARACTERS "[", "]", and "#" ARE RESERVED AS DELIMITERS AND MAY *NOT* APPEAR AS DATA CHARACTERS.

The basic record would follow this format.

[RECORD ID FIELD] [1st field number] DATA
[Next field number] DATA . . . #

] = ASCII 93
[= ASCII 91
# = ASCII 35

IV. TAX RETURN RECORD

The Page 01 record for each tax return starts with the following 12 fields. Each page of the return will have a new page record with the page Number incremented. These records will each begin with Fields 1–9 below.

Field#	Identification	Length	Description
(1)	Record ID	3	Value "RET"
(2)	Filler	1	Blank
(3)	Return Type	6	Alphanumeric; Valid Value "1040bb"
(4)	Filler	1	Blank
(5)	Page Number	4	Value "PG01", format PGnnb, "nn" will increment for each printed page
(6)	Filler	1	Blank
(7)	Tax Period	4	Value "8512", YYMM
(8)	Filler	1	Blank
(9)	Social Security Number	9	9 Numerics (≥ 001010000)
Begin data fields here for pages after Page 01			
(10)	Sequence Number	16	Return Transmission Sequence Number (see item g. under General Description)
(11)	Declaration Control Number	14	Assigned by preparer to taxpayer declaration and related paper documents
Begin data fields here for Page 01			
(12)	Data Fields	various	Page data fields

V. SCHEDULE RECORDS

The second record or series of records is the Schedule Record. Each page of a schedule will have a new Schedule Record with the Page Number incremented. This record should appear in alphabetic order by Schedule type.

Field	Identification	Length	Description
(1)	Record ID	3	Value "SCH"
(2)	FILLER	1	Blank
(3)	Schedule Type	2	Alphanumeric (left justified) Values "Ab", "Bb" etc.
(4)	FILLER	1	Blank
(5)	Page Number	4	Value "PGnn" nn = 01 to 99
(6)	FILLER	1	Blank
(7)	SSN	9	Primary SSN
(8)	Data fields	various	Page 1 data fields

VI. FORM RECORD

The third series of records after Returns and Schedules are the Form records. They should appear in numeric order by form number. Each page of a form will have a new Form Record with the Page Number incremented.

Field	Identification	Length	Description
(1)	Record ID	3	Value "FRM"
(2)	FILLER	1	Blank
(3)	Form Number	6	Alphanumeric (left justified)
(4)	FILLER	1	Blank
(5)	Page Number	4	"PGnn" nn = 01 to 99
(6)	FILLER	1	Blank
(7)	SSN	9	Primary SSN
(8)	Data fields	various	Page 1 data fields

VII. STATEMENT RECORD

The statement record is the fourth series of records after Returns, Schedules and Forms. Statement records are used to continue a field or related series of fields which *appear on the same print line.* Each statement is given a sequential number from 00 to 99 in the order of appearance on the tax return. The first data field of the line items) being continued will contain "STMbnn" with "nn" being the sequential statement number. Each statement will consist of a series of records with LINE NUMBERS of 01 up to 50 for each sequential PAGE NUMBER. There is a maximum of 20 statement pages per return. After the control information there will be 80 characters of data for each line. The first line record (LN01) for each page of a statement will contain only the title of the item(s) being continued. The second line of each page (LN02) will contain the column titles for tabular data. For continuous non-tabular data (e.g., Number of Dependent Children) this line will be blank. The tabular column titles will be spaced in the same format as would be printed on a blank continuation page with the asterisk as the leftmost character of each column title (these will serve as "tabs" for the receiving program to line up data in the proper column). Related contiguous fields which would have appeared as a single print line on the basic form or schedule shall also appear on the same Statement line record, left justified, beginning with the third line record ("LN03") on. The first data field for a table or a group of related line entries (e.g., Interest or Dividends on Schedule B) must contain the "STMbnn" for the entire table (i.e., parrt of the table cannot appear on the form and part in a statement). Only fields marked with an asterisk in the record layout may contain "STMbnn".

Field	Identification	Length	Description
(1)	Record ID	3	Value "STM"
(2)	FILLER	1	Blank
(3)	Statement Number	2	nn Value 00-99
(4)	FILLER	1	Blank
(5)	Page Number	4	Value "PGnn" nn = 01 to 99
(6)	FILLER	1	Blank
(7)	Line Number	4	LNnn, nn = 01-50
(8)	FILLER	1	Blank
(9)	SSN	9	primary SSN
(10)	Data Record	80	Statement Title if "LN01"; column Titles and tab settings or blank if "LN02"; otherwise left justified field(s) from record being continued

VIII. SKIP PAGE RECORD

This short record may replace any page record in a Schedule or form for which there is no significant data.

Field	Identification	Length	Description
(1)	Record ID	3	Value "SCH", "FRM"
(2)	FILLER	1	Blank
(3)	Type	2 or 6	Schedule Identification Form Number
(4)	FILLER	1	Blank
(5)	Page Number	4	Value "PGnn" nn = page number
(6)	Filler	1	Blank
(7)	SSN	9	Numeric
(8)	Skip Indicator	2	Value "**"

IX. SUMMARY RECORD

The final record for each tax return is the summary record. (A "1" in the paper document indicator field shows that the paper document specified is a part of the return, and has been attached to the Taxpayer Declaration Form 8453.) The format is as follows:

Field	Identification	Length	Description
(1)	Record ID	3	Value "SUM"
(2)	FILLER	1	blank
(3)	Taxpayer's SSN	9	Primary SSN
(4)	Name of Preparer	35	Alphanumeric
(5)	Preparer's SSN	9	Numeric
(6)	Preparer Self-Employment Indicator	1	Alphanumeric ("x" if self employed), otherwise blank
(7)	Preparer Firm EIN	9	Numeric
(8)	Preparer Firm Name	35	Alphanumeric
(9)	Firm's City	20	Alphanumeric
(10)	Firm's State	2	Alpha
(11)	Firm's Zip	9	Numeric
(12)	Number of Logical Records in Tax Return (including Summary)	4	Numeric
(13)	Number of Schedules	2	(00-99) (Occurrences of "SCH")
(14)	Number of Forms	2	(00-99) (Occurrences of "FRM")
(15)	Number of Statements	2	(00-99) (Occurrences of "STM")
(16)	Paper Document Indicator 1	1	"1"=Form W-2, else "0"
(17)	Paper Document Indicator 2	1	"1 = Multiple Support Agreement (Form 2120), else "0"
(18)	Paper Document Indicator 3	1	"1" = Exemption for Non-Custodial Parent (Form 8332), else "0"
(19)	Paper Document Indicator 4	1	"1" = Physician's Certification of Blindness, else "0"
(20)	Paper Document Indicator 5	1	"1" = Physician's Certification of Disability (signed paper Sch. R), else "0"
(21)	Paper Document Indicator 6	1	"1" = W2-P, else "0"
(22)	Paper Document Indicator 7	1	"1" = W2-G, else "0"
(23)	Paper Document Indicator 8	1	"1" = Other Document(s), else "0"

X. RECAP RECORD

The final record on each file is the RECAP record. This record will contain a count of all returns in the file by type, and by a grand total. The format is as follows:

Field	Identification	Length	Description
(1)	Record ID	5	Value "RECAP"
(2)	Reserved	6	Numeric
(3)	Reserved	6	Numeric
(4)	Reserved	6	Numeric
(5)	Reserved	6	Numeric
(6)	Total Return Count	6	Numeric
(7)	Total Logical Data Records (not including TRANS and RECAP)	6	Numeric
(8)	Reserved	12	Numeric
(9)	Reserved	6	Numeric
(10)	Count of Refund Returns	6	Numeric
(11)	Electronic Transmitter Identification Number	7	Numeric
(12)	Julian date of transmission	3	Numeric
(13)	Transmission sequence number for Julian date in (12)	2	Numeric
(14)	Transmitter User Area	50	Filler (alphanumeric)

XI. FORMAT OF END OF RETURNS RECORD

Field	Identification	Length	Description
(1)	Record ID	2	Value P
(2)	Filler	2	Spaces
(3)	Today's Date	8	MM/DD/YY
(4)	Filler	2	Spaces
(5)	Time	5	Military, hours and minutes HH:MM
(6)	Filler	2	Spaces
(7)	Message	18	Value "End of Returns For"
(8)	Filler	1	Space
(9)	Transmitter's ID	5	Transmitter ID Number
(10)	Filler	2	Spaces
(11)	Constant	5	Value "TRANS"
(12)	Filler	1	Space
(13)	Electronic Transmitter Identification Number	7	Numeric
(14)	Julian date of transmission	3	Numeric
(15)	Transmission sequence number for Julian date in (14)	2	Numeric
(16)	Filler	11	Spaces

XII. FORMAT OF THE ACKNOWLEDGMENT FILE

The acknowledgment will be a transmission of a file consisting of the TRANS record submitted by the transmitter, an acknowledgment ("ACK") record for each recognizable return transmitted and the original "RECAP" record information submitted, plus counts for accepted and rejected records. For each transmission file sent during a transmission session, a separate ACK file will be transmitted back to the sender.

Further, if an ACK record contains an "R" in the Acceptance Code field, the return has been rejected due to a fatal error involving the return format, internal consistency, or data errors in a key field, and must also be corrected and resubmitted to the IRS to be considered as a filed return.

Any tax return with an "A" in the Acceptance Code field has been accepted as a filed tax return and will be processed from that point in the same manner as a return originally submitted on a paper document. This does not imply that the return will pass all IRS service center validity checks or post to the IRS Master File without delays.

The acknowledgement file can be a separate transmission or can precede or follow a return file transmission.

The first record on the acknowledgement file will be the same TRANS record as the first record of the tax return file being acknowleged. (see TRANS Record format above). For each recognizable tax return in the transmission an ACK record will be generated.

XIII. ACKNOWLEDGEMENT RECAP RECORD

After the ACK records, the final record of the file will be the RECAP record which is the final record of the tax return file being acknowledged with the addition of counts for accepted and rejected returns. The format for the ACK record is as follows:

Field	Identification	Length	Description
(1)	Record ID	3	Value "ACK"
(2)	Return Type	6	Item 3, Return Record (see IV. Tax Return General Specifications)
(3)	Primary Social Security Number	9	Numeric
(4)	Electronic Filer Identification Number (EFIN).	5	Numeric
(5)	Preparer's use to further identify originating office.	2	Alphanumeric
(6)	Julian date of transmission from originating office.	3	Numeric
(7)	Transmission sequence number for date specified in (6)	2	Numeric
(8)	Sequential number assigned return for transmission sequence in (7)	4	Numeric
(9)	Expected Refund	10	Refund field from applicable return
(10)	Acceptance Code	1	Value "A" Accepted "R" = Rejected
(11)	Date Accepted	6	Date of Acceptance (MMDDYY)
(12)	Time Accepted	4	Time of Acceptance
(13)	Error Counters		
	(a) Internal Inconsistency	2	Numeric 00-99
	(b) Control Data Error	2	Numeric 00-99
	(c) Key Field Data Error	2	Numeric 00-99

Error Counter Explanation

(a) Internal Inconsistency—The return's total number of records, forms, schedules or statements does not balance to totals in Summary Record, or left bottom line entries for schedules and forms do not coincide with return carry forward entries.

(b) Control Data Error—Erroneous data or sequence error(s) found in analyzing the control information at the beginning of each logical record.

(c) Key Field Data Error—Nonnumeric data found in social security number(s) or money fields, or significant data present in prohibited fields.

XIV. FORMAT OF THE ACKNOWLEDGMENT FILE RECAP RECORD

Field	Identification	Length	Description
(1)	Record ID	5	VALUE "RECAP"
(2)	Reserved	6	NUMERIC
(3)	Reserved	6	NUMERIC
(4)	Reserved	6	NUMERIC
(5)	Reserved	6	NUMERIC
(6)	Total Return Count	6	NUMERIC
(7)	Total Return Records	6	NUMERIC
(8)	Reserved	12	NUMERIC
(9)	Reserved	6	NUMERIC
(10)	Count of Refund Returns	6	NUMERIC
(11)	Total Returns Accepted	6	NUMERIC
(12)	Total Returns Rejected	6	NUMERIC

Fields 1-10 are identifical to those in the RECAP record originally transmitted. Fields 11 and 12 are the total returns accepted and rejected (counts of "A" and "R" codes from ACK record field 10, Acceptance Code).

XV. DATA VALIDATION AND REJECTION CRITERIA

The following data controls must be adhered to or the return shall be rejected:

A. The data records must be in the following sequence; Return, Schedule, Form, Statement and Summary.

B. Page records must be consecutive and sequential.

C. Schedule records must be in ascending alpha sequence.

D. Form records must be in ascending numeric sequence.

E. The primary social security number must be numeric and be consistent throughout all data records for a tax return.

F. The tax period must be "8512".

G. The format and content of the record identification information which begins each type of record must be exactly as presented in the input specifications.

H. Statement records do *not* have to be consecutive or in sequence but each statement number reference occuring in a data field ("STMbNN") must have a corresponding statement record. A statement record may be referenced multiple times but must be referenced at least once. There may be no more than 20 statement page records with any return.

I. Only one Schedule E with no more than three rental properties may be included in an electronic tax return.

J. Married filing joint and married filing separate returns must contain both a primary and a secondary SSN or the literal "NRA" instead of the secondary SSN indicating a non-resident alien spouse with no income or SSN.

K. There *must be no* significant data present for the following fields from the Form 1040 record:

SEQ #	Title	Line #
440	Business Income	12
450	Capital Gain/Loss	13
470	Supplemental Gain	15
520	Farm Income	19
610	Moving Expense	24
940	Residential Energy Credit	43
990	Foreign Tax Credit	47
1010	General Business Credit	48
1020	Business and Other	49
1040	Self-Employment Tax	51
1050	Alternative Minimum Tax	52
1060	Recapture Investment Credit	53
1080	Social Security on Tips	54
1090	Tax on IRA	55
1190	Form 4868 Amount	60
1210	Credit for Special Fuels Tax	62
1230	Regulated Investment Co.	63

L. There may be no significant entry for the Casualty field (Seq 370) of the Schedule A record.

M. The following fields must be equal (comparison of bottom line of schedule or form with return carry-forward line):

LINE FROM 1040 RECORD

SEQ #	Title	Line #	Sch/Form	SEQ #	Title	Line #
*380	Interest (If > $400)	8	Sch. B	290	Taxable Interest	3
*390	Dividends (If > $400)	9a	Sch. B	580	Taxable Dividends	10
510	Rents	18	Sch. E	1150	Total Income or loss	26
			or Sch. E	2010	Total Sup. Income	36

* Do not perform check unless amount exceeded.

N. If EIC, SEQ 1180 Form 1040 contains significant data, one or more Form W-2 records must be present for the return.

O. The format of the TRANS and the RECAP records must correspond exactly to those shown herein. Program accumulators will be maintained which correspond to the counters shown in the RECAP record. If they disagree at the end of processing the entire transmission will be rejected.

P. Accumulators will be maintained when processing each set of records for a tax return which corresponds to the counters in the SUMMARY record. If they disagree, the return will be rejected.

Q. "Child Care", "Medical", "Casualty" and "Theft" may not be present in Miscellaneous Deducations (Seq 420, 440, 460, 480 of Schedule A.

XVI. SPECIAL INSTRUCTIONS FOR ENTERING TAXPAYER'S NAME AND ADDRESS

These instructions must be carefully

followed to avoid delaying returns for error conditions. They must be included in preparers' programs as consistency tests and in the data entry instructions.

1. *Name Line 1*

A. Only alphabetic characters, spaces and the special characters Less-Than (<), ampersand (&) and hyphen (-) may appear in Name Line 1.

B. Only one intervening space may separate any component of a name line. The special character Less-Than replaces an intervening space to identify the primary taxpayer's last name.

C. All apostrophes and any other punctuation characters except hyphen must be omitted from names and the alphabetic characters shifted to the left in their place (e.g., O'Shea = OSHEA).

D. Numeric Characters in name components must be replaced by alphabetic Roman Numerals (e.g., Charles 3rd = CHARLES III

E. Enter a Less-Than (<) before the last name of the primary taxpayer. Enter a Less-Than after the name only if a title suffix follows (e.g., "MD" or "III", etc.). Do not enter a space before or after any Less-Than; the Less-Than takes the place of a space.

F. Enter first name, space, middle name or initial, Less-Than, last name. (The last name(s) of the individuals must be completed within this name line field.) If there is a suffix, enter a Less-Than between the last name and the suffix. Joint returns *must* contain one ampersand (&) between taxpayers' first names. The taxpayer whose first name is associated with the Primary SSN used on the return must be entered first and the last name of that taxpayer must be identified by a preceding Less-Than. If spouses use different last names, the primary taxpayer's first and last name appear first, with the last name bracketed by less-Thans followed by an ampersand and the full name of the spouse.

Examples	*Enter As*
Henry A. (Carter)*	HENRY A<CARTER
John A. and Jane B. (Smith)	JOHN A & Jane B<SMITH
Carl A. (Jones) & Angie Myer	CARL A<JONES<& ANGIE MYER
J. B. (Smith) Jr. & Ann Trent	J B <SMITH<JR & ANN TRENT
Florence E. (Jones) M. D.	FLORENCE E<JONES<M D
Alfred (Newman) Minor	ALFRED<NEWMAN<MINOR
Frank N. (De Porta)	FRANK N<DE PORTA
Lillie B. (Owen-Smith)	LILLIE B<OWEN-SMITH
John M (Brown), M.D.	JOHN M<BROWN<MD
James R. (O'Donnell)	JAMES R<ODONNELL
John C. (Brown), III	JOHN C<BROWN<III
Timothy (Jackson), 2nd	TIMOTHY<JACKSON<II
James (Oliver-Keogh), 3rd	JAMES<OLIVER-KEOGH<III

*Parentheses illustrate last name of taxpayer with primary SSN.

2. *Instructions for Street Address and Name Line 2*

A. Only alphabetic and numeric characters, ampersand (&), hyphen (-), percent (%) and spaces appear in the Street Address and Name Line 2 field.

B. Name Line 2 will be used for street addresses that require two lines or "In Care Of" address. An "In Care of" address must be indicated by a percent character (%) followed by the name which is in care of delivery.

C. Enter the house number and street, route number, post office box, or box number.

D. Abbreviate words requiring standard abbreviations unless the word is a proper name.

Examples	*Enter As*
South Court Street	S COURT ST
Circle Drive	CIRCLE DR
Lane Building	LANE BLDG
Northeast Street	NORTHEAST ST
Third Street	THIRD ST
3 Ave.	3RD AVE

E. If two addresses are present, enter the address shown immediately above or before the city and state in the Street Address field. This remaining address should be entered in the Name Line 2 field.

Example 1:	Mr. John Jones 801 N. Erie Street P.O. Box 1502 Toledo, OH 43603	
Enter As:	JOHN<JONES	(First Name Line)
	801 N ERIE ST	(Second Name Line)
	PO BOX 1502	(Street Address)
Example 2:	Mr. John Jones P.O. Box 1502 801 N. Erie St., Toledo, OH 43603	
Enter As:	JOHN<JONES	(First Name Line)
	PO BOX 1502	(Second Name Line)
	801 N ERIE ST	(Street Address)

F. Enter college, building, post office branch as the address if no mailing address is given.

G. If "In Care Of" is the mailing address, use the symbol "%" followed by a space.

Example: Mr. John Jones
In Care of Alice B. Smith
801 Brown St.

Enter As: JOHN<JONES (Name Line 1)
%ALICE SMITH (Name Line 22)
801 Brown St. (Street Address)

H. Do not use "#" symbol, "No.", and "Number" as a prefix to a house, apt., route, or P.O. Box.

I. Always add st, nd, rd, th, to a numbered street or avenue. Examples: 1 = 1ST; 2 = 2ND; 3 = 3RD, etc.

J. Enter 1/2 as 1/2 (no spaces).

K. Plurals for street, road, avenue, apartment, etc., will be entered as STS, RDS, AVES, APTS, etc.

L. Omit the letters "APO" and "FPO" for address. ZIP Code MUST be transcribed as five digits.

M. Space for all hyphens and periods in the address line.

N. Always use the following street abbreviations:

WORD	*ABBR.*
and	&
Air Force Base	AFB
Apartment	APT
Avenue	AVE
Boulevard	BLVD
Building	BLDG
Care of, or In care of	%
Circle	CL
Court	CT
Drive	DR
East	E
General Delivery	GEN DEL
Highway	HWY
Lane	LN
North	N
Northeast, N.E.	NE
Northwest, N.W.	NW
One-Half	1/2 (all fractions, space before and after the number, i.e., 1012 1/2 ST)
Parkway	PKY
Place	PL
Post Office Box, P.O. Box	PO BOX
Route, Rte.	RT
Road	RD
R.D., Rural Delivery, PFD, R.F.D., R.R. or Rural Route	R D
South	S
Southeast, S.E.	SE
Southwest, S.W.	SW
Street	ST
Terrace	TER
West	W

3. *Instructions for City-State and Zip Code Fields*

A. The City-State field may contain only alphabetic or numeric characters, ampersand, percent, slash or spaces.

B. The City-State field consists of the city followed by a slash and the valid code abbreviation *with no intervening spaces* between the city and state (e.g., NEW YORK/NY).

C. The following standard abbreviations for STATE CODE and corresponding three high order zip code digits must always be used.

STATE	*Abbrev.*	*Zip Code*
Alabama	AL	350–369
Alaska	AK	995–999
Arizona	AZ	850–865

STATE	*Abbrev.*	*Zip Code*
Arkansas	AR	716–729 & 755
California	CA	900–966
Colorado	CO	800–816
Connecticut	CT	060–069
Delaware	DE	196–199
District of Columbia	DC	200–205
Florida	FL	320–340 & 392
Georgia	GA	300–319
Hawaii	HI	967–968
Idaho	ID	832–838
Illinois	IL	600–629
Indiana	IN	460–479
Iowa	IA	500–528
Kansas	KS	600–679
Kentucky	KY	400–427
Louisiana	LA	700–714
Maine	ME	039–049
Maryland	MD	206–219
Massachusetts	MA	010–027
Michigan	MI	480–499
Minnesota	MN	550–567
Mississippi	MS	386–397
Missouri	MO	630–658
Montana	MT	590–599
Nebraska	NE	680–693
Nevada	NV	890–898
New Hampshire	NH	030–038
New Jersey	NJ	070–089
New Mexico	NM	870–884
New York	NY	090–149
North Carolina	NC	270–289
North Dakota	ND	580–588
Ohio	OH	430–458
Oklahoma	OK	730–749
Oregon	OR	970–979
Pennsylvania	PA	150–196
Rhode Island	RI	028–029
South Carolina	SC	290–299
South Dakota	SD	570–577
Tennessee	TN	370–385
Texas	TX	750–799
Utah	UT	840–847
Vermont	VT	050–059
Virginia	VA	220–246
Washington	WA	980–994
West Virginia	WV	247–268
Wisconsin	WI	530–549
Wyoming	WY	820–831

4. ***Special Instructions for Determining the IRS Name Control Field***

A. The Name Control consists of the first four significant characters of the individual's last name whose social security number is the Primary SSN for the return being filed. Disregard blanks between letters in the last name. Omit punctuation marks, titles and suffixes.

B. Consider certain foreign suffixes as part of the last name (i.e., Armah-Bey, Paz-Ayala, Allar-Sid). Particular attention must be given to those names which incorporate a mother's maiden name as a suffix to the last name. This practice is common in names of Spanish extraction. Consider the mother's maiden name as part of the surname for Name Control purposes.

Examples *Individual Name*	*Name Control*
John Brown	BROW
John Lea-Smith	LEA-
John Di Angelo	DIAN
John O'Neil	ONEI
John En, Sr.	EN
Pedro Paz-Ayala	PAZ-
Abdullah Allar-Sid	ALLA
Joe McCarty	MCCA
Juan de la Rosa Y Obregon	DELA

Examples *Individual Name*	*Name Control*
Jose Alvarado Nogales	ALVA
Donald Vander Neut	VAND
Otto Von Wodtke	VONW
Mary Smith & John Jones	SMIT

APPENDIX B

I. *Return Specification and Record Layouts*

An asterisk (*) precedes any field which may contain a statement reference (STMbnn) indicating either the first entry of a line or table of related items to be continued on a statement record.

Form 1040 for Tax Year 1985

Record Length Page 1: 990 Characters

Record Length Page 2: 681 Characters

Field No.	*Identification*	*Form Ref.*	*Length*	*Field Description*
000	Record ID		60	Value "RETb1040bbbPG01b8512b999999999N(30) (N=sequence # & DCN, 9 = Primary SSN)
007	Divorce Indicator		3	"DIV" or blank
009	Divorced SSN		9	SSN of divorced spouse for ES credit allocation
010	Primary SSN		9	Numeric (Your social security number, line 1)
020	Primary Date of Death		6	NO ENTRY
030	Secondary SSN		9	Numeric (Spouse social security number, line 2 or literal "NRAbbbbbb" if spouse is non-resident alien with no SSN or income)
040	Secondary Date of Death		6	NO ENTRY
050	Name Control		4	First 4 significant characters of Taxpayer's last name, no embedded spaces; allowable characters are alpha, hyphen, or space (see special instructions)
060	Name line 1		35	Alpha, Taxpayer's name, allowable special characters are: spaces, less-than (<), hyphen (-), ampersand (&) (See special instructions)
070	Name line 2		35	Alpha, in care of addressee, or address continuation. Allowable special characters are spaces, ampersand, hyphen, percent (%), (See special instructions)
080	Street address		35	Alphanumeric. Allowable special characters are spaces, ampersand, hyphen, and percent.
090	City/State code		25	Alphanumeric. Allowable special characters are ampersand, hyphen, percent, slash (/), and spaces. (Format is city followed by a / and the valid two character state abbreviation. See special instructions).
095	Zip Code		5	Numeric
100	Occupation		15	Alphanumeric
105	Spouse Occupation		15	Alphanumeric
110	PECF 1 Yes		1	Value "X" or "b"
120	PECF 2 Yes		1	Value "X" or "b"
130	Filing Status	1-5	1	Value 1, 2, 3, 4, or 5 (Applicable block, line 1-5)
140	Spouse's Name	3	25	Alpha (must be present if status 3, otherwise blank)
150	Qualifying Name for H of Household	4	25	Alpha or blank
155	Year Spouse Died	5	2	Numeric
160	Exempt Self	6a	1	Value "X" (1st block on line 6a)

Field No.	*Identification*	*Form Ref.*	*Length*	*Field Description*
170	Exempt 65/1	6a	1	Value "X" or blank (2nd block on line 6a)
180	Exempt Blind 1	6a		Value "X" or blank (3rd block on line 6b)
190	Exempt Spouse	6b	1	Value "X" or blank (1st block on line 6a)
200	Exempt 65/2nd	6b	1	Value "X" or blank (2nd block on line 6b)
210	Exempt Blind/2nd	6b	1	Value "X" or blank (3rd block on line 6b)
220	Pers. Exemption	6b	1	Values 1, 2, 3, 4, 5, or 6
*230	Names of Children Who Live With You	6c	35	Alpha (Names of children from 6c, separated by a comma and a blank (e.g. XXXX,bYYYYY))
240	Number of children	6c	2	Value 00-99 (Number of entries from 6c)
241	Agreement box		1	"X" or blank
*243	Names of Children Not Living With You	6d	35	Alpha (Names of children from 6d, separated by a comma and blank (e.g., XXXX,bYYYY))

APPENDIX C

RETURN PREPARER PROGRAMMING CHECKS

All electronically filed returns must be logically consistent and mathematically perfect. The following data validation requirements must be incorporated into the programs used to prepare returns for electronic filing.

FORM 1040 GENERAL

All subtotal/total lines must equal the line entries leading to the subtotals/totals.

SOCIAL SECURITY NUMBER

The primary social security number must be entered in "Your Social Security Number" block. On a joint return, the secondary social security number must be entered in "Spouse's Social Security Number" block.

NAME (See Special Instructions for Name and Name Control)

ADDRESS

All addresses must include zip code and the standard state abbreviation (See Special Instructions).

FILING STATUS

Only one filing status can be used.

EXEMPTIONS

The number of exemptions in box 1 must equal the number of boxes checked on lines 6a and 6b. On a joint return, at least one box must be checked on line 6a and one box on line 6b.

The number of exemptions in box 2 must equal the number of names on line 6c.

The number of exemptions in box 3 must equal the number of names on line 6d. If names are present on line 6d, either the block for pre-1985 agreement must be checked, or Form 8332 must be present.

The number of exemptions in box 5 must equal the total number of exemptions in boxes 1 through 4.

FORM 1040, PAGE 1

LINE ENTRY SUPPORT

Interest Income—If the interest amount is over $400.00, a Schedule B must be present.

Dividends—If the dividend amount is over $400.00, a Schedule B must be present.

Taxable Dividends—The amount on this line must equal the result of dividends less dividend exclusion.

Business Income or Loss—NO ENTRY

Capital Gain or Loss—NO ENTRY

Supplemental Gains and Losses—NO ENTRY

Taxable Pensions and Annuities—If there is an amount on this line, there must be an entry for other pensions and annuities.

Rents, Royalties, Partnerships, Estates, Trusts, etc.—If there is an amount on this line, a Schedule E must be present.

Farm Income or Loss—NO ENTRY

Taxable Unemployment Compensation (insurance)—If there is an amount on this line, there must be an amount for total unemployment compensation received.

Taxable Social Security Benefits—If there is an amount on this line, there must be an amount for total social security benefits received.

Other Income—If there is an amount on this line, the nature and source of this income must be stated.

Total Income—The amount on this line must equal the sum of all income lines.

Moving Expense—NO ENTRY

Employee Business Expenses—If there is an amount on this line, a Form 2106 must be present

Alimony Paid—If an amount is present for alimony paid on line 29, the recipient's name and Social Security Number must be present.

Deduction for a Working Couple—If there is an amount on this line, a Schedule W must be present.

Total Adjustments—The amount on this line must equal the sum of all adjustment lines.

Adjusted Gross Income (page 1)—the amount on this line must equal the result of total income less total adjustments.

FORM 1040, PAGE 2

Adjusted Gross Income (page 2)—the amount on this line must equal the adjusted gross income on page 1.

Itemized Deduction Amount—If there is an amount on this line, a Schedule A must be present.

Charitable Contributions—If a Schedule A is present, there cannot be an entry on this line.

Adjusted Gross Income After Deduction—The amount on this line must equal the result of adjusted gross income less excess itemized deductions or charitable contributions. (There cannot be entries for both excess itemized deductions and charitable contributions.)

Exemption Amount—The amount on this line divided by $1040 must equal the number of exemptions in line 6e.

Taxable Income—The amount on this line must equal the result of adjusted gross income after deduction less exemption deduction.

Tax Method—There must be one entry. NO ENTRY for Schedule G.

Additional Taxes—NO ENTRY

Total Tax—The amount on this line must equal the sum of the amount on the tax method line and the amount of additional taxes.

Child Care Credit—If there is an amount on this line, a Form 2441 must be present.

Credit For The Elderly—If there is an amount on this line, a Schedule R must be present.

Foreign Tax Credit—NO ENTRY

General Business Credit—NO ENTRY

Total Credits—The amount on this line must equal the sum of all credit lines.

Tax After Credits—The amount on this line must equal the result of total tax less total credits.

Self-Employment Tax—NO ENTRY

Alternative Minimum Tax—NO ENTRY

Tax From Recapture of Investment Credit—NO ENTRY

SST on Tip Income Not Reported To Employer—NO ENTRY

Tax On An IRA—NO ENTRY

Total Additional Tax—NO ENTRY

Federal Income Tax Withheld—If there is an amount on this line, a W-2(s) must be present.

Credit For Federal Tax On Special Fuels—NO ENTRY

Regulated Investment Company Credit—NO ENTRY

Total Payments—The amount on this line must equal the sum of all payments.

Overpayment—If total payments is larger than total tax, there must be an amount on this line.

Refund—Enter refund amount if applicable.

Applied Estimated Tax—Enter estimated tax amount if applicable.

Amount Owed—NO ENTRY

SCHEDULE A

If there is an amount in itemized deductions, Form 1040, page 1, a Schedule A must be present.

Medical Deduction Before Limitation—This amount must equal the sum of all medical and dental expenses.

Five Percent AGI—This amount must equal 5 percent of the adjusted gross income, Form 1040, page 1.

Total Medical—This amount must equal the result of medical deduction less 5 percent AGI.

Other Taxes—If there is an amount on this line, list the type and amount of taxes paid.

Total Tax—This amount must equal the sum of all taxes paid.

Home Mortgage Interest Paid To Individuals—If there is an amount on this line, the name and address of the payee(s) must be listed.

Other Interest Paid—If there is an amount on this line, the payee(s) and amount(s) must be listed.

Total Interest—This amount must equal the sum of all interest paid.

Cash Contributions Totaling $3,000 Or More—If there is an amount on this line, list to whom and how much given.

Other Than Cash—If there is an amount on this line exceeding $500.00, a Form 8283 must be present.

Total Contributions—This amount must equal the sum of all contributions paid.

Total Casualty And Theft Loss(es)—NO ENTRY

Other Miscellaneous Deductions—This amount must qualify the sum of all miscellaneous deductions.

Total Itemized Deductions—The amount on this line must equal the sum of medical, taxes, interest, contributions, casualty or theft less, and miscellaneous deductions.

Standard Deduction Amount—There must be an amount on this line.

Excess Itemized Deductions—This amount must equal the result of total itemized deductions less standard deduction amount.

SCHEDULE B

If the interest income amount or the dividend amount is over $400.00, a Schedule B must be present.

Seller Financed Mortgage Name—If interest is from a seller financed mortgage, the name must be listed.

Interest Income—List the names of all payers and each individual interest amount received.

Taxable Interest—This amount must equal the sum of all interest received.

Dividend Income—List the names of all payers and each individual dividend amount received.

Dividend Subtotal—This amount must equal the sum of all dividends received.

Capital Gains Distribution—This amount must equal the amount of capital gains distributed on Schedule D.

Total Non-Taxable Dividends—This amount must equal the sum of capital gains distribution, non-taxable distribution, and qualified reinvestment.

Taxable Dividends—This amount must equal the result of dividend subtotal less total non-taxable dividends.

Foreign Account Question—This question must be answered.

Foreign Country—If the answer to the foreign account question is yes, the foreign country must be listed.

Foreign Trust Question—This question must be answered.

SCHEDULE W

If there is an amount on the deduction for a working couple line, a Schedule W must be present.

Wages, Salaries, Tips, Etc.—The sum of these two fields must equal the amount of wages, salaries, tips, etc. on Form 1040, page 1.

Net Profit Or Loss From Self-Employment—The sum of these two fields must equal the amount of net profit or loss from Schedule(s) C and F (Form 1040), Schedule K-1 (Form 1065), and any other taxable self-employment or earned income).

Total Earned Income—The sum of these two fields must equal the sum of wages, salaries, tips, etc. and net profit or loss from self-employment.

Adjustments From Form 1040—The sum of these two fields must equal the sum of employee business expense, IRA deduction, payments to a Keogh, and any repayment of sub-pay included in total adjustments, Form 1040, page 1.

Qualified Earned Income—The sum of these two fields must equal the result of adjustments from Form 1040 field, less total earned income field.

Smaller Qualified Earned Income—The smaller amount of qualified earned income must be entered here, but not more than $30,000.

Deduction—The amount of smaller qualified earned income multiplied by 10 percent. This amount must equal the amount of deduction for a married couple on Form 1040, page 1.

FORM 2441

Number of Qualifying Persons—There must be an entry on this line.

Payments To An Individual—If payments to an individual in a calendar year were $50.00 or more, the "were services performed in your home" question must be answered. If yes, the "have appropriate tax returns on wages for services in your home been filed" question must be answered. If yes, the employer identification number must be listed.

Qualified Expenses—Enter the amount of qualified expenses incurred and actually paid in this tax year, but not more than $2,400.00 ($4,800.00 if paid for the care of two or more qualifying persons).

Primary Taxpayer's Earned Income—Enter the amount of the primary taxpayer's earned income.

Spouse's Earned Income—Enter the amount of the spouse's earned income.

Earned Income—This amount must be the smaller of the primary taxpayer's earned income or the spouse's earned income.

Allowable Percentage—This percentage must be the amount from the table that applies to the adjusted gross income from Form 1040, page 1.

Credit For This Tax Year—This amount must equal the product of the smaller of qualified expenses or earned income multiplied by the allowable percentage.

Prior Year Tax Credit—This amount must equal the product of the prior year's qualified expenses paid in this year, multiplied by the allowable prior year percentage.

Allowable Credit—This amount

must equal the sum of credit for this tax year and prior year tax credit and must equal the amount of child care credit on Form 1040, page 2.

Research)

Department of the Treasury

Washington, DC 20224

January 1986

Participating Taxpayers
Electronic Filing Project

Dear Fellow Taxpayer:

Thank you for participating in our test project for electronic filing of individual tax returns with refunds. Electronic filing eliminates most of the manual processes required to handle paper returns. As a result, the Internal Revenue Service expects to reduce by two to three weeks the time required to issue refunds on electronically filed returns.

We cannot, however, guarantee a faster refund because, as with any return, errors made by you, your preparer or by us may delay your refund. Also, in the case of electronic filing, we cannot begin processing your refund until your preparer correctly transmits your return to us.

I want to stress that electronic filing will neither increase nor decrease the chances that we will audit your return. Receiving tax returns electronically allows us to accomplish quickly and economically the same processing that is performed on paper returns.

Your preparer will provide you with the required preparer-signed copy of your return and ask you to sign a declaration form which your preparer must file with us. This declaration form replaces the signature part of a paper return and also serves as your authorization to have your return electronically filed. Again, I want to thank you for participating in this test which offers benefits both to you and to the Internal Revenue Service.

Sincerely,

John L. Wedick, Jr.

		Spouse's social security number

Paperwork Reduction Act Notice.—We ask for this information to carry out the Internal Revenue laws of the United States. We need it to ensure that taxpayers are complying with these laws and to allow us to figure and collect the right amount of tax. You are required to give us this information.

Part I Tax Return Information

1	Total income (Form 1040, line 23; Form 1040A, line 10; Form 1040EZ, line 3)	1	
2	Adjustments to income (Form 1040, line 31; Form 1040A, line 13)	2	
3	Adjusted gross income (Form 1040, line 32; Form 1040A, line 14; Form 1040EZ, line 3)	3	
4	Taxable income (Form 1040, line 37; Form 1040A, line 19; Form 1040EZ, line 7)	4	
5	Total tax (Form 1040, line 56; Form 1040A, line 23; Form 1040EZ, line 9)	5	
6	Total payments (Form 1040, line 64; Form 1040A, line 25; Form 1040EZ, line 8)	6	
7	Refund (Form 1040, line 66; Form 1040A, line 26; Form 1040EZ, line 10)	7	

Part II Declaration of Taxpayer

Under penalties of perjury, I declare that the above described amounts agree with the amounts shown on the corresponding lines of my 1985 Federal income tax return shown or given to me by my tax return preparer/transmitter, and that I have also compared the information contained on my return with the information I provided to my preparer/transmitter. To the best of my knowledge and belief, my return is true, correct, and complete. I consent that my return, including this declaration and accompanying schedules and statements, be sent to the Internal Revenue Service by my tax return transmitter. I understand that portions of my return will be transmitted to the Internal Revenue Service electronically by a communications company.

____

____

I agree to the following conditions to file Individual Income Tax Returns electronically. I understand that my failure to meet any of the criteria will result in my not being certified to participate in the program.

1. I agree to submit a test transmission by January 30, 1986. I understand that until a successful test transmission has been acknowledged by the Service I am not certified to file.

2. Before transmitting an electronic return, I agree to secure a taxpayer declaration signed by each taxpayer for whom I file a return, and to store and submit the declarations in the manner and timeframes prescribed by the Service.

3. I agree to secure, store and submit Forms W-2 and all other forms, documents, etc., that are required for a complete return, and to do so in the manner and timeframes prescribed by the Service.

4. I agree that my return transmission will conform exactly to all prescribed specifications.

5. I understand that any return not acknowledged as received by the Service will be considered not filed.

6. I understand that inclusion in the Pilot does not guarantee permission to file electronically in future years.

7. I agree that all returns I file electronically will be original, current year, individual income tax, refund returns.

8. I agree that the advertising language I use will not infer any special relationship with the Internal Revenue Service, and that claims for faster refunds will not differ from language in Service publications.

9. I agree to not advertise outside the agreed upon metropolitan areas and I agree to not transmit returns for taxpayers who do not personally appear in my office (at least one taxpayer on a joint return) unless the taxpayers are residents of the metropolitan areas during the filing season.

10. I will keep copies of the returns at ________________________
(address)
in accordance with Service specifications.

11. I understand that if a taxpayer declaration is missing or in error, I will be responsible for supplying another together with accompanying paper documents. If a copy cannot be supplied, the return will be considered unsigned.

12. I agree to comply with all provisions of the Revenue Procedure for the Electronic Filing Test. In particular, I agree to give each taxpayer for whom I file an electronic return a copy of the letter provided by the Internal Revenue Service concerning electronic filing (Attachment I to the Revenue Procedure).

Part IV. Items of General Interest

New Form 8308, Report of a Sale or Exchange of Certain Partnership Interests

Announcement 86-2

New Form 8308, Report of a Sale or Exchange of Certain Partnership Interests, has been developed for partnerships to report a sale or exchange of all or a part of a partnership interest involving unrealized receivables or substantially appreciated inventory items under Internal Revenue Code Section 751(a). A separate Form 8308 must be filed for each Section 751(a) exchange. However, the form need not be filed until the partnership has received written notice of the exchange from the transferor, or until the partnership has knowledge that there has been a transfer of an interest, and at the time of the transfer, the partnership has Section 751(a) property. This new reporting is required by Internal Revenue Code 6050K and is effective for all Section 751(a) exchanges occurring after 1984.

A transferor in a Section 751(a) exchange must notify the partnership, in writing, within 30 days of the exchange. Note: The instructions to Form 8308 state that a transferor must notify the partnership within 14 days. However, recently issued regulations provide 30 days for the notification. The written notification must include:

(1) The names and addresses of both parties to the sale or exchange;

(2) The taxpayer identification number of the transferor and, if known, of the transferee, and

(3) The date of the exchange.

Partnerships must furnish a copy of Form 8308 to each transferor and transferee in a section 751(a) exchange by January 31 following the calendar year in which the exchange occurred (or, 30 days after the partnership has notice of the exchange, if this is later than the January 31 date). The copy of Form 8308 alerts transferors that they may be required to treat a portion of the gain realized from the sale or exchange as ordinary income.

Form 8308 must also be attached to the partnership Form 1065 for the taxable year in which the calendar year of the exchange ends. For example, if a section 751(a) exchange took place on February 1, 1985 and the partnership files its return on a fiscal year, Form 8308 must be attached to the Form 1065 for the partnership's fiscal year ending in 1986.

If a partnership is notified of a section 751(a) exchange after it has filed its Form 1065, the partnership must amend its return within 30 days after receiving the notification and attach a completed Form 8308 to the amended return.

Form 8308 may be ordered from the Forms Distribution Center whose addresses appear in the tax forms instruction booklets.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Edward L. Lambert	Rancho Mirage, CA	Certified Public Accountant	From November 6, 1985 Until January 8, 1990
Benjamin Ostfield	Minneapolis, MN	Attorney and Certified Public Accountant	Indefinite from November 20, 1985
Kenneth D. Short	Ellicott City, MD	Attorney	Indefinite from November 6, 1985

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Department of the Treasury
Internal Revenue Service

T 22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 61.—Gross Income Defined

26 CFR 1.61-2T: Taxation of fringe benefits (Temporary).
(Also Section 132; 1.132-1T.)

T.D. 8063

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAXES; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Temporary Regulations Relating to the Taxation of Fringe Benefits and Exclusions From Gross Income for Certain Fringe Benefits

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations concerning the taxation and valuation of fringe benefits and exclusions from gross income for certain fringe benefits. Changes to the applicable law were made by the Tax Reform Act of 1984 (98 Stat. 877). [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. The regulations affect any person providing or receiving fringe benefits. The regulations provide these persons with the guidance necessary to comply with the law.

DATES: Except to the extent otherwise provided, the regulations are effective as of January 1, 1985.

FOR FURTHER INFORMATION CONTACT: Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service, (202-566-3918, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains temporary regulations relating to the taxation and valuation of fringe benefits and exclusions from gross income for certain fringe benefits. Section 61 of the Internal Revenue Code of 1954 (Code) was amended, and section 132 was added to the Code, by section 531 of the Tax Reform Act of 1984 (98 Stat. 877) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 385]. Temporary and proposed regulations were published in the FEDERAL REGISTER for January 7, 1985 (50 FR 747, 836) [T.D. 8004, LR-216-84, 1985-1 C.B. 23, 655]. These regulations were later amended in part in the FEDERAL REGISTER for February 20, 1985 (50 FR 7038, 7073) [T.D. 8009, LR-216-84, 1985-1 C.B. 82, 657].

Subsequently, Public Law 99-44 (Repeal of Contemporaneous Recordkeeping Requirements) [1985-34 I.R.B. 22] affected the proposed and temporary regulations published in February. To implement the provisions of Public Law 99-44, the Service withdrew the affected proposed and temporary regulations published in February 1985 (50 FR 46,004, 46,086) [T.D. 8060, LR-145-84 and LR-216-84, 1985-49 I.R.B. 5, 20] and published new proposed and temporary regulations on November 6, 1985 (50 FR 46,006, 46,087) [T.D. 8061, LR-216-84, 1985-46 I.R.B. 7, 48].

Many comments were received from the public concerning the provisions in the proposed and temporary regulations previously published in 1985. In addition, on April 16, 17, and 18, 1985, the Internal Revenue Service (Service) held public hearings on the proposed regulations. In response to the comments and the statements made at the public hearings, the regulations have been amended. Due to the extent of the amendments, the Service is issuing the regulations in temporary rather than final form and is providing a cross-reference notice of proposed rulemaking (see * * * [page 40, this Bulletin]). This will provide the public with an opportunity to comment on the revised provisions of the regulations before they become final. The Service expects to hold public hearings on the regulations early next year.

The regulations contain general rules relating to valuation of fringe benefits and special rules that may be used to value certain fringe benefits, including the availability of employer-provided automobiles, the use of employer-provided vehicles for personal purposes or for commuting only, flights on employer-provided aircraft, and taxable flights on commercial airlines.

SUMMARY OF COMMENTS AND EXPLANATION OF PROVISIONS

In general

All of the regulations issued in January, February, and November of 1985 under sections 61 and 132 (the "proposed regulations") were removed and are replaced by these revised temporary regulations (the "new temporary regulations"). Many of the provisions contained in the proposed regulations were revised in response to comments received. The explanation of provisions describes the changes made to the proposed regulations and the reasons that certain comments are not reflected in the new temporary regulations. Many of the comments received are not included in this summary because they suggested changes that were contrary to the statutory amendments or the legislative intent evidenced in committee reports accompanying the legislation.

In addition to revised rules, the new temporary regulations contain rules relating to areas not addressed in the proposed regulations. For example, the regulations contain a special rule that may be used to value meals provided at an employer-operated eating facility for employees. This section contains an explanation of many of these new rules.

Valuation of employer-provided vehicles

Determination of fair market value

The proposed regulations provided that the Annual Lease Value is determined by reference to the fair market value of the employer-provided automobile made available to the employee. Many commentators suggested that the regulations provide additional guidance concerning determination of the fair market value of the automobile. In response, the new temporary regulations provide fair market value safe harbor rules. Many commentators requested that the proposed regulations allow the use of an automobile pricing guide to determine fair market value. Other commentators suggested that the cost of purchasing the automobile be treated as the fair market value of the automobile, either with or without an adjustment reflecting group or volume discount secured by the employer. In response, the new temporary regulations provide that for an automobile owned by an employer, the employer's cost of purchasing the automobile may be treated as the fair market value of the automobile, provided the purchase is made at arm's length. For an automobile that is leased or revalued by an employer, the retail value provided in any nationally recognized publication that regularly reports retail automobile values may be treated as the fair market value of the automobile, provided the value is reasonable with respect to the automobile.

Many commentators suggested that the regulations provide that the fair market value of an automobile be reduced by the value of special equipment contained in the automobile. In response, the new temporary regulations provide that the fair market value of an automobile does not include the fair market value of any specialized equipment that is added to or carried in the automobile if the presence of the equipment is necessitated by, and attributable solely to, the business needs of the employer. This rule does not apply to equipment susceptible to personal use.

Fleet-average valuation rule

The proposed regulations provided that the Annual Lease Value of each automobile must be determined based on its fair market value. Commentators suggested that this rule would be difficult to administer when an employer has a large fleet of automobiles. The new temporary regulations provided that employers may determine a fleet-average value of the automobiles in the fleet that may be used to determine an Annual Lease Value for all the automobiles in the fleet. This rule is available for an automobile the value of which does not exceed $16,500 and that is regularly used in the employer's business.

Provision of fuel in kind

The proposed regulations provided that the provision of fuel in kind may be valued at 5.5 cents-per-mile. Commentators indicated that employers with large fleets of automobiles need a special rule of value fuel where fuel is not provided from a company pump but the cost is reimbursed by or charged to the employer. In response to this comment, the new temporary regulations provide that an employer may value the provision of fuel for automobiles eligible for the fleet-average valuation rule by reference to average fuel costs and miles-per-gallon rates determined by sampling the greater of 10 percent of the automobiles in the fleet or 20 automobiles.

Redetermination of Annual Lease Value

The Annual Lease Values contained in the proposed regulations are based on a four-year, level-payment lease. Thus, the proposed regulations provided that the Annual Lease Value amount must generally be used for the period beginning on the day of the special rule is first used and ending on December 31 of the fourth full year following that date. A number of commentators stated that the Annual Lease Value amount should be redetermined more frequently than every four years. Because the Annual Lease Values are based on a four-year, level-payment lease, however, it would be inappropriate to redetermine the Annual Lease Value more frequently. An alternative would be to base the Annual Lease Values on a shorter lease period. This alternative would require an increase in the Annual Lease Values to reflect the shorter lease term.

Use of Daily Lease Value

The proposed regulations provided that a pro-rated Annual Lease Value may be used when the automobile is available to an employee for at least 30 days. If the automobile is available for less than 30 days, the availability of the automobile may be valued by applying the Daily Lease Value to the number of days the automobile is available to the employee. Alternatively, the availability may be valued by deeming the automobile available to the employee for at least 30 days. Some commentators suggested that the regulations provide that a pro-rated Annual Lease Value be used regardless of the number of days of availability. This suggestion was not adopted because the Daily Lease Value amount was based on an approximation of the lowest fair market rental values. The lessors' charge is higher for leases for shorter periods. The Service's market analysis indicated that a daily lease value is typically 700 percent of the daily pro-rated four-year lease rate in the proposed regulation. Consequently, the new temporary regulations retain the rules regarding Daily Lease Values.

Vehicle cents-per-mile special rule

The proposed regulations provided that the availability of an automobile cannot be determined by reference to a cents-per-mile rate multiplied by the number of miles driven. This rule was provided because automobiles are generally not leased on a cents-per-mile basis, but rather on the basis of the amount of time the automobile is available to the lessee.

Many commentators suggested that the regulations allow the use of a cents-per-mile rate, such as the standard mileage rate, to determine the value of the personal use of employer-provided automobiles. In response, the new temporary regulations provide that the standard mileage rate (21 cents-per-mile in 1985) may be used to determine the value of the personal use of an employer-provided vehicle (including an automobile) that is (1) reasonably expected to be regularly used in the employer's business or (2) actually driven (primarily by employees) at least 10,000 miles in a calendar year. This rule may be used for any vehicle the value of which in the calendar year in which it is first made available to an employee for personal use, or, if later, January 1, 1985, does not exceed the sum of the maximum recovery deductions allowable under section 280F(a)(2) for the first three taxable years in the recovery period for an automobile first placed in service during that calendar year. For 1985, that value is $12,800.

The reason for the regularly used in the employer's business requirement (and the alternative mileage rule) is that the vehicle cents-per-mile rule assumes that at least a fixed number of personal miles will be driven in a year (i.e., 15,000). Therefore, unlimited use of the special vehicle cents-per-mile rule would result in a significantly lower valuation for the use of an employer-provided vehicle in certain circumstances. For example, an employee who drives an employer-provided automobile valued at $12,000 for 5,000 miles (all personal) in a year, but who is not provided fuel by his employer, will include $775 in income. Under the Annual Lease Value table, which generally reflects the market value of the availability of an automobile for a year, the employee would include $3,600 in income. Because the valuation distortion is so great, use of the vehicle cents-per-mile rule is permitted only if the vehicle satisfies the regularly used in business requirement or the alternative mileage rule. The alternative mileage rule is intended to provide a mechanical alternative to the more general concept of "regularly used in business." The reason that the mileage must be primarily by employees, rather than, for example, by employees' families, is precisely because the mileage rule is intended as a mechanical alternative to the business use rule.

It should also be noted that in certain situations use of the cents-per-mile rule will result in a higher inclusion than will the automobile lease valuation rule.

Commuting special valuation rule

The proposed regulations provided that the value of the commuting use of an employer-provided vehicle may be valued at $3.00 per one-way or round-trip commute. The new temporary regulations clarify that the value of the commuting use is $1.50 per one-way commute. In the case where more than one employee commutes in an employer-provided vehicle, such as in the case of an employer-sponsored car pool, the value of the commuting use is $1.50 per one-way commute per employee.

The proposed regulations provided that the commuting special rule may not be used to value the commuting use of an employer-provided vehicle by an officer or a five-percent owner of the employer. Many commentators requested that the regulations define an officer, especially for government employees. The new temporary regulations provide that, for commuting that occurs after 1985, the special rule cannot be used to value the commuting use of an employer-provided vehicle by a "control employee". This term (which is defined differently for other purposes) includes certain officers, directors, and owners and is defined in the regulations for both government and non-government employers. The new temporary regulations provide that the officer component of the control employee definition may be applied to define an officer in 1985.

Valuation of flights on employer-provided aircraft

The proposed regulations provided a special rule that may be used to value certain flights on employer-provided airplanes. The value determined under the special rule depended on the purpose of the trip by the airplane and on whether the employee receiving the fringe benefit was a "key employee".

Many commentators stated that the values provided under the special rule were excessive and that the rule was complicated and too "fact-sensitive" to administer. In response to taxpayer and congressional concerns, the Treasury Department indicated in a letter to Senator Robert Dole (131 Cong. Rec. S6369 (daily ed. May 16, 1985)) that the regulations would be amended. The new temporary regulations adopt the provisions set out in that letter. Accordingly, under the new temporary regulations, the value of a flight under the special rule depends on the weight of the aircraft and whether the employee receiving the benefit is a control employee (defined separately for government and non-government employers).

Generally, the value of a flight determined under the new temporary regulations is lower than the value of a flight determined under the proposed regulations. Under certain circumstances, however, the value of a flight determined under the proposed regulations would be lower than the value of a flight determined under the new temporary regulations. Therefore, the new temporary regulations provide that the value of a flight taken in 1985 may be valued at the lower of the value determined under the proposed regulations.

The new temporary regulations retain the use of the Standard Industry Fare Level (SIFL) rates to determine the value of flights on employer-provided aircraft. The regulations provide the new SIFL rates that may be used to determine the value of flights taken during the last six months of 1985. As in the proposed regulations, the multiples used are intended to approximate coach and first-class fares on commercial airlines (e.g., 125 percent of the SIFL rates approximates coach fare and 200 percent of the SIFL rates approximates first-class fare).

The proposed regulations provided that the special valuation rule may only be used to value flights on employer-provided airplanes, rather than all aircraft (such as helicopters). The new temporary regulations provide that the special rule may be used to value flights on all employer-provided aircraft.

The proposed regulations also provided that the special valuation rule may not be used to value international flights. The new temporary regulations remove this restriction.

Many commentators noted that if an aircraft makes a certain flight for a business purpose, there is no additional cost incurred by the employer in allowing other persons to fly for personal purposes on such trip. They argued, therefore, that no income should be imputed to those persons who fly for personal purposes under such circumstances. Whether the employer incurs an additional cost, however, is not relevant to whether an employee receives a benefit. Certainly, those employees who are allowed to fly for personal purposes place some value on the flight provided.

It should be noted, however, that the proposed regulations provide that where at least 50 percent of the regular seating capacity of an aircraft is occupied by individuals whose flights are primarily for the employer's business (and whose flights are excludable as working condition fringes), the value of flights provided to employees (and certain others) will be considered to be zero. The inclusion of this special rule in the proposed regulations is intended to be a limited provision and is not to be interpreted as an exception to the general valuation principles which the Service will continue to apply outside the scope of this rule.

Valuation of taxable flights on commercial airlines

The proposed regulations provided a special valuation rule under which certain taxable flights on commercial airlines (i.e., stand-by or space-available flights) may be valued at 50 percent of the highest unrestricted coach fare of the flight taken. Many commentators protested that the 50 percent value was excessive in light of the restrictions imposed on the persons taking the flights, such as the lack of a guaranteed seat. The commentators submitted relevant data and suggested that 25 percent of the highest unrestricted coach fare is a more appropriate value of the benefit received. In response, the new temporary regulations provide that stand-by or space-available flights on commercial airlines may be valued at 25 percent of the highest unrestricted coach fare.

Valuation of meals provided at employer-operated eating facilities for employees

The new temporary regulations contain a special valuation rule that may be used to value meals provided at employer-operated eating facilities for employees. Pursuant to the special rule, the fair market value of all meals provided at the facility (the "total meal value") will be deemed to equal 150 percent of the facility's direct operating costs. This total meal value, less the actual gross receipts of the facility (the "total meal subsidy"), may then be allocated among employees in any manner reasonable under the circumstances. Alternatively, the employer may determine the fair market value of the taxable part of meals provided to a particular employee under a special "individual meal subsidy" rule.

Section 132 regulations

In general

The new temporary regulations provide rules relating to the exclusion from gross income for certain fringe benefits. Section 132 provides that certain fringe benefits, such as no-additional-cost services, qualified employee discounts, working condition fringes, and de minimis fringes may be excludable from the income of employees receiving the benefits. The regulations provide that, for purposes of the no-additional-cost service and qualified employee discount exclusions, the term "employee" means any individual who is currently employed by the employer, who was employed by the employer but separated from service by reason of retirement or disability, or who is a widow or widower of an employee. The regulations provide that a partner who performs services for a partnership is considered employed by the partnership.

The regulations provide that any individual listed above who could exclude from income no-additional-cost services or qualified employee discounts may exclude from income working condition fringes. In addition, solely for purposes of administrative convenience, the regulations provide that directors of the employer and independent contractors who perform services for the employer may generally exclude from income working condition fringes. This special rule is only available when, as set forth in Rev. Rul. 84-151, any amount included in income would also be deductible as an ordinary and necessary business expense. Therefore, this special rule does not apply, for example, to exclude from the income of an independent contractor or a director as a working condition fringe the value of the use of consumer goods under a product testing program. Directors and independent contractors are not treated as employees for any other purposes.

There is no limitation under section 132 as to who may exclude a de minimis fringe from income. Therefore, the regulations provide that any recipient may exclude a de minimis fringe from income.

Line of business limitation

No-additional-cost services and qualified employee discounts are available to employees of the line of business providing discounts or services. The regulations define a line of business based on the Enterprise Standard Industrial Classification Manual (ESIC Manual) prepared by the Statistical Policy Division of the U.S. Office of Management and Budget. An employer is generally considered to have more than one line of business if the employer offers for sale to customers property or services in more than one two-digit classification referred to in the ESIC Manual. [To be reprinted in 1986-4 I.R.B.] Examples of two-digit classifications are general retail merchandise stores; hotels and other lodging places; and auto repair, services, and garages.

The regulations also provide special rules under which an employer's separate lines of business will be aggregated. Under one rule, if it is uncommon in the employer's industry for any of the separate lines of business to be operated without the others, the separate lines of business are treated as one line of business. Under another rule, separate lines of business are aggregated if it is common for a substantial number of employees (other than those employees who work at the headquarters or main office of the employer) to perform substantial services for more than one line of business of the employer so that any determination of which employees perform substantial services for which lines of business would be difficult. Under another aggregation rule, separate retail lines of business located on the same premises are generally treated as the same line of business.

Working condition fringes

Employer-provided transportation for security reasons

The proposed regulations provide that the value of transportation provided by the employer for security reasons may be excludable as a working condition fringe to the extent a deduction under section 162 or 167 would be allowable to the employee had the employee paid for the transportation. Many commentators requested that the Service provide additional guidance concerning the appropriateness and amount of any working condition fringe exclusion for the value of security provided for bona fide business-oriented security reasons. In response, the new temporary regulations provide rules concerning the existence of bona fide business-oriented security reasons and the effect of an independent security study particular to the employer and its employees. The new temporary regulations also contain several examples of the application of the rules.

Product testing

The regulations provide that the value of the use of consumer goods may be exludable as a working condition fringe if certain conditions are met. This portion of the regulations is based on the legislative history of section 531 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 385]. The exclusion for product testing is limited so as to permit employers to have the benefit of product testing programs without allowing a major deviation from the general overall legislative intent of taxation of nonstatutory fringe benefits.

Qualified automobile demonstration use

The value of qualified automobile demonstration use is excludable from income as a working condition fringe. The regulations provide guidance concerning when the exclusion is available. In addition, the regulations provide a safe harbor rule that defines the sales area in which an automobile is located.

Parking

The value of parking may be excluded as a working condition fringe. The regulations provide rules relating to when the exclusion is available.

Employer-operated athletic facilities

Under a special rule, the value of the use of employer-operated athletic facilities may be excluded from income. The regulations provide rules concerning the definition of an employer-operated athletic facility and when the exclusion is available.

Nondiscrimination rules

No-additional-cost services, qualified employee discounts, and meals provided at employer-operated eating facilities for employees are only excludable from the income of an employee who is an officer, owner, or highly compensated employee (i.e., a member of the "prohibited group") if the benefits are offered on substantially the same terms to each member of a group of employees that is defined under a reasonable classification set up by the employer that does not discriminate in favor of the members of the prohibited group. Many commentators suggested that the definitions of owner and highly compensated employee contained in the proposed regulations were arbitrary and mechanical. The definitions were not amended in the new temporary regulations because, based on data submitted by commentators, the Service believes that the definitions comprise a reasonable and appropriate framework for identifying employees as members of the prohibited group. In addition, many commentators requested that the Service retain definitions that provide certainty.

The regulations provide that a classification is nondiscriminatory under section 132 if the classification would be nondiscriminatory under the rules provided in the qualified plan area (section 410(b)(1)(B) of the Code and the regulations thereunder).

Employer-operated eating facilities for employees

The value of meals provided at employer-operated eating facilities for employees are excludable from income as de minimis fringes if the revenues from the facility equal or exceed the direct operating costs of the facility and the nondiscrimination requirements of section 132 are satisfied. In response to comments, direct operating costs are narrowly defined as the cost of food and beverages and the cost of labor for personnel whose services relating to the facility are performed primarily on the premises of the eating facility. If meals provided at an eating facility are not excludable because, for example, the direct operating costs of the facility exceed revenues from the facility, the special meal valuation rule provided in the regulations under section 61 (described above) may be used to value the meals provided at the facility.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the temporary regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB. Control number [1545-0771].

DRAFTING INFORMATION

The principal author of these regulations is Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

* * *

Adoption of Amendment to the Regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * 1.61-2T, 1.132-1T, 1.132-2T, 1.132-3T, 1.132-4T, 1.132-5T, 1.132-6T, 1.132-7T, and 1.132-8T also issued under 26 U.S.C. 132.

Par. 2. Section 1.61-2T is removed and a new §1.61-2T is added in its place, as follows:

§1.61-2T Taxation of fringe benefits (Temporary)

(a) *Fringe benefits*—(1) *In general.* Section 61(a)(1) provides that, except as otherwise provided in subtitle A, gross income includes compensation for services, including fees, commissions, fringe benefits, and similar items. Examples of fringe benefits include: an employer-provided automobile, a flight on an employer-provided aircraft, an employer-provided free or discounted commercial airline flight, an employer-provided vacation, an employer-provided discount on property or services, an employer-provided membership in a country club or other social club, and an employer-provided ticket to an entertainment or sporting event.

(2) *Fringe benefits excluded from income.* To the extent that a particular fringe benefit is specifically excluded from gross income pursuant to another section of subtitle A, that section shall govern the treatment of that fringe benefit. Thus, if the requirements of the governing section are satisfied, the fringe benefits may be excludable from gross income. Examples of excludable fringe benefits are qualified tuition reductions provided to an employee (section 117(d)); meals and lodging furnished to an employee for the convenience of the employer (section 119); and benefits provided under a dependent care assistance program (section 129). Similarly, the value of the use by an employee of an employer-provided vehicle or a flight provided to an employee on an employer-provided

aircraft may be excludable from income under section 105 (because, for example, the transportation is provided for medical reasons) if and to the extent that the requirements of that section are satisfied. Section 61 and the regulations thereunder shall apply, however, to the extent that they are not inconsistent with such other section. For example, many fringe benefits specifically addressed in other sections of subtitle A are excluded from gross income only to the extent that they do not exceed specific dollar or percentage limits, or only if certain other requirements are met. If the limits are exceeded or the requirements are not met, some or all of the fringe benefit may be includible in gross income. See paragraph (b)(3) of this section.

(3) *Compensation for services.* A fringe benefit provided in connection with the performance of services shall be considered to have been provided as compensation for services. Refraining from the performance of services (such as pursuant to a convenant not to compete) is deemed to be the performance of services for purposes of this section.

(4) *Recipient of a fringe benefit*—(i) *Definition.* A fringe benefit is included in the income of the "recipient" of the fringe benefit. The recipient of a fringe benefit is the person performing the services in connection with which the fringe benefit is provided. Thus, a person may be considered to be a recipient, even though that person did not actually receive the fringe benefit. For example, a fringe benefit provided to any person in connection with the performance of services by another person is considered to have been provided to the person who performs the services and not the person who receives the fringe benefit. In addition, if a fringe benefit is provided to a person, but taxable to a second person as the recipient, such benefit is referred to as provided to the second person and use by the first person is considered use by the second person. For example, provision of an automobile to an employee's spouse by the employer is taxable to the employee as the recipient. The automobile is referred to as available to the employee and use by the employee's spouse is considered use by the employee.

(ii) *Recipient may be other than an employee.* The recipient of a fringe benefit need not be an employee of the provider of the fringe benefit, but may be a partner, director, or an independent contractor. For convenience, the term "employee" includes a reference to any recipient of a fringe benefit, unless otherwise specifically provided in this section.

(5) *Provider of a fringe benefit.* The "provider" of a fringe benefit is that person for whom the services are performed, regardless of whether that person actually provides the fringe benefit to the recipient. The provider of a fringe benefit need not be the employer of the recipient of the fringe benefit, but may be, for example, a client or customer of an independent contractor. For convenience, the term "employer" includes a reference to any provider of a fringe benefit, unless otherwise specifically provided in this section.

(6) *Effective date.* This section is effective as of January 1, 1985. No inference may be drawn from the promulgation or terms of this section concerning the application of law in effect prior to January 1, 1985.

(b) *Valuation of fringe benefits*—(1) *In general.* An employee must include in gross income the amount by which the fair market value of the fringe benefit exceeds the sum of (i) the amount, if any, paid for the benefit, and (ii) the amount, if any, specifically excluded from gross income by some other section of subtitle A. Therefore, for example, if the employee pays fair market value for what is received, no amount is includible in the gross income of the employee.

(2) *Fair market value.* In general, fair market value is determined on the basis of all the facts and circumstances. Specifically, the fair market value of a fringe benefit is that amount a hypothetical person would have to pay a hypothetical third party to obtain (i.e., purchase or lease) the particular fringe benefit. Thus, for example, the effect of any special relationship that may exist between the employer and the employee must be disregarded. This also means that an employee's subjective perception of the value of a fringe benefit is not relevant to the determination of a fringe benefit's fair market value. In addition, the cost incurred by the employer is not determinative of the fair market value of the fringe benefit. For special rules relating to the valuation of certain fringe benefits, see paragraph (c) of this section.

(3) *Exclusion from income based on cost.* If a statutory exclusion phrased in terms of cost applies to the provision of a fringe benefit, section 61 does not require the inclusion in the recipient's gross income of the difference between the fair market value and the excludable cost of that fringe benefit. For example, section 129 provides an exclusion from an employee's gross income for amounts paid or incurred by an employer to provide dependent care assistance to employees. Even if the fair market value of the dependent care assistance exceeds the employer's cost, the excess is not subject to inclusion under section 61 and this section. If the statutory cost exclusion is a limited amount, however, then the fair market value of the fringe benefit attributable to any excess cost is subject to inclusion.

(4) *Fair market value of the availability of an employer-provided vehicle.* If the vehicle special valuation rules of paragraphs (d), (e), or (f) of this section are not used by a taxpayer entitled to use such rules, the value of the availability of an employer-provided vehicle is determined under the general valuation principles set forth in this section. In general, such valuation must be determined by reference to the cost to a hypothetical person of leasing from a hypothetical third party the same or comparable vehicle on the same or comparable terms in the geographic area in which the vehicle is available for use. Unless the employee can substantiate that the same or comparable vehicle could have been leased on a cents-per-mile basis, the value of the availability of the vehicle cannot be determined by reference to a cents-per-mile rate applied to the number of miles the vehicle is driven. An example of a comparable lease term is the amount of time that the vehicle is available to the employee for use, e.g., a one-year period.

(5) *Fair market value of a flight on an employer-provided aircraft.* If the non-commercial flight special valuation rule of paragraph (g) of this section is not used (or is not properly used) by a taxpayer entitled to use such rule, the value of a flight on an employer-provided aircraft is determined under the general valuation principles set

forth in this section. An example of how the general valuation principles would apply is that if an employee whose flight is primarily personal controls the use of an aircraft with respect to such flight, such flight is valued by reference to how much it would cost a hypothetical person to charter the same or comparable aircraft for the same or comparable flight. The cost to charter the aircraft must be allocated among all employees on board the aircraft based on all the facts and circumstances, including which employee or employees controlled the use of the aircraft. Notwithstanding the allocation required by the preceding sentence, no additional amount shall be included in the income of any employee whose flight is properly valued under the special valuation rule of paragraph (g) of this section.

(c) *Special valuation rules*—(1) *In general*. Paragraphs (d) through (j) of this section provide special valuation rules that may be used under certain circumstances for certain commonly provided fringe benefits. paragraph (d) provides a lease valuation rule relating to employer-provided automobiles. Paragraph (e) provides a cents-per-mile valuation rule relating to employer-provided vehicles. Paragraph (f) provides a commuting valuation rule relating to employer-provided vehicles. Paragraph (g) provides a flight valuation rule relating to flights on employer-provided aircraft. Paragraph (h) provides a flight valuation rule relating to flights on commercial airlines. Paragraph (i) is reserved. Paragraph (j) provides a meal valuation rule relating to employer-operated eating facilities for employees. For general rules relating to the valuation of fringe benefits not eligible for valuation under the special valuation rules, see paragraph (b) of this section.

(2) *Use of the special valuation rules*—(i) *In general*. The special valuation rules may be used for income, employment tax, and reporting purposes. Use of any of the special valuation rules is optional. An employer need not use the same vehicle special valuation rule for all vehicles provided to all employees. For example, an employer may use the automobile lease valuation rule for automobiles provided to some employees, and the commuting and vehicle cents-per-mile valuation rules for automobiles provided to other employees. Except as otherwise provided, however, if either the commercial flight valuation rule or the noncommercial flight valuation rule is used, such rule must be used by an employer to value all flights taken by employees in a calendar year. Effective January 1, 1986, if an employer uses one of the special rules to value the benefit provided to an employee, the employee may not use another special rule to value that benefit. The employee may, however, use general valuation rules based on facts and circumstances (see paragraph (b) of this section). Effective January 1, 1986, an employee may only use a special valuation rule if the employer uses the rule. If a special rule is used, it must be used for all purposes. If an employer properly uses a special rule and the employee uses the special rule, the employee must include in gross income the amount determined by the employer under the special rule less any amount reimbursed by the employee to the employer. The employer and the employee may use the special rules to determine the amount of the reimbursement due the employer by the employee. If an employer properly uses a special rule and properly determines the amount of an employee's working condition fringe under section 132 and §1.132-5T (under the general rule or under a special rule), and the employee uses the special valuation rule, the employee must include in gross income the amount determined by the employer less any amount reimbursed by the employee to the employer.

(ii) *Transitional rules*—(A) *Use of vehicle special valuation rules for 1985 and 1986*. For purposes of valuing the use or availability of a vehicle, the consistency rules provided in paragraphs (d)(6) and (e)(5) of this section (relating to the automobile lease valuation rule and the vehicle cents-per-mile valuation rule, respectively) apply for 1987 and thereafter. Therefore, for 1985 and 1986 an employer (and employee, subject to paragraph (c)(2)(i) of this section) may use any applicable special valuation rule (or no special valuation rule) to value the use or availability of a vehicle, subject to paragraph (c)(2)(ii)(B) of this section.

(B) *Consistency Rules for 1985 and 1986*. If an employer uses the automobile lease valuation rule of paragraph (d) of this section in 1985 or 1986 with respect to an automobile, such rule must be used for the entire calendar year with respect to the automobile except for any period during which the commuting valuation rule of paragraph (f) of this section is properly used. If an employer uses the vehicle cents-per-mile valuation rule of paragraph (e) of this section in 1985 or 1986 with respect to a vehicle, such rule must be used for the entire calendar year with respect to the vehicle except for any period during which the commuting valuation rule of paragraph (f) of this section is properly used. The rules of this paragraph (c)(2)(ii)(B) also apply to employees using the special valuation rules of paragraph (d) or (e) of this section.

(C) *Employee's use of special valuation rules for 1985*. An employee may use a special valuation rule (other than the rule in paragraph (e) of this section relating to the vehicle cents-per-mile valuation rule) during 1985 even if the employer does not use the same special valuation rule during 1985. An employee's use of a special valuation rule in 1986 and thereafter must be consistent with his employer's use of the rule as required under paragraph (c)(2)(i) of this section.

(D) *Examples*. The following examples illustrate the rules of paragraph (c)(2)(ii) of this section:

Example (1). Assume that an employer properly uses the automobile lease valuation rule in 1985. The employer may use the vehicle cents-per-mile valuation rule in 1986 if the requirements of the vehicle cents-per-mile valuation rule are satisfied.

Example (2). Assume that an employer does not use a special valuation rule to value the availability of an automobile in 1985. The employer may use any of the special valuation rules in 1986 if the requirements of the rule chosen are satisfied. The same applies for 1987.

Example (3). Assume that an employer properly uses the vehicle cents-per-mile valuation rule in 1985. The employer may continue to use the rule or use any of the other special valuation rules to value the benefit provided in 1986 if the requirements of the rule chosen are satisfied. Alternatively, the employer may use none of the special valuation rules in 1986 but use any of the rules in 1987 if the requirements of the rule chosen are satisfied.

Example (4). Assume that an employee properly uses the automobile lease valuation rule in 1985. In 1986 and thereafter the employee may use a special valuation rule only if the employee's employer uses the same special valuation rule. The employee may use general valuation principles to value the benefit provided in 1986 and thereafter.

(3) *Election to use the special valuation rules*—(i) *In general*. A particular special valuation rule is deemed to have been elected by the employer (and, if applicable, by the employee), if the employer (and, if applicable, the employee) determines the value of the fringe benefit provided by applying the special valuation rule and treats such value as the fair market value of the fringe benefit for income, employment tax, and reporting purposes. Neither the employer nor the employee is required to notify the Internal Revenue Service of the election.

(ii) *Notification to employee*. Effective January 1, 1987, an employer who elects to use a special valuation rule must notify the employee of the election by the later of January 31 of the calendar year for which the election is to apply or 30 days after the employer first provides the benefit to the employee. An employer who elects to use a special valuation rule with respect to 1986 must notify the employee of the election by the later of March 31, 1986, or 30 days after the employer first provides the benefit to the employee. An employer who elects to use a special valuation rule with respect to 1985 need not provide notification of this election to the employee.

(4) *Application of section 414 to employers*. For purposes of paragraphs (c) through (j) of this section, except as otherwise provided therein, the term "employer" includes all entities required to be treated as a single employer under section 414(b), (c), or (m).

(5) *Valuation formulas contained in the special valuation rules*. The valuation formulas contained in the special valuation rules are provided only for use in connection with such rules. Thus, when a special valuation rule is properly applied to a fringe benefit, the Commissioner will accept the value calculated pursuant to the rule as the fair market value of that fringe benefit. However, when a special valuation rule is not properly applied to a fringe benefit (see, for example, paragraph (g)(11) of this section), or when a special valuation rule is not used to value a fringe benefit by a taxpayer entitled to use the rule, the fair market value of that fringe benefit may not be determined by reference to any value calculated under any special valuation rule. Under the circumstances described in the preceding sentence, the fair market value of the fringe benefit must be determined pursuant to paragraph (b) of this section.

(6) *Modification of the special valuation rules*. The Commissioner may, if he deems it necessary, add, delete, or modify the special valuation rules, including the valuation formulas contained herein, on a prospective basis.

(7) *Special Accounting Period*. If the employer is using the special accounting rule provided in Announcement 85-113 (1985-13 I.R.B. 31, August 5, 1985) (relating to the reporting of and withholding on the value of noncash fringe benefits), benefits which are deemed provided in a subsequent calendar year pursuant to such rule are considered as provided in such subsequent calendar year for purposes of the special valuation rules. Thus, if a particular special valuation rule is in effect for a calendar year, it applies to benefits deemed provided during such calendar year under the special accounting rule.

(d) *Automobile lease valuation rule*—(1) *In general*—(i) *Annual Lease Value*. Under the special valuation rule of this paragraph (d), if an employer provides an employee with an automobile that is available to the employee for an entire calendar year, the value of the benefit provided is the Annual Lease Value (determined under paragraph (d)(2) of this section) of that automobile. Except as otherwise provided, for an automobile that is available to an employee for less than an entire calendar year, the value of the benefit provided is either a pro-rated Annual Lease Value or the Daily Lease Value (as defined in paragraph (d)(4) of this section), whichever is applicable. Absent any statutory exclusion relating to the employer-provided automobile (see, for example, section 132(a)(3) and §1.132-5T(b)), the amount of the Annual Lease Value (or a pro-rated Annual Lease Value or the Daily Lease Value, as applicable) is included in the gross income of the employee.

(ii) *Definition of automobile*. For purposes of this paragraph (d), the term "automobile" means any four-wheeled vehicle manufactured primarily for use on public streets, roads, and highways.

(2) *Calculation of Annual Lease Value*—(i) *In general*. The Annual Lease Value of a particular automobile is calculated as follows:

(A) Determine the fair market value of the automobile as of the first date on which the automobile is made available to any employee of the employer for personal use. For an automobile first made available to any employee for personal use prior to January 1, 1985, determine the fair market value as of January 1, 1985. For rules relating to determination of the fair market value of an automobile for purposes of this paragraph (d), see paragraph (d)(5) of this section.

(B) Select the dollar range in column 1 of the Annual Lease Value Table, set forth in paragraph (d)(2)(iii) of this section, corresponding to the fair market value of the automobile. Except as otherwise provided in paragraphs (d)(2)(iv) and (v) of this section, the Annual Lease Value for each year of availability of the automobile is the corresponding amount in column 2 of the Table.

(ii) *Use by employee only in 1985*. If the employee, but not the employer, is using the special rule of this paragraph (d), the employee may calculate the Annual Lease Value in the same manner as described in paragraph (d)(2)(i)(A) of this section, except that the fair market value of the automobile is determined as of the first date on which the automobile is made available to the employee for personal use or, for an automobile made available to the employee for personal use prior to January 1, 1985, by determining the fair market value as of January 1, 1985. If the employer is also using the special rule of this paragraph (d), however, then the employee to whom the automobile is made available must use the special rule if at all, by using the Annual Lease Value calculated by the employer. The rules of this paragraph (d)(2)(ii) apply only for 1985.

(iii) *Lease Value Table*.

Automobile fair market value (1)	*Annual Lease Value* (2)
$0 to 999	$600
1,000 to 1,999	850
2,000 to 2,999	1,100
3,000 to 3,999	1,350
4,000 to 4,999	1,600
5,000 to 5,999	1,850
6,000 to 6,999	2,100

Automobile fair market value (1)	*Annual Lease Value* (2)
7,000 to 7,999	2,350
8,000 to 8,999	2,600
9,000 to 9,999	2,850
10,000 to 10,999	3,100
11,000 to 11,999	3,350
12,000 to 12,999	3,600
13,000 to 13,999	3,850
14,000 to 14,999	4,100
15,000 to 15,999	4,350
16,000 to 16,999	4,600
17,000 to 17,999	4,850
18,000 to 18,999	5,100
19,000 to 19,999	5,359
20,000 to 20,999	5,600
21,000 to 21,999	5,850
22,000 to 22,999	6,100
23,000 to 23,999	6,350
24,000 to 24,999	6,600
25,000 to 25,999	6,850
26,000 to 27,999	7,250
28,000 to 29,999	7,750
30,000 to 31,999	8,250
32,000 to 33,999	8,750
34,000 to 35,999	9,250
36,000 to 37,999	9,750
38,000 to 39,999	10,250
40,000 to 41,999	10,750
42,000 to 43,999	11,250
44,000 to 45,999	11,750
46,000 to 47,999	12,250
48,000 to 49,999	12,750
50,000 to 51,999	13,250
52,000 to 53,999	13,750
54,000 to 55,999	14,250
56,000 to 57,999	14,750
58,000 to 59,999	15,250

For vehicles having a fair market value in excess of $59,999, the Annual Lease Value is equal to: (.25 × the fair market value of the automobile) + $500.

(iv) *Recalculation of Annual Lease Value*. The Annual Lease Values determined under the rules of this paragraph (d) are based on a four-year lease term. Therefore, except as otherwise provided in paragraph (d)(2)(v) of this section, the Annual Lease Value calculated by applying paragraph (d)(2)(i) or (ii) of this section shall remain in effect for the period that begins with the first date the special valuation rule of paragraph (d) of this section is applied by the employer to the automobile and ends on December 31 of the fourth full calendar year following that date. The Annual Lease Value for each subsequent four-year period is calculated by determining the fair market value of the automobile as of the January 1 following the period described in the previous sentence and selecting the amount in column 2 of the Annual Lease Value Table corresponding to the appropriate dollar range in column 1 of the Table. If, however, the employer is using the special accounting rule provided in Announcement 85-113 (1985-31 I.R.B. 31, August 5, 1985) (relating to the reporting of and withholding on the value of noncash fringe benefits), the employer may calculate the Annual Lease Value for each subsequent four-year period as of the beginning of the special accounting period that begins immediately prior to the January 1 described in the previous sentence. For example, assume that pursuant to Announcement 85-113, an employer uses the special accounting rule. Assume further that beginning on November 1, 1985, the special accounting period is November 1 to October 31 and that the employer elects to use the special valuation rule of this paragraph (d) as of January 1, 1985. The employer may recalculate the Annual Lease Value as of November 1, 1988, rather than as of January 1, 1989.

(v) *Transfer of the automobile to another employee*. Unless the primary purposes of the transfer is to reduce Federal taxes, if an employer transfers an automobile from one employee to another employee, the employer may recalculate the Annual Lease Value based on the fair market value of the automobile as of January 1 of the year of transfer. If, however, the employer is using the special accounting rule provided in Announcement 85-113 (1985-31 I.R.B. 31, August 5, 1985) (relating to the reporting of and withholding on the value of noncash fringe benefits), the employer may recalculate the Annual Lease Value based on the fair market value of the automobile as of the beginning of the special accounting period in which the transfer occurs. If the employer does not recalculate the Annual Lease Value, and the employee to whom the automobile is transferred uses the special valuation rule, the employee may not recalculate the Annual Lease Value.

(3) *Services included in, or excluded from, the Annual Lease Value Table*—(i) *Maintenance and insurance included*. The Annual Lease Values contained in the Annual Lease Value Table include the fair market value of maintenance of, and insurance for, the automobile. Neither an employer nor an employee may reduce the Annual Lease Value by the fair market value of any service included in the Annual Lease Value that is not provided by the employer, such as reducing the Annual Lease Value by the fair market value of a maintenance service contract or insurance. An employer or employee may take into account the services actually provided with respect to the automobile by valuing the availability of the automobile under the general valuation rules of paragraph (b) of this section.

(ii) *Fuel excluded*—(A) *In general*. The Annual Lease Values do not include the fair market value of fuel provided by the employer, regardless of whether fuel is provided in kind or its cost is reimbursed by or charged to the employer.

(B) *Valuation of fuel provided in kind*. The provision of fuel in kind may be valued at fair market value based on all the facts and circumstances or, in the alternative, it may be valued at 5.5 cents per mile for all miles driven by the employee. However, the provision of fuel in kind may not be valued at 5.5 cents per mile for miles driven outside the United States, Canada, and Mexico. For purposes of this section, the United States includes the United States and its territories.

(C) *Valuation of fuel where cost reimbursed by or charged to employer*. The fair market value of fuel, the cost of which is reimbursed by or charged to an employer, is generally the amount of the actual reimbursement or the amount charged, provided the purchase of the fuel is at arm's length. If an employer with a fleet of at least 20 automobiles that meet the requirements of paragraph (d)(5)(v)(C) of this section reimburses employees for the cost of fuel or allows employees to charge the employer for the cost of the fuel, however, the fair market value of fuel provided to those automobiles may be determined by reference to the employer's fleet-average cents-per-mile fuel cost. The fleet-average cents-per-mile fuel cost is equal to the fleet-average per-gallon fuel cost divided by the fleet-average miles-per-gallon rate. The averages described in the preceding sentence must be determined by averaging the per-gallon fuel costs and miles-per-gallon rates of a representative sample of the automobiles in the fleet equal to the greater of ten percent of the automobiles in the fleet or 20 automobiles for a representative period, such as a two month period.

(iii) *All other services excluded.* The fair market value of any service, not specifically identified in paragraph (d)(3)(i) of this section that is provided by the employer with respect to an automobile (such as the services of a chauffeur) must be added to the Annual Lease Value of the automobile in determining the fair market value of the benefit provided.

(4) *Availability of an automobile for less than an entire calendar year*—(i) *Pro-rated Annual Lease Value used for continuous availability of 30 or more days.* Except as otherwise provided in paragraph (d)(4)(iv) of this section, for periods of continuous availability of 30 or more days, but less than an entire calendar year, the value of the availability of the employer-provided automobile is the pro-rated Annual Lease Value. The pro-rated Annual Lease Value is calculated by multiplying the applicable Annual Lease Value by a fraction, the numerator of which is the number of days of availability and the denominator of which is 365.

(ii) *Daily Lease Value used for continuous availability of less than 30 days.* Except as otherwise provided in paragraph (d)(4)(iii) of this section, for periods of continuous availability of one or more but less than 30 days, the value of the availability of the employer-provided automobile is the Daily Lease Value. The Daily Lease Value is calculated by multiplying the applicable Annual Lease Value by a fraction, the numerator of which is four times the number of days of availability and the denominator of which is 365.

(iii) *Election to treat all periods as periods of at least 30 days.* A pro-rated Annual Lease Value may be applied with respect to a period of continuous availability of less than 30 days, by treating the automobile as if it had been available for 30 days, if to do so would result in a lower valuation than applying the Daily Lease Value to the shorter period of actual availability.

(iv) *Periods of unavailability*—(A) *General rule.* In general, a pro-rated Annual Lease Value (as provided in paragraph (d)(4)(i) of this section) is used to value the availability of an employer-provided automobile when the automobile is available to an employee for a period of continuous availability of at least 30 days but less than the entire calendar year. Neither an employer nor an employee may use a prorated Annual Lease Value when the reduction of Federal taxes is the primary reason the automobile is unavailable to an employee during the calendar year.

(B) *Unavailability for personal reasons of the employee.* If an automobile is unavailable to an employee because of personal reasons of the employee, such as while the employee is on vacation, a pro-rated Annual Lease Value may not be used. For example, assume an automobile is available to an employee during the first five months of the year and during the last five months of the year. Assume further that the period of unavailability occurs because the employee is on vacation. The Annual Lease Value, if it is applied, must be applied with respect to the entire 12 month period. The Annual Lease Value may not be pro-rated to take into account the two-month period of unavailability.

(5) *Fair market value*—(i) *In general.* For purposes of determining the Annual Lease Value of an automobile under the Annual Lease Value Table, the fair market value of an automobile is that amount a hypothetical person would have to pay a hypothetical third party to purchase the particular automobile provided. Thus, for example, any special relationship that may exist between the employee and the employer must be disregarded. Also, the employee's subjective perception of the value of the automobile is not relevant to the determination of the automobile's fair market value. In addition, except as provided in paragraph (d)(5)(ii) of this section, the cost incurred by the employer of either purchasing or leasing the automobile is not determinative of the fair market value of the automobile.

(ii) *Safe-harbor valuation rule.* For purposes of calculating the Annual Lease Value of an automobile under this paragraph (d), the safe-harbor value of the automobile may be used as the fair market value of the automobile. For an automobile owned by the employer, the safe-harbor value of the automobile is the employer's cost of purchasing the automobile, provided the purchase is made at arm's length. For an automobile leased by the employer, the safe-harbor value of the automobile is the value determined under paragraph (d)(5)(iii) of this section.

(iii) *Use of nationally recognized pricing guides.* The fair market value of an automobile that is (A) provided to an employee prior to January 1, 1985, (B) being revalued pursuant to paragraphs (d)(2)(iv) or (v) of this section, or (C) is a leased automobile being valued pursuant to paragraph (d)(5)(ii) of this section, may be determined by using the retail value of such automobile as reported in a nationally recognized publication that regularly reports new or used automobile retail values, whichever is applicable. The values contained in (and obtained from) the publication must be reasonable with respect to the automobile being valued.

(iv) *Fair market value of special equipment*—(A) *Certain equipment excluded.* The fair market value of an automobile does not include the fair market value of any telephone or any specialized equipment that is added to or carried in the automobile if the presence of such equipment is necessitated by, and attributable to, the business needs of the employer.

(B) *Use of specialized equipment outside of employer's business.* The value of specialized equipment must be included, however, if the employee to whom the automobile is available uses the specialized equipment in a trade or business of the employee other than the employee's trade or business of being an employee of the employer.

(C) *Equipment susceptible to personal use.* The exclusion rule provided in this paragraph (d)(5)(iv) does not apply to specialized equipment susceptible to personal use.

(v) *Fleet-average valuation rule*—(A) *In general.* An employer with a fleet of 20 or more automobiles may use a fleet-average value for purposes of calculating the Annual Lease Values of the automobiles in the fleet. The fleet-average value is the average of the fair market values of each automobile in the fleet. The fair market value of each automobile in the fleet shall be determined, pursuant to the rules of paragraphs (d)(5)(i) through (iv) of this section, as of the later of January 1, 1985, or the first date on which the automobile is made available to any employee of the employer for personal use.

(B) *Period for use of rule.* The fleet-average valuation rule of this paragraph (d)(5)(v) may be used by an employer as of January 1 of any calendar year following the calendar year in which the employer acquires a fleet of 20 or more automobiles. The Annual Lease Value calculated for the automobiles in the fleet, based on the fleet-average value, shall remain in effect for the period that begins with the first January 1 the fleet-average valuation rule of this paragraph (d)(5)(v) is applied by the employer to the automobiles in the fleet and ends on December 31 of the subsequent calendar year. The Annual Lease Value for each subsequent two year period is calculated by determining the fleet-average value of the automobiles in the fleet as of the first January 1 of such period. An employer may cease using the fleet-average valuation rule as of any January 1. The fleet-average valuation rule does not apply as of January 1 of the year in which the number of automobiles in the employer's fleet declines to fewer than 20. If, however, the employer is using the special accounting rule provided in Announcement 85-113 (1985-31 I.R.B. 31, August 5, 1985), the employer may apply the rules of this paragraph (d)(5)(v)(B) on the basis of the special accounting period rather than the calendar year. (This is accomplished by substituting (*1*) the beginning of the special accounting period that begins immediately prior to the January 1 described in this paragraph (d)(5)(v)(B) for January 1 wherever it appears in this paragraph (d)(5)(v)(B) and (*2*) the end of such accounting period for December 31.) The revaluation rules of paragraph (d)(2)(iv) and (v) of this section do not apply to automobiles valued under this paragraph (d)(5)(v).

(C) *Limitation on use of fleet-average rule.* The rule provided in this paragraph (d)(5)(v) may not be used for any automobile whose fair market value (determined pursuant to paragraphs (d)(5)(i) through (iv) of this section as of either the first date on which the automobile is made available to any employee of the employer for personal use or, if later, January 1, 1985) exceeds $16,500. In addition, the rule provided in this paragraph (d)(5)(v) may only be used for automobiles that the employer reasonably expected will regularly be used in the employer's trade or business. Infrequent use of the vehicle, such as for trips to the airport or between the employer's multiple business premises, does not constitute regular use of the vehicle in the employer's trade or business.

(D) *Additional automobiles added to the fleet.* If the rule provided in this paragraph (d)(5)(v) is used by an employer, it must be used for every automobile included in or added to the fleet that meets the requirements of paragraph (d)(5)(v)(C) of this section. The fleet-average value in effect at the time an automobile is added to the fleet is treated as the fair market value of the automobile for purposes of determining the Annual Lease Value of the automobile until the fleet-average value changes pursuant to paragraph (d)(5)(v)(B) of this section.

(E) *Use of the fleet-average rule by employees.* An employee can only use the fleet-average value if it is used by the employer. If an employer uses the fleet-average value, and the employee uses the special valuation rule of paragraph (d) of this section, the employee must use the fleet-average value.

(6) *Consistency rules*—(i) *Use of the automobile lease valuation rule by an employer.* Except as provided in paragraph (d)(5)(v)(B) of this section, an employer may adopt the automobile lease valuation rule of this paragraph (d) for an automobile only if the rule is adopted with respect to the later of the period that begins on January 1, 1987, or the first period in which the automobile is made available to an employee of the employer for personal use or, if the commuting valuation rule of paragraph (f) of this section is used when the automobile is first made available to an employee of the employer for personal use, the first period in which the commuting valuation rule is not used.

(ii) *An employer must use the automobile lease valuation rule for all subsequent periods.* Once the automobile lease valuation rule has been adopted for an automobile by an employer, the rule must be used by the employer for all subsequent periods in which the employer makes the automobile available to any employee, except that the employer may, for any period during which use of the automobile qualifies for the commuting valuation rule of paragraph (f) of this section, use the commuting valuation rule with respect to the automobile.

(iii) *Use of the automobile lease valuation rule by an employee.* Except as provided in paragraph (c)(2)(ii)(C) of this section, an employee may adopt the automobile lease valuation rule for an automobile only if the rule is adopted (A) by the employer and (B) with respect to the first period in which the automobile for which the employer (consistent with paragraph (d)(6)(i) of this section) adopted the rule is made available to that employee for personal use, or, if the commuting valuation rule of paragraph (f) of this section is used when the automobile is first made available to that employee for personal use, the first period in which the commuting valuation rule is not used.

(iv) *An employee must use the automobile lease valuation rule for all subsequent periods.* Once the automobile lease valuation rule has been adopted for an automobile by an employee, the rule must be used by the employee for all subseqquent periods in which the automobile for which the rule is used is available to the employee, except that the employee may, for any period during which use of the automobile qualifies for use of the commuting valuation rule of paragraph (f) of this section and for which the employer uses the rule, use the commuting valuation rule with respect to the automobile.

(v) *Replacement automobiles.* Notwithstanding anything in this paragraph (d)(6) to the contrary, if the automobile lease valuation rule is used by an employer, or by an employer and an employee, with respect to a particular automobile, and a replacement automobile is provided to the employee for the primary purpose of reducing Federal taxes, then the employer, or the employer and the employee, using the rule must continue to use the rule with respect to the replacement automobile.

(e) *Vehicle cents-per-mile valuation rule*—(1) *In general*—(i) *General rule.* Under the vehicle cents-per-mile valuation rule of this paragraph (e), if an employer provides an employee with the use of a vehicle that (A) the employer reasonably expects will be regularly used in the employer's trade or business throughouit the calendar year (or such shorter period as the vehicle may be owned or leased by the employer) or (B) satisfies the requirements of paragraph (e)(1)(ii) of this section, the value of the benefit provided in the calendar year is the standard mileage rate provided in the applicable Revenue Ruling or Revenue Procedure ("cents-per-mile rate") multiplied by the total number of miles the vehicle is driven by the employee for personal purposes. For 1985, the standard mileage rate is 21 cents per mile for the first 15,000 miles and 11 cents per mile for all miles over 15,000. See Rev. Proc. 85-49, 1985-40 I.R.B. 26. The standard mileage rate must be applied to personal miles independent of business miles. Thus, for example, if an employee drives 20,000 personal miles and 35,000 business miles in 1985, the value of the personal use of the vehicle is $3,700 (15,000 × $.21 + 5,000 × $.11). For purposes of this section, the use of a vehicle for personal purposes is any use of the vehicle other than use in the employee's trade or business of being an employee of the employer. Infrequent use of the vehicle, such as for trips to the airport or between the employer's multiple business premises, does not constitute regular use of the vehicle in the employer's trade or business.

(ii) *Mileage Rule.* A vehicle satisfies the requirements of this paragraph (e)(1)(ii) in a calendar year if (A) it is actually driven at least 10,000 miles in that year, and (B) use of the vehicle during the year is primarily by employees. For example, if a vehicle is used by only one employe during the year and that employee drives a vehicle at least 10,000 miles in a calendar year, such vehicle satisfies the requirements of this paragraph (e)(1)(ii) even if all miles driven by the employee are personal. The requirements of this paragraph (e)(1)(ii), however, will not be satisfied if during the year the vehicle is transferred among employees in such a way which enables an employee whose use was at a rate significantly less than 10,000 miles per year to meet the 10,000 mile threshold. Assume that an employee uses a vehicle for the first six months of the year and drives 2,000 miles, and that vehicle is then used by other employees who drive the vehicle 8,000 miles in the last six months of the year. Because the rate at which miles were driven in the first six months of the year would result in only 4,000 miles being driven in the year, and because the first employee did not use the vehicle during the last six months of the year, the requirements of this paragraph (e)(1)(ii) are not satisfied. The requirement of paragraph (e)(1)(ii)(B) of this section is deemed satisfied if employees use the vehicle on a consistent basis for commuting. If the employer does not own or lease the vehicle during a portion of the year, the 10,000 mile threshold is to be reduced proportionately to reflect the periods when the employer owned or leased the vehicle. For purposes of this paragraph (e)(1)(ii), use of the vehicle by an individual (other than the employee) whose use would be taxed to the employee is not considered use by the employee.

(iii) *Limitation on use of the vehicle cents-per-mile valuation rule.* The value of the use of an automobile (as defined in paragrapyh (d)(1)(ii) of this section) may not be determined under the vehicle cents-per-mile valuation rule of this paragraph (e) if the fair market value of the automobile (determined pursuant to paragraphs (d)(5)(i) through (iv) of this section as of the later of January 1, 1985, or the first date on which the automobile is made available to any employee of the employer for personal use) exceeds the sum of the maximum recovery deducations allowable under section 280F(a)(2) for the first three taxable years in the recorvery period for an automobile first placed in service during that calendar year. For 1985, that value is $12,800.

(2) *Definition of vehicle.* For purposes of this paragraph (e), the term "vehicle" means any motorized wheeled vehicle manufactured primarily for use on public streets, roads, and highways. The term "vehicle" includes an automobile as defined in paragraph (d)(1)(ii) of this section.

(3) *Services included in, or excluded from, the cents-per-mile rate*—(i) *Maintenance and insurance included.* The cents-per-mile rate includes the fair market value of maintenance of, and insurance for, the vehicle. An employer may not reduce the cents-per-mile rate by the fair market value of any service included in the cents-per-mile rate but not provided by the employer. An employer or employee may take into account the services provided with respect to the automobile by valuing the availability of the automobile under the general valution rules of paragraph (b) of this section.

(ii) *Fuel provided by the employer*—(A) *Miles driven in the United States, Canada, and Mexico.* With respect to miles driven in the United States, Canada, and Mexico, the cents-per-mile rate includes the fair market value of fuel provided by the employer. If fuel is not provided by the employer, the cents-per-mile rate may be reduced by no more than 5.5 cents or the amount specified in any applicable Revenue Ruling or Revenue Procedure. For purposes of this section, the United States includes the United States and its territories.

(B) *Miles driven outside the United States, Canada, and Mexico.* With respect to miles driven outside the United States, Canada, and Mexico, the fair market value of fuel provided by the employer is not reflected in the cents-per-mile rate. Accordingly, the cents-per-mile rate may be reduced but by no more than 5.5 cents or the amount specified in any applicable revenue ruling or revenue procedure. If the employer provides the fuel in kind, it must be valued based on all the facts and circumstances. If the employer reimburses the employee for the cost of fuel or allows the employee to charge the employer for the cost of fuel, the fair market value of the fuel is generally the amount of the actual reimbursement or the amount charged, provided the purchase of fuel is at arm's length.

(4) *Valuation of personal use only.* The vehicle cents-per-mile valuation rule of this paragraph (e) may only be used to value the miles driven for personal purposes. Thus, the employer must include an amount in an employee's income with respect to the use of a vehicle that is equal to the product of the number of personal miles driven by the employee and the appropriate cents-per-mile rate. The employer may not include in income a greater or lesser amount; for example, the employer may not include in income 100 percent (all business and personal miles) of the value of the use of the vehicle. The term "personal miles" means all miles driven by the employee except miles driven by the employee in the employee's trade or business of being an employee of the employer.

(5) *Consistency rules*—(i) *Use of the vehicle cents-per-mile valuation rule by an employer.* An employer must adopt the vehicle cents-per-mile valuation rule of this paragraph (e) for a vehicle

by the later of the period that begins on January 1, 1987, or the first period in which the vehicle is used by an employee of the employer for personal use or, if the commuting valuation rule of paragraph (f) of this section is used when the vehicle is first used by an employee of the employer for personal use, the first period in which the commuting valuation rule is not used.

(ii) *An employer must use the vehicle cents-per-mile valuation rule for all subsequent periods.* Once the vehicle cents-per-mile valuation rule has been adopted for a vehicle by an employer, the rule must be used by the employer for all subsequent periods in which the vehicle qualifies for use of the rule, except that (A) the employer may, for any period during which use of the vehicle qualifies for the commuting valuation rule of paragraph (f) of this section, use the commuting valuation rule with respect to the vehicle, and (B) if the employer elects to use the automobile lease valuation rule of paragraph (d) of this section for a period in which the vehicle does not qualify for use of the vehicle cents-per-mile valuation rule, then the employer must comply with the requirements of paragraph (d)(6) of this section. If the vehicle fails to qualify for use of the vehicle cents-per-mile valuation rule during a subsequent period, the employer may adopt for such subsequent period and thereafter any other special valuation rule for which the vehicle then qualifies. For purposes of paragraph (d)(6) of this section, the first day on which an automobile with respect to which the vehicle cents-per-mile rule had been used fails to qualify for use of the vehicle cents-per-mile valuation rule may be deemed to be the first day on which the automobile is available to an employee of the employer for personal use.

(iii) *Use of the vehicle cents-per-mile valuation rule by an employee.* An employee may adopt the vehicle cents-per-mile valuation rule for a vehicle only if the rule is adopted (A) by the employer and (B) with respect to the first period in which the vehicle for which the employer (consistent with paragraph (e)(5)(i) of this section) adopted the rule is available to that employee for personal use or, if the commuting valuation rule of paragraph (f) of this section is used by both the employer and the employee when the vehicle is first used by an employee for personal use, the first period in which the commuting valuation rule is not used.

(iv) *An employee must use the vehicle cents-per-mile valuation rule for all subsequent periods.* Once the vehicle cents-per-mile valuation rule has been adopted for a vehicle by an employee, the rule must be used by the employee for all subsequent periods of personal use of the vehicle by the employee for which the rule is used by the employer, except that the employee may, for any period during which use of the vehicle qualifies for use of the commuting valuation rule of paragraph (f) of this section and for which such rule is used by the employer, use the commuting valuation rule with respect to the vehicle.

(v) *Replacement vehicles.* Notwithstanding anything in this paragraph (e)(5) to the contrary, if the vehicle cents-per-mile valuation rule is used by an employer, or by an employer and an employee, with respect to a particular vehicle, and a replacement vehicle is provided to the employee for the primary purpose of reducing Federal taxes, then the employer, or the employer and the employee, using the rule must continue to use the rule with respect to the replacement vehicle if the replacement vehicle qualifies for use of the rule.

(f) *Commuting valuation rule*—(1) *In general.* Under the commuting valuation rule of this paragraph (f), the value of the commuting use of an employer-provided vehicle may be determined pursuant to paragraph (f)(3) of this section if the following criteria are met by the employer and employees with respect to the vehicle:

(i) The vehicle is owned or leased by the employer and is provided to one or more employees for use in connection with the employer's trade or business and is used in the employer's trade or business;

(ii) For bona fide noncompensatory business reasons, the employer requires the employee to commute to and/or from work in the vehicle;

(iii) The employer has established a written policy under which the employee may not use the vehicle for personal purposes, other than for commuting or de minimis personal use (such as a stop for a personal errand on the way between a business delivery and the employee's home);

(iv) Except for de minimis personal use, the employee does not use the vehicle for any personal purpose other than commuting; and

(v) The employee required to use the vehicle for commuting is not a control employee of the employer (as defined in paragraphs (f)(5) and (6) of this section).

If the vehicle is a chauffeur-driven vehicle, the commuting valuation rule of this paragraph (f) may not be used to value the commuting use of any passenger who commutes in the vehicle. The rule may be used, however, to value the commuting use of the chauffeur. Personal use of a vehicle is all use of the vehicle by the employee that is not use in the employee's trade or business of being an employee of the employer.

(2) *Special rules.* Notwithstanding anything in paragraph (f)(1) of this section to the contrary, the following special rules apply—

(i) *Written policy not required in 1985.* The policy described in paragraph (f)(1)(iii) of this section prohibiting personal use need not be written with respect to the commuting use which occurs prior to January 1, 1986;

(ii) *Commuting use during 1985.* For commuting use that occurs after December 31, 1984, but before January 1, 1986, the restrictions of paragraph (f)(1)(v) of this section shall be applied by substituting "an employee who is an officer or a five-percent owner of the employer" in lieu of "a control employee". For purposes of determining who is a five-percent owner, any individual who owns (or is considered as owning) five or more percent of the fair market value of an entity (the "owned entity") is considered a five-percent owner of all entities that would be aggregated with the owned entity under the rules of section 414(b), (c), or (m). An employee who is an officer of an employer shall be treated as an officer of all entities treated as a single employer pursuant to section 414(b), (c), or (m). The definitions provided in paragraphs (f)(5)(i) and (f)(6) of this section may be used to define an officer; and

(iii) *Control employee exception.* If the vehicle in which the employee is required to commute is not an automobile as defined in paragraph (d)(1)(ii) of this section, the restrictions of paragraph (f)(1)(v) of this section do not apply.

(3) *Commuting value*—(i) *$1.50 per one-way commute*. If the requirements of this paragraph (f)are satisfied, the value of the commuting use of an employer-provided vehicle is $1.50 per one-way commute (e.g., from home to work or from work to home).

(ii) *Value per employee*. If there is more than one employee who commutes in the vehicle, such as in the case of an employer-sponsored car pool, the amount includible in the income of each employee is $1.50 per one-way commute. Thus, the amount includible for each round-trip commute is $3.00 per employee.

(4) *Definition of vehicle*. For purposes of this paragraph (f), the term "vehicle" means any motorized wheeled vehicle manufactured primarily for use on public streets, roads, and highways. The term "vehicle" includes an automobile as defined in paragraph (d)(1)(ii) of this section.

(5) *Control employee defined—Non-government employer*. For purposes of this paragraph (f), a control employee of a non-government employer is any employee—

(i) Who is a Board- or shareholder-appointed, confirmed, or elected officer of the employer,

(ii) who is a director of the employer, or

(iii) Who owns a one-percent or greater equity, capital, or profits interest in the employer.

For purposes of determining who is a one-percent owner under paragraph (f)(5)(iii) of this section, any individual who owns (or is considered as owning under section 318(a) or principles similar to section 318(a) for entities other than corporations) one percent or more of the fair market value of an entity (the "owned entity") is considered a one-percent owner of all entities which would be aggregated with the owned entity under the rules of section 414(b), (c), or (m). An employee who is an officer of an employer shall be treated as an officer of all entities treated as a single employer pursuant to section 414(b), (c) or (m).

(6) *Control employee defined— Government employer*. For purposes of this paragraph (f), a control employee of a government employer is any—

(i) Elected official,

(ii) Federal employee who is appointed by the President and confirmed by the Senate. In the case of commissioned officers of the United States Armed Forces, an officer is any individual with the rank of brigadier general or above or the rank of rear admiral (lower half) or above; or

(iii) State or local executive officer comparable to the individuals described in paragraph (f)(6)(i) and (ii) of this section.

For purposes of this paragraph (f), the term "government" includes any Federal, state, or local governmental unit, and any agency or instrumentality thereof.

(g) *Non-commercial flight valuation rule*—(1) *In general*. Under the non-commercial flight valuation rule of this paragraph (g), if an employee is provided with a flight on an employer-provided aircraft, the value of the flight is calculated using the aircraft valuation formula provided in paragraph (g)(5) of this section. Except as otherwise provided, for purposes of this paragraph (g), a flight provided to a person whose flight would be taxable to an employee as the recipient is referred to as provided to the employee, and a flight taken by such person is considered a flight taken by the employee.

(2) *Eligible flights and eligible aircraft*. The valuation rule of this paragraph (g) may be used to value flights on all employer-provided aircraft, including helicopters. The valuation rule of this paragraph (g) may be used to value international as well as domestic flights. The valuation rule of this paragraph (g) may not be used to value a flight on any commercial aircraft on which air transportation is sold to the public on a per-seat basis. For a special valuation rule relating to certain flights on commercial aircraft, see paragraph (h) of this section.

(3) *Definition of a flight*—(i) *General rule*. Except as otherwise provided in paragraph (g)(3)(iii) of this section (relating to intermediate stops), for purposes of this paragraph (g), an individual's flight is the distance (in statute miles) between the place at which the individual boards the aircraft and the place at which the individual deplanes.

(ii) *Valuation of each flight*. Under the valuation rule of this paragraph (g), value is determined separately for each flight. Thus, a round-trip is comprised of at least two flights. For example, an employee who takes a personal trip on an employer-provided aircraft from New York, New York to Denver, Colorado, Denver to Los Angeles, California, and Los Angeles to New York has taken three flights and must apply the aircraft valuation formula separately to each flight. The value of a flight must be determined on a passenger-by-passenger basis. For example, if an individual accompanies an employee and the flight taken by the individual would be taxed to the employee, the employee would be taxed on the special rule value of the flight by the employee and by the individual.

(iii) *Intermediate stop*. If the primary purpose of a landing is necessitated by weather conditions, by an emergency, for purposes of refueling or obtaining other services relating to the aircraft, or for purposes of the employer's business unrelated to the employee whose flight is being valued ("an intermediate stop"), the distance between the place at which the trip originates and the place at which the intermediate stop occurs is not considered a flight. For example, assume that an employee's trip originates in St. Louis, Missouri, on route to Seattle, Washington, but, because of weather conditions, the aircraft lands in Denver, Colorado, and the employee stays in Denver overnight. Assume further that the next day the aircraft flies to Seattle where the employee deplanes. The employee's flight is the distance between the airport in St. Louis and the airport in Seattle. Assume that a trip originates in New York, New York, with five passengers and makes an intermediate stop in Chicago, Illinois, before going on to Los Angeles, California. If one of the five passengers deplanes in Chicago, the distance of that passenger's flight would be the distance between the airport in New York and the airport in Chicago. The intermediate stop is disregarded when measuring the flights taken by each of the other passengers. Their flights would be the distance between the airport in New York and the airport in Los Angeles.

(4) *Personal and non-personal flights*—(i) *In general*. The valuation rule of this paragraph (g) applies to personal flights on employer-provided aircraft. A personal flight is one the value

of which is not excludable under another section of subtitle A, such as under section 132(d) (relating to a working condition fringe). However, solely for purposes of paragraphs (g)(4)(ii) and (g)(4)(iii) of this section, references to personal flights do not include flights a portion of which would not be excludable by reason of section 274(c).

(ii) *Trip primarily for employer's business.* If an employee combines, in one trip, personal and business flights on an employer-provided aircraft and the employee's trip is primarily for the employer's business (see §1.162-2 (b)(2)), the employee must inlude in income the excess of the value of all the flights that comprise the trip over the value of the flights that would have been taken had there been no personal flights but only business flights. For example, assume that an employee flies on an employer-provided aircraft from Chicago, Illinois to Miami, Florida, for the employer's business and that from Miami the employee flies on the employer-provided aircraft to Orlando, Florida, for personal purposes and then flies back to Chicago. Assume further that the primary purpose of the trip is for the employer's business. The amount includible in income is the excess of the value of the three flights (Chicago to Miami, Miami to Orlando, and Orlando to Chicago), over the value of the flights that would have been taken had there been no personal flights but only business flights (Chicago to Miami and Miami to Chicago).

(iii) *Primarily personal trip.* If an employee combines, in one trip, personal and business flights on an employer-provided aircraft and the employee's trip is primarily personal (see §1.162-2(b)(2)), the amount includible in the employee's income is the value of the personal flights that would have been taken had there been no business flights but only personal flights. For example, assume that an employee flies on an employer-provided aircraft from San Francisco, California, to Los Angeles, California, for the employer's business and that from Los Angeles the employee flies on an employer-provided aircraft to Palm Springs, California, primarily for personal reasons and then flies back to San Francisco. Assume further that the primary purpose of the trip is personal. The amount includible in the employee's income is the value of personal flights that would have been taken had there been no business flights but only personal flights (San Francisco to Palm Springs and Palm Springs to San Francisco).

(iv) *Application of Section 274(c).* The value of employer-provided travel outside the United States away from home may not be excluded from the employee's gross income as a working condition fringe, by either the employer or the employee, to the extent not deductible by reason of section 274(c). The valuation rule of this paragraph (g) applies to that portion of the value of any flight not excludable by reason of section 274(c). Such value must be included in income in addition to the amounts determined under paragraphs (g)(4)(ii) and (g)(4)(iii) of this section.

(v) *Flight by individuals who are not personal guests.* If an individual who is not an employee of the employer providing the aircraft is on a flight, and the individual is not the personal guest of any employee, the flight by the individual is not taxable to any employee of the employer providing the aircraft. The rule in the preceding sentence applies where the individual is provided the flight by the employer for noncompensatory business reasons of the employer. For example, assume that G, an employee of company Y, accompanies A, an employee of company X, on company X's aircraft for the purpose of inspecting land under consideration for purchase by company X from company Y. The flight by G is not taxable to A.

(5) *Aircraft valuation formula.* Under the valuation rule of this paragraph (g), the value of a flight is determined by multiplying the base aircraft valuation formula for the period during which the flight was taken by the appropriate aircraft multiple (as provided in paragraph (g)(7) of this section) and then adding the applicable terminal charge. The base aircraft valuation formula (also known as the Standard Industry Fare Level formula or SIFL) in effect on June 30, 1985, is as follows: ($.1402 per mile for the first 500 miles, $.1069 per mile for miles between 501 and 1500, and $.1028 per mile for miles over 1500). The terminal charge in effect on June 30, 1985, is $25.62. The SIFL cents-per-mile rates in the formula and the terminal charge are calculated by the Department of Transportation and are revised semi-annually.

(6) *SIFL formula in effect for a particular flight.* For purposes of this paragraph (g), in determining the value of a particular flight during the first six months of a calendar year, the SIFL formula (and terminal charge) in effect on December 31 of the preceding year applies, and in determining the value of a particular flight during the last six months of a calendar year, the SIFL formula (and terminal charge) in effect on June 30 of that year applies. The following is the SIFL formula in effect on December 31, 1984: ($.1480 per mile for the first 500 miles, $.1128 per mile for miles between 501 and 1500, and $.1085 per mile for miles over 1500. The terminal charge in effect on December 31, 1984, is $27.05.

(7) *Aircraft multiples*—(i) *In general.* The aircraft multiples are based on the maximum certified takeoff weight of the aircraft. For purposes of applying the aircraft valuation formula described in paragraph (g)(5) of this section, the aircraft multiples are as follows:

6,000 lbs. or less	62.5 percent	15.6 percent
6,001—10,000-lbs.	125 percent	23.4 percent
10,001—25,000-lbs.	300 percent	31.3 percent
25,001 lbs. or more	400 percent	31.3 percent

(ii) *Flights treated as provided to a control employee.* Except as provided in paragraph (g)(10) of this section, any flight provided to an individual whose flight would be taxable to a control employee (as defined in paragraph (g)(8) and (9) of this section) as the recipient shall be valued as if such flight had been provided to that control employee. For example, assume that the chief executive officer of an employer, his spouse, and his two children fly on an employer-provided aircraft for personal purposes. Assume further that the maximum certified takeoff weight of the aircraft is 12,000 lbs. The amount includible in the employee's income is 4 × (300 percent × base aircraft valuation formula) plus the applicable terminal charge.

(8) *Control employee defined—Nongovernment employer.* For purposes of this paragraph (g), a control

employee of a non-government employer is any employee—

(i) Who is a Board- or shareholder-appointed, confirmed, or elected officer of the employer, limited to the lesser of (A) one-percent of all employees (increased to the next highest integer, if not an integer) or (B) ten employees;

(ii) Whose compensation equals or exceeds the compensation of the top one percent most highly-paid employees of the employer (increased to the next highest integer, if not an integer) limited to a maximum of 25 employees;

(iii) Who owns a ten-percent or greater equity, capital or profits interest in the employer; or

(iv) Who is a director of the employer.

For purposes of this paragraph (g), any employee who is a family member (within the meaning of section 267(c)(4)) of a control employee is also a control employee. Pursuant to this paragraph (g)(8), an employee may be a control employee under more than one of the requirements listed in paragraphs (g)(8)(i) through (iv) of this section. For example, an employee may be both an officer under paragraph (g)(8)(i) of this section and a highly-paid employee under paragraph (g)(8)(ii) of this section. In this case, for purposes of the officer limitation rule of paragraph (g)(8)(i) of this section and the highly-paid employee limitation rule of paragraph (g)(8)(ii) of this section, the employee would be counted as reducing both such limitation rules. In no event shall an employee whose compensation is less than $50,000 be a control employee under paragraph (g)(8)(ii) of this section. For purposes of determining who is a ten-percent owner under paragraph (g)(8)(iii) of this section, any individual who owns (or is considered as owning under section 318(a) or principles similar to section 318(a) for entities other than corporations) ten percent or more of the fair market value of an entity (the "owned entity") is considered a ten-percent owner of all entities which would be aggregated with the owned entity under the rules of section 414(b), (c), or (m). For purposes of determining who is an officer under paragraph (g)(8)(i) of this section, notwithstanding anything in this section to the contrary, if the employer would be aggregated with other employers under the rules of section 414(b), (c), or (m), the officer definition and the limitations are applied to each separate employer rather than to the aggregated employer. If applicable, the officer limitation rule of paragraph (g)(8)(i) of this section is applied to employees in descending order of their compensation. Thus, if an employer has 11 board-appointed officers, the employee with the least compensation of those officers would not be an officer under paragraph (g)(8)(i) of this section. For purposes of this paragraph (g), the term "compensation" means the amount reported on a Form W-2 as income for the prior calendar year. Compensation includes all amounts received from all entities treated as a single employer under section 414(b), (c), or (m).

(9) *Control employee defined— Government.* For purposes of this paragraph (g), a control employee of a government employer is any—

(i) Elected official;

(ii) Federal employee who is appointed by the President and confirmed by the Senate. In the case of commissioned officers of the United States Armed Forces, an officer is any individual with the rank of brigadier general or above or the the rank of rear admiral (lower half) or above; or

(iii) State or local executive officer comparable to the individuals in paragraph (g)(9)(i) and (ii) of this section.

For purposes of this paragraph (g), the term "government" includes any Federal, state, or local government unit, and any agency or instrumentality thereof.

(10) *Seating capacity rule*—(i) *In general.* Where 50 percent or more of the regular passenger seating capacity of an aircraft (as used by the employer) is occupied by individuals whose flights are primarily for the employer's business (and whose flights are excludable from income under section 132(d)), the value of a flight on that aircraft by any employee who is not flying primarily for the employer's business (or who is flying primarily for the employer's business but the value of whose flight is not excludable under section 132(d) by reason of section 274(c)) is deemed to be zero. See §1.132-5T which limits the exclusion under section 132(d) to situations where the employee receives the flight in connection with the performance of services for the employer providing the aircraft. For purposes of this paragraph (g)(10), the term "employee" includes only employees and partners of the employer providing the aircraft and does not include independent contractors and directors of the employer. For purposes of this paragraph (g)(10), the second sentence of paragraph (g)(1) of this section will not apply. Instead, a flight taken by an individual who is either treated as an employee pursuant to section 132(f)(1) or whose flight is treated as a flight taken by an employee pursuant to section 132(f)(2) is considered a flight taken by an employee. If (A) a flight is considered taken by an individual other than an employee (as defined in this paragraph (g)(10)), (B) the value of that individual's flight is not excludable under section 132(d), and (C) the seating capacity rule of this paragraph (g)(10) otherwise applies, then the value of the flight provided to such an individual is the value of a flight provided to a non-control employee (even if the individual who would be taxed on the value of such individual's flight is a control employee).

(ii) *Application of 50-percent test to multiple flights.* The seating capacity rule of this paragraph (g)(10) must be met both at the time the individual whose flight is being valued boards the aircraft and at the time the individual deplanes. For example, assume that employee A boards an employer-provided aircraft for personal purposes in New York, New York, and that at that time 80 percent of the regular passenger seating capacity of the aircraft is occupied by individuals whose flights are primarily for the employer's business (and whose flights are excludable from income under section 132(d)) ("the business passengers"). If the aircraft flies directly to Hartford, Connecticut where all of the passengers, including A, deplane, the requirements of the seating capacity role of this paragraph (g)(10) have been satisfied. If instead, some of the passengers, including A, remain on the aircraft in Hartford and th eaircraft continues on to Boston, Massachusetts, where they all deplane, the requirements of the seating capacity rule of this paragraph (g)(10) will not be satisfied unless at least 50 percent of the seats comprising the aircraft's regular passenger seating capacity were occupied by the business passnegers at the time A deplanes in Boston.

(iii) *Regular passenger seating capacity.* The regular passenger seating capacity of an aircraft is the maximum number of seats that have at any time been on the aircraft (while owned or leased by the employer). Except to the extent excluded pursuant to paragraph (g)(10)(v) of this section, regular seating capacity includes all seats which may be occupied by members of the flight crew. It is irrelevant that on a particular flight, less than the maximum number of seats are available for use, because, for example, some of the seats are removed. When determining the maximum number of seats, those seats that cannot at any time be legally used during takeoff and are not any time used during takeoff are not counted.

(iv) *Examples.* The rules of paragraph (g)(10)(iii) of this section are illustrated by the following examples:

Example (1). Employer A and employer B order the same aircraft, except that A orders it with 10 seats and B orders it with eight seats. A always uses its aircraft as a 10-seat aircraft; B always uses its aircraft as an eight-seat aircraft. The regular passenger seating capacity of A's aircraft is 10 and of B's aircraft is eight.

Example (2). Assume the same facts as in example (1), except that whenever A's chief excutive officer and spouse use the aircraft eight seats are removed. Even if substantially all of the use of the aircraft is by the chief executive officer and spouse the regular passenger seating capacity of the aircraft is 10.

Example (3). Assume the same facts as in example (1), except that whenever more than eight people want to fly in B's aircraft, two extra seats are added. Even if substantially all of the use of the aircraft occurs with eight seats, the regular passenger seating capacity of the aircraft is 10.

(v) *Seats occupied by flight crew.* When determining the regular passenger seating capacity of an aircraft, any seat occupied by a member of the flight crew (whether or not such individual is an employee of the employer providing the aircraft) shall not be counted, unless the purpose of the flight by such individual is not primarily to serve as a member of the flight crew. If the seat occupied by a member of the flight crew is not counted as a passenger seat pursuant to the previous sentence, such member of the flight crew is disregarded in applying the 50 percent test described in the first sentence of paragraph (g)(10)(i) of this section. For example, assume that, prior to application of this paragraph (g)(10)(v), the regular passenger seating capacity of an aircraft is two seats. Assume further that an employee pilots the aircraft and that the employee's flight is not primarily for the employer's business. If the employee's spouse occupies the other seat for personal purposes, the seating capacity rule is not met and the value of both flights must be included in the employee's income. If, however, the employee's flight were primarily for the employer's business (unrelated to serving as a member of the flight crew), then the seating capacity rule is met and the value of the flight for the employee's spouse is deemed to be zero. If the employee's flight were primarily to serve as a member of the flight crew, then the seating capacity rule is not met and the value of a flight by any passenger for primarily personal reasons is not deemed to be zero.

(11) *Erroneous use of the non-commercial flight valuation rule*—(i) *In general.* If the non-commercial flight valuation rule of this paragraph (g) is used by an employer or a control employee, as the case may be, on a return as originally filed, on the grounds that either the control employee is not in fact a control employee, or that the aircraft is within a specific weight classification, and either position is subsequently determined to be erroneous, the valuation rule of this paragraph (g) (including paragraph (g)(13) of this section) is not available to value the flight taken by that control employee by the person or persons taking the erroneous position. With respect to the weight classifications, the previous sentence does not apply if the position taken is that the weight of the aircraft is greater than it is subsequently determined to be. If, with respect to a flight by a control employee, the seating capacity rule of paragraph (g)(10) of this section is used by an employer or the control employee, as the case may be, on a return as originally filed, and it is subsequently determined that the requirements of paragraph (g)(10) of this section were not met, the valuation rule of this paragraph (g) (including paragraph (g)(13) of this section) is not available to value the flight taken by that control employee by the person or persons taking the erroneous position.

(ii) *Value of flight excluded as a working condition fringe.* If either an employer or an employee, on a return as originally filed, excludes from the employee's income or wages the value of a flight on the grounds that the flight was excludable as a working condition fringe under section 132, and that position is subsequently determined to be erroneous, the valuation rule of this paragraph (g) (including paragraph (g)(13) of this section) is not available to value the flight taken by that employee by the person or persons taking the erroneous position.

(12) *Consistency rules*—(i) *Use by the employer.* Except as otherwise provided in paragraphs (g)(11) and (g)(13)(iv) of this section, if the non-commercial flight valuation rule of this paragraph (g) is used by an employer to value flights provided in a calendar year, the rule must be used to value all flights provided in the calendar year.

(ii) *Use by the employee.* Except as otherwise provided in paragraphs (g)(11) and (g)(13)(iv) of this section, if the non-commercial flight valuation rule of this paragraph (g) is used by an employee to value a flight taken in a calendar year, the rule must be used to value all flights taken in the calendar year.

(13) *Transitional valuation rule*—(i) *In general.* If the value of a flight determined under this paragraph (g)(13) is lower than the value of the flight otherwise determined under paragraph (g) of this section, the value of the flight is the lower amount. The transitional valuation rule of this paragraph (g)(13) is available only for flights provided after December 31, 1984, and before January 1, 1986.

(ii) *Transitional valuation rule aircraft multiples.* The appropriate aircraft multiples under the transitional valuation rule are as follows:

(A) 125 percent of the base aircraft valuation formula, plus the applicable terminal charge, for any flight by any employee who is not a key employee (as defined in paragraph (g)(13)(iii) of this section.

(B) 125 percent of the base aircraft valuation formula, plus the applicable terminal charge, for a flight by a key employee if there is a primary business purpose for the trip by the aircraft. For purposes of this paragraph (g)(13)(ii)(B), entertaining an employee or other individual is not a business purpose.

(C) 600 percent of the base aircraft valuation formula, plus the applicable terminal charge, for a flight by a key employee if there is no primary business purpose for the trip by the aircraft. Where there is no business purpose for the trip by the aircraft, the alternative valuation rule may not be used to value a flight by a key employee. For purposes of this section, compensating an employee is not a business purpose.

(iii) *Key employee defined.* A "key employee" is any employee who is a five-percent owner or an officer of the employer, or who, with respect to a paticular trip by the aircraft, controls the use of the aircraft. For purposes of determining who is a five-percent owner, any individual who owns (or is considered as owning) five or more percent of the fair market value of an entity (the "owned entity") is considered a five-percent owner of all entities that would be aggregated with the owned entity under the rules of section 414(b), (c), or (m).

(iv) *Erroneous use of transitional valuation rule.* If the transitional valuation rule is used by an employer or a key employee, as the case may be, on a return as originally filed, on the grounds that—

(A) The key employee is not in fact a key employees.

(B) An aircraft trip had a primary business purpose, or

(C) An araft trip had some business purpose,

and such position is subsequently determined to be erroneous, neither the transitional valuation rule nor the noncommercial flight valuation rule of this paragraph (g) is available to value such flight taken by that key employee by the person or persons taking the erroneous position.

(h) *Commercial flight valuation rule*—(1) *In general.* Under the commercial flight valuation rule of this paragraph (h), the value of a space-available flight (as defined in paragraph (h)(2) of this section) on a commercial aircraft is 25 percent of the actual carrier's highest unrestricted coach fare in effect for the particular flight taken.

(2) *Space-available flight.* The commercial flight valuation rule of this paragraph (h) is available to value a space-available flight. The term "space-available flight" on a commercial aircraft (i) for which the airline (the actual carrier) incurs no substantial additional cost (including forgone revenue) determined without regard to any amount paid for the flight and (ii) which is subject to the same types of restrictions customarily associated with flying on an employee "standby" or "space-available" basis. A flight may be a space-available flight even if the airline that is the actual carrier is not the employer of the employee.

(3) *Commercial aircraft.* If the actual carrier does not offer, in the ordinary course of its business, air transportation to customers on a per-seat basis, the commercial flight valuation rule of this paragraph (h) is not available. Thus, if, in the ordinary course of its line of business, the employer only offers air transportation to customers on a charter basis, the commercial flight valuation rule of this paragraph (h) may not be used to value a space-available flight on the employer's aircraft. Similarly, if, in the ordinary course of its line of business, an employer only offers air transportation to customers for the transport of cargo, the commercial flight valuation rule of this paragraph (h) may not be used to value a space-available flight on the employer's aircraft.

(4) *Timing of inclusion.* The date that the flight is taken is the relevant date for purposes of applying section 61(a)(1) and this section to a space-available flight on a commercial aircraft. The date of purchase or issuance of a pass or ticket is not relevant. Thus, this section applies to a flight taken on or after January 1, 1985, regardless of the date on which the pass or ticket for the flight was purchased or issued.

(5) *Consistency rules*—(i) *Use by employer.* If the commercial flight valuation rule of this paragraph (h) is used by an employer to value flights provided in a calendar year, the rule must be used to value all flights provided in the calendar year.

(ii) *Use by employee.* If the commercial flight valuation rule of this paragraph (h) is used by an employee to value a flight taken in a calendar year, the rule must be used to value all flights taken by such employee in the calendar year.

(i) [Reserved]

(j) *Valuation of meals provided at an employer-operated eating facility for employees*—(1) *In general.* The valuation rule of this paragraph (j) may be used to value a meal provided at an employer-operated eating facility for employees (as defined in §1.132-7T). For rules relating to an exclusion for the value of meals provided at an employer-operated eating facility for employees, see §1.32-7T.

(2) *Valuation formula*—(i) *In general.* The value of all meals provided at an employer-operated eating facility for employees during a calendar year is 150 percent of the direct operating costs of the eating facility ("total meal value"). For purposes of this paragraph (j), the definition of direct operating costs provided in §1.32-7T applies. The taxable value of meals provided at an eating facility may be determined in two ways. The "individual meal subsidy" may be treated as the taxable value of a meal provided at the eating facility (see paragraph (j)(2)(ii) of this section). Alternatively, the employer may allocate the "total meal subsidy" among employees (see paragraph (j)(2)(iii) of this section).

(ii) *"Individual meal subsidy" defined.* The "individual meal subsidy" is determined by multiplying the price charged for a particular meal by a fraction, the numerator of which is the total meal value and the denominator of which is the gross receipts of the eating facility, and then subtracting the amount paid for the meal. The taxable value of meals provided to a particular employee during a calendar year, therefore, is the sum of the individual meal subsidies provided to the employee during the calendar year.

(iii) *Allocation of "total meal subsidy."* Instead of using the individual meal value method, the employer may allocate the "total meal subsidy" (total meal value less the gross receipts of the facility) among employees in any manner reasonable under the circumstances.

Par. 3. Section 1.132-1T is removed and a new §1.132-1T is added in its place, as follows:

§1.32-1T Exclusion from gross income of certain fringe benefits (Temporary).

(a) *In general.* Gross income does not include any fringe benefit which qualifies as a—

(1) no-ladditional-cost service,

(2) qualified employee discount,

(3) working condition fringe, or

(4) de minimis fringe.

Special rules apply with respect to certain on-premises gyms and other athletic facilities (§1.132-1T(e)), demonstration use of employer-provided automobiles by full-time automobile salesmen (§1.132-5T(n)), parking provided to an employee on or near the business premises of the employer (§1.132-5T(o)), and on-premises eating facilities (§1.322-7T).

(b) *Definition of employee*—(1) *No-additional-cost services and qualified employee discounts*. For purposes of section 132(a)(1) (relating to no-additional-cost services) and section 132(a)(2) (relating to qualified employee discounts), the term "employee" (with respect to a line of business of an employer) means—

(1) any individual who is currently employed by the employer in the line of business,

(ii) any individual who was formerly employed by the employer in the line of business and who separated from service with the employer in the line of business by reason of retirement or disability, and

(iii) any widow or widower of an individual who died while employed by the employer in the line of business or who separated from service with the employer in the line of business by reason of retirement or disability.

For purposes of this paragraph (b)(1), any partner who performs services for a partnership is considered employed by the partnership. In addition, any use by the spouse or dependent child (as defined in this paragraph (b)) of the employee will be treated as use by the employee.

(2) *Working condition fringes*. For purposes of section 132(a)(3) (relating to working condition fringes), the term "employee" means—

(i) any individual who is currently employed by the employer,

(ii) any partner who performs services for the partnership,

(iii) any director of the employer, and

(iv) any independent contractor who performs services for the employer.

Notwithstanding anything in this paragraph (b)(2) to the contrary, any independent contractor who performs services for the employer cannot exclude the value of parking or the use of consumer goods provided pursuant to a product testing program under §1.132-5T(n); in addition, any director of the employer cannot exclude the value of the use of consumer goods provided pursuant to a product testing program under §1.132-5T(n).

(3) *De minimis fringe*. For purposes of section 132(a)(4) (relating to de minimis fringes), the term "employee" means any recipient of a fringe benefit.

(4) *Dependent child*. For purposes of this paragraph (b), the term "dependent child" means any son, stepson, daughter, or stepdaughter of the employee who is a dependent of the employee, or both of whose parents are deceased. Any child to whom section 152(e) applies will be treated as the dependent of both parents.

(c) *Special rules for employers—Effect of section 414*. All employees treated as employed by a single employer under section 414(b), (c), or (m) will be treated as employed by a single employer for purposes of this section. Thus, employees of one corporation that is part of a controlled group of corporations may under certain circumstances be eligible to receive section 132 benefits from the other corporations that comprise the controlled group. However, the aggregation of employers described in this paragraph (c) does not change the other requirements for an exclusion, such as the line of business requirement. Thus, for example, if a controlled group of corporations consists of two corporations that operate in different lines of business, the corporations are not treated as operating in the same line of business even though the corporations are treated as one employer.

(d) *Customers not to include employees*. For purposes of section 132 and the regulations thereunder, the term "customer" means customers who are not employees. However, the preceding sentence does not apply to section 132(c)(2) (relating to the gross profit percentage for determining a qualified employee discount). Thus, an employer that provides employee discounts cannot exclude sales made to employees in determining the aggregate sales to customers.

(e) *Treatment of on-premises athletic facilities*— (1) *In general*. Gross income does not include the value of any on-premises athletic facility provided by the employer to its employees. For purposes of section 132 and this paragraph (e), the term "on-premises athletic facility" means any gym or other athletic facility such as a pool, tennis court, or golf course)—

(i) which is located on the premises of the employer,

(ii) which is operated by the employer, and

(iii) where substantially all of the use of which is, during the calendar year, by employees of the employer, their spouses, and their dependent children.

For purposes of this paragraph (e)(1)(iii), the term "dependent children" has the same meaning as the plural of the term "dependent child" in paragraph (b)(4) of this section. The exclusion of this paragraph (e) does not apply to any athletic facility if access to the facility is made available to the general public through the sale of memberships, the rental of the facility, etc.

(2) Premises of the employer. The athletic facility need not be located on the employer's business premises. However, the athletic facility must be located on premises of the employer. The exclusion provided in this paragraph (e) applies whether the premises are owned or leased by the employer; in addition, the exclusion is available even if the employer is not a named lessee on the lease so long as the employer pays reasonable rent. The exclusion provided in this paragraph (e) does not apply to any athletic facility that is a facility for residential use. Thus, for example, a resort with accompanying athletic facilities (such as tennis courts, pool, and gym) would not qualify for the exclusion provided in this paragraph (e).

(3) *Application of rules to membership in an athletic facility*. The exclusion provided in this paragraph (e) does not apply to any membership in an athletic facility (including health clubs or country clubs) unless the facility is owned (or leased) and operated by the employer and substantially all the use of the facility is by employees of the employer, their spouses, and their dependent children. Therefore, membership in a health club or country club not meeting the rules provided in this paragraph (e) would not qualify for the exclusion.

(4) *Operation by the employer*. An employer is considered to operate the athletic facility if the employer itself operates the facility through its own employees, or if the employer contracts out to another to operate the athletic fa-

cility. For example, if an employer hires an independent contractor to operate the athletic facility for the employer's employees, the facility is considered to be operated by the employer. In addition, if an athletic facility is operated by more than one employer, it is considered to be operated by each employer. For purposes of paragraph (e)(1)(iii) of this section, substantially all the use of a facility operated by more than one employer must be by employees of all of the employers, their spouses, and their dependent children. Where the facility is operated by more than one employer, an employer than either pays rent directly to the owner of the premises or pays rent to a named lessor of the premises is eligible for the exclusion.

(5) *Nonapplicability of nondiscrimination rules.* The nondiscrimination rules of section 132 and §1.132-8T do not apply to on-premises athletic facilities.

(f) *Nonapplicability of section 132.* If the tax treatment of a particular fringe benefit is expressly provided for in another section of Chapter 1, section 132 and the applicable regulations (except for section 132(e) and the regulations thereunder) do not apply to such fringe benefit. For example, since section 129 provides an exclusion from gross income for amounts paid or incurred by the employer for dependent care assistance for an employee, the exclusions under section 132 and this section do not apply to the provision by an employer to an employee of dependent care assistance.

Par. 4. The following new section is added at the appropriate place:

§1.132-2T No-additional-cost service (Temporary).

(a) *In general*—(1) *Definition.* Gross income does not include the value of a no-additional-cost service. The term "no-additional-cost service" means any service provided by an employer to an employee for the employee's personal use if—

(i) the service is offered for sale to customers in the ordinary course of the line of business of the employer in which the employee performs substantial services, and

(ii) the employer incurs no substantial additional cost in providing the service to the employee (including forgone revenue and excluding any amount paid by or on behalf of the employee for the service).

For rules relating to the line of business limitation, see §1.132-4T.

(2) *Examples.* Services that are eligible for treatment as no-additional-cost services are excess capacity services such as hotel accommodations; transportation by aircraft, train, bus, subway, or cruise line; and telephone services. Services that are not eligible for treatment as no-additional-cost services are non-excess capacity services such as the facilitation by a stock brokerage firm of the purchase of stock. Employees who receive non-excess capacity services may, however, be eligible for a qualified employee discount of up to 20 percent of the value of the service provided. See §1.132-3T.

(3) *Cash rebates.* The exclusion for a no-additional-cost service applies whether the service is provided at no charge or at a reduced price. The exclusion also applies if the benefit is provided through a partial or total cash rebate of an amount paid for the service.

(4) *Applicability of nondiscrimination rules.* The exclusion for a no-additional-cost service applies to officers, owners, and highly compensated employees only if the service is available on substantially the same terms to each member of a group of employees that is defined under a reasonable classification set up by the employer that does not discriminate in favor of officers, owners, or highly compensated employees. See §1.132-8T.

(5) *No substantial additional cost*—(i) *In general.* The exclsuion for a no-additional-cost service applies only if the employer does not incur substantial additional cost in providing the service to the employee. For purposes of the preceding sentence, the term "cost" includes revenue that is forgone because the service is provided to an employee rather than a nonemployee. (For purposes of determining whether any revenue is forgone, it is assumed that the employee would not have purchased the service unless it were available to the employee at the actual price charged to the employee.) Whether an employer incurs substantial additional cost must be determined without regard to any amount paid by the employee for the service. Thus, any reimbursement by the employee for the cost of providing the service does not affect the determination of whether the employer incurs substantial additional cost.

(ii) *Labor intensive services.* An employer must include the cost of labor incurred in providing services to employees when determining whether the employer has incurred substantial additional cost. An employer incurs substantial additional cost, whether or not non-labor costs are incurred, if a substantial amount of time is spent by the employer or its employees in providing the service to employees. This would be the result whether or not the time spent by the employer or its employees in providing the services would have been "idle", or if the services were provided outside normal business hours. An employer generally incurs no substantial additional cost, however, if the employee services provided are merely incidental to the primary service being provided by the employer. For example, the in-flight services of a flight attendant provided to airline employees traveling on a space-available basis are merely incidental to the primary service being provided (i.e., air transportation). In addition, the cost of in-flight meals provided to airline employees is not considered substantial in relation to the air transportation being provided.

(b) *Reciprocal agreements.* For purposes of the exclusion for a no-additional-cost service, any service provided by an employer to an employee of another employer shall be treated as provided by the employer of such employee if all of the following requirements are satisfied:

(1) The service is provided pursuant to a written reciprocal agreement between the employers under which a group of employees of each employer, all of whom perform substantial services in the same line of business, may receive no-additional-cost services from the other employer;

(2) The service provided pursuant to the agreement to the employees of both employers is the same type of service provided by the employers to customers both in the line of business in which the employees perform substantial services and the line of business in which the service is provided to customers; and

(3) Neither employer incurs substantial additional cost (including forgone

revenue) in providing the service to the employees of the other employer or pursuant to the agreement.

If one employer receives a substantial payment from the other employer with respect to the reciprocal agreement, the paying employer will be considered to have incurred a substantial additional cost pursuant to the agreement.

Par. 5. The following paragraph is added at the appropriate place:

§1.132-3T Qualified employee discount (Temporary).

(a) *In general*—(1) *Definition.* Gross income does not include the value of a qualified employee discount. The term "qualified employee discount" means any employee discount with respect to qualified property or services provided by an employer to an employee for the employee's personal use to the extent the discount does not exceed—

(i) the gross profit percentage of the price at which the property is offered to customers, for discounts on property, or

(ii) 20 percent of the price at which the services are offered to customers, for discounts on services.

(2) *Qualified property or services*—(i) *In general.* The term "qualified property or services" means any property or services that are offered for sale to customers in the ordinary course of the line of business of the employer in which the employee performs substantial services. For rules relating to the line of business limitation, see §1.132-4T.

(ii) *Exception for certain property.* The term "qualified property" does not include real property and it does not include personal property (whether tangible or intangible) of a kind commonly held for investment. Thus, an employee may not exclude from gross income the amount of an employee discount provided on the purchase of either residential or commercial real estate, securities, commodities, or currency, whether or not the particular purchase is made for investment purposes.

(iii) *Property and services not offered in ordinary coure of business.* The term "qualified property or services" does not include any property or services of a kind that is not offered for sale to customers in the ordinary course of the line of business of the employer. For example, employee discounts provided on property or services that are offered for sale only to employees and their families (such as merchandise sold at an employee store or through an employer-provided catalog service) may not be excluded from gross income.

(3) *No reciprocal agreement exception.* The exclusion for a qualified employee discount does not apply to property or services provided by another employer pursuant to a written reciprocal agreement that exists between employers to provide discounts on property and services to employees of the other employer.

(4) *Cash or third-party rebates*—(i) *Property or services provided without charge or at a reduced price.* The exclusion for a qualified employee discount applies whether the property or service is provided at no charge (in which case only part of the discount may be excludable as a qualified employee discount) or at a reduced price. The exclusion also applies if the benefit is provided through a partial or total cash rebate of an amount paid for the property or service.

(ii) *Property or services provided directly by the employer or indirectly through a third party.* For example, an employee of an appliance manufacturer may receive a qualified employee discount on the manufacturer's applicances purchased at a retail store that offers such appliances for sale to customers. The employee may exclude the amount of the qualified employee discount whether the employee is provided the appliance at no charge or purchases it at a reduced price, or whether the employee receives a partial or total cash rebate from either the employer-manufacturer or the retailer. If an employee receives additional rights associated with the property that are not provided by the employee's employer to customers in the ordinary course of the line of business in which the employee performs substantial services (such as the right to return or exchange the property or special warranty rights), the employee may only receive a qualified employee discount with respect to the property and not the additional rights. Receipt of such additional rights may occur, for example, when an employee of a manufacturer purchases property manufacturered by the employee's employer at a retail outlet.

(5) *Applicability of nondiscrimination rules.* The exclusion for a qualified employee discount applies to officers, owners, and highly compensated employees only if the discount is available on substantially the same terms to each member of a group of employees that is defined under a reasonable classification set up by the employer that does not discriminate in favor of officers, owners, or highly compensated employees. See §1.132-8T.

(b) *Employee discount*—(1) *Definition.* The term "employee discount" means the excess of—

(i) the price at which the property or service is being offered by the employer for sale to customers, over

(ii) the price at which the property or service is provided by the employer to an employee for use by the employee.

A transfer of property by an employee without consideration is considered use by the employee for purposes of this section. Thus, for example, if an employee receives a discount on property offered for sale by his employer to customers and the employee makes a gift of the property to his parent, the property will be considered to be provided for use by the employee, thus enabling the discount to be eligible for exclusion as a qualified employee discount.

(2) *Price to customers*—(i) *Determined at time of sale.* In determining the amount of an employee discount, the price at which the property or service is being offered to customers at the time of the employee's purchase is controlling. for example, assume that an employer offers a product to customers for $20 during the first six months of a calendar year, but at the time the employee purchases the product at a discount, the price at which the product is being offered to customers is $25. In this case, the price from which the employee discount is measured is $25.

(ii) *Quantity discount not reflected.* The price referred to in paragraph (b)(2)(i) of this section cannot reflect any quantity discount unless the employee actually purchases the requisite quantity of the property or service.

(iii) *Customers of employee's employer controls.* In determining the amount of an employee discount, the price at which the property or service is offered to customers of the employee's employer is controlling. Thus, the price at which property is sold to the wholesale customers of a manufacturer will generally be lower than the price at which the same property is sold to the customers of a retailer. However, see paragraph (a)(4)(ii) of this section regarding the effect of a wholesaler providing to its employees additional rights not provided to customers of the wholesaler in the ordinary course of its business.

(iv) *Discounts to discrete customer or consumer groups*. In determining the amount of an employee discount, if an employer offers for sale property or services at one or more discounted prices to discrete customer or consumer groups, and sales at all such discounted prices comprise at least 35 percent of the employer's gross sales for a representative period, then the price at which property or service is being offered to customers is a discounted price. The applicable discounted price is the current undiscounted price, reduced by the percentage discount at which the greatest percentage of the employer's gross sales are made for such representative period. If sales at different percentage discounts equal the same percentage of the employer's gross sales, the price at which the property or service is being provided to customers may be reduced by the average of the two group discounts. For purposes of this section, a representative period is the taxable year of the employer immediately preceding the taxable year in which the property or service is provided to the employee at a discount. If more than one employer would be aggregated under section 414(b), (c), or (m), and all of the employers do not have the same taxable year, the employers required to be aggregated must designate the 12-month period to be used in determining gross sales for a representative period.

(v) *Examples*. The rules provided in this paragraph (b)(2) are illustrated by the following examples:

Example (1). Assume that a wholesale employer offers property for sale to two discrete customer groups at differing prices. Assume further that during the prior taxable year of the employer, 70 percent of the employer's gross sales are made at a 15-percent discount and 30 percent at no discount. The current undiscounted price at which the property or service is being offered by the employer for sale to customers may be reduced by the 15-percent discount.

Example (2). Assume that a retail employer offers a 20 percent discount to members of the American Bar Association, a 15 percent discount to members of the American Medical Association, and a ten percent discount to employees of the Federal Government. Assume further that during the prior taxable year of the employer, sales to American Bar Association members equal 15 percent of the employer's gross sales, sales to American Medical Association members equal 20 percent of the employer's gross sales, and sales to Federal Government employees equal 25 percent of the employer's gross sales. The current undiscounted price at which the property or service is being offered by the employer for sale to customers may be reduced by the ten percent Federal Government discount.

(3) *Damaged, distressed, or returned goods*. If an employee pays at least fair market value for damaged, distressed, or returned property, such employee will not have income attributable to such purchase.

(c) *Gross profit percentage*—(1) *In general*—(i) *General rule*. An exclusion from gross income for an employee discount on qualified property is limited to the price at which the property is being offered to customers in the ordinary course of the employer's line of business, multiplied by the employer's gross profit percentage. The term "gross profit percentage" means the excess of the aggregate sales price of the property sold by the employer to customers (including employees) over the employer's aggregate cost of the property, then divided by the aggregate sales price.

(ii) *Calculation of gross profit percentage*. The gross profit percentage must be calculated separately for each line of business based on the aggregate sales price and aggregate cost of property in that line of business for a representative period. For purposes of this section, a representative period is the taxable year of the employer immediately preceding the taxable year in which the discount is available. For example, if the aggregate sales of property in an employer's line of business for the prior taxable year were $800,000, and the aggregate cost of the property for the year were $600,000, the gross profit percentage would be 25 percent ($800,000 minus $600,000, then divided by $800,000). If more than one employer would be aggregated under section 414(b), (c), or (m), and all of the employers do not have the same taxable year, the employers required to be aggregated must designate the 12-month period to be used in determining the gross profit percentage. If an employee performs substantial services in more than one line of business, the gross profit percentage of the line of business in which the property is sold determines the amount of the excludable employee discount.

(ii) *Special rule for employers in their first year of existence*. An employer in its first year of existence may estimate the gross profit percentage of a line of business based on its mark-up from cost. Alternatively, an employer in its first year of existence may determine the gross profit percentage by reference to an appropriate industry average.

(iv) *Redetermination of gross profit percentage*. If substantial changes in an employer's business indicate at any time that it is inappropriate for the prior years' gross profit percentage to be used for the current year, the employer must, within a reasonable period, redetermine the gross profit percentage for the remaining portion of the current year as if such portion of the year were the first year of the employer's existence.

(2) *Line of business*. In general, an employer must determine the gross profit percentage on the basis of all property offered to customers (including employees) in each separate line of business. An employer may instead select a classification of property that is narrower than the applicable line of business. However, such classification must be reasonable. For example, if an employer computes gross profit percentage according to the department in which products are sold, such classification is reasonable. Similarly, it is reasonable to compute gross profit percentage on the basis of the type of merchandise sold (such as high mark-up and low mark-up classifications). It is not reasonable, however, for an employer to classify certain low mark-up products preferred by certain employees (such as officers, owners, and highly compensated employees) with high mark-up products or to classify certain high mark-up products preferred by other employees with low mark-up products.

(3) *Generally accepted accounting principles*. In general, the aggregate sales price of property must be determined in accordance with generally accepted accounting principles. An employer must compute the aggregate cost of property in the same manner in

which it is computed for the employer's Federal income tax liability, pursuant to the inventory rules in section 471 and the regulations thereunder.

(d) *Treatment of leased sections of department stores*—(1) *In general*—(i) *General rule*. For purposes of determining whether employees of a leased section of a department store may receive qualified employee discounts at the department store and whether employees of the department store may receive qualified employee discounts at the leased section of the department store, the leased section is treated as part of the line of business of the person operating the department store, and employees of the lease section are treated as employees of the person operating the department store as well as employees of their employer. The term "leased section of a department store" means a section of a department store where substantially all of the gross receipts of the leased section are over-the-counter sales of property made under a lease, license, or similar arrangement where it appears to the general public that individuals making such sales are employed by the department store. An example of a leased section of a department store is a cosmetics firm that leases floor space from a department store.

(ii) *Calculation of gross profit percentage*. When calculating the gross profit percentage of property and services sold at the department store under paragraph (c) of this section, sales of property and services sold at the department store, as well as sales of property and services sold at the leased section, are considered. The rule provided in the preceding sentence does not apply, however, if it is reasonable to calculate the gross profit percentage for the department store and leased section separately, or if it would be inappropriate to combine them (such as where either the department store or the leased section, but not both, provides employee discounts).

(2) *Employees of the leased section*—(i) *Definition*. For purposes of this paragraph (d), "employees of the leased section" means all employees who perform substantial services at the leased section regardless of whether the employees engage in over-the-counter sales of property or services. The term "employee" has the same meaning as in section 132(f).

(ii) *Discounts offered to either department store employees or employees of the leased section*. If the requirements of this paragraph (d) are satisfied, employees of the leased section may receive qualified employee discounts at the department store regardless of whether employees of the department store are offered discounts at the leased section. Similarly, regardless of whether employees of the leased section are offered discounts at the department store, employees of the department store may receive qualified employee discounts at the leased section.

(e) *Excess discounts*. Unless excludable under a statutory provision other than section 132(a)(2), an employee discount provided on property is excludable to the extent of the gross profit percentage multiplied by the price at which the property is being offered for sale to customers. If an employee discount exceeds the gross profit percentage, the excess discount is includible in the employee's income. For example, if the discount on property is 30 percent and the employer's gross profit percentage for the period in the relevant line of business is 25 percent, then 5 percent of the price at which the property is being offered for sale to customers is includible in the employee's income. With respect to services, an employee discount of up to 20 percent may be excludable. If an employee discount exceeds 20 percent, the excess discount is includible in the employee's income.

Par. 6. The following section is added at the appropriate place:

§1.132-4T Line of business limitation (Temporary).

(a) *In general*—(1) *Applicability*—(i) *General rule*. A no-additional-cost service or qualified employee discount provided to an employee must be for property or services that are offered for sale to customers in the ordinary course of the same line of business in which the employee receiving the property or service performs substantial services. Thus, an employee who does not perform substantial services in a particular line of business of the employer may not exclude the value of services or employee discounts received on property or services in that line of business.

(ii) *Property and services sold to employees rather than customers*. Since the property or services must be offered for sale to customers in the ordinary course of the same line of business in which the employee performs substantial services, the line of business limitation is not satisfied if the employer's products or services are sold to employees of the employer, rather than to customers. Thus, for example, an employer in the banking line of business is not considered in the variety store line of business if the employer establishes an employee store that offers variety store items for sale to the employer's employees.

(iii) *Performance of substantial services in more than one line of business*. An employee who performs services in more than one of the employer's lines of business may only exclude no-additional-cost services and qualified employee discounts in the lines of business in which the employee performs substantial services.

(iv) *Performance of services that directly benefit more than one line of business*—(A) *In general*. An employee who performs substantial services that directly benefit more than one line of business of an employer is treated as performing substantial services in all such lines of business. For example, an employee who maintains accounting records for an employer's three lines of business may receive qualified employee discounts in all three lines of business.

(B) *Significantly interrelated minor line of business*. The employees of a minor line of business of an employer that is significantly interrelated with a major line of business of the employer who perform substantial services that directly benefit both the major and the minor lines of business are treated as employees of both the major and the minor lines of business. Employees of the minor line of business who do not perform substantial services which directly benefit the major line of business are not treated as employees of the major line of business. A minor line of business is significantly interrelated with a major line of business when, for example, the activity of the minor line of business is directly related to but is a minor part of the major line of business (such as laundry services provided at a hospital).

(C) *Examples*. The rules provided in

this paragraph are illustrated in the following examples:

Example (1). Assume that employees of units of an employer provide repair or financing services, or sell by catalog, with respect to retail merchandise sold by the employer. Such employees may be considered as employees of the retail merchandise line of business under this paragraph (a)(1)(iv).

Example (2). Assume that an employer operates a hospital and a laundry service. Assume further that some of the gross receipts of the laundry service line of business are from laundry services sold to customers other than the hospital employer. Only the employees of the laundry service who perform substantial services which directly benefit the hospital line of business (through the provision of laundry services to the hospital) will be treated as employees of the hospital line of business. Other employees of the laundry service line of business will not be treated as employees of the hospital line of business.

(*Example (3).* Assume the same facts as in example (2), except that the minor line of business also operates a chain of dry cleaning stores. Employees who perform substantial services which directly benefit the dry cleaning stores but who do not perform substantial services that directly benefit the hospital line of business will not be treated as employees of the hospital line of business.

(2) *Definition*—(i) *In general*. An employer's line of business is determined by reference to the Enterprise Standard Industrial Classification Manual (ESIC Manual) prepared by the Statistical Policy Division of the U.S. Office of Management and Budget. [To be reprinted in 1986-4 I.R.B.] An employer is considered to have more than one line of business if the employer offers for sale to customers property or services in more than one two-digit code classification referred to in the ESIC Manual.

(ii) *Examples*. Examples of two-digit classifications are general retail merchandise stores; hotels and other lodging places; auto repair, services, and garages; and food stores.

(3) *Aggregation of two-digit classifications*. If, pursuant to paragraph (a)(2) of this section, an employer has more than one line of business, such lines of business will be treated as a single line of business where and to the extent that one or more of the following aggregation rules apply:

(i) If it is uncommon in the industry of the employer for any of the separate lines of business of the employer to be operated without the others, the separate lines of business are treated as one line of business.

(ii) If it is common for a substantial number of employees (other than those employees who work at the headquarters or main office of the employer) to perform substantial services for more than one line of business of the employer, so that determination of which employees perform substantial services for which line of business would be difficult, then the separate lines of business of the employer in which such employees perform substantial services are treated as one line of business. For example, assume that an employer operates a delicatessen with an attached service counter at which food is sold for consumption on the premises. Assume further that most but not all employees work both at the delicatessen and at the service counter. The delicatessen and the service counter are treated as one line of business.

(iii) If the retail operations of an employer that are located on the same premises are in separate lines of business but would be considered to be within one line of business under paragraph (a)(2) of this section if the merchandise offered for sale in such lines of business were offered for sale at a department store, then the operations are treated as one line of business. For example, assume that on the same premises an employer sells both women's apparel and jewelry. Since, if sold together at a department store, the operations would be part of the same line of business, the operations are treated as one line of business.

(b) *Grandfather rule for certain retail stores*—(1) *In general*. The line of business limitation may be relaxed under a special grandfather rule. If—

(i) on October 5, 1983, 85 percent of the employees of one member of an affiliated group (as defined in section 1504 without regard to subsections (b)(2) and (b)(4) thereof) were entitled to employee discounts at retail department stores operated by another member of the affiliated group, and

(ii) More than 50 percent of the current year's sales of the affiliated group are attributable to the operation of retail department stores,

then for purposes of the exclusion from gross income of a qualified employee discount, the first member is treated as engaged in the same line of business as the second member (the operator of the retail department stores). Therefore, employees of the first member of the affiliated group may exclude qualified employee discounts received at the retail department stores operated by the second member. However, employees of the second member of the affiliated group may not exclude any discounts received on property or services offered for sale to customers by the first member of the affiliated group.

(2) *Taxable year of affiliated group*. If all of the members do not have the same taxable year, the affiliated group must designate the 12-month period to be used in determining the "current year's sales" (as referred to in this paragraph (b)). The 12-month period designated, however, must be used consistently.

(3) *Definition of "sales"*. For purposes of this paragraph (b), the term "sales" means the gross receipts of the affiliated group, based upon the accounting methods used by its members.

(4) *Retired and disabled employees*. For purposes of this paragraph (b), an employee includes any individual who was, or whose spouse was, formerly employed by the first member of the affiliated group and who separated from service with the member by reason of retirement or disability if the second member of the group provided employee discounts to such individuals on October 5, 1983.

(5) *Increase of employee discount*. If, after October 5, 1983, the employee discount described in this paragraph (b) is increased, the grandfather rule of this paragraph (b) does not apply to the amount of the increase. For example, if on January 1, 1985, the employee discount is increased from ten percent to 15 percent, the grandfather rule will not apply to the additional five percent discount.

(c) *Relaxation of line of business requirement*. The line of business requirement may be relaxed under an elective grandfather rule provided in section 4977. For rules relating to the section 4977 election, see §54.4977-1.

Par. 7. The following section is added at the appropriate place:

§1.132-5T Working condition fringe (Temporary).

(a) *In general*—(1) *Definition*. Gross income does not include the value of a working condition fringe. The term "working condition fringe" means any property or service provided to an employee of an employer to the extent that, if the employee paid for the property or service, the amount paid would be allowable as a deduction under section 162 or 167. If, under section 274 or any other section, certain substantiation requirements must be met in order for a deduction under section 162 or 167 to be allowable, those substantiation requirements apply to the determination of a working condition fringe. An amount that would be deductible by the employee under, for example, section 212 is not a working condition fringe.

(2) *Trade or business of the employee.* If the hypothetical payment for the property or service would be allowable as a deduction with respect to a trade or business of the employee other than the employee's trade or business of being an employee of the employer, it cannot be taken into account for purposes of determining the amount, if any, of the working condition fringe. For example, assume that, unrelated to company X's trade or business and unrelated to company X's employee's trade or business of being an employee of company X, the employee is a member of the board of directors of company Y. Assume further that company X provides the employee with air transportation to a company Y board of director's meeting. The employee may not exclude the value of the air transportation to the meeting as a working condition fringe. The employee may, however, deduct such amount under section 162 if the section 162 requirements are satisfied. The result would be the same whether the air transportation was provided in the form of a flight on a commercial airline or a seat on a company X airplane.

(b) *Vehicle allocation rules*—(1) *In general*—(i) *General rule.* In general, with respect to an employer-provided vehicle, the amount excludable as a working condition fringe is the amount that would be allowable as a deduction under section 162 or 167 if the employee paid for the availability of the vehicle. For example, assume that the value of the availability of an employer-provided vehicle for a full year is $2,000, without regard to any working condition fringe (i.e., assuming all personal use). Assume further that the employee drives the vehicle 6,000 miles for his employer's business and 2,000 miles for reasons other than the employer's business. In this situation, the value of the working condition fringe is $2,000 multiplied by a fraction, the numerator of which is the business-use mileage (6,000 miles) and the denominator of which is the total mileage (8,000 miles). Thus, the value of the working condition fringe is $1,500. The total amount includible in the employee's gross income on account of the availability of the vehicle is $500. For purposes of this section, the term "vehicle" has the same meaning given the term in §1.61-2T(e)(2). Generally, when determining the amount of an employee's working condition fringe, miles accumulated on the vehicle by all employees of the employer during the period in which the vehicle is available to the employee must be considered. For example, assume that an employee of the employer is provided the availability of an automobile for one year. Assume further that during the year, the automobile is regularly used in the employer's business by other employees. All miles accumulated on the automobile by all employees of the employer during the year must be considered. If, however, substantially all the use of the automobile by other employees in the employer's business is permitted during a certain period, such as the last three months of the year, the miles driven by the other employees during that period would not be considered when determining the employee's working condition fringe exclusion.

(ii) *Use by an individual other than the employee.* For purposes of this section, if the availability of a vehicle to an individual would be taxed to an employee, use of the vehicle by the individual is included in references to use by the employee.

(iii) *Provision of an expensive vehicle for personal use.* Assume an employer provides an employee with an expensive vehicle that an employee may use in part for personal purposes. Even though the decision to provide an expensive rather than an inexpensive vehicle is made by the employer for bona fide noncompensatory business reasons, there is no working condition fringe exclusion with respect to the personal miles driven by the employee. If the employee paid for the availability of the vehicle, he would not be entitled to deduct any part of the payment attributable to personal miles.

(2) *Use of different employer-provided automobiles.* The working condition fringe exclusion must be applied on an automobile by automobile basis. For example, assume that automobile Y is available to employee D for 3 days in January and for 5 days in March, and automobile Z is available to D for a week in July. Assume further that the Daily Lease Value, as defined in §1.61-2T, of each automobile is $50. For the eight days of availability of Y in January and March, D uses Y 90 percent for business (by mileage). During July, D uses Z 60 percent for business (by mileage). The value of the working condition fringe is determined separately for each automobile. Therefore, the working condition fringe for Y is $360 ($400 × .90) leaving an income inclusion of $40. The working condition fringe for Z is $210 ($350 × .60) leaving an income inclusion of $140. If the value of the availability of an automobile is determined under the Annual Lease Value rule for one period and Daily Lease Value rule for a second period (see §1.61-2T), the working condition fringe exclusion must be calculated separately for the two periods.

(c) *Applicability of section 162 and 274(d)*—(1) *In general.* The value of property or services provided to an employee may not be excluded from the employee's gross income as a working condition fringe, by either the employer or the employee, unless the applicable substantiation requirements of either section 274(d) or section 162 (whichever is applicable) and the regulations thereunder are satisfied. With respect to listed property, the substantiation requirements of section 274(d) and the regulations thereunder do not apply to the determination of an employee's working condition fringe exclusion prior to the date that those requirements apply to the first taxable year of the employer beginning after December 31, 1985. For example, if an employer's first taxable year beginning after December 31, 1985, begins on July 1, 1986, with respect to listed property, the substantiation requirements of section 274(d) apply as of that date. The substantiation requirements of section 274(d) apply to an employee even if the requirements of section 274 do not apply to the employee's employer for deduction purposes (such as when the employer is a tax-exempt organization or a governmental unit); in these cases, the requirements of section 274(d) apply to the employee as of January 1, 1986.

(2) *Section 274(d) requirements.* The substantiation requirements of section 274(d) are satisfied by "adequate records or sufficient evidence corroborating the [employee's] own statement". Therefore, such records or evidence provided by the employee, and relied upon by the employer to the extent permitted by the regulations promulgated under section 274(d), will be sufficient to substantiate a working condition fringe exclusion.

(d) *Safe harbor rules*—(1) *In general.* Section 1.274-6T provides that the substantiation requirements of section 274(d) and the regulations thereunder may be satisfied, in certain circumstances, by using one or more of the safe harbor rules prescribed in §1.274-6T. If the employer uses one of the safe harbor rules prescribed in §1.274-6T during a period with respect to a vehicle (as defined in §1.61-2T), that rule must be used by the employer to substantiate a working condition fringe exclusion with respect to that vehicle during the period. An employer that is exempt from Federal income tax may still use one of the safe harbor rules (if the requirements of that section are otherwise met during a period) to substantiate a working condition fringe exclusion with respect to a vehicle during the period. If the employer uses one of the methods prescribed in §1.274-6T during a period with respect to an employer-provided vehicle, that method may be used by an employee to substantiate a working condition fringe exclusion with respect to the same vehicle during the period, as long as the employee includes in gross income the amount allocated to the employee pursuant to §1.274-6T and this section. (See §1.61-2T(c)(2)(i) for other rules concerning when an employee must include in income the amount determined by the employer.) If, however, the employer uses the safe harbor rule prescribed in §1.274-6T(a)(2) or (3) and the employee without the employer's knowledge uses the vehicle for purposes other than de minimis personal use (in the case of the rule prescribed in §1.274-6T (a)(2)), or for purposes other than de minimis personal use and commuting (in the case of the rule prescribed in §1.274-6T(a)(3)), then the employee must include additional income for the unauthorized use of the vehicle.

(2) *Period for use of safe harbor rules.* The rules prescribed in this paragraph (d) assume that the safe harbor rules prescribed in §1.274-6T are used for a one-year period. Accordingly, references to the value of the availability of a vehicle, amounts excluded as a working condition fringe, etc., are based on a one-year period. If the safe harbor rules prescribed in §1.274-6T are used for a period of less than a year, the amounts referenced in the previous sentence must be adjusted accordingly. For purposes of this section, the term "personal use" has the same meaning as prescribed in §1.274-6T(e)(5).

(e) *Vehicles not available to employees for personal use.* For a vehicle described in §1.274-6T(a)(2) (relating to certain vehicles not used for personal purposes), the working condition fringe exclusion is equal to the value of the availability of the vehicle if the employer uses the method prescribed in §1.274-6T(a)(2).

(f) *Vehicles not available to employees for personal use other than commuting.* For a vehicle described in §1.274-6T(a)(3) (relating to certain vehicles not used for personal purposes other than commuting), the working condition fringe exclusion is equal to the value of the availability of the vehicle for purposes other than commuting if the employer uses the method prescribed in §1.274-6(T)(a)(3). This rule applies only if the special rule for valuing commuting use, as prescribed in §1.61-2T, is used and the amount determined under the special rule is either included in the employee's income or reimbursed by the employee.

(g) *Vehicles used in connection with the business of farming that are available to employees for personal use*—(1) *In general.* For a vehicle described in §1.274-6T(b) (relating to certain vehicles used in connection with the business of farming), the working condition fringe exclusion is calculated by multiplying the value of the availability of the vehicle by 75 percent.

(2) *Vehicles available to more than one individual.* If the vehicle is available to more than one individual, the employer must allocate the gross income attributable to the vehicle (25 percent of the value of the availability of the vehicle) among the employees (and other individuals whose use would not be attributed to an employee) to whom the vehicle was available. This allocation must be done in a reasonable manner to reflect the personal use of the vehicle by the individuals. An amount that would be allocated to a sole proprietor reduces the amounts that may be allocated to employees but are otherwise to be disregarded for purposes of this paragraph (g). For purposes of this paragraph (g), the value of the availability of a vehicle may be calculated as if the vehicle were available to only one employee continuously and without regard to any working condition fringe exclusion.

(3) *Examples.* The following examples illustrate a reasonable allocation of gross income with respect to an employer-provided vehicle between two employees:

Example (1). Assume that two farm employees share the use of a vehicle which for a calendar year is regularly used directly in connection with the business of farming and qualifies for use of the rule in §1.274-6T(b). Employee A uses the vehicle in the morning directly in connection with the business of farming and employee B uses the vehicle in the afternoon directly in connection with the business of farming. Assume further that employee B takes the vehicle home in the evenings and on weekends. The employer should allocate all the income attributable to the availability of the vehicle to employee B.

Example (2). Assume that for a calendar year, farm employees C and D share the use of a vehicle that is regularly used directly in connection with the business of farming and qualifies for use of the rule in §1.274-6T(b). Assume further that the employees alternate taking the vehicle home in the evening and alternate the availability of the vehicle for personal purposes on weekends. The employer should allocate the income attributable to the availability of the vehicle for personal use (25 percent of the value of the availability of the vehicle) equally between the two employees.

Example (3). Assume the same facts as in example (2) except that C is the sole proprietor of the farm. Based on these facts, C should allocate the same amount of income to D as was allocated to D in example (2). No other income attributable to the availability of the vehicle for personal use should be allocated.

(h) *Qualified non-personal use vehicles.* Effective January 1, 1985, 100 percent of the value of the use of qualified nonpersonal use vehicle (as described in §1.274-5T(k)) is excluded from gross income as a working condition fringe, provided that, in the case of a vehicle described in paragraph (k)(3) through (7) of that section, the use of the vehicles conforms to the requirements of that paragraph.

(i) [Reserved].

(j) *Application of section 280F*. In determining the amount, if any, of an employee's working condition fringe, section 280F and the regulations thereunder do not apply. For example, assume that an employee has available for a calendar year an employer-provided automobile with a fair market value of $28,000. Assume further that the special rule provided in §1.61-2T is used and that the Annual Lease Value, as defined in §1.61-2T, is $7,750, and that all of the employee's use of the automobile is in the employer's business. The employee would be entitled to exclude the entire Annual Lease Value as a working condition fringe, despite the fact that if the employee paid for the availability of the automobile, an income inclusion would be required under §1.280F-5T(d)(1). This paragraph (j) does not affect the applicability of section 280F to the employer with respect to such employer-provided automobile, nor does it affect the applicability of section 274. For rules concerning substantiation of an employee's working condition fringe, see paragraph (c) of this section.

(k) *Aircraft allocation rule*. In general, with respect to a flight on an employer-provided aircraft, the amount excludable as a working condition fringe is the amount that would be allowable as a deduction under section 162 or 167 if the employee paid for the flight on the aircraft. For example, if employee P flies on P's employer's airplane primarily for business reasons of P's employer, the value of P's flight is excludable as working condition fringe. However, if P's spouse and children accompany P on such airplane trip primarily for personal reasons, the value of the flights by P's spouse and children are includible in P's gross income. See §1.61-2T(g) for special rules for valuing personal flights.

(l) [Reserved].

(m) *Employer-provided transportation for security concerns*—(1) *In general*. The amount of a working condition fringe exclusion with respect to employer-provided transportation is the amount that would be allowable as a deduction under section 162 or 167 if the employee paid for the transportation. Generally, if an employee pays for transportation taken for primarily personal purposes, the employee may not deduct any part of the amount paid. Thus, the employee may not generally exclude the value of employer-provided transportation as a working condition fringe if such transportation is primarily personal. If, however, for bona fide business-oriented security concerns, the employee purchases transportation that provides him or her with additional security, the employee may generally deduct the excess of the amount paid for the transportation over the lesser amount the employee would have paid for the same mode of transportation absent the bona fide business-oriented security concerns. With respect to a vehicle, the phrase "the same mode of transportation" means use of the same vehicle without the additional security aspects, such as bulletproof glass. With respect to air transportation, the phrase "the same mode of transportation" means comparable air transportation. These same rules apply to the determination of an employee's working condition fringe exclusion. For example, if an employer provides an employee with an automobile for commuting and, for bona fide business-oriented security concerns, the automobile is specially designed for security, then the employee may exclude the value of the special security design as a working condition fringe if the employee's automobile would not have had such security design but for the bona fide business-oriented security concerns. The employee may not exclude the value of the commuting from income as a working condition fringe because commuting is a nondeductible personal expense. Similarly, if an employee travels on a personal trip in an employer-provided aircraft for bona fide business-oriented security concerns, the employee may exclude the excess, if any, of the value of the flight over the amount the employee would have paid for comparable air transportation, but for the bona fide business-oriented security concerns. Because personal travel is a nondeductible expense, the employee may not exclude the total value of the trip as a working condition fringe.

(2) *Demonstration of bona fide business-oriented security concerns*—(i) *In general*. For purposes of this paragraph (m), the existence of a bona fide business-oriented security concern for the furnishing of a specific form of transportation to an employee is determined on the basis of all the facts and circumstances within the following guidelines:

(A) *Services performed outside the United States*. With respect to an employee performing services for an employer in a geographic area other than the United States, a factor indicating a bona fide business-oriented security concern is a recent history of violent terrorist activity in such geographic area (such as bombings or abductions for ransom), unless such activity is focused on a group of individuals which does not include the employee or a similarly situated employee or on a section of the geographic area which does not include the employee.

(B) *Services performed in the United States*. With respect to an employee performing services for an employer in the United States, a factor indicating a bona fide business-oriented security concern is threats on the life of the employee or on the life of a similarly situated employee because of the employee's status as an employee of the employer.

(ii) *Establishment of overall security program*. Notwithstanding anything in paragraph (m)(2)(i) of this section to the contrary, *no* bona fide business-oriented security concern will be deemed to exist unless the employee's employer establishes an overall security program with respect to the employee involved.

(iii) *Overall security program*—(A) *Definition*. An overall security program is one in which security is provided to protect the employee on a 24-hour basis. The employee must be protected while at the employee's residence, while commuting to and from the employee's workplace, and while at the employee's workplace. In addition, the employee must be protected while traveling, whether for business or personal purposes. An overall security program would include the provision of a bodyguard/driver who is trained in evasive driving techniques; an automobile specially equipped for security; guards, metal detectors, alarms, or similar methods of controlling access to the employee's workplace and residence; and, in appropriate cases, flights on the employer's aircraft for business and personal reasons.

(B) *Application*. There is no overall

security program when, for example, security is provided at the employee's workplace but not at the employee's residence. In addition, the fact that an employer requires an employee to travel on the employer's aircraft, or in an employer provided vehicle that contains special security features, does not alone constitute an overall security program. The preceding sentence applies regardless of the existence of a corporate or other resolution requiring the employee to travel in the employer's airplane or vehicle for personal as well as business reasons. Similarly, the existence of an independent security study particular to the employer and its employees, or to the employee involved, does not alone constitute an overall security program.

(iv) *Effect of an independent security study*. An overall security program with respect to an employee is deemed to exist even through security is not provided to an employee on a 24-hour basis if the conditions of this paragraph (m)(2)(iv) are satisfied:

(A) A security study is performed with respect to the employer and the employee (or a similarly situated employee) by an independent security consultant;

(B) The security study is based on an objective assessment of all the facts and circumstances;

(C) The recommendation of the security study is that an overall security program (as defined in paragraph (m)(2)(iii) of this section) is not necessary and such recommendation is reasonable under the circumstances; and

(D) The employer applies the specific security recommendations contained in the security study to the employee on a consistent basis.

The value of the security provided pursuant to a security study that meets the requirements of this paragraph (m)(2)(iv) may be excluded from income, if the security study conclusions are reasonable and, but for the bona fide business-oriented security concerns, the employee would not have had such security. No exclusion from income applies to security provided by the employer that is not recommended in the security study. Security study conclusions may be reasonable even if, for example, it is recommended that security be limited to certain geographic areas, as in the case where air travel security is provided only in certain foreign countries.

(v) *Application of security rules to spouses and dependents*. The availability of a working condition fringe exclusion based on the existence of a bona fide business-oriented security concern with respect to the spouse and dependents of an employee is determined separately for such spouse and dependents under the rules established in this paragraph (m).

(vi) *Working condition safe harbor*. Under the special rule of this paragraph (m)(2)(vi), if, for a bona fide business-oriented security concern, the employer requires that the employee travel on an employer-provided aircraft for a personal trip, the employer and the employee may exclude, as a working condition fringe, the excess value of the trip over comparable first-class airfare without having to show that but for the bona fide business-oriented security concerns, the employee would have flown first-class on a commercial aircraft. If the special valuation rule provided in §1.61-2T is used, the excess over the amount determined by multiplying an aircraft multiple of 200-percent by the base aircraft valuation formula may be excluded as a working condition fringe.

(3) *Examples*. The provisions of this paragraph (m) may be illustrated by the following examples:

Example (1). Assume that in response to several death threats on the life of A, the president of a multinational company (company X), company X establishes an overall security program for A, including an alarm system at A's home and guards at A's workplace, the use of a vehicle that is specially equipped with alarms, bullet-proof glass, and armor plating and a bodyguard/driver who is trained in evasive driving techniques. Assume further that A is driven for both personal and business reasons in the vehicle. Also, assume that but for the bona fide business-oriented security concerns, no part of the overall security program would have been provided to A. With respect to the transportation provided for security reasons, A may exclude as a working condition fringe the value of the special security features of the vehicle and the value attributable to the bodyguard/driver. Thus, if the value of the specially equipped vehicle is $40,000, and the value of the vehicle without the security features is $25,000, A may determine A's income attributable to the vehicle as if the vehicle were worth $25,000. A must include in income the value of the availability of the vehicle for personal use.

Example (2). Assume that B is the chief executive officer of a multinational corporation (company Y). Assume further that there have been kidnapping attempts and other terrorist activities in the foreign countries in which B performs services and that at least some of such activities have been directed against B or similarly situated employees. In response to these activities, company Y provides B with an overall security program, including an alarm system at B's home and bodyguards at B's workplace, a bodyguard/driver who is trained in evasive driving techniques, and a vehicle specially designed for security during B's overseas travels. In addition, assume that company Y requires B to travel in company Y's airplane for business and personal trips taken to, from, and within these foreign countries. Also, assume that but for bona fide business-oriented security concerns, no part of the overall security program would have been provided to B. B may exclude as a working condition fringe the value of the special security features of the automobile and the value attributable to the bodyguards and the bodyguard/driver. B may also exclude as a working condition fringe the excess, if any, of the value of personal flights in the company Y airplane over first-class airfare (as determined under the special valuation rule provided in §1.61-2T if the safe harbor described in paragraph (m)(2)(vi) of this section is used). B must include in income the value of the availability of the vehicle for personal use and the lesser of the value of first-class airfare or the value of the flight determined under §1.61-2T for each personal flight taken by B in company Y's airplane.

Example (3). Assume the same facts as in example (2) except that company Y also requires B to travel in company Y's airplane within the United States, and provides B with a chauffeur-driven limousine for business and personal travel in the United States. Assume further that company Y also requires B's spouse and dependents to travel in company Y's airplane for personal flights in the United States. If no bona fide business-oriented security concern exists with respect to travel in the United States, B may not exclude any portion of the value of the availability of the driver or limousine for personal use in the United States. Thus, B must include in income the value of the availability of the vehicle and driver for personal use. In addition, B may not exclude any portion of the value attributable to personal flights by B or B's spouse and dependents on company Y's airplane. Thus, B must include in income the value attributable to the personal use of company Y's airplane. See §1.61-2T for rules relating to the valuation of personal flights on employer-provided airplanes.

Example (4). Assume that company Z retains an independent security consultant to perform a security study with respect to its chief executive officer. Assume further that, based on an objective assessment of the facts and circumstances, the security consultant reasonably recommends that the employee be provided security at his workplace and for ground transportation, but not for air transportation. if company Z follows the recommendations on a consistent basis, an overall security program will be deemed to exist with respect to the workplace and ground transportation security only.

Example (5). Assume the same facts as in example (4) except that company Z only provides the employee security while commuting to and from work, but not for any other ground transportation. Since the recommendations of the independent security study are not applied on a consistent basis, an overall security program will not be deemed to exist.

(n) *product testing*—(1) *In general.* The fair market value of the use of consumer goods, which are manufactured for sale to nonemployees, for product testing and evaluation by an employee outside the employer's workplace is excludable as a working condition fringe if—

(i) Consumer testing and evaluation of the product is an ordinary and necessary business expense of the employer,

(ii) Business reasons necessitate that the testing and evaluation of the product be performed off the employer's business premises by employees (i.e., the testing and evaluation cannot be carried out adequately in the employer's office or in laboratory testing facilities),

(iii) HE product is furnished to the employee for purposes of testing and evaluation,

(iv) The product is made available to the employee for no longer than necessary to test and evaluate its performance and must be returned to the employer at completion of the testing and evaluation period,

(v) The employer imposes limitations of the employee's use of the product which significantly reduce the value of any personal benefit to the employee, and

(vi) The employee must submit detailed reports to the employer on the testing and evaluation.

The length of the testing and evaluation period must be reasonable in relation to the product being tested.

(2) *Employer imposed limitations.* The requirement of paragraph (n)(1)(v) of this section is satisfied if—

(i) The employer places limitations on the employee's ability to select among different models or varieties of the consumer product that is furnished for testing and evaluation purposes,

(ii) The employer's policy provides for the employee, in appropriate cases, to purchase or lease at his or her own expense the same type of product as that being tested (so that personal use by the employee's family will be limited), and

(iii) The employer generally prohibits use of the product by members of the employee's family.

(3) *Discriminating classifications.* If an employer furnishes products under a testing and evaluation program only to officers, owners, or highly compensated employees, this fact may be considered in a determination of whether the products are furnished for testing and evaluation purposes or for compensation purposes, unless the employer can show a business reason for the classification of employees to whom the products are furnished (e.g., that automobiles are furnished for testing and evaluation by an automobile manufacturer to its design engineers and supervisory mechanics).

(4) *Factors that negate the existence of a product testing program.* If an employer fails to tabulate and examine the results of the detailed reports within a reasonable period of time after expiration of the testing period, the program will not be considered a product testing program. Existence of one or more of the following factors may also establish that the program is not a bona fide product testing program:

(i) The program is in essence a leasing program under which employees lease the consumer goods from the employer for a fee;

(ii) The nature of the product and other considerations are insufficient to justify the testing program; or

(iii) The expense of the program outweighs the benefits to be gained from testing and evaluation.

(5) *Failure to meet the requirements of this paragraph (n).* The fair market value of the use of property for product testing and evaluation by an employee outside the employee's workplace, under a product testing program that does not meet all of the requirements of this paragraph (n), is not excludable as a working condition fringe.

(6) *Example.* Assume that an employer that manufactures automobiles establishes a product testing program under which 50 of its 5,000 employees test and evaluate the automobiles for 30 days. Assume further that the 50 employees represent a fair cross section of all of the employees of the employer, such employees submit detailed reports to the employer on the testing and evaluation, the employer tabulates and examines the test results within a reasonable time, and the use of the automobiles is restricted to the employees. If the rules of paragraph (n)(2) of this section are also met, the employees may exclude the value of the use of the automobile during the testing and evaluation period.

(o) *Qualified automobile demonstration use*—(1) *In general.* The value of qualified automobile demonstration use is excludable from gross income as a working condition fringe. The term "qualified automobile demonstration use" means any use of a demonstration automobile by a full-time automobile salesman in the sales area in which the automobile dealer's sales office is located if—

(i) Such use is provided primarily to facilitate the salesman's performance of services for the employer, and

(ii) There are substantial restrictions on the personal use of the automobile by the salesman.

(2) *Full-time automobile salesman*—(i) *Definition.* The term "full-time automobile salesman" means any individual who—

(A) Is employed by an automobile dealer,

(B) Customarily spends substantially all of a normal business day on the sales floor selling automobiles to customers of the automobile dealership,

(C) Customarily works a number of hours considered full-time in the industry (but at a rate not less than 1,000 hours per year), and

(D) Derives at least 85 percent of his or her gross income from the automobile dealership directly as a result of such automobile sales activities.

An individual, such as the general manager of an automobile dealership, who receives a sales commission on the sale of an automobile is not a full-time automobile salesman unless the requirements of this paragraph (o)(2)(i) are met. The exclusion provided in this paragraph (o) is available to an individual who meets the definition of this paragraph (o)(2)(i) regardless of whether the individual performs services in addition to those described in this paragraph (o)(2)(i). For example, an individual who is an owner of the automobile dealership but who otherwise meets the requirements of this paragraph (o)(2)(i) may exclude from gross income the value of qualified automobile demonstration use.

(ii) *Use by an individual other than a full-time automobile salesman.* Personal use of a demonstration automobile by an individual other than a full-time automobile salesman is not treated as a working condition fringe. Therefore, any personal use, including commuting use, of a demonstration automobile by a part-time salesman, automobile mechanic, manager, or other individual is not "qualified automobile demonstration use" and thus not excludable from gross income.

(3) *Demonstration Automobile.* The exclusion provided in this paragraph (o) applies only to qualified use of a demonstration automobile. A demonstration automobile is an automobile that is—

(i) currently in the inventory of the automobile dealership, and

(ii) Available for test drives by customers during the normal business hours of the employee.

(4) *Substantial restrictions on personal use.* Substantial restrictions on the personal use of demonstration automobiles exist when all of the following conditions are satisfied:

(i) Use by individuals other than the full-time automobile salesmen (e.g., the salesman's family) is prohibited,

(ii) Use for personal vacation trips is prohibited,

(iii) The storage of personal possessions in the automobile is prohibited, and

(iv) The total use by mileage of the automobile by the salesman outside the salesman's normal working hours is limited.

(5) *Sales area*—(i) *In general.* Qualified automobile demonstration use must be use in the sales area in which the automobile dealer's sales office is located. The sales area is the geographic area surrounding the automobile dealer's sales office from which the office regularly derives customers.

(ii) *Sales area safe harbor.* With respect to a particular full-time salesman, the automobile dealer's sales area may be treated as the larger of the area within a 75 mile radius of the dealer's sales office, or the one-way commuting distance (in miles) of the particular salesman.

(p) *Parking*—(1) *In general.* The value of parking provided to an employee on or near the business premises of the employer is excludable from gross income as a working condition fringe. The working condition fringe exclusion applies whether the employer owns or rents the parking facility or parking space.

(2) *Reimbursement of parking expenses.* Any reimbursement to the employee of the ordinary and necessary expenses of renting a parking space on or near the business premises of the employer is excludable as a working condition fringe. The preceding sentence does not apply, however, to cash payments that are not actually used for renting a parking space. Thus, that part of a general transportation allowance that is not used for parking is not excludable as a working condition fringe under this paragraph (p).

(3) *parking on residential property.* With respect to an employee, this paragraph (p) does not apply to any parking facility or space located on property owned or leased for residential purposes by the employee.

(q) *Nonapplicability of nondiscrimination rules.* Except to the extent provided in paragraph (n)(3) of this section, the nondiscrimination rules of section 132 (h)(1) and §1.132-8T do not apply in determining the amount, if any, of a working condition fringe.

Par. 8. The following section is added at the appropriate place:

§1.132-6T De minimis fringe (Temporary).

(a) *In general.* Gross income does not include the value of a de minimis fringe provided to an employee. The term "de minimis fringe" means any property or service the value of which is (after taking into account the frequency with which similar fringes are provided by the employer to the employer's employees) so small as to make accounting for it unreasonable or administratively impracticable.

(b) *Frequency.* Generally, the frequency with which similar fringes are provided by the employer to the employer's employees is determined by reference to the frequency with which the employer provides the fringe to each individual employee. For example, if an employer provides a free meal to one employee on a daily basis, but not to any other employee, the value of the meals is not de minimis with respect to that one employee even though with respect to the employer's entire workforce the meals are provided "infrequently." However, where it would be administratively difficult to determine frequency with respect to individual employees, the frequency with which similar fringes are provided by the employer to the employer's employees is determined by reference to the frequency with which the employer provides the fringes to the employees and not the frequency with which individual employees receive them. In these cases, if an employer occasionally provides a fringe benefit of de minimis value to the employer's employees, the de minimis fringe exclusion may apply even through a particular employee receives the benefit frequently. For example, if an employer exercises sufficient control and imposes significant restrictions on the personal use of a company copying machine so that at least 85 percent of the use of the machine is for business purposes, any personal use of the copying machine by particular employees is considered to be a de minimis fringe.

(c) *Administrability.* Unless excluded by a statutory provision other than section 132(a)(4), the value of any fringe benefit that would not be unreasonable or administratively impracticable to account for must be included in the employee's gross income. Thus, except as otherwise provided in this section, the provision of any cash fringe benefit (or any fringe benefit provided to an employee through the use of a charge or credit card) is not excludable as a de minimis fringe. For example, the provision of cash to an employee for personal entertainment is not excludable as a de minimis fringe.

(d) *Special rules*—(1) *Transit passes.* A transit pass provided to an employee at a discount not exceeding $15 per month may be excluded as a de minimis fringe. The exclusion provided in this paragraph (d) also applies to the provision of $15 in tokens or fare cards that enable an individual to travel on the transit system. The exclusion provided in this paragraph (d) does not apply to any provision of cash or other benefit to defray transit expenses incurred for personal travel.

(2) *Occasional meal money or local transportation fare.* Occasional meal money or local transportation fare provided to an employee because overtime work necessitates an extension of the employee's normal workday is excluded as a de minimis fringe.

(3) *Use of special rules to establish a general rule.* The special rules provided in this paragraph (d) may not be used to establish any general rule. For example, the fact that $180 ($15 per month for 12 months) worth of transit passes can be excluded in a year does not mean that any fringe benefit with a value equal to or less than $180 may be excluded as a de minimis fringe.

(4) *Benefits exceeding value and frequency limitations.* If the benefit provided to an employee is not de minimis because either the value or frequency exceeds a limit provided in this paragraph (d), no amount of the benefit is considered to be de minimis. For example, if an employer provides a $20 monthly transit pass, the entire $20 must be included in income, not just the excess value over $15.

(e) *Nonapplicability of nondiscrimination rules.* Except to the extent provided in §1.132-7T, the nondiscrimination rules of section 132(h)(l) and §1.132-8T do not apply. Thus, for example, a fringe benefit may be a de minimis fringe even if the benefit is provided exclusively to officers of the employer.

(f) *Examples*—(l) *Benefits excludable from income.* Examples of de minimis fringe benefits are occasional typing of personal letters by a company secretary; occasional personal use of an employer's copying machine, provided that the employer exercises sufficient control and imposes significant restrictions on the personal use of the machine so that at least 85 percent of the use of the machine is for business purposes; occasional cocktail parties or picnics for employees and their guests; traditional holiday gifts of property (not cash) with a low fair market value; occasional theatre or sporting event tickets; and coffee and doughnuts.

(2) *Benefits not excludable as de minimis fringes.* Examples of fringe benefits that are not excludable from income as de minimis fringes are: season tickets to sporting or theatrical events; the commuting use of an employer-provided automobile or other vehicle more than once a month; membership in a private country club or athletic facility, regardless of the frequency with which the employee uses the facility; and use of employer-owned or leased facilities (such as an apartment, hunting lodge, boat, etc.) for a weekend. Some amount of the value of these fringe benefits may be excluded under other statutory provisions, such as the exclusion for working condition fringes. See §1.132-5T.

Par. 9. The following section is added at the appropriate place:

§1.132-7T Treatment of employer-operated eating facilities (Temporary).

(a) *In general*—(1) *General rule.* The value of meals provided to employees at an employer-operated eating facility for employees is excludable from gross income as a de minimis fringe only if—

(i) On an annual basis, the revenue from the facility equals or exceeds the direct operating costs of the facility, and

(ii) With respect to any officer, owner or highly compensated employee, access to the facility is available on substantially the same terms to each member of a group of employees that is defined under a reasonable classification set up by the employer that does not discriminate in favor of officers, owners, and highly compensated employees. See §1.132-8T.

(2) *Employer-operated eating facility for employees.* An employer-operated eating facility for employees is a facility that meets all of the following conditions—

(i) The facility is owned or leased by the employer,

(ii) The facility is operated by the employer,

(iii) The facility is located on or near the business premises of the employer,

(iv) Substantially all of the use of the facility is by employees of the employer operating the facility, and

(v) The meals furnished at the facility are provided during, or immediately before or after, the employee's workday.

For purposes of this section, the term "meals" means food, beverages, and related services provided at the facility. If an employer can determine the number of employees who receive meals that are excludable from income under section 119, the employer may, in determining whether the requirement of paragraph (a)(1)(i) of this section is satisfied, disregard all costs and revenues attributable to such meals provided to such employees. For purposes of this section, each dining room or cafeteria in which meals are served is treated as a separate eating facility, regardless of whether each such dining room or cafeteria has its own kitchen or other food-preparation area.

(3) *Operation by the employer.* If an employer contracts with another to operate an eating facility for its employees, the facility is considered to be operated by the employer for purposes of this section. If an eating facility is operated by more than one employer, it is considered to be operated by each employer.

(b) *Direct operating costs.* The direct operating costs test must be applied separately for each dining room or cafeteria. For purposes of this section, the direct operating costs of an eating facility are (1) the cost of food and beverages and (2) the cost of labor for personnel whose services relating to the facility are performed primarily on the premises of the eating facility. Direct operating costs do not include the cost of labor for personnel whose services relating to the facility are not performed primarily on the premises of the eating facility. Thus, for example, the labor cost for cooks, waiters, and waitresses is included in direct operating costs, but the labor cost for a manager of an eating facility whose services relating to the facility are not primarily performed on the premises of the eating facility is not included in direct operating costs. If an employee performs services both on and off the premises of the eating facility, only the applicable percentage of the total labor cost of the employee that bears the same proportion as time spent on the premises bears to total time is included in direct operating costs. For example, assume that 60 percent of the services of the cooks in the above example are not related to the eating facility. Only 40 percent of the total labor cost of the cooks is includible in direct operating costs. For purposes of this section, labor costs include all compensation required to be reported on a Form W-2 for income tax purposes and related employment taxes paid by the employer.

(c) *Valuation of non-excluded meals provided at an employer-operated eating facility for employees.* If the exclusion for meals provided at an employer-operated eating facility for employees is not available, the recipient of meals provided at such facility must include in income the amount by which the fair market value of the meals provided exceeds the sum of (1) the amount, if any, paid for the meals, and (2) the amount, if any, specifically excluded by another section of the Code. For special valuation rules relating to such meals see §1.61-2T(j).

Par. 10. The following section is added at the appropriate place:

§1.132-8T Nondiscrimination rules (Temporary).

(a) *Application of nondiscrimination rules*—(1) *General rule*. To qualify under section 132 for the exclusions for no-additional cost services, qualified employee discounts, or meals provided at employer-operated eating facilities for employees, the fringe benefit must be available on substantially the same terms to each member of a group of employees which is defined under a reasonable classification set up by the employer that does not discriminate in favor of officers, owners, or highly compensated employees (the "prohibited group employees").

(2) *Consequences of discrimination*. If the availability of or the provision of the fringe benefit does not satisfy the nondiscrimination rules provided in this section, the exclusion applies only to those employees (if any) who receive the benefit and who are not prohibited group employees. For example, if an employer offers a 20 percent discount (which otherwise satisfies the requirements for a qualified employee discount) to all nonprohibited group employees and a 35 percent discount to all prohibited group employees, the entire value of the 35 percent discount (not just the excess over 20 percent) is includible in the gross income and wages of the prohibited group employees who make purchases at a discount.

(3) *Scope of the nondiscrimination rules provided in this section*. The nondiscrimination rules provided in this section apply only to fringe benefits provided pursuant to section 132(a)(1), (a)(2), and (e)(2). These rules have no application to any other employee benefit that may be subject to nondiscrimination requirements under any other section of the Code.

(b) *Coverage requirement*—(1) *Section 132(a)(1) and(2)*. For purposes of the exclusions for no-additional-cost services and qualified employee discounts, the nondiscrimination rules of this section are applied by aggregating the employees of all related employers (as defined in §1.132-1T(c)), but without aggregating employees in different lines of business (as defined in §1.132-4T). Employees in different lines of business will be aggregated, however, if the line of business limitation has been relaxed pursuant to either section 1.132-4T(b) or (c). Except as provided in paragraph (e) of this section, the nondiscrimination rules of this section are generally applied separately to each fringe benefit program of an employer.

(2) *Section 132(e)(2)*. For purposes of the exclusion for meals provided at employer-operated eating facilities for employees, the nondiscrimination rules of this section are applied by aggregating the employees of all related employers, without regard to different lines of business, who regularly work at or near the premises on which the eating facility is located. The nondiscrimination rules of this section are applied separately to each eating facility. Each dining room or cafeteria in which meals are served is treated as a separate eating facility, regardless of whether each such dining room or cafeteria has its own kitchen or other food-preparation area.

(3) *Classes of employees who may be excluded*. Except as otherwise provided in this section, for purposes of applying the nondiscrimination rules of this section to a particular fringe benefit program, there may be excluded from consideration the following classes of employees provided that, with respect to each class (other than the class described in paragraph (b)(3)(iii) of this section), all employees in the class are excluded from participating in the particular fringe benefit program—

(i) all part-time or seasonal employees who are (or who are reasonably expected to be) credited with less than 1,000 hours (or such lesser number required for the program) of service during a calendar year;

(ii) all employees who are included in a unit of employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and one or more employers, if there is evidence that the particular fringe benefit program was the subject of good faith bargaining between such employee representatives and such employer or employers (and if, after march 31, 1984, the additional condition of section 7701(a)(46) is satisfied);

(iii) all employees who are nonresident aliens and who receive no earned income (within the meaning of section 911(d)(2)) from the employer which constitutes income from services within the United States (within the meaning of section 861(a)(3));

(iv) all employees who have not completed at least one year (or such lesser period required for the program) of service with the employer;

(v) all employees who have separated from the service of the employer in a year prior to the current year (regardless of the reason for the separation);

(vi) all employees who have separated from the service of the employer in a year prior to the current year except for retired and/or disabled employees (either with or without a time limit based on a set number of years since separation from the service of the employer); and

(vii) all employees of a leased section of a department store.

(c) *Classification requirement*—(1) *General rule*. The determination of whether a particular classification established by an employer discriminates in favor of the prohibited group will depend on the facts and circumstances involved, based on principles similar to those applied in the qualified plan area (see section 410(b)(1)(B) and the regulations thereunder). In general, except as otherwise provided in this section, a classification that would be determined to be nondiscriminatory pursuant to the application of the nondiscrimination standards that are applied in the qualified plan area shall be deemed to be nondiscriminatory for purposes of section 132.

(2) *Classifications that are per se discriminatory*. A classification that, on its face, makes fringe benefits available only to prohibited group employees is per se discriminatory, and no exclusion from gross income is available to any prohibited group employee under section 132. In addition, a classification that is based on either an amount or rate of compensation is per se discriminatory if it favors those with the higher amount or rate of compensation. On the other hand, a classification that is based on factors such as seniority, full-time vs. part-time employment, or job description is not per se discriminatory but may be discriminatory as applied to the workforce of a particular employer.

(3) *Former employees*. When determining whether a classification is discriminatory, former employees shall not be considered together with other

employees of the employer. Therefore, a classification is not discriminatory if the employer does not make the fringe benefits available to any former employee. Whether a classification of former employees discriminates in favor of prohibited group employees will depend on the facts and circumstances. The rules of this section shall apply separately to the former employee classification.

(4) *Employer-operated eating facilities for employees*—(i) *General rule*. If access to an employer-operated eating facility for employees is available to a classification of employees that discriminates in favor of highly compensated employees, the classification will not be treated as discriminating in favor of the prohibited group employees unless the facility is used, more than a de minimis amount, by any executive group employee.

(ii) *Executive group employees*. For purposes of this paragraph (c)(4), the term "executive group employees" has the same meaning as the term "prohibited group employees" (as defined in paragraph (g) of this section), except that for purposes of identifying highly compensated employees—

(A) The exception provided in paragraph (g)(1)(i)(A) of this section does not apply, and

(B) The phrase "highest-paid one percent of all employees of an employer" is substituted for the phrase "highest-paid ten percent of all employees of an employer" in paragraph (g)(1)(ii)(A) of this section.

(d) *Substantially-the-same-terms requirement*—(1) *General rule*. Fringe benefits available to a particular classification of employees must be available to each employee in the classification on substantially the same terms. The determination of whether this requirement is met shall depend on the facts and circumstances involved. For example, if a department store provides a 20 percent qualified employee discount to its employees on all merchandise, the substantially-the-same-terms requirement will be satisfied. Similarly, if the discount provided to all employees is 30 percent on certain merchandise (such as apparel), and 20 percent on all other merchandise, the substantially-the-same-terms requirement will be satisfied. However, if the discount provided is 20 percent on all merchandise for hourly employees and 30 percent on all merchandise for salaried employees, the substantially-the-same-terms requirement will not be satisfied. In addition, if the percentage discount varies depending on either an employee's amount or rate of compensation, or volume of purchases, the substantially-the-same-terms requirement will not be satisfied. In order to determine whether such a discount program satisfies the nondiscrimination requirements of section 132, each group of employees that does receive fringe benefits on substantially the same terms must be treated as a separate classification. However, subject to the rules of paragraph (e)(2) of this section, an employer may divide a fringe benefit program into two programs for purposes of aggregating groups of employees. See Example (1) of paragraph (d)(3) of this section.

(2) *Terms relating to priority*. Certain fringe benefits made available to employees are available only in limited quantities that may be insufficient to meet employee demand. This may occur either because of employer policy (such as where an employer determines that only a certain number of units of a specific product will be made available to employees each year) or because of the nature of the fringe benefit (such as where an employer provides a no-additional-cost transportation service that is limited to the number of seats available just before departure). Under these circumstances, an employer may find it necessary to establish some method of allocating the limited fringe benefits among the employees eligible to receive the fringe benefits. An allocation among employees on a "first-come, first-served" basis will not violate the substantially-the-same-terms requirement provided that such an allocation is not discriminatory in practice. In addition, an allocation among employees on a lottery basis will not violate the substantially-the-same-terms requirement provided that such an allocation is nondiscriminatory in practice. For example, assume that an employer has a limited number of a particular benefits to offer to its employees. Assume further that the employees interested in receiving the benefit submit their names to the employer who then selects a number of names, at random, equal to the number of fringe benefits available. This lottery system would not violate the substantially-the-same-terms requirement. An allocation among employees on other than a "first-come, first-served", lottery, or similar basis will violate the substantially-the-same-terms requirement. Therefore, an allocation based on seniority, full-time vs. part-time employment, or job description will violate the substantially-the-same-terms requirement. In order to determine whether such a fringe benefit program satisfies the nondiscrimination requirements of section 132, each group of employees that does receive fringe benefits on substantially the same terms must be treated as a separate classification. For purposes of this rule, the last two sentences of paragraph (d)(1) of this section apply.

(3) *Examples*. The following examples illustrate the provisions of this paragraph (d):

Example 1. Assume that with respect to a benefit available in limited quantities an employer provides priority to employees based on seniority. Assume further that all non-prohibited group employees have ten years of seniority and all prohibited group employees have nine years seniority. If each of these groups were tested separately, the benefits offered to prohibited group employees would be discriminatory under this section. In this case, the employer could divide the fringe benefit program provided to non-prohibited group employees into two parts: one relating to nine years of seniority and one relating to an additional year of seniority. As restructured in this manner, all employees receive the benefit relating to nine years seniority and only non-prohibited group employees receive the benefit relating to an additional year of seniority. Both groups (all employees and all non-prohibited group employees) are nondiscriminatory groups.

Example 2. Assume that prices charged to prohibited group employees at an employer-operated eating facility for employees are lower than prices charged to non-prohibited group employees. The substantially-the-same requirement is not satisfied.

(4) *Disproportionate use of eating facility*. If access to an employer-operated eating facility for employees is technically available on substantially-the-same-terms to (i) all employees who regularly work at or near the premises on which the eating facility is located (the employee group), or (ii) a nondiscriminatory classification of the employee group, but in practice a highly disproportionate number of the prohibited group employees in the employee group, compared to the non-prohibited group employees in the employee group, use the facility, the substantially-the-same-terms require-

ment will not be satisfied unless no member of the executive group eats there more than a de minimis amount.

(e) *Aggregation of separate fringe benefit programs*—(1) *General rule*. If an employer maintains more than one fringe benefit program, i.e., two or more classifications of employees providing either identical or different fringe benefits, the nondiscrimination requirements of section 132 will generally be applied separately to each such program. Thus, a determination that one fringe benefit program discriminates in favor of prohibited group employees generally will not cause other fringe benefit programs covering the same prohibited group employees to be treated as discriminatory.

(2) *Exception*—(i) *Related fringe benefit programs*. If one of a group of fringe benefit programs discriminates in favor of prohibited group employees, no related fringe benefit provided to such prohibited group employees under any other fringe benefit program may be excluded from the gross income of such prohibited group employees. For example, assume a department store provides a 20 percent merchandise discount to all employees under one fringe benefit program. Assume further that under a second fringe benefit program, the department store provides an additional 15 percent merchandise discount to a group of employees defined under a classification which discriminates in favor of the prohibited group. Because the second fringe benefit program is discriminatory, the 15 percent merchandise discount provided to the prohibited group employees is not a qualified employee discount. In addition, because the 20 percent merchandise discount provided under the first fringe benefit program is related to the fringe benefit provided under the second fringe benefit program, the 20 percent merchandise discount provided the prohibited group employees is not a qualified employee discount. Thus, the entire 35 percent merchandise discount provided to the prohibited group employees is includible in such employees' gross incomes.

(ii) *Employer-operated eating facilities for employees*. For purposes of paragraph (e)(2)(i) of this section, meals at different employer-operated eating facilities for employees are not related fringe benefits, so that a prohibited group employee may exclude the value of a meal at a nondiscriminatory facility even though any meals provided to him or her at the discriminatory facility cannot be excluded.

(f) *Cash bonuses or rebates*. A cash bonus or rebate provided to an employee by an employer that is determined pursuant to the value of employer-provided property or services purchased by the employee, is treated as an equivalent employee discount. For example, assume a department store provides a 20 percent merchandise discount to all employees under a fringe benefit program. In addition, assume that the department store provides cash bonuses to a group of employees defined under a classification which discriminates in favor of the prohibited group. Assume further that such cash bonuses equal 15 percent of the value of merchandise purchased by each employee. This arrangement is substantively identical to the example described in paragraph (e)(2) of this section. Thus, both the 20 percent merchandise discount and the 15 percent cash bonus provided to the prohibited group employees are includible in such employees' gross incomes.

(g) *Prohibited group employees*—(1) *Highly compensated*—(i) *General rule*. Except as otherwise provided in this paragraph (g)(1)(i), any employee of an employer who has (or is reasonably expected to have) compensation during a calendar year equal to or greater than the employer's base compensation amount is highly compensated. There are two exceptions to this rule:

(A) any employee who has (or is reasonably expected to have) compensation during a calendar year equal to or greater than $50,000 is highly compensated, regardless of whether such compensation is in excess of the base compensation amount, and

(B) any employee who is reasonably expected to have compensation during a calendar year equal to or less than $20,000 is not highly compensated, unless no employee of the employer is reasonably expected to have compensation equal to or greater than $35,000.

The determination of whether an employee is a highly compensated employee will be determined based on the entire employee workforce of all employers aggregated pursuant to the rules of section 414(b), (c), or (m) without regard to the regular workplace of the employees.

(ii) *Base compensation amount*—(A) *General rule*. The term "base compensation amount" is defined as that amount corresponding to the lowest annual compensation amount received by the highest-paid ten percent of all employees of an employer (the number of employees in the top ten percent will be increased to the next highest integer if necessary), determined on the basis of the preceding calendar year. For purposes of this paragraph (g)(1)(ii), the term "employer" includes all entities that would be aggregated pursuant to the rules of section 414(b), (c), or (m).

(B) *Employees that are excluded*. For purposes of determining the base compensation amount with respect to a fringe benefit program, employees described in paragraph (b)(3) of this section are excluded whether or not they are covered under the fringe benefit program, except that *(1)* employees described in paragraph (b)(3)(ii) of this section are taken into account with respect to the program even if they are excluded under paragraph (b)(3), and *(2)* employees described in paragraph (b)(3)(i) and (iv) of this section are taken into account with respect to the program unless they are excluded under paragraph (b)(3).

(C) *Exception to preceding calendar year rule*. In the case of an employer's first year of operation, or where employer's business has changed significantly from the prior calendar year (e.g., due to an acquisition or merger), the employer must make a good faith attempt to either determine or adjust the base compensation amount for the current year based on reasonable estimates of current year compensation.

(iii) *Compensation*. The term "compensation" is defined as the amount reportable on a Form W-2 as income. Amounts that would be excluded from income but for section 132(h)(1) are not included in compensation for purposes of this paragraph (g)(1). Compensation includes amounts received from all entities which would be treated as a single employer under section 414(b), (c), or (m) and is not restricted to amounts received with respect to any one line of business.

(iv) *Employee*. Generally, for purposes of determining whether an employee is highly compensated under this paragraph (g)(1), the term "employee" does not include any individual who does not perform services for the employer as an employee during the calendar year. For example, if an employer has active employees, retired or disabled employees, and widows or widowers who are "employees" under section 132(f)(1)(B), the general rule (described in paragraph (g)(1)(i) of this section) applies only to the active employees.

(2) *Owner*.—(i) *General rule*. For purposes of this section, the term "owner" means any employee who owns a one percent or greater interest in either the employer or in any entity that would be aggregated with the employer pursuant to the rules of section 414(b), (c), or (m). In addition, such an employee shall be treated as an owner of all entities that would be aggregated with the employer pursuant to the rules of section 414(b), (c), or (m).

(ii) *Determining ownership*. Ownership in a corporation shall be determined pursuant to the rules of section 318(a). For purposes of determining ownership in an entity other than a corporation, the rules of section 318(a) shall apply in a manner similar to the way in which they apply for purposes of determining ownership in a corporation. For non-corporate interests, capital or profits interest must be substituted for stock.

(3) *Officer*.—(i) *Non-government*. For purposes of this section, an officer of a non-government employer is any employee who is appointed, confirmed, or elected by the Board of shareholders of the employer. An employee who is an officer of an employer shall be treated as an officer of all entities treated as a single employer pursuant to section 414(b), (c), or (m). The number of officers is not to exceed one-percent of the total number of employees of all entities treated as a single employer pursuant to section 414(b), (c), or (m) (increased to the next highest integer, if necessary). If the number of officers exceeds one-percent of all employees, then the limitation is to be applied to employees in descending order of compensation (as defined in paragraph (g)(1)(iii) of this section). Thus, if an employer with 1,000 employees has 11 board-appointed officers, the employee with the least compensation of those officers would not be an officer under this paragraph (g)(3)(i). In determining the total number of employees with respect to a fringe benefit program, employees described in paragraph (b)(3) of this section are excluded whether or not they are covered under the fringe benefit program, except that (A) employees described in paragraph (b)(3)(ii) of this section are taken into account with respect to the program even if they are excluded under paragraph (b)(3), and (B) employees described in paragraph (b)(3)(i) and (iv) of this section are taken into account with respect to the program unless they are excluded under paragraph (b)(3).

(ii) *Government*. For purposes of this section, an officer of a government employer is any—

(A) Elected official,

(B) Federal employee appointed by the President and confirmed by the Senate. However, in the case of any commissioned officer of the United States Armed Forces, an officer is any employee with the rank of brigadier general or rear admiral (lower half) or above, and

(C) State or local executive officer comparable to individuals described in paragraphs (g)(3)(ii)(A) and (B) of this section.

For purposes of this paragraph (g)(3)(ii), the term "government" includes any Federal, state, or local governmental unit, and any agency or instrumentality thereof.

(4) *Former employees*. [Reserved]

Par. 11. Paragraph (b) of §1.162-25T is amended by removing the words "(as defined in §1.61-2T Q/A-20)" and adding in their place the words "(as defined in §1.61-2T(e)(2))".

Par. 12. Section 1.274-5T is amended as follows:

1. Paragraph (e)(1)(ii) is amended by removing the words "(as defined in §1.61-2T Q/A-20)" and adding in their place the words "(as defined in §1.61-2T(e)(2))".

2. The first sentence of paragraph (l) is revised to read as follows: "For purposes of section 274(d) and this section, the terms "automobile" and "vehicle" have the same meanings as prescribed in §1.61-2T(d)(1)(ii) and §1.61-2T(e)(2), respectively.".

3. The third sentence of paragraph (m) is amended by removing the words "except as provided in §1.132-1T Q/A-4b" and adding in their place the words "except as provided in §1.132-5T(h)".

Par. 13. Section 1.274-6T is amended as follows:

1. Paragraph (a)(3)(i)(E) is revised to read as follows: "The employee required to use the vehicle for commuting is not a control employee (as defined in §1.61-2T(f)(5) and (6)) required to use an automobile (as defined in §1.61-2T(d)(1)(ii)), and".

2. Paragraph (a)(3)(i)(F) is amended by removing the citation "§1.61-2T Q/A-21" and adding in its place the citation "§1.61-2T(f)(3)".

3. Paragraph (a)(3)(ii) is amended by removing from the introductory text the citation "§1.61-2T Q/A-21" and adding in its place the citation "§1.61-2T(f)(3)".

4. Paragraph (a)(3)(ii)(E) is revised to read as follows: "The employee required to use the vehicle for commuting is not a control employee (as defined in §1.61-2T(f)(5) and (6)) required to use an automobile (as defined in §1.61-2T(d)(10)(ii)), and".

5. Paragraph (a)(3)(ii)(F) is amended by removing the citation "§1.61-2T Q/A-21" and adding in its place the citation "§1.61-2T(f)(3)".

6. Paragraph (b)(1) is amended by removing from the last sentence the citation "§1.132-1T Q/A-4a(f)" and adding in its place the citation "§1.132-5T(g)".

7. Paragraph (b)(3) is amended by removing from the last sentence the citation "§1.132-1T Q/A-4a(f)" and adding in its place the citation "§1.132-5T(g)(3)".

8. Paragraph (e)(3) is amended by removing the citation "§1.61-2T Q/A-11" and adding in its place the citation "§1.61-2T(d)(1)(ii)".

9. Paragraph (e)(4) is amended by removing the citation "§1.61-2T Q/A-20" and adding in its place the citation "§1.61-2T (e)(2)".

Par. 14. The authority for Part 602 continues to read as follows:

26 U.S.C. 7805.

Par. 15. Section 602.101(cc) is amended by inserting in the appropriate place in the table "1.61-2T . . . 1545-0771; 1.132-2T . . . 1545-0771; and 1.132-5T . . . 1545-0771".

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved: December 11, 1985.

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on December 18, 1985, 11:08 a.m., and published in the issue of the Federal Register for December 23, 1985, 50 F.R. 52281).

Section 132.—Certain Fringe Benefits

26 CFR 1.132-1T: Exclusion from gross income of certain fringe benefits (Temporary).

Whether certain fringe benefits are included in gross income. See T.D. 8063, page 4.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Taxation of Fringe Benefits and Exclusions From Gross Income for Certain Fringe Benefits

LR-216-84

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary regulations relating to the taxation of fringe benefits. The text of those temporary regulations serves as the comment document for this proposed rulemaking.

DATES: Written comments and requests for a public hearing must be mailed or delivered by February 21, 1986. Except to the extent otherwise provided, the regulations are proposed to be effective as of January 1, 1985.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-216-84 and LR-37-85), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service, (202-566-3918, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary regulations * * * [on page 4, this Bulletin] amend Parts 1 and 602 of Title 26 of the Code of Federal Regulations. The temporary regulations are designated by a "T" following their section citation. The final regulations, which this document proposes to base on those temporary regulations, would amend Parts 1 and 602 of Title 26 of the Code of Federal Regulations.

The regulations provide guidance on the tax treatment of taxable and nontaxable fringe benefits, including the valuation of taxable fringe benefits for purposes of income and employment tax reporting and withholding. The regulations provide special rules for valuing employer-provided automobiles, use of employer-provided aircraft, free or discounted flights on commercial airlines, and meals provided at employer-operated eating facilities. The regulations also provide rules relating to the exclusions from gross income for certain fringe benefits and applicable nondiscrimination rules.

Section 61 of the Internal Revenue Code of 154 (the Code) was amended, and section 132 was added to the Code, by section 531 of the Tax Reform Act of 1984 (98 Stat. 877) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 385]. Temporary and proposed regulations were published in the FEDERAL REGISTER on January 7, 1985 (50 FR 747, 836) [T.D. 8004, LR-216-84, 1985-1 C.B. 23, 655]. These regulations were later amended in the FEDERAL REGISTER on February 20, 1985 (50 FR 7038, 7073) [T.D. 8009, LR-216-84, 1985-1 C.B. 82, 657].

Subsequently, Public Law 99-44 (Repeal of Contemporaneous Recordkeeping Requirements) [1985-34 I.R.B. 22] affected some of the proposed and temporary regulations published in February. To implement the provisions of Public Law 99-44, the Service withdrew the affected proposed and temporary regulations published in February (50 FR 46,004, 46,086) [T.D. 8060, LR-145-84 and LR-216-84, 1985-49 I.R.B. 5, 20] and published new proposed and temporary regulations on November 6, 1985 (50 FR 46,006, 46,087) [T.D. 8061, LR-216-84, 1985-46 I.R.B. 7, 48]. This document replaces portions of the previously issued proposed regulations.

Many comments were received from the public concerning the provisions in the proposed and temporary regulations published earlier this year. In addition, on April 16, 17, and 18, 1985, the Internal Revenue Service (Service) held public hearings concerning the temporary and proposed regulations. In response to the comments and the statements made at the public hearings, the regulations have been amended. Due to the extent of the amendments, the Service is issuing the regulations in temporary rather than final form. This document contains the cross-reference notice of proposed rulemaking to provide the public with an opportunity to comment on the revised provisions of the regulations before they become final. The Service expects to hold public hearings on the proposed regulations early next year.

For the text of the temporary regulations, see FR Doc. [T.D. 8063] published * * * [on page 4, this Bulletin]. The preamble to the temporary regulations contains a summary of the provisions of these regulations.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required.

Although this document is a notice of proposed rulemaking that solicits public comments, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, no Regulatory Flexibility Analysis is required by 5 U.S.C. chapter 6.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. When the public hearing is scheduled, notice of the time and place will be published in the FEDERAL REGISTER.

Comments are particularly invited concerning the administrability and appropriateness of the special rules contained in the temporary regulations relating to valuing the availability of employer-provided automobiles, the personal use of employer-provided vehicles for commuting, flights on employer-provided aircraft, free or discounted flights on commercial airlines, and meals provided at employer-operated eating facilities for employees.

With regard to the automobile special valuation rule, comments are requested concerning the use of a four-year, level-payment lease term as the basis of the Annual Lease Value Table.

(For a further discussion of this rule, see the preamble to the temporary regulations * * * [on page 4, this Bulletin].)

The proposed regulations provide guidance on valuing an automobile for purposes of determining the Annual Lease Value. In particular, the proposed regulations provide that for this purpose the value of an automobile does not include the value of specialized equipment which is not susceptible to personal use or of a telephone. An example of such equipment would be permanent shelving custom designed to hold special business tools. This provision does not mean that any property susceptible to personal use which is in an automobile must be valued as part of the automobile. The regulations are not intended to address the treatment of property which, although susceptible to personal use, is not commonly included in an automobile but when included in an automobile is commonly used for business while the automobile is being used for personal purposes. An example of such property is a car telephone, which may be used for business purposes while the car is being used for personal purposes (e.g., a business call while an employee is commuting to work). Comments are requested as to what other property falls into this category and as too the appropriate tax treatment for personal use of such property.

The vehicle cents-per-mile rule may be used to value the personal use of employer-provided vehicles regularly used in the employer's business if the value of the vehicle does not exceed $12,800 (for 1985). Comments are requested concerning (1) the need for further definition of the regularly used in business standard, (2) suggestions for such a definition, and (3) the appropriateness of and suggestions for refining the alternative mileage rule for use of the vehicle cents-per-mile rule.

Comments are requested concerning the definitions of Federal officers and executive officers at the state and local levels, for purposes of determining who is a control employee and thus ineligible to use the commuting special valuation rule.

Comments are also requested relating to the tax treatment of so-called "bonus" programs (such as "frequent flier" programs) under which a company provides benefits (such as free flights, automobile rentals, and hotel rooms) to their customers on the basis of the amount of business the customer does with the company. The issue of tax treatment arises when, for example, the business that gives rise to the benefits or bonuses is paid for by the customer's employer rather than the customer (i.e., business flights or hotel rooms are paid for by the employer and the company awards the bonus flight or hotel room to the employee). Comments are requested on the need for special rules relating to the valuation of the benefits, the administrability of either withholding on or reporting the value of such benefits, and the appropriate party to charge with the responsibility for reporting. Comments are specifically requested regarding whether the benefits should be regarded as "wages" subject to withholding.

In August 1985, the Service announced rules relating to reporting and withholding on the value of fringe benefits (Announcement 85-113, 1985-31 I.R.B. 31, August 5, 1985). Comments are requested relating to those withholding and reporting rules.

Collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. Comments on those requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on those requirements to OMB also send copies to the Service.

DRAFTING INFORMATION

The principal author of these regulations is Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations on matters of both substance and style.

Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 18, 1985, 11:09 a.m., and published in the issue of the Federal Register for December 23, 1985, 50 F.R. 52333)

Withdrawal of Notice of Proposed Rulemaking

Taxation of Fringe Benefits

LR-216-84

SUMMARY: This document withdraws portions of the notice of proposed rulemaking by cross-reference to temporary regulations published in the FEDERAL REGISTER for January 7, 1985 (50 FR 836) [LR-216-84, 1985-1 C.B. 655], February 20, 1985 (50 FR 7073) [LR-216-84, 1985-1 C.B. 657], and November 6, 1985 (50 FR 46,006) [T.D. 8061, 1985-46 I.R.B. 7], relating to the taxation of fringe benefits. The text of the temporary regulations under sections 61 and 132 served as the comment document for the notice of proposed rulemaking. * * * [T]he Internal Revenue Service is removing portions of those temporary regulations. This document withdraws portions of the notice of proposed rulemaking that relate to the removed portions of the temporary regulations. Changes to the applicable tax law were made by section 531 of the Tax Reform Act of 1984 (98 Stat. 877) [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 385].

DATES: The withdrawal of portions of the notice of proposed rulemaking is effective as of January 1, 1985.

FOR FURTHER INFORMATION CONTACT: Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service, (202) 566-3918, not a toll-free call.

SUPPLEMENTARY INFORMATION

BACKGROUND

Section 61 was amended and section 132 was added to the Internal Revenue Code of 1954 (Code) by section 531 of the Tax Reform Act of 1984 (98 Stat. 877). Temporary regulations published in the FEDERAL REGISTER for January 7, 1985 (50 FR 747) [T.D. 8004, 1985-1 C.B. 23], amended the Income Tax Regulations (26 CFR Part 1) to reflect the changes in the law relating to the taxation of fringe benefits. These regulations were later amended in the FEDERAL REGISTER for February 20, 1985 (50 FR 7038) [T.D. 8009, 1985-1 C.B. 82], and November 6, 1985 (50 FR 46,006) [T.D. 8061, 1985-46 I.R.B. 7].

Many comments were received on the proposed and temporary regulations published during 1985. In addition, on April 16, 17, and 18, 1985, the Internal Revenue Service held public hearings concerning the provisions of the proposed regulations. In response to the comments and the statements made at the public hearings, the rules provided in the proposed and temporary regulations have been amended. Due to the extent of the amendments, the regulations have been issued in temporary rather than final form. In addition, the temporary regulations * * * [on page 4, this Bulletin] also serve as the comment document for a notice of proposed rulemaking * * * on page 40, this Bulletin]. Because the rules are being reissued as proposed and temporary regulations rather than final regulations, portions of the previously published notice of proposed rulemaking and temporary regulations must be withdrawn. The portion of the temporary and proposed regulations relating to the election to aggregate lines of business for purposes of certain fringe benefit exclusions under section 4977 of the Code is not withdrawn.

DRAFTING INFORMATION

The principal author of this document is Annette J. Guarisco of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing this document on matters of both substance and style.

The proposed amendments to 26 CFR Part 1 under § 1.61-2T and §1.132-1T published in the FEDERAL REGISTER for January 7, 1985, February 20, 1985, and November 6, 1985, are hereby withdrawn.

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on December 18, 1985, 11:10 a.m., and published in the issue of the Federal Register for December 23, 1985, 50 F.R. 52333).

Reporting of Mortgage Interest Payments

Announcement 86-3

This announcement concerns the reporting of mortgage interest payments under section 6050H of the Internal Revenue Code. Section 6050H provides that persons who are engaged in a trade or business and receive at least $600 of interest on a mortgage in a calendar year from an individual must report the amount of interest received to the Internal Revenue Service (Service) and to the person from whom the interest was received. The reporting requirement is effective for interest received after December 31, 1984.

On August 20, 1985, the Service published proposed and temporary regulations relating to mortgage interest reporting (50 FR 33551, 33529). A public hearing concerning these regulations is scheduled for January 7, 1986.

The Service has decided to modify certain provisions of the temporary regulations as they relate to the reporting of mortgage interest received in 1985. In addition, the Service intends to clarify the application of certain other provisions of the temporary regulations. These modifications and clarifications are discussed below. Taxpayers may rely on this announcement until publication of final regulations under section 6050H.

For purposes of this announcement, persons required to report under section 6050H are referred to as "interest recipients," and persons from whom interest is received are referred to as "borrowers."

(1) *Points*

The temporary regulations provide that points are not to be reported as interest received (§1.6050H-1T Q/A-17(c)).

For 1985, however, if an interest recipient cannot, from the records used to prepare its mortgage interest reports, exclude the portion of interest that represents points in order to report interest received in the year, the recipient may report the points as part of interest. An interest recipient who reports an amount as interest that may include points must provide the borrower with the notice described in section (4)(a), in the manner described in section 4(d), of this announcement.

(2) *Other prepaid interest*

The temporary regulations also provide that prepaid interest is not reportable as interest received (§1.6050H-1T Q/A-17(c)). Prepaid interest is interest that a borrower pays in a calendar year which has not properly accrued as of the end of the year. Prepaid interest is not deductible by the borrower in the year of prepayment (see section 461(g) of the Code).

For 1985, if an interest recipient cannot, from the records used to prepare its mortgage interest reports, exclude prepaid interest in order to report interest received in the year, the interest recipient may report prepaid interest as part of interest received. An interest recipient who reports prepaid interest as interest received must provide the borrower with the notice described in section (4)(b), in the manner required by section 4(d), of this announcement.

(3) *Rule of 78's method of accounting*

Interest recipients have asked whether the Rule of 78's method of accounting should be used to determine the amount of reportable interest received from the borrower if the interest recipient calculates interest earned on the mortgage under this method.

The Rule of 78's method is permitted to be used to determine interest earned or paid for federal income tax purposes only in the case of a self-amortizing consumer loan that requires level payments, at regular intervals (at least annually), over a period not in excess of five years (with no balloon payment at the end of the loan term), and only when the loan agreement provides for use of the Rule of 78's method to determine interest earned (see Rev. Proc. 83-40, 1983-1 C.B. 774, and Rev. Rul. 83-84, 1983-1 C.B. 97).

Interest recipients who are permitted by Rev. Proc. 83-40 to use the Rule of 78's method to calculate interest earned with respect to a transaction may report interest earned under the Rule of 78's method on that transaction as interest received from the borrower. The interest recipient must provide the borrower with the notice described in section (4)(c), in the manner reqquired by sectin (4)(d), of this announcement.

(4) *Notice to borrowers*

(a) *Points*

Interest recipients who for 1985 report an amount which may include points as interest received in 1985 must clearly notify the borrower (i) that the amount reported may include points; (ii) that points actually paid in respect of debt incurred in connection with the purchase or improvement of the borrower's principal residence that is secured by the residence are deductible in full in the year of payment only if—

(A) the payment of points is an established business practice in the area in which the debt is incurred, and

(B) the amount of the payment does not exceed the amount generally charged in the area; and

(iii) that, if the borrower deducted points in the year of payment, amortized points reported as received by the interest recipient in 1985 are not deductible by the borrower for 1985.

(b) *Prepaid interest*

Interest recipients who report interest prepaid in 1985 as interest received in 1985 must notify the borrower that prepaid interest is not deductible until the year in which it is properly accrued.

(c) *Rule of 78's method of accounting*

Interest recipients who properly report interest received under the Rule of 78's method must notify the borrower that the Rule of 78's method was used to calculate interest received and that the borrower may not deduct this amount unless the borrower is also properly using the Rule of 78's method to determine interest deductions. Interest recipients should notify borrowers that the Rule of 78's method may only be used in the circumstances described in section 3 above.

(d) *Manner of providing notice*

Notices given to borrowers under these guidelines must accompany the statement required to be furnished to the borrower under the regulations. The interest recipient may provide the notice on the front or reverse side of the statement or on a separate attachment. The notification should not be placed on the Form 1098, "Mortgage Interest Statement," that the interest recipient sends to the Service.

(5) *Interest received by cooperative housing corporations*

The regulations provide that cooperative housing corporations must report, as interest received in a trade or business, the amount of the tenant-stockholder's proportionate share of interest. This requirement will be suspended for calendar year 1985. Thus, cooperative housing corporations may, but are not required to, report under section 6050H with respect to such amounts for 1985.

(6) *Interest received from nonresident aliens*

the regulations do not provide an exception from the reporting requirement for interest received from nonresident alien individuals. This announcement clarifies that interest recipients who receive interest from nonresident alien individuals may, but are not required to, report under section 6050H with respect to such interest for 1985.

The evidence required to determine whether an individual is a nonresident alien depends on whether the interest is paid inside or outside the United States. The place of payment of interest is considered to be where the payor completes the acts necessary to effect payment. However, an amount paid by transfer to an account maintained by the interest recipient in the United States or by mail to a United States address is considered to be paid within the United States.

Interest recipients who receive interest that is paid outside the United States need not report if the documentary evidence standard provided in paragraph (iii) of §35a.9999-4T (Q/A-5) of the Temporary Employment Tax Regulations under the Interest and Dividend Tax Compliance Act of 1983 is satisfied.

Domestic or foreign interest recipients who receive interest that is paid inside the United States must secure a Form W-8 "Certificate of Foreign Status" from an individual in order to be excepted from reporting with respect to that individual.

The treatment of nonresident aliens for future years is still under consideration and comments are invited.

(7) *Interest received on behalf of another*

The regulations provide that interest received on behalf of another must be reported by the first person receiving the interest (§1.6050H-1T (Q/A-11)). Reporting is required regardless of whether the person for whom the interest is received would be required to report.

For calendar year 1985, any person receiving payments on behalf of another who does not know the portion of the payment that represents interest need not report. Thus, for example, a savings and loan institution receiving payments on behalf of a customer under an arrangement that requires the institution to deposit the payments directly into the customer's account need not report with respect to the amounts received in calendar year 1985 if the institution does not know the amount of the payments that represents interest.

19-year ACRS Tables to be Used With Form 4562, Depreciation and Amortization

Announcement 86-5

The attached cost recovery tables have been developed to provide guidance to taxpayers depreciating real property placed in service after May 8, 1985. Pub. L. 99-121, 1985-48 I.R.B. 11, increased the recovery period for real property placed in service after May 8, 1985 to 19 years. These tables and additional tables applicable to 19-year real property will be published in a future Revenue Procedure.

Table 1 provides the rates to be used generally with respect to real property (other than low-income housing) placed in service after May 8, 1985, and is based on the use of the mid-month convention and the 19-year 175-percent declining balance method, later switching to the straight line method to maximize the annual depreciation deduction.

Table 2 provides the rate to be used generally with respect to real property (other than low-income housing) placed in service after May 8, 1985, for which an optional 19-year straight line method is elected. It is also based on the use of the mid-month convention.

In general, in the case of any building placed in service before May 9, 1985, components of such buildings placed in service after May 8, 1985 shall be treated as 19-year real property.

Taxpayers with fiscal years beginning in 1984, who during that year placed in service 19-year real property (real property placed in service after May 8, 1985), should use the 1984 Form 4562 Depreciation and Amortization. They should enter the recovery deduction on Line 2(g) and enter "19 YRS" for the recovery period in Col-

umn D, unless an alternate period is elected.

Fiscal year taxpayers who have filed a 1984 tax return without taking into account the rates applicable to 19-year real property should file an amended return.

For tax years beginning in 1985, taxpayers should enter 19-year real property in the space provided below line 4g on the 1985 Form 4562. The 1985 instructions for Form 4562 should be used with these tables, noting that these tables apply generally to real property placed in service after May 8, 1985.

ACRS Cost Recovery Tables for 19-Year Real Property

1. *19-Year Property (19-Year 175% Declining Balance) (Assuming Mid-Month Convention)*

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Edward L. Lambert	Rancho Mirage, CA	Certified Public Accountant	From November 6, 1985 Until January 8, 1990
Benjamin Ostfield	Minneapolis, MN	Attorney and Certified Public Accountant	Indefinite from November 20, 1985
Kenneth D. Short	Ellicott City, MD	Attorney	Indefinite from November 6, 1985

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

INCOME TAX

Rev. Rul. 86-5, page 4.

Residential energy credit. A window covering and its integral edge mounting system is insulation under section 23(c)(3); expenditures for the system and its installation qualify for the residential energy tax credit under section 23(a).

Rev. Rul. 86-6, page 4.

Tax on income of foreign corporations not connected with United States business. A domestic corporation that owns all of the stock of a Netherlands Antilles corporation may withdraw a portion of its paid in capital contribution such that the subsidiary's debt-to-equity ratio is increased from 3-to-1 to 5-to-1 without jeopardizing the subsidiary's separate corporate status.

Rev. Rul. 86-7, page 6.

Regulated futures contracts; qualified board or exchange. The Mercantile Division of the Montreal Exchange is a qualified board or exchange for purposes of section 1256 of the Code.

Rev. Rul. 86-8, page 6.

Regulated futures contracts; nonequity option. An option on the High Technology Index of the Pacific Stock Exchange is a nonequity option for purposes of section 1256 of the Code.

Rev. Rul. 86-9, page 6.

Obsolete rulings. Certain rulings involving section 1032(a) of the Code are declared obsolete with respect to options acquired or lapsing after July 18, 1984, the effective date of section 57(a) of the Tax Reform Act of 1984.

LR-92-73, page 42.

Proposed amendments to the regulations relate to the recapture of investment credit for mass assets.

Announcement 86-4, page 51.

Final regulations under section 170 of the Code relating to charitable contributions of certain securities valued over $5,000 will modify the definition of publicly traded securities in section 1.170A-13T(c)(7)(iv) of the temporary regulations.

Announcement 86-6, page 52.

Portions of the Enterprise Standard Industrial Classification Manual (ESIC Manual) are reprinted. The codes provided in the ESIC Manual are used to determine an employer's lines of business for purposes of the availability of exclusions from gross income for certain fringe benefits under section 132 of the Code.

EMPLOYMENT TAXES

Rev. Rul. 86-10, page 7.

Withholding; failure to withhold tax or file return. An employer that inadvertently fails to deduct and withhold income taxes may make an interest-free adjustment if the employer files timely supplemental returns reporting the underpayment and the employee files an income tax return and pays the tax due. Rev. Rul. 58-577 modified.

ADMINISTRATIVE

Rev. Proc. 86-5, page 9.

Substitute printed, computer-prepared and computer-generated tax forms and schedules. Requirements are set forth for privately designed and printed federal tax return forms and the conditions under which the Service will accept computer-prepared and computer-generated tax forms and schedules. Rev. Proc. 85-3 superseded.

Announcement 86-7, page 67.

Publication 1212, List of Original Issue Discount Instruments (Rev. Dec. 85), is supplemented to provide information to banks, brokers, and other middlemen regarding Treasury bills issued at a discount and maturing during January through June 1986. Section II of Publication 1212 is also supplemented to include maturity dates and amounts of original issue discount for use *solely* by brokers and other middlemen in preparing information returns for zero coupon instruments issued under the Treasury's STRIP program or backed by Treasury securities.

Finding Lists begin on page 71
Announcement of Notice of Proposed Rulemaking on page 69.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy. $82.00 a year subscription. Foreign—$2.19 a single copy. $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 23.—Residential Energy Tax Credit

26 CFR 1.44C-2: Definitions.

Residential energy credit. A window covering and its integral edge mounting system is insulation under section 23(c)(3); expenditures for the system and its installation qualify for the residential energy tax credit under section 23(a).

Rev. Rul. 86-5

ISSUE

Whether the window covering system described below is "insulation" within the meaning of section 23(c)(3) (formerly section 44C) of the Internal Revenue Code so that expenditures for the system and its installation qualify for the residential energy tax credit under section 23(a).

FACTS

Taxpayer purchased a moveable, textile-based window covering that was installed in the taxpayer's principal residence. The residence was constructed before April 20, 1977. The product is a four-ply quilted window covering consisting of a vapor barrier and a layer of polyester batting sandwiched between two layers of a polyester cotton blend fabric, one of which is white. Each layer of the product, except the face fabric, is designed to enhance its insulating properties. The vapor barrier reduces heat transfer by preventing the passage of water vapor, the batting reduces conductive heat transfer, and the white fabric reflects radiant energy. Included as an integral part of the product is a draft resistant mounting and edge sealing system that reduces air infiltration.

Tests performed on the window covering system by an independent laboratory, in accordance with a recognized industrial standard, determined that the system's R-value is five times that of an ordinary drape. The R-value is a measure of the thermal insulating value of an item. The higher the R-value the better the insulating effect.

The cost of the window covering system greatly exceeds the cost of a decorative fabric drapery of equal dimensions. Consequently, it is not sold primarily for its decorative aspects as it could not be competitive with decorative drapes on the basis of either cost or aesthetics. Unlike decorative drapes, the system is marketed primarily for its insulating properties. The system can reasonably be expected to remain in operation for at least 3 years.

LAW AND ANALYSIS

Section 23(a) of the Code provides a credit for qualified energy conservation expenditures.

Section 23(c)(1) of the Code defines "energy conservation expenditure" to include an expenditure for insulation or any other energy-conserving component (or for the original installation of the insulation or other component) installed in or on the taxpayer's principal residence, but only if the construction of the residence was substantially completed before April 20, 1977.

Section 1.44c-2(c) of the Income Tax Regulations provides that the term "insulation" means any item that satisfies all of the following conditions:

(1) The item is specifically and primarily designed to reduce the heat loss or gain of a delling in which it is installed. To qualify as insulation, the item must be installed between a conditioned area and a nonconditioned area. Thus, for example, awnings do not qualify as insulation. For purposes of this section, the term "conditioned area" means an area that has been heated or cooled by conventional or renewable energy source means. Insulation includes materials made of fiberglass, rock wool, cellulose, urea based foam, urethane, vermiculite, perlite, polystyrene, and extruded polystyrene foam.

(2) The original use of the item begins with the taxpayer.

(3) The item can reasonably be expected to remain in operation at least three years.

(4) The item meets the applicable performance and quality standards prescribed in section 1.44C-4 of the regulations (if any) that are in effect at the time the taxpayer acquires the item.

The section also provides that the term "insulation" does not include items whose primary purpose is not insulation (for instance, items whose primary function is structural, decorative, or safety related). For example, carpeting, drapes (including linings), shades, wood paneling, fireplace screens (including those made of glass), new or replacement walls (except for qualifying insulation therein) and exterior siding do not qualify although they may have been designed in part to have an insulating effect.

The provision in the regulations that denies the credit to drapes does not apply to the window covering system at issue here. The test results indicate that the manufacturer considered all aspects of heat transfer, including air infiltration, when it designed the product and its sealing system. This resulted in a multi-layered design in which each layer and the mounting method reduce heat flow through the system and provide protection from the outside environment. These features are inherent in the design of the system and distinguish it from an insulated drape. In addition, the system costs more than a drape, provides draft resistance, and has a significantly greater R-value than a drape.

HOLDING

The window covering and its integral edge mounting system installed by the taxpayer is insulation within the meaning of section 23(c)(3) of the Code. Expenditures for the system and its installation qualify for the residential energy tax credit under section 23(a).

Section 871.—Tax on Nonresident Alien Individuals

26 CFR 1.871-7: Taxation of nonresident alien individual not engaged in a U.S. business.

A domestic taxpayer that owns all of the stock of an Antilles corporation may withdraw a portion of its paid in capital contribution such that the Antilles corporation's debt-to-equity ratio is increased from 3-to-1 to 5-to-1 without jeopardizing the Antilles corporation's separate corporate existence. See Rev. Rul. 86-6, below.

Section 881.—Tax on Income of Foreign Corporations not connected with United States Business

(Also Section 871; 1.871-1)

Tax on income of foreign corporations not connected with United States

business. A domestic corporation that owns all of the stock of a Netherlands Antilles corporation may withdraw a portion of its paid in capital contribution such that the subsidiary's debt-to-equity ratio is increased from 3-to-1 to 5-to-1 without jeopardizing the subsidiary's separate corporation status.

Rev. Rul. 86-6

ISSUE:

If a domestic corporation owns 100 percent of the stock of a corporation organized under the laws of the Netherlands Antilles (Antilles) and if the domestic corporation withdraws a portion of its equity capital invested in that Antilles subsidiary and thus increases the subsidiary's debt-to-equity ratio from 3-to-1 to 5-to-1, does this course of action jeopardize the subsidiary's separate corporate status for purposes of section 127(g)(3) of the Tax Reform Act of 1984 (the Act), 1984-3 (Vol. 1) C.B. 1, 160, and the principles set forth in the rulings cited therein.

FACTS:

P is a domestic bank holding company. In 1980, *P* organized *S* in the Netherlands Antilles for the purpose of raising funds in the Eurodollar market for *P*. S is a controlled foreign corporation (CFC).

S sold 15 million dollars of notes (Euronotes), denominated in United States dollars, to foreign investors during 1981. These notes were unconditionally guaranteed by *P*, and all of the net proceeds from the sale of the Euronotes were loaned to *P* by *S* in exchange for notes from *P*. The notes from *P* had the same terms as, and a slightly higher interest rate than, the Euronotes issued by *S*.

Prior to the Euronote issue, *P* contributed equity in the form of 5 million dollars to *S* such that immediately following the Euronote issue the debt to equity ratio of *S* was no more than 3 to 1 (that is, the face amount of *S*'s outstanding Euronote obligations was no more than three times the equity of *S*). *S* then placed this equity contribution in short term bank deposits with *Y*, an unrelated domestic corporation. Neither *P* nor any of its affiliates have any loans outstanding with *Y*.

In November 1984, in order to meet further cash requirements, *P* withdrew 2 million dollars of its previously contributed equity from *S*. *S*'s remaining equity capital, measured by the amount of *P*'s capital contribution of United Stats dollars that was being held in short term bank deposits in the United States, was 3 million dollars, and at no time was this capital contribution less than one-fifth of the face amount of *S*'s outstanding Euronote obligations.

LAW AND ANALYSIS:

Sections 871(a)(1)(A) and 881(a)(1) of the Internal Revenue Code, except as provided in the portfolio interest exemption in sections 871(h) and 881(c), respectively (added to the Code by section 127 of the Act), generally impose a 30 percent tax on any interest received by non-United States persons from sources within the United States, to the extent such interest is not effectively connected with the conduct of a trade or business within the United States. Section 1441(a) and 1442(a) provide generally that such tax is to be deducted and withheld at the source of the income.

A special grandfather rule in section 127(g)(3)(A) of the Act provides that, for purposes of the Code, payments of interest on a United States affiliate obligation to an applicable CFC in existence on or before June 22, 1984, shall be treated as payments to a resident of the country in which the CFC is incorporated.

Sections 127(g)(3)(C)(i) and 121(b)(2)(D) of the Act provide that the term "applicable CFC" means any controlled foreign corporation (within the meaning of section 957) which was in existence on the date of interest payment and the principal purpose of which on such date consisted of the issuing of CFC obligations or the holding of short-term obligations and lending the proceeds of such obligations to affiliates.

Section 957 of the Code provides, in part, that the term "controlled foreign corporation" means any foreign corporation of which more than 50 percent of the total combined voting power of all classes of stock entitled to vote is owned by United States shareholders on any day during the taxable year of such foreign corporation.

Sections 127(g)(3)(C)(ii) and 121(b)(2)(F) of the Act provide that the term "United States affiliate obligation" mans any obligation of (and payable by) a United States affiliate which was issued before June 22, 1984.

Section 121(b)(2)(E) of the Act defines the term "United States affiliate" to mean any United States person that is an affiliate (that is, any person that is a related person within the meaning of section 482 of the Code) of the "applicable CFC.

Section 127(g)(3)(B) of the Act provides that section 127(g)(3)(A) shall not apply to any "applicable CFC which did not meet requirements which are based on the principles set forth in Rev. Rul. 69-377, 1969-2 C.B. 231; Rev. Rul. 69-501, 1969-2 C.B. 233; Rev. Rul. 70-645, 1970-2 C.B. 273; and Rev. Rul. 73-110, 1973-1 C.B. 454. The four rulings concerned the Interest Equalization Tax (IET) and were revoked by Rev. Rul. 74-464, 1974-2 C.B. 46, when the IET expired (June 30, 1974).

Rev. Ruls. 69-377, 69-501, and 70-645 all concerned whether debt obligations issued by domestic or foreign subsidiaries of domestic parent corporations were bona fide. Under the facts of each of these revenue rulings, the bona fide nature of the debt obligations was generally dependent on the subsidiary maintaining a debt-to-equity ratio of no more than 5-to-1.

Rev. Rul. 73-110 concerned a domestic parent corporation that purchased all of the capital stock of its foreign financing subsidiary for United States dollars in an amount equal to 20 percent of the principal amount of the total debt obligations to be issued by the subsidiary. The parent made additional contributions in dollars to the subsidiary's equity capital each time the latter incurred additional indebtedness so that the subsidiary's capital would remain at least 20 percent of the principal amount of its outstanding indebtedness.

The subsidiary received Swiss francs in return for its debt obligations. During a taxable year, the financing subsidiary reduced the amount of its principal indebtedness and the domestic parent withdrew part of its equity capital contribution to maintain a five to one debt-to-equity ratio. The reduction in equity capital was computed on the basis of the currency exchange rate in existence at the time the principal debt of the subsidiary was incurred. Fluctuations in the value of the United States dollar relative to the Swiss franc resulted in an increase in the value of the Swiss franc. Thus, when computed on the basis of the actual currency exchange rate prevailing at the time of the withdrawal, the debt-to-equity capital ratio was, after the withdrawal by the parent, greater than five-to-one.

Rev. Rul. 73-110 held that in determining whether the aggregate face amount of the subsidiary's outstanding indebtedness never exceeds five times the amount of its equity capital, the ratio must be periodically recomputed on the basis of the currency exchange rate in existence at the time of any of the following occurrences: (1) additional borrowings by the financing subsidiary and/or (2) withdrawals from the subsidiary's equity capital by its parent for any reason, such as a reduction in the subsidiary's indebtedness.

In order to meet its cash requirements and because of the passage of section 127(g)(3) of the Act, *P* decided to reduce its equity contribution to *S* by 2 million dollars. This reduction increased *S*'s debt-to-equity ratio from 3-to-1 to 5-to-1.

Rev. Rul. 73-110 contemplated that periodic adjustments may be made to a financing subsidiary's equity capital. Neither Rev. Rul. 73-110 nor the other revenue rulings cited above indicated that the debt of a financing subsidiary could be recharacterized as the debt of the parent merely on the grounds that the subsidiary's debt-to-equity ratio had increased from 3-to-1 to 5-to-1 and was maintained at a ratio of 5-to-1.

For the limited purpose of measuring *S*'s debt-to-equity ratio to determine if that ratio meets the requirements of section 127(g)(3) of the Act, the dollar-denominated Euronotes of *S* are taken into account at face value in accordance with Rev. Rul. 73-110. The equity capital of *S*, for this same limited purpose, is the amount of United States dollars contributed as equity to *S* to the extent that this dollar equity contribution has not subsequently been withdrawn from *S*.

In the present situation, *P* withdrew 2 million dollars of its original 5 million dollar capital contribution, leaving *S* with an equity capital amount of 3 million dollars. Because *S*'s liabilities are computed at face value, they remained at 15 million dollars. Thus, after the transaction, *S* had a debt-to-equity ratio that did not exceed 5-to-1.

HOLDING:

P may withdraw equity capital from *S* without jeopardizing *S*'s separate corporate status or the bona fide nature of *S*'s indebtedness under section 127(g)(3) of the Act and the principles set forth in the revenue rulings cited therein, provided that immediately following the withdrawal of a portion of *S*'s equity capital *S*'s indebtedness does not exceed five times the remaining equity capital.

Section 1032.—Exchange of Stock for Property

26 CFR 1.1032-1: Disposition by a corporation of its own capital stock.

Obsolete rulings Certain rulings involving section 1032(a) of the Code are declared obsolete with respect to options acquired or lapsing after July 18, 1984, the effective date of section 57(a) of the Tax Reform Act of 1984.

Rev. Rul. 86-9

Certain rulings involving section 1032(a) of the Internal Revenue Code are declared obsolete with respect to options acquired or lapsing after July 18, 1984, the effective date of section 57(a) of the Tax Reform Act of 1984, 1984-3 (Vol. 1) C.B. 1, 82, which amended section 1032(a).

Periodically, the Internal Revenue Service has declared obsolete rulings that are not considered determinative with respect to future transactions because the applicable statutory provisions have been changed or repealed.

In accordance with this policy, the Internal Revenue Service has reviewed revenue rulings published in the Internal Revenue Bulletin regarding section 1032(a) of the Code to determine whether they are applicable to transactions after July 18, 1984, and has determined that the following revenue rulings are obsolete and are not determinative with respect to stock warrants that were acquired, or that lapse, after July 18, 1984, in tax years ending after that date:

Rev. Rul. 72-198, 1972-1 C.B. 223
Rev. Rul. 77-40, 1977-1 C.B. 248
Rev. Rul. 78-73, 1978-1 C.B. 265
Rev. Rul. 80-134, 1980-1 C.B. 187.

Section 1256.—Section 1256 Contracts Marked To Market

Regulated futures contracts: qualified board or exchange. The Mercantile Division of the Montreal Exchange is a qualified board or exchange for purposes of section 1256 of the Code.

Rev. Rul. 86-7

ISSUE

Whether the Mercantile Division of the Montreal Exchange is a qualified board or exchange within the meaning of section 1256(g)(7)(C) of the Internal Revenue Code.

LAW

Section 1256(g)(7) of the Code provides that the term "qualified board or exchange" means—

(A) a national securities exchange which is registered with the Securities and Exchange Commission,

(B) a domestic board of trade designated as a contract market by the Commodity Futures Trading Commission, or

(C) any other exchange, board of trade, or other market which the Secretary determines has rules adequate to carry out the purposes of this section.

HOLDING

The Internal Revenue Service has determined that the Mercantile Division of the Montreal Exchange is a qualified board or exchange within the meaning of section 1256(g)(7)(C) of the Code.

Regulated futures contracts; nonequity option. An option on the High Technology Index of the Pacific Stock Exchange is a nonequity option for purposes of section 1256 of the Code.

Rev. Rul. 86-8

ISSUE

Whether an option on the High Technology Index of the Pacific Stock Exchange is a nonequity option within the meaning of section 1256(g)(3) of the Internal Revenue Code.

LAW

Section 1256 of the Code prescribes special rules for reporting gains and losses from "section 1256 contracts."

Section 1256(b) defines the term "section 1256 contract" as any regulated futures contract, any foreign currency contract, any nonequity option, and any dealer equity contract.

Section 1256(g)(3) of the Code provides that the term "nonequity option" means any listed option which is not an equity option.

Section 1256(g)(6)(B) of the Code provides that the term "equity option" does not include any option with respect to any group of stocks or stock index if—

(i) there is in effect a designation by the Commodities Futures Trading Commission of a contract market for a contract based on such group of stocks or index, or

(ii) the Secretary determines that such option meets the requirements of law for such a designation.

HOLDING

The Internal Revenue Service has determined that an option on the High Technology Index of the Pacific Stock Exchange is a nonequity option within the meaning of section 1256(g)(3) of the Code.

Section 3402.—Income Tax Collected At Source

26 CFR 31.3402(d)-1: Failure to withhold.

Whether an employer that inadvertantly fails to deduct and withhold income taxes may make an interest-free adjustment if the employer files timely supplemental returns reporting the underpayment and the employee files an income tax return and pays the tax due. See Rev. Rul. 86-10, this page.

Section 6011.—General Requirement of Return, Statement, or List

26 CFR 1.6011-1: General requirement of return, statement, or list.

Requirements for the reproduction and private design and printing of federal tax return forms and the conditions under which the Service will accept computer-prepared and computer-generated tax forms and substitutes. See Rev. Proc. 86-5, page 9.

Section 6205.—Special Rules Applicable to Certain Employment Taxes

26 CFR 31.6205-1: Adjustment of underpayments.
(Also Sections 3402, 6601; 31.3402(d)-1, 301.6601-1.)

Withholding; failure to withhold tax or file return. An employer that inadvertently fails to deduct and withhold income taxes may make an interest-free adjustment if the employer files timely supplemental returns reporting the underpayment and the employee files an income tax return and pays the tax due. Rev. Rul. 58-577 modified.

Rev. Rul. 86-10

ISSUE

Is interest due from an employer who failed to deduct and withhold income tax from the wages of an employee if the employee subsequently filed an income tax return and paid the tax due, and the employer filed timely supplemental returns reporting the underpayment?

FACTS

An employer inadvertently failed to deduct and withhold income tax from the wages of an employee in 1983, as required under section 3402 of the Internal Revenue Code, and did not report any amount as being withheld from the employee on its Form 941, Employer's Quarterly Federal Tax Return, for any quarter in that year. The employer ascertained the error within the meaning of section 31.6205-1(a)(4) of the Employment Tax Regulations in May 1984, and filed the necessary supplemental returns for all quarters in 1983 by July 31, 1984. The tax that should have been withheld, plus interest, was then assessed. Meanwhile, the employee had filed a timely income tax return for 1983 and paid the tax due. When the employer presented this information to the Internal Revenue Service, the tax assessed against the employer with respect to the supplemental returns was abated in accordance with section 3402(d).

LAW AND ANALYSIS

Section 6205(a) of the Code provides that if less than the correct amount of tax imposed by section 3402 is paid with respect to any payment of wages or compensation, proper adjustments of both the tax and the amount to be deducted must be made, without interest, in the manner prescribed by regulations.

Section 31.6205-1(c)(2)(i) of the regulations sets forth the conditions under which an interest-free adjustment is made if an employer filed a return and reported either no income tax or less than the correct amount of income tax required to be withheld by an employer from the wages of an employee. The employer must adjust the error by either (a) reporting the additional amount due on a return for any quarter in the calendar year in which the wages were paid or (b) reporting the additional amount on a supplemental return for the period in which the wages were paid. Such reporting constitutes an adjustment under section 6205(a) of the Code only if the return or supplemental return is filed on or before the due date for the return for the quarter in which the error is ascertained.

Under section 31.6205-1(a)(4) of the regulations, an error is ascertained, for purposes of section 31.6205-1(c)(2)(i), when the employer has sufficient knowledge of the error to be able to correct it. An employer has such sufficient knowledge if the employer disregards facts with the knowledge that there is a substantial possibility that further inquiry into such facts would result in the employer discovering the error.

Section 31.6205-1(c)(3)(ii) of the regulations provides that, except as provided in section 31.3402(d)-1, any amount reported as an adjustment under section 6205(a) of the Code must be paid, without interest, at the time fixed for reporting the adjustment.

Under section 31.3402(d)-1 of the regulations, if the employer fails to deduct and withhold the tax, but can show that the income tax has been paid against which the tax under section 3402 of the Code may be credited, the tax under section 3402 will not be collected from the employer.

In this case, the employer made a proper and timely adjustment under section 6205 of the Code and section 31.6205-1(c) of the regulations. The tax required to be withheld that was assessed against the employer was abated because the employee's tax liability had been satisfied.

HOLDING

The employer is not liable for interest because the requirements for an interest-free adjustment were met.

EFFECT ON OTHER DOCUMENTS

Rev. Rul. 58-577, 1958-2 C.B. 744, holds, in part, that interest is due from an employer under similar facts. Rev. Rul. 58-577, as modified by Rev. Rul. 66-113, 1966-1 C.B. 244, is further modified.

Section 6601.—Interest on Underpayment, Nonpayment, or Extensions of Time for Payment, of Tax

26 CFR 301.6601: Interest on underpayments

Whether an employer that inadvertantly fails to deduct and withhold income taxes may make an interest-free adjustment if the employer files timely supplemental returns reporting the underpayment and the employee files an income tax return and pays the tax due. See Rev. Rul. 86-10, page 7.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.602: Tax forms and instructions.
(Also Part I, Section 6011; 1.6011-1.)

Rev. Proc. 86-5

SECTION 1. PURPOSE

This revenue procedure states the Internal Revenue Service (the Service) requirements relating to acceptable privately designed and printed or computer-prepared substitute federal tax return forms, (i.e., Forms 1040, 1040A, 1040EZ, 1120, 1120A, 940, 941, etc.) and computer-generated substitute schedules or forms to be attached thereto. It also authorizes the use of reproductions of official forms and gives direction for the proper completion of returns.

SEC. 2. SCOPE

This revenue procedure is the guide for preparing substitutes for most printed, computer-prepared and computer-generated tax forms. This procedure does not include guidance for Form 1040-ES, Form 1042S, Form 5498, Form 1098, the Form 1099 series, Form W-9 and the Form W-2 series. (See Sec. 18 to obtain guidance for the excluded forms.)

SEC. 3. DEFINITIONS

.01 *Substitute Form.* A tax form (or related schedule) that differs in any way from the official version and is intended to replace the entire form that is printed and distributed by the Service. This term also covers those approved substitute forms exhibited in this revenue procedure.

.02 *Printed Form.* A form produced using conventional printing processes. Also, a printed form which has been reproduced by photocopying or similar processes.

.03 *Preprinted Pin-Fed Form.* A printed form that has marginal perforations for use with automated and high-speed printing equipment.

.04 *Computer-Prepared Substitute Form.* A pre-printed form in which the taxpayer's tax entry information has been inserted by a computer, computer-printer or other computer-type equipment, such as word-processing equipment.

.05 *Computer-Generated Substitute Form.* A form that is entirely prepared by the use of a computer printer so that all the line numbers, line captions, and the tax amount data entries are in the same typeface. No graphics usually appear on the form. (Most tax returns requiring signature and establishing tax liability may not be computer generated. Among them are Forms 1040, 1040A, 1040EZ, and 1120.)

.06 *Manually Prepared Form.* A pre-printed reproduced form in which the taxpayer's tax entry information is entered by an individual using a pen, pencil, typewriter, or other non-automated equipment.

.07 *Graphics.* Those parts of a printed tax form that are not tax amount entries or called-for information. Generally, these are line numbers, captions, shadings, instructions, special indicators, borders, rules, and strokes created by typesetting, photo-graphics, photo-composition, etc.

.08 *Acceptable Reproduced Form.* A photocopy of an original form or of an unchanged reproduction proof supplied by the Service. (A reproduction is not a substitute form.)

.09 *Supporting Statement (Supplemental Schedule).* A document providing detailed information to support an entry for a line(s) on an official or approved substitute form and filed with (attached to) a tax return. (A supporting statement is not a tax form and does not take the place of an official form, unless specifically permitted elsewhere in this procedure).

.10 *Specific Form Terms.* The following terms are used throughout this revenue procedure in reference to all substitute forms.

1 *Format.* The overall physical arrangement and general layout of a substitute form, as represented by the official form version.

2 *Sequence.* The same numeric and logical placement order of data, as reflected on the official form version. Sequence is an integral part of the total format requirement.

3 *Line Reference (Code).* The line numbers, letters or alpha-numerics used to identify each captioned line on the official forms; and printed to the immediate left of each caption or data entry field.

4 *Item Caption.* The textual portion of each line on the form, identifying the specific data elements required.

5 *Data Entry Field.* All areas designated on a form for the insertion of data, such as dollar amounts, quantities, responses, check-boxes, etc.

SEC. 4. MESSAGE TO TAX RETURN PREPARERS

.01 If you plan to change or modify *any* tax forms, you must follow these procedures, and, in many cases, you must get official approval before using substitute forms. The Service is continuing a program to identify and contact tax return preparers using unapproved forms which do not conform to this revenue procedure and impede processing of the return.

SEC. 5. HIGHLIGHTS OF PERMITTED CHANGES AND REQUIREMENTS

.01 THINGS YOU *CAN DO* TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS TO MAKE THEM SUITABLE FOR USE AS SUBSTITUTE TAX FORMS WITHOUT PRIOR APPROVAL.

1 You can photocopy any tax form and use it instead of the official one.

2 You can reproduce any current tax form as cut sheets, snap-sets, and marginally-punched, pin-fed forms, so long as you use an official Service version as the master copy. Official versions are supplied by the Service, such as those in the taxpayer's tax package, those in Package X, those printed in revenue procedures, and reproduction proofs sold by the Service.

3 You can adjust the graphics on specified areas of printed forms 1040 and 1040A (and other forms) to allow for computer-printed or word processor fill-in. Only the areas listed in this revenue procedure may be adjusted without specific prior approval.

4 You can print and duplicate the substitute "worksheet-type" versions of Schedules A and B of Form 1040 (see exhibits). The Service will accept these substitute schedules instead of the official versions. These Schedules serve different purposes. One allows the form to contain state tax information which is blocked out before filing with the Service. The other allows the form to be used singly or as part of a snap-set.

.02 THINGS YOU *CANNOT DO* TO INTERNAL REVENUE SERVICE PRINTED TAX FORMS TO MAKE

THEM SUITABLE FOR USE AS SUBSTITUTE TAX FORMS.

1 You cannot, without prior Service approval, change any Internal Revenue Service tax forms or use your own (non-approved) version, unless specifically permitted by this revenue procedure. Only minor changes are permitted to an official tax form, as OPM approval was based on the specific format and content of each form submitted by the Service.

2 You cannot adjust any of the graphics on Forms 1040, 1040A and 1040EZ (except in those areas specified in revenue procedures) without prior approval from the Service.

3 You cannot use your own version of Schedule A (Form 1040) unless you first get it approved. The Service wants only one Schedule A—either yours or the Service's; yours needs prior approval from the Service.

4 With some exceptions, you cannot omit filling out pertinent referenced (numbered or lettered) lines of the official Schedule A (and other tax forms) when attaching a supporting statement. Exceptions to line completion requirements are listed in this revenue procedure.

5 You cannot use your own preprinted label on tax returns filed with the Service. The ONLY label permitted is the one provided the taxpayers in their tax packages. Otherwise, the taxpayer's name, address, and other identifying information must be entered on the return in the spaces provided.

6 You cannot computer-generate the TAX RETURNS THEMSELVES (i.e. forms requiring signature and that establish tax liability; for example, Forms 1040, 1040A, 1040EZ, 1120, 940 and 941). These forms must be preprinted using conventional printing processes, photocopying or similar reproduction processes. The forms may be filled in by a computer, by a word processor, or the like, but the forms themselves must be printed like the Service versions are. First-time users of forms designed using computer graphics must receive prior written approval. (See Exception in Sec. 22).

(a) Schedules are considered to be an integral part of the tax return itself and, therefore, cannot be computer-generated when they have been assigned consecutive page numbers and printed contiguous with page one of the return. Form 706, United States Estate Tax Return is an example of this situation, where Schedules A through P are on pages numbered as part of the basic return and cannot be separately computer-generated.

(b) However, Schedule 1 of Form 1040A is an example of when a schedule can be acceptably computer-generated. Although printed as a continuation of Form 1040A, the two pages of Schedule 1 do not have consecutive page numbers, and may, therefore, be separated from Form 1040A and submitted as a computer-generated substitute schedule.

(c) A "tax return" must remain complete, with its signature covering the entire return including all its assigned or associated (numbered) pages.

7 A few selected Service forms can never be reproduced as substitute forms, because only the official versions are acceptable for filing, due to their use in critical Service programs. These forms specify in their instructions that a substitute cannot be accepted or used in lieu of the prescribed, official form.

(a) Forms 8109 and 8264 are the major forms that currently fall in this excluded category.

.03 THINGS YOU CAN DO TO FILE COMPUTER-PREPARED/ GENERATED FORMS. PRIOR APPROVAL IS NOT REQUIRED.

1 You can duplicate the approved, computer-generated formats of Schedules 1, A, B, C, D, E, F, G, R, SE, and W (of this revenue procedure), and use them without prior approval.

2 You can fill in official Service supplied forms using computer or word-processing equipment. Most official Service forms are designed for a vertical spacing of six lines to the inch, with money amount columns wide enough to allow for the computer printing of ten characters.

3 You can change certain specified areas on the Forms 1040 and 1040A (spelled out in the revenue procedures) to assist computer-printing requirements and to allow for a little more room on certain lines.

4 If you meet the requirements, standards, and qualifications of this revenue procedure, *you can*, without prior approval, computer-generate your own substitutes of the tax forms (except for actual tax returns) not exhibited here. (See Agreement in Sec 21).

SEC. 6. APPROVAL

.01 *Basic Requirements*. Preparers who desire to file substitute privately designed and printed tax forms and/or computer-generated and computer-prepared tax forms must develop such substitutes using these guidelines. These substitutes, unless excepted by revenue procedure, must be approved by the Service before being filed.

.02 *Requests for Approval.*

1 The Service cannot approve your substitute form until the official form has been published. Please propose your substitute after you have examined the official form.

2 You should know the Service revenue procedure relating to the official form before you attempt to alter the form to meet your needs. Any alteration of forms must be within the limits acceptable to the Service. It is possible that, from one filing period to another, a change in law or a change in internal need (processing, audit, compliance, etc.) may change the allowable limits for the alteration of the official form.

3 When specific approval of any substitute form is desired, a sample of the proposed substitute should be forwarded for consideration by letter to the Internal Revenue Service, Attention: Substitute Forms Program Coordinator, D:R:R:I, 1111 Constitution Avenue, N.W., Washington, DC 20224. To expedite multiple forms approval, we prefer that your proposed forms be submitted in separate sets by return. For example, Forms 1040 and their normally related schedules or attachments should be separated from Forms 1120, etc., if at all possible. Schedules and forms (i.e., Forms 3468, 4136, etc.) that can be used with more than one type of return (1040, 1041, 1120, etc.) should be submitted only once for approval, regardless of the number of different tax returns they may ultimately be associated with.

4 As no Service office outside Washington, D.C. is authorized to approve substitute forms, unnecessary delay may result if forms are sent elsewhere for approval. All such forms must be forwarded to the above address for formal control, review, and official approval.

.03 *When to Send Proposed Substitutes*. Proposed substitutes should be sent to the address listed in .02 above, as much in advance of the filing period for the form as possible. This is to allow adequate time for analysis and response and to permit notice to our field offices that your substitute is acceptable. Quarterly filed forms, such as the Form 941, must be submitted by the first day of the last month of the quarter.

.04 *Accompanying Statement.* When the sample substitute is submitted, there should be an accompanying statement that lists the form number of each substitute requested and details those items that deviate from the official form in position, arrangement, appearance, line numbers, additions, deletions, etc. Included with each of the items should be a detailed reason or justification for the change and an approximation of the number of forms expected to be filed.

.05 *Approval/Non-Approval Letter.* The Service sends a formal letter of approval/non-approval. Approval letters may contain qualifications for use of the substitutes. Non-approval letters may specify the changes required for approval, but also may require resubmission for approval. Telephone contact is used when warranted.

.06 *Duration of Approval.*

1 Approvals are good for only one calendar year (January through December) or, in the case of corporation tax forms (with the exception noted below), for the remainder of the quarters of the calendar year.

2 Please Note: In most cases each new filing season requires a new approval, even if the official form does not change. But see the exceptions in 3 and 4 below.

3 Exception: Quarterly tax forms in the 94X series (941, 942, etc.) are approved only for one quarter. Each new quarter requires a new approval.

4 Exception: Limited continued use of a change approved for one tax year may be allowed for the same form in the following tax year. See 07. below for the limitations and for other requirements. Examples of such changes are the use of abbreviated words, revised form spacing, compressed text lines, shortened captions, etc., which do not change the consistency of lines or text on the official forms.

.07 *Limited Continued Use of an Approved Change.*

1 If you received written approval of a previous tax year substitute form governed by this revenue procedure and wish to continue to use the approved change in your current tax year substitute form, you may revise your form to include this change and, without additional written approval, use it as a current tax year substitute form, provided you comply with the requirements in this revenue procedure. See exception in 2 below.

2 This means that if you received written approval for a specific change on a specific form last year, you may again make the same change on the same form this year, if the item changed is present on this year's official form. Thus, the change allowed in last year's approved substitute Schedule A, for example, can be continued in your new substitute for this year. The new substitute does not have to be sent to the Service, and written approval is not required. However, the new substitute must conform to the official current year form in other respects: date, Office of Management and Budget (OMB) approval number, sequence number, Paperwork Reduction Act Notice Statement, arrangement, item caption, line number, line reference, data sequence, etc. It must also comply with this revenue procedure—which may have eliminated, added to, or otherwise changed the guideline which affected the change approved last year. Additionally, you will be bound by the "Agreement" in Section 21. Exception: Those written approvals which stated that the approved change or form would not be allowed in any other tax year.

3 This authorization for continued use of an approved change is limited to the continuation of design logic from an immediately prior tax year substitute form to a current tax year substitute form.

.08 *Requested Copies.* In our letter of approval, *you may* be requested to send to the Service eleven (11) copies of each approved form. When received, the copies will be used to notify Internal Revenue Service Centers that your proposed substitute forms are approved. The requested forms should be assembled in sets. A set constitutes a return with the related schedules and forms in the same order as they will be filed, i.e., Form 1040, Schedules A, B, C, etc., and associated Forms 2119, 2441, etc.

.09 *Responsibility.* Following the receipt of initial approval for a substitute forms package, or of a software output program to print substitute forms, it is the responsibility of the originator (designer or distributor) to provide each subsequent client firm or individual with the pertinent Service forms requirements which must be met for continuing acceptability. Examples of this responsibility include the use of prescribed print paper, font size, legibility, state tax data deletion, the legal requirement of the Paperwork Reduction Act Notice for informing all users of substitute forms of the official use and collection requirements stated in the instructions for the official Service forms, completion of documents, etc.

SEC. 7. OFFICE OF MANAGEMENT AND BUDGET (OMB) REQUIREMENTS FOR ALL SUBSTITUTE FORMS

.01 *Legal Requirements of the Paperwork Reduction Act of 1980.* Public Law 96-511 requires that: (1) OMB approve all Service tax forms, (2) each Service form contains (in the upper right corner) the OMB approval number and any expiration date, and (3) each Service form (or instructions) state why the Service is collecting the information, how it will be used, and whether or not the information is required to be furnished. This information *must* be provided to every user of any official or substitute tax forms.

.02 *Application to Substitute Forms.*

1 *Approval Number and Date Is Required.* All substitute forms must contain in the upper right corner (see Marginal Printing, Sec. 11.02.1(c)) the OMB number and any expiration date that is on the official form.

2 Format Required (3 Options).

(a) OMB No. XXXX-XXXX (preferred) or OMB # XXXX-XXXX

(b) OMB No. XXXX-XXXX (preferred) Expires XXXXXX (mmddyy) or OMB # XXXX-XXXX Expires XXXXXX (mmddyy)

(c) OMB No. XXXX-XXXX Expires XXXXXX (mmddyy) (preferred) or OMB # XXXX-XXXX Expires XXXXXX (mmddyy)

3 *Required Explanation to Users of Substitute Forms.* You must also inform the users of your substitute forms of the Service use and collection requirements stated in the instructions for

the official Service form. If you provide your users or customers with official Service instructions, page 1 of each form must retain the Paperwork Reduction Act Notice Statement as on the official forms (usually in the lower left corner of the forms). Otherwise, you must duplicate the material in the statement and add the phrase, "For Paperwork Reduction Act Notice, See Separate Instructions."

(a) If the Service instructions are not provided to users of your forms, the exact text of the Paperwork Reduction Act Notice must be furnished separately. This notice reads, "We ask for this information to carry out the Internal Revenue laws of the United States. We need it to ensure that taxpayers are complying with these laws and to allow us to figure and collect the right amount of tax. You are required to give us this information."

.03 *Obtaining OMB Number, Date, and Statement*. The OMB approval number, expiration date, and use and collection requirements may be obtained from the official printed form (or its instructions), the reproduction proof (or instructions), or from the Service.

SEC. 8 GENERAL GUIDELINES

.01 *Official Form is the Standard*. Because a substitute form is a variation from the official form, you should know the requirements of the official form for the year of use before you modify it to meet your needs. For the most frequently used tax forms, the quickest way to obtain an official form is to request reproduction proofs of these forms. (See Sec. 20.)

.02 *Design*. Each form must follow the design of the official form as to format, arrangement, item caption, line numbers, line references, and sequence.

.03. *State Tax Information Prohibited*. State tax information must not appear (be visible) on the federal tax return which is filed with the Internal Revenue Service Center, except where amounts are claimed on or required by the federal return, e.g., line 6, Schedule A (Form 1040). (See Sec. 12.05 Block Out Methods.)

.04 *Federal and State Columns*. When a form is designed with both federal and state columns, the federal column must be to the left of the state column and adjacent to the line caption.

.05 *Vertical Alignment of Amount Fields*. 1 When a form is to be computer-prepared, you may remove the vertical line in the amount field that separates dollars from cents. When a form is to be computer-generated, vertically align the amount entry fields where possible. You must also use one of the ten-character amount formats shown in Sec. 23.04. Amount fields may be "rounded off" to dollars only, where form instructions specifically permit such entries.

2 When a form is to be manually prepared, the federal column must have a vertical line or some type of indicator in the amount field to separate dollars from cents if the official form has a vertical line. The cents colums must be at least ⅛-inch wide.

.06 *Sequence Number*. Please note that most forms have a "sequence number" located just below the year designation in the upper right corner of the form. The Service uses this number to indicate the order in which forms are processed when filed with a return. On computer-prepared forms it must be printed no less than 12-point, bold-face type and centered below the form's year designation. On computer-generated forms, place this sequence number following the year designation for the tax form and separate with an asterisk. (See Forms Exhibits at end of this Revenue Procedure).

.07 *Sequence Numbers Required*. The sequence number is required on most Service forms. Please note that some of the numbers necessarily change each year. The specific sequence numbers used on official Service forms must be duplicated on the representative substitute form. If a sequence number is not provided on the official form, it is not required on a substitute of that form either.

.08 *Paid Preparer's Information and Signature Area*.

1 On Forms 1040A, 1040, and 1120, etc., the "Paid Preparer's Use Only" area may not be rearranged or relocated. You may, however, add three extra lines to the paid preparer's address area without prior approval. This applies to other tax forms as well.

2 On Form 1040EZ this information must be provided at the bottom of the form below the taxpayer's signature area. As an alternative, the printed Paid Preparer's Information and Signature Area from either a Form 1040 or 1040A may be attached to the bottom of Form 1040EZ.

.09 *Assemblage of Forms*. When filing a return (i.e., Form 1040), the return must be arranged in this order: (1) the tax return, (2) Form 1040 schedules and forms in sequence number order, (3) all others (Form 1120, 1120S, 1065, 1041, etc.), lettered schedules (Schedule D, etc.) in alphabetical order and numbered forms in numerical order (Forms 2220, 4626, etc.) (4) supporting statements in the same sequence as the forms they support, and (5) additional information required or voluntarily submitted. In this way, they are received in the order in which they must be processed. If you do not send them to us in this order, the Service has to disassemble them and place them in this order before processing is continued.

SEC. 9. PHYSICAL ASPECTS AND REQUIREMENTS: PAPER

.01 *Paper Content*. The paper must be:

1 Chemical wood writing paper that is equal to or better than the quality used for the official form;

2 at least 18 pound (17″ × 22″, 500 sheets) or

3 at least 45 pound (25″ × 38″, 500 sheets).

.02 *Paper Prohibited*. Carbon-bonded paper is prohibited from use for all substitute forms filed with the Service.

.03 *Paper with Chemical Transfer Properties—Limited Use*. Chemical transfer paper for all substitute forms may be used only when the following specifications are met.

1 Each ply within the chemical transfer set of forms must be labeled.

2 Only the top ply (ply one and white in color), the one which contains chemical on the back only (coated back), may be filed with the Service. For example, a set containing three plies would be constructed as follows: ply one (coated back), "Federal Return, File with IRS"; ply two (coated front and back), "Taxpayer's copy"; and ply three (coated front), "Preparer's copy."

3 The file designation, "Federal Return, File with IRS," for ply one must be printed in the bottom right margin (just below the last line of the form) in 12-point, bold-face type. It is not man-

datory, but recommended, that the file designation, "Federal Return, File with IRS," be printed in a contrasting ink for visual emphasis.

4 Carbon Paper. We prefer that you do not attach any carbon paper to any return you file with the Service.

.04 *Paper and Ink Color.* We prefer that the color of paper substantially duplicate that of the original form. You may use white paper. This means that your substitute must be printed in black ink and may be on white or on the color paper the Service form is printed on. An exception to this rule is that Forms 1040A, 1040EZ, and 1040 substitute reproductions may be in black ink without the colored screening. Any additional exception to this rule requires written approval from the Service.

.05 *Page Size.* Substitute or reproduced forms and computer-prepared/generated substitutes may be the same size as the official form (8" × 11", in most cases) or they may be the standard commercial size (8½ × 11") exclusive of pin-feed holes. The thickness of the stock cannot be less than .003 inch.

.06 *Lined Paper.* Computer-generated substitute forms must be submitted on quality lined, machine paper. Lined, color-barred paper is also acceptable. Lined paper assists Service employees during processing of the returns by allowing speedy and accurate location of tax entries corresponding to line captions. The lines provide the basic means for eye-travel from one side of the form to the other, and significantly reduces processing errors. Only original forms should be filed with IRS, as copies frequently do not meet legibility requirements, especially copies of forms originally printed on color-barred paper stock.

.07 *Exception to Lined Paper Requirement.* If your printer has underlining capability, you do not have to use lined or color-barred paper so long as you underline every other text line on the form. The underlining must be a continuous line and extend from the left text margin to the right text margin and be the same length for all lines on the page.

SEC. 10. PHYSICAL ASPECTS AND REQUIREMENTS: PRINTING

.01 *Printing Medium.* The private printing of all substitute tax forms must be by conventional printing processes, photocopying, computer-graphics, or similar reproduction processes.

.02 *Legibility.* All forms must have a high standard of legibility, both as to printing and reproduction and as to fill-in matter. The Service reserves the right to reject those with poor legibility. The ink and printing method used must ensure that no part of a form (including text, graphics, data entries, etc.) developes "smears" or similar quality deterioration, including any subsequent copies or reproductions made from an approved master substitute form; either during preparation or during Service processing.

.03 *Type Font.* Almost all federal tax forms are printed using "News Gothic" as the basic type font. We request that you use this type font when composing any substitute forms.

.04 *Image Size.* The image size of printed substitute forms should be as close as possible to that of the official form. You may omit any text on both computer-prepared and computer-generated forms that is solely instructional.

.05 *Title Area Changes.* To allow a larger top margin for marginal printing and more lines per page (see Sec. 11 below), the title line(s) for all substitute forms (not including the form's year designation and sequence code, when present), may be photographically reduced by 40 percent or reset as one line of type. When reset as one line, the type size may be no smaller than 14-point. You may omit "Department of the Treasury, Internal Revenue Service" and all reference to instructions in the form's title area.

.06 *Remove Government Printing Office Symbol.* When privately printing substitute tax forms, the Government Printing Office symbol and/or jacket number must be removed. In the same place, using the same type size, print the Employer Identifying Number (EIN) or the Social Security Number (SSN) of the printer or designer.

.07 *Printing On One Side of Paper.* While it is preferred that both sides of the paper be used for substitute and reproduced forms, resulting in the same page arrangement as that of the official form or schedule, the Service will not object if only one side of the paper is used.

.08 *Photocopy Equipment.* The Service does not undertake to approve or disapprove the specific equipment or process used in reproducing official forms, but requires only that the reproduced forms satisfy the conditions stated in the revenue procedures.

.09 *Reproductions.* Reproductions of official forms and substitute forms which do not meet the requirements of this revenue procedure may not be filed instead of the official forms.

.10 *Removal of Instructions.* You may remove all references to instructions. No prior approval is needed. One exception is that the statement "For Paperwork Reduction Act Notice, See Instructions", must be retained or a similar statement provided on each form.

SEC. 11. PHYSICAL ASPECTS AND REQUIREMENTS: MARGINS

.01 *Margin Size.*

1 The format of a reproduced tax return when printed on the page must have margins on all sides at least as large as the margins on the official form. This allows room for Service employees to make the necessary entries on the form during processing.

2 A one-half to one quarter inch margin must be maintained across the top, bottom, and both sides (exclusive of any pin-feed holes) of all computer-generated substitutes. The margin area is also used by Service employees to make necessary entries on the form during processing.

3 The marginal, perforated strips containing the pin-feed holes must be removed prior to filing the form with the Service.

.02 *Marginal Printing.*

1 Non-Tax Material Allowed in Limited Areas.

(a) On any 8- or 8½-inch-wide Service or substitute form, you may print your logo, company or firm name, identifying and collation symbols, etc., in the *left half of the top margin.*

(b) With the exception of the actual tax return forms (i.e., Forms 1040, 1040A, 1040EZ, 1120, 940, 941, etc.), you may also print in the *left vertical margin* and in the *left half of the bottom margin.*

(c) Printing is never allowed in the *right half of the top margin* of the tax return form (i.e. Forms 1040, 1040A, 1040EZ, 1120, 940, 941, etc). The Service uses this area to imprint a File

Location Number for each return.

2 *Prior Approval Not Required.* Prior approval is not required for the marginal printing allowed in 1 above when used with the unchanged exhibits in this revenue procedure or when printed on an official form, on a photocopy of an official form or on an (unchanged) Service reproduction proof.

3 *Prior Approval Required.* The marginal printing allowance in 1 above is also the guide for the preparation of acceptable substitute forms. There is no exception to the requirement that no printing is allowed in the *right half of the top margin* of the tax return form.

SEC. 12. APPROVED SUBSTITUTE FORMATS FOR FORM 1040 SCHEDULES

.01 *Exhibits of Approved Formats.* Two sets of exhibits (Exhibits A-1, B-1, A-2 and B-2) are at the end of this revenue procedure. They are acceptable substitutes for the official forms. They are intended to be used in place of the official forms and may be used without prior approval. Both sets are usable for manual entry or computer preparation. Vertical spacing is six (6) lines to the inch. You may also refer to them as examples of how the guidelines in this revenue procedure may be used in some specific cases. Please note that the Service does not supply reproduction proofs for these exhibits.

.02 *Printing or Duplication of Exhibits A-1 and A-2 and B-1 and B-2.* You may (1) print these exhibits or (2) duplicate them photographically or by using photo-reproduction techniques, providing your printed or reproduced images are exactly like the ones in the exhibits. With the exception noted below, nothing can be changed.

.03 *EXCEPTION.* In Exhibit A-1 and A-2 you may change the areas containing "other" items (lines 2c, 9, 11b, 13, 15b, and 22) as follows: (1) the areas inside the perimeter of the boxes containing the dash-leaders (- - -) may be used to print any particular deduction item associated with the corresponding deduction category, and (2) the dash-leaders may be removed (but you may not change the amount column box size or position).

.04 *Exhibits A-1 and A-2.*

1 *Exhibit A-1.* This substitute Schedule A format may be used as a single sheet or as one of the copies of a snapset. It is designed to be used in place of the official Schedule A (Form 1040).

2 *Exhibit A-2.* This substitute Schedule A format may be used as a single sheet when both federal and state tax information is placed on the same form.

3 *No State Tax Information.* No state tax information can appear on these forms when filed with the Form 1040. The state column may be present but the *state tax information must not be visible* when filed with the Service. We prefer that the entire state column be *completely blocked out.*

.05 *BLOCK OUT METHODS.* A suggested method to block out the state tax information is: (1) place the substitute form in a clear plastic folder, (2) on the folder, place a strip of opaque material the exact width and length of the column you wish to block out, then (3) photocopy the substitute form while still in the folder. The result will be a form with only the federal tax information visible. Another method is to take a black marking pen and, using either vertical or horizontal strokes, cross out the state figures. Carbon-interleaved sets may be used where the amounts entered in the state column are filled in with black carbon overprint. This copy may be filed with the return.

.06 *Exhibits B-1 and B-2.* These exhibits correspond to Exhibits A-1 and A-2, and the provisions in .04.1 and 2 above apply. Both of these exhibits are acceptable for use in place of the official Schedule B (Form 1040).

.07 *Exhibits A-1 and B-1 or A-2 and B-2.* These exhibits may be used as sets when the return calls for both Schedule A and B.

1 Acceptable computer-generated formats for the schedules usually attached to the Form 1040 are shown in the Exhibits section of this revenue procedure. The exhibits are for Schedules A, B, C, D, E, F, G, R, SE and W. Schedule 1 (Form 1040A) is also included. All are acceptable substitutes for the official forms. They are intended to be used (without change) in place of the official forms and may be used without prior approval. All lines (including those not used for tax information) must be printed. (Any change to text or format of an exhibit requires prior written approval.) Vertical spacing is six (6) lines to the inch. You may also refer to them as examples of how the guidelines in this revenue procedure may be applied to the production of any substitute form.

2 A combination of upper and lower case print fonts is acceptable in producing the computer-generated exhibits included in this procedure.

SEC. 13. SPECIFICATIONS FOR FILING SUBSTITUTE SCHEDULES K-1

Prior approval is NOT required for a substitute Schedule K-1 that accompanies Form 1065 (for partnership), a Form 1120-S (for small business corporation), or a Form 1041 (for fiduciary) when the substitute Schedule K-1 meets all of the following requirements.

.01 The Schedule K-1 must contain the payer and recipient's name, address and SSN/EIN.

.02 The Schedule K-1 must contain all line items required for use by the taxpayer.

.03 The line items must be in the same order and arrangement as those on the official form.

.04 The line items must be numbered, titled, and/or captioned exactly as shown on the official form.

.05 Each taxpayer's information must be on a separate sheet of paper. Therefore, all continously printed substitutes must be separated, by taxpayer, before filing with the service.

.06 Schedules K-1 for recipients must have instructions for required line items attached.

.07 You may be subject to penalties if you file Schedules K-1 with the Service and furnish Schedules K-1 to partners, shareholders, or beneficiaries that do not conform to the specifications of this revenue procedure.

.08 The amount of each partner's, shareholder's, or beneficiary's share of each line item must be shown. The furnishing of a total amount for each line item and a percentage (or decimal equivalent) to be applied to such total amount by the partner, shareholder, or beneficiary does not satisfy the law and the specifications of this revenue procedure.

.09 If you file Schedules K-1 not conforming to the above specifications, the Service may consider these as not processable and return them to you to be filed correctly. You may also be subjected to the penalty as mentioned in .07 above.

SEC. 14. REQUIRED PREPARATION OF FORMS

.01 *Completely Fill In Lines.* You must completely fill in all the applicable numbered or reference lines on computer-prepared or generated forms (not just the totals) but all the items that make up the totals as well, before attaching any supporting statement (see Sec. 15 below for exceptions).

.02 *Service Processing of Forms.* The Service processes the return based on information entered on the official forms or approved substitutes. References are made to attachments only as required by law and as processing requirements direct. When you fail to complete all the pertinent lines on the official forms, Service Tax Examiners have to locate the information on your attachment and write it on the proper line of the official form. This time consuming process causes delays in processing the return and increases the potential for errors both in transcription and in interpretation.

.03 *Notification of Preparers.* The Service is continuing a program to notify preparers who fail to meet the requirement to completely fill in lines.

SEC. 15. EXCEPTIONS TO LINE COMPLETION REQUIREMENTS

.01 *Zero Entries.* Detailed information for any deduction or income category may be omitted from the printout if the category total to be reported is zero. However, the substitute form must show the total (zero when applicable) for each category. This means when no tax information is applicable, leave the line blank.

.02 *Lines Captioned "Other" (All Forms).* It is not necessary to fill in every numbered or referenced line of tax forms when the line caption calls for "Other," i.e., "Other (itemize)," "Other (specify)," "Other (attach schedule)," etc. Examples of this exception are lines 2c, 9, 11b, 13, 15b, 16 and 22 for Schedule A, Form 1040. When this occurs, you may use a supporting statement and enter only the total amount of these "Other" items on the line of the official form. However, we prefer that you use the space on the official form when it is adequate.

.03 *Schedule A (Form 1040).* All numbered and lettered lines must be filled in, if applicable. Supporting statements may be used to give the details of the totals entered on such lines but may not be used as a substitute for a collection of lines. For example, the detailed information for "Taxes" may not be shown on a supporting statement (supplemental schedule) and only line 10 filled in. Lines 6 through 9 must also be completed. Also, for example the details of "State and local income taxes" may be shown on a supporting statement and the total of such taxes entered on line 6. Also, the total of itemized deductions must be entered on line 24.

.04 *Schedule B (form 1040).* Lines 2 and 4 need not be filled in on the form. A supporting statement may be used for the details of interest and dividend income and the appropriate totals of such income entered on lines 3 and 5, unless nominee distribution or accrued interest criteria apply. (See the tax package instructions concerning interest and dividends).

.05 *Schedule C (Form 1040).* All lines must be filled in when applicable, except the line where "Other expenses-specify" is listed. (See instruction in .02 above).

.06 *Schedule E (Form 1040).*

1 When there are entries on page 1 for any of Part I, the following requirements must be met: (1) In Part I, lines 1 and 2, the questions must be answered and tax information must be entered on the lines provided for each property.

2 Supporting statements may be used for the details of rental and royalty income and expenses. The appropriate totals must be carried over and entered in the total column for lines 3, 10, 18, 19 and 22 through 26.

3 Part II (page 2)—The income and loss from various partnerships, estates or trusts, and small business corporations also may be detailed on a supporting statement, but the appropriate total income and total loss must be entered on lines 27 through 37.

4 As applicable, either page 1 or page 2 may be filed separately and independently of each other, as a valid Schedule E. Both pages are not required, unless the entered tax data applies to all parts of the form.

.07 *Schedule F (Form 1040).* If the cash method is used, only page one is needed. Otherwise both pages one and two must be entirely printed. Page two cannot be filed separately.

SEC. 16. SUPPORTING STATEMENTS

.01 *Use of Supporting Statements.* Supporting statements are to be used to explain an individual line entry on an official or substitute form. Unless specifically authorized by this revenue procedure (see Sec. 15), they must not be used to avoid completing required lines on the official form, or in lieu of a prescribed official schedule or form. Supporting statements are never to be used until the required official return or form they support are first totally filled in (completed). it is not acceptable to submit a blank or incomplete official form that refers to a supporting statement, and then to submit the form data entries solely on the statement, in lieu of completing a tax return or form.

.02 *Supporting Statements.* Supporting statements must: (1) provide details and explain entries made on the official form, (2) furnish all required information in the same sequence as called for on the official form, (3) furnish any additional information in the order of appearance on the form to which it refers, and (4) show taxpayer's name and social security number (SSN) or employer identification number (EIN), as applicable, and (5) clearly identify which official form it supports.

.03 *Cross-Reference.* Each supporting statement must be referenced to the form it supports, and the entry on the form must be cross-referenced to the supporting statement. For example, put "Statement X" on the top of the supporting statement that contains the identified line number and the supporting information, and put "See Statement X" on the line of the form that references the statement.

.04 *Extent of Use.* You may attach supporting statements to explain or support any line item on an official or approved substitute form.

.05 *Assemblage.* For filing purposes, supporting statements are not attached directly to their related forms. Rather, all supporting statements are assembled in the same sequence as the forms they support; they are then placed at the back of the form package, after the lettered and numbered forms (See Sec. 8.09).

.06 *Multiple Supporting Statements.* Supporting statements for each numbered or lettered tax form may be on one page or may be on multiple pages. But each numbered or lettered form must have a separate page for its supporting statement(s). Each page should be the size of the form it supports, or it may be 8" × 11" or 8½" × 11".

.07 *Not Reviewed for Approval.* The Service does not give its approval for specific supporting statements. The taxpayer or the tax practitioner for the taxpayer must meet the needs as they arise, using the guidelines in this revenue procedure.

SEC. 17. SPECIFICATIONS FOR FILING SUBSTITUTE FORMS

.01 *Filing Substitute Forms.* Follow the same instructions as for filing official forms. These instructions are in the taxpayer's tax package.

.02 *Computer-Prepared Tax Forms.* For filing purposes, the Service will accept computer-prepared tax returns (i.e., Forms 1040, 1040A, 1040EZ, 1120, 940, 941, etc.) filled in by a computer or by word-processing equipment or similar manual equipment, but these forms must be pre-printed.

.03 *Computer-Generated Forms.* For filing purposes, the Service will accept computer-generated versions of forms that are attached to individual and business income tax returns, provided the substitutes and their manner of completion meet the guidelines prescribed herein.

.04 *Combination of Manually Prepared and Computer-Prepared/Generated Forms.* For filing purposes, the Service will accept substitute tax forms that contain a combination of computer-prepared/generated and manually filled in information.

.05 *Taxpayer and Preparer Signatures.* All taxpayer signatures on forms to be filed with the Service must be original signatures, affixed subsequent to the reproduction process. However, the income tax preparer can satisfy the manual signature requirement by signing a completed income tax return form, making a photocopy of the return form, and having the taxpayer sign and file the photocopy. (See Rev. Rul. 78-370, 1978-2 C.B. 336.)

.06 *Use Preaddressed Label.* When filing substitute or reproduced forms, use the preaddressed label included in the tax package the Service sent to the taxpayer. Use of the label avoids larger processing costs because it reduces the potential for error—the kind of error which can delay the receipt of refund and information needed by the taxpayer, as well as significantly reducing the processing time for each return. No other label may be used. If taxpayer address is incorrect, line out old address and insert new address on the preaddressed label provided.

.07 *Use Internal Revenue Service Envelope.* When filing substitute or reproduced forms, use the envelope enclosed with the taxpayer's tax package. This envelope is coded for sorting into several categories. Use of the coded envelope can help speed up the processing and reduce processing costs. Do not use the Service-provided, tax-package envelope for other correspondence with the Service, as its misuse can delay the correspondence.

.08 *Voluntarily Submitted Information.* Additional information required or voluntarily submitted should be on the same size paper as the official form and attached to the return following the supporting statement. (See Sec. 8.09.)

SEC. 18. GUIDANCE FROM OTHER REVENUE PROCEDURES

.01 Guidance for the substitute tax forms not covered in this revenue procedure and the revenue procedures which govern their use, are as follows:

Form 1040-ES Revenue Procedure—82-7, 1982-1 C.B. 410, not reprinted for distribution

Form 1042S Revenue Procedure —81-28, 1981-2 C.B. 549; order as IRS Publication 1161.

Form W-2 series Revenue Procedure—84-44, 1984-1 C.B. 523, order as IRS Publication 1141.

Form 1099 series and Form 5498 Revenue Procedure—85-25, 1985-1 C.B. 558; order as IRS Publication 1179.

SEC. 19. ORDERING REVENUE PROCEDURES

.01 If you receive Package X, Informational Copies of Federal Tax Forms, you may use the Form 2333P, order Blank for Revenue Procedures, contained therein to order the following revenue procedures:

Pub. 1220, the revenue procedure on magnetic tape reporting for information returns (Forms 1099 series, 1098, 5498, 1096 and W-2G).

Pub. 1141, the revenue procedure on specifications for private printing of Forms W-2, W-2P, and W-3.

Pub. 1253, the revenue procedure on magnetic cassette/mini-disk reporting for information returns (Forms 1099, series, 1098, 5498, 1096 and W-2G).

Pub. 1255, the revenue procedure on magnetic diskette reporting for information returns (Forms 1099 series, 1098, 5498, 1096 and W-2G).

Pub. 1149, the revenue procedure on magnetic tape reporting for Windfall Profit Tax (Form 6248).

Pub. 1161, the revenue procedure on reprinted paper substitutes for Form 1042S.

Pub. 1162, the revenue procedure on group exemption procedures.

Pub. 1167, the revenue procedure on general substitute form requirements. (The controlling general procedure.)

Pub. 1179, the revenue procedure on paper substitute information returns (Forms 1099 series, 1098, 5498, 1096, W-2G and W-3G).

Pub. 1187 (and Pub. 1187 Supplement), the revenue procedures on magnetic tape reporting for Form 1042S.

.02 The above listed revenue procedures may be obtained also by writing to: Internal Revenue Service Publications, P.O. Box 25866, Richmond, VA 23260. Be sure to order using IRS Publication number.

SEC. 20. ORDERING REPRODUCTION PROOFS

.01 The Service provides for the public camera-ready, reproduction proofs of many of its printed tax forms. These reproduction proofs can only be ordered by using Form 6747, Order for Reproduction Proofs. Form 6747 can be obtained by written request to Internal Revenue Service, PM:S:FM:P, Attention: Reproduction Proof Coordinator, Room 1528, 1111 Constitution Ave., N.W., Washington, DC 20224.

1 Recorded forms distribution information is continuously available, and may be accessed by dialing 202-566-2473 or 2474 (not toll-free numbers). This recording provides for the receipt of form requests and inquiries at the end of the taped message.

.02 Basic specifications, such as margin, pagination, etc., will be printed in the margins of the reproduction proofs and must be removed before printing. The official reproduction proof margins across the top, bottom, and sides must be maintained on all reproductions and substitute forms.

.03 A charge of $1.00 per page will be made for each reproduction proof regardless of page size. After an order has been filled, invoices will be mailed to the requestor.

SEC. 21. AGREEMENT

Any person or company who uses substitute forms and makes all or part of the changes specified in this revenue procedure agrees to the following stipulation: The Service presumes the changes are made in accordance with these procedures and, as such, will be noninterruptive to the processing of the tax return. Should any of the changes prove to be not exactly as described, and as a result become disruptive to the Service during processing of the tax return, the person or company agrees to accept the determination of the Service whether or not the form may continue to be used during the filing season and also agrees to work with the Service in correcting noted deficiencies. Notification of deficiencies may be made by letter, phone call, or both.

SEC. 22 CONDITIONS—TAX FORMS (1040A, 1040EZ, 1040, 1120, 940, 941, Etc.)

.01 PROHIBITED FORMS.

1 COMPUTER-GENERATED VERSIONS.

Computer-generated versions of a tax return form (e.g. Form 1040, 1040EZ, 1040A, 1120, 940, 941, etc.) which requires a signature are not permitted. Only preprinted substitutes of these forms are allowed. Approval is extended to consider certain types of computer-generated graphic formats as acceptable "preprinted" substitutes. All such forms must have formal approval prior to their use.

2 COMPUTER-GENERATED GRAPHICS—First Time users

First-time users who design substitute forms using computer-graphics (e.g. laser printing, dot matrix addressable printing, etc.) must receive prior approval before using them. Exception: Experienced users who have previously received written approval from the Service for tax forms do not need written approval before using their forms. This assumes that all new requirements for the tax year have been fully complied with, based on actual comparison with final versions of the official Service tax forms. However, users are bound by the agreement in Sec. 21.

.02 FILL-IN INFORMATION.

The tax return form itself (i.e., 1040, 1040A, 1040EZ, 1120, 940, 941, etc) may be filled in by a computer printer or other similar automated equipment, but the form itself must be created beforehand (i.e., preprinted) using conventional printing methods, photocopying, computer-graphics (laser printing) or other similar reproduction processes.

.03 CHANGES PERMITTED TO THE FORMS 1040, 1040A & 1040EZ.

1 Certain changes (listed below) are permitted to the graphics of the form without prior approval, but these changes apply only to preprinted forms as described in .02 above.

2 Changes not requiring prior approval are good only for the annual filing period, January through December.

3 Other Changes Not Listed. All changes not listed here require prior approval from the Service BEFORE the form may be filed with the Service.

SEC. 23. CHANGES PERMITTED TO GRAPHICS (FORMS 1040A, 1040 AND 1040EZ).

Changes Permitted to the Graphics on Forms 1040, 1040A and 1040EZ and, Where Applicable, on Other Forms as Well for Use With Computer-Prepared (i.e. printed forms *Only*).

.01 *Adjustments.*

You may make minor vertical and horizontal spacing adjustments to allow for computer or word-processing printing. This includes widening the amount columns or tax entry areas so long as the adjustments do not exceed other provisions stated in revenue procedures. No prior approval is needed for these changes. However, the user of forms with such changes are bound by the "Agreement" in Section 21.

.02 *Name and Address Area.*

1 The horizontal rules and instructions within the name and address area may be removed and the entire area left blank; no line or instruction can remain in the area. However, the statement regarding use of the Service mail label should be retained.

2 The heavy ruled border (when present) that outlines the name and address area must not be removed, relocated, expanded or contracted.

3 Required Format

(a) When the name and address area is left blank, as provided in 1 above, the following format must be used when printing the taxpayer's name and address. Otherwise, unless the taxpayer's preprinted label is affixed over the information entered in this area, the lines must be filled-in as shown.

1st name line (35 characters maximum)

In-care-of name line (35 characters maximum)

Street address (35 characters maximum)

City, State (24 char. max.), one blank char., & zip (five char.)

(b) When there is no in-care-of name line, the name and address will consist of only three lines. Examples of the formats follow:

Example of name and address with no in-care-of name line:

JOHN AND MARY JONES
1234 ANYWHERE ST. APT 111
ANYTOWN, DC 12345

Example of name and address with in-care-of name line:

JOHN AND MARY JONES
C/O THOMAS A. JONES
4311 SOMEWHERE AVE.
SAMETOWN, DC 54321

(c) YOU MAY NOT USE YOUR OWN PREADDRESSED LABEL ON ANY INTERNAL REVENUE SERVICE FORM.

(d) The ONLY label that may be used is the OFFICIAL INTERNAL REVENUE SERVICE LABEL SUPPLIED to the taxpayer in his/her tax package. Please use the official Internal Revenue Service supplied label to help reduce errors, and to expedite Service input and processing of returns received.

(e) For identification purposes, you may computer print the taxpayer's name and address on the form and afterward affix the OFFICIAL INTERNAL REVENUE SERVICE SUPPLIED LABEL over the computer printed address. This applies whether or not the horizontal rules and the instructions have been removed from the address area.

.03 *Social Security Number (SSN) AND Employer Identification Number (EIN) Area.*

1 The vertical lines separating the format arrangement of the SSN/EIN may be removed.

2 When the vertical lines are removed, the SSN and EIN formats must be 000-00-0000 or 00-0000000, respectively.

.04 *Cents Columns.*

1 You may remove the vertical rule that separates dollars from the cents.

2 All entries in the amount column should have a decimal point following the whole dollar amounts whether or not the vertical line that separates the dollars from the cents is present.

3 You may omit printing the cents, but all amounts entered on the form must follow a consistent format. You are strongly urged to round off the figures to whole dollar amounts, following the official return instructions.

4 When printing money amounts, you must use one of the following ten-character formats: (a) 0,000,000. (b) 000,000.00

5 When there is no entry for a line, leave the line blank.

.05 *"Paid Preparer's Use Only" Area.*

1 On all forms, where present, the paid preparer's information area may not be rearranged or relocated.

2 You may add three lines and remove the horizontal rules in the preparer's address area.

3 Form 1040EZ preparers must sign the return and provide all other required information. This information should be provided at the bottom of the form below the taxpayer's signature area. (See Section 8.)

SEC. 24. CHANGES PERMITTED TO FORM 1040A GRAPHICS

No prior approval is needed for the following changes (for use with computer-prepared forms only):

.01 *Line 4.*

The line caption may be compressed vertically to one line (to allow for same line entry for the name of the qualifying unmarried child) by using the following caption:

"Head of household; unmarried child's name. . . ." name field

.02 *Line 5c.*

To allow for a two-line field for printing dependent children's names, you may shorten the caption to:

"Dep. children" (names field)
(names field)

.03 *Line 5e.*

1 The number of lines for listing "other dependents" may be expanded to a maximum of 5.

2 Column captions may be shortened to one line descriptions.

.04 *Other Lines.*

Any line whose caption takes up two or more vertical lines may be compressed to one line by using contractions, etc., and by removing instructional references.

.05 *Page 2 (Form 1040A)*

All lines must be present and numbered in the order shown on the official form.

SEC. 25. OTHER CHANGES PROHIBITED

No other changes to the Form 1040A graphics are allowed without prior approval.

SEC. 26. CHANGES PERMITTED TO THE FORM 1040 GRAPHICS

No prior approval is needed for the following changes (for use with computer-prepared forms only):

.01 *Line 4.* This line may be compressed horizontally (to allow for a larger entry area for the name of the qualifying unmarried child) by using the following caption:

"Head of Household; unmarried child's name" (name field)

.02 *Line 6e.*

1 The vertical lines separating columns (1) through (5) may be removed. The captions may be shortened to allow a one-line caption for each column.

2 The number of lines for listing "other dependents" may be expanded to a maximum of 5 by compressing other noted areas and lines.

.03 *Other Lines.*

Any other line whose caption takes up two or more vertical lines may be compressed to one line by using contractions, etc., and by removing instructional references.

.04 *Line 22*

1 This line may be expanded vertically to a maximum of 3 lines.

2 The amount entry box must remain a single entry and the cross hatched shading must extend down the numbered line box to the same number of lines you add.

.05 *Line 38*. You may change the line caption to read "Tax" and computer-print either the words "FROM TAX TABLES:" OR "FROM SCHEDULE/*FORM*" and computer-print the appropriate text.

.06 *LINE 39*. You may change the caption to read: "Additional taxes from Form" and computer-print only the form(s) that apply.

SEC. 27. OTHER CHANGES PROHIBITED

No other changes to the Form 1040 graphics are permitted without prior approval.

SEC. 28. ACCEPTABLE FORMATS OF COMPUTER-GENERATED FORMS AND SCHEDULES

1 Exhibits of acceptable computer-generated formats for the schedules usually attached to the Form 1040 are shown in the Exhibits section of this revenue procedure.

2 Use of Acceptable Formats. If your computer-generated forms appear exactly like the exhibits, no prior authorization is needed.

3 Changes to exhibits are not permitted without prior approval. Any change to the text or format of any of the exhibits requires prior written approval.

SEC. 29. COMPUTER-GENERATED FORMS NOT SHOWN AS EXHIBITS IN THIS REVENUE PROCEDURE

.01 Those desiring to computer-generate forms not shown here may do so, but they must design such forms themselves by following the manner and style of those in the Exhibits section of this publication, and by taking care to observe other requirements and conditions stated here.

.02 Computer-generated forms so designed do not require prior approval from the Service. However, the user of such forms is bound by the "Agreement" in Sec. 21 above.

.03 If you wish, you may submit any substitute form to the Service for approval consideration, or you may submit only a representative sample of your forms.

SEC. 30. INSTRUCTIONS FOR PREPARING COMPUTER-GENERATED SUBSTITUTES

.01 *Format Arrangement.*

The format of each substitute schedule or form must follow the format of the official schedule or form as to item captions, line references, line numbers, sequence, form arrangement and format, etc. Basically try to make the form look like the official one, with readability and consistency being primary factors. Use periods and/or other special characters to separate the various parts and sections of the form. With the exceptions in .02 below, all line numbers and items must be printed even though an amount is not entered on the line.

.02 *Line Numbers.*

1 When a line on an official form is designated by a number or a letter, that designation (reference code) must be used on a substitute form.

2 The reference code must be printed to the left of the corresponding captioned line and also immediately preceding the data entry field even if there is no reference code immediately preceding the data entry field on the official form.

3 In addition, the reference code that is immediately before the data field must either be followed by a period or enclosed in parentheses. There also must be at least two blank spaces between the period or the right parentheses and the first digit of the data field. (See example below.)

4 A decimal point (i.e., a period) should be used for each money amount regardless of whether the amount is reported in dollars and cents or in whole dollars, or whether or not the vertical line that separates the dollars from the cents is present. The decimal points must be vertically alligned when possible.

Example:

7	REAL ESTATE ...	7.	495.00
8A	GENERAL SALES	8A.	
8B	GEN SALES MOTOR VEH ..	8B.	198.00

or

7	REAL ESTATE ..	(7)	495.00
8A	GENERAL SALES	(8A)	
8B	GEN SALES MOTOR VEH ..	(8B)	198.00

.03 *Multiple Page Forms.* With the exceptions noted below, when printing multiple page forms the entire form with all its parts and pages must be printed. When printed on continuous forms, they must be burst and pin-feed holes removed before filing with the return.

.04 *Exception to Forms that must be entirely printed in whole or in part.*

1 On Schedule F, depending on which accounting method is used (cash or accrual), the following will apply. If the cash accounting method is used, only page one of Schedule F needs to be printed. Otherwise, both page one and two must be entirely printed. Page two cannot be filed separately.

2 On Schedule E, it is not necessary to print both pages if data does not apply. Either page one or page two can be printed and filed separately.

SEC. 31. ADDITIONAL INSTRUCTIONS FOR ALL FORMS

.01 Internal control numbers and identifying symbols of the computer preparer may be shown on the substitute, if the use of such numbers or symbols is acceptable to the taxpayer and the taxpayer's representative. If shown, such information must not be printed in the top one-half inch clear area, from the center to the right edge, of any form or schedule requiring a signature. With the exception of the actual tax return form (i.e. Forms 1040, 1120, 940, 941, etc.), you may also print in the left vertical and bottom left margins. The bottom left margin you may use extends 3 1/2 inches from the left edge of the form. (See Sec. 11 for more information on this subject.)

.02 Descriptions for captions, lines, etc., appearing on the substitute forms may be limited to one print line by using abbreviations and contractions and by omitting articles, prepositions, etc. However, sufficient key words must be retained to permit ready identification of the caption, line or item.

1 Explanatory detail and/or intermediate calculations for derivation of fine line totals, may be included on the substitute. We prefer that such calculations be submitted in the form of a supporting statement. If intermediate calculations are included on the substitute, the line on which they appear may not be numbered or lettered. Intermediate calculations may not be printed in the right column. This column is reserved for official numbered and lettered lines that correspond to the ones on the official form. If a supporting statement is submitted, intermediate calculations or subtotals may be formatted at the preparer's option.

2 Text prescribed for the official form, which is solely instructional in nature, e.g., "Attach this schedule to Form 1040," "See instructions," etc., may be omitted from the substitute form.

3 Information for more than one schedule or form may not be shown on the same printout page. Except for high volume computer-generated Schedules A and B (Form 1040), almost any form may be continued on two or more pages if necessary. When a form is continued on two or more pages, clearly identify at the bottom of each page, including page 1, that is continued, e.g., "Page 1, Schedule C Continued." It is strongly recommended that a substitute form not exceed the same number of pages used for the official form.

(a) Both sides of the paper may be printed for multiple page official forms; but it is unacceptable to intermix single page schedules or forms, except for Schedules A and B which are printed back to back by the Service. For example Schedule E can be printed on both sides of the paper, because the official form is multiple page, with page two continued on the back. However, for example do not print Schedule G on the front page and Schedule SE on the back, or Schedule A on the front and Form 3903 on the back, etc.). Both pages of a substitute form must match the official form version it represents

4 Identify all computer-prepared substitutes clearly; print the form designation one-half inch from the top margin and one and one-half inches from the left margin; print the title centered on the first line of print; and print the taxable year and, where applicable, the sequence number on the same line one-half to one inch from right margin. Include the taxpayer's name and SSN on all forms and attachments. Also print the OMB number and (when applicable) the form's expiration date, as reflected on the official form.

5 The state tax column may be present, but the state tax information must NOT be visible on the copy filed with the Service. When a form is designed with both federal and state columns, the federal column must be to the left

of the state column and adjacent to the line caption.

6 Attach all payments (check or money order, no cash) to the front of the tax return.

7 Negative (or loss) monetary amount entries should be enclosed in brackets, or signed minus, to assist in the accurate computation and input of form data. On many official forms the Service pre-prints brackets in selected negative data fields, and those designations should be retained or inserted on affected substitute forms.

SEC. 32. FILING SUBSTITUTE FORMS WITH THE SERVICE

Follow the same instructions as for filing official forms. These instructions are in the taxpayer's tax package.

SEC. 33. SPECIAL FORM 1040EZ OPTICAL CHARACTER RECOGNITION (OCR) REQUIREMENTS

.01 The Form 1040EZ is designed in OCR format. The Service has the capability to machine read this form by optical character recognition (OCR) equipment (Scan-Optics-System 540).

.02 It is optional to produce the 1040EZ substitute as a normal (black and white) reproduction, or as an actual OCR version. The following criteria apply if the form is to be OCR scannable. Otherwise, you may print this form under the previous general guidelines of this Revenue procedure.

.03 An acceptable substitute OCR Form 1040EZ must generally be an exact replica of the official OCR reproduction proof with respect to layout, content, and required OCR characteristics.

.04 The specific paper requirements which must be met for the development of substitute (privately printed) forms include the following:

1 Color and quality of paper—Paper must be white, OCR grade bond, with no flourescent additives or water marks, and with zero rag content.

2 Reflectivity of paper—Must be 80% or greater.

3 Opacity—The paper opacity ratio must be 80% or more.

4 Paper Weight—Specified paper weight is 20 lb. OCR bond (.0035″).

5 Dirt—Must not exceed 10 parts per million.

6 Finish (smoothness)—Must be between 90 and 160 units (Sheffield).

7 Porosity—Paper should have a Gurley reading between 15 and 95.

8 Gloss—Paper with shiny or lustrous appearance (glossy) should be avoided.

9 Size—Form trim size must be 8″ × 11″.

.05 The specific ink requirements which must be met for this form include the following:

1 Print Color—The face of the form prints in black and green, the back prints in black only.

2 Ink—Green ink used must be highly reflective OCR type, such as Sinclair and Valentine J-27975, or an exact match. Black ink used must be non-reflective.

3 Face Registration—Black to green must be .02″ (plus or minus) both horizontally and vertically.

4 Face Screen—Forms contain a green screened background equal to a 15% tone of a 110-line screen. Follow registration marks on repro-proof for screen positioning. Handprint boxes are included on Page 1 of the reproduction proof and should be printed as a 50% value of the recommended OCR green ink. Inks used for handprint boxes must reflect at least 90% of the background on which it is printed as measured in the visible range.

5 Face Margins—Approximately 2/6″ head from top trimmed edge to screen (½″ to black image). ⅙″ outside from trimmed edges to screen. Exact margins are provided with reproduction proofs.

6 Back Margins—½″ head, 5/16″ foot, and 5/16″ sides.

.06 *Typography*—Type must be substantially identical in both size and shape with corresponding type on the official form reproduction proof.

.07 To assure proper alignment and position of hand-printed characters representing return lines 1 through 11 tax data, they must be hand printed (entered) into the pre-printed amount field boxes on the form. A #2 lead wooden pencil is recommended as the writing tool which will consistently provide the required stroke width and print contrast on entered characters.

.08 Reading of handprinted characters requires adherance to the following techniques.

1 Enter numeric amount digits carefully and clearly. Fill at least ⅔ of the individual character box height, keeping the character within the box with no overlapping or touching characters. Specific required digit constraints are shown below.

2 When entering "fours", keep the top open.

3 When entering "one", do not use serifs.

4 When entering "twos", do not add extra loops.

5 All character lines must be connected, with no gaps.

.09 *Use Taxpayer's Preaddressed Label.* Reproduced OCR Forms 1040EZ must have ONLY the taxpayer's preaddressed label affixed to be processable as an OCR document. Substitute labels and handwritten name/address information is not acceptable.

.10 All the general and detailed provisions of this Revenue Procedure apply (in addition to this specific OCR Section) for the development of substitute OCR Forms 1040EZ.

SEC. 34. SPECIAL FORM 1120A OPTICAL CHARACTER RECOGNITION (OCR) REQUIREMENTS

.01 Form 1102A has been developed and designed in OCR format. This return will be read by Optical Character Recognition (OCR) equipment (Recognition Equipment Inc.—Input 80 Model B Scanner), if submitted in acceptable OCR format.

.02 It is optional to produce the 1120A substitute as a normal (black and white) reproduction, or as an OCR scannable version. The following specific criteria apply if the substitute form is to be produced for OCR processing. Otherwise, you may print this form under the general guidelines of this Revenue Procedure.

.03 An acceptable substitute OCR Form 1120A must be an exact replica of the official reproduction proof with respect to layout, content, and required OCR characteristics.

.04 The specific paper requirements for this form generally duplicate those specified in Section 33, with the following exception:

1. Size—Form 1120A trim size must be 8½″ × 11″.

.05 The specific ink requirements which must be met for this form include the following.

1 Print Color—Black and maroon.

2 Ink—Maroon ink must be highly reflective OCR type, such as Sinclair and Valentine J-31859, or an exact match. Black ink must be non-reflective.

3 Face Registration—Black to maroon must be 0.015 (1/64)″ (plus or minus) both horizontally and vertically.

4 Handprint Boxes—These handprint boxes (for IRS entries and use only) are included on Page 2 of the reproduction proof, and should be printed as a 50% screen value of the recommended OCR maroon ink. Inks used for handprint boxes must measure .19 PCS or less when tested using MacBeth PCM-II tester 'C' scale.

5 Face margins—Minimum margins require 11 2/6″ head, ½″ left and right, and 5/16″ foot.

6 Back margins—11 2/6″ head, ½″ left and right, and 5/16″ foot. Exact margins are provided with reproduction proofs.

.06 *Typography*—Type must be substantially identical in both size and shape with corresponding type on the official form reproduction proof.

.07 All entries on an OCR Form 1120A must be either typed or machine printed, to permit OCR scanning. Otherwise the return will be manually processed.

.08 *Use Taxpayer's Preaddressed Label.* Reproduced OCR Forms 1120A must have the taxpayer's preaddressed label affixed or must be typed or machine printed to be processable as an OCR document. Substitute labels and handwritten name/address information is not acceptable.

.09 All general and detailed provisions of this revenue Procedure apply (in addition to this specific OCR Section) for the development of substitute OCR Forms 1120A.

SEC. 35. SPECIAL FORM 941 AND 942 OPTICAL CHARACTER RECOGNITION (OCR) REQUIREMENTS

.01 Forms 941 and 942 are designed in OCR format. The Service has the capability to machine read these forms by Optical Character Recognition (OCR) equipment (Recognition Equipment Inc—Input 80 Model B Scanner), if submitted in acceptable OCR format.

.02 It is optional to produce the Forms 941 and 942 (all four quarters of 1986) as a black and white reproduction, or as an OCR scannable version. However, effective with the 1987 tax returns, it is requested that you produce the returns in only scannable format. The following specific criteria applies if the substitute form is to be produced for OCR processing. Otherwise, you may print these forms under the general guidelines of this Revenue Procedure.

.03 An acceptable substitute OCR Form 941 or 942 must be an exact replica of the official reproduction proof with respect to layout, content, and required OCR characteristics.

.04 The specific paper requirements which must be met for the development of substitute (privately printed) forms generally duplicate those specified in section 33, with the following exception:

1 Size—Forms 941 and 942 trim size must be 8½″ × 11″.

.05 The specific ink requirements which must be met for these forms include the following:

1 Print Color—Black and Maroon.

2 Ink—Maroon ink must be a highly reflective (not less than 85%) OCR type ink, such as Sinclair/Valentine J31859, or an exact match. Black ink reflectance must not be greater than 15%.

3 Handprint Boxes—These handprint boxes (for IRS entries and use only) are included on the reproduction proof, and should be printed as a 50% screen value of the recommended OCR maroon ink. Inks used for handprint boxes must measure 15% or less when tested using the MacBeth or Kidder testers (see #5 below).

4 Face Margins—Minimum margins require ½″ head; center sides'; and, 5/16″ foot.

5 Testers—The following two print testers may be used for Forms 941 and 942. Any other type tester must first be approved by the IRS.

(a) MacBeth PCM-II

Use 'C' scale. Range must be between .13 minimum to .19 maximum.

(b) Kidder 082 A

Use infrared scale. PSC values must fall in the range of .32 minimum to .38 maximum. White calibration disk must be set at 100%. Sensitivity must be set at "1".

SEC. 36 EFFECT ON OTHER DOCUMENTS

This revenue procedure supersedes Revenue Procedure 85-3, 1985—1 C.B. 459.

Exhibit B-1 (Preferred Format)

Schedules A&B (Form 1040) 1985

Substitute Schedule B
Interest and Dividend Income

08 OMB No. 1545-0074 Page 2

Name(s) as shown on Form 1040

Your social security number

Part I Interest Income

If you received more than $400 in interest income, you must complete Part I and list ALL interest received. If you received interest as a nominee for another, or you received or paid accrued interest on securities transferred between interest payment dates, see page 22.

Interest income		Amount	
1 Interest income from seller-financed mortgages. (See Instructions and show name of payer.) ▶	1		
2 Other interest income (list name of payer) ▶	2		
3 Add the amounts on lines 1 and 2. Write the total here and on Form 1040, line 8 ▶	3		

Part II Dividend Income

If you received more than $400 in gross dividends and other distributions on stock, or you are electing to exclude qualified reinvested dividends from a public utility, complete Part II. If you received dividends as a nominee for another, see page 22.

Dividend income			Amount	
4 Dividend income (list name of payer—include on line 4 capital gain distributions, nontaxable distributions, etc.) ▶		4		
5 Add the amounts on line 4. Write the total here		5		
6 Capital gain distributions. Enter here and on line 15, Schedule D.*	6		▨	▨
7 Nontaxable distributions. (See Schedule D Instructions for adjustment to basis.)	7		▨	▨
8 Exclusion of qualified reinvested dividends from a public utility. (See page 23 of Instructions.)	8		▨	▨
9 Add the amounts on lines 6, 7, and 8. Write the total here		9		
10 Subtract line 9 from line 5. Write the result here and on Form 1040, line 9a ▶		10		

**If you received capital gain distributions for the year and you do not need Schedule D to report any other gains or losses, do not file that schedule. Instead, enter 40% of your capital gain distributions on Form 1040, line 14.*

Part III Foreign Accounts and Foreign Trusts

If you received more than $400 of interest or dividends, OR if you had a foreign account or were a grantor of, or a transferor to, a foreign trust, you must answer both questions in Part III.	**Yes**	**No**
11 At any time during the tax year, did you have an interest in or a signature or other authority over a financial account in a foreign country (such as a bank account, securities account, or other financial account)? (See page 23 of the Instructions for exceptions and filing requirements for Form TD F 90-22.1.)		
If "Yes," write the name of the foreign country ▶	▨	▨
12 Were you the grantor of, or transferor to, a foreign trust which existed during the current tax year, whether or not you have any beneficial interest in it? If "Yes," you may have to file Forms 3520, 3520-A, or 926.		

For Paperwork Reduction Act Notice, see Form 1040 Instructions.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Recapture of Investment Credit for Mass Assets

LR-92-73

SUMMARY: This document contains proposed regulations relating to recapture of investment credit for mass assets. The amendment will allow provision of new standard mortality dispersion tables and new rules for applying them so as to correct certain situations that resulted in inaccurate computations and to incorporate the rules under the Accelerated Cost Recovery System (ACRS). The regulations would provide specific rules for the treatment of mass assets which are recovery property governed by ACRS. In addition, the regulations would provide new rules for assigning individual lives to mass assets and assets similar in kind.

DATES: Written comments and requests for a public hearing must be delivered or mailed by February 18, 1986. The amendments would apply to assets placed in service in taxable years beginning [30 days after date of publication of the Treasury Decision in the Federal Register] and are proposed to be effective on the same date, except as otherwise provided for property depreciated under the ACRS methods.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-92-73) Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Sandra E. Wallach of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3458, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 46 and 47 of the Internal Revenue Code of 1954.

The investment tax credit is allowed for certain depreciable property used in a trade or business. The amount of credit available is determined by reference to the depreciable life of the property. Recapture of a certain amount of the credit is required when the property is disposed of or ceases to be eligible for the credit with respect to the taxpayer before the end of its depreciable life (recapture period, in the case of recovery property). For most assets, it is easy to determine when the asset is retired or ceases to be eligible for the credit. The investment tax credit is available for certain other assets, however, which are fungible assets too numerous to be accounted for on an asset-by-asset basis. These assets are known as "mass assets." Special rules are required for recapture in the case of these mass assets. This project amends regulations setting out the rules for recapture for mass assets and updates the rules to include ACRS.

Under the existing regulations, taxpayers are allowed to determine statistically when mass assets are retired for recapture of investment credit. The determinations are based on mortality dispersion tables. The taxpayer may use its own mortality dispersion table or a standard mortality dispersion table prescribed by the Commissioner.

The proposed regulations contain two new standard mortality dispersion tables. One applies to non-recovery property (in general, property to which the ACRS depreciation methods do not apply) and the other to recovery property within the meaning of section 168. The proposed regulations also change the rules for applying mortality dispersion tables, for assigning individual useful lives to mass assets and assets similar in kind, and provide rules specifically applicable to recovery property.

RECAPTURE DETERMINATIONS

The existing standard mortality dispersion table is designed for recapture in the year assets are placed in service, based on expected retirements (front-end recapture). The new tables are designed for recapture in each year assets are expected to be retired (rear-end recapture). The proposed regulations do not require taxpayers to account for actual retirements, other than abnormal or extraordinary retirements.

The existing regulations made no provision for application of a standard mortality dispersion table to recovery property. The proposed regulations would provide a standard mortality dispersion table specifically applicable to recovery property. In addition, the regulations would provide that an asset's present class life is to be used in determining retirements on the standard mortality dispersion table even though the recovery period (as defined in section 168(c)) is determinative of the investment credit.

GROUPING OF MASS ASSETS

The existing regulations allow taxpayers to place assets with different lives in the same mass assets account. Recapture determinations under a mortality dispersion table are based on the average life of the account. Thus, taxpayers may shield assets with shorter lives from recapture because the assets with longer lives increase the average life of the account. In order to remove this potential for abuse, the proposed regulations require that all mass assets in an account have the same useful life, or the same present class life and recovery period in the case of recovery property.

The existing regulations require taxpayers to maintain sufficient records on which to substantiate the accuracy of the retirement statistics used in establishing their own mortality dispersion tables. The proposed regulations continue to require these records and, in addition, state that, if a taxpayer fails to maintain adequate records, the Service will determine recapture based on the standard mortality dispersion table.

The proposed regulations require that a mass asset account contain only assets placed in service in the same taxable year (closed-end or vintage accounts). In the case of property that is subject to an election under section 167(m) or that is recovery property, this rule conforms these regulations to the regulations under sections 167(m) and 168. In the case of property that is not ADR or recovery property this rule imposes a new requirement. Due to the change to rear-end recapture, the use of the open-end accounts distorts the retirement figures determined under a mortality dispersion table because, for example, some assets in the account may be in the first year since they were placed in service while others are in the second or third year. In the interest of accurate administration of the mortality dispersion tables, the proposed regulations require the use of closed-end accounts for all mass assets.

ASSETS SIMILAR IN KIND

The existing regulations allow taxpayers to assign separate lives to certain assets placed in multiple asset accounts. In determining investment credit for assets similar in kind, the taxpayer may assign each asset the average useful life used in computing the allowance for depreciation. Alternatively, the taxpayer may assign the assets different lives based on the range of estimated lives used in determining the average life. This allows taxpayers to receive investment credit for some assets in an account based on a useful life greater than the average life of those assets. This rule is inconsistent with section 46(c) which requires that taxpayers use the period used for depreciation in determining investment credit. In computing the allowance for depreciation, assets placed in a multiple asset account must, in general, be assigned the average life of the account. See example 2 of paragraph (b) of §1.167(b)-1. Therefore, in order that the investment credit be determined based on the same life used for depreciation, under the proposed regulations, taxpayers must assign to each asset in the account the average life of the assets.

EFFECTIVE DATES

The amendments to the existing regulations relating to assignment of individual lives and recapture of credit taken for non-recovery property (in general, property to which the ACRS depreciation methods do not apply) are applicable prospectively only.

The new rules added for recovery property apply to all property depreciated under the ACRS methods (*i.e.*, recovery property placed in service on or after January 1, 1981).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER. The collection of information requirements contained herein have been submitted for OMB review under the Paperwork Reduction Act, and comments on them should be sent to the Office of Information and Regulatory Affairs of OMB, Attn: Desk Officer for Internal Revenue Service, New Executive Office Bldg, Washington, D.C. 20503. The Internal Revenue Service requests persons submitting comments to OMB to also send copies of the comments to the Service.

EXECUTIVE ORDER 12291 AND REGULATORY FLEXIBILITY ACT

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not consititute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations is Sandra E. Wallach of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 1.48-1 is also issued under 26 U.S.C. 38(b) (as in effect before the amendments made by Subtitle F of the Tax Reform Act of 1984) and 26 U.S.C. 47.

Par. 2. In §1.46-3, paragraph (e) is revised to read as set forth below.

§1.46-3 Qualified investment.

* * * * *

(e) *Useful life/recovery period*—(1) *In general*. For purposes of computing qualified investment in property that is not recovery property (within the meaning of section 168) the useful life of such property to be used in determining the applicable percentage to be applied to its basis or cost is the life used or to be used by the taxpayer in computing the allowance for depreciation with respect to such property for the taxable year in which the property is placed in service. Thus, if property is placed in service by a taxpayer in a taxable year but the period for depreciation with respect to such property does not begin until a succeeding taxable year (see paragraph (d)(1) of this section), the useful life for purposes of computing qualified investment must be the useful life that the taxpayer uses in computing the allowance for depreciation. See paragraph (e)(6) of this section for rules for determining the useful life of property with respect to which the allowance for depreciation is computed under the unit of production method, the income forecast method, or any other method which does not measure the useful life of the property in terms of years. For purposes of computing qualified investment in recovery property (within the meaning of section 168) the class of recovery property which applies to such property (as determined under section 168(c)) is determinative of the applicable percentage to be applied to its basis or cost.

(2) *Individual life*. (i) In order to determine qualified investment for multiple asset accounts (or single asset accounts for which an average life rate is used) it is necessary to determine the average life of the account. In order to determine average life, each asset which is section 38 property must be assigned an individual life. The rules for assigning individual lives to section 38 property are set forth below.

(ii) The individual life of any section

38 property to which an election under section 167(m) applies is the present class life selected for such property under §1.167(a)-11(b)(4), whether or not such property constitutes mass assets (as defined in §1.47-1(g)(2)).

(iii) The individual life of section 38 property described in this paragraph (e)(2)(iii) is determined for each asset on the best estimate obtainable on the basis of all the facts and circumstances. The individual life for each asset placed in a multiple asset account (including a mass asset account) must be the same as the useful life of such asset used in determining the group, classified, or composite life for the account for purposes of computing depreciation. Property is described in this paragraph (e)(2)(iii) if:

(A) it is not recovery property within the meaning of section 168;

(B) no election under section 167(m) is applicable to the property; and

(C) it is placed in a multiple asset account for which a group, classified, or composite rate is used in computing depreciation (or in single asset accounts for which an average life rate is used).

(iv) The individual life for recovery property within the meaning of section 168 is the recovery period which applies to such property as determined under section 168(c).

(3) *Assets similar in kind.* (i) For assets similar in kind contained in a multiple asset account (or in a single asset account for which an average life rate is used) and placed in service in taxable years beginning on or after [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER], the taxpayer must assign to each of those assets the average life of those assets used in computing the allowance for depreciation. Thus no assets may receive investment credit for a life longer than the average life of the assets in the account. For example, assume the taxpayer places 10 similar trucks in a multiple asset account for which a group rate is used in computing the allowance for depreciation. The trucks have an average useful life of 6 years, based on an estimated range of 5 to 7 years. The taxpayer must assign each asset a useful life of 6 years, even though some assets in the account are expected to remain in service for more than 6 years. For assets similar in kind that are placed in service in taxable years beginning before [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER], the rules contained in paragraph (e)(3)(ii) and (iv) of 26 CFR 1.46-3 (revised as of April 1, 1983) apply.

(ii) For purposes of paragraph (e)(3)(i) of this section, assets shall not be considered as "similar in kind" in respect of other assets unless all such assets are substantially of the same value, nor shall used section 38 property be considered as "similar in kind" to new section 38 property.

(4) *Mass assets.* For "mass assets" (as defined in paragraph (g)(2) of §1.47-1) placed in service in taxable years beginning on or after [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER], each asset must be assigned the life of the account, even if a mortality dispersion table indicates that some assets are expected to remain in service longer than the life of the account. See paragraphs (g)(3) and (n)(2) or §1.47-1 regarding the grouping of mass assets. For mass assets placed in service in taxable years beginning before [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER], the rules contained in paragraph (j)(3)(iii) of this section apply.

(5) *Useful life of property subject to amortization.* In the case of property with respect to which amortization in lieu of depreciation is allowable, the term over which amortization deductions are taken shall be considered as the useful life of such property.

(6) *Useful life of property subject to certain methods of depreciation.* If a taxpayer is using a method of depreciation, such as the unit of production or retirement method, which does not measure the useful life of the property in terms of years, he must estimate such useful life in years in order to compute his qualified investment.

(7) *Record requirements.* The taxpayer shall maintain sufficient records to determine whether section 47 (relating to certain dispositions, etc., of section 38 property) applies with respect to any asset.

(8) *Effective dates.* The provisions in paragraphs (e)(1) through (7) of this section apply only to property—

(i) the construction, reconstruction, or erection of which—

(a) is completed by the taxpayer after August 15, 1971, or

(b) is begun by the taxpayer after March 31, 1971, or

(ii) which is acquired by the taxpayer—

(a) after August 15, 1971, or

(b) after March 31, 1971, and before August 16, 1971, pursuant to an order which the taxpayer establishes was placed after March 31, 1971.

For property not described in this paragraph (e)(8), the rules in paragraphs (j)(1) through (6) of this section apply.

* * * * *

Par. 3. Section 1.47-1 is amended as follows:

1. The heading of paragraph (a)(1) is revised to read as follows: "*Property which is not recovery property within the meaning of section 168.*"

2. The first sentence of paragraph (a)(1)(i) is amended by adding the language "which is not recovery property within the meaning of section 168 (see paragraph (a)(3) of this section for special rules for recovery property within the meaning of section 168)" after the phrase "section 38 property" and before the phrase "the basis (or cost)".

3. The last sentence of paragraph (a)(1)(i) is amended by removing the language "paragraph (h)" and adding in its place the language "paragraph (l)".

4. Paragraph (a) is amended by adding a new paragraph (a)(3) to read "(3) *Special rules for recovery property within the meaning of section 168.* [Reserved]."

5. Paragraphs (f), (g), and (h) are redesignated (j), (k), and (l), respectively.

6. Paragraph (e) is amended by—

a. Redesignating paragraphs (e)(2) through (e)(5) as paragraphs (f)(1) through (f)(4);

b. Removing the heading for paragraph (e)(1), and redesignating paragraphs (e)(1)(i), (ii), and (iii) as paragraphs (e)(1), (2), and (3), respectively;

c. Revising redesignated paragraphs (e)(1) and (e)(2), and the introductory text of redesignated paragraph (e)(3), to read as follows:

§1.47-1 Recomputation of credit allowed by section 38.

* * * * *

(e) *Identification of property*—(1) *Record requirements.* In general, the taxpayer must maintain records from which he can establish, with respect to each item of section 38 property, the following facts:

(i) The date the property is disposed of or otherwise ceases to be section 38 property,

(ii) The estimated useful life or recovery period in the case of recovery property (within the meaning of section 168) which was assigned to the property under paragraph (e) of §1.46-3,

(iii) The month and the taxable year in which the property was placed in service and,

(iv) The basis (or cost), actually or reasonably determined, of the property.

(2) *Recapture determination.* For purposes of determining whether section 38 property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer, before the close of its estimated useful life or recovery period in the case of recovery property (within the meaning of section 168), and for purposes of determining recomputed qualified investment, the taxpayer must establish from his records the facts required by paragraph (e)(1) of this section.

(3) *Examples.* If the taxpayer fails to maintain records from which he can establish the facts required by paragraph (e)(1) of this section, then this section shall be applied to the taxpayer in the manner indicated in the following examples:

* * * * *

7. Paragraph (i) is added and reserved.

8. A new heading is added to redesignated paragraph (f), and the heading for redesignated paragraph (f)(1) is revised, to read as follows: "(f) *Treatment of mass assets placed in service in taxable years beginning before [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER]*—(1) *In general.* (i)".

9. Paragraph (f)(1)(i), as redesignated, is amended by removing the language "in the case of mass assets (as defined in subparagraph (4) of this paragraph)" from the first sentence and adding in its place the language "for mass assets (as defined in paragraph (f)(3) of this section) placed in service in taxable years beginning before [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER]" and by removing the language "facts required by subparagraph (1) of this paragraph," from the first sentence and adding in its place the language "facts required by paragraph (e) of this section,".

10. Paragraph (f)(1)(ii)*(a)*, as redesignated, is amended by removing the language "(e)(3)(ii)*(b)*" and adding in its place the language "(j)(3)(ii)*(b)*".

11. Paragraph (f)(1)(iii), as redesignated, is amended by removing the language "§1.46-3(e)(3)(iii)" and adding in its place the language "§1.46-3(j)(3)(iii)".

12. Paragraph (f)(1)(v) in example *(c)*, as redesignated, is amended by removing the language "3(iv)" from the last sentence and adding in its place the language "(2)(iv)".

13. Paragraph (f)(2)(i), as redesignated, is amended by removing, in the first sentence, the language "§1.46-3(e)(3)(ii)*(b)* or (iii)" and adding in its place the language "§1.46-3(j)(3)(ii)*(b)* or (iii)".

14. Paragraph (f)(2)(ii), as redesignated, is amended by removing, in the first sentence, the language "§1.46-3 (e)(3)(iii)" and adding in its place the language "1.46-3(j)(3)(iii)".

15. Paragraph (f)(2)(iii), as redesignated, is amended by removing from the first sentence in the introductory text and from paragraph (f)(2)(iii)*(a)* the language "(e)(3)(ii)*(b)*" and adding in its place the language "(j)(3)(ii)*(b)*", and by removing from the second sentence of the introductory text the language "subparagraph (1)(i) of this paragraph" and adding in its place the language "paragraph (e)(1) of this section".

16. Paragraph (f)(2)(iv) is amended by removing the language "§1.46-3(e)(3)(ii)*(b)* or (iii)" and adding in its place the language "§1.46-3(j)(3)(ii)*(b)* or (iii)".

17. Paragraph (f)(3), as redesignated, is amended by removing in the first sentence the language "(e)(3)(iii)" and adding in its place the language "(j)(3)(iii)".

18. Paragraphs (f)(4)(ii), (iii), and (iv), as redesignated, are amended by removing the language "3(i)" and adding in its place the language "2(i)".

19. New paragraphs (g) and (h) are added to read as follows:

§1.47-1 Recomputation of credit allowed by section 38.

* * * * *

(g) *Treatment of mass assets which are not recovery property for taxable years beginning on or after [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER]*—(1) *In general.* (i) For mass assets which are not recovery property within the meaning of section 168 and are placed in service in taxable years beginning on or after [30 DAYS AFTER PUBLICATION OF THIS TREASURY DECISION IN THE FEDERAL REGISTER] the taxpayer may use its own mortality dispersion table or a standard mortality dispersion table prescribed by the Commissioner to recompute qualified investment for mass assets (as defined in paragraph (g)(2) of this section). The taxpayer must then use whichever table was chosen to determine the number of assets expected to be retired each year after the assets are placed in service. Recapture determinations must be made at the end of each taxable year in which assets are expected to be retired before the end of the useful life used to determine qualified investment. Taxpayers may rely on the table and, in general, do not need to account for actual retirements.

(ii) If the taxpayer uses its own mortality dispersion table, the table must be based on an acceptable survey of the taxpayer's actual experience and on appropriate statistical methods. The survey of the taxpayer's actual experience must be based on a sample of not less than 250 items. The taxpayer must maintain records showing the historical data used to develop the table. If the taxpayer does not maintain adequate records, the standard mortality dispersion table will be used to recompute qualified investment. The taxpayer may not use its own table for assets placed in service in a taxable year, unless the table was prepared before the beginning of that year. For example, assume a calendar year taxpayer completes preparation of its own table on July 1, 1979. It may use the table for assets placed in service in 1980, but not for assets placed in service in 1979.

(iii) A taxpayer may use the standard mortality dispersion table for one mass asset account and its own table for a different mass asset account. However, if the taxpayer applies a table to a mass asset account in any taxable year, the taxpayer must treat a subsequent change to another table for that account as a change of accounting methods under section 446(e) and obtain consent of the Commissioner.

(2) *Definition of mass assets*. The term "mass assets" means a mass or group of individual items of section 38 property (i) not necessarily homogeneous, (ii) each of which is minor in value relative to the total value of such mass or group, (iii) numerous in quantity, (iv) usually accounted for only on a total dollar or quantity basis, (v) with respect to which separate identification is impracticable, (vi) with the same useful life (in the case of recovery property, with the same present class life and recovery period) and (vii) placed in service in the same taxable year.

(3) *Grouping of mass assets*. In general, items in a mass asset account need not be of a similar type although they must have the same useful life. See paragraph (e) of §1.465-3 for rules for assigning useful lives to mass assets. For example, hammers and saws with useful lives of 4 years may be put in the same account. Hammers with useful lives of 5 years, however, may not be put in an account with hammers with useful lives of 4 years. However,if a taxpayer uses its own mortality dispersion table, all assets in an account must have approximately the same basis or cost. All mass assets in an account must be treated as placed in service (within the meaning of §1.46-3(d)) on the same date. Taxpayers must use appropriate averaging conventions to determine the date mass assets are placed in service. See paragraph (c)(2) of this section, paragraph (b) of §1.167(a)-10 for property not subject to an election under section 167(m), and paragraph (c)(2) of §1.167(a)-11 for property subject to an election under section 167(m).

(4) *Useful life*. The useful life of mass assets used in computing the allowance for depreciation must be used in applying the taxpayer's mortality dispersion table or the standard mortality dispersion table. See paragraph (e) of §1.46-3 for rules for assigning useful lives to mass assets. For example, if the taxpayer computes the depreciable life of mass assets under section 167(m), it must use the same depreciable life in applying the standard mortality dispersion table.

(5) *Standard mortality dispersion table*. The standard mortality dispersion table prescribed by the Commissioner and set forth below is based on whole and half-year average useful life categories. Each category contains 30 columns. Each column shows the percentage of basis or cost in a mass asset account expected to be retired in each of the first 30 years after the property is placed in service. The table is set forth below:

STANDARD MORTALITY DISPERSION TABLE
PERCENTAGE OF BASIS OR COST OF MASS ASSET ACCOUNT CONSIDERED DISPOSED OF EACH 12-MONTH PERIOD AFTER THE ACCOUNT IS PLACED IN SERVICE

Average Useful Life (Years)	1st (1)	2nd (2)	3rd (3)	4th (4)	5th (5)	6th (6)	7th (7)	8th (8)	9th (9)	10th (10)

The following notes explain the derivation of the table:

(i) The table is based on normal probability distribution. A normal distribution is characterized by a symmetrical dispersion of assets around the average. The equation of the normal probability distribution is

$$\left(Y = \frac{N}{\sigma \sqrt{2\pi}}\right) x \left(e^{z}\right)$$

The symbols in the equation are as follows:

N = the number of mass assets in the group

σ = the standard deviation of the normal distribution

π = the constant 3.14159

$z = \frac{-\frac{1}{2}(X - \bar{X})^2}{2}$

e = the constant 2.71828

x = an independent variable

$\bar{X}$ = mean or average of the mass assets in the group (average useful life)

$(x - \bar{X})$ = the deviation of x from the mean or average of the mass assets in the group

$\sigma 2$ = the variance of x

(ii) The range of expected useful lives is assumed to extend from the time of acquisition (− 3 Standard Deviations) to double the average useful life (+ 3 Standard Deviations). Practically all cases (99.73 percent) fall within the 3 Standard Deviation range under the assumption of a normal probability distribution. The first year mortality figures shown in the table for assets with a long average useful life are greater than those shown for one or more of the succeeding years. In addition, the last year mortality figures shown in the table for assets with a long average useful life are greater than those shown for one or more of the preceeding years. The reason is that the tails (beginning and ending years) of the distribution have been adjusted so that 100 percent of the assets (and not 99.73 percent) are included within the range of useful lives.

(6) *Recapture determinations*. A recapture determination must be made at the end of each taxable year in which assets are expected to be retired before the end of the useful life used to determine qualified investment. The percentage of basis or cost in a mass asset account expected to be retired under the taxpayer's mortality dispersion table or under a standard mortality dispersion table will be considered disposed of ratably over the year. The taxpayer is not required to account for actual retirements other than abnormal or extraordinary retirements. See paragraph (b) of §1.167(a)-8 for definitions of abnormal retirements of non-recovery property that is not subject to an election under section 167(m). See paragraph (d)(3)(ii) of §1.167(a)-11 for definitions of extraordinary retirements of non-recovery property subject to an election under section 167(m).

(7) *Example*. Paragraph (g)(6) of this section may be illustrated by the following example.

Example. (i) A calendar year taxpayer placed 1000 assets which are not recovery property in service in 1984. Taxpayer established a single mass asset account for these assets. Under the taxpayer's averaging convention the taxpayer uses July 1 as the assumed date of all additions to mass asset accounts. The assets have estimated useful lives of 3 years. The unadjusted basis in the account is $10,000.

(ii) The standard mortality dispersion table indicates that 2.28% of basis will be considered retired in the first year, 13.59% more will be considered retired in the second year, and 34.13% will be considered retired in the third year. The remaining 50% of basis will be in service for 3 years or more.

(iii) For 1984, no credit is allowed for 1.14% of the basis in the account, because 1984 is the taxable year the assets were placed in service. The standard mortality dispersion table indicates that 2.28% of basis is expected to be retired in the first year after the assets were placed in service. Since the assets were not considered placed in service until July 1, only 50 percent, or a 6-month ratable portion, of the 2.28% of basis is considered disposed of in 1984. The remaining 1.14% will be considered disposed of over the first half of 1985. Qualified investment for the remaining 98.86% is $3,295., which is 33⅓ percent of the basis attributable to that portion of the account.

(iv) For 1985, credit for 7.94% of the basis placed in service has to be recaptured. Of the 2.28% indicated by the standard mortality dispersion table to be disposed of in the first year, 1.14%, or a 6-month ratable portion, will be considered disposed of in the first half of 1985. of 13.59% indicated by the table to be disposed of in the second year, 6.8%, or a 6-month ratable portion, will be considered disposed of in the second half of 1985. Removing the qualified investment with respect to 7.94% of the account from the $9886. for which the credit was allowed in year 1 results in a qualified investment of $3030.36 (33⅓% of $9092). Thus, the credit allowed is $303.04, as compared to a $329.50 credit "allowable" for the full basis placed in the account. The decrease in allowable credit and, therefore, the amount recaptured is $26.46.

(v) For 1986, credit for 23.87% of the basis placed in service has to be recaptured. Of the 13.59% indicated by the standard mortality dispersion table to be disposed of in the second year, 6.8%, or a 6-month ratable portion, will be considered disposed of in the first half of 1986. Of the 34.13% indicated by the table to be disposed of in the third year, 17.07%, or a 6-month ratable portion, will be considered disposed of in the second half of 1986. Removing the qualified investment with respect to 23.87% of the account from the $9886. for which the credit was allowed in year 1 results in a qualified investment of $2499.42 (33⅓% of $7499.). Thus, the credit allowed is $249.94, as compared to a $329.50 credit "allowable" for the full basis placed in the account. The decrease in allowable credit and, therefore, the amount recaptured is $79.56.

(vi) For 1987, credit for 17.07% of the basis placed in service has to be recaptured. Of the 34.13% indicated by the standard mortality dispersion table to be disposed of the third year, 17.07%, or a 6-month ratable portion, will be considered disposed of in the first half of 1987. Removing the qualified investment with respect to 17.07% of the account from the $9886. for which the credit was allowed in year 1 results in a qualified investment of $2726.06 (33⅓% of $8179.). Thus, the credit allowed is $272.61, as compared to a $329.50 credit "allowable" for the full basis placed in the account. The decrease in allowable credit and, therefore, the amount recaptured is $56.89.

(vii) None of the credit is recaptured for the percent of basis disposed of after June 30, 1987.

(h) *Treatment of mass assets which*

are recovery property within the meaning of section 168—(1) *In general.* (i) For mass assets (as defined in paragraph (g)(2) of this section) which are recovery property within the meaning of section 168, the taxpayer must determine dispositions of assets from a mass asset account by the use of an appropriate mortality dispersion table. Such table must be used to determine the number of assets expected to be retired each year after the assets are placed in service. Recapture determinations must be made at the end of each taxable year in which assets are expected to be retired before the end of the recapture period (as defined in subsection (a)(5)(E)(ii) of section 47).

(ii) The taxpayer may use its own mortality dispersion table or a standard mortality dispersion table prescribed by the Commissioner. The taxpayer's own mortality dispersion table must be based on an acceptable survey of the taxpayer's actual experience and on appropriate statistical methods. The survey of the taxpayer's actual experience must be based on a sample of not less than 250 items. The taxpayer must maintain records showing the historical data used to develop the table. If the taxpayer does not maintain adequate records, the standard mortality dispersion table will be used to determine dispositions of assets from a mass account. The taxpayer may not use its own table for assets placed in service in a taxable year unless the table was prepared before the beginning of that year. For example, assume a calendar year taxpayer completes preparation of its own table on July 1, 1981. It may use the table for assets placed in service in 1982, but not for assets placed in service in 1981.

(iii) A taxpayer may use the standard mortality dispersion table for one mass asset account and its own table for a different mass asset account. However, if the taxpayer applies a table to a mass asset account in any taxable year, the taxpayer must treat a subsequent change to another table for that account as a change of accounting methods under section 446(e) and obtain consent of the Commissioner.

(2) *Grouping of mass assets.* In general, all items in a mass asset account must have the same present class life (as defined in §1.167(a)-11(b)(4)) and the same recovery period but need not be of a similar type. However, if a taxpayer uses its own mortality dispersion table, all assets in an account must have approximately the same cost. For purposes of applying a mortality dispersion table, all assets placed in service during a taxable year will be considered to be placed in service on the first day of the second half of the taxable year.

(3) *Present class life.* The present class life of the assets placed in a mass asset account must be used in applying either the taxpayer's mortality dispersion table or the standard mortality dispersion table, notwithstanding the fact that the appropriate recovery period is used in computing the tax credit.

(4) *Standard mortality dispersion table.* The standard mortality dispersion table prescribed by the Commissioner for purposes of this paragraph is set forth below.

STANDARD MORTALITY DISPERSION TABLE

PERCENTAGE OF BASIS OR COST OF MASS ASSET ACCOUNT CONSIDERED DISPOSED OF EACH 12-MONTH PERIOD AFTER THE ACCOUNT IS PLACED IN SERVICE

Present Class Life	1st (1)	2nd (2)	3rd (3)	4th (4)	5th (5)	6th (6)	7th (7)	8th (8)	9th (9)	10th (10)

(5) *Recapture determinations*. A recapture determination must be made at the end of each taxable year in which assets are expected to be retired before the end of the recapture period. The percentage of basis or cost in a mass asset account expected to be retired under the taxpayer's mortality dispersion table or under a standard mortality dis-

persion table will be considered disposed of ratably over the taxable year. The taxpayer is not required to account for actual retirements. The concept of abnormal or extraordinary retirements does not apply to recovery property. See paragraph (l)(1) of §1.168-2.

(6) *Example*. Paragraph (h)(5) of this section may be illustrated by the following example.

Example. (i) A calendar year taxpayer placed 1000 assets which are recovery property in service in 1981. Taxpayer established a single mass asset account for these assets. July 1 is the assumed date of all additions to mass asset accounts. Each asset is 3 year recovery property and has a present class life of 4 years. The unadjusted basis in the account is $10,000.

(ii) by applying the 4 year present class life, the standard mortality dispersion table indicates that 1.22% of basis would be considered retired in the first year, 5.46% more would be considered retired in the second year, and 15.98% more would be considered retired in the third year. The remaining 77.3% of basis will be in service longer than the 3 year recapture period.

(iii) For 1981, no credit was allowed for .61% of the basis in the account, because 1981 was the taxable year the assets were placed in service. The standard mortality dispersion table indicates that 1.22% of basis was expected to be retired in the first year after the assets were placed in service. Since the assets were not considered placed in service until July 1, only 50 percent, or a 6-month ratable portion of the 1.22% of basis was considered disposed of in 1981. The remaining .61% was considered disposed of over the first half of 1982. Qualified investment for the remaining 99.3% is $5963.40, which is 60 percent of the basis attributable to that portion of the account.

(iv) For 1982, credit for 3.34% of the basis placed in service was recaptured. Of the 1.22% indicated by the standard mortality dispersion table to be disposed of in the first year, .61%, or a 6-month ratable portion, was considered disposed of in the first half of 1982. Of the 5.46% indicated by the table to be disposed of in the second year, 2.73%, or a 6-month ratable portion, was considered disposed of in the second half of 1982. Removing the qualified investment with respect to 3.34% of the account from the $9939. for which the credit was allowed in year 1 results in a qualified investment of $5763. (60% of $9605.). Thus, the credit allowed was $576.30 as compared to a $596.34. credit "allowable" for the full basis placed in the account. The decrease in allowable credit was therefore $20.04, $3.66 of which is recaptured at 100% and $16.38 of which is recaptured at 66% (see paragraph (h)(6)(viii) of this section). The amount recaptured was therefore $14.47.

(v) For 1983, credit for 10.72% of the basis placed in service must be recaptured. Of the 5.46% indicated by the standard mortality dispersion table to be disposed of in the second year, 2.73%, or a 6-month ratable portion, will be considered disposed of in the first half of 1983. Of the 15.98% indicated by the table to be disposed of in the third year, 7.99%, or a 6-month ratable portion, will be considered disposed of in the second half of 1983. Removing the qualified investment with respect to 10.72% of the account from the $9939. for which the credit was allowed in year 1 results in a qualified investment of $5320.20 (60% of $8867.). Thus, the credit allowable is $532.02, as compared to a $596.34 credit "allowable" for the full basis placed in the account. The decrease in allowable credit is therefore 64.32, $16.38 of which is recaptured at 66% and $47.94 of which is recaptured at 33%. The amount recaptured is therefore $26.63.

(vi) For 1984 credit for 7.99% of the basis placed in service must be recaptured. Of the 15.98% indicated by the standard mortality dispersion table to be disposed of in the third year, 7.99%, or a 6-month ratable portion, will be considered disposed of in the first half of 1984. Removing the qualified investment with respect to 7.99% of the account from the $9939. for which the credit was allowed in year 1 results in a qualified investment of $5484. (60% of $9140.). Thus, the credit allowable is $548.40, as compared to a $596.34 credit "allowable" for the full basis placed in the account. The decrease in allowable credit is therefore $47.94, 33% of which is recaptured ($15.82).

(vii) None of the credit is recaptured for the percent of basis disposed of after June 30, 1984.

(viii) The amount of the decrease in allowable credit attributable to the first half of a taxable year is determined by multiplying the decrease in allowable credit for the entire taxable year by a fraction, the numerator of which is the percent of basis disposed of in the first half of the taxable year and the denominator of which is the entire percent of basis disposed of in the taxable year. The amount of the decrease in allowable credit attributable to the second half of a taxable year is determined by applying the formula above, except the numerator of the fraction will be the percent of basis disposed of in the second half of the taxable year.

(7) *Effective date*. The rules in this paragraph (h) apply to all recovery property placed in service on or after January 1, 1981.

* * * * *

20. paragraph (l)(4), as redesignated, is amended by removing "paragraph (e)(1) of this section" from the first sentence and inserting in its place "paragraph (e) of this section".

21. paragraph (l)(5), as redesignated, is amended by removing "(h)" from the first sentence and inserting in its place "(l)".

Par. 4. Section 1.48-9 is amended as follows:

1. Paragraph (a)(4)(ii) is amended by removing "§1.46-3(e)(7)" and inserting in its place "§1.46-3(e)".

2. Paragraph (b)(1)(i) is amended by removing "§1.47-1(h)" from the last sentence and inserting in its place "§1.47-1(l)".

3. Paragraph (l)(2) is amended by removing "§1.47-1(h)(5)" from the last sentence and inserting in its place "§1.47-1(l)(5)".

4. Paragraph (q)(1) is amended by removing "(h)(3)(ii)" from the last sentence and inserting in its place "(l)(3)(ii)".

5. Paragraph (q)(7)(iv) is amended by removing "(h)(3)(ii)" from the last sentence and inserting in its place "(l)(3)(ii)".

Par. 5. Paragraph (d)(3)(v)(*d*)(*2*) of §1.167(a)-11 is amended by removing "paragraph (e)(4)" and inserting in its place "paragraph (g)(2)."

Charitable Contributions of Certain Securities

Announcement 86-4

This announcement concerns the definition of publicly traded securities in connection with the rules under section 170 of the Internal Revenue Code that exempt charitable contributions of such securities from certain substantiation requirements. The Internal Revenue Service has decided to modify the definition of publicly traded securities in §1.170A-13T(c)(7)(iv) of the temporary regulations as discussed below. The Service expects to issue final regulations in 1986 in which the modifications discussed in this announcement will be incorporated. Taxpayers may rely on this announcement until such final regulations are issued under section 170.

BACKGROUND

On December 31, 1984, the Service published section 1.170A-13T of the temporary regulations. Section 1.170A-13T(c)(1) provides that no deduction shall be allowed for charitable contributions, by individuals and certain entities, of property (other than money and publicly traded securities) the claimed value of which exceeds $5,000 unless certain substantiation requirements are met. In summary, the temporary regulations require a donor to obtain a qualified appraisal of the property and to attach an appraisal summary to the tax return on which the deduction for the contribution of the property is claimed.

Section 1.170A-13T(c)(7)(iv) defines "publicly traded securities" as securities for which market quotations are readily available on an established securities market. Market quotations are considered to be readily available on an established securities market if a security is (i) listed on a stock exchange in which quotations are published on a daily basis or (ii) regularly traded in a national or regional over-the-counter market for which published quotations are available. This announcement relates only to securities that do not satisfy either (i) or (ii) and, accordingly, are not "publicly traded securities" under existing regulations.

DEFINITION OF PUBLICLY TRADED SECURITIES

Under final regulations, market quotations for an issue of a security (as defined in section 165(g)(2)) will be considered to be readily available on an established securities market for purposes of the appraisal requirement for a computational period (as defined below), if the following five requirements are met:

(1) The issue is regularly traded during the computational period in a market that is reflected by the existence of an interdealer quotation system for the issue,

(2) the issuer or agent of the issuer computes the "average trading price" (as defined below) for the issue for the computational period,

(3) the average trading price and total volume of the issue during the computational period are published in a newspaper of general circulation throughout the United States (such as the Wall Street Journal or Barron's) not later than the last day of the month following the end of the calendar quarter in which the computational period ends,

(4) the issuer or its agent keeps books and records that list for each transaction during the computational period involving each issue covered by this procedure the date of the settlement of the transaction, the name and address of the broker or dealer making the market in which the transaction occurred, and the trading price and volume, and

(5) the issuer or agent permits the Internal Revenue Service to review the books and records described in paragraph (4) with respect to transactions during the computational period upon giving reasonable notice to the issuer or agent.

For purposes of this procedure, an issue of a security is a class of debt securities with the same obligor and identical terms except as to their relative denominations (amounts) or a class of stock having identical rights. An interdealer quotation system is any system of general circulation to brokers and dealers that regularly disseminates quotations of obligations by two or more identified brokers or dealers who are not related to either the issuer of the security or to the issuer's agent who computes the average trading price of the security. A quotation sheet prepared and distributed by a broker or dealer in the regular course of his business and containing only quotations of such broker or dealer is not an interdealer quotation system. See section 15A.453-1(e)(4) and section 1.897-1(m)(3).

The average trading price is the mean price of all transactions (weighted by volume), other than original issue or redemption transactions, conducted through a United States office of a broker or dealer who maintains a market in the issue of the security during the computational period. Bid and asked quotations are not taken into account. The computational period is weekly during October through December and monthly during January through September.

The procedure described in this announcement relates only to whether or not a qualified appraisal of donated securities is required. The fair market value of a security is the value of the security determined under section 1.170A-1(c)(2) and, therefore, is generally not the face value of the security. Accordingly, the final regulations will provide clearly that the average trading price is not binding as to valuation of the issue. Moreover, no inference should be made regarding whether or not the procedure is appropriate for purposes other than the qualified appraisal requirement (such as for purposes of section 170(e)(5)).

Taxpayers who are not required to obtain a qualified appraisal of donated securities because the securities meet the five requirements described above must attach a partially completed appraisal summary (section B of Form 8283 (Rev. Oct. 1985)) to the appropriate returns (see section 1.170A-13T(c)(2)(i)(B)). The summary must contain the information required by Parts I and II of the Form including the pertinent average trading price published for the securities. Part III of the Form regarding the certification by an appraiser is not required to be completed.

Enterprise Standard Industrial Classification Manual

Announcement 86-6

The relevant portions of the Enterprise Standard Industrial Classification Manual (ESIC Manual) are reprinted below.

The codes provided in the ESIC Manual are used to determine an employer's lines of business for purposes of the availability of exclusions from gross income for certain fringe benefits under section 132 of the Internal Revenue Code. The regulations requiring use of the ESIC Manual to define an employer's lines of business were set forth in §1.132-4T(a)(2)(i) printed in 1986-3 I.R.B., dated January 21, 1986.

INTRODUCTION

PURPOSE OF THE CLASSIFICATION

This Classification was developed to provide a standard for use with statistics about enterprises (i.e., companies, rather than their individual establishments) by kind of economic activity. Its use will facilitate the collection, tabulation, presentation, and analysis of data relating to enterprises; and will promote uniformity and comparability in the statistical data of federal government agencies. The classification of enterprises, rather than that of their constituent establishments, is used for compiling and analyzing financial and related statistics (such as income, expenses, and profits from the income statement; debt, liquidity, and other balance sheet items; and other data that may be available only on an enterprise basis).

DEFINITION OF THE ENTERPRISE

The enterprise unit consists of all establishments under common direct or indirect ownership. It is defined to include all entities, including subsidiaries, where there is more than 50 percent ownership. It may vary in composition ranging from a single legal entity (e.g. corporation, partnership, individual proprietorship) to a complex family of legal entities under common ownership. All subsidiaries of a subsidiary which are more than 50 percent owned would also be included. The 50 percent rule is applied to each level of subsidiaries. Even though a company may be able effectively to control another company with 50 percent or less ownership, the controlled company is not to be considered part of the enterprise. In some cases, it may not be feasible or possible to follow this definition. For this reason a detailed written description of the enterprise should be included in publications presenting enterprise industry statistics, especially if it differs from this definition.

SCOPE OF THE CLASSIFICATION

The Classification covers the entire field of economic activities: agriculture, forestry, and fishing; mining; construction; manufacturing; transportation and public utilities; wholesale trade, retail trade; finance, insurance, and real estate; services; and public administration.

The structure follows closely that of the Standard Industrial Classification (SIC)* used for the classification of establishments, thus providing a means for linking establishment statistics and enterprise statistics.

* Standard Industrial Classifiction Manual 1972, Office of Management and Budget, Stock number 4101-0066, available at the Government Printing Office.

The four-digit SIC structure is not practical for enterprise statistics since many enterprises encompass establishments in several industries. For instance, the Motor Vehicles and Equipment industry is made up of the establishment industries for Motor Vehicles, Motor Vehicle Parts, Truck and Bus Bodies, and Truck Trailers, since they are frequently owned by the same company.

The classification covers all enterprises, regardless of ownership. Where a classification by ownership or legal form of organization is needed, the clasification appearing in the Introduction of the SIC Manual should be used.

PRINCIPLES OF THE CLASSIFICATION

The following criteria were used as guidelines in evaluating the changes to the enterprise industries:

(1) The industry classification for enterprises should be essentially compatible with that for establishments. However, the industrial activity patterns of enterprise organizations may in some instances result in enterprise industries crossing major groups or divisions.

(2) The group of enterprises comprising an industry should be economically significant; that is, have 50,000 or more employees, or annual business receipts of $2 billion or more.

(3) The group of enterprises comprising an industry should be engaged to a high degree in the activity defining the industry, preferably 70 percent or more for nonmanufacturing and 60 percent or more for manufacturing.

This Classification is a revision of the 1968 Enterprise Standard Industrial Classification (ESIC). The revisions were evaluated on the basis of enterprise data from the 1967 Economic Censuses and from other sources, by applying the criteria described above. Most of the changes were made so that the ESIC would conform with the latest revision of the Standard Industrial Classification (1972). Some additional industries were created, and in a few cases small industries were combined. A table showing the changes is shown in the Appendix.

BASIS FOR ASSIGNING INDUSTRY CLASSIFICATION TO ENTERPRISES

An enterprise should be assigned to the industrial classification which includes the plurality contribution of its establishments. Ideally, the value added by the establishments to the goods and services should be the measure for determining the classification. In practice, value added data are not always available; in these cases it is necessary to use whatever available measure of activity could most closely approximate the same results.

STRUCTURE OF THE CLASSIFICATION

The structure of the Enterprise Classification makes it possible to tabulate, analyze, and publish enterprise data on a division, two-digit, three-digit, or four-digit basis. If possible, enterprises should be classified at the four-digit level even though the detail is not used in analysis or publication. This permits an agency to select the level of detail considered most appropriate for presentation of its data and to use additional subdivisions in adapting this Clasification for its own use, while still retaining basic comparability with the classifications used by other agencies. Any regroupings or industry subdivisions should be clearly labeled.

INDUSTRY CODE NUMBERING SYSTEM OF THE CLASSIFICATION

The detailed enterprise industry code of the Classification is a four-digit number with a decimal point between the second and third digits to distinguish visually the Enterprise from the Establishment SIC numbering system. The first two digits of the code represent the Major Group, similar to that for the establishment SIC. The third and fourth digits represent the enterprise subdivision.

The codes for enterprise industries were selected to provide codes as close in content to the establishment SIC as possible, but they do not necessarily have the same definition as the establishment industry. Where the content of the classes was identical in the two systems, the SIC code was used. Where the content was different, another code was used if possible. Miscellaneous and "not elsewhere classified" industries were coded with a "9" even though the industry was not identical in content to the SIC.

DEFINITION OF ENTERPRISE CLASSES

The enterprise industries are defined by one or more SIC industries as shown in the right hand column and are not defined specifically in this manual. The content of each enterprise industry is fully defined only by the reference to the corresponding industries in the 1972 SIC Manual. The titles in this manual were shortened so they could be used in publication tables (4-digit titles have been limited to 36 characters and the rest to 38 characters).

PART V

Modifications to the Enterprise Standard Industrial Classification Manual 1974

The following changes should be made in the Enterprise Standard Industrial Classification Manual 1974.

The SIC code for ESIC Industry 67.98 should be changed to 6798.

The SIC codes for ESIC Industry 67.99 should include all of 6799.

The SIC codes for ESIC Industry 37.10 should include 3716.

Supplemental Information for Publication 1212

Announcement 86-7

The purpose of this announcement is to provide information to banks, brokers, and other middlemen regarding Treasury bills issued at a discount and maturing January through June 1986. This information will assist middlemen in reporting the discount, on Forms 1099-INT, for Treasury bill redemptions in cases where the owner's purchase price *cannot* be determined by owner or middleman records (see discussion below). It will also enable the middlemen to determine amounts subject to backup withholding where required. This information supplements cumulatively the listing of Treasury bills appearing in Publication 1212, *List of Original Issue Discount Instruments* (rev. Dec. 1985).

If the price which the owner paid for the Treasury bill is obtained from the owner's copy of the purchase confirmation receipt or similar record, or is reflected in the transaction records of the middleman, such price shall be used to determine the amount of discount to be reported on Form 1099-INT. If the owner's purchase price cannot be so determined, then the broker or other middleman shall report the discount as if the holder had purchased the Treasury bill at its original issue price. Under these circumstances a special rule is provided for determining the original issue price for Treasury bills issued at a discount. The special rule is that the middleman will prepare the Form 1099-INT by using the noncompetitive issue price for the longest-maturity Treasury bill maturing on that date. This price is reflected in the listing below for Treasury bills maturing January through June 1986.

Short Term United States Treasury Bills
Issued At A Discount And Maturing January—June 1986

CUSIP Number	Maturity Date	Issue Date	Noncompetitive Issue price (% of Principal Amount)	Dollar Amount of Discount to be Reported as Interest for 1986 (Per $1,000 of Maturity Value)

IRS has also been advised of certain information to be added to Section II of Publication 1212 (Rev. Dec. 1985). Section II reflects a listing of amounts of original issue discount (OID) for use *solely* by brokers and other middlemen in preparing information returns for zero coupon instruments issued either under the Department of the Treasury's STRIPS program or as instruments backed by U.S. Treasury securities that represent ownership interests in those securities. The listing of such OID amounts is arranged according to the maturity date of the respective stripped interest and principal components. The additional stripped component maturity dates and amounts of OID to be reported per $1,000 of maturity value are provided in the following list:

STRIPPED COMPONENT MATURITY	OID PER $1000
1/15/1985	3.17
1/31/1985	6.47
2/28/1985	12.73
3/31/1985	19.35

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.61-2T, removed; new 1.61-2T, added; 1.132-1T, removed; new 1.1.32-1T, added; 1.132-2T through 1.132-8T, added; 1.162-25T 1.274-5T, 1.274-6T, amended.	Taxation of fringe benefits and exclusions from gross income of certain fringe benefits	1986-3 I.R.B. 40	Feb. 21, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.
C—Individual.
C.B.—Cumulative Bulletin.
CFR—Code of Federal Regulations.
CI—City.
COOP—Cooperative.
Ct.D.—Court Decision.
CY—County.
D—Decedent.
DC—Dummy Corporation.
DE—Donee.
Del. Order—Delegation Order.
DISC—Domestic International Sales Corporation.
DR—Donor.
E—Estate.
EE—Employee.
E.O.—Executive Order.
ER—Employer.
ERISA—Employee Retirement Income Security Act.
EX—Executor.
F—Fiduciary.
FC—Foreign Country.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

SPECIAL ANNOUNCEMENTS

Announcement 86-15, page 48.

A public hearing will be held on February 10, 1986, on proposed regulations relating to residential rental property.

Announcement 86-16, page 48.

A public hearing will be held on February 14, 1986, on proposed regulations relating to the residential energy credit.

INCOME TAX

Rev. Rul. 86-11, page 4.

Investment credit; section 38 property; used elevators. Used elevators, although purchased after June 30, 1963, cannot be used section 38 property. Rather, the extent of costs incurred for reconstruction completed after June 30, 1963, the elevators qualify as new section 38 property.

Rev. Rul. 86-12, page 32.

Involuntary conversion; insurance proceeds; use and occupancy insurance contract. The Service will look to the underwriting and actuarial criteria and any other information used in writing the insurance to determine if the insurance is designed to reimburse for a loss of profits and fixed charges. Rev. Rul. 73-477 amplified.

Rev. Rul. 86-13, page 33.

Federal short-term, mid-term, and long-term rates. For purposes of section 1274(d) of the Code, relating to certain transactions in which a debt instrument is issued for property, a table sets forth the applicable federal short-term, mid-term, and long-term rates for February 1986.

Rev. Rul. 86-14, page 33.

Payment of employee FICA tax by employer without deduction from wages. Payments by an employer of employee FICA tax without deduction from employee's wages under an agreement between them are additional wages for FICA purposes, the amount of wages to be determined by a formula. The additional FICA wages so determined are includible in the employee's gross income and are wages for purposes of income tax withholding. If otherwise appropriate, the employer may deduct the payments as ordinary and necessary business expenses under section 162 of the Code. Rev. Rul. 74-75 modified.

Rev. Proc. 86-6, page 36.

Depreciation; recovery period. Tables reflect the increase in the recovery period from 18 years to 19 years for real property placed in service after May 8, 1985.

T.D. 8065, page 4.

Amendments to the regulations under section 704(b) of the Code relate to the determination of a partner's distributive share of partnership income, gain, loss, deduction, or credit (or item thereof).

Announcement 86-8 page 45.

The date by which partnerships must furnish statements on Form 8308 for calendar year 1985 in order to avoid penalties under section 6678(a) of the Code is extended to March 14, 1986.

EXEMPT ORGANIZATIONS

Announcement 86-10, page 45.

A list is given of organizations now classified as private foundations and organizations that are not private operating foundations.

ADMINISTRATIVE

Announcement 86-9, page 45.

Certain errors in Publication 225, Farmer's Tax Guide, are corrected.

Announcement 86-11, page 47.

Errors in Publication 505, Tax Withholding and Estimated Tax, are corrected.

Announcement 86-12, page 47.

Schedule T (Form 5300), Supplemental Application for Approval of Employee Benefit Plans Under TEFRA, TRA 84, and REA, has been updated.

Announcement 86-13, page 47.

Form 5498, Individual Retirement Arrangement Information, has been revised for 1986 and is now available.

Finding Lists begin on page 52.
Announcement of Suspensions on page 49.
Announcement of Notice of Proposed Rulemaking on page 50.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 48.—Definitions; Special Rules

26 CFR 1.48-1: Definition of section 38 property.

Investment credit; section 38 property; used elevators. Used elevators, although purchased after June 30, 1963, cannot be used section 38 property. Rather, to the extent of costs incurred for reconstruction completed after June 30, 1963, the elevators qualify as new section 38 property.

Rev. Rul. 86-11

ISSUE

Are used elevators, purchased after June 30, 1963, used section 38 property?

FACTS

In 1985, a taxpayer purchased two commercial buildings, each containing an elevator within the meaning of section 1.48-1(m)(2) of the Income Tax Regulations. Both elevators had been previously used. The taxpayer kept one of the elevators in service. The other elevator was taken out of service for reconstruction including the replacement of the motor, cables, controller, and cage.

LAW AND ANALYSIS

Section 38 of the Internal Revenue Code allows a credit against income tax for investment in certain depreciable property. Under section 48(a)(1)(C), the term "section 38 property" includes elevators, but only if the construction, reconstruction, or erection of the elevator is completed by the taxpayer after June 30, 1963, or the elevator is acquired after June 30, 1963, and the original use of the elevator commences with the taxpayer and commences after that date.

Section 48(b)(1) of the Code provides that the term "new section 38 property" means section 38 property the original use of which commences with the taxpayer. Section 48(c)(1) provides, in general, that the term "used section 38 property" means section 38 property acquired by purchase after December 31, 1961, that is not new section 38 property.

Section 1.48-1(m)(1) of the regulations provides, in part, that if an elevator or escalator is reconstructed by the taxpayer after June 30, 1963, the basis attributable to the reconstruction may be taken into account in determining qualified investment under section 46(c). Section 1.48-2(b)(7) of the regulations provides that the term "original use" means the first use to which the property is put, whether or not that use corresponds to the use of the property by the taxpayer.

When section 48 was added to the Code by the Revenue Act of 1962, section 2(b), 1962-3 C.B. 111, 117, the definition of section 38 property did not include elevators. The Revenue Act of 1964, section 203(c), 1964-1 (Part 2) C.B. 6, 18, added elevators to the definition of section 38 property. Congress believed that new elevator and escalator equipment represents an important aspect of modernization of plant and facilities; thus, new elevators and escalators installed after June 30, 1963, and modernization of existing elevators after that date should be eligible for the investment credit. *See* H.R. Rep. No. 749, 88th Cong., 1st Sess. 35-36 (1963), 1964-1 (Part 2) C.B. 125, 159-160. The definitions of new and used section 38 property were unaffected.

Because section 48(a) of the Code, regarding the definition of section 38 property, includes only elevators constructed, reconstructed, or erected by the taxpayer and elevators the original use of which commences with the taxpayer, any elevator that meets the requirements of section 48(a) will also satisfy the requirements of section 48(b), regarding new section 38 property. Thus, a qualifying elevator can be only new section 38 property. In the present case, the elevator that the taxpayer purchased and reconstructed in 1985 is section 38 property to the extent of costs incurred for the reconstruction. Since the reconstruction was completed after June 30, 1963, the elevator satisfies the definition of new section 38 property to the extent of those costs.

However, the other elevator does not qualify as section 38 property; therefore, it can be neither used for new section 38 property. Although the elevator was acquired after June 30, 1963, the original use of the elevator did not commence with the taxpayer after that date.

HOLDING

Used elevators, although purchased after June 30, 1963, cannot be used section 38 property. Rather, to the extent of costs incurred for reconstruction completed after June 30, 1963, the elevators qualify as new section 38 property.

Section 61.—Gross Income Defined

26 CFR 1.61-2: Compensation for services, including fees, commissions, and similar items.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between the two are includible in gross income. See Rev. Rul. 86-14, page 33).

Section 162.—Trade or Business Expenses

26 CFR 1.162-7: Compensation for personal services.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are deductible. See Rev. Rul. 86-14, page 33.

Section 168.—Accelerated Cost Recovery System

Tables set forth the cost recovery rates for real property placed in service after May 8, 1985. See Rev. Proc. 86-6, page 36).

Section 467.—Certain Payments for the Use of Property or Services

Federal short-term, mid-term and long-term rates are set forth for the month of February 1986. See Rev. Rul. 86-13, page 33).

Section 483.—Interest on Certain Deferred Payments

Federal short-term, mid-term and long-term rates are set forth for the month of February 1986. See Rev. Rul. 86-13, page 33).

Section 704.—Partner's Distributive Share

26 CFR 1.704-1: Partner's distributive share.

T.D. 8065

TITLE 26—INTERNAL REVENUE. —CHAPTER I, SUBCHAPTER A, PART 1—INCOME TAX, TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Partner's Distributive Share

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final Income Tax Regulations under section 704(b) of the Internal Revenue Code of 1954, relating to the determination of a partner's distributive share of partnership income, gain, loss, deduction, or credit (or item thereof). It reflects certain changes made to the law by the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1]. These final regulations provide taxpayers with the guidance needed to comply with the law.

DATE: The amendments generally are effective for partnership taxable years beginning after December 31, 1975.

FOR FURTHER INFORMATION: Contact John G. Schmalz of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224. ATTN: CC:LR:T Phone 202-566-3297

SUPPLEMENTARY INFORMATION:

BACKGROUND

On March 9, 1983, the FEDERAL REGISTER published proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 704(b) of the Internal Revenue Code of 1954 [LR-262-76, 1983-1 C.B. 930]. The amendments were proposed to conform the regulations to section 213(d) of the Tax Reform Act of 1976 (95 Stat. 1548). Numerous written comments were submitted during the comment period, and a public hearing was held on May 4, 1983. After consideration of all comments regarding the proposed regulations, these regulations are adopted as revised by this Treasury decision. This Treasury decision reserves §1.704-1(b)(4)(iv), relating to allocations attributable to nonrecourse debt, with respect to which the March 9, 1983, notice of proposed rulemaking remains outstanding.

EXPLANATION OF THE PROVISIONS

Section 704(b), as amended by the Tax Reform Act of 1976, provides that a partner's distributive share of income, gain, loss, deduction, or credit (or item thereof) is determined in accordance with such partner's interest in the partnership (determined by taking into account all facts and circumstances) if either the partnership agreement does not provide for the distributive share, or the allocation to the partner under the partnership agreement does not have substantial economic effect.

The final regulations provide rules and examples relating to the substantial economic effect test and to the determination of a partner's interest in the partnership. An allocation that does not meet the substantial economic effect test will not be disturbed if it is consistent with the partners' interests in the partnership. Special rules provide that certain allocations will be deemed to be in accordance with the partners' interests in the partnership.

SUBSTANTIAL ECONOMIC EFFECT

The final regulations provide that the determination of whether an allocation has substantial economic effect involves a two-part test. Under the first part of the test, the allocation must have economic effect. This means that in the event there is an economic benefit or burden that corresponds to an allocation, the partner receiving such allocation will receive such benefit or bear such burden. Generally, an allocation will not have economic effect unless the partners' capital accounts are maintained properly, liquidation proceeds are required to be distributed in accordance with the partners' capital account balances, and, following the distribution of such proceeds, partners are required to restore any deficits in their capital accounts to the partnership.

The final regulations provide rules concerning the sufficiency of a partner's obligation to restore the deficit balance in his capital account to the partnership. With respect to this deficit makeup requirement, the regulations make clear that the obligation to restore need not be unlimited. If certain other requirements are satisfied, an allocation of loss or deduction to a partner that creates or increases a deficit balance in such partner's capital account will be respected so long as such deficit balance does not exceed the dollar amount that such partner is obligated to restore.

The final regulations also provide for an economic effect equivalence test under which allocations have economic effect even though capital accounts are not maintained in accordance with the regulations so long as the same results as would be obtained under a capital account analysis are produced in all possible cases.

Under the second part of the two-part test, the economic effect of the allocation must be substantial. The general rules under this second test require that the allocation have a reasonable possibility of affecting the dollar amounts to be received by the partners, independent of tax consequences. Furthermore, these general rules provide that an allocation is insubstantial if, as a result of the allocation, the after-tax economic consequences of at least one partner may, in present value terms, be enhanced, and there is a strong likelihood that the after-tax economic consequences of no partner will, in present value terms, be diminished. The final regulations provide specifically that allocations are insubstantial if they merely shift tax consequences within a partnership taxable year or are likely to be offset by other allocations in subsequent taxable years.

CAPITAL ACCOUNTS

The final regulations provide rules concerning the proper determination and maintenance of the partners' capital accounts. Under these rules a partner's capital account must be increased by the amount of money contributed by such partner to the partnership and allocations to such partner of income (including tax-exempt income) and gain, and must be decreased by the amount of money distributed to such partner by the partnership and allocations to such partner of loss, deduction, and section 705(a)(2)(B) expenditures. In the case of contributed property and property distributed in kind, the regulations adopt a fair market value approach. Thus, a partner's capital account must be increased by the fair market value of the property he contributes to the partnership (rather than its adjusted tax basis) and must be decreased by the fair market value of property distributed to him by the partnership. Consistent with these rules, the final regulations require a preliquidation adjustment to be made to capital accounts to reflect unrealized appreciation or depreciation in the value of distributed property.

The final regulations are permit adjustments to the partners' capital accounts to reflect unrealized appreciation or depreciation in partnership property in connection with the acquisition of an interest from the partnership and the disposition of an interest to the partnership, and in certain other specified circumstances. Additional rules provide for adjustments to the partners' capital accounts to reflect basis adjustments under section 48(q), syndication expenses under section 709, disallowed losses under sections 267(b) and 707(b), transfers of partnership interests, section 754 elections, and depletion, gain, and loss in respect of partnership oil and gas properties.

The final regulations provide examples relating to the substantial economic effect test. To the extent an allocation fails the substantial economic effect test and is inconsistent with the partners' interests in the partnership, it will be reallocated in accordance with the partners' interests in the partnership.

PARTNER'S INTEREST IN THE PARTNERSHIP

Section 704(b) provides that a partner's interest in the partnership shall be determined by taking into account all the facts and circumstances. The final regulations provide rules and examples for determining a partner's interest in the partnership. Under the final regulations a partner's interest in the partnership is to be determined with reference to the underlying economic arrangement of the partners relating to the particular allocation under consideration. If the economic arrangement cannot be determined, each partner's interest in the partnership is presumed to be equal. The examples contained in the final regulations specify, in certain situations, the partners' interests in the partnership.

SPECIAL RULES

The final regulations contain special rules concerning allocations of tax credits, allocations of excess percentage depletion, and allocations of tax items where there has been a revaluation of partnership property. Allocations made in accordance with these special rules are deemed to be in accordance with the partners' interests in the partnership. Finally, the regulations contain rules for determining, in certain instances, the partners' allocable shares of adjusted basis and amount realized under section 613A(c)(7)(D).

PUBLIC COMMENTS AND CHANGES IN RESPONSE TO PUBLIC COMMENTS EFFECTIVE DATE

Several public comments questioned the statement in the proposed regulations that the fundamental principles of the rules contained therein relating to substantial economic effect would be applicable to taxable years beginning after December 31, 1975. The effective date rules have been clarified in the final regulations to make clear that the detailed requirements contained in the regulations concerning the maintenance of capital accounts are not mandated for taxable years beginning before May 1, 1986. The final regulations provide that, for taxable years beginning after December 31, 1975, but before May 1, 1986, an allocation that does not have substantial economic effect under the final regulations nevertheless may have substantial economic effect under section 704(b), as interpreted by case law prior regulations, and the legislative history of the Tax Reform Act of 1976. In addition, in order to permit existing partnerships to begin complying with the capital accounting rules contained in the final regulations for future taxable years, the final regulations allow existing partnerships to restate their capital accounts, as of the beginning of their first taxable year for which the final regulations are effective, to reflect the manner in which partnership property would be distributed if the partnership were liquidated at that time.

ALLOCATIONS ATTRIBUTABLE TO NONRECOURSE DEBT

Several comments suggested that the so-called minimum gain rule contained in the proposed regulations was too restrictive. These comments contended that allocations attributable to nonrecourse debt should be permitted (without reference to minimum gain) to the extent the value of the property securing such debt exceeds the balance of the debt. Other comments urged that the nonrecourse rule was too lenient, and that, under the statute, deductions attributable to nonrecourse debt must follow the partners' interests in the partnership. These comments asserted that the minimum gain rule was inconsistent with such interests and proposed alternative measurements which the commentators felt would be more indicative of the partners' interests in the partnership. In addition, some comments pointed out certain technical deficiencies in the proposed regulations. The Treasury Department and the Internal Revenue Service are still considering the issues raised by these comments and, accordingly, have decided to defer any action on the portion of the proposed regulations concerning allocations attributable to nonrecourse debt.

APPLICATION OF PROFIT MOTIVE TEST AT THE PARTNER LEVEL

Several comments criticized the inference in the proposed regulations that the profit motive test of section 183 would be applied at the partner level for purposes of determining the deductibility of a partner's share of partnership losses or expenses. Since the Treasury Department and the Internal Revenue Service agree that it is inappropriate to decide in these regulations whether section 183 applies at the partner level, the reference to section 183 is deleted and replaced with the case law requirement that the partner receiving an allocation have a bona-fide motive for economic gain, independent of tax consequences.

INTERACTION BETWEEN SECTION 704(b) AND SECTION 704(c)

Several comments concerned the relationship between the proposed rules relating to allocations under section 704(b) and the rules under section 704(c) relating to the determination of the partners' distributive shares of certain tax items with respect to contributed property. Specifically, some comments criticized the general rule in the proposed regulations that contributed property be reflected in capital accounts at its adjusted tax basis, even though an optional rule permitted the property to be reflected in capital accounts at fair market value if certain conditions were satisfied.

The final regulations clarify the relationship between section 704(c) and section 704(b) allocations. In view of the comments received and recent amendments to section 704(c), the suggestion that contributed property be required to be reflected in the contributing partner's capital account at fair market value (rather than adjusted tax basis) has been adopted in the final regulations.

The final regulations make clear that, if section 704(c) determines the partners' distributive shares of depreciation, depletion, and gain or loss with respect to the contributed property, such determination is not subject to the substantial economic effect test of section 704(b). However, the final regulations also make clear that in these cases the partners' distributive shares of the corresponding book items are determined under section 704(b) and the final regulations, and that it is with reference to that determination that section 704(c) determines the partners' distributive shares of the tax items.

Some comments questioned the reference to section 704(c) principles for purposes of determining the partners' shares of depreciation, depletion, and gain or loss, as computed for tax purposes, when capital accounts are adjusted to reflect unrealized appreciation or depreciation in partnership property. The final regulations clarify this reference and provide additional rules for certain cases not expressly addressed under the existing section 704(c) regulations. It is expected that similar rules will be included when new regulations under section 704(c) are proposed and that additional guidance will be contained in those regulations.

TWO-PART SUBSTANTIAL ECONOMIC EFFECT TEST

Several comments challenged the elevation of "substantiality" to a separate test within the substantial economic effect determination. Some comments asserted that absolute economic effect was not necessary to meet the statutory test. These comments were given careful consideration. Nevertheless, the Treasury Department and the Internal Revenue Service maintain that an allocation must have economic effect and that such economic effect must be substantial.

Several comments asserted that the substantiality test was vague and subjective, resulting in undue uncertainty. Although the concept of substantiality by its nature is not easily susceptible to mechanical tests, the final regulations provide clarification and additional guidance on theissue of substantiality. In particular, the final regulations make clear that the timing of the economic consequences that correspond to an allocation are taken into account in determining whether the economic effect of such allocation is substantial. The Treasury Department and the Internal Revenue Service are considering whether further guidance is warranted concerning the relationship of the substantial economic effect test to time value of money principles. *See* H.R. Rep. No. 99-426, 99th Cong., 1st Sess. 259 (1985). To assist in this consideration, comments from interested parties are invited.

DEFICIT MAKE-UP REQUIREMENT

Several comments questioned the necessity for the deficit make-up requirement in the economic effect test. Many of these comments concerned the applicability of this requirement to limited partners. The Treasury Department and the Internal Revenue Service gave careful consideration to these comments, but by the economic effect test. However, the rule has been clarified in certain respects. For instance, the final regulations clarify under what circumstances an allocation to a partner who is not obligated to restore the deficit balance in his capital account (or who is obligated to restore only a limited dollar amount of such deficit) will have economic effect. In general, an allocation will have economic effect in such circumstances, provided the allocation does not cause the recipient partner's capital account (as determined taking into account certain adjustments) to become less than zero (or to become negative by more than the amount of his limited deficit make-up obligation), and provided certain other requirements are satisfied.

CAPITAL ACCOUNT MAINTENANCE RULES

Several comments questioned the use of tax accounting principles for maintaining capital accounts. Generally, the final regulations adopt the rule contained in the proposed regulations that requires the partners' capital accounts to reflect tax accounting principles. Nevertheless, the final regulations deviate from this general requirement in two principal respects. First, as described above, the final regulations adopt the suggestion of several commentators that all contributions and distributions of property be reflected in capital accounts at their fair market value when contributed or distributed (rather than at their adjusted tax basis), and that subsequent capital account adjustments in respect of such property reflect this fair market value.

Second, comments suggested that partnerships should have an unlimited right to adjust capital accounts to reflect unrealized appreciation and depreciation in the value of partnership assets. These comments suggested that the rule in the proposed regulations that permits such adjustments to capital accounts only upon the occurrence of certain specified events is too narrow. On the other hand, several members of the accounting profession expressed concern about the reference in the proposed regulations to sound financial accounting principles, since they believe such principles would rarely, if ever, allow capital accounts to be booked to fair market value. Accordingly, the final regulations eliminate this reference and modify the class of cases in which capital accounts may be adjusted to reflect the fair market value of partnership property and still comply with the capital account maintenance rules.

In addition, a number of technical suggestions and modifications relating to the maintenance of capital accounts have been adopted in the final regulations, including provisions to take into account the effect of liabilities and the provisions of sections 48(q), 267, 707(b), 709, and 754.

SIMULATED DEPLETION ALLOWANCE

A number of comments suggested that the rule requiring adjustments to capital account balances to reflect a simulated partnership depletion allowance be changed to allow partnerships to choose to adjust capital accounts by the actual depletion deductions taken by the partners. This suggestion has been adopted. A modified form of simulated depletion is retained as an option for those partnerships that elect it.

ECONOMIC EFFECT EQUIVALENCE

Several comments questioned the strictness of the capital account equivalence test. Some comments asked for a more liberal test, whereas others suggested certain technical and clarifying changes. Given that the taxpayer has the benefit of certain special rules deeming certain allocations to be consistent with the partners' interests in the partnership and the opportunity to demonstrate by the facts and circumstances that an allocation is in accordance with a partner's interest in the partnership, the test in the proposed regulations (which, for the sake of precision, has been relabeled the economic effect equivalence test) has not been liberalized, but its application has been clarified.

PARTNERS' INTERESTS IN THE PARTNERSHIP

A number of comments asked for more guidance concerning how to determine a partner's interest in the partnership in various factual settings. Specific comments questioned the effect that a reallocation of an item would have on prior or subsequent allocations. The final regulations provide additional guidance in certain cases.

EXAMPLE (19)(iii)

In the proposed regulations, public comment was specifically requested on how to apply the partners' interests in the partnership test to the facts in example (19)(iii) of the proposed regulations. After studying the public comments, the Treasury Department and the Internal Revenue Service have determined that under the standard in §1.704-1(b)(3) both partners in example (19)(iii) of the proposed regulations are equal partners. The final regulations have incorporated this additional guidance into example (19)(iii).

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. The Internal Revenue Service has concluded that the final regulations contained herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

DRAFTING INFORMATION

The principal author of these regulations is John G. Schmalz of the legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing these regulations both on matters of substance and style.

Adoption of amendments to the regulations

Accordingly, effective for partnership taxable years beginning after April 30, 1986, 26 CFR Part 1 is amended to read as follows:

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805.* * *

Par. 2. Section 1.704-1 is amended by revising paragraph § 1.704-1(b) is revised to read as follows:

§1.704-1 Partner's distributive share.

Examples	1.704-1(b)(5)

(1) *In general*—(i) *Basic principles*. Under section 704(b) if a partnership agreement does not provide for the allocation of income, gain, loss, deduction, or credit (or item thereof) to a partner, or if the partnership agreement provides for the allocation of income, gain, loss, deduction, or credit (or item thereof) to a partner but such allocation does not have substantial economic effect, then the partner's distributive share of such income, gain, loss, deduction, or credit (or item thereof) shall be determined in accordance with such partner's interest in the partnership (taking into account all facts and circumstances). If the partnership agreement provides for the allocation of income, gain, loss, deduction, or credit (or item thereof) to a partner, there are three ways in which such allocation will be respected under section 704(b) and this paragraph. First, the allocation can have substantial economic effect in accordance with paragraph (b)(2) of this section. Second, taking into account all facts and circumstances, the allocation can be in accordance with the partner's interest in the partnership. See paragraph (b)(3) of this section. Third, the allocation can be deemed to be in accordance with the partner's interest in the partnership pursuant to one of the special rules contained in paragraph (b)(4) of this section. To the extent an allocation under the partnership agreement of income, gain, loss, deduction, or credit (or item thereof) to a partner does not have substantial economic effect, is not in accordance with the partner's interest in the partnership, and is not deemed to be in accordance with the partner's interest in the partnership, such income, gain, loss, deduction, or credit (or item thereof) will be reallocated in accordance with the partner's interest in partnership (determined under paragraph (b)(3) of this section).

(ii) *Effective dates*. The provisions of this paragraph are effective for partnership taxable years beginning after December 31, 1975. However, for partnership taxable years beginning after December 31, 1975, but before May 1, 1986, an allocation of income, gain, loss, deduction, or credit (or item thereof) to a partner that is not respected under this paragraph nevertheless will be respected under section 704(b) if such allocation has substantial economic effect as that term has been interpreted under the relevant case law, the legislative history of section 210(d) of the Tax Reform Act of 1976, and the provisions of this paragraph in effect for partnership taxable years beginning before May 1, 1986.

(iii) *Effect of other sections*. The determination of a partner's distributive share of income, gain, loss, deduction, or credit (or item thereof) under section 704(b) and this paragraph is not conclusive as to the tax treatment of a partner with respect to such distributive share. For example, an allocation of loss or deduction to a partner that is respected under section 704(b) and this paragraph may not be deductible by such partner if the partner lacks the requisite motive for economic gain (see, *e.g.*, *Goldstein v. Commissioner*, 364 F.2d 734 (2d Cir. 1966)), or may be disallowed for that taxable year (and held in suspense) if the limitations of section 465 or section 704(d) are applicable. Similarly, an allocation that is respected under section 704(b) and this paragraph nevertheless may be reallocated under other provisions, such as section 482, section 704(e)(2), section 706(d) (and related assignment of income principles), and paragraph (b)(2)(ii) of §1.751-1. If a partnership has a section 754 election in effect, a partner's distributive share of partnership income, gain, loss, or deduction may be affected as provided in §1.743-1 (see paragraph (b)(2)(iv)*(m)(2)* of this section). The examples in paragraph (b)(5) of this section concern the validity of allocations under section 704(b) and this paragraph and, except as noted, do not address other tax consequences that may result from such allocations.

(v) *Purported allocations.* Section 704(b) and this paragraph do not apply to a purported allocation if it is made to a person who is not a partner of the partnership (see section 7701(a)(2) and paragraph (d) of §301.7701-3) or to a person who is not receiving the purported allocation in his capacity as a partner (see section 707(a) and paragraph (a) of §1.707-1).

(vi) *Section 704(c) determinations.* Under section 704(c) if property is contributed by a partner to a partnership, the partners' distributive shares of income, gain, loss, and deduction, as computed for tax purposes, with respect to such property are determined so as to take account of the variation between the adjusted tax basis and fair market value of such property. Although section 704(b) does not directly determine the partners' distributive shares of tax items governed by section 704(c), the partners' distributive shares of tax items are determined under section 704(c) with reference to the partners' distributive shares of the corresponding book items, as determined under section 704(b) and this paragraph. (See paragraphs (b)(2)(iv)*(d)* and (b)(4)(i) of this section.) Section 704(c), as cited in this paragraph, refers to such section as in effect for property contributed to a partnership after March 31, 1984. See example (13)(i) of paragraph (b)(5) of this section.

(vii) *Bottom line allocations.* Section 704(b) and this paragraph are applicable to allocations of income, gain, loss, deduction, and credit, allocations of specific items of income, gain, loss, deduction, and credit, and allocations of partnership net or "bottom line" taxable income and loss. An allocation to a partner of a share of partnership net or "bottom line" taxable income or loss shall be treated as an allocation to such partner of the same share of each item of income, gain, loss, and deduction that is taken into account in computing such net or "bottom line" taxable income or loss. See example (15)(i) of paragraph (b)(5) of this section.

(2) *Substantial economic effect*—(i) *Two-part analysis.* The determination of whether an allocation of income, gain, loss, or deduction (or item thereof) to a partner has substantial economic effect involves a two-part analysis that is made as of the end of the partnership taxable year to which the allocation relates. First, the allocation must have economic effect (within the meaning of paragraph (b)(2)(ii) of this section). Second, the economic effect of the allocation must be substantial (within the meaning of paragraph (b)(2)(iii) of this section).

(ii) *Economic effect—(a) Fundamental principles.* In order for an allocation to have economic effect, it must be consistent with the underlying economic arrangement of the partners. This means that in the event there is an economic benefit or economic burden that corresponds to an allocation, the partner to whom the allocation is made must receive such economic benefit or bear such economic burden.

(b) Three requirements. Based on the principles contained in paragraph (b)(2)(ii)*(a)* of this section, and except as otherwise provided in this paragraph, an allocation of income, gain, loss, or deduction (or item thereof) to a partner will have economic effect if, and only if, throughout the full term of the partnership, the partnership agreement provides—

(1) For the determination and maintenance of the partners' capital accounts in accordance with the rules of paragraph (b)(2)(iv) of this section,

(2) Upon liquidation of the partnership (or any partner's interest in the partnership), liquidating distributions are required in all cases to be made in accordance with the positive capital account balances of the partners, as determined after taking into account all capital account adjustments for the partnership taxable year during which such liquidation occurs (other than those made pursuant to this requirement *(2)* and requirement *(3)* of this paragraph (b)(2)(ii)*(b)*), by the end of such taxable year (or, if later, within 90 days after the date of such liquidation), and

(3) If such partner has a deficit balance in his capital account following the liquidation of his interest in the partnership, as determined after taking into account all capital account adjustments for the partnership taxable year during which such liquidation occurs (other than those made pursuant to this requirement *(3)*), he is unconditionally obligated to restore the amount of such deficit balance to the partnership by the end of such taxable year (or, if later, within 90 days after the date of such liquidation), which amount shall, upon liquidation of the partnership, be paid to creditors of the partnership or distributed to other partners in accordance with their positive capital account balances (in accordance with requirement *(2)* of this paragraph (b)(2)*(ii)*(*b*)).

For purposes of the preceding sentence, a partnership taxable year shall be determined without regard to section 706(c)(2)(A). See examples (1)(i) and (ii), (4)(i), (8)(i), and (16)(i) of paragraph (b)(5) of this section.

(c) Obligation to restore deficit. If a partner is not expressly obligated to restore the deficit balance in his capital account, such partner nevertheless will be treated as obligated to restore the deficit balance in his capital account (in accordance with requirement *(3)* of paragraph (b)(2)(ii)((*b*) of this section) to the extent of—

(1) The outstanding principal balance of any promissory note (of which such partner is the marker) contributed to the partnership by such partner (other than a promissory note that is readily tradable on an established securities market), and

(2) The amount of any unconditional obligation of such partner (whether imposed by the partnership agreement or by State or local law) to make subsequent contributions to the partnership (other than pursuant to a promissory note of which such partner is the marker),

provided that such note or obligation is required to be satisfied at a time no later than the end of the partnership taxable year in which such partner's interest is liquidated (or, if later, within 90 days after the date of such liquidation). If a promissory note referred to in the previous sentence is negotiable, a partner will be considered required to satisfy such note within the time period specified in such sentence if the partnership agreement provides that, in lieu of actual satisfaction, the partnership will retain such note and such partner will contribute to the partnership the excess, if any, of the outstanding principal balance of such note over its fair market value at the time of liquidation. See paragraph (b)(2)(iv)*(d)(2)* of this section. See examples (1)(ix) and (x) of paragraph (b)(5) of this section. A partner in no event will be considered obligated to restore the deficit balance in his capital account to the partnership (in accordance with requirement *(3)* of paragraph (b)(2)(ii)*(b)* of this section) to the extent such partner's obligation is not legally enforceable, or the facts and circumstances otherwise indicate a plan to avoid or circumvent such obligation. See paragraphs (b)(2)(ii)*(f)*, (b)(2)(ii)*(h)*, and (b)(4)(vi) of this section for other rules regarding such obligation.

(d) Alternate test for economic effect. If—

(1) Requirements *(1)* and *(2)* of paragraph (b)(2)(ii)*(b)* of this section are satisfied, and

(2) The partner to whom an allocation is made is not obligated to restore the deficit balance in his capital account to the partnership (in accordance with requirement *(3)* of paragraph (b)(2)(ii)*(b)* of this section), or is obligated to restore only a limited dollar amount of such deficit balance, and

(3) The partnership agreement contains a "qualified income offset,"

such allocation will be considered to have economic effect under this paragraph (b)(2)(ii)*(d)* to the extent such allocation does not cause or increase a deficit balance in such partner's capital account (in excess of any limited dollar amount of such deficit balance that such partner is obligated to restore) as of the end of the partnership taxable year to which such allocation relates. In determining the extent to which the previous sentence is satisfied, such partner's capital account also shall be reduced for—

(4) Adjustments that, as of the end of such year, reasonably are expected to be made to such partner's capital account under paragraph (b)(2)(iv)*(k)* of this section for depletion allowances with respect to oil and gas properties of the partnership, and

(5) Allocations of loss and deduction that, as of the end of such year, reasonably are expected to be made to such partner pursuant to section 704(e)(2), section 706(d), and paragraph (b)(2)(ii) of §1.751-1, and

(6) Distributions that, as of the end of such year, reasonably are expected to be made to such partner to the extent they exceed offsetting increases to such partner's capital account that reasonably are expected to occur during (or prior to) the partnership taxable years in which such distributions reasonably are expected to be made.

For purposes of determining the amount of expected distributions and expected capital account increases described in *(6)* above, the rule set out in paragraph (b)(2)(iii)*(c)* of this section concerning the presumed value of partnership property shall apply. The partnership agreement contains a "qualified income offset" if, and only if, it provides that a partner who unexpectedly receives an adjustment, allocation, or distribution described in *(4)*, *(5)*, or *(6)* above, will be allocated items of income and gain in an amount and manner sufficient to eliminate such deficit balance as quickly as possible. See examples (1)(iii), (iv), (v), (vi), (viii), (ix), and (x), (15), and (16)(ii) of paragraph (b)(5) of this section.

(e) Partial economic effect. If only a portion of an allocation made to a partner with respect to a partnership taxable year has economic effect, both the portion that has economic effect and the portion that is reallocated shall consist of a proportionate share of all items that made up the allocation to such partner for such year. See examples (15)(ii) and (iii) of paragraph (b)(5) of this section.

(f) Reduction of obligation to restore. If requirements *(1)* and *(2)* of paragraph (b)(2)(ii)*(b)* of this section are satisfied, a partner's obligation to restore the deficit balance in his capital account (or any limited dollar amount thereof) to the partnership may be eliminated or reduced as of the end of a partnership taxable year without affecting the validity of prior allocations (see paragraph (b)(4)(vi) of this section) to the extent the deficit balance (if any) in such partner's capital account, after reduction for the items described in *(4)*, *(5)*, and *(6)* of paragraph (b)(2)(iv)*(d)* of this section, will not exceed the partner's remaining obligation (if any) to restore the deficit balance in his capital account. See example (1)(viii) of paragraph (b)(5) of this section.

(g) Liquidation defined. For purposes of this paragraph, a liquidation of a partner's interest in the partnership occurs upon the earlier of *(1)* the date upon which there is a liquidation of the partnership, or *(2)* the date upon which there is a liquidation of the partner's interest in the partnership under paragraph (d) of §1.761-1. For purposes of this paragraph, the liquidation of a partnership occurs upon the earlier of *(3)* the date upon which the partnership is terminated under section 708(b)(1), or *(4)* the date upon which the partnership ceases to be a going concern even though it may continue in existence for the purpose of winding up its affairs, paying its debts, and distributing any remaining balance to its partners). Requirements *(2)* and *(3)* of paragraph (b)(2)(ii)*(b)* of this section will be considered unsatisfied if the liquidation of a partner's interest in the partnership is delayed after its primary business activities have been terminated (for example, by continuing to engage in a relatively minor amount of business activity, if such actions themselves do not cause the partnership to terminate pursuant to section 708(b)(1)) for a principal purpose of deferring any distribution pursuant to requirement *(2)* of paragraph (b)(2)(ii)*(b)* of this section or deferring any partner's obligation under requirement *(3)* of paragraph (b)(2)(ii)*(b)* of this section.

(h) Partnership agreement defined. For purposes of this paragraph, the partnership agreement includes all agreements among the partners, or between one or more partners and the partnership, concerning affairs of the partnership and responsibilities of partners, whether oral or written, and whether or not embodied in a document referred to by the partners as the partnership agreement. Thus, in determining whether distributions are required in all cases to be made in accordance with the partners' positive capital account balances (requirement *(2)* of paragraph (b)(2)(ii)*(b)* of this section), and in determining the extent to which a partner is obligated to restore a deficit balance in his capital account (requirement *(3)* of paragraph (b)(2)(ii)*(b)* of

this section), all arrangements among partners, or between one or more partners and the partnership relating to the partnership, direct and indirect, including puts, options, and other buy-sell agreements, and any other "stop-loss" arrangement, are considered to be part of the partnership agreement. In addition, the partnership agreement includes provisions of Federal, State, or local law that govern the affairs of the partnership or are considered under such law to be a part of the partnership agreement (see the last sentence of paragraph (c) of §1.761-1). For purposes of this paragraph (b)(2)(ii)*(h)*, an agreement with a partner of a partnership shall include an agreement with a person related, within the meaning of section 267(b) (without modification by section 267(e)(1)) of section 707(b)(1), to such partner.

(i) Economic effect equivalence. Allocations made to a partner that do not otherwise have economic effect under this paragraph (b)(2)(ii) shall nevertheless have economic effect, provided that the partnership agreement ensures that a liquidation of the partnership as of the end of each partnership taxable year will produce the same economic results to the partners as would occur if requirements *(1)*, *(2)*, and *(3)* of paragraph (b)(2)(ii)*(b)* of this section had been satisfied. See examples (4)(ii) and (iii) of paragraph (b)(5) of this section.

(iii) *Substantiality—(a) General rules.* Except as otherwise provided in this paragraph (b)(2)(iii), the economic effect of an allocation (or allocations) is substantial if there is a reasonable possibility that the allocation (or allocations) will affect substantially the dollar amounts to be received by the partners from the partnership, independent of tax consequences. Notwithstanding the preceding sentence, the economic effect of an allocation (or allocations) is not substantial if, at the time the allocation becomes part of the partnership agreement, *(1)* the after-tax economic consequences of at least one partner may, in present value terms, be enhanced compared to such consequences if the allocation (or allocations were not contained in the partnership agreement, and *(2)* there is a strong likelihood that the after-tax economic consequences of no partner will, in present value terms, be substantially diminished compared to such consequences if the allocation (or allocations) were not contained in the partnership agreement. In determining the after-tax economic benefit or detriment to a partner, tax consequences that result from the interaction of the allocation with such partner's tax attributes that are unrelated to the partnership will be taken into account. See examples (5) and (9) of paragraph (b)(5) of this section. The economic effect of an allocation is not substantial in the two situations described in paragraphs (b)(2)(iii)*(b)* and *(c)* of this section. However, even if an allocation is not described therein, its economic effect may be insubstantial under the general rules stated in this paragraph (b)(2)(iii)*(a)*. References in this paragraph (b)(2)(iii) to allocations includes capital account adjustments made pursuant to paragraph (b)(2)(iv)*(k)* of this section.

(b) Shifting tax consequences. The economic effect of an allocation (or allocations) in a partnership taxable year is not substantial if, at the time the allocation (or allocations) becomes part of the partnership agreement, there is a strong likelihood that—

(1) The net increases and decreases that will be recorded in the partners' respective capital accounts for such taxable year will not differ substantially from the net increases and decreases that would be recorded in such partners' respective capital accounts for such year if the allocations were not contained in the partnership agreement, and

(2) The total tax liability of the partners (for their respective taxable years in which the allocations will be taken into account) will be less than if the allocations were not contained in the partnership agreement (talking into account tax consequences that result from the interaction of the allocation (or allocations) with partner tax attributes that are unrelated to the partnership).

If, at the end of a partnership taxable year to which an allocation (or allocations) relates, the net increases and decreases that are recorded in the partners' respective capital accounts do not differ substantially from the net increases and decreases that would have been recorded in such partners' respective capital accounts had the allocation (or allocations) not been contained in the partnership agreement, and the total tax liability of the partners is (as described in *(2)* above) less than it would have been had the allocation (or allocations) not been contained in the partnership agreement, it will be presumed that, at the time the allocation (or allocations) became part of such partnership agreement, there was a strong likelihood that these results would occur. This presumption may be overcome by a showing of facts and circumstances that prove otherwise. See examples (6), (7)(ii) and (iii), and (10)(ii) of paragraph (b)(5) of this section.

(c) Transitory allocations. If a partnership agreement provides for the possibility that one or more allocations (the "original allocation(s)") will be largely offset by one or more other allocations (the "offsetting allocations(s)"), and, at the time the allocations become part of the partnership agreement, there is a strong likelihood that—

(1) The net increases and decreases that will be recorded in the partners' respective capital accounts for the taxable years to which the allocations relate will not differ substantially from the net increases and decreases that would be recorded in such partners' respective capital accounts for such years if the original allocation(s) and offsetting allocation(s) were not contained in the partnership agreement, and

(2) The total tax liability of the partners (for their respective taxable years in which the allocations will be taken into account) will be less than if the allocations were not contained in the partnership agreement (taking into account tax consequences that result from the interaction of the allocation (or allocations) with partner tax attributes that are unrelated to the partnership)

the economic effect of the original allocation(s) and offsetting allocation(s) will not be substantial. If, at the end of a partnership taxable year to which an offsetting allocation(s) relates, the net increases and decreases recorded in the partners' respective capital accounts do not differ substantially from the net increases and decreases that would have been recorded in such partners' respective capital accounts had the original allocation(s) and the offsetting allocation(s) not been contained in the partnership agreement, and the total tax liability of the partners is (as described in *(2)* above) less than it would have been had such allocations not been contained in the partnership agreement, it will be presumed that, at the time the allocations became part of the partnership agreement, there was a strong likelihood that these results would occur. This presumption may be overcome by a showing of facts and circumstances that prove otherwise. See examples (1)(xi), (2), (3), (7)(i) and (iv), (8)(ii), and (17) of paragraph (b)(5) of this section. Notwithstanding the foregoing, the original allocation(s) and the offsetting allocation(s) will not be insubstantial (under this paragraph (b)(2)(iii)(*c*)) if, at the time the allocations become part of the partnership agreement, there is a strong likelihood that the offsetting allocation(s) will not, in large part, be made within five years after the original allocation(s) is made (determined on a first-in, first-out basis). See example (2) of paragraph (b)(5) of this section. For purposes of applying the provisions of this paragraph (b)(2)(iii) (and paragraphs (b)(2)(ii)(*d*)(*6*) and (b)(3)(iii) of this section), the adjusted tax basis of partnership property (or, if partnership property is properly reflected on the books of the partnership at a book value that differs from its adjusted tax basis, the book value of such property) will be presumed to be the fair market value of such property, and adjustments to the adjusted tax basis (or book value) of such property will be presumed to be matched by corresponding changes in such property's fair market value. Thus, there cannot be a strong likelihood that the economic effect of an allocation (or allocations) will be largely offset by an allocation (or allocations) of gain or loss from the disposition of partnership property. See examples (1)(vi) and (xi) of paragraph (b)(5) of this section.

(iv) *Maintenance of capital accounts—(a) In general.* The economic effect test described in paragraph (b)(2)(ii) of this section requires an examination of the capital accounts of the partners of a partnership, as maintained under the partnership agreement. Except as otherwise provided in paragraph (b)(2)(ii)(*i*) of this section, an allocation of income, gain, loss, or deduction will not have economic effect under paragraph (b)(2)(ii) of this section, and will not be deemed to be in accordance with a partner's interest in the partnership under paragraph (b)(4) of this section, unless the capital accounts of the partners are determined and maintained throughout the full term of the partnership in accordance with the capital accounting rules of this paragraph (b)(2)(iv).

(b) Basic rules. Except as otherwise provided in this paragraph (b)(2)(iv), the partners' capital accounts will be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) if, and only if, each partner's capital account is increased by *(1)* the amount of money contributed by him to the partnership, *(2)* the fair market value of property contributed by him to the partnership (net of liabilities securing such contributed property that the partnership is considered to assume or take subject to under section 752), and *(3)* allocations to him of partnership income and gain (or items thereof), including income and gain exempt from tax and income and gain described in paragraph (b)(2)(iv)(*g*) of this section, but excluding income and gain described in paragraph (b)(4)(i) of this section; and is decreased by *(4)* the amount of money distributed to him by the partnership, *(5)* the fair market value of property distributed to him by the partnership (net of liabilities securing such distributed property that such partner is considered to assume or take subject to under section 752), *(6)* allocations to him of expenditures of the partnership described in section 705(a)(2)(B), and *(7)* allocations of partnership loss and deduction (or item thereof), including loss and deduction described in paragraph (b)(2)(iv)(*g*) of this section, but excluding items described in *(6)* above and loss or deduction described in paragraphs (b)(4)(i) or (b)(4)(iii) of this section; and is otherwise adjusted in accordance with the additional rules set forth in this paragraph (b)(2)(iv). For purposes of this paragraph, a partner who has more than one interest in a partnership shall have a single capital account that reflects all such interests, regardless of the class of interests owned by such partner (*e.g.*, general or limited) and regardless of the time or manner in which such interests were acquired.

(c) Treatment of liabilities. For purposes of this paragraph (b)(2)(iv), *(1)* money contributed by a partner to a partnership includes the amount of any partnership liabilities that are assumed by such partner (other than liabilities described in paragraph (b)(2)(iv)(*b*)(*5*) of this section that are assumed by a distributee partner) but does not include increases in such partner's share of partnership liabilities (see section 752(a)), and *(2)* money distributed to a partner by a partnership includes the amount of such partner's individual liabilities that are assumed by the partnership (other than liabilities described in paragraph (b)(2)(iv)(*b*)(*2*) of this section that are assumed by the partnership) but does not include decreases in such partner's share of partnership liabilities (see section 752(b)). For purposes of this paragraph (b)(2)(iv)(*c*), liabilities may be considered to be assumed only to the extent the assuming party is thereby subjected to primary and personal liability with respect to such obligation, and the obligee is aware of the assumption and can directly enforce the assuming party's obligation.

(d) Contributed property—(1) In general. The basic capital accounting rules contained in paragraph (b)(2)(iv)(*b*) of this section require that a partner's capital account be increased by the fair market value of property contributed to the partnership by such partner on the date of contribution. See examples (13)(i) and (v) of paragraph (b)(5) of this section. Consistent with section 752(c), section 7701(g) does not apply in determining such fair market value.

(2) Contribution of promissory notes. Notwithstanding the general rule of paragraph (b)(2)(iv)(*b*)(*2*) of this section, except as provided in this paragraph (b)(2)(iv)(*d*)(*2*), if a promissory note is contributed to a partnership by a partner who is the maker of such note, such partner's capital account will be increased with respect to such note only when there is a taxable disposition of such note by the partnership or when the partner makes principal payments on such note. See example (1)(ix) of paragraph (b)(5) of this section. The first sentence of this paragraph (b)(2)(iv)(*d*)(*2*) shall not apply if the note referred to therein is readily tradable on an established securities market. See also paragraph (b)(2)(ii)(*c*) of this section. Furthermore, a partner whose interest is liquidated will be considered as satisfying his obligation to restore the deficit balance in his capital

account to the extent of *(i)* the fair market value, at the time of contribution, of any negotiable promissory note (of which such partner is the maker) that such partner contributes to the partnership on or after the date his interest is liquidated and within the time specified in paragraph (b)(2)(ii)*(b)(3)* of this section, and *(ii)* the fair market value, at the time of liquidation, of the unsatisfied portion of any negotiable promissory note (of which such partner is the maker) that such partner previously contributed to the partnership. For purposes of the preceding sentence, the fair market value of a note will be no less than the outstanding principal balance of such note, provided that such note bears interest at a rate no less than the applicable federal rate at the time of valuation.

(3) Section 704(c) considerations. Section 704(c) governs the determination of the partners' distributive shares of income, gain, loss, and deduction, as computed for tax purposes, with respect to property contributed to a partnership (see paragraph (b)(1)(iv) of this section). In cases where section 704(c) applies to partnership property, the capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless the partnership agreement requires that the partners' capital accounts be adjusted in accordance with paragraph (b)(2)(iv)*(g)* of this section for allocations to them of depreciation, depletion, amortization, and gain and loss, as computed for book purposes, with respect to such property. See example (13)(i) of paragraph (b)(5) of this section.

(e) Distributed property—(1) In general. The basic capital accounting rules contained in paragraph (b)(2)(iv)*(b)* of this section require that a partner's capital account be decreased by the fair market value of property distributed by the partnership (without regard to section 7701(g)) to such partner (whether in connection with a liquidation or otherwise). To satisfy this requirement, the capital accounts of the partners first must be adjusted to reflect the manner in which the unrealized income, gain, loss, and deduction inherent in such property (that has not been reflected in the capital accounts previously) would be allocated among the partners if there were a taxable disposition of such property for the fair market value of such property (taking section 7701(g) into account) on the date of distribution. See example (14)(v) of paragraph (b)(5) of this section.

(2) Distribution of promissory notes. Notwithstanding the general rule of paragraph (b)(2)(iv)*(b)*(5), except as provided in this paragraph (b)(2)(iv)*(e)(2)*, if a promissory note is distributed to a partner by a partnership that is the maker of such note, such partner's capital account will be decreased with respect to such note only when there is a taxable disposition of such note by the partner or when the partnership makes principal payments on the note. The previous sentence shall not apply if a note distributed to a partner by a partnership who is the maker of such note is readily tradable on an established securities market. Furthermore, the capital account of a partner whose interest in a partnership is liquidated will be reduced to the extent of *(i)* the fair market value, at the time of distribution, of any negotiable promissory note (of which such partnership is the maker) that such partnership distributes to the partner on or after the date such partner's interest is liquidated and within the time specified in paragraph (b)(2)(ii)*(b)(2)* of this section, and *(ii)* the fair market value, at the time of liquidation, of the unsatisfied portion of any negotiable promissory note (of which such partnership is the maker) that such partnership previously distributed to the partner. For purposes of the preceding sentence, the fair market value of a note will be no less than the outstanding principal balance of such note, provided that such note bears interest at a rate no less than the applicable federal rate at the time of valuation.

(f) Revaluations of property. A partnership agreement may, upon the occurrence of certain events, increase or decrease the capital accounts of the partners to reflect a revaluation of partnership property on the partnership's books. Capital accounts so adjusted will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless—

(1) The adjustments are based on the fair market value of partnership property (taking section 7701(g) into account) on the date of adjustment, and

(2) The adjustments reflect the manner in which the unrealized income, gain, loss, or deduction inherent in such property (that has not been reflected in the capital accounts previously) would be allocated among the partners if there were a taxable disposition of such property for such fair market value on that date, and

(3) The partnership agreement requires that the partners' capital accounts be adjusted in accordance with paragraph (b)(2)(iv)*(g)* of this section for allocations to them of depreciation, depletion, amortization, and gain or loss, as computed for book purposes, with respect to such property, and

(4) The partnership agreement requires that the partners' distributive shares of depreciation, depletion, amortization, and gain or loss, as computed for tax purposes, with respect to such property be determined so as to take account of the variation between the adjusted tax basis and book value of such property in the same manner as under section 704(c) (see paragraph (b)(4)(i) of this section), and

(5) The adjustments are made principally for a substantial non-tax business purpose—

(i) In connection with a contribution of money or other property (other than a *de minimis* amount) to the partnership by a new or existing partner as consideration for an interest in the partnership, or

(ii) In connection with a distribution of money or other property (other than a *de minimis* amount) by the partnership to a retiring or continuing partner as consideration for an interest in the partnership, or

(iii) Under generally accepted industry accounting practices, provided substantially all of the partnership's property (excluding money) consists of stock, securities, commodities, options, warrants, futures, or similar instruments that are readily tradable on an established securities market.

See examples (14) and (18) of paragraph (b)(5) of this section. If the capital accounts of the partners are not adjusted to reflect the fair market value of partnership property when an interest in the partnership is acquired from or relinquished to the partnership, paragraphs (b)(1)(iii) and (b)(1)(iv) of this section should be consulted regarding the potential tax consequences that may arise if the principles of section 704(c) are not applied to determine the partners' distributive shares of depreciation, depletion, amortization, and gain or loss, as computed for tax purposes, with respect to such property.

(g) Adjustments to reflect book value—(1) In general. Under paragraphs (b)(2)(iv)*(d)* and (b)(2)(iv)*(f)* of this section, property may be properly reflected on the books of the partnership at a book value that differs from the adjusted tax basis of such property. In these circumstances, paragraphs (b)(2)(iv)*(d)(3)* and (b)(2)(iv)*(f)(3)* of this section provide that the capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless the partnership agreement requires the partners' capital accounts to be adjusted in accordance with this paragraph (b)(2)(iv)*(g)* for allocations to them of depreciation, depletion, amortization, and gain or loss, as computed for book purposes, with respect to such property. In determining whether the economic effect of an allocation of book items is substantial, consideration will be given to the effect of such allocation on the determination of the partners' distributive shares of corresponding tax items under section 704(c) and paragraph (b)(4)(i) of this section. See example (17) of paragraph (b)(5) of this section. If an allocation of book items under the partnership agreement does not have substantial economic effect (as determined under paragraphs (b)(2)(ii) and (b)(2)(iii) of this section), or is not otherwise respected under this paragraph, such items will be reallocated in accordance with the partners' interests in the partnership, and such reallocation will be the basis upon which the partners' distributive shares of the corresponding tax items are determined under section 704(c) and paragraph (b)(4)(i) of this section. See examples (13), (14), and (18) of paragraph (b)(5) of this section.

(2) Payables and receivables. References in this paragraph (b)(2)(iv) and paragraph (b)(4)(i) of this section to book and tax depreciation, depletion, amortization, and gain or loss with respect to property that has an adjusted tax basis that differs from book value include, under analogous rules and principles, the unrealized income or deduction with respect to accounts receivable, accounts payable, and other accrued but unpaid items.

(3) Determining amount of book items. The partners' capital accounts will not be considered adjusted in accordance with this paragraph (b)(2)(iv)*(g)* unless book depreciation, depletion, and amortization with respect to partnership property are computed in accordance with a reasonable method selected by the partnership, and under such method *(i)* if the book value of partnership property exceeds the adjusted tax basis thereof, the depreciation, depletion, or amortization, as computed for book purposes, will be no less than the depreciation, depletion, or amortization, as computed for tax purposes, and *(ii)* if the adjusted tax basis of partnership property exceeds the book value thereof, the depreciation, depletion, or amortization, as computed for book purposes, will be no greater than the depreciation, depletion, or amortization, as computed for tax purposes, and (iii) if the book value of partnership property equals the adjusted tax basis thereof, the depreciation, depletion, or amortization, as computed for book purposes, will equal the depreciation, depletion, or amortization, as computed for tax purposes.

(h) Determinations of fair market value. For purposes of this paragraph (b)(2)(iv), the fair market value assigned to property contributed to a partnership, property distributed by a partnership, or property otherwise revalued by a partnership, will be regarded as correct, provided that *(1)* such value is reasonably agreed to among the partners in arm's-length negotiations, and *(2)* the partners have sufficiently adverse interests. If, however, these conditions are not satisfied and the value assigned to such property is overstated or understated (by more than an insignificant amount), the capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv). Valuation of property contributed to the partnership, distributed by the partnership, or otherwise revalued by the partnership shall be on a property-by-property basis, except to the extent the regulations under section 704(c) permit otherwise.

(i) Section 705(a)(2)(B) expenditures—(1) In general. The basic capital accounting rules contained in paragraph (b)(2)(iv)*(b)* of this section require that a partner's capital account be decreased by allocations made to such partner of expenditures described in section 705(a)(2)(B). See example (11) of paragraph (b)(5) of this section. If an allocation of these expenditures under the partnership agreement does not have substantial economic effect (as determined under paragraphs (b)(2)(ii) and (b)(2)(iii) of this section), or is not otherwise respected under this paragraph, such expenditures will be reallocated in accordance with the partners' interest in the partnership.

(2) Expenses described in section 709. Except for amounts with respect to which an election is properly made under section 709(b), amounts paid or incurred to organize a partnership or to promote the sale of (or to sell) an interest in such a partnership shall, solely for purposes of this paragraph, be treated as section 705(a)(2)(B) expenditures, and upon liquidation of the partnership no further capital account adjustments will be made in respect thereof.

(3) Disallowed losses. If a deduction for a loss incurred in connection with the sale or exchange of partnership property is disallowed to the partnership under section 267(a)(1) or section 707(b), that deduction shall, solely for purposes of this paragraph, be treated as a section 705(a)(2)(B) expenditure.

(j) Basis adjustments to section 38 property. The capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless such capital accounts are adjusted by the partners' shares of any upward or downward basis adjustments allocated to them under this paragraph (b)(2)(iv)*(j)*. When there is a reduction in the adjusted tax basis of partnership section 38 property under section 48(q)(1) or section 48(q)(3), section 48(q)(6) provides for an equivalent downward adjustment to the aggregate basis of partnership interests (and no additional adjustment is made under section 705(a)(2)(B). These downward basis adjustments shall be shared among the partners in the same proportion as the adjusted tax basis or cost of (or the qualified investment in) such section 38 property is allocated among the partners under paragraph (f) of

§1.46-3 (or paragraph (a)(4)(iv) of §1.48-8). See example (2)(iii) of paragraph (b)(5) of this section. Conversely, when there is an increase in the adjusted tax basis of partnership section 38 property under section 48(q)(2), section 48(q)(6) provides for an equivalent upward adjustment to the aggregate basis of partnership interests. These upward adjustments shall be allocated among the partners in the same proportion as the investment tax credit from such property is recaptured by the partners under §1.47-6.

(k) Depletion of oil and gas properties—(1) In general. The capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless such capital accounts are adjusted for depletion and gain or loss with respect to the oil or gas properties of the partnership in accordance with this paragraph (b)(2)(iv)*(k)*.

(2) Simulated depletion. Except as provided in paragraph (b)(2)(iv)*(k)(3)* of this section, a partnership shall, solely for purposes of maintaining capital accounts under this paragraph, compute simulated depletion allowances with respect to its oil and gas properties at the partnership level. These allowances shall be computed on each depletable oil or gas property of the partnership by using either the cost depletion method or the percentage depletion method (computed in accordance with section 613 at the rates specified in section 613A(c)(5) without regard to the limitations of section 613A, which theoretically could apply to any partner) for each partnership taxable year that the property is owned by the partnership and subject to depletion. The choice between the simulated cost depletion method and the simulated percentage depletion method shall be made on a property-by-property basis in the first partnership taxable year beginning after April 30, 1986 for which it is relevant for the property, and shall be binding for all partnership taxable years during which the oil or gas property is held by the partnership. The partnership shall make downward adjustments to the capital accounts of the partners for the simulated depletion allowance with respect to each oil or gas property of the partnership, in the same proportion as such partners (or their predecessors in interest) were properly allocated the adjusted tax basis of each such property. The aggregate capital account adjustments for simulated percentage depletion allowances with respect to an oil or gas property of the partnership shall not exceed the aggregate adjusted tax basis allocated to the partners with respect to such property. Upon the taxable disposition of an oil or gas property by a partnership, such partnership's simulated gain or loss shall be determined by subtracting its simulated adjusted basis in such property from the amount realized upon such disposition. (The partnership's simulated adjusted basis in an oil or gas property is determined in the same manner as adjusted tax basis except that simulated depletion allowances are taken into account instead of actual depletion allowances.) The capital accounts of the partners shall be adjusted upward by the amount of any simulated gain in proportion to such partners' allocable shares of the portion of the total amount realized from the disposition of such property that exceeds the partnership's simulated adjusted basis in such property. The capital accounts of such partners shall be adjusted downward by the amount of any simulated loss in proportion to such partners' allocable shares of the total amount realized from the disposition of such property that represents recovery of the partnership's simulated adjusted basis in such property. See section 613A(c)(7)(D) and the regulations thereunder and paragraph (b)(4)(v) of this section. See example (19)(iv) of paragraph (b)(5) of this section.

(3) Actual depletion. Pursuant to section 613A(c)(7)(D) and the regulations thereunder, the depletion allowance under section 611 with respect to the oil and gas properties of a partnership is computed separately by the partners. Accordingly, in lieu of adjusting the partners' capital accounts as provided in paragraph (b)(2)(iv)*(k)(2)* of this section, the partnership may make downward adjustments to the capital account of each partner equal to such partner's depletion allowance with respect to each oil or gas property of the partnership (for the partner's taxable year that ends with or within the partnership's taxable year). The aggregate adjustments to the capital account of a partner for depletion allowances with respect to an oil or gas property of the partnership shall not exceed the adjusted tax basis allocated to such partner with respect to such property. Upon the taxable disposition of an oil or gas property by a partnership, the capital account of each partner shall be adjusted upward by the amount of any excess of such partner's allocable share of the total amount realized from the disposition of such property over such partner's remaining adjusted tax basis in such property. If there is no such excess, the capital account of such partner shall be adjusted downward by the amount of any excess of such partner's remaining adjusted tax basis in such property over such partner's allocable share of the total amount realized from the disposition thereof. See section 613A(c)(7)(D) and the regulations thereunder and paragraph (b)(4)(v) of this section.

(4) Effect of book values. If an oil or gas property of the partnership is, under paragraphs (b)(2)(iv)*(d)* or (b)(2)(iv)*(f)* of this section, properly reflected on the books of the partnership at a book value that differs from the adjusted tax basis of such property, the rules contained in this paragraph (b)(2)(iv)*(k)* and paragraph (b)(4)(v) of this section shall be applied with reference to such book value. A revaluation of a partnership oil or gas property under paragraph (b)(2)(iv)*(f)* of this section may give rise to a reallocation of the adjusted tax basis of such property, or a change in the partners' relative shares of simulated depletion from such property, only to the extent permitted by section 613A(c)(7)(D) and the regulations thereunder.

(l) Transfers of partnership interests. The capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless, upon the transfer of all or a part of an interest in the partnership, the capital account of the transferor that is attributable to the transferred interest carries over to the transferee partner. (See paragraph (b)(2)(iv)*(m)* of this section for rules concerning the effect of a section 754 election on the capital accounts of the partners.) However, if the transfer of an interest in a partnership causes a termination of the partnership under section 708(b)(1)(B), the capital account

that carries over to the transferee partner will be adjusted in accordance with paragraph (b)(2)(iv)(*e*) of this section in connection with the constructive liquidation of the partnership under paragraph (b)(1)(iv) of §1.708-1. Moreover, the constructive reformation of such partnership will, for purposes of this paragraph, be treated as the formation of a new partnership, and the capital accounts of the partners of such new partnership will be determined and maintained accordingly. See example (13) of paragraph (b)(5) of this section.

(m) Section 754 elections—(1) In general. The capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless, upon adjustment to the adjusted tax basis of partnership property under sections 732, 734, or 743, the capital accounts of the partners are adjusted as provided in this paragraph (b)(2)(iv)(*m*).

(2) Section 743 adjustments. In the case of a transfer of all or a part of an interest in a partnership that has a section 754 election in effect for the partnership taxable year in which such transfer occurs, adjustments to the adjusted tax basis of partnership property under section 743 shall not be reflected in the capital account of the transferee partner or on the books of the partnership, and subsequent capital account adjustments for distributions (see paragraph (b)(2)(iv)(*e*)(1) of this section) and for depreciation, depletion, amortization, and gain or loss with respect to such property will disregard the effect of such basis adjustment. The preceding sentence shall not apply to the extent such basis adjustment is allocated to the common basis of partnership property under paragraph (b)(1) of §1.734-2; in these cases, such basis adjustment shall, except as provided in paragraph (b)(2)(iv)(*m*)(*5*) of this section, give rise to adjustments to the capital accounts of the partners in accordance with their interests in the partnership under paragraph (b)(3) of this section. See examples (13)(iii) and (iv) of paragraph (b)(5) of this section.

(3) Section 732 adjustments. In the case of a transfer of all or a part of an interest in a partnership that does not have a section 754 election in effect for the partnership taxable year in which such transfer occurs, adjustments to the adjusted tax basis of partnership property under section 732(d) will be treated in the capital accounts of the partners in the same manner as section 743 basis adjustments are treated under paragraph (b)(2)(iv)(*m*)(*2*) of this section.

(4) Section 734 adjustments. Except as provided in paragraph (b)(2)(iv)(*m*)(*5*) of this section, in the case of a distribution of property by a partnership that has a section 754 election in effect for the partnership taxable year in which the distribution occurs, the partner who receives a distribution that gives rise to the adjustment to the adjusted tax basis of partnership property under section 734 shall have a corresponding adjustment made to his capital account.

(5) Limitations on adjustments. Adjustments may be made to the capital account of a partner (or his successor in interest) in respect of basis adjustments to partnership property under sections 732, 734, and 743 only to the extent that such basis adjustments (i) are permitted to be made to one or more items of partnership property under section 755, and (ii) result in an increase or a decrease in the amount at which such property is carried on the partnership's balance sheet, as computed for book purposes. For example, if the book value of partnership property exceeds the adjusted tax basis of such property, a basis adjustment to such property may be reflected in a partner's capital account only to the extent such adjustment exceeds the difference between the book value of such property and the adjusted tax basis of such property prior to such adjustment.

(n) Partnership level characterization. Except as otherwise provided in paragraph (b)(2)(iv)(*k*) of this section, the capital accounts of the partners will not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) unless adjustments to such capital accounts in respect of partnership income, gain, loss, deduction, and section 705(a)(2)(B) expenditures (or item thereof) are made with reference to the Federal tax treatment of such items (and in the case of book items, with reference to the Federal tax treatment of the corresponding tax items) at the partnership level, without regard to any requisite or elective tax treatment of such items at the partner level (for example, under section 58(i)). However, a partnership that incurs mining exploration expenditures will determine the Federal tax treatment of income, gain, loss, and deduction with respect to the property to which such expenditures relate at the partnership level only after first taking into account the elections made by its partners under section 617 and section 703(b)(4).

(o) Guaranteed payments. Guaranteed payments to a partner under section 707(c) cause the capital account of the recipient partner to be adjusted only to the extent of such partner's distributive share of any partnership deduction, loss, or other downward capital account adjustment resulting from such payment.

(p) Minor discrepancies. Discrepancies between the balances in the respective capital accounts of the partners and the balances that would be in such respective capital accounts if they had been determined and maintained in accordance with this paragraph (b)(2)(iv) will not adversely affect the validity of an allocation, provided that such discrepancies are minor and are attributable to good faith error by the partnership.

(q) Adjustments where guidance is lacking. If the rules of this paragraph (b)(2)(iv) fail to provide guidance on how adjustments to the capital accounts of the partners should be made to reflect particular adjustments to partnership capital on the books of the partnership, such capital accounts will not be considered to be determined and maintained in accordance with those rules unless such capital account adjustments are made in a manner that *(1)* maintains equality between the aggregate governing capital accounts of the partners and the amount of partnership capital reflected on the partnership's balance sheet, as computed for book purposes, *(2)* is consistent with the underlying economic arrangement of the partners, and *(3)* is based, wherever practicable, on Federal tax accounting principles.

(r) Restatement of Capital Accounts. With respect to partnerships that began operating in a taxable year beginning before May 1, 1986, the capital accounts of the partners of which have not been determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) since inception, such

capital accounts shall not be considered to be determined and maintained in accordance with the rules of this paragraph (b)(2)(iv) for taxable years beginning after April 30, 1986 unless *(1)* such capital accounts are adjusted, effective for the first partnership taxable year beginning after April 30, 1966, to reflect the fair market value of partnership property as of the first day of such taxable year, and *(2)* in connection with such adjustment, the rules contained in paragraph (b)(2)(iv)*(f)(2), (3),* and *(4)* of this section are satisfied. However, compliance with the previous sentence will have no bearing on the validity of allocations that relate to partnership taxable years beginning before May 1, 1986.

(3) *Partner's interest in the partnership*—(i) *In general.* References in section 704(b) and this paragraph to a partner's interest in the partnership, or to the partners' interests in the partnership, signify the manner in which the partners have agreed to share the economic benefit or burden with respect to the income, gain, loss, deduction, or credit (or item thereof) that is allocated. This sharing arrangement may or may not correspond to the overall economic arrangement of the partners. Thus, a partner who has a 50 percent overall interest in the partnership may have a 90 percent interest in a particular item of income or deduction. The determination of a partner's interest in a partnership shall be made by taking into account all facts and circumstances relating to the economic arrangement of the partners. All partners' interests in the partnership are presumed to be equal (determined on a per capita basis). However, this presumption may be rebutted by the taxpayer or the Internal Revenue Service by establishing facts and circumstances that show that the partners' interests in the partnership are otherwise.

(ii) *Factors considered.* In determining a partner's interest in the partnership, the following factors are among those that will be considered:

(a) The partners' relative contributions to the partnership,

(b) The interests of the partners in economic profits and losses (if different than that in taxable income or loss),

(c) The interests of the partners in cash flow and other non-liquidating distributions, and

(d) The rights of the partners to distributions of capital upon liquidation.

The provisions of this subparagraph (b)(3) are illustrated by examples (1)(i) and (ii), (4)(i), (5)(i) and (ii), (6), (7)(i), (ii), and (iv), (8), (10)(ii), (16)(i), and (19)(iii) of paragraph (b)(5) of this section. See paragraph (b)(4)(i) of this section concerning rules for determining the partners' interests in the partnership with respect to certain tax items.

(iii) *Certain determinations.* If—

(a) Requirements *(1)* and *(2)* of paragraph (b)(2)(ii)*(b)* of this section are satisfied, and

(b) All or a portion of an allocation of income, gain, loss, or deduction made to a partner for a partnership taxable year does not have economic effect under paragraph (b)(2)(ii) of this section,

the partners' interests in the partnership with respect to the portion of the allocation that lacks economic effect will be determined by comparing the manner in which distributions (and contributions) would be made if all partnership property were sold at book value and the partnership were liquidated immediately following the end of the taxable year to which the allocation relates with the manner in which distributions (and contributions) would be made if all partnership property were sold at book value and the partnership were liquidated immediately following the end of the prior taxable year, and adjusting the result for the items described in *(4), (5),* and *(6)* of paragraph (b)(2)(ii)*(d)* of this section. A determination made under this paragraph (b)(3)(iii) will have no force if the economic effect of valid allocations made in the same manner is insubstantial under paragraph (b)(2)(iii) of this section. See examples (1)(iv), (v), and (vi), and (15)(ii) and (iii) of paragraph (b)(5) of this section.

(4) *Special rules*—(i) *Allocations to reflect revaluations.* If partnership property is, under paragraphs (b)(2)(iv)*(d)* or (b)(2)(iv)*(f)* of this section, properly reflected in the capital accounts of the partners and on the books of the partnership at a book value that differs from the adjusted tax basis of such property, then depreciation, depletion, amortization, and gain or loss, as computed for book purposes, with respect to such property will be greater or less than the depreciation, depletion, amortization, and gain or loss, as computed for tax purposes, with respect to such property. In these cases the capital accounts of the partners are required to be adjusted solely for allocations of the book items to such partners (see paragraph (b)(2)(iv)*(g)* of this section), and the partners' shares of the corresponding tax items are not independently reflected by further adjustments to the partners' capital accounts. Thus, separate allocations of these tax items cannot have economic effect under paragraph (b)(2)(ii)*(b)(1)* of this section, and the partner's distribution share of such tax items must (unless governed by section 704(c)) be made in accordance with the partners' interests in the partnership. These tax items must be shared among the partners in a manner that takes account of the variation between the adjusted tax basis of such property and its book value in the same manner as variations between the adjusted tax basis and fair market value of property contributed to the partnership are taken into account in determining the partners' shares of tax items under section 704(c). See examples (14) and (18) of paragraph (b)(5) of this section.

(ii) *Credits.* Allocations of tax credits and tax credit recapture are not reflected by adjustments to the partners' capital accounts (except to the extent that adjustments to the adjusted tax basis of partnership section 38 property in respect of tax credits and tax credit recapture give rise to capital account adjustments under paragraph (b)(2)(iv)*(j)* of this section). Thus, such allocations cannot have economic effect under paragraph (b)(2)(ii)*(b)(1)* of this section, and the tax credits and tax credit recapture must be allocated in accordance with the partners' interests in the partnership as of the time the tax credit or credit recapture arises. With respect to the investment tax credit provided by section 38, allocations of cost or qualified investment made in accordance with paragraph (f) of §1.46-3 and paragraph (a)(4)(iv) of §1.48-8 shall be deemed to be made in accordance with the partners' interests in the partnership. With respect to other tax credits, if a partnership expenditure (whether or not deductible) that gives rise to a tax credit in a partnership taxable year also gives rise to valid allocations of partnership loss or deduction (or other downward capital account adjustments) for such year, then the partners' interests in the partnership with respect to such credit (or the cost giving rise thereto) shall be in the same proportion as such partners' respective distributive shares of such loss or deduction (and adjustments). See example (11) of paragraph (b)(5) of this section. Identical principles shall apply in determining the partners' interests in the partnership with respect to tax credits that arise from receipts of the partnership (whether or not taxable).

(iii) *Excess percentage depletion.* To the extent the percentage depletion in respect of an item of depletable property of the partnership exceeds the adjusted tax basis of such property, allocations of such excess percentage depletion are not reflected by adjustments to the partners' capital accounts. Thus, such allocations cannot have economic effect under paragraph (b)(2)(ii)(*b*)(*1*) of this section, and such excess percentage depletion must be allocated in accordance with the partners' interests in the partnership. The partners' interests in the partnership for a partnership taxable year with respect to such excess percentage depletion shall be in the same proportion as such partners' respective distributive shares of gross income from the depletable property (as determined under section 613(c)) for such year. See example (12) of paragraph (b)(5) of this section. See paragraphs (b)(2)(iv)(*k*) and (b)(4)(v) of this section for special rules concerning oil and gas properties of the partnership.

(iv) *Nonrecourse debt.* [Reserved.]

(v) *Allocations under section 613A(c)(7)(D).* Allocations of the adjusted tax basis of a partnership oil or gas property are controlled by section 613A(c)(7)(D) and the regulations thereunder. However, if the partnership agreement provdies for an allocation of the adjusted tax basis of an oil or gas property among the partners, and such allocation is not otherwise governed under section 704(c) (or related principles under paragraph (b)(4)(i) of this section), that allocation will be recognized as being in accordance with the partners' interests in partnership capital under section 613A(c)(7)(D), provided (*a*) such allocation does not give rise to capital account adjustments under paragraph (b)(2)(iv)(*k*) of this section the economic effect of which are insubstantial (as determined under paragraph (b)(2)(iii) of this section), and (*b*) all other allocations and capital account adjustments under the partnership agreement are recognized under this paragraph. Otherwise, such adjusted tax basis must be allocated among the partners pursuant to section 613A(c)(7)(D) in accordance with the partners' actual interests in partnership capital or income. For purposes of section 613A(c)(7)(D) the partners' allocable shares of the amount realized upon the partnership's taxable disposition of an oil or gas property will, except to the extent governed by section 704(c) (or related principles under paragraph (b)(4)(i) of this section), be determined under this paragraph (b)(4)(v). If, pursuant to paragraph (b)(2)(iv)(*k*)(*2*) of this section, the partners' capital accounts are adjusted to reflect the simulated depletion of an oil or gas property of the partnership, the portion of the total amount realized by the partnership upon the taxable disposition of such property that represents recovery of its simulated adjusted tax basis therein will be allocated to the partners in the same proportion as the aggregate adjusted tax basis of such property was allocated to such partners (or their predecessors in interest). If, pursuant to paragraph (b)(2)(iv)(*k*)(*3*) of this section, the partners' capital accounts are adjusted to reflect the actual depletion of an oil or gas property of the partnership, the portion of the total amount realized by the partnership upon the taxable disposition of such property that equals the partners' aggregate remaining adjusted basis therein will be allocated to the partners in proportion to their respective remaining adjusted tax bases in such property. An allocation provided by the partnership agreement of the portion of the total amount realized by the partnership on its taxable disposition of an oil or gas property that exceeds the portion of the total amount realized allocated under either of the previous two sentences (whichever is applicable) shall be deemed to be made in accordance with the partners' allocable shares of such amount realized, provided (*c*) such allocation does not give rise to capital account adjustments under paragraph (b)(2)(iv)(*k*) of this section the economic effect of which is insubstantial (as determined under paragraph (b)(2)(ii) of this section), and (*d*) all other allocations and capital account adjustments under the partnership agreement are recognized under this paragraph. Otherwise, the partners' allocable shares of the total amount realized by the partnership on its taxable disposition of an oil or gas property shall be determined in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section. See example (19) of paragraph (b)(5) of this section. (See paragraph (b)(2)(iv)(*k*) of this section for the determination of appropriate adjustments to the partners' capital accounts relating to section 613A(c)(7)(D).)

(vi) *Amendments to partnership agreement.* If an allocation has substantial economic effect under paragraph (b)(2) of this section or is deemed to be made in accordance with the partners' interests in the partnership under paragraph (b)(4) of this section under the partnership agreement that is effective for the taxable year to which such allocation relates, and such partnership agreement thereafter is modified, both the tax consequences of the modification and the facts and circumstances surrounding the modification will be closely scrutinized to determine whether the purported modification was part of the original agreement. If it is determined that the purported modification was part of the original agreement, prior allocations may be reallocated in a manner consistent with the modified terms of the agreement, and subsequent allocations may be reallocated to take account of such modified terms. For example, if a partner is obligated by the partnership agreement to restore the deficit balance in his capital account (or any limited dollar amount thereof) in accordance with requirement *(3)* of paragraph (b)(2)(ii)(*b*) of this section and, thereafter, such obligation is eliminated or reduced (other than as provided in paragraph (b)(2)(ii)(*f*) of this section), or is not complied with in a timely manner, such elimination, reduction, or noncompliance may be treated as if it always were part of the partnership agreement for purposes of making any reallocations and determining the appropriate limitations period.

(vii) *Recapture.* For special rules applicable to the allocation of recapture income or credit, see paragraph (e) of §1.1245-1, paragraph (f) of §1.1250-1, paragraph (c) of §1.1254-1, and paragraph (a) of §1.47-6.

(5) *Examples*. The operation of the rules in this paragraph is illustrated by the following examples:

Example (1). (i) A and B form a general partnership with cash contributions of $40,000 each, which cash is used to purchase depreciable personal property at a cost of $80,000. The partnership elects under section 48(q)(4) to reduce the amount of investment tax credit in lieu of adjusting the tax basis of such property. The partnership agreement provides that A and B will have equal shares of taxable income and loss (computed without regard to cost recovery deductions) and cash flow and that all cost recovery deductions on the property will be allocated to A. The agreement further provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, but that upon liquidation of the partnership, distributions will be made equally between the partners (regardless of capital account balances) and no partner will be required to restore the deficit balance in this capital account for distribution to partners with positive capital accounts balances. In the partnership's first taxable year, it recognizes operating income equal to its operating expenses and has an additional $20,000 cost recovery deduction, which is allocated entirely to A. That A and B will be entitled to equal distributions on liquidation, even though A is allocated the entire $20,000 cost recovery deduction, indicates A will not bear the full risk of the economic loss corresponding to such deduction if such loss occurs. Under paragraph (b)(2)(ii) of this section, the allocation lacks economic effect and will be disregarded. The partners made equal contributions to the partnership, share equally in other taxable income and loss and in cash flow, and will share equally in liquidation proceeds, indicating that their actual economic arrangement is to bear the risk imposed by the potential decrease in the value of the property equally. Thus, under paragraph (b)(3) of this section the partners' interests in the partnership are equal, and the cost recovery deduction will be reallocated equally between A and B.

(ii) Assume the same facts as in (i) except that the partnership agreement provides that liquidation proceeds will be distributed in accordance with capital account balances if the partnership is liquidated during the first five years of its existence but that liquidation proceeds will be distributed equally if the partnership is liquidated thereafter. Since the partnership agreement does not provide for the requirement contained in paragraph (b)(2)(ii)*(b)(2)* of this section to be satisfied throughout the term of the partnership, the partnership allocations do not have economic effect. Even if the partnership agreement provided for the requirement contained in paragraph (b)(2)(ii)*(b)(2)* to be satisfied throughout the term of the partnership, such allocations would not have economic effect unless the requirement contained in paragraph (b)(2)(ii)*(b)(3)* of this section or the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section were satisfied.

(iii) Assume the same facts as in (i) except that distributions in liquidation of the partnership (or any partner's interest) are to be made in accordance with the partners' positive capital account balances throughout the term of the partnership (as set fourth in paragraph (b)(2)(ii)*(b)(2)* of this section). Assume further that the partnership agreement contains a qualified income offset (as defined in paragraph (b)(2)(ii)*(d)* of this section) and that, as of the end of each partnership taxable year, the items described in paragraphs (b)(2)(ii)*(d)(4)*, *(5)*, and *(6)* of this section are not reasonably expected to cause or increase a deficit balance in A's capital account.

	A	*B*
Capital account upon formation	$40,000	$40,000
Less: year 1 cost recovery deduction	(20,000)	-0-
Capital account at end of year 1	$20,000	$40,000

Under the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section, the allocation of the $20,000 cost recovery deduction to A has economic effect.

(iv) Assume the same facts as in (iii) and that in the partnership's second taxable year it recognizes operating income equal to its operating expenses and has a $25,000 cost recovery deduction which, under the partnership agreement, is allocated entirely to A.

	A	*B*
Capital account at beginning of year 2	$20,000	$40,000
Less: year 2 cost recovery deduction	(25,000)	-0-
Capital account at end of year 2	($5,000)	$40,000

The allocation of the $25,000 cost recovery deduction to A satisfies the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section only to the extent of $20,000. Therefore only $20,000 of such allocation has economic effect, and the remaining $5,000 must be reallocated in accordance with the partners' interests in the partnership. Under the partnership agreement, if the property were sold immediately following the end of the partnership's second taxable year for $35,000 (its adjusted tax basis), the $35,000 would be distributed to B. Thus, B, and not A, bears the economic burden corresponding to $5,000 of the $25,000 cost recovery deduction allocated to A. Under paragraph (b)(3)(iii) of this section, $5,000 of such cost recovery deduction will be reallocated to B.

(v) Assume the same facts as in (iv) except that the cost recovery deduction for the partnership's second taxable year is $20,000 instead of $25,000. The allocation of such cost recovery deduction to A has economic effect under the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section. Assume further that the property is sold for $35,000 immediately following the end of the partnership's second taxable year, resulting in a $5,000 taxable loss ($40,000 adjusted tax basis less $35,000 sales price), and the partnership is liquidated.

	A	*B*
Capital account at beginning of year 2	$20,000	$40,000
Less: year 2 cost recovery deduction	(20,000)	-0-
Capital account at end of year 2	-0-	$40,000
Less: loss on sale	(2,500)	(2,500)
Capital account before liquidation	($2,500)	$37,500

Under the partnership agreement the $35,000 sales proceeds are distributed to B. Since B bears the entire economic burden corresponding to the $5,000 taxable loss from the sale of the property, the allocation of $2,500 of such loss to A does not have economic effect and must be reallocated in accordance the partners' interests in the partnership. Under paragraph (b)(3)(iii) of this section, such $2,500 loss will be reallocated to B.

(vi) Assume the same facts as in (iv) except that the cost recovery deduction for the partnership's second taxable year is $20,000 instead of $25,000, and that as of the end of the partnership's second taxable year it is reasonably expected that during its third taxable year the partnership will (1) have operating income equal to its operating expenses (but will have no cost recovery deductions), (2) borrow $10,000 (recourse) and distribute such amount $5,000 to A and $5,000 to B, and (3) thereafter sell the partnership property, repay the $10,000 liability, and liquidate. In determining the extent to which the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section is satisfied as of the end of the partnership's second taxable year, the fair market value of partnership property is presumed to be equal to its adjusted tax basis (in accordance with paragraph (b)(2)(iii)*(c)* of this section). Thus, it is presumed that the selling price of such property during the partnership's third taxable year will be its $40,000 adjusted tax basis. Accordingly, there can be no reasonable expectation that there will be increases to A's capital account in the partnership's third taxable year that will offset the expected $5,000 distribution to A. Therefore, the distribution of the loan proceeds must be taken into account in determining to what extent the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* is satisfied.

	A	*B*
Capital account at beginning of year 2	$20,000	$40,000
Less: expected future distribution	(5,000)	(5,000)
Less: year 2 cost recovery deduction	(20,000)	(-0-)
Hypothetical capital account at end of year 2	($5,000)	$35,000

Upon sale of the partnership property, the $40,000 presumed sales proceeds would be used to repay the $10,000 liability, and the remaining $30,000 would be distributed to B. Under these circumstances the allocation of the $20,000 cost recovery deduction to A in the partnership's second taxable year satisfies the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section only to the extent of $15,000. Under paragraph (b)(3)(iii) of this section, the remaining $5,000 of such deduction will be reallocated to B. The results in this example would be the same even if the partnership agreement also provided that any gain (whether ordinary income or capital gain) upon the sale of the property would be allocated to A to the extent of the prior allocations of cost recovery deductions to him, and, at end of the partnership's second taxable year, the partners were confident that the gain on the sale of the property in the partnership's third taxable year would be sufficient to offset the expected $5,000 distribution to A.

(vii) Assume the same facts as in (iv) except that the partnership agreement also provides that any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraph (b)(2)(ii)*(b)(3)* of this section). Thus, if the property were sold for $35,000 immediately after the end of the partnership's second taxable year, the $35,000 would be distributed to B, A would contribute $5,000 (the deficit balance in his capital account) to the partnership, and that $5,000 would be distributed to B. The allocation of the entire $25,000 cost recovery deduction to A in the partnership's second taxable year has economic effect.

(viii) Assume the same facts as in (vii) except that A's obligation to restore the deficit balance in his capital account is limited to a maximum of $5,000. The allocation of the $25,000 cost recovery deduction to A in the partnership's second taxable year has economic effect under the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section. At the end of such year, A makes an additional $5,000 contribution to the partnership (thereby eliminating the $5,000 deficit balance in his capital account). Under paragraph (b)(2)(ii)*(f)* of this section, A's obligation to restore up to $5,000 of the deficit balance in his capital account may be eliminated after he contributes the additional $5,000 without affecting the validity of prior allocations.

(ix) Assume the same facts as in (iv) except that upon formation of the partnership A also contributes to the partnership his promissory note with a $5,000 principal balance. The note unconditionally obligates A to pay an additional $5,000 to the partnership at the earlier of (a) the beginning of the partnership's fourth taxable year, or (b) the end of the partnership taxable year in which A's interest is liquidated. Under paragraph (b)(2)(ii)*(c)* of this section, A is considered obligated to restore up to $5,000 of the deficit balance in his capital account to the partnership. Accordingly, under the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section, the allocation of the $25,000 cost recovery deduction to A in the partnership's second taxable year has economic effect. The results in this example would be the same if (1) the note A contributed to the partnership were payable only at the end of the partnership's fourth taxable year (so that A would not be required to satisfy the note upon liquidation of his interest in the partnership), and (2) the partnership agreement provided that upon liquidation of A's interest, the partnership would retain A's note, and A would contribute to the partnership the excess of the outstanding principal balance of the note over its then fair market value.

(x) Assume the same facts as in (ix) except that A's obligation to contribute an additional $5,000 to the partnership is not evidenced by a promissory note. Instead, the partnership agreement imposes upon A the obligation to make an additional $5,000 contribution to the partnership at the earlier of (a) the beginning of the partnership's fourth taxable year, or (b) the end of the partnership taxable year in which A's interest is liquidated. Under paragraph (b)(2)(ii)*(c)* of this section, as a result of A's deferred contribution requirement, A is considered obligated to restore up to $5,000 of the deficit balance in this capital account to the partnership. Accordingly, under the alternate economic effect test contained in paragraph (b)(2)(*ii*)(*d*) of this section, the allocation of the $25,000 cost recovery deduction to A in the partnership's second taxable year has economic effect.

(xi) Assume the same facts as in (vii) except that the partnership agreement also provides that any gain (whether ordinary income or capital gain) upon the sale of the property will be allocated to A to the extent of the prior allocations to A of cost recovery deductions from such property, and additional gain will be allocated equally between A and B. At the time the allocations of cost recovery deductions were made to A, the partners believed there would be gain on the sale of the property in an amount sufficient to offset the allocations of cost recovery deductions to A. Nevertheless, the existence of the gain chargeback provision will not cause the economic effect of the allocations to be insubstantial under paragraph (b)(2)(iii)*(c)* of this section, since in testing whether the economic effect of such allocations is substantial, the recovery property is presumed to decrease in value by the amount of such deductions.

Example (2). C and D form a general partnership solely to acquire and lease machinery that is 5-year recovery property under section 168. Each contributes $100,000, and the partnership obtains an $800,000 recourse loan to purchase the machinery. The partnership elects under section 48(q)(4) to reduce the amount of investment tax credit in lieu of adjusting the tax basis of such machinery. The partnership, C, and D have calendar taxable years. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The partnership agreement further provides that (a) partnership net taxable loss will be allocated 90 percent to C and 10 percent to D until such time as there is partnership net taxable income, and thereafter C will be allocated 90 percent of such taxable income until he has been allocated partnership net taxable income equal to the partnership net taxable loss previously allocated to him, (b) all further partnership net taxable income or loss will be allocated equally between C and D, and (c) distributions of operating cash flow will be made equally between C and D. The partnership enters into a 12-year lease with a financially secure corporation under which the partnership expects to have a net taxable loss in each of its first 5 partnership taxable years due to cost recovery deductions with respect to the machinery and net taxable income in each of its following 7 partnership taxable years, in part due to the absence of such cost recovery deductions. There is a strong likelihood that the partnership's net taxable loss in partnership taxable years 1 through 5 will be $100,000, $90,000, $80,000, $70,000, and $60,000, respectively, and the partnership's net taxable income in partnership taxable years 6 through 12 will be $40,000, $50,000, $60,000, $70,000, $80,000, $90,000, and $100,000, respectively. Even though there is a strong likelihood that the allocations of net taxable loss in years 1 through 5 will be largely offset by other allocations in partnership taxable years 6 through 12, and even if it is assumed that the total tax liability of the partners in years 1 through 12 will be less than if the allocations had not been provided in the partnership agreement, the economic effect of the allocations will not be insubstantial under paragraph (b)(2)(iii)*(c)* of this section. This is because at the time such allocations became part of the partnership agreement, there was a strong likelihood that the allocations of net taxable loss in years 1 through 5 would not be largely offset by allocations of income within 5 years (determined on a first-in, first-out basis). The year 1 allocation will not be offset until years 6, 7, and 8, the year 2 allocation will not be offset until years 8 and 9, the year 3 allocation will not be offset until years 9 and 10, the year 4 allocation will not be offset until years 10 and 11, and the year 5 allocation will not be offset until years 11 and 12.

Example (3). E and F enter into a partnership agreement to develop and market experimental electronic devices. E contributes $2,500 cash and agrees to devote his full-time services to the partnership. F contributes $100,000 cash and agrees to obtain a loan for the partnership for any additional capital needs. The partnership agreement provides that all deductions for research and experimental expenditures and interest on partnership loans are to be allocated to F. In addition, F will be allocated 90 percent, and E 10 percent, of partnership taxable income or loss, computed net of the deductions for such research and experimental expenditures and interest, until F has received allocations of such taxable income equal to the sum of such research and experimental expenditures, such interest expense, and his share of such taxable loss. Thereafter, E and F will share all taxable income and loss equally. Operating cash flow will be distributed equally between E and F. The partnership agreement also provides that E's and F's capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in this capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). These allocations have economic effect. In addition, in view of the nature of the partnership's activities, there is not a strong likelihood at the time the allocations become part of the partnership agreement that the economic effect of the allocations to F of deductions for research and experimental expenditures and interest on partnership loans will be largely offset by allocations to F of partnership net taxable income. The economic effect of the allocations is substantial.

Example (4). (i) G and H contribute $75,000 and $25,000, respectively, in forming a general partnership. The partnership agreement provides that all income, gain, loss, and deduction will be allocated equally between the partners, that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, but that all partnership distributions will, regardless of capital account balances, be made 75 percent to G and 25 percent to H. Following the liquidation of the partnership, neither partner is required to restore the deficit balance in his capital account to the partnership for distribution to partners with positive capital account balances. The allocations in the partnership agreement do not have economic effect. Since contributions were made in a 75/25 ratio and the partnership agreement indicates that all economic profits and losses of the partnership are to be shared in a 75/25 ratio, under paragraph (b)(3) of this section, partnership income, gain, loss, and deduction will be reallocated 75 percent to G and 25 percent to H.

(ii) Assume the same facts as in (i) except that the partnership maintains no capital accounts and the partnership agreement provides that all income, gain, loss, deduction, and credit will be allocated 75 percent to G and 25 percent to H. G and H are ultimately liable (under a State law right of contribution) for 75 percent and 25 percent, respectively, of any debts of the partnership. Although the allocations do not satisfy the requirements of paragraph (b)(2)(ii)*(b)* of this section, the allocations have economic effect under the economic effect equivalence test of paragraph (b)(2)(ii)*(i)* of this section.

(iii) Assume the same facts as in (i) except that the partnership agreement provides that any partner with a deficit balance in his capital account must restore that deficit to the partnership (as set forth in paragraph (b)(2)(ii)*(b)(2)* of this section). Although the allocations do not satisfy the requirements of paragraph (b)(2)(ii)*(b)* of this section, the allocations have economic effect under the economic effect equivalence test of paragraph (b)(2)(ii)*(i)* of this section.

Example (5). (i) Individuals I and J are the only partners of an investment partnership. The partnership owns corporate stocks, corporate debt instruments, and tax-exempt debt instruments. Over the next several years, I expects to be in the 50 percent marginal tax bracket, and J expects to be in the 15 percent marginal tax bracket. There is a strong likelihood that in each of the next several years the partnership will realize between $450 and $550 of tax-exempt interest and between $450 and $550 of a combination of taxable interest and dividends from its investments. I and J made equal capital contributions to the partnership, and they have agreed to share equally in gains and losses from the sale of the partnership's investment securities. I and J agree, however, that rather than share interest and dividends of the partnership equally, they will allocate the partnership's tax-exempt interest 80 percent to I and 20 percent to J and will distribute cash derived from interest received on the tax-exempt bonds in the same percentages. In addition, they agree to allocate 100 percent of the partnership's taxable interest and dividends to J and to distribute cash derived from interest and dividends received on the corporate stocks and debt instruments 100 percent to J. The partnership agreement further provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partner's positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The allocation of taxable interest and dividends and tax-exempt interest has economic effect, but that economic effect is not substantial under the general rules set forth in paragraph (b)(2)(iii) of this section. Without the allocation I would be allocated between $225 and $375 of tax-exempt interest and between $225 and $275 of a combination of taxable interest and dividends, which (net of Federal income taxes he would owe on such income) would give I between $337.50 and $412.50 after tax. With the allocation, however, I will be allocated between $360 and $440 of tax-exempt interest and no taxable interest and dividends, which (net of Federal income taxes) will give I between $360 and $440 after tax. Thus, at the time the allocations became part of the partnership agreement, I is expected to enhance his after-tax economic consequences as a result of the allocations. On the other hand, there is a strong likelihood that neither I nor J will substantially diminish his after-tax economic consequences as a result of the allocations. Under the combination of likely investment outcomes least favorable for J, the partnership would realized $550 of tax-exempt interest and $450 of taxable interest and dividends, giving J $492.50 after tax (which is more than the $466.25 after tax J would have received if each of such amounts had been allocated equally between the partners). Under the combination of likely investment outcomes least favorable for I, the partnership would realize $450 of tax-exempt interest and $550 of taxable interest and dividends, giving I $360 after tax (which is not substantially less than the $362.50 he would have received if each of such amounts had been allocated equally between the partners). Accordingly, the allocations in the partnership agreement must be reallocated in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section.

(ii) Assume the same facts as in (i). In addition, assume that in the first partnership taxable year in which the allocation arrangement described in (i) applies, the partnership realizes $450 of tax-exempt interest and $550 of taxable interest and dividends, so that, pursuant to the partnership agreement, I's capital account is credited with $360 (80 percent of the tax-exempt interest), and J's capital account is credited with $640 (20 percent of the tax-exempt interest and 100 percent of the taxable interest and dividends). The allocations of tax-exempt interest and taxable interest and dividends (which do not have substantial economic effect for the reasons stated in (i)) will be disregarded and will be reallocated. Since under the partnership agreement I will receive 36 percent (360/1,000) and J will receive 64 percent (640/1,000) of the partnership's total investment income in such year, under paragraph(b)(3) of this section the partnership's tax-exempt interest and taxable interest and dividends each will be reallocated 36 percent to I and 64 percent to J.

Example (6). K and L are equal partners in a general partnership formed to acquire and operate property described in section 1231(b). The partnership, K, and L have calendar taxable years. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, that distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and that any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (6)(2)(ii)*(b)(2)* and *(3)* of this section). For a taxable year in which the partnership expects to incur a loss on the sale of a portion of such property, the partnership agreement is amended (at the beginning of the taxable year) to allocate such loss to K, who expects to have no gains from the sale of depreciable property described in section 1231(b) in that taxable year, and to allocate an equivalent amount of partnership loss and deduction for that year of a different character to L, who expects to have such gains. Any partnership loss and deduction in excess of these allocations will be allocated equally between K and L. The amendment is effective only for that taxable year. At the time the partnership agreement is amended, there is a strong likelihood that the partnership will incur deduction or loss in the taxable year other than loss from the sale of property described in section 1231(b) in an amount that will substantially equal or exceed the expected amount of the section 1231(b) loss. The allocations in such taxable year have economic effect. However, the economic effect of the allocations is insubstantial under the test described in paragraph (b)(2)(iii)*(b)* of this section because there is a strong likelihood, at the time the allocations become part of the partnership agreement, that the net increases and decreases to K's and L's capital accounts will be the same at the end of the taxable year to which they apply with such allocations in effect as they would have been in the absence of such allocations, and that the total taxes of K and L for such year will be reduced as a result of such allocations. If in fact the partnership incurs deduction or loss, other than loss from the sale of property described in section 1231(b), in an amount at least equal to the section 1231(b) loss, the loss and deduction in such taxable year will be reallocated equally between K and L under paragraph (b)(3) of this section. If not, the loss from the sale of property described in section 1231(b) and the items of deduction and other loss realized in such year will be reallocated between K and L in proportion to the net decreases in their capital accounts due to the allocation of such items under the partnership agreement.

Example (7). (i) M and N are partners in the MN general partnership, which is engaged in an active business. Income, gain, loss, and deduction from MN's business is allocated equally between M and N. The partnership, M, and N have calendar taxable years. Under the partnership agreement the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in this capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraph (b)(2)(ii)*(b)(2)* and *(3)* of this section). In order to enhance the credit standing of the partnership, the partners contribute surplus funds to the partnership, which the partners agree to invest in equal dollar amounts of tax-exempt bonds and corporate stock for the partnership's first 3 taxable years. M is expected to be in a higher marginal tax bracket than N during those 3 years. At the time the decision to make these investments is made, it is agreed that, during the 3-year period of the investment, M will be allocated 90 percent and N 10 percent of the interest income from the tax-exempt bonds as well as any gain or loss from the sale thereof, and that M will be allocated 10 percent and N 90 percent of the dividend income from the corporate stock as well as any gain or loss from the sale thereof. At the time the allocations concerning the investments become part of the partnership agreement, there is not a strong likelihood that the gain or loss from the sale of the stock will be substantially equal to the gain or loss from the sale of the tax-exempt bonds, but there is a strong likelihood that the tax-exempt interest and the taxable dividends realized from these investments during the 3-year period will not differ substantially. These allocations have economic effect, and the economic effect of the allocations of the gain or loss on the sale of the tax-exempt bonds and corporate stock is substantial. The economic effect of the allocations of the tax-exempt interest and the taxable dividends, however, is not substantial under the test described in paragraph (b)(2)(iii)*(c)* of this section because there is a strong likelihood, at the time the allocations become part of the partnership agreement, that at the end of the 3-year period to which such allocations relate, the net increases and decreases to M's and N's capital accounts will be the same with such allocations as they would have been in the absence of such allocations, and that the total taxes of M and N for the taxable years to which such allocations relate will be reduced as a result of such allocations. If in fact the amounts of the tax-exempt interest and taxable dividends earned by the partnership during the 3-year period are equal, the tax-exempt interest and taxable dividends will be reallocated to the partners in equal shares under paragraph (b)(3) of this section. If not, the tax-exempt interest and taxable dividends will be reallocated between M and N in proportion to the net increases in their capital accounts during such 3-year period due to the allocation of such items under the partnership agreement.

(ii) Assume the same facts as in (i) except that gain or loss from the sale of the tax-exempt bonds and corporate stock will be allocated equally between M and N and the partnership agreement provides that the 90/10 allocation arrangement with respect to the investment income applies only to the first $10,000 of interest income from the tax-exempt bonds and the first $10,000 of dividend income from the corporate stock, and only to the first taxable year of the partnership. There is a strong likelihood at the time the 90/10 allocation of the investment income became part of the partnership agreement that in the first taxable year of the partnership, the partnership will earn more than $10,000 of tax-exempt interest and more than $10,000 of taxable dividends. The allocations of tax-exempt interest and taxable dividends provided in the partnership agreement have economic effect, but under the test contained in paragraph (b)(2)(iii)*(b)* of this section, such economic effect is not substantial for the same reasons stated in (i) (but applied to the 1 taxable year, rather than to a 3-year period). If in fact the partnership realizes at least $10,000 of tax-exempt interest and at least $10,000 of taxable dividends in such year, the allocations of such interest income and dividend income will be reallocated equally between M and N under paragraph (b)(3) of this section. If no, the tax-exempt interest and taxable dividends will be reallocated between M and N in proportion to the net increases in their capital accounts due to the allocations of such items under the partnership agreement.

(iii) Assume the same facts as in (ii) except that at the time the 90/10 allocation of investment income becomes part of the partnership agreement, there is not a strong likelihood that (1) the partnership will earn $10,000 or more of tax-exempt interest and $10,000 or more of taxable dividends in the partnership's first taxable year, and (2) the amount of tax-exempt interest and taxable dividends earned during such year will be substantially the same. Under these facts the economnic effect of the allocations generally will be substantial. (Additional facts may exist in certain cases, however, so that the allocation is insubstantial under the general rules of paragraph (b)(2)(iii). See example (5) above.)

Example (8). (i) O and P are equal partners in the OP general partnership. The partnership, O, and P have calendar taxable years. Partner O has a net operating loss carryover from another venture that is due to expire at the end of the partnership's second taxable year. Otherwise, both partners expect to be in the 50 percent marginal tax bracket in the next several taxable years. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The partnership agreement is amended (at the beginning of the partnership's second taxable year) to allocate all the partnership net taxable income for that year to O. Future partnership net taxable loss is to be allocated to O, and future partnership net taxable income to P, until the allocation of income to O in the partnership's second taxable year is offset. It is further agreed orally that in the event the partnership is liquidated prior to completion of such offset, O's capital account will be adjusted downward to the extent of one-half of the allocations of income to O in the partnership's second taxable year that have not been offset by other allocations, P's capital account will be adjusted upward by a like amount, and liquidation proceeds will be distributed in accordance with the partners' adjusted capital account balances. As a result of this oral amendment, all allocations of partnership net taxable income and net taxable loss made pursuant to the amendment executed at the beginning of the partnership's second taxable year lack economic effect and will be disregarded. Under the partnership agreement other allocations are made equally to O and P, and O and P will share equally in liquidation proceeds, indicating that the partners' interests in the partnership are equal. Thus, the disregarded allocations will be reallocated equally between the partners under paragraph (b)(3) of this section.

(ii) Assume the same facts as in (i) except that there is no agreement that O's and P's capital accounts will be adjusted downward and upward, respectively, to the extent of one-half of the partnership net taxable income allocated to O in the partnership's second taxable year that is not offset subsequently by other allocations. The income of the partnership is generated primarily by fixed interest payments received with respect to highly rated corporate bonds, which are expected to produce sufficient net taxable income prior to the end of the partnership's seventh taxable year to offset in large part the net taxable income to be allocated to O in the partnership's second taxable year. Thus, at the time the allocations are made part of the partnership agreement, there is a strong likelihood that the allocation of net taxable income to be made to O in the second taxable year will be offset in large part within 5 taxable years thereafter. These allocations have economic effect. However, the economic effect of the allocation of partnership net taxable income to O in the partnership's second taxable year, as well as the offsetting allocations to P, is not substantial under the test contained in paragraph (b)(2)(iii)*(c)* of this section because there is a strong likelihood that the net increases or decreases in O's and P's capital accounts will be the same at the end of the partnership's seventh taxable year with such allocations as they would have been in the absence of such allocations, and the total taxes of O and P for the taxable years to which such allocations relate will be reduced as a result of such allocations. If in fact the partnership, in its taxable years 3 through 7, realizes sufficient net taxable income to offset the amount allocated to O in the second taxable year, the allocations provided in the partnership agreement will be reallocated equally between the partners under paragraph (b)(3) of this section.

Example (9). Q and R form a limited partnership with contributions of $20,000 and $180,000, respectively. Q, the limited partner, is a corporation that has $2,000,000 of net operating loss carryforwards that will not expire for 8 years. Q does not expect to have sufficient income (apart from the income of the partnership) to absorb any of such net operating loss carryforwards. R, the general partner, is a corporation that expects to be in the 46 percent marginal tax bracket for several years. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The partnership's cash, together with the proceeds of an $800,000 loan, are invested in assets that are expected to produce taxable income and cash flow (before debt service) of approximately $150,000 a year for the first 8 years of the partnership's operations. In addition, it is expected that the partnership's total taxable income in its first 8 taxable years will not exceed $2,000,000. The partnership's $150,000 of cash flow in each of its first 8 years will be used to retire the $800,000 loan. The partnership agreement provides that partnership net taxable income will be allocated 90 percent to Q and 10 percent to R in the first through eighth partnership taxable years, and 90 percent to R and 10 percent to Q in all subsequent partnership taxable years. Net taxable loss will be allocated 90 percent to R and 10 percent to Q in all partnership taxable years. All distributions of cash from the partnership to partners (other than the priority distributions to Q described below) will be made 90 percent to R and 10 percent to Q. At the end of the partnership's eighth taxable year, the amount of Q's capital account in excess of one-ninth of R's capital account on such date will be designated as Q's "excess capital account." Beginning in the ninth taxable year of the partnership, the undistributed portion of Q's excess capital account will begin to bear interest (which will be paid and deducted under section 707(c)) at a rate of interest below the rate that the partnership can borrow from commercial lenders, and over the next several years (following the eighth year) the partnership will make priority cash distributions to Q in prearranged percentages of Q's excess capital account designed to amortize Q's excess capital account and the interest thereon over a prearranged period. In addition, the partnership's agreement prevents Q from causing his interest in the partnership from being liquidated (and thereby receiving the balance in this capital account) without R's consent until Q's excess capital account has been eliminated. The below-market rate of interest and the period over which the amortization will take place are prescribed such that, as of the end of the partnership's eighth taxable year, the present value of Q's right to receive such priority distributions is approximately 46 percent of the amount of Q's excess capital account as of such date. However, because the partnership's income for its first 8 taxable years will be realized approximately ratably over that period, the present value of Q's right to receive the priority distributions with respect to its excess capital account is, as of the date the partnership agreement is entered into, less than the present value of the additional Federal income taxes for which R would be liable if, during the partnership's first 8 taxable years, all partnership income were to be allocated 90 percent to R and 10 to Q. The allocations of partnership taxable income to Q and R in the first through eighth partnership taxable years have economic effect. However, such economic effect is not substantial under the general rules set forth in paragraph (b)(2)(iii) of this section. This is true because R may enhance his after-tax economic consequences, on a present value basis, as a result of the allocations to Q of 90 percent of partnership's income during taxable year 1 through 8, and there is a strong likelihood that neither R nor Q will substantially diminish its after-tax economic consequences, on a present value basis, as a result of such allocation. Accordingly, partnership taxable income for partnership taxable years 1 through 8 will be reallocated in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section.

Example (10). (i) S and T form a general partnership to operate a travel agency. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The partnership agreement provides that T, a resident of a foreign country, will be allocated 90 percent, and S 10 percent, of the income, gain, loss, and deduction derived from operations conducted by T within his country, and all remaining income, gain, loss, and deduction will be allocated equally. The amount of such income, gain, loss, or deduction cannot be predicted with any reasonable certainty. The allocations provided by the partnership agreement have substantial economic effect.

(ii) Assume the same facts as in (i) except that the partnership agreement provides that all income, gain, loss, and deduction of the partnership will be shared equally, but that T will be allocated all income, gain, loss, and deduction derived from operations conducted by him within his country as a part of his equal share of partnership income, gain, loss, and deduction, up to the amount of such share. Assume the total tax liability of S and T for each year to which these allocations relate will be reduced as a result of such allocation. These allocations have economic effect. However, such economic effect is not substantial under the test stated in paragraph (b)(2)(iii)*(b)* of this section because, at the time the allocations became part of the partnership agreement, there is a strong likelihood that the net increases and decreases to S's and T's capital accounts will be the same at the end of each partnership taxable year with such allocations as they would have been in the absence of such allocations, and that the total tax liability of S and T for each year to which such allocations relate will be reduced as a result of such allocations. Thus, all items of partnership income, gain, loss, and income, gain, loss, and deduction will be reallocated equally between S and T under paragraph (b)(3) of this section.

Example (11). (i) U and V share equally all income, gain, loss, and deduction of the UV general partnership, as well as all non-liquidating distributions made by the partnership. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore such deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The agreement further provides that the partners will be allocated equal shares of any section 705(a)(2)(B) expenditures of the partnership. In the partnership's first taxable year, it pays qualified first-year wages of $6,000 and is entitled to a $3,000 targeted jobs tax credit under sections 44B and 51 of the Code. Under section 280C the partnership must reduce its deduction for wages paid by the $3,000 credit claimed (which amount constitutes a section 705(a)(2)(B) expenditure). The partnership agreement allocates the credit to U. Although the allocations of wage deductions and section 705(a)(2)(B) expenditures have substantial economic effect, the allocation of tax credit cannot have economic effect since it cannot properly be reflected in the partners' capital accounts. Furthermore, the allocation is not in accordance with the special partners' interests in the partnership rule contained in paragraph (b)(4)(ii) of this section. Under that rule, since the expenses that gave rise to the credit are shared equally by the partners, the credit will be shared equally between U and V.

(ii) Assume the same facts as in (i) and that at the beginning of the partnership's second taxable year, the partnership agreement is amended to allocate to U all wage expenses incurred in that year (including wage expenses that constitute section 705(a)(2)(B) expenditures) whether or not such wages qualify for the credit. The partnership agreement contains no offsetting allocations. That taxable year the partnership pays $8,000 in total wages to its employees. Assume that the partnership has operating income equal to its operating expenses (exclusive of expenses for wages). Assume further that $6,000 of the $8,000 wage expense constitutes qualified first-year wages. U is allocated the $3,000 deduction and the $3,000 section 705(a)(2)(B) expenditure attributable to the $6,000 of qualified first-year wages, as well as the deduction for the other $2,000 in wage expenses. The allocations of wage deductions and section 705(a)(2)(B) expenditures have substantial economic effect. Furthermore, since the wage credit is allocated in the same proportion as the expenses that gave rise to the credit, and the allocation of those expenses has substantial economic effect, the allocation of such credit to U is in accordance with the special partners' interests in the partnership rule contained in paragraph (b)(4)(ii) of this section and is recognized thereunder.

Example (12). (i) W and X form a general partnership for the purpose of mining iron ore. W makes an initial contribution of $75,000, and X makes an initial contribution of $25,000. The partnership agreement provides that non-liquidating distributions will be made 75 percent to W and 25 percent to X, and that all items of income, gain, loss, and deduction will be allocated 75 percent to W and 25 percent to X, except that all percentage depletion deductions will be allocated to W. The agreement further provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore such deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). Assume that the adjusted tax basis of the partnership's only depletable iron ore property is $1,000 and that the percentage depletion deduction for the taxable year with respect to such property is $1,500. The allocation of partnership income, gain, loss, and deduction (excluding the percentage depletion deduction) as well as the allocation of $1,000 of the percentage depletion deduction have substantial economic effect. The allocation to W of the remaining $500 of the percentage depletion deduction, representing the excess of percentage depletion over adjusted tax basis of the iron ore property, cannot have economic effect since such amount cannot properly be reflected in the partners' capital accounts. Furthermore, the allocation to W of that $500 excess percentage depletion deduction is not in accordance with the special partners' interests in the partnership rule contained in paragraph (b)(4) (iii) of this section, under which such $500 excess depletion deduction (and all further percentage depletion deductions from the mine) will be reallocated 75 percent to W and 25 percent to X.

(ii) Assume the same facts as in (i) except that the partnership agreement provides that all percentage depletion deductions of the partnership will be allocated 75 percent to W and 25 percent to X. Once again, the allocation of partnership income, gain, loss, and deduction (excluding the percentage depletion deduction) as well as the allocation of $1,000 of the percentage depletion deduction have substantial economic effect. Furthermore, since the $500 portion of the percentage depletion deduction that exceeds the adjusted basis of such iron ore property is allocated in the same manner as valid allocations of the gross income from such property during the taxable year (*i.e.*, 75 percent to W and 25 percent to X), the allocation of the $500 excess percentage depletion contained in the partnership agreement is in accordance with the special partners' interests in the partnership rule contained in paragraph (b)(4)(iii) of this section.

Example (13). (i) Y and Z form a brokerage general partnership for the purpose of investing and trading in marketable securities. Y contributes cash of $10,000, and Z contributes securities of P corporation, which have an adjusted basis of $3,000 and a fair market value of $10,000. The partnership would not be an investment company under section 351(e) if it were incorporated. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). The initial capital accounts of Y and Z are fixed at $10,000 each. The agreement further provides that all partnership distributions, income, gain, loss, deduction, and credit will be shared equally between Y and Z, except that the taxable gain attributable to the precontribution appreciation in the value of the securities of P corporation will be allocated to Z in accordance with section 704(c). During the partnership's first taxable year, it sells the securities of P corporation for $12,000, resulting in a $2,000 book gain ($12,000 less $10,000 book value) and a $9,000 taxable gain ($12,000 less $3,000 adjusted tax basis). The partnership has no other income, gain, loss, or deductions for the taxable year.

The gain from the sale of the securities is allocated as follows:

	Y		*Z*	
	Tax	*Book*	*Tax*	*Book*
Capital account upon formation	$10,000	$10,000	$3,000	$10,000
Plus: gain	1,000	1,000	8,000	1,000
Capital account at end of year	$11,000	$11,000	$11,000	$11,000

The allocation of the $2,000 book gain, $1,000 each to Y and Z, has substantial economic effect. Furthermore, under section 704(c) the partners' distributive shares of the $9,000 taxable gain are $1,000 to Y and $8,000 to Z.

(ii) Assume the same facts as in (i) and that at the beginning of the partnership's second taxable year, it invests its $22,000 of cash in securities of G Corp. The G Corp. securities increase in value to $40,000, at which time Y sells 50 percent of his partnership interest (*i.e.*, a 25 percent interest in the partnership) to LK for $10,000. The partnership does not have a section 754 election in effect for the partnership taxable year during which such sale occurs. In accordance with paragraph (b)(2)(iv)*(l)* of this section, the partnership agreement provides that LK inherits 50 percent of Y's $11,000 capital account balance. Thus, following the sale, LK and Y each have a capital account of $5,500, and Z's capital account remains at $11,000. Prior to the end of the partnership's second taxable year, the securities are sold for their $40,000 fair market value, resulting in an $18,000 taxable gain ($40,000 less $22,000 adjusted tax basis). The partnership has no other income, gain, loss, or deduction in such taxable year. Under the partnership agreement the $18,000 taxable gain is allocated as follows:

	Y	*Z*	*LK*
Capital account before sale of securities	$5,500	$11,000	$5,500
Plus: gain	4,500	9,000	4,500
Capital account at end of year 2	$10,000	$20,000	$10,000

The allocation of the $18,000 taxable gain has substantial economic effect.

(iii) Assume the same facts as in (ii) except that the partnership has a section 754 election in effect for the partnership taxable year during which Y sells 50 percent of his interest to LK. According, under §1.743-1 there is a $4,500 basis increase to the G Corp. securities with respect to LK. Notwithstanding this basis adjustment, as a result of the sale of the G Corp. securities, LK's capital account is, as in (ii), increased by $4,500. The fact that LK recognizes no taxable gain from such sale (due to his $4,500 section 743 basis adjustment) is irrelevant for capital accounting purposes since, in accordance with paragraph (b)(2)(iv)*(m)(2)* of this section, that basis adjustment is disregarded in the maintenance and computation of the partners' capital accounts.

(iv) Assume the same facts as in (iii) except that immediately following Y's sale of 50 percent of his interest to LK, the G Corp. securities decrease in value to $32,000 and are sold. The $10,000 taxable gain ($32,000 less $22,000 adjusted tax basis) is allocated as follows:

	Y	*Z*	*LK*
Capital account before sale of securities	$5,500	$11,000	$5,500
Plus: gain	2,500	5,000	2,500
Capital account at end of the year 2	$8,000	$16,000	$8,000

The fact that LK recognizes a $2,000 taxable loss from the sale of the G Corp. securities (due to his $4,500 section 743 basis adjustment) is irrelevant for capital accounting purposes since, in accordance with paragraph (b)(2)(iv)*(m)(2)* of this section, that basis adjustment is disregarded in the maintenance and computation of the partners' capital accounts.

(v) Assume the same facts as in (ii) except that Y sells 100 percent of his partnership interest (*i.e.*, a 50 percent interest in the partnership) to LK for $20,000. Under section 708(b)(1)(B) the partnership terminates. Under paragraph (b)(1)(iv) of §1.708–1, there is a constructive liquidation of the partnership. Immediately preceding the constructive liquidation, the capital accounts of Z and LK equal $11,000 each (LK having inherited Y's $11,000 capital account). In accordance with paragraph (b)(2)(iv)*(e)* of this section, the partnership agreement provides that the partners' capital accounts are adjusted to reflect how unrealized taxable gain would have been allocated if the securities had been sold for their $40,000 fair market value. Accordingly, the $18,000 of unrealized gain ($40,000 less $22,000 adjusted tax basis) is credited to the partners' capital accounts as follows:

	Z	*LK*
Capital account following sale	$11,000	$11,000
Deemed sale adjustment	9,000	9,000
Capital account before constructive liquidation	$20,000	$20,000

Constructive liquidating distributions of the securities are made with reference to their $40,000 fair market value. Under section 732(b) the adjusted tax basis of the G Corp. securities constructively distributed to Z is equal to the $11,000 adjusted tax basis of Z's partnership interest before the constructive liquidation, and the adjusted tax basis of the G Corp. securities constructively distributed to Z is equal to the $20,000 adjusted tax basis of LK's partnership interest partnership before the constructive liquidation. Under paragraph (b)(1)(iv) of §1.708-1, the partners then are treated as contributing to a new partnership the property constructively distributed to them in connection the partnership's termination. In accordance with paragraph (b)(2)(iv)*(d)* of this section, the capital accounts of Z and LK in the reconstituted partnership are stated at $20,000 each (*i.e.*, the fair market value of the property constructively contributed to the new partnership by each of the partners).

Example (14). (i) MC and RW form a general partnership to which each contributes $10,000. The $20,000 is invested in securities of Ventureco (which are not readily tradable on an established securities market). In each of the partnership's taxable years, it recognizes operating income equal to its operating deductions (excluding gain or loss from the sale of securities). The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interst) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). Assume that the Ventureco securities subsequently appreciate in value to $50,000. At that time SK makes a $25,000 cash contribution to the partnership (thereby acquiring a one-third interest in the partnership), and the $25,000 is placed in a bank account. Upon SK's admission to the partnership, the capital accounts of MC and RW (which were $10,000 each prior to SK's admission) are, in accordance with paragraph (b)(2)(iv)*(f)* of this section, adjusted upward (to $25,000 each) to reflect their shares of the unrealized appreciation in the Ventureco securities that occurred before SK was admitted to the partnership. Immediately after SK's admission to the partnership, the securities are sold for their $50,000 fair market value, resulting in taxable gain of $30,000 ($50,000 less $20,000 adjusted tax basis) and no book gain or loss. An allocation of the $30,000 taxable gain cannot have economic effect since it cannot properly be reflected in the partners' book capital accounts. Under paragraph (b)(2)(iv)*(f)* of this section and the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, unless the partnership agreement provides that the $30,000 taxable gain will, in accordance with section 704(c) principles, be shared $15,000 to MC and $15,000 to RW, the partners' capital accounts will not be considered maintained in accordance with paragraph (b)(2)(iv) of this section.

	MC		*RW*		*SK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account following SK's admission	$10,000	$25,000	$10,000	$25,000	$25,000	$25,000
Plus: gain	15,000	-0-	15,000	-0-	-0-	-0-
Capital account following sale	$25,000	$25,000	$25,000	$25,000	$25,000	$25,000

(ii) Assume the same facts as (i), except that after SK's admission to the partnership, the Ventureco securities appreciate in value to $74,000 and are sold, resulting in taxable gain of $54,000 ($74,000 less $20,000 adjusted tax basis) and book gain of $24,000 ($74,000 less $50,000 book value). Under the partnership agreement the $24,000 book gain (the appreciation in value occurring after SK became a partner) is allocated equally among MC, RW, and SK, and such allocations have substantial economic effect. An allocation of the $54,000 taxable gain cannot have economic effect since it cannot properly be reflected in the partners' book capital accounts. Under paragraph (b)(2)(iv)*(f)* of this section and the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, unless the partnership agreement provides that the taxable gain will, in accordance with section 704(c) principles, be shared $23,000 to MC, $23,000 to RW, and $8,000 to SK, the partners' capital accounts will not be considered maintained in accordance with paragraph (b)(2)(iv) of this section.

	MC		*RW*		*SK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account following SK's admission	$10,000	$25,000	$10,000	$25,000	$25,000	$25,000
Plus: gain	23,000	8,000	23,000	8,000	8,000	8,000
Capital account following sale	$33,000	$33,000	$33,000	$33,000	$33,000	$33,000

(iii) Assume the same facts as (i) except that after SK's admission to the partnership, the Ventureco securities depreciate in value to $44,000 and are sold, resulting in taxable gain of $24,000 ($44,000 less $20,000 adjusted tax basis) and a book loss of $6,000 ($50,000 book value less $44,000). Under the partnership agreement the $6,000 book loss is allocated equally among MC, RW, and SK, and such allocations have substantial economic effect. An allocation of the $24,000 taxable gain cannot have economic effect since it cannot properly be reflected in the partners' book capital accounts. Under paragraph (b)(2)(iv)*(f)* of this section and the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, unless the partnership agreement provides that the $24,000 taxable gain will, in accordance with section 704(c) principles, be shared equally between MC and RW, the partners' capital accounts will not be considered maintained in accordance with paragraph (b)(2)(iv) of this section.

	MC		*RW*		*SK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account following SK's admission	$10,000	$25,000	$10,000	$25,00 0	$25,000	$25,000
Plus: gain	12,000	-0-	12,000	-0-	-0-	-0-
Less: loss	-0-	(2,000)	-0-	(2,000)	-0-	(2,000)
Capital account following sale	$22,000	$23,000	$22,000	$23,000	$25,000	$23,000

That SK bears an economic loss of $2,000 without a corresponding taxable loss is attributable entirely to the "ceiling rule." See paragraph (c)(2) of §1.704-1.

(iv) Assume the same facts as in (ii) except that upon the admission of SK the capital accounts of MC and RW are not each adjusted upward from $10,000 to $25,000 to reflect the appreciation in the partnership's securities that occurred before SK was admitted to the partnership. Rather, upon SK's admission to the partnership, the partnership agreement is amended to provide that the first $30,000 of taxable gain upon the sale of such securities will be allocated equally between MC and RW, and that all other income, gain, loss, and deduction will be allocated equally between MC, RW, and SK. When the securities are sold for $74,000, the $54,000 of taxable gain is so allocated. These allocations of taxable gain have substantial economic effect. (If the agreement instead provides for all taxable gain (including the $30,000 taxable gain attributable to the appreciation in the securities prior to SK's admission to the partnership) to be allocated equally between MC, RW, and SK, the partners should consider whether, and to what extent, the provisions of paragraphs (b)(1)(iii) and (iv) of this section are applicable.)

(v) Assume the same facts as in (iv) except that instead of selling the securities, the partnership makes a distribution of the securities (which have a fair market value of $74,000). Assume the distribution does not give rise to a transaction described in section 707(a)(2)(B). In accordance with paragraph (b)(2)(iv)(*e*) of this section, the partners' capital accounts are adjusted immediately prior to the distribution to reflect how taxable gain ($54,000) would have been allocated had the securities been sold for their $74,000 fair market value, and capital account adjustments in respect of the distribution of the securities are made with reference to the $74,000 "booked-up" fair market value.

	MC	*RW*	*SK*
Capital account before adjustment	$10,000	$10,000	$25,000
Deemed sale adjustment	23,000	23,000	8,000
Less: distribution	(24,667)	(24,667)	(24,667)
Capital account after distribution	$8,333	$8,333	$8,333

(vi) Assume the same facts as in (i) except that the partnership does not sell the Ventureco securities. During the next 3 years the fair market value of the Ventureco securities remains at $50,000, and the partnership engages in no other investment activities. Thus, at the end of that period the balance sheet of the partnership and the partners' capital accounts are the same as they were at the beginning of such period. At the end of the 3 years, MC's interest in the partnership is liquidated for the $25,000 cash held by the partnership. Assume the distribution does not give rise to a transaction described in section 707(a)(2)(B). Assume further that the partnership has a section 754 election in effect for the taxable year during which such liquidation occurs. Under sections 734(b) and 755 the partnership increases the basis of the Ventureco securities by the $15,000 basis adjustment (the excess of $25,000 over the $10,000 adjusted tax basis of MC's partnership interest).

	MC		*RW*		*SK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account before distribution	$10,000	$25,000	$10,000	$25,000	$25,000	$25,000
Plus: basis adjustment	15,000	-0-	-0-	-0-	-0-	-0-
Less: distribution	(25,000)	(25,000)	-0-	-0-	-0-	-0-
Capital account account after liquidation	-0-	-0-	$10,000	$25,000	$25,000	$25,000

(vii) Assume the same facts as in (vi) except that the partnership has no section 754 election in effect for the taxable year during which such liquidation occurs.

	MC		*RW*		*SK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account before distribution	$10,000	$25,000	$10,000	$25,000	$25,000	$25,000
Less: distribution	(25,000)	(25,000)	-0-	-0-	-0-	-0-
Capital account after liquidation	($15,000)	-0-	$10,000	$25,000	$25,000	$25,000

Following the liquidation of MC's interest in the partnership, the Ventureco securities are sold for their $50,000 fair market value, resulting in no book gain or loss but a $30,000 taxable gain. An allocation of this $30,000 taxable gain cannot have economic effect since it cannot properly be reflected in the partners' book capital accounts. Under paragraph (b)(2)(iv)(*f*) of this section and the special partners' interests in the partnership rule contained in section paragraph (b)(4)(i) of this section, unless the partnership agreement provides that $15,000 of such taxable gain will, in accordance with section 704(c) principles, be included in RW's distributive share, the partners' capital accounts will not be considered maintained in accordance with paragraph (b)(2)(iv) of this section. The remaining $15,000 of such gain will, under paragraph (b)(3) of this section, be shared equally between RW and SK.

Example (15). (i) JB and DK form a limited partnership for the purpose of purchasing residential real estate to lease. JB, the limited partner, contributes $13,500, and DK, the general partner, contributes $1,500. The partnership, which uses the cash receipts and disbursements method of accounting, purchases a building for $100,000 (on leased land), incurring a recourse mortgage of $85,000 that requires the payment of interest only for a period of 3 years. The partnership agreement provides that partnership net taxable income and loss will be allocated 90 percent to JB and 10 percent to DK, the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances (as set forth in paragraph (b)(2)(ii)(*b*)(*2*) of this section), and JB is not required to restore any deficit balance in his capital account, but DK is so required. The partnership agreement contains a qualified income offset (as defined in paragraph (b)(2)(ii)(*d*) of this section). As of the end of each of the partnership's first 3 taxable years, the items described in paragraphs (b)(2)(ii)(*d*)(*4*), (*5*), and (*6*) of this section are not reasonably expected to cause or increase a deficit balance in JB's capital account. In the partnership's first taxable year, it has rental income of $10,000, operating expenses of $2,000, interest expense of $8,000, and cost recovery deductions of $12,000. Under the partnership agreement JB and DK are allocated $10,800 and $1,200, respectively, of the $12,000 net taxable loss incurred in the partnership's first taxable year.

	JB	*DK*
Capital account upon formation	$13,500	$1,500
Less: Year 1 net loss	(10,800)	(1,200)
Capital account at end of year 1	$2,700	$300

The alternate economic effect test contained in paragraph (b)(2)(ii)(*d*) of this section is satisfied as of the end of the partnership's first taxable year. Thus, the allocation made in the partnership's first taxable year has economic effect.

(ii) Assume the same facts as in (ii) and that in the partnership's second taxable year it again has rental income of $10,000, operating expenses of $2,000, interest expense of $8,000, and cost recovery deductions of $12,000. Under the partnership agreement JB and DK are allocated $10,800 and $1,200, respectively, of the $12,000 net taxable loss incurred in the partnership's second taxable year.

	JB	*DK*
Capital account at beginning of year 1	$2,700	$300
Less: year 2 net loss	(10,800)	(1,200)
Capital account at end of year 2	($8,100)	($900)

Only $2,700 of the $10,800 net taxable loss allocated to JB satisfies the alternate economic effect test contained in paragraph (b)(2)(ii)*(d)* of this section as of the end of the partnership's second taxable year. The allocation of such $2,700 net taxable loss to JB (consisting of $2,250 of rental income, $450 of operating expenses, $1,800 of interest expense, and $2,700 of cost recovery deductions) has economic effect. The remaining $8,100 of net taxable loss allocated by the partnership agreement to JB must be reallocated in accordance with the partners' interests in the partnership. Under paragraph (b)(3)(iii) of this section, the determination of the partners' interests in the remaining $8,100 net taxable loss is made by comparing how distributions (and contributions) would be made if the partnership sold its property at its adjusted tax basis and liquidated immediately following the end of the partnership's first taxable year with the results of such a sale and liquidation immediately following the end of the partnership's second taxable year. If the partnership's real property were sold for its $88,000 adjusted tax basis and the partnership were liquidated immediately following the end of the partnership's first taxable year, the $88,000 sales proceeds would be used to repay the $85,000 note, and there would be $3,000 remaining in the partnership, which would be used to make liquidating distributions to DK and JB of $300 and $2,700, respectively. If such property were sold for its $76,000 adjusted tax basis and the partnership were liquidated immediately following the end of the partnership's second taxable year, DK would be required to contribute $9,000 to the partnership in order for the partnership to repay the $85,000 note, and there would be no assets remaining in the partnership to distribute. A comparison of these outcomes indicates that JB bore $2,700 and DK $9,300 of the economic burden that corresponds to the $12,000 net taxable loss. Thus, in addition to the $1,200 net taxable loss allocated to DK under the partnership agreement, $8,100 of net taxable loss will be reallocated to DK under paragraph (b)(3)(iii) of this section. Similarly, for subsequent taxable years, absent an increase in JB's capital account, all net taxable loss allocated to JB under the partnership agreement will be reallocated to DK.

(iii) Assume the same facts as in (ii) and that in the partnership's third taxable year there is rental income of $35,000, operating expenses of $2,000, interest expense of $8,000, and cost recovery deductions of $10,000. The capital accounts of the partners maintained on the books of the partnership do not take into account the reallocation to DK of the $8,100 net taxable loss in the partnership's second taxable year. Thus, an allocation of the $15,000 net taxable income $13,500 to JB and $1,500 to DK (as dictated by the partnership agreement and as reflected in the capital accounts of the partners) does not have economic effect. The partners' interests in the partnership with respect to such $15,000 taxable gain again is made in the manner described in paragraph (b)(3)(iii) of this section. If the partnership's real property were sold for its $76,000 adjusted tax basis and the partnership were liquidated immediately following the end of the partnership's second taxable year, DK would be required to contribute $9,000 to the partnership in order for the partnership to repay the $85,000 note, and there would be no assets remaining to distribute. If such property were sold for its $66,000 adjusted tax basis and the partnership were liquidated immediately following the end of the partnership's third taxable year, the $91,000 ($66,000 sales proceeds plus $25,000 cash on hand) would be used to repay the $85,000 note and there would be $6,000 remaining in the partnership, which would be used to make liquidating distributions to DK and JB of $600 and $5,400, respectively. Accordingly, under paragraph (b)(3)(iii) of this section the $15,000 net taxable income in the partnership's third taxable year will be reallocated $9,600 to DK (minus $9,000 at end of the second taxable year to positive $600 at end of the third taxable year) and $5,400 to JB (zero at end of the second taxable year to positive $5,400 at end of the third taxable year).

Example (16). (i) KG and WN form a limited partnership for the purpose of investing in improved real estate. KG, the general partner, contributes $10,000 to the partnership, and WN, the limited partner, contributes $990,000 to the partnership. The $1,000,000 is used to purchase an apartment building on leased land. The partnership agreement provides that (1) the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section; (2) cash will be distributed first to WN until such time as he has received the amount of his original capital contribution ($990,000), next to KG until such time as he has received the amount of his original capital contribution ($10,000), and thereafter equally between WN and KG; (3) partnership net taxable income will be allocated 99 percent to WN and 1 percent to KG until the cumulative net taxable income allocated for all taxable years is equal to the cumulative net taxable loss previously allocated to the partners, and thereafter equally between WN and KG; (4) partnership net taxable loss will be allocated 99 percent to WN and 1 percent to KG, unless net taxable income has previously been allocated equally between WN and KG, in which case such net taxable loss first will be allocated equally until the cumulative net taxable loss allocated for all taxable years is equal to the cumulative net taxable income previously allocated to the partners; and (5) upon liquidation, WN is not required to restore any deficit balance in his capital account, but KG is so required. Since distributions in liquidation are not required to be made in accordance with the partners' positive capital account balances, and since WN is not required, upon the liquidation of his interest, to restore the deficit balance in his capital account to the partnership, the allocations provided by the partnership agreement do not have economic effect and will be reallocated in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section.

(ii) Assume the same facts as in (i) except that the partnership agreement further provides that distributions in liquidation of the partnership (or any partner's interest) are to be made in accordance with the partners' positive capital account balances (as set forth in paragraph (b)(2)(ii)*(b)(2)* of this section). Assume further that the partnership agreement contains a qualified income offset (as defined in paragraph (b)(2)(ii)*(d)* of this section) and that, as of the end of each partnership taxable year, the items described in paragraphs (b)(2)(iii)*(d)(4)*, *(5)*, and *(6)* of this section are not reasonably expected to cause or increase a deficit balance in WN's capital account. The allocations provided by the partnership agreement have economic effect.

Example (17). FG and RP form a partnership with FG contributing cash of $100 and RP contributing property, with 2 years of cost recovery deductions remaining, that has an adjusted tax basis of $80 and a fair market value of $100. The partnership, FG, and RP have calendar taxable years. The partnership agreement provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, liquidation proceeds will be made in accordance with capital account balances, and each partner is liable to restore the deficit balance in his capital account to the partnership upon liquidation of his interest (as set forth in paragraphs (b)(2)(ii)*(b)(2)* and *(3)* of this section). FG expects to be in a substantially higher tax bracket than RP in the partnership's first taxable year. In the partnership's second taxable year, and in subsequent taxable years, it is expected that both will be in approximately equivalent tax brackets. The partnership agreement allocates all items equally except that all $50 of book depreciation is allocated to FG in the partnership's first taxable year and all $50 of book depreciation is allocated to RP in the partnership's second taxable year. If the allocation to FG of all book depreciation in the partnership's first taxable year is respected, FG would be entitled under section 704(c) to the entire cost recovery deduction ($40) for such year. Likewise, if the allocation to RP of all the book depreciation in the partnership's second taxable year is respected, RP would be entitled under section 704(c) to the entire cost recovery deduction ($40) for such year. The allocation of book depreciation to FG and RP in the partnership's first 2 taxable years has economic effect within the meaning of paragraph (b)(2)(ii) of this section. However, the economic effect of these allocations is not substantial under the test described in paragraph (b)(2)(iii)*(c)* of this section since there is a strong likelihood at the time such allocations became part of the partnership agreement that at the end of the 2-year period to which such allocations relate, the net increases and decreases to FG's and RP's capital accounts will be the same with such allocations as they would have been in the absence of such allocation, and the total tax liability of FG and RP for the taxable years to which the section 704(c) determinations relate would be reduced as a result of the allocations of book depreciation. As a result the allocations of book depreciation in the partnership agreement will be disregarded. FG and RP will be allocated such book depreciation in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section. Under these facts the book depreciation deductions will be reallocated equally between the partners, and section 704(c) will be applied with reference to such reallocation of book depreciation.

Example (18). (i) WM and JL form a general partnership by each contributing $300,000 thereto. The partnership uses the $600,000 to purchase an item of tangible personal property, which it leases out. The partnership elects under section 48(q)(4) to reduce the amount of investment tax credit in lieu of adjusting the tax basis of such property. The partnership agreement provides that (1) the partners' capital account will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, (2) distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the parents' positive capital account balances (as set forth in paragraph (b)(2)(ii)(*b*)(*2*) of this section), (3) any partner with a deficit balance in his capital account following the liquidation of his interest must restore that deficit to the partnership (as set forth in paragraph (b)(2)(ii)(*b*)(*3*) of this section), (4) all income, gain, loss, and deduction of the partnership will be allocated equally between the partners, and (5) all non-liquidating distributions of the partnership will be made equally between the partners. Assume that in each of the partnership's taxable years, it recognizes operating income equal to its operating deductions (excluding cost recovery and depreciation deductions and gain or loss on the sale of its property). During its first 2 taxable years, the partnership has an additional $200,000 cost recovery deduction in each year. Pursuant to the partnership agreement these items are allocated equally between WM and JL.

	WM	*Jul*
Capital account upon formation	$300,000	$300,000
Less: net loss for years 1 and 2	(200,000)	(200,000)
Capital account at end of year 2	$100,000	$100,000

The allocations made in the partnership's first 2 taxable years have substantial economic effect.

(ii) Assume the same facts as in (i) and that MK is admitted to the partnership at the beginning of the partnership's third taxable year. At the time of his admission, the fair market value of the partnership property is $600,000. MK contributes $300,000 to the partnership in exchange for an equal one-third interest in the partnership, and, as permitted under paragraph (b)(2)(iv)(*g*), the capital accounts of WM and JL are adjusted upward to $300,000 each to reflect the fair market value of partnership property. In addition, the partnership agreement is modified to provide that depreciation and gain or loss, as computed for tax purposes, with respect to the partnership property that appreciated prior to MK's admission will be shared among the partners in a manner that takes account of the variation between such property's $200,000 adjusted tax basis and its property's $200,000 adjusted tax basis and its $600,000 book value in accordance with paragraph (b)(2)(iv)(*f*) and the special rule contained in paragraph (b)(4)(i) of this section. Depreciation and gain or loss, as computed for book purposes, with respect to such property will be allocated equally among the partners and, in accordance with paragraph (b)(2)(iv)(*g*) of this section, will be reflected in the partners' capital accounts, as will all other partnership income, gain, loss, and deduction. Since the requirements of (b)(2)(iv)(*g*) of this section are satisfied, the capital accounts of the partners (as adjusted) continue to be maintained in accordance with paragraph (b)(2)(iv) of this section.

(iii) Assume the same facts as in (ii) and that immediately after MK's admission to the partnership, the partnership property is sold for $600,000, resulting in a taxable gain of $400,000 ($600,000 less $200,000 adjusted tax basis) and no book gain or loss, and the partnership is liquidated. An allocation of the $400,000 taxable gain cannot have economic effect because such gain cannot properly be reflected in the partners' book capital accounts. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $400,000 taxable gain will, in accordance with section 704(c) principles, be shared equally between WN and JL.

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Plus: gain	200,000	-0-	200,000	-0-	-0-	-0-
Capital account before liquidation	$300,000	$300,000	$300,000	$300,000	$300,000	$300,000

The $900,000 of partnership cash ($600,000 sales proceeds plus $300,000 contributed by MK) is distributed equally among WM, JL, and MK in accordance with their adjusted positive capital account balances, each of which is $300,000.

(iv) Assume the same facts as in (iii) except that prior to liquidation the property appreciates and is sold for $900,000, resulting in a taxable gain of $700,000 ($900,000 less $200,000 adjusted tax basis) and a book gain of $300,000 ($900,000 less $600,000 book value). Under the partnership agreement the $300,000 of book gain is allocated equally among the partners, and such allocation has substantial economic effect.

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Plus: gain	300,000	100,000	300,000	100,000	100,000	100,000
Capital account before liquidation	$400,000	$400,000	$400,000	$400,000	$400,000	$400,000

Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $700,000 taxable gain is, in accordance with section 704(c) principles, shared $300,000 to JL, $300,000 to WM, and $100,000 to MK. This ensures that (1) WM and JL share equally the $400,000 taxable gain that is attributable to appreciation in the property that occurred prior to MK's admission to the partnership in the same manner as it was reflected ir their capital accounts upon MK's admission, anc (2) WM, JL, and MK share equally the additiona $300,000 taxable gain in the same manner as they shared the $300,000 book gain.

(v) Assume the same facts as in (ii) except that shortly after MK's admission the property depreciates and is sold for $450,000, resulting in a taxable gain of $250,000 ($450,000 less $200,000 adjusted tax basis) and a book loss of $150,000 $450,000 less $600,000 book value). Under the partnership agreement these items are allocated as follow:

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Plus: gain	125,000	-0-	125,000	-0-	-0-	-0-
Less: loss	-0-	(50,000)	-0-	(50,000)	-0-	(50,000)
Capital account before liquidation	$225,000	$250,000	$225,000	$250,000	$300,000	$250,000

The $150,000 book loss is allocated equally among the partners, and such allocation has substantial economic effect. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $250,000 taxable gain is, in accordance with section 704(c) principles, shared equally between WM and JL. The fact that MK bears an economic loss of $50,000 without a corresponding taxable loss is attributable entirely to the "ceiling rule." See paragraph (c)(2) of §1.704-1.

(vi) Assume the same facts as in (ii) except that the property depreciates and is sold for $170,000, resulting in a $30,000 taxable loss ($200,000 adjusted tax basis less $170,000) and a book loss of $430,000 ($600,000 book value less $170,000). The book loss of $430,000 is allocated equally among the partners ($143,333 each) and has substantial economic effect. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the entire $30,000 taxable loss is, in accordance with section 704(c) principles, included in MK's distributive share.

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Less: loss	-0-	(143,333)	-0-	(143,333)	(30,000)	(143,333)
Capital account before liquidation	$100,000	$156,667	$100,000	$156,667	$270,000	$156,667

(vii) Assume the same facts as in (ii) and that during the partnership's third taxable year, the partnership has an additional $100,000 cost recovery deduction and $300,000 book depreciation deduction attributable to the property purchased by the partnership in its first taxable year. The $300,000 book depreciation deduction is allocated equally among the partners, and that allocation has substantial economic effect. Consistent with the special partners' interests in the partnership rule contained in paragraph(b)(4)(i) of this section, the partnership agreement provides that the $100,000 cost recovery deduction for the partnership's third taxable year is, in accordance with section 704(c) principles, included in MK's distributive share. This is because under those principles MK must include the cost recovery deduction for such property in his distributive share up to the amount of the book depreciation deduction for such property properly allocated to him.

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Less: recovery/depreciation deduction for year 3	-0-	(100,000)	-0-	(100,000)	(100,000)	(100,000)
Capital account at end of year 3	$100,000	$200,000	$100,000	$200,000	$2 00,000	$200,000

(viii) Assume the same facts as in (vii) except that upon MK's admission the partnership property has an adjusted tax basis of $220,000 (instead of $200,000), and thus the cost recovery deduction for the partnership's third taxable year is $110,000. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the excess $10,000 cost recovery deduction ($110,000 less $100,000 included in MK's distributive share) is, in accordance with section 704(c) principles, shared by WM and JL in proportion to their shares of book depreciation. Since their shares of book depreciation were equal, they each must include $5,000 of the cost recovery deduction in their distributive shares for the partnership's third taxable year.

(ix) Assume the same facts as in (vii) except that upon MK's admission the partnership agreement is amended to allocate the first $400,000 of book depreciation and loss on partnership property equally between WM and JL and the last $200,000 of such book depreciation and loss to MK. Assume such allocations have substantial economic effect. Pursuant to this amendment the $300,000 book depreciation deduction in the partnership's third taxable year is allocated equally between WM and JL. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $100,000 cost recovery deduction is, in accordance with section 704(c) principles, shared equally between WM and JL. In the partnership's fourth taxable year, it has a $60,000 cost recovery deduction and a $180,000 book depreciation deduction. Under the amendment described above, the $180,000 book depreciation deduction is allocated $50,000 to WM, $50,000 to JL, and $80,000 to MK. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $60,000 cost recovery deduction is, in accordance with section 704(c) principles, included entirely in MK's distributive share.

	WM		*JL*		*MK*	
	Tax	*Book*	*Tax*	*Book*	*Tax*	*Book*
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Less: (a) recovery/depreciation deduction for year 3	(50,000)	(150,000)	(50,000)	(150,000)	-0-	-0-
(b) recovery/depreciation deduction for year 4	-0-	(50,000)	-0-	(50,000)	(60,000)	(80,000)
Capital account at end of year 4	$50,000	$100,000	$50,000	$100,000	$240,000	$220,000

(x) Assume the same facts as in (vii) and that at the beginning of the partnership's third taxable year, the partnership purchases a second item of tangible personal property for $300,000 and elects under section 48(q)(4) to reduce the amount of investment tax credit in lieu of adjusting the tax basis of such property. The partnership agreement is amended to allocate the first $150,000 of cost recovery deductions and loss from such property to WM and the next $150,000 of cost recovery deductions and loss from such property equally between JL and MK. Thus, in the partnership's third taxable year it has, in addition to the items specified in (vii), a cost recovery and book depreciation deduction of $100,000 attributable to the newly acquired property, which is allocated entirely to WM. As in (vii), the allocation of the $300,000 book depreciation attributable to the property purchased in the partnership's first taxable year equally among the partners has substantial economic effect, and consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement properly provides for the entire $100,000 cost recovery deduction attributable to such property to be included in MK's distributive share. Furthermore, the allocation to WM of the $100,000 cost recovery deduction attributable to the property purchased in the partnership's third taxable year has substantial economic effect.

	WM		JL		MK	
	Tax	Book	Tax	Book	Tax	Book
Capital account at beginning of year 3	$100,000	$300,000	$100,000	$300,000	$300,000	$300,000
Less: (a) recovery/depreciation deduction for property bought in year 1	-0-	(100,000)	-0-	(100,000)	(100,000)	(100,000)
(b) recovery/depreciation deduction for property bought in year 3	(100,000)	(100,000)	-0-	-0-	-0-	-0-
Capital account at end of year 3	-0-	$100,000	$100,000	$200,000	$200,000	$200,000

(xii) Assume the same facts as in (x) and that in the partnership's fourth taxable year it has a cost recovery deduction of $60,000 and book depreciation deduction of $180,000 attributable to the property purchased in the partnership's first taxable year, and a cost recovery and book depreciation deduction of $100,000 attributable to the property purchased in the partnership's third taxable year. The $180,000 book depreciation deduction attributable to the property purchased in the partnership's first taxable year is allocated equally among the partners, and such allocation has substantial economic effect. Consistent with the special partners' interests in the partnership rule contained in paragraph (b)(4)(i) of this section, the partnership agreement provides that the $60,000 cost recovery deduction attributable to the property purchased in the first taxable year is, in accordance with section 704(c) principles, included entirely in MK's distributive share. Furthermore, the $100,000 cost recovery deduction attributable to the property purchased in the third taxable year is allocated $50,000 to WM, $25,000 to JL, and $25,000 to MK, and such allocation has substantial economic effect.

	WM		JL		MK	
	Tax	Book	Tax	Book	Tax	Book
Capital account at beginning of year 4	-0-	$100,000	$100,000	$200,000	$200,000	$200,000
Less: (a) recovery/depreciation deduction for property bought in year 1	-0-	(60,000)	-0-	(60,000)	(60,000)	(60,000)
(b) recovery/depreciation deduction for property bought in year 3	(50,000)	(50,000)	(25,000)	(25,000)	(25,000)	(25,000)
Capital account at end of year 4	($50,000)	($10,000)	$75,000	$115,000	$115,000	$115,000

At the end of the partnership's fourth taxable year the adjusted tax bases of the partnership properties acquired in its first and third taxable years are $40,000 and $100,000, respectively. If the properties are disposed of at the beginning of the partnership's fifth taxable year for their adjusted tax bases, there would be no taxable gain or loss, a book loss of $80,000 on the property purchased in the partnership's first taxable year ($120,000 book value less $40,000), and cash available for distribution of $140,000.

	WM		JL		MK	
	Tax	Book	Tax	Book	Tax	Book
Capital account at beginning of year 5	($50,000)	($10,000)	$75,000	$115,000	$115,000	$115,000
Less: loss	-0-	(26,667)	-0-	(26,667)	-0-	(26,667)
Capital account before liquidation	($50,000)	($36,667)	$75,000	$88,333	$115,000	$88,333

If the partnership is then liquidated, the $140,000 of cash on hand plus the $36,667 balance that WM would be required to contribute to the partnership (the deficit balance in his book capital account) would be distributed equally between JL and MK in accordance with their adjusted positive book capital account balances.

(xiii) Assume the same facts as in (i). Any tax preferences under section 57(a)(12) attributable to the partnership's cost recovery deductions in the first 2 taxable years will be taken into account equally by WM and JL. If the partnership agreement instead provides that the partnership's cost recovery deductions in its first 2 taxable years are allocated 25 percent to WM and 75 percent to JL (and such allocations have substantial economic effect), the tax preferences attributable to such cost recovery deductions would be taken into account 25 percent by WM and 75 percent by JL. The conclusion in the previous sentence is unchanged even if the partnership's operating expenses (exclusive of cost recovery and depreciation deductions) exceed its operating income in each of the partnership's first 2 taxable years, the resulting net loss is allocated entirely to WM, and the cost recovery deductions are allocated 25 percent to WM and 75 percent to JL (provided such allocations have substantial economic effect). If the partnership agreement instead provides that all income, gain, loss, and deduction (including cost recovery and depreciation deductions) are allocated equally between JL and WM, the tax preferences attributable to the cost recovery deductions would be taken into account equally by JL and WM. In this case, if the partnership has a $100,000 cost recovery deduction in its first taxable year and an additional net loss of $100,000 in its first taxable year (*i.e.*, its operating expenses exceed its operating income by $100,000) and purports to categorize JL's $100,000 distributive share of partnership loss as being attributable to the cost recovery deduction and WM's $100,000 distributive share of partnership loss as being attributable to the net loss, the economic effect of such allocations is not substantial, and each partner will be allocated one-half of all partnership income, gain, loss, and deduction and will take into account one-half of the tax preferences attributable to the cost recovery deductions.

Example (19). (i) DG and JC form a general partnership for the purpose of drilling oil wells.

DG contributes an oil lease, which has a fair market value and adjusted tax basis of $100,000. JC contributes $100,000 in cash, which is used to finance the drilling operations. The partnership agreement provides that DG is credited with a capital account of $100,000, and JC is credited with a capital account of $100,000. The agreement further provides that the partners' capital accounts will be determined and maintained in accordance with paragraph (b)(2)(iv) of this section, distributions in liquidation of the partnership (or any partner's interest) will be made in accordance with the partners' positive capital account balances, and any partner with a deficit balance in his capital account following the liquidation of his interest must restore such deficit to the partnership (as set forth in paragraphs (b)(2)(ii)(b)*(2)* and *(3)* of this section). The partnership chooses to adjust capital accounts on a simulated cost depletion basis and elects under section 48(q)(4) to reduce the amount of investment tax credit in lieu of adjusting the basis of its section 38 property. The agreement further provides that (1) all additional cash requirements of the partnership will be borne equally by DG and JC, (2) the deductions attributable to the property (including money) contributed by each partner will be allocated to such partner, (3) all other income, gain, loss, and deduction (and item thereof) will be allocated equally between DG and JC, and (4) all cash from operations will be distributed equally between DG and JC. In the partnership's first taxable year $80,000 of partnership intangible drilling cost deductions and $20,000 of cost recovery deductions on partnership equipment are allocated to JC, and the $100,000 basis of the lease is, for purposes of the depletion allowance under sections 611 and 613A(c)(7)(D), allocated to DG. The allocations of income, gain, loss, and deduction provided in the partnership agreement have substantial economic effect. Furthermore, since the allocation of the entire basis of the lease to DG will not result in capital account adjustments (under paragraph (b)(2)*(iv)(k)* of this section) the economic effect of which is insubstantial, and since all other partnership allocations are recognized under this paragraph,the allocation of the $100,000 adjusted basis of the lease to DG is, under paragraph (b)(4)(v) of this section, recognized as being in accordance with the partners' interests in partnership capital for purposes of section 613A(c)(7)(D).

(ii) Assume the same facts as in (i) except that the partnership agreement provides that (1) all additional cash requirements of the partnership for additional expenses will be funded by additional contributions from JC, (2) all cash from operations will first be distributed to JC until the excess of such cash distributions over the amount of such additional expenses equals his initial $100,000 contribution, (3) all deductions attributable to such additional operating expenses will be allocated to JC, and (4) all income will be allocated to JC until the aggregate amount of income allocated to him equals the amount of partnership operating expenses funded by his initial $100,000 contribution plus the amount of additional operating expenses paid from contributions made solely by him. The allocations of income, gain, loss, and deduction provided in the partnership agreement have economic effect. In addition, the economic effect of the allocations provided in the agreement is substantial. Because the partnership's drilling activities are sufficiently speculative, there is not a strong likelihood at the time the disproportionate allocations of loss and deduction to JC are provided for by the partnership agreement that the economic effect of such allocations will be largely offset by allocations of income. In addition, since the allocation of the entire basis of the lease to DG will not result in capital account adjustments (under paragraph (b)(2)*(iv)(k)* of this section) the economic effect of which is insubstantial, and since all other partnership allocations are recognized under this paragraph, the allocation of the adjusted basis of the lease to DG is, under paragraph (b)(4)(v) of this section, recognized as being in accordance with the partners' interests in partnership capital under section 613A(c)(7)(D).

(iii) Assume the same facts as in (i) except that all distributions, including those made upon liquidation of the partnership, will be made equally between DG and JC, and no partner is obligated to restore the deficit balance in his capital account to the partnership following the liquidation of his interest for distribution to partners with positive capital account balances. Since liquidation proceeds will be distributed equally between DG and JC irrespective of their capital account balances, and since no partner is required to restore the deficit balance in his capital account to the partnership upon liquidation (in accordance with paragraph (b)(2)(ii)*(b)(3)* of this section), the allocations of income, gain, loss, and deduction provided in the partnership agreement do not have economic effect and must be reallocated in accordance with the partners' interests in the partnership under paragraph (b)(3) of this section. Under these facts all partnership income, gain, loss, and deduction (and item thereof) will be reallocated equally between JC and DG. Furthermore, the allocation of the $100,000 adjusted tax basis of the lease to DG is not, under paragraph (b)(4)(v) of this section, deemed to be in accordance with the partners' interests in partnership capital under section 613A(c)(7)(D), and such basis must be reallocated in accordance with the partners' interests in partnership capital or income as determined under section 613A(c)(7)(D). The results in this example would be the same if JC's initial cash contribution were $1,000,000 (instead of $100,000), but in such case the partners should consider whether, and to what extent, the provisions of paragraph (b)(1) of §1.721-1, and principles related thereto, may be applicable.

(iv) Assume the same facts as in (i) and that for the partnership's first taxable year the simulated depletion deduction with respect to the lease is $10,000. Since DG properly was allocated the entire depletable basis of the lease (such allocation having been recognized as being in accordance with DG's interest in partnership capital with respect to such lease), under paragraph (b)(2)(iv)*(k)(1)* of this section the partnership's $10,000 simulated depletion deduction is allocated to DG and will reduce his capital account accordingly. If (prior to any additional simulated depletion deductions) the lease is sold for $100,000, paragraph (b)(4)(v) of this section requires that the first $90,000 (*i.e.*, the partnership's simulated adjusted basis in the lease) out of the $100,000 amount realized on such sale be allocated to DG (but does not directly affect his capital account). The partnership agreement allocates the remaining $10,000 amount realized equally between JC and DG (but such allocation does not directly affect their capital accounts). This allocation of the $10,000 portion of amount realized that exceeds the partnership's simulated adjusted basis in the lease will be treated as being in accordance with the partners' allocable shares of such amount realized under section 613A(c)(7)(D) because such allocation will not result in capital account adjustments (under paragraph (b)(2)(iv)*(k)* of this section) the economic effect of which is insubstantial, and all other partnership allocations are recognized under this paragraph. Under paragraph (b)(2)(iv)*(k)* of this section, the partners' capital accounts are adjusted upward by the partnership's simulated gain of $10,000 ($100,000 sales price less $90,000 simulated adjusted basis) in proportion to such partners' allocable shares of the $10,000 portion of the total amount realized that exceeds the partnership's $90,000 simulated adjusted basis ($5,000 to JC and $5,000 to DG). If the lease is sold for $50,000, under paragraph (b)(4)(v) of this section the entire $50,000 amount realized on the sale of the lease will be allocated to DG (but will not directly affect this capital account). Under paragraph (b)(2)(iv)*(k)* of this section the partners' capital accounts will be adjusted downward by the partnership's $40,000 simulated loss ($50,000 sales price less $90,000 simulated adjusted basis) in proportion to the partners' allocable shares of the total amount realized from the property that represents recovery of the partnership's simulated adjusted basis therein. Accordingly, DG's capital account will be reduced by such $40,000.

ROSCOE L. EGGER, JR.,
Commissioner of
Internal Revenue.

Approved, December 19, 1985

RONALD A. PEARLMAN,
Assistant Secretary
of the Treasury (Tax Policy).

(Filed by the Office of the Federal Register on December 24, 1985, 11:58 a.m., and published in the issue of the Federal Register for December 31, 1985, 50 F.R. 53420)

Section 1033.—Involuntary Conversions

26 CFR 1.1033(a)-2: Involuntary conversion into similar property, into money or into dissimilar property.

Involuntary conversion; insurance proceeds; use and occupancy insurance contract. The Service will look to the underwriting and actuarial criteria and any other information used in writing the insurance to determine if the insurance is designed to reimburse for a loss of profits and fixed charges. Rev. Rul. 73-477 amplified.

Rev. Rul. 86-12

ISSUE

Are the written terms of a contract,

described as a "use and occupancy insurance contract", the sole basis to determine whether insurance proceeds from the contract are proceeds from insurance against lost profits within the meaning of section 1.1033(a)-2(c)(8) of the Income Tax Regulations?

FACTS

The taxpayer, a domestic corporation, purchased a business interruption insurance policy. The written terms of the contract provide for protection and reimbursement for loss of the use and occupancy of the taxpayer's building and machinery resulting from fire or other casualty. The contract provides for a fixed payment of 200x dollars per day. The written contract does not specify how the amount of this coverage or the premium for the policy was computed. However, the premium and coverage were arrived at by application of underwriting and actuarial criteria and were based exclusively on the profits and fixed charges experience of the taxpayer.

In 1981 the building and machinery were destroyed by fire and the taxpayer was reimbursed under its policy. The taxpayer invested all of the proceeds, received from the insurance company for its loss, in the rebuilding of the building and in repurchasing machinery.

LAW AND ANALYSIS

Section 1033 of the Internal Revenue Code provides, in general, for the nonrecognition of gain to the extent that the proceeds of an involuntary conversion of property are used to purchase qualified replacement property.

Section 1.1033(a)-2(c)(8) of the regulations provides that the proceeds of a use and occupancy insurance contract, which by its terms insured against actual loss sustained of net profits in the business, are not proceeds of an involuntary conversion but are income in the same manner that the profits for which they are substituted would have been.

In Rev. Rul. 73-477, 1973-2 C.B. 302, the Internal Revenue Service was asked to consider whether the proceeds from an insurance contract that provided for per diem payments of 35*x* dollars, whenever specified causes suspended business operations, were subject to the nonrecognition treatment under section 1033 of the Code. Rev. Rul. 73-477 holds that because the insurance contract permits reduction of coverage based on profits and fixed charges experience, the insurance is designed to reimburse the taxpayer for a loss of net profits and fixed charges. Thus, the insurance proceeds were treated as ordinary income and nonrecognition treatment under section 1033 was not available.

The facts in the instant situation are similar to those in Rev. Rul. 73-477, except that it is necessary to go beyond the terms on the face of the use and occupancy contract to determine the precise nature of the contract. See, *Helvering v. Le Gierse*, 312 U.S. 531 (1941), 1941-1 C.B. 430.

Section 1.1033(a)-2(c)(8) of the regulations is not intended to limit determinations of the type of insurance provided by a use and occupancy insurance contract to an examination of only the terms on the face of the contract. Thus, the insurance contract in this situation is determined to include underwriting and acturial criteria based on the profits and fixed charges experience of the taxpayer.

HOLDING

Written terms of a contract, described as a use and occupancy insurance contract, are not the sole basis to determine whether insurance proceeds from the contract qualify as proceeds of an involuntary conversion under section 1033 of the Code. The Service will look to the underwriting and actuarial criteria and any other information used in writing the insurance to determine if the insurance is designed to reimburse for a loss of profits and fixed charges. Accordingly, under the policy described above, insurance proceeds will be ordinary income and nonrecognition treatment under section 1033 will not be available.

EFFECT ON OTHER DOCUMENT

Rev. Rul. 73-477 is amplified.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property

(Also Sections 467, 483.)

Rev. Rul. 86-13

For purposes of section 1274(d) of the Internal Revenue Code, the short-term, mid-term, and long-term applicable federal rates (AFR) for the month of February 1986 are as follows:

	Period for Compounding			
	Annual	Semiannual	Quarterly	Monthly
Short-Term				
AFR	8.06%	7.90%	7.82%	7.77%
110% AFR	8.88%	8.69%	8.60%	8.54%
120% AFR	9.70%	9.48%	9.37%	9.30%
Mid-Term				
AFR	8.96%	8.77%	8.68%	8.61%
110% AFR	9.88%	9.65%	9.54%	9.46%
120% AFR	10.80%	10.52%	10.39%	10.30%
Long-Term				
AFR	9.63%	9.41%	9.30%	9.23%
110% AFR	10.62%	10.35%	10.22%	10.13%
120% AFR	11.61%	11.29%	11.14%	11.03%

Section 3101.—Rate of Tax

26 CFR 31.3101-1: Measure of employee tax.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are subject to employee FICA tax. See Rev. Rul. 86-14, this page.

Section 3121.—Definitions

26 CFR 31.3121(a)(6)-1 Payment by an employer of employee tax under section 3101 or employee contributions under a State law.

(Also Sections 61, 162, 3101, 3306, 3401, 6051, 6413; 1.61-2, 1.162-7, 31.3101-1, 31.3306(b)(6)-1, 31.3401(a)-1, 31.6051-1, 31.6413(c)-1.)

Payment of employee FICA tax by employer without deduction from wages. Payments by an employer of employee FICA tax without deduction from employee's wages under an agreement between them are additional wages for FICA purposes, the amount of wages to be determined by a formula. The additional FICA wages so determined are includible in the employee's gross income and are wages for purposes of income tax withholding. If otherwise appropriate, the employer may deduct the payments as ordinary and necessary business expenses under section 162 of the Code. Rev. Rul. 74-75 modified.

Rev. Rul. 86-14

ISSUE

What are the federal income and employment tax consequences when an employer agrees with an employee to pay the employee Federal Insurance Contributions Act (FICA) tax imposed by section 3101 of the Internal Revenue Code without deducting the amount of the taxes from the employee's pay?

FACTS

Situation 1. During 1985, an employer agreed to pay an employee $200 weekly. The payments are "wages" for "employment" under section 3121(a) of the Code (relating to the FICA), section 3306(b) (relating to the Federal Unemployment Tax Act (FUTA)), and section 3401(a) (relating to income tax withholding). The payments are not for domestic service in the employer's private home or for agricultural labor. The employer further agreed to pay the employee FICA taxes imposed by section 3101 without deducting them from the $200 paid to the employee.

Situation 2. The facts are the same as in *Situation 1*, except that the pay was either for domestic service in the employer's private home or for agricultural labor.

LAW AND ANALYSIS

Section 61(a) of the Code defines gross income as all income from whatever source derived, including compensation for services.

Taxes assessed against an employee and paid by an employer in partial consideration for service are includible in the employee's gross income. *Old Colony Trust Co. v. Commissioner*, 279 U.S. 716 (1929), VIII-2 C.B. 222 (1929).

Sections 3121(a)(6)(A) and 3306(b)(6)(A) of the Code except from "wages," for FICA and FUTA purposes, respectively, an employer's payment (without deduction from the employee's pay) of the employee FICA taxes imposed by section 3101, in the case of pay for domestic service in the employer's private home or for agricultural labor. Those sections previously excepted from wages all payments of employee FICA taxes by an employer without deduction from the employee's pay, but the exception was limited to domestic service in the employer's home and agricultural labor by section 1141 of the Omnibus Reconciliation Act of 1980, 1980-2 C.B. 509, 530, effective for remuneration paid after December 31, 1980. (December 31, 1983, in the case of certain state and local government employees who are covered for social security purposes under an agreement under section 218 of the Social Security Act, 42 U.S.C. section 418 (1982).)

Section 31.3401(a)-1(b)(6) of the Employment Tax Regulations states that "wages," for income tax withholding purposes, includes amounts paid by an employer on behalf of an employee without deduction from the employee's pay) of the employee FICA taxes imposed by section 3101 of the Code.

Section 3401(a)(2) of the Code excepts from wages for income tax withholding purposes payments for agricultural labor, and section 3401(a)(3) excepts payments for domestic service in a private home.

Rev. Proc. 81-48, 1981-2 C.B. 623, provides a formula for determining the amount of wages under sections 3121(a), 3306(b), and 3401(a) of the Code if an employer, under an arrangement with an employee, pays the employee FICA taxes imposed by section 3101 after December 31, 1980, without deducting them from the employee's pay. However, the revenue procedure and the formula do not apply if the pay is for domestic service in the employer's private home or for agricultural labor.

The effect of section 1141 of the 1980 Act is that if an employer pays the employee FICA taxes imposed by section 3101 of the Code without deducting them from the employee's pay, the amount of the employee's wages under section 3121(a) is increased by the amount of the taxes. This increase in the wage payment is also subject to the employee FICA taxes, which has the effect of again increasing the employee's wages under section 3121(a) by the amount of the additional taxes paid by the employer. This continuing series of additional wages and additional taxes on such wages is known as "pyramiding." See Rev. Proc. 81-48.

The formula for determining an employee's FICA wages set forth in Rev. Proc. 81-48 is:

$$W = \frac{S}{1-R}$$

W = The employee's total FICA wages after the increase reflecting the pyramiding effect,

S = State pay (the pay before taking into account the pyramiding effect), and

R = Rate of employee FICA taxes.

During 1985, the employee FICA taxes imposed by section 3101 of the Code are 7.05 percent (.0705) of the wages received by the employee during the year.

In addition, in order to determine the increased wages under section 3306(b) of the Code (FUTA) and section 3401(a) (income tax withholding), it is first necessary to compute the employee FICA tax under section 3101. See section 3306(b)(6)(A) of the Code (as amended by the 1980 Act) and section 31.3401(a)-1(b)(6) of the regulations, above.

HOLDINGS

Situation 1 Using the formula set forth above, weekly FICA wages are $215.17 ($200/.9295). The weekly employee FICA taxes are 7.05 percent of those wages or $15.17.

For income tax purposes, the entire $215.17 ($200 + $15.17) is includible in the employee's gross income as compensation under section 61(a)(1) of the Code.

For FUTA and income tax withholding purposes, the employee's weekly wages are $215.17.

On the Form W-2, Wage and Tax Statement, for 1985, the employer should report the weekly $215.17 as "wages" paid subject to both income tax withholding and the FICA taxes in the boxes entitled "Wages, tips, other compensation" and "social security wages." The employer should report the weekly $15.17 in the box entitled "Social security tax withheld," even though the tax was not actually withheld.

Assuming that it is otherwise appropriate, the employer may deduct the $215.17 as an ordinary and necessary business expense under section 162 of the Code.

Situation 2 Because in this situation FICA and FUTA wages do not include the employee FICA taxes paid by the employer, FICA and FUTA wages are equal to the $200 stated pay. The employee FICA taxes are $14.10 (7.05 percent of FICA wages).

For income tax purposes, $214.10 ($200 + $14.10) is includible in the employee's gross income as compensation under section 61(a)(1) of the Code.

Pursuant to section 3401(a)(2) or (3) of the Code, none of the $214.10 is wages for purposes of income tax withholding.

On the Form W-2 for 1985, the employer should report the weekly $214.10 as "other compensation" in the box entitled "Wages, tips, other compensation"; the weekly $200 in the box entitled "Social security wages"; and the weekly $14.10 in the box entitled "Social security tax withheld," even though the tax was not actually withhheld.

Assuming that it is otherwise appropriate, the employer may deduct the $214.10 attributable to agricultural labor as an ordinary and necessary business expense under section 162 of the Code. Ordinarily, wages paid for domestic services in one's home are not deductible under section 162.

Both Situations If the employee received wages subject to FICA taxes from two or more employers during the year, and as a result the wages exceeded the annual limitation on wages subject to FICA taxes under section 3121(a)(1) of the Code ($39,600 in 1985), the employee is entitled, under section 6413(c)(1), to a special refund of the excess FICA taxes paid. That section indicates that the refund is conditioned on the taxes being deducted from the employee's wages. Because the tax liability incurred on behalf of the employee in either situation is included in the employee's gross income, it was, in effect, deducted from the employee's pay.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 74-75, 1974-1 C.B. 19, is modified.

Section 3306.—Definition

26 CFR 31.3306(b)(6)-1: Payment by an employer of employee tax under section 3101 or employee contributions under a State law.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are wages. See Rev. Rul. 86-14, page 33).

Section 3401.—Definitions

26 CFR 31.3401(a)-1: Wages.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are wages. See Rev. Rul. 86-14, page 33).

Section 6051.—Receipts for Employees

26 CFR 31.6051-1: Statements for employees.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are to be reported as wages on Form W-2. See Rev. Rul. 86-14, page 33).

Section 6413.—Special Rules Applicable to Certain Employment Taxes

26 CFR 31.6413(c)-1: Special refunds.

Whether payments by an employer of the employee FICA tax without deduction from the employee's wages under an agreement between them are considered to be deducted from the employee's pay. See Rev. Rul. 86-14, page 33).

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.105: Examination of returns and claims for refund, credit, or abatement; determination of correct tax liability.
(Also Part I, Section 168.)

Rev. Proc. 86-6

SECTION 1. PURPOSE

The purpose of this revenue procedure is to provide the revised cost recovery rates for real property under section 168 of the Internal Revenue Code.

SEC. 2. BACKGROUND

Section 168 of the Code was adopted as part of the Economic Recovery Tax Act of 1981, section 201, 1981-2 C.B. 256, 275. The Tax Reform Act of 1984, section 111, 1984-3 (Vol. 1) C.B. 1, 139, amended section 168 by changing 15-year real property to 18-year real property. Title I of the Act of October 11, 1985 (relating to Amendments to the Imputed Interest Rules), Pub. L. No. 99-121, section 103, 1985-48 I.R.B. 11, 12, changed 18-year real property to 19-year real property and extended the recovery period for real property from 18 years to 19 years.

SEC. 3. AUTHORITY

The revisions enacted as part of Title I of the Act of October 11, 1985, require the Secretary of the Trasury to prescribe tables setting forth revised rates for real property.

SEC. 4. RULES OF APPLICATION

.01 In general, these revised cost recovery rates apply to real property placed in service after May 8, 1985. However, these revised cost recovery rates do not apply to property placed in service before January 1, 1987, if before May 9, 1985, the taxpayer or a qualified person entered into a binding contract to purchase or construct such property or if before May 9, 1985, construction of such property was commenced by the taxpayer or a qualified person. For purposes of the preceding sentence, the term "qualified person" means any person whose rights in such a contract or such property are transferred to the taxpayer, but only if such property is not placed in service before such rights are transferred to the taxpayer.

.02 The revised recovery rates for 19-year real property are presented by the tables in section 5. Except with respect to low-income housing, these tables adopt the mid-month convention, which is required by section 168(b)(2)(A) of the Code. Under the mid-month convention, real property placed in service by the taxpayer at any time during a particular month is treated as placed in service in the middle of that month. Thus, only one-half month's cost recovery is permitted for the month the property is placed in service. A similar convention is to be applied with respect to dispositions prior to the end of the recovery period. Thus, one-half month's cost recovery is also permitted for the month of disposition. For low-income housing, a full-month convention is used. *See* section 168(b)(4)(A). Under the full-month convention, real property placed in service by the taxpayer at any time during a particular month is treated as placed in service on the first day of that month. Thus, a full month's cost recovery is permitted for the month the property is placed in service. A similar convention is to be applied with respect to dispositions prior to the end of the recovery period. Thus, under the full-month convention, a full-month's cost recovery is also permitted for the month of disposition.

.03 Table 1 provides the rates to be used under section 168(b)(2) of the Code for 19-year real property (other than low-income housing). This table is based on the use of the 175 percent declining balance method followed by a switch to use of the straight line method at a time to maximize the amounts deductible.

.04 Table 2 provides the rates to be used under section 168(f)(2)(B) of the Code for 19-year real property (other than low-income housing) which during the taxable year is used predominantly outside the United States. This table is based on a 35-year recovery period and the use of the 150 percent declining balance method followed by a switch to use of the straight line method at a time to maximize the amounts deductible

.05 Tables 3, 4, and 5 provide the rates to be used under section 168(b)(3) of the Code for 19-year real property (other than low-income housing) for which the optional straight line method is elected. Tables 4 and 5 also provide the rates to be used for 19-year real property which during the taxable year is used predominantly outside the U.S. for which an election under section 168(f)(2)(C) of the Code is made.

.06 Table 3 provides the rates to be used under section 168(b)(3) of the Code for 19-year real property when a 19-year recovery period is elected.

.07 Table 4 provides the rates to be used under section 168(b)(3) of the Code or section 168(f)(2)(C) of the Code for 19-year real property when a 35-year recovery period is elected.

.08 Table 5 provides the rates to be used under section 168(b)(3) of the Code or section 168(f)(2)(C) of the Code for 19-year real property when a 45-year recovery period is elected.

.09 Tables 6 through 10 provide the rates to be used for low-income housing. Table 6 provides the rates to be used under section 168(b)(4) of the Code for low-incoming housing. This table is based on the use of the 200 percent declining balance method followed by a switch to use of the straight line method at a time to maximize the amounts deductible. This table is also based on the full-month convention and a 15-year recovery period.

.10 Table 7 provides the rates to be used under section 168(f)(2)(B) of the Code for low-income housing which during the taxable year is used predominantly outside the United States. This table is based on the use of the 150 percent declining balance method followed by a switch to use of the straight line method at a time to maximize the amounts deductible. This table is also based on the full-month convention and a 35-year recovery period.

.11 Tables 8, 9, and 10 provide rates to be used under section 168(b)(3) of the Code for low-income housing for which the optional straight line method is elected. Tables 9 and 10 also provide the rates to be used for low-income housing which during the taxable year is used predominantly outside the United States for which an election under section 168(f)(2)(C) is made. Tables 8, 9, and 10 are based on the full-month convention.

.12 Table 8 provides the rates to be used under section 168(b)(3) of the Code for low-income housing for which an optional 19-year recovery period is elected.

.13 Table 9 provides the rates to be used under section 168(b)(3) of the Code for low-income housing for which an optional 35-year recovery period is elected.

.14 Table 10 provides the rates to be used under section 168(b)(3) of the Code for low-income housing for which an optional 45-year recovery period is elected.

SEC. 5. COST RECOVERY TABLES FOR 19-YEAR REAL PROPERTY:

ACRS Cost Recovery Tables for 19-Year Real Property

1. *19-Year Real Property (19-Year 175% Declining Balance)*

(Assuming Mid-Month Convention)

If the Recovery Year is:	And the Month in the First Recovery Year the Property is Placed in Service is:											
	1	2	3	4	5	6	7	8	9	10	11	12
	The applicable percentage is:											
1	8.8	8.1	7.3	6.5	5.8	5.0	4.2	3.5	2.7	1.9	1.1	0.4
2	8.4	8.5	8.5	8.6	8.7	8.8	8.8	8.9	9.0	9.0	9.1	9.2

Part IV. Items of General Interest

Time for Furnishing Statements on Form 8308

Announcement 86-8

This announcement concerns the date by which partnerships must furnish statements on Form 8308 for calendar year 1985 in order to avoid penalties under section 6678(a) of the Internal Revenue Code. The Internal Revenue Service will not impose penalties under that section on partnerships that mail Form 8308 for calendar year 1985 to new and former partners on or before March 14, 1986. Form 8308 is to be used as the statement requiqred under section 6050K(b) of the Code to be furnished to transferor and transferee partners in a sale or exchange of an interest in a partnership that has unrealized receivables or substantially appreciated inventory items. Section 6050K(b) provides that the statements must be furnished on or before January 31 following the calendar year in which the sale or exchange occurred. The penalty for failure to timely furnish Form 8308 is $50 for each form, with a maximum penalty for each partnership of $50,000 for any year.

Temporary regulations under section 6050K were published in the Federal Register on December 23, 1985 (50 Fed. Reg. 52,313). Copies of Form 8308 may be obtained by calling the telephone number listed in the local telephone directory for "Federal Tax Information and Forms" under the heading for the Internal Revenue Service.

Errors in Publication 225

Announcement 86-9

Publication 225, *Farmer's Tax Guide*, contains an error in the Timber discussion on page 39, Chapter 10, third column, last paragraph, and in the related example in the first column, second paragraph, of page 40. The paragraph on page 39 discusses the election to treat the cutting of timber as a sale or exchange in the year the timber is cut. The discussion omits the requirements of section 631(a) that the timber be owned or a contract to cut be held on the first day of the tax year. In addition, the last sentence in the paragraph should end after the words, ". . . the timber is cut . . . ," to avoid implying that an additional holding period is required after the timber is cut.

The example on page 40 describes a taxpayer as having owned standing timber on January 3, 1985. The fair market value of the timber is $40 per MBF (or $4,000) on July 5, 1985. Under section 631(a), the taxpayer is required to have held the timber on the first day of the tax year and for more than 6 months before the timber is cut. The fair market value is determined on the first day of the tax year. The example is corrected by changing both the January 3 and July 5 dates to January 1 and by adding the fact that the standing timber was held for more than 6 months before it was cut.

Publication 225 also contains an error in the basis reduction example in Chapter 11, page 41, first column, fourth paragraph. The example states that the property is sold in 1985 for $10,000. The example should have also stated that the property was held for 8 months. Further, to figure gain on the sale, the basis of the property, as required by section 48(q)(2), must be increased by 50% of the investment credit being recaptured, which is $185. Therefore, when sold, the adjusted basis is $3,173 ($2,988 plus $185). The gain is corrected to $6,827 ($10,000 less $3,173). Of this amount, $5,527 is ordinary income, and $1,300 is section 1231 gain.

Foundations Status of Certain Organizations

Announcement 86-10

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does not indicate that the organiations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. The following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundation:

Access To Life, Inc., Boston, MA
African-American Cultural Assn of Sharon, Sharon, MA

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)-7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

The following organizations, which have been treated as private operating foundations described in section 4942 (j)(3) of the Code, are now been classified as organizations that are not private operating foundations. Grantors and contributors may no longer rely upon rulings or determinations that these organizations are private operating foundations. The organizations are:

Foundation For Advanced Medical Display Technology, Torrance, CA
Grocery Basket, Inc., Kahului, HI
Institute for Christian Values, Inc., El Segundo, CA
Maui Missionary Ministries, Kahului, HI
Monavista, Inc., Los Angeles, CA

Correction to Publication 505

Announcement 86-11

Publication 505, *Tax Withholding and Estimated Tax* (Revised November 1985), contains incorrect dollar amounts on the filled-in Form 2210, *Underpayment of Estimated Tax by Individuals*, illustrated on page 20. The incorrect amounts are in columns (c) and (d) of lines 17, 18, 20b, 20c, and 21. The correct amounts are as follows:

	Column	
	(c)	(d)
Line 17	705	597
Line 18	324	432
Line 20b	10.45	
Line 20c	1.33	10.65
Line 21		29

Revision of Schedule T (Form 5300), Supplemental Application for Approval of Employee Benefit Plans Under TEFRA, TRA84, and REA

Announcement 86-12

Schedule T (Form 5300), Supplemental Application for Approval of Employee Benefit Plans Under TEFRA, TRA 84, and REA, has been updated. The Schedule T, which is used by most applicants who file determination requests on Forms 5300, 5301, 5303, 5307, and 6406, was revised to comply with the requirements of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA), the Tax Reform Act of 1984 (TRA 84), and the Retirement Equity Act of 1984 (REA).

Revision of Form 5498, Individual Retirement Arrangement Information

Announcement 86-13

Form 5498, Individual Retirement Arrangement Information, has been revised for 1986 and are now available at Internal Revenue Service offices.

On the revised form, contributions to a simplified employee pension (SEP) made in 1986 and through April 15, 1987, must be reported separately in Box 1, which has been retitled "Regular SEP contributions made in 1986 and 1987 for 1986." Contributions to an individual retirement arrangement (IRA) and to an employer plan that accepts deductible voluntary employee contributions (DECs) are reportable in Box 2, which has been retitled "Regular IRA or DEC contributions made in 1986 and 1987 for 1986."

Residential Rental Property—Public Hearing

Announcement 86-15[1]

SUMMARY: This document provides a notice of public hearing on proposed regulations relating to tax exempt status of industrial development bonds.

DATES: The public hearing will be held on Monday February 10, 1986, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by Monday, January 27, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, ATTN: CC:LR:T (LR-269-84), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: B. Faye Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, telephone 202-566-3935 (not a toll free call).

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 103(b) of the Internal Revenue Code of 1954. The proposed regulations appeared in the FEDERAL REGISTER for Thursday, November 7, 1985 (50 FR 46303) [LR-269-84, 1985-50 I.R.B. 17].

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations, should submit, not later than Monday, January 27, 1986, an outline of the oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

---

[1] Filed by the Office of the Federal Register on January 10, 1986, 8:45 a.m. and published in the issue of the Federal Register for January 13, 1986, 51 F.R. 1392.

Residential Energy Credit—Public Hearing

Announcement 86-16[1]

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to the residential energy credit.

DATES: The public hearing will be held on February 14, 1986, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by January 31, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W. Washington, D.C. The request to speak and outlines or oral comments should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:: (LR-73-80), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: B. Faye Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations which amend the Income Tax Regulations under section 23 of the Internal Revenue Code of 1954. The proposed regulations appeared in the Federal Register for Thursday, October 31, 1985 (50 FR 45423).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations, should submit, not later than Friday, January 31, 1986, an outline of the oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Philip G. Arneson	Sparta, WI	Attorney	Indefinite from December 15, 1985
Joseph P. Day	Woburn, MA	Attorney	Indefinite from December 24, 1985
Kenneth H. Dillard	Nashville, TN	Certified Public Accountant	Indefinite from December 31, 1985
LeRoy Hodge	Hamilton, NY	Attorney	Indefinite from December 10, 1985
Frank S. Lukuch	Barberton, OH	Certified Public Accountant	Indefinite from December 4, 1985
W. Stephen McConnell	Tampa, FL	Certified Public Accountant	Indefinite from December 26, 1985
Nathan Rich	Wilmington, DE	Certified Public Accountant	Indefinite from December 1, 1985
Walter E. Shettlemore	Long Beach, MS	Certified Public Accountant	Indefinite from December 20, 1985

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.61-2T, removed; new 1.61-2T, added; 1.132-1T, removed; new 1.1.32-1T, added; 1.132-2T through 1.132-8T, added; 1.162-25T, 1.274-5T, 1.274-6T, amended.	Taxation of fringe benefits and exclusions from gross income of certain fringe benefits	1986-3 I.R.B. 40	Feb. 21, 1986
26 CFR 1.43-3(e), revised 1.47-1, 1.48-9, 1.167(a)-11, amended	Recapture of investment credit for mass assets	1986-4 I.R.B. 42	Feb. 18, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

SPECIAL ANNOUNCEMENT

Announcement 86-18, page 56.

A public hearing will be held on March 4, 1986, on proposed regulations relating to the substantiation requirements with respect to listed property and the limitations on the investment credit and deductions applicable to lessees of passenger automobiles.

INCOME TAX

Rev. Rul. 86-15, page 4.

Investment credit; definition of building and structural components. Certain natural gas pipeline compressor station structures are not section 38 property for purposes of the investment tax credit. Rev. Rul. 66-215 distinguished.

Rev. Rul. 86-17, page 26.

Forgone interest determination. For purposes of section 7872(e)(2) of the Code, the applicable rate for purposes of determining "foregone interest" on certain below-market loans outstanding from January 1, 1985 to December 31, 1985 is 9.24 percent.

T.D. 8067, page 5.

LR-121-85, page 55.

Amendments to the regulations under section 451 of the Code relate to accounting for long-term contracts. Proposed amendments clarify how certain rules apply in the case of certain corporations that file consolidated returns with a contractor.

LR-214-82, page 46.

Proposed amendments to the regulations under sections 3508, 3509, and 6041A of the Code relate to the treatment of qualified real estate agents and direct sellers as nonemployees, the determination of employer liability for certain employment taxes, and information reporting of direct sales and payments of remuneration for services.

Announcement 86-14, page 56.

This Bulletin contains a list of organizations that no longer quality as organizations contributions to which are deductible under section 170(c)(2) of the Code.

EMPLOYMENT TAX

LR-214-82, page 46.

Proposed amendments to the regulations under sections 3508, 3509, and 6041A of the Code relate to the treatment of qualified real estate agents and direct sellers as nonemployees, the determination of employer liability for certain employment taxes, and information reporting of direct sales and payments of remuneration for services.

EXCISE TAXES

Rev. Rul. 86-16, page 24.

Coal; sale price determination; freeze conditioning additive. In computing the taxable sale price of coal for purposes of the tax imposed by section 4121 of the Code, a charge for the application of a freeze conditioning additive to the coal is includible.

Rev. Rul. 86-18, page 25.

Liability of unregistered manufacturer; sale for further manufacture. When a manufacturer that has not registered pursuant to section 4222(a) of the Code makes a sale for further manufacture pursuant to the tax-free sale provisions under section 4221(a)(1), the manufacturer remains liable for the manufacturers excise tax. The manufacturer's vendee does not become the statutory manufacturer of the article under section 4223(a) and may file for a refund or claim a credit for any tax paid on its resale of the article.

ADMINISTRATIVE

Rev. Proc. 86-7, page 28.

Magnetic tape filing; information returns; windfall profit tax. Requirements and conditions are updated for the filing of annual information returns for windfall profit tax on magnetic tape. Rev. Proc. 84-81 superseded.

Finding Lists begin on page 61.
Announcement of Suspensions on page 58.
Announcement of Notice of Proposed Rulemaking on page 59.

Department of the Treasury
Internal Revenue Service

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.
This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.
This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.
To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.
With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 48.—Definitions; Special Rules

26 CFR 1.48-1: Definition of section 38 property.

Investment credit; definition of building and structural components. Certain natural gas pipeline compressor station structures are not section 38 property for purposes of the investment tax credit. Rev. Rul. 66-215 distinguished.

Rev. Rul. 86-15

ISSUE

Whether natural gas pipeline compressor station structures described below are section 38 property for investment tax credit purposes.

FACTS

The taxpayer, a natural gas pipeline transmission company, constructed compressor station structures that house compressor station machinery, equipment and fixtures for natural gas pipelines. The structures house compressors and engines; auxiliary service machinery; natural gas metering and pressure regulating equipment; telemetering, communication, and calorimetric devices; and other laboratory equipment. Following industry practice, each structure encloses multiple compressor/engine units and can be extended to accommodate additional units. Each structure consists of removable side panels mounted on a steel framework supporting a single roof. Removal of the side panels near a compressor/engine unit permits removal of the unit without affecting the remainder of the structure. The steel framework also supports a craneway for use in moving equipment and in maintenance. No partitions or other separations are placed between the compressor/engine units. In addition to enclosing the compressor/engine units, instrumentation, controls, piping, and other required equipment, the structure provides working space to permit repositioning of the equipment, if necessary, and a 24-hour schedule of operation, maintenance, overhaul and repair.

LAW AND ANALYSIS

Section 38 of the Internal Revenue Code allows a credit against federal income tax for qualified investment in section 38 property. Section 38 property, as defined in section 48(a)(1), includes (A) tangible personal property, and (B) other tangible property (not including buildings and their structural components) only if used as an integral part of certain activities. Section 38 property must be recovery property or depreciable property having a useful life of 3 years or more. Section 1.48-1(c) of the Income Tax Regulations provides that the term "tangible personal property" means any tangible property except land and improvements thereto, such as buildings or other inherently permanent structures (including items which are structural components of such buildings or structures).

Section 1.48-1(e)(1) of the regulations provides that the term "building" generally means any structure or edifice enclosing a space within its walls, and usually covered by a roof, the purpose of which is, for example, to provide shelter, working, office, parking, display or sales space. It does not include (i) a structure that is essentially an item of machinery or equipment, or (ii) a structure that houses property used as an integral part of any of the activities specified in section 48(a)(1)(B)(i) of the Code (which include furnishing gas) if the use of the structure is so closely related to the use of such property that the structure clearly can be expected to be replaced when the property it initially houses is replaced. Factors which indicate that a structure is closely related to the use of the property it houses include the fact that the structure is specifically designed to provide for the stress and other demands of such property and the fact that the structure could not be economically used for other purposes.

The structures described above enclose a space within their walls and are covered by a roof. They provide shelter and sufficient working space to permit repositioning of the equipment, if necessary, and a 24-hour schedule of operation, maintenance, overhaul, and repair. The structures are erected separately from the engines and are independent to a degree that permits the removal and relocation of a compressor/engine unit or units without damage to the structures. The structures are not essentially items of machinery or equipment. Even though they house machinery and equipment used as an integral part of the furnishing of gas, these structures are not so closely related to this machinery and equipment that they meet the definition of section 1.48-1(e)(1)(ii) as an exception to the term "building". In this regard, the Fourth Circuit, in *Monk & Co., Inc. v. United States*, 686 F.2d 1058 (4th Cir. 1982), stated the following:

> . . . a structure housing machinery, in order not to be considered part of a building, must be "*so closely* related to the use (of the machinery) that the structure *clearly* can be expected to be replaced when (the machinery) is replaced." (Emphasis added.) The import is that the taxpayer has the distinct burden of showing the structure has no feasible alternate use than housing the specific machinery it currently houses.

The structures in the present case resemble standard buildings used by other industries to house equipment. They can be expanded as necessary to house additional units and units can be removed without affecting the structure. These structures can be used for other purposes and they will not clearly be replaced with the compressor/engine units. Therefore, the structures do not fit the exception contained in section 1.48-1(e)(1)(ii) of the regulations, and they are buildings within the meaning of that section.

In Rev. Rul. 66-215, 1966-2 C.B. 11, an enclosing structure was built around each compressor/engine unit after the unit was placed on a specially designed, reinforced concrete pad. Removal of the compressor/engine unit would require contemporaneous removal of the compressor station structures. The ruling concludes that the described compressor station structures are section 38 property.

Under the facts in Rev. Rul. 66-215, the entire structure houses a single unit and would be replaced contemporaneously with the compressor unit; but here the structure houses the multiple compressor facility and the structure would not be so replaced with replacement of a compressor unit. A single compressor unit could be replaced with a minimum of inconvenience with the building continuing to serve its ongoing functions.

HOLDING

The natural gas pipeline compressor station structures described above are not section 38 property.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 66-215 is distinguished.

Section 446.—General Rule for Methods of Accounting

26 CFR 1.446-1: General rule for methods of accounting.

Accounting for long-term contracts. See T.D. 8067, below.

Section 451.—General Rule for Taxable Year of Inclusion

26 CFR 1.451-3: Long-term contracts.
(Also Sections 446, 471; 1.446-1, 1.471-11.)

T.D. 8067

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, PART I—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Accounting for Long-term Contracts

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final regulations relating to accounting for long-term contracts. The regulations affect taxpayers who have long-term contracts whether or not they use a long-term contract method of accounting for such contracts. Modifications to the regulations were required to be made by the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97-248) [1982-2 C.B. 462].

DATES: In general, the regulations relating to the allocation of indirect costs to extended period long-term contracts and the rules relating to the use of inventory methods with a long-term contract method are effective for taxable years beginning after December 31, 1982. The regulations relating to the time at which a contract is to be considered completed and to aggregating and severing agreements are effective for taxable years ending after December 31, 1982.

FOR FURTHER INFORMATION CONTACT: Paulette Chernyshev of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3288, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

On March 14, 1983, proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 446, 451 and 471 of the Internal Revenue Code were published in the FEDERAL REGISTER (48 FR 10702) [LR-274-81, 1983-1 C.B. 1021]. The amendments were proposed to conform the regulations to the requirements of section 229 of the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97-248; 96 Stat. 324, 493) [1982-2 C.B. 462, 506] as amended by section 712(m) of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 463].

Many written comments were received. A public hearing was held on June 29, 1983. After consideration of all comments and testimony received on the proposed amendments, the amendments, with revisions, are adopted by this Treasury decision. The revisions and public comments are discussed below.

DISCUSSION

CLEAR REFLECTION OF INCOME

Comments received expressed the concern that the introductory language of section 1.451-3(a) changed the standard for the application of the clear reflection of income concept. No change in the standard was contemplated. The Treasury decision retains the reference to clear reflection of income consistent with the provisions of section 1.446-1(a)(2) and (c), which permit various methods of accounting, subject to the requirement that any method, including the long-term contract method, must clearly reflect income in its application.

CLASSIFICATION OF CONTRACTS

Contracts that the taxpayer estimates will be completed within 2 years of the contract commencement date (3 years in the case of a construction contract) are not subject to the extended period costing rules. The proposed regulations provided that contracts that are not completed within that time period will not be reclassified if the taxpayer could reasonably have expected the contract to be completed within the time period. The proposed regulations further provided that the taxpayer's estimated time of completion for classifying and accounting for a long-term contract will not be considered unreasonable if the contract is not completed within the expected time solely because of unforeseeable factors not within the control of the taxpayer. Comments considered this exception too limited, as the exception is only available if the delay in completion was due solely to unforseeable factors. Therefore, the Treasury decision modifies the exception to apply to delays occurring primarily because of unforeseeable factors.

SHIPBUILDING CONTRACTS

Comments submitted by members of the shipbuilding industry expressed concern as to the definition of "construction contracts" in paragraph (b)(3)(ii) of section 1.451-3. Such definition was intended only for purposes of that paragraph (i.e., for determining the applicability of the 3-year exception to the extended period costing rules). Shipbuilding contracts are not "construction contracts" for this purpose, because ships do not constitute real property. Any implication that shipbuilding does not constitute construction for purposes of the general definition of a long-term contract (contained in paragraph (b)(1) of section 1.451-3) has been removed; that issue is beyond the scope of these regulations.

$25 MILLION GROSS RECEIPTS TEST

In determining a taxpayer's gross receipts for purposes of the $25 million test, the proposed regulations required, for persons not under common control with the taxpayer, attribution of gross receipts to the contractor from persons owning an interest in the contractor, and from persons in which the contractor owns an interest, in proportion to the amount owned. If the amount of ownership varies during the year, the proposed regulations required attribution in proportion to the largest amount of this interest owned during such year. Additionally, the proposed regulations required proportionate attribution of gross receipts realized from the conduct of any trade or business. In response to comments, the attribution rules of paragraph (b)(3)(iii)(C) of section 1.451-3 (attribution from persons not under common control with the taxpayer) have been revised in two respects. Interests owned in or by a contractor that vary during the year are to be measured using a weighted average, based on the number of days each interest is owned during such calendar year. In addition, gross receipts attributed to a contractor under this rule are to be limited to gross receipts from the trade or business of construction.

RESEARCH AND EXPERIMENTAL EXPENSES

Several comments objected to the inclusion of research and experimental expenses in the list of indirect costs required to be allocated to non-extended period long-term contracts in the proposed regulations. The comments interpret legislative history to preclude changes in period costs under existing regulations with respect to non-extended period contracts. In response to these comments, research and experimental expenses have been deleted from the list of indirect costs required to be allocated to non-extended period long-term contracts.

BIDDING EXPENSES

The proposed regulations required a "defer-and-deduct" treatment for bidding expenses for unawarded contracts. Comments favored a "deduct-and-recapture" approach. That approach would treat bidding expenses relating to contracts not awarded as of the end of a taxable year as period costs. Bidding expenses for contracts ultimately awarded to the taxpayer would be recaptured in the year in which the contract is awarded. After consideration, this alternative was rejected as inconsistent with the purpose of the new extended period costing rules. The defer-and-deduct rule is retained in the Treasury decision, with additional guidance as to how bidding expenses for unawarded contracts are to be accounted for by the taxpayer.

INVENTORY METHODS

The proposed regulations provided that the taxpayer may not use LIFO or the lower of cost or market method to determine costs attributable to long-term contracts. The primary motivation in taking this position was to prohibit the accounting practice of delaying the determination of the cost of raw materials and components incorporated into the subject matter of the contract until the year of completion, and then using LIFO to determine such costs. It is the firmly-held view of the Internal Revenue Service that costs attributable to a long-term contract should be determined costs is deferred until the year of completion of the contract. To the extent that the holding of *Peninsula Steel Products Co. v. Commissioner*, 78 T.C. 1029 (1982), is inconsistent with this principle, the Service will not follow that case.

Many commentators state that the position of the proposed regulations regarding LIFO is overboard in precluding the use of LIFO in making the required determination of the costs of materials and components at the time of dedication. Because using LIFO to determine costs at dedication is not inconsistent with the primary position that costing must occur in the year of dedication, the Treasury decision provides that the costs of raw materials or components allocable to a long-term contract shall be determined, in the year of dedication, using the taxpayer's method of accounting for each material (*e.g.*,—specific identification, FIFO, LIFO). Guidance is provided as to when raw materials and components are dedicate to a particular long-term contract.

SERVICE COSTS

The proposed regulations provide an insignificant deviation rule for methods used by taxpayers in allocating service costs. Comments suggested that the intent of the rule would be better served if applied to the taxpayer's contracts on an overall basis, rather than contract-by-contract. The Treasury decision reflects this suggestion in providing that the taxpayer's method of allocation will be tested on the basis of the taxpayer's extended period long-term contracts taken as a whole.

Many commentators considered it unreasonable to require a taxpayer to attach a statement to its tax return describing the allocation of service costs and general administrative costs. As a result, paragraph (d)(9)(v) of section 1.451-3 has been revised to require only that such records describing the taxpayer's cost allocations be maintained and made available for examination and verification by the district director.

Among the illustrations of allocation methods, the proposed regulations provided rules for allocating the cost of a department providing engineering and design services "unless the engineering and design services provided to a long-term contract are properly accounted for as a separate contract". Many of the commentators requested clarification concerning the circumstances under which it is appropriate to account for such services as a separate contract. The only purpose of paragraph (d)(9)(x) of section 1.451-3 is to describe how engineering and design department costs not properly accounted for separately may be allocated.

SEVERING AND AGGREGATING

The proposed regulations provided that, in addition to the instances provided in paragraph (e)(1) of this section, there may be other instances in which it may be necessary for the Commissioner to sever or aggregate agreements in order to clearly reflect income. Several commentators objected to this provision on the grounds that it creates uncertainty as to the application of the severing and aggregating rules. This additional reference has been omitted from the Treasury decision.

The Treasury decision provides clarification that, in general, only the Commissioner (and not the taxpayer) may sever or aggregate agreements.

For purposes of severing and aggregating (as well as for all other purposes), fact situations to which this Treasury decision does not apply because of the effective date of this Treasury decision will be tested underTreas. Reg. §1.451-3 as it existed before the promulgation of this Treasury decision. Pursuant to section 229 of TEFRA, this Treasury decision constitutes a clarification of the prior regulations. No inference should be drawn that a fact situation clearly subject to severing or aggregating under this Treasury decision is not subject to severing or aggregating under the prior regulations.

COST ALLOCATION RULES FOR TAXPAYERS USING INVENTORY METHODS

The proposed regulations required an inventory method taxpayer to apply the new cost allocation rules to its extended period long-term contracts. In the preamble, the Commissioner specifically invited comments on whether this requirement should be modified in the case of taxpayers using an inventory method of accounting for extended period long-term contracts under which some threshold amount of the income from such contracts is recognized in taxable years before the taxable year such contracts would be considered completed under the completed contract method. This was in response to footnote 1 in S. Rep. No. 97-494, 97th Cong., 2d Sess. 201 (1982), which provided that "in order to prevent avoidance of the new cost allocation rules, it is anticipated that Treasury may be required to amend both the regulations relating to the completed contract method and the regulations relating to the full absorption inventory costing method." A number of comments were received in this regard. In response to these comments, yet in order to prevent avoidance of the new cost allocation rules, the Treasury decision requires taxpayers who use a method of accounting that uses inventories (other than a long-term contract method) to apply the new cost allocation rules in accounting for all extended period long-term contracts except those as to which the taxpayer reasonably expects to recognize a threshold percentage of gross income in each of the three years following the year in which the contract is entered into.

CONSOLIDATED GROUPS

Amendments to this Treasury decision are proposed to be made in paragraphs 1.451-3(b)(3)(v) and 1.451-3(d)(6)(iv), relating to rules for taxpayers who file as members of consolidated groups. The new rules are proposed elsewhere in this *** [Bulletin].

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis therefore is not required. Although a notice of proposed rulemaking that solicited public comment was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

PAPER REDUCTION ACT OF 1980

The collection of information requirements contained in these regulations have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these regulations in the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service, is Paulette Chernyshev. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations, both on matters of substance and style.

* * * * *

Amendments to the regulations

The following amendments to 26 CFR Part 1 are adopted:

Income Tax Regulations
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * * Section 471 also issued under 26 U.S.C. 471. Sections 1.451-3 and 1.451-5 amended under the authority in 96 Stat. 324, 493.

Par. 2. Section 1.446-1(c)(1)(ii) is amended by revising the last sentence and by adding a new sentence at the end to read as follows:

§1.446-1 General rule for methods of accounting.

* * * * *

(c) *Permissible method*—(1) *In general.* * * *

(ii) *Accrual method.* * * * For example, under an accrual method, a taxpayer engaged in manufacturing may account for the sale of an item when the item is shipped, when the item is delivered, when the item is accepted, or when title to the item passes to the purchaser, whether or not billed, depending upon the method regularly employed in keeping the taxpayer's books; however, see §1.451-5 relating to advance payments. The determination of when an item is shipped, delivered or accepted, or when title passes, does not depend upon when any other item in the contract is shipped, delivered or accepted, or when title passes.

* * * * *

Par. 3 Section 1.451-3 is amended as follows:

1. Paragraph (a) is revised;
2. Paragraph (b) is revised
3. Paragraph (d) is amended by revising paragraphs (d)(1) and (5), redesignating paragraph (d)(5)(iv) as paragraph (d)(7), revising and redesignating paragraph (d)(6) as paragraph (d)(8), and by adding new paragraphs (d)(6) and (9);
4. Paragraph (e) is amended by revising paragraph (e)(1), revising examples (1) and (2) of paragraph (e)(2), revising and redesignating example (3) of paragraph (e)(2) as example (4), adding new examples (3), (5), (6) and (7) of paragraph (e)(2), and adding new paragraph (e)(3); and
5. A new paragraph (g) is added.

The revised and added provisions read as follows:

§1.451-3 Long-term contracts.

(a) *Introduction and Effective date*—(1) *In general.*

Income from a long-term contract (as defined in paragraph (b)(1) of this section) may be included in gross income in accordance with one of the two long-term contract methods, namely, the percentage of completion method (as described in paragraph (c) of this section) or the completed contract method (as described in paragraph (d) of this section), or any other method. Whichever method is chosen must, in the opinion of the commissioner, clearly reflect income. See §1.446-1(a)(2) and (c). In addition, it must be applied consistently to all long-term contracts within the same trade or business except that a taxpayer who has long-term contracts of substantial duration and long-term contracts of less than substantial duration in the same trade or business may report the income from all the contracts of substantial duration on the same long-term contract method and report the income from the contracts of less than substantial duration pursuant to another proper method of accounting. For example, if a manufacturer of heavy machinery has special-order contracts of a type that generally take 15 months to complete and also has contracts of a type that generally take 3 months to complete, the manufacturer may use a long-term contract method for the 15-month contracts and a proper inventory method pursuant to section 471 and the regulations thereunder for the 3-month contracts. Similarly, if a construction contractor has construction contracts of a type that generally take 15 calendar months to complete and other construction contracts that take only 5 months to complete but that are long-term contracts because they are not completed in the taxable years in which they are entered into (pursuant to paragraph (b)(1)(i) of this section), such contractor may either use a long-term contract method for all the contracts of both types or use a long-term contract method for the 15-month contracts and another proper method of accounting for the 5-month contracts. If a taxpayer distinguishes between contracts of substantial duration and other long-term contracts of less than substantial duration, he must adhere to a consistently applied standard for determining substantial duration.

(2) *Reporting requirement.* When a taxpayer reports income under the percentage of completion method or the completed contract method, a statement to that effect shall be attached to his income tax return.

(3) *Allocation among activities required.* The percentage of completion method and the completed contract method apply only to the accounting for income and expenses attributable to long-term contracts. The term "expenses attributable to long term contracts" means all direct labor costs and direct material costs (within the meaning of paragraph (d)(5)(i) or (6)(i) of this section), and all direct costs except those described in paragraph (d)(5)(iii) or, in the case of extended period long-term contracts, paragraph (d)(6)(iii). Other income and expense items, such as investment income, expenses not attributable to such contracts, and costs incurred with respect to any guarantee, warranty, maintenance, or other service agreement relating to the subject matter of such contracts, shall be accounted for under a proper method of accounting. See section 446(c) and § 1.446-1(c).

(4) *Severing and aggregating contracts.* In the case of income attributable to a long-term contract, whether or not a long-term contract method is used, for the purpose of clearly reflecting income, it may be necessary in some instances for the Commissioner either to treat one agreement as several contracts or to treat several agreements as one contract. The rules of paragraph (e)(1) of this section shall apply to determine whether an agreement should be so severed or several agreements so aggregated.

(5) *Certain taxpayers not using a long-term contract method.* In the case of a taxpayer using a method of accounting that uses inventories (other than a long-term contract method) for any extended period long-term contract entered into after December 31, 1982, see paragraphs (d)(6)(v) and (g) of this section.

(6) *Use of inventory methods in connection with the long-term contract method.* Effective for taxable years beginning after December 31, 1982, the taxpayer may use an inventory method to determine the costs attributable to a long-term contract accounted for under a long term contract method only in accordance with paragraph (d)(8) of this section.

(7) *Effective date.* Except as otherwise provided, this section is effective for taxable years ending after December 31, 1982. For taxable years ending before January 1, 1983, see CFR §1.451-3, revised as of 4/1/85.

(b) *Definitions, and special rules relating to certain contracts*—(1) *Long-term contract*—(i) *In general.* Except as provided in paragraph (b)(1)(ii) of this section, the term "long-term contract" means a building, installation, construction or manufacturing contract which is not completed within the taxable year in which it is entered into.

(ii) *Manufacturing contracts.* Notwithstanding paragraph (b)(1)(i) of this section, a manufacturing contract is a "long-term contract" only if such contract involves the manufacture of (A) unique items of a type which is not normally carried in the finished goods inventory of the taxpayer, or (B) items which normally require more than 12 calendar months to complete (regardless of the duration of the actual contract). Thus, for example, a contract to manufacture a unit of industrial machinery specifically designed for the needs of a customer and not normally carried in the taxpayer's inventory or a contract to manufacture machinery which will require more than 12 calendar months to complete are long-term contracts[.] However, a contract to manufacture 15,000 folding chairs which take 3 days each to manufacture is not a long-term contract even though it takes more than 12 calendar months to manufacture all 15,000 chairs and the contract is not completed within the taxable year it is entered into.

(2) *Completion*—(i) *Final completion and acceptance*—(A) *General rule.* Except as otherwise provided in this paragraph (b)(2), and in paragraph (d)(2), (3), and (4) of this section (relating to disputes), a long-term contract shall not be considered "completed" until final completion and acceptance have occurred. Nevertheless, a taxpayer may not delay the completion of a contract for the principal purpose of deferring Federal income tax.

(B) *Completion determined on basis of all facts and circumstances.* Final completion and acceptance of a contract for Federal income tax purposes is determined from an analysis of all the relevant facts and circumstances, including the manner in which the parties to the contract deal with each other and with the subject matter of the contract, the physical condition and state of readiness of the subject matter of the contract, and the nature of any work or costs remaining to be performed or incurred on the contract. In considering the manner in which the parties deal with the subject matter of the contract, any use of the primary subject matter of the contract by the purchaser (except for testing purposes that produce no gross revenue, cost savings, or other substantial benefits for the purchaser) will be considered.

(C) *Examples.* The principles of paragraph (b)(2)(i) of this section are illustrated by the following examples:

Example (1). In 1982, A, a calendar year contractor, contracts with B to construct a building. The initial completion date specified in the contract is October 1984. In November 1984, the building is completed in every respect necessary for the use for which the building is intended. Later in November 1984, B occupies the building and notifies A that certain minor deficiencies should be corrected. A agrees to correct the deficiencies. Under these circumstances, the contract is considered completed for Federal income tax purposes in A's taxable year ending December 31, 1984, without regard to when A corrects the deficiencies. The contract is considered completed because the parties have dealt with each other and with the subject matter of the contract in a manner that indicates that final completion and acceptance have occurred.

Example (2). Assume the same facts as in example 1, except that there are no deficiencies in the building that require correction or repair. In addition, assume that the contract between A and B provides that none of the retainage under the contract may be released to A until A obtains an architect's certificate that the building has been completed according to the specifications of the contract. A obtains this certificate in February, 1985. Under these circumstances, the contract is considered completed for Federal income tax purposes in A's taxable year ending December 31, 1984, with regard to when A obtains the required architect's certificate, and without regard to when the retainage is released to A, because the parties have dealt with each other and with the subject matter of the contract in a manner that indicates that final completion and acceptance have occurred.

Example (3) In 1982, X, a calendar year taxpayer who manufactures industrial machinery, contracts with F to build and install one large item of industrial machinery to be delivered in August 1983 and to be installed and tested by X in F's factory. The contract provides that the machinery will be accepted by F when the tests performed by X demonstrate that the machinery will perform within certain environmental standards required by a government agency, regardless of whether an operating permit has been obtained. Because of technical problems the machinery is not ready for delivery until December 1983. F accepts delivery of the machinery in December 1983 subject to installation and testing to determine if the assembled machinery meets the environmental standards. The machinery is installed and tested during December 1983 through February 1984, and F accepts the machinery in February 1984. An operating permit required to operate the machinery under the environmental standards is issued by the governmental agency in February, 1985. Under these circumstances final completion and acceptance of the machinery for Federal income tax purposes occurs in February, 1984.

Example (4). In 1983, D, a calendar year taxpayer, contracts with E to construct a shopping center and related parking areas. The shopping center is completed in October 1985. In December 1985, the shopping center and three-fourths of the parking area are opened to the general public. At that time, the entire parking area of the shopping center has been graded and three-fourths has been paved, but the final asphalt coating has not been laid due to general weather conditions. Under these circumstances, the contract to construct the shopping center and parking area is considered completed for Federal income tax purposes in December 1985, because the shopping center and a major portion of the parking area were ready to be used and were used at that time.

(ii) *Contracts with more than one subject matter*—(A) *General rule.* In the case of a long-term contract (which, after the application of the rules provided in paragraph (e) of this section, is treated as a single long-term contract for Federal income tax purposes) for one or more units (such as an aircraft or an item of industrial machinery) that represent the primary subject matter of the contract, and for other items (such as training manuals, or spare or replacement parts or components) that do not represent the primary subject matter of the contract, "final completion and acceptance" shall be determined without regard to the contractor's obligation to supply the other items that do not represent the primary subject matter of the contract. If at the end of the taxable year in which the long-term contract is completed there remain any other items that do not represent the primary subject matter of the contract and that have not been finally completed and accepted then the costs that have been incurred prior to the end of such year and that are properly allocable to such other items (determined pursuant to paragraph (d)(5) or (6) (as the case may be) of this section), and a portion of the gross contract price (if any) reasonably allocable to such other items shall be separated from the long-term contract, and such costs and such portion of the gross contract price shall be accounted for under a proper method of accounting. Such proper method of accounting includes a long-term contract method only if a separate contract for such other items would be a long-term contract (as defined in paragraph (b)(1) of this section).

(B) *Example.* The principles of paragraph (b)(2)(ii)(A) of this section may be illustrated by the following example:

Example. In 1982, X contracts with the Y Government to manufacture five aircraft and to manufacture 12 spare and replacements parts for the five aircraft and for certain other aircraft supplied to Y under prior contracts. Assume that under all the facts and circumstances it is determined that the portion of the contract relating to the 12 spare and replacement parts does not have to be severed from the portion of the contract relating to the five aircraft. Assume also that under all the facts and circumstances it is determined that the five aircraft represent the primary subject matter of the contract, and that the spare and replacement parts do not represent the primary subject matter of the contract. In 1984, X tenders the five aircraft and seven of the spare and replacement parts to Y. Y accepts the aircraft and the parts subject to X's delivery of the balance of the spare and replacement parts. For Federal income tax purposes the contract is deemed to have been completed in 1984. Accordingly, X must include in gross income in 1984 the entire contract price, less the portion of the gross contract price reasonably allocable (if any) to the parts not delivered in 1984. X must deduct from gross income in 1984 the entire costs properly allocable to the contract, less the entire costs incurred that are properly allocable to the parts not delivered in 1984. X will account for the income and costs allocable to the parts not delivered in 1984 under a proper method of accounting.

(iii) *Contingent compensation.* In the case of a long-term contract, "final completion and acceptance" shall be determined without regard to any term of the contract providing for additional compensation contingent upon the continued successful performance of the subject matter of the contract after the subject matter of the contract has been accepted by the purchaser (such as an incentive fee payable if a satellite remains in operation after it is placed on orbit). Such contingent compensation shall be included in gross income in the appropriate taxable year determined under the taxpayer's method of accounting other than a long-term contract method.

(iv) *Certain supervision of installation.* In the case of a long-term contract, "final completion and acceptance" shall be determined without regard to any obligation on the part of the contractor to assist or to supervise installation or assembly of the subject matter of the contract where such installation or assembly is to be performed by the purchaser and, under applicable contract law, the subject matter of the contract may be accepted by the purchaser prior to such installation or assembly. If the preceding sentence applies to a contract, "final completion and acceptance" shall be determined without regard to such obligation [.] In addition, the entire gross contract price less the portion of the gross contract price (if any) reasonably allocable to such obligation, shall be included in gross income in the taxable year in which the contract is completed [.] Further, all costs properly allocable to the contract and which have been incurred prior to the end of the taxable year in which such contract is completed shall be deducted in such year [.] Finally, all other costs properly allocable to such contract and the portion of the gross contract price reasonably allocable to the obligation to assist or to supervise installation shall be accounted for under a proper method of accounting other than a long-term contract method.

(v) *Subcontractors*. In the case of a subcontractor who completes work on a long-term contract prior to the completion of the entire contract, "final completion and acceptance" of the contract with respect to such subcontractor shall be deemed to have occurred when the subcontractor's work has been completed and has been accepted by the party with whom the subcontractor has contracted.

(vi) *Disputes*. Completion of a long-term contract is determined without regard to whether a dispute exists at the time the taxpayer tenders the subject matter of the contract to the party with whom the taxpayer has contracted. See paragraph (d)(2), (3) and (4) of this section.

(3) *Extended period long-term contract*—(i) *General Rule*. This paragraph (b)(3) does not apply to contracts accounted for under the percentage of completion method. Except as provided in paragraph (b)(3)(ii) of this section, the term "extended period long-term contract" means any long-term contract that the taxpayer estimates (at the time such contract is entered into) will not be completed (as defined in paragraph (b)(2) of this section) within the 2-year period beginning on the first date (hereinafter, "the contract commencement date") that the taxpayer incurs any costs (other than costs such as bidding expenses, or expenses incurred in connection with negotiating the contract) allocable to such contract (under the cost allocation rules of paragraph (d)(6) of this section). The preceding sentence shall be applied without regard to when costs allocable to a contract are recorded under the cost accounting procedures used by the taxpayer. In general, the contract commencement date will be the first date that any of the following activities occur; the taxpayer incurs design or engineering costs allocable to the contract other than design or engineering costs incurred solely for purposes of bidding for the contract; materials or equipment are shipped to the jobsite; or workers whose labor cost is treated as direct labor are sent to the jobsite. If the first date when any costs allocable to a contract are incurred is not determinable, the contract commencement date of a contract shall be the date such contract is entered into, unless the taxpayer establishes to the satisfaction of the district director that another date is a more appropriate contract commencement date. The contract commencement date shall not be earlier than the date the contract is entered into, unless the taxpayer delayed entering into the contract for a principal purpose of ávoiding the rules of this section.

(ii) *Certain construction contracts*. The term "extended period long-term contract" does not include any construction contract entered into by a taxpayer—

(A) Who estimates (at the time such contract is entered into) that such contract will be completed within the 3-year period beginning on the contract commencement date of such contract, or

(B) Whose average annual gross receipts (determined under paragraph (b)(3)(iii) of this section) over the 3 taxable years preceding the taxable year the contract is entered into (or, if less, the number of preceding taxable years the taxpayer has been in existence) do not exceed $25 million.

For purposes of this paragraph (b)(3)(ii), the term "construction contract" means any contract for the building, construction, or erection of, or the installation of any integral component to, improvements to real property. For purposes of the preceding sentence, construction includes reconstruction and rehabilitation. An improvement to real property includes buildings or other structures intended to be permanently affixed to real property, roadways, dams, or bridges, but does not include such items as vessels or offshore drilling platforms. An integral component to an improvement to real property includes property not produced at the site of the real property but intended to be permanently affixed to an improvement to real property, for example, elevators and central heating and cooling systems. In the case of a contract that provides for the manufacture and the installation of an integral component to an improvement to real property (such as the pollution control equipment for a power plant), only the part of the overall gross contract price and the costs properly allocable to the work of installing the finished component is a construction contract. For example, in the case of a contract both to manufacture and to install an elevator in an office building, only the portion of the gross contract price and only the costs properly allocable to installing the elevator is a construction contract. However, in determining whether the installation portion of a contract is expected to be completed within three years, the time expected to complete both the manufacture and the installation of the contract subject matter must be taken into account. Similarly, in determining whether the manufacturing portion of a contract is expected to be completed within two years, the time expected to complete both the manufacture and the installation of the contract subject matter must be taken into account. Alternatively, the taxpayer may consistently account for the manufacturing portion and the installation portion of all such agreements as separate contracts if there is an appropriate allocation of the gross contract price between the manufacturing portion and the installation portion of the agreement.

The preceding sentence applies without regard to paragraph (e)(1) of this section.

(iii) *Determination of gross receipts*—(A) *Aggregation and attribution of gross receipts*. The following rules shall apply in determining the gross receipts of the taxpayer for purposes of paragraph (b)(3)(ii)(B) of this section, that is, for determining if the average annual gross receipts of the taxpayer over the 3 taxable years preceding the taxable year in which a construction contract is entered into (or, if less, the number of preceding taxable years the taxpayer been in existence) exceed $25 million. Under paragraph (b)(3)(iii)(B) of this section, the average annual gross receipts of all trades or businesses (regardless of the nature of such trades or businesses) under common control with the taxpayer who enters into the construction contract are combined. Under paragraph (b)(3)(iii)(C), a portion of the average annual gross receipts from building, installation or construction contracts (hereinafter "construction gross receipts") of trades or businesses not under common control with the taxpayer who enters into the contract, but which are related to the taxpayer through a chain of attribution (using indirect and constructive ownership), are attributed to the taxpayer who enters into the contract. Except as provided in paragraph (b)(3)(iii)(C)*(4)(i)*, the rules of paragraph (b)(3)(iii)(B) and (C) are both applied. For purposes of paragraph (b)(3) of this section, "gross receipts" include the gross receipts realized from the active conduct of any trade or business, (*e.g.*, —sales revenue), and shall be the gross receipts of the taxable year in which such receipts are recognized properly under the tax accounting method of the taxpayer. For this purpose "gross receipts" shall not include amounts that, under Federal income tax law, are interest, dividends, rents, royalties, annuities or the amount realized from the sale or exchange of property used in the trade or business or held for the production of income. Gross receipts of a contract includes the gross contract price (whether the contract is a general contract or a subcontract, and whether or not the contract is a long-term contract). If the taxpayer enters into a contract which provides that any direct materials (as described in paragraph (d)(5)(i) of this section) will be supplied by the party for whom the contract is being performed (and thus the cost of which is not represented in the gross contract price), gross receipts do not include the cost of such direct materials unless the contractual arrangement was entered into for a principal purpose of reducing the contractor's gross receipts.

(B) *Aggregation of all gross receipts of trades or businesses under common control*. If, at any time during the calendar year in which the taxpayer enters into a construction contract, such taxpayer and any other trades or businesses (whether or not incorporated) are under common control, then the average annual gross receipts of each such trade or business (for the 3 taxable years of such trade or business preceding the taxable year of such trade or business in which the construction contract is entered into or, if less, the number of preceding taxable years such trade or business has been in existence) shall be combined with the average annual gross receipts of the taxpayer for taxpayer's 3 taxable years preceding the taxable year of the taxpayer in which the construction contract is entered into (or, if less, the number of preceding taxable years the taxpayer has been in existence). Gross receipts attributable to transactions between trades or businesses under common control shall be eliminated. For purposes of paragraph (b)(3) of this section, the term "trades or businesses under common control" means any group of trades or businesses that is either—

(1) A "parent-subsidiary group under common control" as defined in § 1.52-1(c).

(2) A "brother-sister group under common control" as defined in § 1.52-1(d), or

(3) A "combined group under common control" as defined in § 1.52-1(e).

(C) *Attribution of construction gross receipts to or from individuals, proprietorships, corporations, partnerships, trusts and estates not under common control—(1) Attribution of construction gross receipts to the contractor from persons owning an interest in the contractor*. For purposes of paragraph (b)(3) of this section, if a 5 percent or greater interest in the person who enters into a construction contract (hereinafter, "the contractor") is owned (at any time during the calendar year in which the construction contract is entered into), directly, or indirectly through the application of this paragraph (b)(3)(iii)(C), by or for any person, the average annual gross receipts of the contractor for the contractor's 3 taxable years preceding the taxable year of the contractor in which the contract was entered into (or, if less, the number of preceding taxable years the contractor has been in existence) shall include the average annual construction gross receipts of such person (for the 3 taxable years of such person preceding the taxable year of such person in which the contract was entered into or, if less, the number of preceding taxable years in which such person has been in existence) in proportion to the interest of such person in the contractor. If an interest is not owned for the entire calendar year, or if an interest varies during the calendar year, the amount of such interest for such year shall be the weighted average based on the number of days each interest is owned during such calendar year.

(2) *Attribution of construction gross receipts to the contractor from persons in which the contractor owns an interest*. For purposes of paragraph (b)(3) of this section, if (at any time during the calendar year in which the contractor enters into a construction contract) a 5 percent or greater interest in any person is owned, directly, or indirectly through the application of this paragraph (b)(3)(iii)(C), by or for the contractor, the average annual gross receipts of the contractor for the contractor's 3 taxable years preceding the taxable year of the contractor in which the contract was entered into (or, if less, the number of preceding taxable years the taxpayer has been in existence) shall include the average annual construction gross receipts of such person (for the 3 taxable years of such person preceding the taxable year of such person in which the contract was entered into or, if less, the number of preceding taxable years such person has been in existence) in proportion to the interest of the contractor in such person. If an interest is not owned for the entire calendar year, or if an interest varies during the calendar year, the amount of such interest for such year shall be the weighted average based on the number of days each interest is owned during such calendar year.

(3) Rules for determining ownership—(i) *In general*. in determining the ownership of an interest in any person for purposes of paragraph (b)(3)(iii)(C) of this section, the indirect and constructive ownership rules of this paragraph (b)(3)(iii)(C)*(3)* shall apply, subject to the operating rules contained in paragraph (b)(3)(iii)(C)*(4)*. For purposes of paragraph (b)(3)(iii)(C), an "interest" means: in the case of a corporation, stock; in the case of a trust or estate, an actuarial in-

terest; in the case of a partnership, an interest in capital or profits; and in the case of a sole proprietorship, the proprietorship.

(ii) Members of a family. An individual shall be considered as owning any interest in any person owned, directly or indirectly, by or for—

(A) Such individual's spouse (other than a spouse who is legally separated from the individual under a decree of divorce or separate maintenance, whether final or interlocutory), and

(B) such individual's children, grandchildren, parents and grandparents. A legally adopted child of an individual shall be treated as the child of such individual.

(iii) Attribution from partnerships, estates, trusts and corporations (A) From Partnerships. An interest in any person owned, directly or indirectly, by or for a partnership shall be considered as owned by any partner having a 5 percent or greater interest in either the profits or capital of the partnership, in proportion to such partner's interest in profits or capital, whichever is greater.

(B) From estate and trusts. An interest in any person (hereinafter an "organization interest") owned, directly or indirectly, by or for an estate or trust shall be considered as owned by any beneficiary of such estate or trust who has an actuarial interest of 5 percent or greater in such organization interest, to the extent of such actuarial interest, as determined under § 11.414(c)-4(b)(3).

An interest in any person owned, directly or indirectly, by or for any portion of a trust of which a person is considered the owner under subpart E of part I of subchapter J (relating to grantors and others treated as substantial owners) shall be considered as owned by such person.

(C) From corporations. An interest in any person owned, directly or indirectly, by or for a corporation shall be considered as owned by any shareholder who owns (directly, and indirectly through the application of paragraph (b)(3)(iii)(C) of this section) 5 percent or more in value of such corporation's stock, in proportion to the value of the stock owned by such shareholder to the total value of all the outstanding stock in such corporation.

(iv) Attribution to partnerships, estates, trusts and corporations—(A) To partnerships. An interest in any person owned, directly or indirectly, by or for a partner having a 5 percent or greater interest partnership profits or capital shall be considered as owned by the partnership in proportion to partner's interest in profits or capital, whichever is greater.

(B) To estates and trusts. An interest in any person owned, directly or indirectly, by or for a beneficiary having an actuarial interest of 5 percent or greater in the value of property of an estate or trust shall be considered as owned by such estate or trust in proportion to the beneficiary's actuarial interest in the assets of the estate or trust. For purposes of this paragraph (b)(3)(iii)(C)*(3)(iv)(B)* the actuarial interest of a beneficiary shall be determined under the maximum exercise of discretion by the executor or trustee in favor of such beneficiary. An interest in any person owned, directly or indirectly, by or for a person who is considered the owner of any portion of a trust under subpart E of part I of subchapter J (relating to grantors and others treated as substantial owners) shall be considered as owned by such trust.

(C) To corporations. An interest in any person owned, directly or indirectly, by or for a shareholder who owns (directly, and indirectly through the application of paragraph (b)(3)(iii)(C) of this section) 5 percent or more in value of the stock in a corporation shall be considered as owned by such corporation, in proportion to the value of the stock owned by such shareholder to the total value of all the outstanding stock in such corporation.

(v) Options. If a person has an option to acquire any outstanding interest in any organization, such interest shall be considered as owned by such person. An option to acquire an option, and each one of a series of such options, shall be considered as an option to acquire such an interest.

(4) Operating rules—(i) Common control. Paragraph (b)(3)(iii)(C) of this section shall not apply between two persons both of whom, under paragraph (b)(3)(iii)(B), are members of the group of trades or businesses under common control that includes the contractor. However, in applying paragraph (b)(3)(iii)(C) between two persons where one or both of such persons are not members of the group of trades or businesses under common control that includes the contractor, paragraph (b)(3)(iii)(C) shall be applied without regard to paragraph (b)(3)(iii)(B).

(ii) Reattribution. Except as provided in paragraph (b)(3)(iii)(C)*(4)(iii)* (relating to no double family attribution) or (iv) (relating to no reattribution to certain co-owners), in applying paragraph (b)(3)(iii)(C)*(3)(ii), (iii), (iv),* or *(v)*, an interest constructively owned by a person shall, in applying paragraph (b)(3)(iii)(C)*(3)(ii), (iii), (iv)* or *(v)*, be considered as actually owned by such person, and such interest may be reattributed to another person.

(iii) No double family attribution. An interest constructively owned by an individual by reason of paragraph (b)(3)(iii)(C)*(3)(ii)* shall not be considered as owned by such individual for purposes of again applying such paragraph to make another the constructive owner of such interest.

(iv) No reattribution to certain co-owners. An interest constructively owned by a person by reason of paragraph (b)(3)(iii)(C)*(3)(iv)* shall not be considered as owned by such person for purposes of applying paragraph (b)(3)(iii)(C)*(3)(iii)* in order to make another person the constructive owner of such interest.

(v) Option rule in lieu of family rule. If an interest may be considered as owned by an individual under paragraph (b)(3)(iii)(C)*(3)(ii)* or *(v)*, it shall be considered as owned by such individual under paragraph (b)(3)(iii)(C)*(3)(v)*.

(vi) Limitation. In applying paragraph (b)(3)(iii)(C)*(3)* to determine the ownership of an interest by any person for any one purpose—

(A) A corporation shall not be considered to own its own stock by reason of paragraph (b)(3)(iii)(C)*(3)(iv)(C)*, and

(B) If an interest owned by any person may be included in the computation more than one time, such interest shall be included only once, in the manner that will impute to the person concerned the largest total interest.

(C) *Short taxable years.* For any taxpayer required to determine its average annual gross receipts over the three taxable year period of such person preceding the taxable year in which a construction contract is entered into, if such period includes a taxable year of less than 12 full months, the taxpayer shall place the gross receipts of such taxable year on an annual basis by dividing the gross receipts of such taxable year by the number of full calendar months in such taxable year and multiplying the result by 12.

(iv) *Classification of contracts*—(A) *Initial classification by taxpayer*. The taxpayer shall determine whether a contract is an extended period long-term contract at the time such contract is entered into. In estimating the time required to perform any contract, the taxpayer shall anticipate and provide a reasonable allowance for delay, rework, change orders, technology or design problems, and other problems. If the taxpayer determines that a contract is an extended period long-term contract, the cost allocation rules of paragraph (d)(6) of this section shall apply, and such contract shall be treated as an extended period long-term contract even if such contract is actually completed within the 2-year period (3 years in the case of certain construction contracts) beginning on the contract commencement date of such contract. Except as provided in paragraph (b)(3)(iv)(B) of this section, a long-term contract that is not completed within the 2-year period (3 years in the case of certain construction contracts) beginning on the actual contract commencement date of such contract and which the taxpayer did not classify and account for as an extended period long-term contract will not be required to be reclassified (for any taxable year) and accounted for as an extended period long-term contract if, at the time the contract was entered into, the taxpayer reasonably could have expected the contract to be completed within that time. The taxpayer shall maintain contemporaneous written records setting forth the basis for classifying each contract, and such records shall be in sufficient detail to enable the district director readily to determine whether the taxpayer's estimate of the time required to complete a contract was made on a reasonable basis. A contract term specifying an expected completion or delivery date may be considered evidence that the parties expected completion or delivery to occur on or about the date specified, especially if there are actual bona fide penalties for not meeting the specified date. The taxpayer's estimate will not be considered unreasonable if a contract was not completed within the expected time primarily because of unforeseeable factors not within the control of the taxpayer. For purposes of the preceding sentence, "unforeseeable factors" are abnormal factors, such as prolonged third-party litigation, abnormal weather (considering the season and the jobsite), prolonged strikes, and prolonged delays in securing required permits or licenses, that could not reasonably be anticipated considering the nature of the contract and prior experience.

(B) *Exception for unreasonable classification; amended returns*. If under all the facts and circumstances it is determined that a contract which the taxpayer did not classify and account for as an extended period long-term contract reasonably should have been so classified and accounted for, the taxpayer shall reclassify and account for such contract as an extended period long-term contract for the current taxable year and all subsequent taxable years. In addition, the taxpayer should file an amended return for each prior taxable year (assuming that the period for assessment has not run for such year) in which costs were incurred with respect to such contract, and such amended returns should reflect an allocation to the contract of costs incurred in such prior years using the cost allocation rules provided in paragraph (d)(6) of this section. If a contract is not an extended period long-term contract by reason of the $25 million gross receipts test of paragraph (b)(3)(ii)(B) of this section, such contract shall not be reclassified regardless of the taxpayer's gross receipts for any subsequent year and regardless of the time required to complete such contract.

(v) *Special rule for contract commencement date in case of components or subassemblies produced by the taxpayer*. (If the cost of components or subassemblies produced by the taxpayer represents a significant amount of the total costs allocable to a contract, the contract commencement date of such contract shall be the first date the taxpayer incurs any costs allocable either to (1) such type or category of components or subassemblies, or (2) any other subject matter of the contract. The contract commencement date shall not be earlier than the date the contract is entered into, unless the taxpayer delayed entering into the contract for a principal purpose of avoiding the rules for this section. For example, assume an airplane manufacturer who also manufactures a type of engine that represents a significant amount of the total costs of the airplanes produced enters into one or more contracts to manufacture airplanes containing such type of engine. For purposes of determining the contract commencement date with respect to each contract, the first date the manufacturer incurs any cost allocable to any of the engines is the first date that the taxpayer incurs any cost allocable to such type of engine, even if the manufacturer has not yet produced enough engines to satisfy all contracts.

See §1.451-3(d)(6)(iv) for the cost allocation rules required in the case of certain components or subassemblies.

* * * * *

(d) *Completed contract method*—(1) *In general*. Except as otherwise pro vided in paragraphs (d)(2), (3) or (4) (relating to disputes) of this section, under the completed contract method, gross income derived from long-term contracts must be reported by including the gross contract price of each contract in gross income for the taxable year in which such contract is completed (as defined in paragraph (b)(2) of this section). All costs properly allocable to a long-term contract (determined pursuant to paragraph (d)(5) or (6) of this section) must be deducted from gross income for the taxable year in which the contract is completed. In addition, account must be taken of any material and supplies charged to the contract but remaining on hand at the time of completion.

* * * * *

(5) *General rule for allocation of costs to long-term contracts*. The following rules shall apply in determining what costs are properly allocable to a long-term contract, (other than an extended period long-term contract to which the rules of paragraph (d)(6) of this section apply) in the case of a taxpayer using the completed contract method of accounting for tax purposes:

(i) *Direct costs*. Direct material costs and direct labor costs must be treated as costs properly allocable to a long-term contract. "Direct material costs" include the costs of those materials which become an integral part of the subject matter of the long-term contract and those materials which are consumed in the ordinary course of building, constructing, installing, or manufacturing the subject matter of a long-term contract. See §1.471-3(b) for the elements of direct material costs. "Direct labor costs" include the cost of labor which can be identified or associated with a particular long-term contract. The elements of direct labor costs include such items as basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983), shift differential, payroll taxes and payments to a supplemental unemployment benefit plan paid or incurred on behalf of employees engaged in direct labor.

(ii) *Indirect costs allocated to long-term contracts.* The term "indirect costs" includes all costs (other than direct material costs and direct labor costs) which are incident to and necessary for the performance of particular long-term contracts. Indirect costs which must be allocated to long-term contracts include:

(A) Repair expenses of equipment or facilities used in the performance of particular long-term contracts,

(B) Maintenance of equipment or facilities used in the performance of particular long-term contracts,

(C) Utilities, such as heat, light, and power, relating to equipment or facilities used in the performance of particular long-term contracts,

(D) Rent of equipment or facilities used in the performance of particular long-term contracts,

(E) Indirect labor and contract supervisory wages, including basic compensation, overtime pay, vacation and holiday pay, sick leave pay, (other than payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983), shift differential, payroll taxes and contributions to a supplemental unemployment benefit plan incurred in the performance of particular long-term contracts.

(F) Indirect materials and supplies used in the performance of particular long-term contracts.

(G) Tools and equipment not capitalized used in the performance of particular long-term contracts,

(H) Costs of quality control and inspection incurred in the performance of particular long-term contracts,

(I) Taxes otherwise allowable as a deduction under section 164 (other than State and local, and foreign income taxes) to the extent such taxes are attributable to labor, materials, supplies, equipment or facilities used in the performance of particular long-term contracts,

(J) Depreciation, amortization and cost recovery allowances reported for the taxable year for financial purposes on equipment and facilities used in the performance of particular long-term contracts (but not in excess of the depreciation, amortization or cost recovery allowance allowable for the taxable year under Chapter I of the Code with respect to any item of equipment or facility),

(K) Cost depletion incurred in the performance of particular long-term contracts,

(L) Administrative costs incurred in the performance of particular long-term contracts (but not including any cost of selling or any return on capital),

(M) Compensation paid to officers attributable to services performed on particular long-term contracts (other than incidental or occasional services), and

(N) Costs of insurance incurred in the performance of particular long-term contracts, such as insurance on machinery and equipment used in the construction of the subject matter of a long-term contract.

(iii) *Costs not allocated to long-term contracts.* Costs which are not required to be included in costs attributable to a long-term contract include:

(A) Marketing and selling expenses, including bidding expenses,

(B) Advertising expenses,

(C) Other distribution expenses,

(D) Interest,

(E) General and administrative expenses attributable to the performance of service which benefit the long-term contractor's activities as a whole (such as payroll expenses, legal and accounting expenses, etc.),

(F) Research and experimental expenses (described in section 174 and the regulations thereunder),

(G) Losses under section 165 and the regulations thereunder,

(H) Percentage of depletion in excess of cost depletion,

(I) Depreciation, amortization and cost recovery allowances on equipment and facilities that have been placed in service but are temporarily idle (for this purpose, an asset is not considered to be temporarily idle on non-working days, and an asset used in construction is considered to be idle when it is not enroute to or not located at a job-site), and depreciation, amortization and cost recovery allowances under Chapter I of the Code in excess of depreciation, amortization and cost recovery allowances reported by the taxpayer in the taxpayer's financial reports,

(J) Income taxes attributable to income received from long-term contracts,

(K) Contributions paid to or under a stock bonus, pension, profit-sharing or annuity plan or other plan deferring the receipt of compensation whether or not the plan qualifies under section 401(a), and other employee benefit expenses paid or accrued on behalf of labor, to the extent such contributions or expenses are otherwise allowable as deductions under chapter 1 of the Code. "Other employee benefit expenses" include (but are not limited to): worker's compensation; amounts deductible or for whose payment reduction in earnings and profits is allowed under section 404A and the regulations thereunder; payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983; amounts includible in the gross income of employees under a method or arrangement of employer contributions or compensation which has the effect of a stock bonus, pension, profit-sharing, or annuity plan, or other plan deferring the receipt of compensation or providing deferred benefits; premiums on life and health insurance; and miscellaneous benefits provided for employees such as safety, medical treatment, recreational and eating facilities, membership dues, etc.

(L) Cost attributable to strikes, rework labor, scrap and spoilage, and

(M) Compensation paid to officers attributable to the performance of services which benefit the long-term contractor's activities as a whole.

(6) *Allocation of costs to extended period long-term contracts.* Except as

provided in paragraph (g) of this section, this paragraph (d)(6) applies to taxable years beginning after December 31, 1982. The following rules shall apply in determining what costs are properly allocable to an extended period long-term contract (as defined in paragraph (b)(3) of this section) in the case of a taxpayer using the completed contract method of accounting for long-term contracts for tax purposes. These rules may also apply to certain extended period long-term contracts accounted for under a method of accounting that uses inventories (other than a long-term contract method). See paragraph (d)(6)(v) of this section.

(i) *Direct costs.* Direct material costs and direct labor costs must be treated as costs properly allocable to an extended period long-term contract. "Direct material costs" include the costs of those materials which become an integral part of the subject matter of the extended period long-term contract and those materials which are consumed in the ordinary course of building, constructing, installing or manufacturing the subject matter of an extended period long-term contract. See §1.471-3(b) for the elements of direct material costs. "Direct labor costs" include the cost of labor which can be identified or associated with a particular extended period long-term contract. The elements of direct labor costs include such items as basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983), shift differential, payroll taxes and payments to a supplemental unemployment benefit plan paid or incurred on behalf of employees engaged in direct labor.

(ii) *Indirect costs allocated to extended period long-term contracts.* The term "indirect costs" include all costs other than direct material costs and direct labor costs. In determining what indirect costs are properly allocable to an extended period long-term contract, all such costs that directly benefit the performance of extended period long-term contracts, or are incurred by reason of the performance of extended period long-term contracts must be allocated to extended period long-term contracts unless otherwise provided in paragraph (d)(6)(iii) of this section. Certain types of costs may directly benefit, or be incurred by reason of the performance of extended period long-term contracts of the taxpayer even though the same type of costs also benefits other activities of the taxpayer. Accordingly, such costs require a reasonable allocation between the portion of such costs that are attributable to extended period long-term contracts and the portion attributable to the other activities of the taxpayer. Indirect costs that must be allocated to extended period long-term contracts include:

(A) Repair expenses of equipment or facilities used in the performance of particular extended period long-term contracts,

(B) Maintenance of equipment or facilities used in the performance of particular extended period long-term contracts,

(C) Utilities, such as heat, light, and power, relating to equipment or facilities used in the performance of particular extended period long-term contracts,

(D) Rent of equipment or facilities used in the performance of particular extended period long-term contracts,

(E) Indirect labor and contract supervisory wages, including basic compensation, overtime pay, vacation and holiday pay, sick leave pay (other than payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983), shift differential, payroll taxes and contributions to a supplemental unemployment benefit plan incurred in the performance of particular extended period long-term contracts,

(F) Indirect materials and supplies used in the performance of particular extended period long-term contracts,

(G) Tools and equipment not capitalized used in the performance of particular extended period long-term contracts,

(H) Costs of quality control and inspection incurred in the performance of particular extended period long-term contracts,

(I) Taxes otherwise allowable as a deduction under section 164 (other than State and local [,] and foreign income taxes) to the extent such taxes are attributable to labor, materials, supplies, equipment or facilities used in the performance of particular extended period long-term contracts,

(J) Depreciation, amortization and cost recovery allowances on equipment and facilities (to the extent allowable as deductions under Chapter 1 of the Code) used in the performance of particular extended period long-term contracts,

(K) Depletion (whether or not in excess of cost) incurred in the performance of particular extended period long-term contracts,

(L) Administrative costs (whether or not performed on a job-site) directly attributable to the performance of particular extended period long-term contracts (but not including any cost of selling, or any return on capital),

(M) Direct and indirect costs incurred by any administrative, service, or support function or department to the extent such costs are allocable to particular extended period long-term contracts pursuant to paragraph (d)(9) of this section,

(N) Compensation paid to officer attributable to services performed on particular extended period long-term contracts (but not including any cost of selling),

(O) Costs of insurance incurred in the performance of particular extended period long-term contracts, such as insurance on machinery and equipment used in the construction of the subject matter of an extended period long-term contract,

(P) Contributions paid to or under a stock bonus, pension, profit-sharing or annuity plan or other plan deferring the receipt of compensation whether or not the plan qualifies under section 401(a) (except for amounts described in paragraph (d)(6)(iii)(I) of this section), and other employees benefit expenses paid or accrued on behalf of labor, to the extent such contributions or expenses are otherwise allowable as deductions under chapter 1 of the Code. "Other employee benefit expenses" include (but are not limited to): worker's compensation; amounts deductible or for whose payment reduction in earnings of profits is allowed under section 404A and the regulations thereunder; payments pursuant to a wage continuation plan under section 105(d) as it existed prior to its repeal in 1983; amounts includible in the gross income of employees under a method or arrangement of employer contributions or compensation which has the effect of a stock bonus, pension, profit-sharing, or annuity plan, or other plan deferring the receipt of compensation or providing deferred benefits; premiums on life and health insurance; and miscellaneous benefits provided for employees such as safety, medical treatment, recreational and eating facilities, membership dues, etc.

(Q) Research and experimental expenses (described in section 174 and the regulations thereunder) directly attributable to particular extended period long-term contracts in existence at the time such expenses are incurred, or incurred under an agreement to perform research or experimentation

(R) Rework labor, scrap and spoilage to the extent incurred in the performance of particular extended period long-term contracts, and

(S) Bidding expenses incurred in the solicitation of particular extended period long-term contracts ultimately awarded to the taxpayer. For purposes of this section, the term "bidding expenses" does not include any research and experimental expenses described in section 174 and the regulations thereunder. The taxpayer shall defer all bidding expenses paid or incurred in the solicitation of a particular extended period long-term contract until the contract is awarded. If the contract is awarded to the taxpayer, the bidding costs become part of the indirect costs assigned to the contract. If the contract is not awarded to the taxpayer, bidding costs become deductible in the taxable year the contract is awarded, or the taxable year the taxpayer is notified in writing that no contract will be awarded and that the contract (or similar or related contract) will not be re-bid, or in the taxable year that the taxpayer abandons its bid or proposal, whichever occurs first. Abandoning a bid does not include modifying, supplementing, or changing the original bid or proposal. If the taxpayer is awarded only part of the bid (for example, the taxpayer submitted one bid to build each of two different types of bridges and the taxpayer was awarded a contract to build only one of the two bridges), the taxpayer shall deduct the portion of the bidding expenses related to the portion of the bid not awarded to the taxpayer; in the case of a bid or proposal for a multi-unit contract, however, all the bidding expenses shall be allocated to a contract awarded to the taxpayer to produce any or such units (for example, where the taxpayer submitted one bid to produce three similar turbines and the taxpayer was awarded a contract to produce only two of the three turbines).

(iii) *Costs not allocated to extended period long-term contracts.* Costs which are not required to be included in costs attributable to an extended period long-term contract include:

(A) Marketing, selling and advertising expenses;

(B) Bidding expenses incurred in the solicitation of contracts not awarded to the taxpayer (see paragraph (d)(6)(ii)(S) of this section),

(C) Interest,

(D) General and administrative expenses (but not including any cost described in paragraph (d)(6)(ii)(L) or (M) of this section) and compensation paid to officers attributable to the performance of services that do not directly benefit or are not incurred by reason of any extended period long-term contracts,

(E) Research and experimental expenses (described in section 174 and the regulations thereunder) neither directly attributable to particular extended period long-term contracts in existence at the time such expenses are incurred nor incurred under any agreement to perform research or experimentation,

(F) losses under section 165 and the regulations thereunder,

(G) Depreciation, amortization and cost recovery allowances on equipment and facilities that have been placed in service but are temporarily idle (for this purpose, an asset is not considered to be temporarily idle on non-working days, and an asset used in construction is considered to be idle when it is not enroute to or not located at a job-site),

(H) Income taxes attributable to income received from extended period long-term contracts,

(I) Contributions paid to or under a pension or annuity plan allowable as a deduction under section 404 (and section 404A if applicable) to the extent such contributions represent past service costs, and

(J) Costs attributable to strikes.

(iv) *Special rule for component parts or subassemblies produced by the taxpayer.* In the case of any type of component or subassembly produced by the taxpayer, the taxpayer shall use the cost allocation rules prescribed in paragraph (d)(6) and (8) of this section to determine the unit cost of the components or subassemblies that reasonably can be expected to be incorporated into the subject matter of extended period long-term contracts of the taxpayer. The taxpayer may use other proper cost allocation rules (see §1.471-11) to determine the unit cost of the components or subassemblies other than those described in the preceding sentence. For each taxable year, the taxpayer's estimate of the number of components or subassemblies that can be expected to be incorporated into the subject matter of extended period long-term contracts shall be considered reasonable if the estimate is based upon facts known at the beginning of the taxable year.

(v) *Taxpayers not using a long-term contract method.* Taxpayers who use a method of accounting that uses inventories (other than a long-term contract method) must use the cost allocation rules provided in paragraph (d)(6) of this section (rather than the cost allocation rules provided in §1.471-11) for any extended period long-term contract unless the taxpayer reasonably expects that

(A) 40% of the gross income from such contract will be recognized no later than the taxable year after the taxable year in which the contract is entered into;

(B) 70% of the gross income from such contract will be recognized no later than the second taxable year after the taxable year in which the contract is entered into; and

(C) 100% of the gross income from such contract will be recognized no later than the third taxable year after the taxable year in which the contract is entered into.

In determining whether the taxpayer meets the "reasonably expected" test of this paragraph (d)(6)(v), rules consistent with the rules of paragraph (b)(3)(iv) of this section will apply.

(7) *Guarantees, warranties, maintenance costs, etc.* "Costs which are properly allocable to a long-term contract" do not include costs incurred with respect to any guarantee, warranty, maintenance, or other service agreement relating to the subject matter of the long-term contract. See paragraph (a)(3) of this section.

(8) *Separate accounts; annual cost allocation; use of inventory methods in*

connection with the completed contract method—(i) *General rule*. This paragraph (d)(8) is effective for taxable years beginning after December 31, 1982. For taxable years beginning before January 1, 1983, see 26 CFR 1.451-3(d)(6) (revised as of April 1, 1985). The taxpayer shall maintain separate accounts for each long-term contract, and both the direct costs (as described in paragraph (d)(5)(i) or (d)(6)(i) of this section) and the indirect costs (as described in paragraph (d)(5)(ii) or (d)(6)(ii) of this section) incurred during the taxable year attributable to long-term contracts shall be allocated to particular long-term contracts for the taxable year such costs are incurred. Any change in the taxpayer's method of accounting for costs attributable to long-term contracts required by this paragraph (d)(8) is a change in method of accounting to which section 446(e) and the regulations and procedures thereunder apply.

(ii) *Direct labor*. Direct labor costs incurred during the taxable year shall be allocated to particular long-term contracts using a specific identification (or "tracing") method. However, if direct labor costs attributable to more than one long-term contract are intermingled so that it is impractical to specifically identify (or "trace") such costs to a particular long-term contract, such costs shall be allocated to particular long-term contracts using any reasonable method, provided that the method employed reasonably allocates direct labor costs among long-term contracts completed during the taxable year and long-term contracts that have not been completed as of the end of the taxable year.

For the purpose of allocating elements of direct labor cost other than basic compensation to particular long-term contracts, all such cost elements may be grouped together and then allocated to particular long-term contracts in proportion to the charge for basic compensation.

(iii) *Direct materials*. (A) *General rule*. The cost of direct materials that are dedicated to a long-term contract in a taxable year shall be allocated to that long-term contract for that year. The cost that is allocated to the particular contract for the year of dedication shall be determined using the taxpayer's method of accounting for inventories (e.g., specific identification, FIFO, LIFO, etc.) of the material whose cost is being allocated. The costing rule in the preceding sentence applies both when materials are purchased specifically for a contract and when materials previously held by the taxpayer are dedicated to the contract. Examples of dedication of materials to a long-term contract include the following: *(1)* delivery of materials to a job site (if only one contract is being performed at that site); *(2)* association of materials with a specific contract (for example, by purchase order, entry on books and records, shipping instructions, etc.); and, if not previously assigned, the physical incorporation of the material into the subject matter of the contract or the consumption of the material in the production of the subject matter of the contract.

(B) *Alternative rule for taxable years beginning after December 31, 1982 and before January 1, 1986*. For taxable years beginning after December 31, 1982, and before January 1, 1986, taxpayers may, in lieu of applying the general rule of paragraph (d)(8)(iii)(A) of this section, allocate direct costs incurred during the taxable year to particular long-term contracts using the specific identification (or "tracing") method, and if direct costs attributable to more than one long-term contract are intermingled so that such costs cannot be identified (or "traced") specifically to a particular long-term contract, such costs shall be allocated to particular long-term contracts using any reasonable method, provided that the method employed reasonably allocates direct costs among long-term contracts completed during the taxable year and long-term contracts that have not been completed as of the end of the taxable year. However, taxpayers utilizing the rule of this paragraph (d)(8)(iii)(B) may not use any LIFO or lower of cost or market method of identifying or allocating direct costs to any long-term contract.

(iv) *Indirect costs*. The indirect costs required to be allocated to a long-term contract under paragraph (d)(5)(ii) or (d)(6)(ii) of this section shall be allocated to particular contracts for the year such costs are incurred using either—

(A) A specific identification (or "tracing") method, or

(B) A method using burden rates, such as ratios based on direct costs, hours, or other items, or similar formulas, so long as the method employed for such allocation reasonably allocates indirect costs among long-term contracts completed during the taxable year and long-term contracts that have not been completed as of the end of the taxable year. Indirect costs may ordinarily be allocated to long-term contracts on the basis of direct labor and material costs, direct labor hours, or any other basis which results in a reasonable allocation of such indirect costs.

(9) *Allocation of administrative, service, or support costs to extended period long-term contracts*—(i) *Introduction*. (A) If a function or department of the taxpayer incurs costs that directly benefit or are incurred by reason of the extended period long-term contract activities of the taxpayer, the costs of such function or department are allocable to such extended period long-term contracts. See paragraph (d)(6)(ii)(M) of this section. However, if a function or department incurs costs that do not directly benefit and are not incurred by reason of the taxpayer's extended period long-term contracts, but rather, for example, benefit only the overall management or policy guidance functions of the taxpayer, the costs incurred by such function or department are not allocable to any extended period long-term contract. In some cases, the costs incurred by a function or department may directly benefit or be incurred by reason of the taxpayer's extended period long-term contract activities as well as the taxpayer's overall management or policy guidance function. In such cases, the taxpayer shall reasonably allocate the costs of such function or department between the taxpayer's extended period long-term contract activities and the taxpayer's overall management or policy guidance functions. Paragraph (d)(9) of this section provides guidance in making these allocations.

(B) If the methods of allocation used by the taxpayer, or the taxpayer's selection of specific types of costs to be allocated differs from the allocation methods or the specific types of costs to be allocated described in this paragraph (d)(9), the taxpayer's allocation methods and selection of specific types of costs to be allocated shall generally not be changed if with respect to the taxpayer's extended period long-term contracts taken as a whole—

(1) The total amount of costs incurred during the taxable year of a type described in this paragraph (d)(9) that the taxpayer allocated to such contracts does not differ significantly from the total amount of costs that would be allocated to such contracts under this paragraph (d)(9); and

(2) the taxpayer's selection of cost allocation methods and specific types of costs to be allocated are applied consistently and do not result in any disproportionate allocation of costs to contracts expected to be completed in the near future.

(ii) *General rule.* The total amount of administrative, service, or support costs that directly benefit or are incurred by reason of only a particular extended period long-term contract shall be directly assigned to such contract. The direct and indirect costs (hereinafter "service costs") of administrative, service or support functions or departments (hereinafter "service departments") that directly benefit or are incurred by reason of more than one activity shall be allocated to particular extended period long-term contracts on the basis of a factor or relationship that reasonably relates the incurring of the service cost to the benefits received by the extended period long-term contract. In general, the direct costs of a service department include costs that an be identified specifically with the services provided by the department, and the indirect costs of a service department include costs not identified specifically with the services provided by the function or department, but incurred by reason of the direct costs of the function or department. Such direct and indirect costs include, but are not limited to, compensation (including compensation described in paragraph (d)(6)(ii)(E) and (P) of this section) of employees directly engaged in performing the services provided by the department, travel, materials and supplies consumed by the department, supervisory and clerical compensation, occupancy costs (rents or an allocable share of depreciation and property taxes), depreciation or rent of office machines, utilities, telephone, and other department overhead. The types of activities that are administrative, service or support functions or departments are not predetermined, but depend upon the facts and circumstances of each contractor's activities and business organization. In a decentralized business organization, all costs incurred at higher levels, for example, at a parent corporation or organization, or at the headquarters of a subsidiary corporation or division, are not necessarily general and administrative expenses (as described in paragraph (d)(6)(iii)(D) of this section) with respect to an extended period long-term contract.

(iii) *Rules for allocation of service costs.* The taxpayer shall allocate the total direct and indirect costs of a service department to extended period long-term contracts by applying consistently any reasonable method of cost allocation authorized by cost accounting principles. Reasonable methods include:

(A) The direct reallocation method whereby the total costs (direct and indirect) of all service departments are allocated only to production departments, and then from the production departments to particular extended period long-term contracts and to other production activities that are not extended period long-term contracts. The service costs allocable to such other production activities shall be accounted for under a proper method of accounting. This direct reallocation method ignores benefits provided by one service department for other service departments, and also excludes such other service departments from the base used to make the allocation;

(B) The step-allocation method, whereby a sequence of allocations is made beginning with the allocation to other service departments and to production departments of the total costs (direct and indirect) of the service department that provides benefits to the greatest number of other service departments, and ending with the allocation of the total costs (including the costs allocated to it from the other service departments) of the service department that provides benefits to the least number of other service departments. Under this allocation method, the costs of service departments allocated properly to functions or departments that are not service departments or production departments (for example, payroll costs allocated to a financial planning function or department) are not reallocated to any other service department or production department. The taxpayer shall then allocate the costs of the production departments (including the reallocated service department costs) to extended period long-term contracts and to other production activities that are not extended period long-term contracts. The service costs allocable to such other production activities shall be accounted for under a proper method of accounting; or

(C) Other methods of cost allocation authorized by cost accounting principles. However, a reasonable method does not include allocating service department costs to other service departments without taking such allocation into account in allocating the costs of such other service departments.

(iv) *Relationship of service costs to benefits received.* Factors or relationships that relate the incurring of service costs to the benefits received by an extended period long-term contract include measures based upon the total output of the service department (for example, the approximate number of service hours or the approximate number or the dollar volume of transactions provided to an extended period long-term contract as a fraction of the total number of service hours or the total number or the total dollar volume of transactions provided by the department), or measures based upon the relative size of the extended period long-term contract to the size of the taxpayer's other production activities (for example, the number of direct labor employees or direct labor hours or direct labor costs (as described in paragraph (d)(6)(i) of this section) incurred on an extended period long-term contract as a fraction of the total number of direct labor employees, direct labor hours, or direct labor costs incurred by the taxpayer in all production activities). In general, allocation methods prescribed in regulations of the Cost Accounting Standards Board, 4 CFR Chapter III, Subchapter G, as well as other allocation methods consistent with the principles of paragraph (d)(g) of this section are acceptable allocation methods, provided that the taxpayer applies such methods consistently.

(v) *Additional requirements.* (A) If, pursuant to section 482 and the regulations thereunder, the district director makes an allocation of income or deductions between members of a group of controlled entities to reflect the performance of services or the provision of equipment or facilities at other than an arm's length charge, any taxpayer that has extended period long-term contracts and is affected by such allocation is required to take such allocation into account in making the taxpayer's allocation to extended period long-term contracts of the cost of administrative, service or support functions or departments, (B) If the taxpayer establishes to the satisfaction of the district director that all of a particular type of administrative, service or support function is performed only at the jobsite (that is, at the offices of a production plant or at a construction site), then all the direct and indirect costs of such function incurred at the jobsite shall be directly allocated to each particular extended period long-term contract and any other activities performed at that jobsite, and no further allocation of that type of cost shall be required. (C) For each taxable year that the taxpayer allocates service costs to an extended period long-term contract, the taxpayer shall maintain the records used to make such allocation so that the allocations may be readily examined and verified by the district director. The taxpayer shall also maintain records describing the types of costs that the taxpayer has deducted currently under paragraph (d)(6)(iii)(D) (general and administrative expenses), so that the amount, nature and allocation of such costs may be verified readily by the district director. A change in the method or base used in allocating such service costs (such as changing from an allocation base using direct labor cost to a base using direct labor hours), or a change in the taxpayer's determination of what functions or departments of the taxpayer are required or not required to be allocated to extended period long-term contracts is a change in method of accounting to which section 446(e) and the regulations and procedures thereunder apply. See §1.446-1(e).

(vi) *Illustration of types of activities with respect to which costs ordinarily are required to be allocated.* Costs incurred by the following types of functions or departments ordinarily are required to be allocated to extended period long-term contracts:

(A) The administration and coordination of manufacturing or construction projects (wherever performed in the business organization of the taxpayer);

(B) Personnel operations, including the cost of recruiting, hiring, relocating, assigning, and maintaining personnel records of employees whose labor cost is allocable to extended period long-term contracts;

(C) Purchasing operations, including purchasing materials and equipment, scheduling and coordinating delivery and return of materials and equipment to or from factories or jobsites, and expediting and follow-up;

(D) Materials handling and warehousing operations;

(E) Accounting and data services operations related to contract activities, including cost accounting, accounts payable, disbursements, billing, accounts receivable and payroll;

(F) Data processing;

(G) Security services; and

(H) Legal departments that provide legal services to contracts.

(vii) *Illustration of types of activities with respect to which costs ordinarily are not required to be allocated.* Costs incurred by the following types of functions or departments ordinarily are not required to be allocated to extended period long-term contracts:

(A) Functions or departments responsible for overall management of the taxpayer, or for setting overall policy for all of the taxpayer's activities or trades or businesses (such as, the board of directors including their immediate staff), and the chief executive, financial, accounting and legal officers (including their immediate staffs) of the taxpayer, provided that no substantial part of the costs of such departments or functions directly benefit extended long-term contracts);

(B) General business planning;

(C) Financial accounting (including the accounting services required to prepare consolidated reports, but not including any accounting for particular contracts);

(D) General financial planning (including general budgeting) and financial management (including bank relations and cash management);

(E) General economic analysis and forecasting;

(F) Internal audit;

(G) Shareholder, public and industrial relations;

(H) Tax department; and

(I) Other departments or functions that are not responsible for day-to-day operations but are instead responsible for setting policy and establishing procedures to be used by all of the taxpayer's activities or trades or businesses.

(viii) *Policy and overall management services.* Examples of such functions or departments that are responsible for setting policy and establishing procedures applicable to all of the taxpayer's activities or trades or businesses (see paragraph (d)(9)(vii)(I) of this section) are:

(A) Purchasing policy (such as maintaining lists of approved suppliers, developing purchasing manuals and policy directives of general application, developing general quality standards for purchased materials and components, general auditing and review of purchasing activities to assure compliance with the taxpayer's purchasing policy and compliance with government purchasing requirements, and management of small business participation),

(B) Personnel policy (such as establishing and managing personnel policy in general, developing general wage, salary and benefit policies, developing employee training programs unrelated to particular contracts, negotiations with labor unions and relations with retired workers),

(C) Quality control policy,

(D) Safety engineering policy,

(E) Insurance or risk management policy (but not including bid or performance bonds or insurance related to particular contracts), and

(F) Environmental management policy. However, the cost of establishing any system or procedure that will only benefit a particular extended period long-term contract shall be directly allocated to such contract.

(ix) *Costs not described.* The costs of any administrative, service or support function or department of the taxpayer not described in paragraph (d)(9)(iv) or (vii) of this section are required to be allocated to extended period long-term contracts to the extent that the nature of the benefits provided by such function or department is more like the type of benefits described in paragraph (d)(9)(vi) than the type of benefits described in paragraph (d)(9)(vii).

(x) *Illustrations of the allocations required by this paragraph (d)(9).* The following illustrate the types of considerations that are to be taken into account in making the allocations required by paragraph (d)(9) of this section. The taxpayer need not use the same method to allocate a particular type of administrative, service or support cost as the method described in these illustrations provided that the method used by the taxpayer is reasonable. See paragraph (d)(9)(iii) of this section. The allocation methods illustrated may be used to allocate other types of service costs not illustrated [.]

(A) *Security services.* The cost of security or protection services benefits all areas covered by the service and should be allocated to each physical area that receives the service in proportion either to the size of the physical area, number of employees in the areas, or in proportion to the relative fair market value of assets located in the area, or in any other reasonable basis applied consistently. That part of the total cost allocable to a factory or jobsite where the only work being performed is an extended period long-term contract shall be directly allocated to that contract. The treatment of the cost of security services allocable to other service departments depends upon the method of allocation adopted by the taxpayer under paragraph (d)(9)(iii) of this section.

(B) *Legal services.* The cost of a legal department includes rent (or an allocation of building depreciation and occupancy costs), travel, office machines, supplies, telephone, library, and other overhead, and the compensation of the attorneys and other employees assigned to the department. For this purpose compensation includes compensation described in paragraph (d)(6)(ii)(E) and (P) of this section. These costs only benefit activities of the taxpayer requiring legal services. These costs are generally allocable directly to an extended period long-term contract on the basis of the approximate number of hours of legal services (including research) performed in connection with the contract, including bidding, negotiating, drafting, or reviewing the contract (including subcontracts and supply contracts), obtaining necessary licenses and permits, and in resolving contract disputes, termination claims or disputes arising from the performance of the contract. Different hourly rates may be appropriate for different services. In determining the number of hours allocable to any contract, approximations are appropriate, detailed time records need not be kept, and insubstantial amounts of services provided to a contract by senior legal staff as administrators or as reviewers may be ignored. The taxpayer shall also allocate directly to a contract the cost of any outside legal services provided to the contract. Instead of an allocation based upon total hours of legal services provided to an activity, the taxpayer may choose to allocate the costs of a legal department to an extended period long-term contract and to other production activities on the basis of total direct costs (as described in paragraph (d)(6)(i) of this section) incurred on an extended period long-term contract as a fraction of the total direct costs incurred on all production activities. Legal costs may also be allocable to long-term contracts of the taxpayer that are not extended period long-term contracts under paragraph (d)(5)(ii) of this section. Legal activities relating to general corporate functions, financing, securities law compliance, antitrust law compliance, tax compliance, industrial relations, compliance with laws and regulations not related to particular contracts, after the fact review of contracts to insure compliance with company policies, patents and licensing unrelated to particular contracts, and similar general legal functions are not required to be allocated to long-term contracts.

(C) *Centralized payroll department.* The cost of a payroll department includes rent (or an allocation of building depreciation and occupancy costs), office machines, supplies, telephones and other overhead and compensation of employees assigned to the department. The department cost may also include the cost of data processing and file maintenance, or these costs may be incurred by a separate data processing or records department and allocated to the payroll department. Payroll service costs benefit any production department or other service department incurring labor costs. The cost of a payroll department is generally allocated on the basis of the gross amount of payroll processed.

(D) *Centralized data processing.* The cost of a data processing department includes rent or depreciation of data processing machines, supplies, rent (or an allocation of building depreciation and occupancy costs), power, telephone and other overhead, and the compensation of employees assigned to the department. These costs benefit all production departments and all other service departments that require data processing services. Data processing costs are generally allocated based upon the number of data processing hours supplied. Other reasonable bases, such as an allocation based upon total direct costs, may also be used. The costs of data processing systems developed for a particular long-term contract shall be directly allocated to such contract.

(E) *engineering and design services.* The cost of an engineering or design department includes rent (or an allocation of building depreciation and occupancy costs), travel, office machines, supplies, telephones, library, and other overhead, and compensation of employees assigned to the department. Unless the engineering and design services are properly accounted for separately, the cost of engineering or design service departments generally is directly allocable to a long-term contract (whether or not the contract is an extended period long-term contract) on the basis of the approximate number of hours of work performed on the contract as a fraction of the total hours of engineering or design work performed for all activities. Different services may be allocated at different hourly rates. Engineering and design services may also be treated as direct costs of the contract, provided that the taxpayer also treats all engineering and design overhead as a direct or indirect cost of the contract.

(F) *Safety and engineering.* The cost of a safety engineering department includes the compensation paid to employees assigned to the department, rent (or an allocation of building depreciation and occupancy costs), travel, office, machines, supplies, telephones, library, and other overhead. These costs benefit all the production activities of the taxpayer and should be allocated to an extended period long-term contract on the basis of the approximate number of safety inspections made on the contract as a fraction of total inspections, or on the basis of the number of employees assigned to the contract as a fraction of total production employees or on the basis of total labor hours worked on the contract as a fraction of total production hours, whichever is most reasonable. The cost of a safety engineering department responsible only for setting safety policy and establishing safety procedures to be used in all of the taxpayer's production activities or trades or businesses is not required to be allocated to extended period long-term contracts and other production activities. However, in determining the total costs of a safety engineering department to be allocated, costs attributable to providing a safety program only for a particular long-term contract shall be directly assigned to the contract.

(e) *Severing and aggregating contracts*—(1) *In general.* (i)(A) For the purpose of clearly reflecting income (*e.g.*, to prevent the unreasonable deferral of recognition of income or the premature recognition of loss), it may be necessary in some instances for the Commissioner either to treat one agreement as several contracts or to treat several agreements as one contract.

(B) However, in the case of long-term contracts since the factors described in this paragraph are different from the factors for determining whether certain elements of an agreement are eligible for long-term contract treatment, the factors described in this paragraph do not apply in determining which elements of an agreement that are ineligible for long-term contract treatment must be separated from those elements that are eligible for long-term contract treatment.

(C) In general only the Commissioner (and not the taxpayer) may take action under this paragraph. Thus, for example, if the taxpayer enters into one agreement, the taxpayer may not treat that agreement as several contracts for purposes of this section unless and until that agreement is changed into several agreements. See examples 3 and 5 for instances when one agreement is changed into several agreements.

(ii) Whether an agreement should be so severed or several agreements so aggregated will depend on all the facts and circumstances. Such facts and circumstances may include whether there is separate delivery or separate acceptance of units representing a portion of the subject matter of the contract, whether such units are independently priced, whether there is no business purpose for one agreement rather than several agreements or several agreements rather than one agreement, and such other factors as customary commercial practice, the dealings between parties to the contract, the nature of the subject matter of the contract, the total number of units to be constructed, manufactured, or installed under the contract, and the contemplated time between the completion of each unit.

(iii) Generally, one agreement will not be treated as several contracts unless such agreement contemplates separate delivery or separate acceptance of portions of the subject matter of the contract. However, separate delivery or separate acceptance of portions of the subject matter of a contract does not necessarily require severing of an agreement (see example (4) of paragraph (e)(2) of this section).

(iv) One agreement may be severed, or several agreements may be aggregated, based upon the pricing formula of such agreements. For example, in the case of a multi-unit agreement for several similar items, if the price to be paid for similar units is determined under different terms or formulas (for example, if some units are priced under a cost-plus incentive fee arrangement, and later units are to be priced under a fixed-price arrangement), then the difference in the pricing terms or formulas may indicate that the agreement should be treated as several contracts.

(v) An agreement generally will be treated as several contracts where there is no business purpose for entering into one agreement rather than several agreements. A factor which may evidence that no such business purpose exists is that the agreement covers two or more subject matters, none of which readily can be determined to be the primary subject matter of the contract (within the meaning of paragraph (b)(2)(ii) of this section); such factor must be considered along with other factors indicating the presence or absence of business purpose.

(vi) Several agreements generally will not be aggregated unless there is no business purpose for entering into several agreements rather than one agreement.

(vii) An example of a factor which is evidence that two agreements entered into between the same parties should be aggregated is that (without regard to the order in which the agreements were entered into or performed, and without regard to whether one of the agreements could actually be performed without the prior or contemporaneous performance of the other agreement) a reasonable business-person would not have entered into one of the agreement for the terms agreed upon but for entering into the other agreement in such other agreement for the terms agreed upon (or for more favorable terms). See example (2) of paragraph (e)(2) of this section. An example of a factor which is not evidence that two agreements entered into between the same parties should be aggregated is that one of the agreements would not have been entered into containing the terms agreed upon but for the expectation that the parties would enter into the other agreement.

(viii) If the number of items to be supplied is increased (as by the exercise of an option or the issuance of a "change order"), the supplying of such additional items generally results in the agreement being changed into several agreements. See paragraph §1.451-3(e)(1)(i).

(ix) See paragraph (b)(2)(ii) of this section for special rules relating to the time for completion of certain contracts having more than one subject matter.

(2) *Examples.* The application of paragraph (e) of this section may be illustrated by the following examples.

Example (1). X, a calendar year taxpayer engaged in the construction business and using a long-term contract method, enters into one agreement in 1972 with A, a real estate developer, to build three houses of different designs in three different suburbs of a large city. The houses are to be completed, accepted, and put into service in 1973, 1974, and 1975, respectively. The portion of the total contract price attributable to each house can reasonably be determined. In these circumstances it may be necessary for the Commissioner to sever and threat the agreement as separate contracts to build each house for purposes of applying X's long-term contract method.

Example (2). Y, a calendar year shipbuilder using a long-term contract method, enters into two agreements at about the same time during 1982 with M. These agreements are the product of a single negotiation. Under each agreement the taxpayer is to construct for M a submarine of the same class. Although the specifications for each submarine are similar, it is anticipated that, since the taxpayer has never constructed this class of submarine before, the costs incurred in constructing the first submarine (to be delivered in

1983) will be substantially greater than the costs incurred in constructing the second submarine (to be delivered in 1984.) If the agreements are treated as separate contracts, it is estimated that the first contract could result in little or no gain, while the second contract would result in substantial profits. A reasonable business person would not have entered into the agreement to construct the first submarine for the price specified without entering into the agreement to construct the second submarine. In these circumstances, it may be necessary for the Commissioner to aggregate the two agreements for purposes of applying Y's long-term contract method.

Example (3). Assume the same facts as in example (2) with the addition of the following facts: IN 1983, M issues a "change order" providing for a third submarine of the same class to be constructed by Y and delivered to M in 1985. The portion of the total contract price attributable to the "change order" providing for the third submarine can reasonably be determined. A reasonable business person would have entered into the agreements to construct the first two submarines for the price specified without regard to whether M would issue the "change order" for the third submarine. In these circumstances the "change order" providing for the third submarine must be treated as a separate contract for purposes of applying Y's long-term contract method.

Example (4). Z, a calendar year taxpayer engaged in the construction business and using a long-term contract method, enters into an agreement in 1983 to build a ten story office building for the Y Bank. In 1984, the structure is completed and the first three floors of the building are completed and accepted, and Y occupies these floors and uses them for the conduct of its banking business. Construction, however, continues on the remaining seven floors, which are completed and accepted in 1985. In these circumstances, it is clear that even though separate acceptance of portions of the subject matter of the agreement has occurred, the subject matter of the agreement was essentially a single unit, namely a building, and that there was a business purpose for entering into one contract rather than several contracts. Consequently, the agreement ordinarily will not be severed into separate contracts for purposes of applying Z's long-term contract method.

Example (5). The facts are the same as in example (4), except that due to a change in business conditions, Y will not require (either for its own use or for rental) the remaining seven floors for at least two years and, pursuant to a separate agreement entered into in 1984 between the parties, substantially all work on completing the remaining seven floors is stopped. In these circumstances, due to the change in business conditions and the actions of the parties, the original agreement (as modified by the second agreement) is changed into two agreements, each of which is treated as a separate contract for purposes of this section, one contract (entered into in 1983) for the construction of a ten story building with the first three floors completed for occupancy, and a separate contract (or contracts) to finish work on the remaining seven floors on an "as requested" basis.

Example (6). T, a calendar year taxpayer engaged in the business of manufacturing aircraft and related equipment, enters into an agreement in 1982 with the B government to manufacture 10 military aircraft for delivery in 1984. It is anticipated at the time the agreement entered into that B may enter into an agreement with T for the production and sale of as many as 300 of these aircraft over the next 20 years. In negotiating the price for the agreement B and T take into account the expected total cost of manufacturing the 10 aircraft, the risks and the opportunities associated with the agreement, and all other factors that the parties consider relevant, in such a manner that T would have entered into the agreement with the terms agreed upon whether or not T would actually enter into one or more additional production agreements. However, it is unlikely that T would have entered into the agreements but for the expectation that T and B would enter into additional production. In 1984, the 10 aircraft are completed by T and accepted by B. In 1984, T also enters into agreements with B to manufacture 20 aircraft of the same type for delivery in 1986. In negotiating the price for these 20 aircraft, B and T take into account the fact that the expected unit costs for this production of 20 will be different than the unit costs of the 10 aircraft completed in 1984, but also that the expected unit costs of this production of 20 will be substantially higher than the costs of future production. Because the price awarded for each of the two agreements takes into account the expected total costs and the risks expected for each agreement standing alone, the terms agreed upon for any one of of the agreements are independent of the terms agreed upon for the other agreements. Under the facts of this example, the two may not be aggregated, into one contract for purposes of applying T's long-term contract method.

Example (7). R, a calendar year taxpayer engaged in the manufacture of industrial machinery, enters into one agreement in 1982 with Z to manufacture five specialized machines and to manufacture spare and replacement parts for the machines. The machines are to be delivered in 1982 and 1983, and the spare and replacement parts are to be delivered in 1983 through 1985. The portion of the total contract price attributable to the five machines and to the spare and replacement parts reasonably can be determined. The portion of the total contract price reasonably attributable to the spare and replacement parts is more than an insignificant amount of the total contract price. Assume that, under all the facts and circumstances, it is determined that the portion of the agreement attributable to the five machines need not be severed as between the machines. In these circumstances, because the agreement contemplates separate delivery of the machines and the parts, because more than an insignificant amount of the total contract price is allocable to the spare and replacement parts, and because spare or replacement parts are items different than entire machine, it may be necessary for the Commissioner to sever the agreement, treating the agreement to manufacture the five machines as a separate contract and the agreement to manufacture the spare and replacement parts as another separate contract (or as several separate contracts depending on the facts and circumstances) for purposes of applying R's long-term contract method.

(3) *Cross reference.* See §1.6001-1(a) regarding the duty of taxpayers to keep such records as are sufficient to establish the amount of gross income, deductions, etc.

* * * * *

(g) *Effective date and transition to 1983 cost allocation rules; special rules*—(1) *In general.* In the case of a taxpayer using the completed contract method or a method of accounting that uses inventories (other than a long-term contract method), the cost allocation rules prescribed in paragraph (d)(6) of this section (hereinafter "the 1983 cost allocation method") shall apply (with the phase-in described in paragraph (g)(2) of this section) to costs incurred by the taxpayer in taxable years beginning after December 31, 1982, but only with respect to extended period long-term contracts (as defined in paragraph (b)(3) of this section) entered into after December 31, 1982. No costs incurred with respect to any contract entered into before January 1, 1983 are required to be accounted for under the 1983 cost allocation method. Such costs shall be accounted for under the cost allocation method prescribed in paragraph (d)(5) of this section. Because the transition to the 1983 cost allocation method is to be applied on a "cut-off" basis, sections 446(e) and 481 do not apply to the transition to the 1983 cost allocation method.

(2) *Phase-in.* For costs required to be allocated to an extended period long-term contract under the 1983 cost allocation method that are not required to be allocated to the contract under the cost allocation method prescribed in paragraph (d)(5) of this section (or in paragraph (c) of §1.471-11 in the case of a taxpayer accounting for extended period long-term contracts under a method of accounting that uses inventories (other than a long-term contract method)), in lieu of allocating the full amount of such costs to the extended period long-term contract, the taxpayer shall allocate to the contract only the applicable percentage of such costs incurred in taxable years beginning after December 31, 1982 and before January 1, 1986, with respect to extended period long-term contracts entered into after December 31, 1982. The applicable percentage shall be determined as follows:

For taxable years beginning in calendar year	The applicable percentage Is
1983	33 1/2%
1984	66 2/3%
1985 or thereafter	100%

In the case of a taxpayer whose taxable year does not begin on January 1, costs incurred with respect to extended period long-term contracts entered into after December 31, 1982, shall be accounted for under the cost allocation method prescribed in paragraph (d)(5) of this section or paragraph (c) of §1.471-11 in the case of a taxpayer using an inventory method) in the case of costs incurred in taxable years beginning before January 1, 1983, and under the 1983 cost allocation method (with the application of paragraph (g) of this section) in the case of taxable years beginning after December 31, 1982.

(3) *Special rule for completion of certain contracts in taxable years ending before January 1, 1983.* Any contract that would (but for this paragraph (g)(3)) be considered to be completed in a taxable year ending before January 1, 1983, solely by reason of the application of paragraph (b)(2)(i)(B), (ii), (iii) or (iv) of this section, shall be considered to be completed on the first day of the taxpayer's first taxable year ending after December 31, 1982. The application of this paragraph (g)(3) shall not be considered to be a change in method of accounting to which section 481 applies.

(4) *Special rule for severing and aggregating certain contracts in taxable years ending before January 1, 1983.* Any contract of a taxpayer that would (but for this paragraph (g)(4)) be considered completed in a taxable year ending before January 1, 1983—

(i) Solely by reason of the application of those provisions of paragraph (e)(1) of this section expressly made applicable to taxable years ending after December 31, 1982 (hereinafter, the "severing/aggregating modifications") or,

(ii) Solely by reason of the application of both the severing/aggregating modifications and the application of paragraph (b)(2)(i)(B), (ii), (iii) or (iv) of this section (hereinafter, the "completion modifications"), shall be treated as having been completed on the first day after December 31, 1982, on which any contract that was severed from such contract (by reason of the severing/aggregating modifications) is completed (determined with application of the completion modifications). The application of this paragraph (g)(4) shall not be considered to be a change in method of accounting to which section 481 applies.

(5) *Special rule for estimated tax payments.* For purposes of the addition to the tax for underpayment of estimated tax under section 6654 (relating to individuals) and section 6655 (relating to corporations), the gross income realized in the taxpayer's first taxable year ending after December 31, 1982, attributable to long-term contracts deemed to be completed in such taxable year solely by the application of paragraphs(b)(2)(i)(B), (ii), (iii) or (Iv), (g)(3) or (g)(4) of this section, or those portions of paragraph (e)(1) of this section made applicable to taxable years ending after December 31, 1982, shall be considered to be taxable income for such taxable year, but only with respect to installments of estimated tax required to be paid on or after April 13, 1983.

(6) *Taxpayer changing from a method more inclusive of indirect costs.* Except as provided in paragraph (g)(1) and (2) of this section, if a taxpayer wishes to change to a method of accounting for indirect costs prescribed under this section (or under §1.471-11(c) in the case of a taxpayer using an inventory method of accounting for long-term contracts) from a method of accounting for indirect costs that is more inclusive of indirect costs, the taxpayer must secure the consent of the Commissioner prior to making the change in accordance with the regulations and procedures established under section 446(e).

Par. 4. Paragraph (b) of §1.451-5 is revised to read as follows:

§1.451-5 Advance payments for goods and long-term contracts.

* * * * *

(b) *Taxable year of inclusion*—(1) *In general.* Advance payments must be included in income either—

(i) In the taxable year of receipt; or

(ii) Except as provided in paragraph (c) of this section,

(a) In the taxable year in which properly accruable under the taxpayer's method of accounting for tax purposes if such method results in including advance payments in gross receipts no later than the time such advance payments are included in gross receipts for purposes of all of his reports (including consolidated financial statements) to shareholders, partners, beneficiaries, other proprietors, and for credit purposes, or

(b) If the taxpayer's method of accounting for purposes of such reports results in advance payments (or any portion of such payments) being included in gross receipts earlier than for tax purposes, in the taxable year in which includible in gross receipts pursuant to his method of accounting for purposes of such reports.

(2) *Examples.* This paragraph may be illustrated by the following examples:

Example(1). S, a retailer who uses for tax purposes and for purposes of the reports referred to in subparagraph (1)(ii)(a) of this paragraph, an accrual method of accounting under which it accounts for its sales of goods when the goods are shipped, receives advance payments for such goods. Such advance payments must be included in gross receipts for tax purposes either in the taxable year the payments are received or in the taxable year such goods are shipped (except as provided in paragraph (c) of this section).

Example (2). T, a manufacturer of household furniture, is a calendar year taxpayer who uses an accrual method of accounting pursuant to which income is accrued when furniture is shipped for purposes of its financial reports (referred to in subparagraph (1)(ii)*(a)* of this paragraph) and an accrual method of accounting pursuant to which the income is accrued when furniture is delivered and accepted for tax purposes. See §1.446-1(c)(1)(ii). In 1974, T receives an advance payment of $8,000 from X with respect to an order of furniture to be manufactured for X for a total price of $20,000. The furniture is shipped to X in December 1974, but it is not delivered to and accepted by X until January 1975. As a result of this contract, T must include the entire advance payment in its gross income for tax purposes in 1974 pursuant to subparagraph (1)(ii)*(b)* of this paragraph. T must include the remaining $12,000 of the gross contract price in its gross income in 1975 for tax purposes.

(3) *Long-term contracts.* In the case of a taxpayer accounting for advance payments for tax purposes pursuant to a long-term contract method of accounting under §1.451-3, or of a taxpayer accounting for advance payments with respect to a long-term contract pursuant to an accrual method of accounting referred to in the succeeding sentence, advance payments shall be included in income in the taxable year in which properly included in gross receipts pursuant to such method of accounting (without regard to the financial reporting requirement contained in subparagraph (1)(ii)*(a)* or *(b)* of this paragraph). An accrual method of accounting to which the preceding sen-

tence applies shall consist of any method of accounting under which the income is accrued when, and costs are accumulated until, the subject matter of the contract (or, if the subject matter of the contract consists of more than one item, an item) is shipped, delivered, or accepted.

(4) *Installment method.* The financial reporting requirement of subparagraph (1)(ii)*(a)* or *(b)* of this paragraph shall not be construed to prevent the use of the installment method under section 453. See §1.446-1(c)(1)(ii).

* * * * *

Par. 5. Section 1.471-10 is revised to read as follows:

§1.471-10. Applicability of long-term contract methods.

See §1.451-3 for rules providing for the application of the long-term contract methods to certain manufacturing contracts.

Par. 6. Paragraph (c) of §1.471-11 is amended by revising paragraph (c)(1) and (3) to read as follows:

§1.471-11 Inventories of Manufacturers.

* * * * *

(c) *Certain indirect and production costs*—(1) *General rule.* Except as provided in paragraph (c)(3) of this section and in paragraph (d)(6)(v) of §1.451-3, in order to determine whether indirect production costs referred to in paragraph (b) of this section must be included in a taxpayer's computation of the amount of inventoriable costs, three categories of costs have been provided in subparagraph (2) of this paragraph. Costs described in subparagraph (2)(i) of this paragraph must be included in the taxpayer's computation of the amount of inventoriable costs, regardless of their treatment by the taxpayer in his financial reports. Costs described in subparagraph (2)(ii) of this paragraph need not enter into the taxpayer's computation of the amount of inventoriable costs, regardless of their treatment by the taxpayer in his financial reports. Costs described in subparagraph (2)(iii) of this paragraph must be included in or excluded from the taxpayer's computation of the amount of inventoriable costs in accordance with the treatment of such costs by the taxpayer in his financial reports and generally accepted accounting principles. For the treatment of indirect production costs described in subparagraph (2) of this paragraph in the case of a taxpayer who is not using comparable methods of accounting for such costs for tax and financial reporting see paragraph (c)(3) of this section. For contracts entered into after December 31, 1982, notwithstanding this section, taxpayers who use an inventory method of accounting for extended period long-term contracts (as defined in paragraph (b)(3) of §1.451-3) for tax purposes may be required to use the cost allocation rules provided in paragraph (d)(6) of §1.451-3 rather than the cost allocation rules provided in this section. See paragraph (d)(6)(v) of §1.451-3. After a taxpayer has determined which costs must be treated as indirect production costs includible in the computation of the amount of inventoriable costs, such costs must be allocated to a taxpayer's ending inventory in a manner prescribed by paragraph (d) of this section.

* * * * *

(3) *Exception.* Except as provided in paragraph (d)(6) of §1.451-3, in the case of a taxpayer whose method of accounting for production costs in his financial reports is not comparable to his method of accounting for such costs for tax purposes (such as a taxpayer using the prime cost method for purposes of financial reports), the following rules apply:

* * * * *

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved December 20, 1985.

Ronald A. Pearlman,
Assistant Secretary of the Treasury.

(Filed by the Office of the Federal Register on December 30, 1985, 3:12 p.m., and published in the issue of the Federal Register for January 6, 1986, 541 F.R. 376).

Section 471.—General Rule for Inventories

26 CFR 1.471-11: Inventories of manufacturers.

Accounting for long-term contracts. See T.D. 8067, page 5.

Section 1274.—Determination of Issue Price in the Case of Certain Debt Instruments Issued for Property.

For below-market demand loans of a fixed principal amount that remains outstanding for the entire calendar year, foregone interest for purposes of section 7872 of the Code is equal to the excess of 9.24 percent of the outstanding principal over any interest payable on the loan properly allocable to 1985. See Rev. Rul. 86-17, page 26.

Section 4121.—Imposition of Tax

26 CFR 48.4121-1: Imposition and rate of tax on coal.
(Also Section 4216; 48.4216(a)-2.)

Coal; sale price determination; freeze conditioning additive. In computing the taxable sale price of coal for purposes of the tax imposed by section 4121 of the Code, a charge for the application of a freeze conditioning additive to the coal is includible.

Rev. Rul. 86-16

ISSUE

In the situation described below, if a coal producer charges a coal purchaser for the application of a freeze conditioning additive to the coal before delivery, is the charge includible in the taxable sale price for purposes of the tax imposed by section 4121 of the Internal Revenue Code?

FACTS

X, a producer of coal, agrees to sell cleaned coal to *Y* f.o.b. *X*'s cleaning plant. Under the terms of the contract, *Y* may request that *X*, for an additional charge per ton, apply to the coal a freeze conditioning additive. Under the agreement, the failure of *X* to add the additive does not cause the coal to become rejectable by *Y*.

Application of the freeze conditioning additive is helpful to *Y* during sustained periods of low temperatures. Since the additive is glycol based, its application to the coal modifies the formation of ice crystals, and thus prevents the coal from sticking together. If the additive were not applied during cold weather, the coal would not unload easily from the bottom of the railroad cars at *Y*'s unloading facility, and more expensive methods would have to be used by *Y* to remove the coal. The additive is applied by *X* as the cleaned coal goes into silos for loading into railroad carts at *X*'s cleaning plant.

LAW AND ANALYSIS

Section 4121(a) of the Code imposes a tax on the producer's sale of coal at the rate of 50 cents per ton for coal from underground mines and 25 cents per ton for coal from surface mines, but in each case section 4121(b) limits the tax to 2 percent of the sale price per ton. Section 4121(e) provides for a temporary increase of the rates for coal sold after December 31, 1981, to one dollar for coal from underground mines and 50 cents for coal from surface mines, with a limit of 4 percent of the sale price per ton.

Section 48.4121-1(d)(4) of the Manufacturers and Retailers Excise Tax Regulations provides that, for purposes of determining both the amount of coal sold by a producer and the sales price of the coal, the point of sale is f.o.b. mine, or f.o.b. cleaning point if the producer cleans the coal before selling it.

Section 4216(a) of the Code provides that in determining, for purposes of section 4121, the price for which an article is sold, there shall be included any charge for coverings and containers of whatever nature, and any charge incident to placing the article in condition packed ready for shipment, but there shall be excluded the amount of tax imposed by section 4121, whether or not stated as a separate charge. A transportation, delivery, insurance, installation, or other charge (not required by the foregoing sentence to be included) shall be excluded from the price only if the amount is established to the satisfaction of the Secretary in accordance with the regulations.

X cleans the coal before delivery. Thus, under section 48.4121-1(d)(4) of the regulations, the tax base for the coal sold is f.o.b. *X*'s cleaning plant. The tax is computed under section 4121(a) of the Code at 50 cents or one dollar per ton (according to whether the coal is from a surface mine or an underground mine), but the tax is limited to no more than four percent of the per ton price charged by *X*.

In this case, *X* sells coal to *Y* at one of two prices: a regular price per ton of coal, and a higher price that includes the per ton charge for the additive when *Y* elects to have *X* apply the freeze conditioning additive. The question is whether, for the purpose of the limitation under section 4121(b), the per ton price includes the charge for the additive. The answer to this question is determined by whether, pursuant to section 4216(a), the charge is excludible as a delivery charge and, if not, whether it is includible as a charge incident to placing the coal in condition ready for shipment.

The freeze conditioning additive is applied before the coal is loaded into railroad cars for transportation to *Y*'s facility. Section 4216(a) of the Code excludes charges for the actual transportation of a completed product to the customer's premises. Section 48.4216(a)-2(b)(1) of the regulations provides that the charges excluded by section 4216(a) "include all items of transportation, delivery, insurance, installation, and similar expense incurred *after shipment to a customer begins*, in response to the customer's order pursuant to a bona fide sale." (Emphasis added.) On the other hand, section 48.4216(a)-2(b)(3) of the regulations provides: "All expenses incurred in placing an article packed, ready for shipment on the loading dock at the manufacturer's factory are not excludible transportation or delivery expenses." The closest analogy to this in the coal industry is the placing of the coal in silos ready for loading onto railroad cars. Thus, a charge for treating coal prior to the loading of the coal onto railroad cars for transportation to the customer's premises is not a transportation or delivery charge, even though the treatment is intended to facilitate the delivery of the coal.

Furthermore, section 4216(a) of the Code expressly includes in the taxable price any charge incident to placing an article in condition packed ready for shipment. Under section 48.4216(a)-(1)(d) of the regulations, this includes charges for any special parking services, such as for extra protection of the article. Accordingly, a charge for a treatment of the coal which is done before the coal is loaded onto the cars and which is part of the preparation of the coal for shipment is includible as a packing charge under section 4216(a).

HOLDING

In computing its taxable sale price for purposes of the tax imposed by section 4121 of the Code, *X* must include the charge for the application of the freeze conditioning additive to the coal.

Section 4216.—Definition of Price

26 CFR 48.4216(a)-2: Exclusions from sale price.

Whether a charge for the application of a freeze conditioning additive to coal before delivery is includible in the taxable sale price for purposes of the tax imposed on the sale of coal by section 4121 of the Code. See Rev. Rul. 86-16, page 24.

Section 4221.—Certain Tax-Free Sales

26 CFR 48.4221-1: Tax-free sales; general rule.

Whether an unregistered manufacturer may make a tax-free sale of an article for further manufacture. See Rev. Rul. 86-18, below.

Section 4222.—Registration

26 CFR 48.4222(a)-1: Registration.
(Also Sections 4221, 4223; 48.4221-1, 48.4223-1.)

Liability of unregistered manufacturer; sale for further manufacture. When a manufacturer that has not registered pursuant to section 4222(a) of the Code makes a sale for further manufacture pursuant to the tax-free sale provisions under section 4221(a)(1), the manufacturer remains liable for the manufacturers excise tax. The manufacturer's vendee does not become the statutory manufacturer of the article under section 4223(a) and may file for a refund or claim a credit for any tax paid on its resale of the article.

Rev. Rul. 86-18

ISSUE

Is a manufacturer of an article subject to manufacturers excise tax under chapter 32 of the Internal Revenue Code liable for tax in the situation described below?

FACTS

X, a manufacturer of an article subject to manufacturers excise tax under chapter 32 of the Code, sold the article for further manufacture without paying the tax thereon. *X* intended the sale to be tax-free pursuant to section 4221(a)(1) of the Code. All the requirements for a tax-free sale were met except that *X* was not registered with the Internal Revenue Service District Director as required by section 4222 and section 48.4222(a)-1 of the Manufacturers and Retailers Excise Tax Regulations. Although at the time of purchase *Y*, the purchaser, intended to use the article in further manufacture, *Y* instead resold the article and paid manufacturers excise tax on its sale pursuant to the provisions of section 4223.

LAW AND ANALYSIS

Section 4221(a)(1) of the Code provides that, under regulations prescribed by the Secretary or his delegate, no tax shall be imposed under Chapter 32 (other than the section 4121 tax on coal) on the sale by the manufacturer of an article for use by the purchaser for further manufacture, or for resale by the purchaser to a second purchaser for use by such second purchaser in further manufacture.

Section 4222(a) of the Code provides, with the exception of the transactions set forth in section 4222(b), which are not here pertinent, that section 4221 shall not apply with respect to the sale of any article unless the manufacturer, the first purchaser, and the second purchaser (if any) are all registered under this section. Registration must be made at such time, in such manner and form, and subject to such terms and conditions, as is prescribed by regulations.

Section 48.4222(a)-1(b) of the regulations provides that any person who is eligible to sell or purchase articles free of a tax imposed by chapter 342 and who has not registered in accordance with the provisions of the regulations shall, prior to making a tax-free sale or purchase, file Form 637, Certificate of Registry, in duplicate, executed in accordance with the instructions contained on the reverse of Form 637. This form shall be filed with the District Director of Internal Revenue for the district in which the principal place of business of the applicant is located (or if the applicant has no principal place of business in the United States, with the Internal Revenue Service Center, Philadelphia, Pennsylvania). The person who receives a validated Form 637 shall be considered to be registered for purposes of selling or purchasing articles tax free.

Section 48.4222(a)-1(d) of the regulations provides that if either the seller or purchaser is not registered as required by section 48.4222(a)-1, tax-free sales may not be made unless the sale is within one of the section 4222(b) exceptions.

Section 4223(a) of the Code provides that for purposes of chapter 32, a manufacturer or producer to whom an article is sold or resold free of tax under section 4221(a)(1) for use in further manufacture shall be treated as the manufacturer or producer of such article.

Under the facts described above, since *X*, the manufacturer, did not comply with the registration requirements prior to the sale of the article to *Y* for further manufacture, *X* is liable for tax on the sale of the article. Since registration must occur prior to sale of an article, registration after the sale will not relieve the manufacturer of liability for the tax. *Y* is not treated as the manufacturer or producer of the article under section 4223(a) of the Code and, therefore, is not liable for tax on its sale because the sale from the manufacturer to the vendee was not a tax-free sale. *Y*, having mistakenly paid tax under section 4223 on its sale of the article, may file for a refund or claim a credit pursuant to the provisions of sections 6401(c) and 6402(a) for the tax *Y* paid on the sale, provided the conditions to allowance set forth in section 6416(a) are met.

HOLDING

If a manufacturer who has not registered pursuant to section 4222(a) of the Code, makes a sale for further manufacture under section 4221(a)(1), the manufacturer remains liable for the manufacturers excise tax. The person to whom the article was sold for further manufacture does not become the statutory manufacturer or producer of the article under section 4223(a) because the unregistered manufacturer's sale to the person was not tax-free.

Section 4223.—Special Rules Relating to Further Manufacture

26 CFR 48.4223-1: Special rules relating to further manufacture.

Whether an unregistered manufacturer may make a tax-free sale of an article for further manufacture. See Rev. Rul. 86-18, page 25.

Section 7872.—Treatment of Loans with Below-Market Interest Rates

(Also Section 1274.)

Forgone interest determination. For purposes of section 7872(e)(2) of the Code, the applicable rate for purposes of determining "foregone interest" on certain below-market loans outstanding from January 1, 1985 to December 31, 1985 is 9.24 percent.

Rev. Rul. 86-17

Section 7872(a)(1) of the Internal Revenue Code provides that in the case of certain below-market loans, an amount known as the foregone interest shall be treated as transferred from the lender to the borrower, and retransferred by the borrower to the lender as interest.

In the case of a demand loan, section 7872(e)(1)(A) of the Code defines the term "below-market loan" to mean any demand loan in which interest is payable on the loan at a rate less than the applicable federal rate.

Section 7872(e)(2) of the Code defines the term "foregone interest" to mean, with respect to any period during a calendar year in which the loan is outstanding, the excess of (A) the amount of interest which would have been payable on the loan for the period if interest accrued on the loan at the applicable federal rate and was payable annually on the last day of such calendar year, over (B) any interest payable on the loan properly allocable to this period. For purposes of this revenue ruling the amount described in section 7872(e)(2)(A) is called the "section 7872(e)(2)(A) amount."

Section 1274(d) of the Code, as amended by section 101(b)(1) of the 1985 imputed interest simplification act (the Act), Pub. L. No. 99-121, 1985-48 I.R.B. 11, provides that the applicable federal short-term, mid-term, and long-term rates shall be determined each month. The applicable federal rates are relevant under several Code provisions, including sections 1274 and 483. These sections relate to certain transactions in which a debt instrument is issued in exchange for property and, when applicable, they generally provide the minimum interest rate that must be stated in the debt instrument in order to avoid having interest imputed for federal income tax purposes at a higher rate than the stated rate.

Prior to the amendment of section 1274(d) by section 101(b)(1) of the Act, the applicable federal rates were determined semiannually, and monthly determinations were computed under the alternate method provided by section 1.1274-6T of the Temporary Income Tax Regulations. The method prescribed by section 1274(d) as amended reflects this prior alternate method. Each month the Internal Revenue Service publishes a revenue ruling containing the applicable federal rates, including a short-term applicable rate based on semiannual compounding.

In the case of a below-market demand loan of a fixed principal amount that remains outstanding for the entire calendar year, the section 7872(e)(2)(A) amount equals the sum of: (1) The product of one-half of the January short-term rate based on semiannual compounding times the principal amount of the loan; and (2) the product of one-half of the July short-term rate based on semiannual compounding times the sum of the principal amount of the loan and the amount described in (1) above.

To allow easier computation of the section 7872(e)(2)(A) amount for loans described in the preceding paragraph, the Internal Revenue Service is publishing in this revenue ruling a "blended annual rate." For these loans, the section 7872(e)(20(A) amount can be computed by multiplying the blended annual rate by the fixed principal amount that remained outstanding for the entire calendar year.

To determine foregone interest on these loans from January 1 through December 31, 1985, the blended annual rate is 9.24 percent. This rate is derived from: (1) The January 1985 short-term rate based on semiannual compounding (9.56 percent), as set forth in Rev. Rul. 85-21, 1985-1 C.B. 286; and (2) the July 1985 short-term rate based on semiannual compounding (8.51 percent), as set forth in Rev. Rul. 85-91, 1985-26 I.R.B. 4.

Therefore, for the period January 1, 1985, through December 31, 1985, in the case of a below-market demand loan of a fixed principal amount that remains outstanding for the entire calendar year, foregone interest for purposes of section 7872 of the Code is equal to the excess of 9.24 percent of the outstanding principal over any interest payable on the loan properly allocable to 1985.

In the future the blended annual rate will be published annually with the applicable federal short-term, mid-term and long-term rates for the month of July.

26 CFR 601.602: Forms and instructions.
(Also Part I, Section 4997; 51.4997-2.)

Rev. Proc. 86-7

PART A—GENERAL

SECTION 1. PURPOSE AND NATURE OF CHANGES

The purpose of this revenue procedure is to update Rev. Proc. 84-81, 1984-2 C.B. 759, concerning the requirements and conditions for filing annual information returns for windfall profit tax on magnetic tape instead of on paper returns. Specifications for filing Form 6248, Annual Information Return of Windfall Profit Tax, are contained in this procedure. For tax year 1985 the following changes have been included in this revenue procedure:

.01 In Part A, Sec. 2, a paragraph has been added to request inclusion of your assigned transmitter control code on any correspondence to the magnetic media coordinator.

.02 Part A, Sec. 10 has been revised to show transfer of magnetic media processing from all service centers to the Internal Revenue Service National Computer Center in Martinsburg, WV, effective JANUARY 1, 1986. References to service center filing and magnetic media coordinators at the service centers have been corrected throughout.

.03 In Part B, Sec. 5, a new paragraph, .03, has been added as follows: "A separate 'G' Record is required for each type of return, e.g., original, corrected, etc."

.04 Part B, Sec. 6, paragraph .01 has been revised to clarify how fields in the Producer/Recipient "H" Record are to be filled.

.05 All requests for ZIP Code information now call for nine digits. Affected records, from Part B, are the Filer/Transmitter "G" Record, positions 118-126 and 284-292; and the Producer/Recipient "H" Record, positions 340-348. If you do not have the nine digit ZIP Code, LEFT JUSTIFY the five digit ZIP Code and fill the remaining four positions with ZEROS. Part B, Sec. 4 has been amended to show that the table provides state abbreviations and ZIP Code ranges.

.06 In Part B, Sec. 6, for the description of Producer ZIP Code in positions 340-348 of the Producer/Recipient "H" Record, a sentence has been added to emphasize the importance of entering the Producer's ZIP Code in this field.

.07 In Part B, Sec. 6, for the description of Number of Barrels of Sadlerochit Oil Removed 70% Rate in positions 725-736 of the Producer/Recipient "H" Record, a final sentence has been added as follows: "Enter in whole barrels, right justified and zero filled."

.08 In Part B, Sec. 7, for the description of Number of 6248s for this Filer in positions 2-7 of the End of Filer "I" Record, a sentence has been added as follows: "This field must be numerically unsigned."

.09 In Part B, Secs. 8 and 9, paragraphs .05 have been added to indicate that all fields in the End of Reel "J" Record, and End of Transmission "K" Record must be numerically unsigned.

.10 There are various editorial changes.

SEC. 2. APPLICATION FOR MAGNETIC MEDIA REPORTING

.01 For the purpose of this revenue procedure only, the first purchasers, filers, and payers are equivalent to each other, and are considered to be the person making the payments. The producer, recipient, or payee is the receiver of the payments. The transmitter is the organization preparing the tape file. Payers or transmitters who decide to file information returns on magnetic tape must complete Form 4419, Application for Magnetic Media Reporting of Information Returns. Instructions for completing the application appear on the reverse side of the form.

.02 The Internal Revenue Service will act on an application and notify the applicant of authorization to file within 30 days of receipt of the application. No magnetic tape returns may be filed with the Service until authorization to file is received.

.03 The Service will assist new filers with their initial magnetic tape submission by reviewing test tapes in advance of the filing season. Approved payers or transmitters who wish to submit test tapes should contact the magnetic media coordinator at the National Computer Center. See Part A, Sec. 10, for the correct address.

.04 Once authorization to file on magnetic tape has been granted to a payer or transmitter, it will remain in effect in succeeding years, provided that all the requirements of this revenue procedure are met and there are no equipment changes by the filer. If a filer discontinues filing on magnetic tape, a new application must be filed before this method of filing may be resumed.

.05 Upon receiving approval to file on magnetic tape, each transmitter will be assigned a unique five character Transmitter Control Code (TCC). This code should be included on any correspondence to the magnetic media coordinator.

SEC. 3. FILING OF TAPE REPORT

.01 A magnetic tape reporting package, which includes all the necessary transmittals, labels, and instructions, will be mailed to all approved filers between October and December of each year.

.02 Payers may submit a portion of their information returns on magnetic tape and the remainder on paper forms provided there is no duplicate filing. A Form 6248-T, Summary and Transmittal of Windfall Profit Tax, must accompany paper submissions and Form 4804, Transmittal of Information Returns Reported on Magnetic Media, must accompany magnetic tape submissions. See Part A, Sec. 10, for information on where to file.

.03 The affidavit which appears on Form 6248-T and Form 4804 must be signed by the payer. However, one of the following, the transmitter, service bureau, or disbursing agent may sign the affidavit on behalf of the payer if three conditions are met. The conditions are that the agent must:

1. have the authority to sign the affidavit under an agency agreement (either oral, written, or implied) that is valid under state law;
2. have the responsibility (either oral, written or implied) conferred on it by the payer to request the taxpayer identification numbers of payees reported on magnetic tape or paper returns; and
3. sign the affidavit and add the cap-

tion "For: (name of payer)".

.04 Although a duly authorized agent signs the affidavit, the payer is held responsible for the accuracy of the Form 4804 and will be liable for penalties for failure to comply with filing requirements.

.05 The preceding requirements also apply to paper filers submitting Form 6248-T. The failure of duly authorized agents of paper filers to comply with filing requirements for Form 6248-T and attachments does not relieve the payers of any penalties that may arise as a result of such failure to comply.

.06 If a portion of the returns is submitted on paper documents, include a statement on the Form 6248-T that the remaining returns are being filed on magnetic tapes. Please note that Form 6248-T instructions normally apply to filing of information returns on paper; however, filers of magnetic tape must review the Form 6248-T instructions and file Form 6248-T if appropriate.

SEC. 4. FILING DATES

.01 Magnetic tape reporting to IRS for Forms 6248 is on a calendar year basis.

.02 The dates prescribed for filing paper returns with the Service will also apply to magnetic tape filing. Tapes must be submitted to the Internal Revenue Service National Computer Center in Martinsburg, WV, by April 30. Copies required to be furnished to the producer or other recipients must be furnished by March 31.

SEC. 5. EXTENSIONS OF TIME TO FILE

.01 If a payer or transmitter is unable to submit the tape file by the April 30 due date, a letter requesting an extension must be filed before April 30. The letter should be sent to the attention of the magnetic media coordinator at the Internal Revenue Service National Computer Center in Martinsburg, WV. The request should include the estimated number of returns which will be filed late, the reason for the delay, and the date by which the returns will be filed.

.02 If an extension is granted by the Service, a copy of the letter granting the extension must be attached to the transmittal Form 4804 when the file is submitted.

SEC. 6. PROCESSING OF TAPE RETURNS

.01 The Service will process tax information from the tapes. Tapes which are timely received by the Service will be returned to the filer within six months of receipt.

.02 All tapes submitted must conform totally to this revenue procedure. If tapes are unprocessable, they will be returned to the filer for correction. Unprocessable tapes must be corrected and returned to the National Computer Center within 45 days of receipt by the filer. Corrected files will be returned by the Service within six months of receipt.

SEC. 7. CORRECTED RETURNS, SUBSTITUTE FORMS AND COMPUTER-GENERATED FORMS

.01 If returns must be corrected or amended, approved magnetic media filers should make every attempt to provide such corrections on tape. The filer must contact the magnetic media coordinator for format and shipping instructions. A corrected Form 4804 must accompany the shipment and be marked "Magnetic Media Correction" on the top margin of the form. Corrected or amended Form 6248 data must be filed in accordance with Rev. Proc. 83-86, 1983-2 C.B. 604.

.02 If corrections are not submitted on tape, payers must submit them on official Forms 6248 (Copy A). Substitute forms that have been previously approved by the Service, or computer-generated forms that are exact facsimilies of the official form (except for minor page size or print style deviations), may be submitted without reobtaining IRS approval before using the form. In all other cases, Service approval must be obtained before a substitute or computer-generated form can be used. Publication 1167, containing specifications for paper returns, is available from most Service offices.

.03 Requests for approval of computer-generated or substitute forms should be sent to the following address with a copy of the proposed form:

Internal Revenue Service
Attn: Substitute Forms Program
Room 7033 D:R:R:I
1111 Constitution Avenue N.W.
Washington, D.C. 20224

.04 Form 6248 instructions are to be followed when paper returns are filed to correct returns submitted on magnetic media. The caption "Magnetic Media Correction" must appear on the top right corner of the form. PAPER CORRECTIONS WILL BE SENT TO THE APPROPRIATE SERVICE CENTER, as prescribed in the instructions for Form 6248-T.

SEC. 8. TAXPAYER IDENTIFICATION NUMBERS

.01 Under Section 6109 of the Internal Revenue Code, recipients of income are required to furnish taxpayer identification numbers (TINs) to the payer whether or not the payee is required to file a tax return.

.02 Payers are expected to keep to a minimum those statements submitted without TINs. It is particularly important that correct social security and employer identification numbers for payees be provided on magnetic media or paper forms submitted to the Service.

.03 For each omission of a required TIN, Section 6676 of the Internal Revenue Code imposes a $50 penalty, unless the payer or payee responsible for furnishing the number establishes reasonable cause for not having done so.

.04 The TIN to be furnished depends primarily upon the manner in which the account is maintained or set up on the record of the payer. The number to be provided must be that of the owner of record. If the account is recorded in more than one name, furnish the TIN and name of one of the holders of record. For those engaged in a trade or business (including employee trusts, retirement systems, etc.) the TIN is the employer identification number (EIN), without hyphens. For individuals, it is a social security number (SSN), without hyphens.

.05 Sole proprietors who are payers should show their employer identification number and/or their social security number in the Filer/Transmitter "G" Record. The tables provided in Part A, Sec. 8.06 will help to determine the number to be furnished to the Service.

.06 Any person required to file an information return that is based, in whole or in part, upon information received from another person MUST include the taxpayer identification number of that person on the return. The tables provided in Part A, Sec. 8.06, will determine the number to be furnished to the Service.

Table 1. Guidelines for Social Security Numbers

If the producer/ recipient is:	In tape positions 2-10 of the Producer/ Recipient "H" Record, enter the SSN of:	In tape positions 20-339 of the Producer/ Recipient "H" Record, enter the name of:
1. An individual	The individual	The individual
2. A joint account of two or more individuals, a husband and wife or adult and minor	The actual or principal owner of the account	The individual whose SSN is entered
3. An account in the name of the guardian or committee for a designated ward, minor, or incompetent person	The ward, minor, or incompetent person	The individual whose SSN is entered
4. A custodian of a minor (Uniform Gifts to Minors Act)	The minor	The minor
5. a. The usual revocable savings trust account (grantor is also trustee)	The grantor-trustee	The grantor-trustee
b. So-called trust account that is not a legal or valid trust under State Law	The actual owner	The actual owner
6. A sole proprietor	The owner	The owner
7. A grantor trust described in section 1.671-4(b) of the Income Tax Regulations	The grantor	The grantor

Table 2. Guidelines for Employer Identification Numbers

If the producer/ recipient is:	In tape positions 11-19 of the Producer/ Recipient "H" Record, enter the EIN of:	In tape positions 20-339 of the Producer/ Recipient "H" Record, enter the name of:
1. A valid trust, estate or pension trust	Legal entity (Do not furnish the identification number of the personal representative or trustee unless the legal entity itself is designated in the account title)	The legal trust, estate or pension trust
2. A corporation	The corporation	The corporation
3. A religious, charitable or educational organization	The organization	The organization
4. A partnership held in the name of the business	The partnership	The partnership
5. An association, club, or other tax-exempt organization	The organization	The organization
6. A broker or registered nominee	The broker or nominee	The broker or nominee
7. An account with the Department of Agriculture in the name of a public entity (such as a state or local government, school district or prison that receives agriculture program payments)	The public entity	The public entity

SEC. 9. EFFECT ON PAPER RETURNS

.01 Magnetic tape reporting of the information return listed in Part A, Sec. 1 applies only to the original (Copy A).

.02 Payers are permitted considerable flexibility in designing the copy of the information return to be furnished to the payee. The payer may combine the information return data with other reports or financial or commercial notices, or expand them to include other information. This is permissible so long as all required information present on the official form is included and that payees' copies are conducive to proper reporting of income on tax returns.

Payers must include the message "This information is being furnished on Form 6248 to the Internal Revenue Service" on the recipients' copies.

.03 If a portion of the returns is reported on magnetic tape and the remainder is reported on paper forms, those returns not submitted on magnetic tape must be filed on official Forms 6248.

SEC. 10. ADDITIONAL INFORMATION

.01 Beginning January 1, 1986, magnetic media processing for all service centers will be centralized at the Internal Revenue Service National Computer Center in Martinsburg, WV. Functions previously performed by the magnetic media coordinators at the service centers will be performed at the National Computer Center.

.02 All magnetic media files forwarded on or after January 1, 1986, (including current reporting, corrected records and test tapes) are to be submitted to the National Computer Center at the address shown below. In addition, all correspondence or contacts regarding magnetic media related forms, publications, information, applications for reporting on magnetic media, and requests for extensions of time to file will be directed to:

Magnetic Media Reporting
Internal Revenue Service
National Computer Center
P.O. Box 1359
Martinsburg, WV 25401-1359

.03 Only MAGNETIC MEDIA reporting is to be submitted to the National Computer Center. ALL PAPER FORMS WILL CONTINUE TO BE SENT TO THE APPROPRIATE INTERNAL REVENUE SERVICE CENTER, AS PRESCRIBED IN THE INSTRUCTIONS FOR FORM 6248-T.

PART B.—MAGNETIC TAPE SPECIFICATIONS

SECTION 1. GENERAL

.01 The magnetic tape specifications contained in this part prescribe the required format and contents of the records to be included in the file. THESE SPECIFICATIONS MUST BE ADHERED TO UNLESS DEVIATIONS HAVE BEEN SPECIFICALLY GRANTED BY THE SERVICE IN WRITING.

.02 In most instances, the Service will be able to process tape files that meet any one set of the following specifications:

(a) 9 track EBCDIC (Extended Binary Coded Decimal Interchange Code) with

(1) Odd Parity and

(2) A density of 800, 1600, or 6250 BPI

(b) 9 track ASCII (American Standard Coded Information Interchange) with

(1) Odd Parity and

(2) A density of 800, 1600, or 6250 BPI

(c) 7 track BCD (Binary Coded Decimal) with

(1) Either Even or Odd Parity and

(2) A density of 556 or 800 BPI

.03 All tape files must have the following characteristics:

(a) Type of tape—1/2 inch Mylar base, oxide coated; and

(b) Interrecord Gap

(1) .75 inch for 556 or 800 BPI density 7 track

(2) .6 inch for 800 or 1600 BPI density 9 track

(3) .3 inch for 6250 BPI density 9 track

.04 Service programs are capable of accommodating some minor deviations. Filers who can substantially conform to these specifications, but do require some minor deviations, must contact the magnetic media coordinator at the INTERNAL REVENUE SERVICE National Computer Center in Martinsburg, WV. UNDER NO CIRCUMSTANCES MAY TAPES DEVIATING FROM THE SPECIFICATIONS IN THIS REVENUE PROCEDURE BE SUBMITTED WITHOUT PRIOR WRITTEN APPROVAL FROM THE SERVICE.

SEC. 2. RECORD LENGTH

.01 The tape records prescribed in these specifications may be blocked or unblocked, subject to the following:

(a) A block must not exceed 14,500 tape positions.

(b) If the use of blocked records would result in a short block, all remaining positions of the block must be filled with 9s. Do not pad a block with blanks.

(c) All records except the Header and Trailer Labels, may be blocked.

.02 All records, other than Header and Trailer records, must be 1450 characters long.

SEC. 3. OPTIONS FOR FILING

.01 For filing convenience, this procedure contains two options for using Header Labels and Filer/Transmitter "G" Records. For purposes of this procedure the following conventions must be used:

Header Label:

1. Payers may use standard headers; however, they must begin with 1HDR, HDR1, HDR2, VOL1 or VOL2.

2. Consist of either 80 or 120 positions each.

Trailer Label:

1. Standard trailer labels may be used; however, they must begin with 1EOR, 1EOF, EOR1, or EOF1.

2. Consist of either 80 or 120 positions each.

Record Mark:

1. Special character used to separate blocked records on tape.

2. Can be written only at the end of a record or block.

3. For odd parity tapes, use BCD bit configuration 011010 ("A82").

Tape Mark:

1. Used to signify the physical end of the recording on tape.

2. Must be even parity, BCD configuration 001111 ("8421").

3. May follow the header label(s) and precede and/or follow the trailer label(s).

Option 1: When using this option, a correct Filer/Transmitter "G" Record, described in Part B, Sec. 5 is to be the first record on each reel. Filers using this option may have Header Labels preceding the "G" Record; however, headers are not required. The reel sequence number must appear in positions 3-5 of each "G" Record and must be incremented by 1 on each tape reel of the file after the first reel.

Option 2: Requires a Header Label as the first record on each reel. The Header Label must contain the reel sequence number and it must be incremented by 1 on each reel. The "G" Record will contain the location of the reel sequence number in the Header Label. If your system generates a four digit reel sequence number, ignore the first digit when determining the location of the reel sequence in the "G"

Record.

Example 1: If your Header Label reel sequence is four digits (e.g., 0001) and is in positions 28-31, enter 29 as the location in positions 3 and 4 of the "G" Record and also enter an "X" in position 5 of the "G" Record.

Example 2: If your Header Label reel sequence number is 3 digits (e.g., 001) and is in positions 10-12, enter 10 as the location in positions 3 and 4 of the "G" Record. This option requires a Trailer Label at the end of each reel. Also, ignore the "J" Record instructions in this part if you use option 2.

SEC. 4. STANDARD STATE ABBREVIATIONS AND ZIP CODE RANGES

The following table gives the list of valid state abbreviations and ZIP Code ranges to be used in the "G" and (in the case of ZIP Codes) "H" records. Although the ZIP Code ranges are provided in the five digit format, the actual ZIP Codes should be in the nine digit format. The valid abbreviations for the U.S. territories American Samoa, Guam, Puerto Rico and the Virgin Islands are also included. If the producer lives in a foreign country, then a period followed by a blank (".ƀ") should be entered in the two position state field and blanks should be entered for ZIP Code. The table lists the only valid data entries for state information.

Table 3. STATE ABBREVIATIONS and ZIP CODE RANGES

Alabama	AL	350nn-369nn	Montana	MT	590nn-599nn
Alaska	AK	995nn-999nn	Nebraska	NE	680nn-693nn
American Samoa	AS	(Blank)	Nevada	NV	890nn-898nn
Arizona	AZ	850nn-865nn	New Hampshire	NH	030nn-038nn, 04037
Arkansas	AR	716nn-729nn, 75501	New Jersey	NJ	070nn-089nn

FOOTNOTES: "n" denotes any numeric digit; "ƀ" denotes a blank

SEC. 5. FILER/TRANSMITTER "G" RECORD

.01 This record identifies the filer and the transmitter of the tape file and provides parameters for the processing of the succeeding records. Internal Revenue Service computer programs rely on the parameters supplied in this record in the processing of the tape file.

.02 The number of "G" Records appearing on a tape reel will depend on the number of filers for whom data is present. A transmitter may include Producer/Recipient "H" Records for more than one filer on a tape reel, however, each series of separate Producer/Recipient "H" Record(s) must be preceded by a "G" Record. All "G" Records must be 1,450 characters in length.

.03 A separate "G" Record is required for each type of return, e.g., original, corrected, etc.

RECORD NAME: FILER/TRANSMITTER "G" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Enter "G".
2	Filing Year	1	Must be the rightmost digit of the year for which WPT data is being reported (e.g., if data is for 1985 enter a 5). This number must be incremented each year.
3-5	Reel Sequence Number	3	Sequential number of the reel within the tape file upon which this record appears (see explanation of Option 1 and Option 2 filing). Position 5 must contain an X if you are using option 2.
6-9	"G" Record Length	4	Enter 1450.
10-13	"H" Record Length	4	Enter 1450.
14-17	"I" Record Length	4	Enter 1450
18	Type of Account Filer's TIN	1	This field is used to identify the data in tape positions 19-27 as either an EIN (employer identification number) or an SSN (social security number). Use one of the following codes as appropriate. 0 Use the digit 0 if the number provided is an SSN. 1 Use the digit 1 if the number provided is an EIN. 2 Use the digit 2 if it is not known if the number provided is an SSN or EIN. 3 Use the digit 3 if no number is provided (positions 19-27 should be blank filled in this case).
19-27	Filer's Taxpayer Identification Number	9	Enter the taxpayer identification number of the filer (SSN or EIN as appropriate). If no TIN is provided leave blank.
28-67	Filer's Name	40	Enter the name of the filer as used in normal business. Abbreviate any extraneous data other than the name as necessary. Left justify and blank fill.
68-102	Filer's Street Address	35	Enter the street address of the filer. Left justify and blank fill.
103-115	Filer's City	13	Enter the city of the filer. Left justify and blank fill.
116-117	Filer's State	2	Enter the two digit abbreviation of the filer's state. (See Table of Valid State Abbreviations in Part B, Sec. 4.)
118-126	Filer's ZIP	9	Enter the nine digit ZIP Code of the filer. If ZIP Code of the filer is not known this field must be blank. If you do not have the nine digit ZIP Code, LEFT JUSTIFY the five digit ZIP Code and fill the remaining four positions with ZEROS. (See also the ZIP Code ranges by State in the Table in Part B, Sec. 4.)
127	Type of Filing Indicator	1	Enter a zero ("0") if the documents being filed are original returns. Enter "1" if the documents are corrected returns (adjustments to previously supplied returns). Enter "2" if the documents are "Corrected Suspense Accounts" (proceeds are released from suspense). Enter "3" if the documents are "Suspense Accounts" (proceeds being held in suspense).

RECORD NAME: FILER/TRANSMITTER "G" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
128-178	Reserved	51	Reserved for Service use. Enter blanks.
179-183	Transmitter Control Code	5	Enter the 5 digit transmitter control code assigned by the Service.
184	Transmitter Code	1	If the filer of these Forms 6248 and the transmitter are the same, enter the digit "0" in this location and blank fill the rest of the record.. If they are not the same, enter the digit "1" and supply the information indicated for the remainder of the record.
185-193	Reserved	9	Reserved for Service use. Blank fill.
194-233	Transmitter's Name[1]	40	Enter the name of the transmitter. Left justify and blank fill.
234-268	Transmitter's Street Address[1]	35	Enter the street address of the transmitter. Left justify and blank fill.
269-281	Transmitter's City[1]	13	Enter city of transmitter. Left justify and blank fill.
282-283	Transmitter's State[1]	2	Enter abbreviation of state of transmitter.
284-292	Transmitter's ZIP Code[1]	9	Enter the nine digit ZIP Code of transmitter. If you do not have the nine digit ZIP Code, LEFT JUSTIFY the five digit ZIP Code and fill the remaining four positions with ZEROS.
293-1450	Reserved	1158	Reserved for Service use. Blank fill.

[1] If file is being transmitted by filer, then the Transmitter Name, Street Address, City, State and Zip Code can be blank filled.

SEC. 6. PRODUCER/RECIPIENT "H" RECORD

.01 This record is used to provide the information contained in Parts I, II, III, IV, and V of Form 6248. All "H" Records must be of the same fixed length. Records may be blocked or unblocked. A block may not exceed 14,500 positions. Do not pad unused blocks with blank records, fill with 9s. Zero fill any barrel or liability field for which data is not present. Right justify and zero fill any barrel or liability field for which data is present. Blank fill any other field for which data is not present.

.02 Each field must contain data (dollars, barrels, etc.) covering only the interest of the producer/recipient for whom the Form 6248 is prepared.

.03 All amount fields in this section should be expressed in whole dollars without decimals. All quantities of oil should be expressed in whole barrels without decimals or fractions.

.04 Amount fields and barrel fields may be signed or unsigned. Unsigned fields will always be considered positive. If signed decimal data is used, the rightmost (units) position of the field must be used to carry the sign of the field (negative or positive) as an overpunch character. This is the *only* format permissible for the entry of signed decimal data. If your computer system cannot conform to this standard, or if you have any questions about entering data in this format, please contact the magnetic media coordinator at the National Computer Center.

.05 All "H" Records must be 1450 characters long.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Enter "H".
2-10	Producer's SSN	9	Enter social security number of Producer, without hyphens, if available. Otherwise, blank fill.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
11-19	Producer's EIN	9	Enter employer identification number of Producer, without hyphens, if available. Otherwise, blank fill.
NOTE:	The following 8 fields are for the Producer Name/Address information. If your name/address fields contain less than 40 characters, do not pack information from more than one of your name/address fields into any one of the following name/address fields. If your name/address fields are longer than 40 characters each, contact the magnetic media coordinator at the National Computer Center for instructions on entering the data. You are encouraged to use the 2 character state abbreviations. Valid characters for these name lines are: Alphabetic, Numeric, Blanks, "&", "-", "/", "%", commas, and periods.		
20-59	Producer's 1st Name/Address Line	40	Enter data from your first Name/Address field for this Producer.
60-99	Producer's 2nd Name/Address Line	40	Enter data from your second Name/Address field for this Producer.
100-139	Producer's 3rd Name/Address Line	40	Enter data from your third Name/Address field for this Producer. If no data is present, enter blanks.
140-179	Producer's 4th Name/Address Line	40	Enter data from your fourth Name/Address field for this producer. If no data is present, enter blanks.
180-219	Producer's 5th Name/Address Line	40	Enter data from your fifth Name/Address field for this Producer. If no data is present, enter blanks.
220-259	Producer's 6th Name/Address Line	40	Enter data from your sixth Name/Address field for this Producer. If no data is present, enter blanks.
260-299	Producer's 7th Name/Address Line	40	Enter data from your seventh Name/Address field for this Producer. If no data is present, enter blanks.
300-339	Producer's 8th Name/Address Line	40	Enter data from your eighth Name/Address field for this Producer. If no data is present, enter blanks.
340-348	Producer ZIP Code	9	Enter the nine digit ZIP Code of the Producer. If you do not have the nine digit ZIP Code LEFT JUSTIFY the five digit ZIP Code and fill the remaining four positions with ZEROS. (See Part B, Sec. 4). THE PRODUCER/RECIPIENT ZIP CODE MUST BE ENTERED HERE EVEN IF YOU PROVIDED IT IN ONE OF THE ABOVE NAME/ADDRESS LINES.
349-351	Type of Producer	3	Use up to 3 of the codes below to indicate the Type of Producer. YOU MUST USE AT LEAST ONE OF THE CODES. LEFT JUSTIFY AND BLANK FILL. *Type of Producer* — *Code* (Unable to determine) — 0 Individual — 1 Partnership — 2 Corporation — 3 Estate — 4 Trust — 5 US Citizen or Entity, or Resident Alien — 6 Resident of US Possession — 7 Foreign Citizen or Non-Resident Alien — 8
352-354	Producer Status	3	Use up to 3 of the following codes to indicate the status of the producer. YOU MUST USE AT LEAST ONE CODE. LEFT JUSTIFY AND BLANK FILL.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
			Producer Status *Code* (Unable to determine) 0 Independent Producer 1 Member of "related group" 2 Producer with no withholding 3 Royalty Owner 4 Integrated Oil Company 5 Operator 6 Working Interest 7 Trust Beneficiary 8
355-364	Exempt Tier One	10	Enter the number of barrels of Exempt Tier One Oil. Enter in whole barrels, right justified and zero filled.
365-374	Exempt Tier Two	10	Enter the number of barrels of Exempt Tier Two Oil (*not* to include Exempt Stripper Well Oil). Enter in whole barrels, right justified and zero filled.
375-384	Exempt Newly Discovered	10	Enter the number of barrels of Exempt Newly Discovered Oil. Enter in whole barrels, right justified and zero filled.
385-394	Exempt Incremental Tertiary	10	Enter the number of barrels of Exempt Incremental Tertiary Oil. Enter in whole barrels, right justified and zero filled.
395-404	Exempt Heavy	10	Enter the number of barrels of Exempt Heavy Oil. Enter in whole barrels, right justified and zero filled.
405-414	Total Exempt Barrels	10	Enter the total number of barrels of exempt oil. Enter in whole barrels, right justified and zero filled.
415-419	Type of Exempt Oil	5	Use up to 4 of the following codes to indicate the type of exempt oil. Left justify and blank fill. *Type of Exempt Oil* *Code* Qualified Governmental Interests 1 Qualified Charitable Interests 2 Exempt Indian Oil 3 Exempt Alaskan Oil 4
420-429	Qualified Royalty 1st Quarter	10	Enter the number of certified barrels of Qualified Royalty Owner Oil removed in the first calendar quarter. Enter in whole barrels, right justified and zero filled.
430-439	Qualified Royalty 2nd Quarter	10	Enter the number of certified barrels of Qualified Royalty Owner Oil removed in the second calendar quarter. Enter in whole barrels, right justified and zero filled.
440-449	Qualified Royalty 3rd Quarter	10	Enter the number of certified barrels of Qualified Royalty Owner Oil removed in the third calendar quarter. Enter in whole barrels, right justified and zero filled.
450-459	Qualified Royalty 4th Quarter	10	Enter the number of certified barrels of Qualified Royalty Owner Oil removed in the fourth calendar quarter. Enter in whole barrels, right justified and zero filled.
460-469	Total Qualified Royalty	10	Enter the total number of certified barrels of Qualified Royalty Owner Oil. Enter in whole barrels, right justified and zero filled.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
470-604	Reserved	135	Reserved for Service use. Blank fill.
605-616	Number of Barrels Other Oil Removed 70% Rate	12	Enter the number of taxable barrels of Tier One Oil other than Sadlerochit Oil, subject to the 70% tax rate, removed during the tax year. Enter in whole barrels, right justified and zero filled.
617-628	Exempt Stripper Well Oil	12	Enter the total number of barrels of Exempt Stripper Well Oil. Enter in whole barrels, right justified and zero filled.
629-652	Reserved	24	Reserved for Service use. Blank fill.
653-664	Tax Liability Other Oil Removed 70% Rate	12	Enter the tax liability for Tier One Oil other than Sadlerochit Oil, subject to the 70% tax rate, removed during the tax year. Enter in dollars only, right justified and zero filled.
665-676	Number of Barrels Other Oil Removed 50% Rate	12	Enter the number of taxable barrels of Tier One Oil other than Sadlerochit Oil, subject to the 50% tax rate, removed during the tax year. Enter in whole barrels, right justified and zero filled.
677-712	Reserved	36	Reserved for Service use. Blank fill.
713-724	Tax Liability Other Oil Removed 50% Rate	12	Enter the tax liability for Tier One Oil other than Sadlerochit Oil, subject to the 50% tax rate, removed during the tax year. Enter in dollars only, right justified and zero filled.
725-736	Number of Barrels Sadlerochit Oil Removed 70% Rate	12	Enter the number of taxable barrels of Tier One Sadlerochit Oil, subject to the 70% tax rate, removed during the tax year. Enter in whole barrels, right justified and zero filled.
737-772	Reserved	36	Reserved for Service use. Blank fill.
773-784	Tax Liability Sadlerochit Oil Removed 70% Rate	12	Enter the tax liability for Tier One Sadlerochit Oil, subject to the 70% tax rate, removed during the tax year. Enter in dollars only, right justified and zero filled.
785-796	Number of Barrels Sadlerochit Oil Removed 50% Rate	12	Enter the number of taxable barrels of Tier One Sadlerochit Oil, subject to the 50% tax rate, removed during the tax year. Enter in whole barrels, right justified and zero filled.
797-832	Reserved	36	Reserved for Service use. Blank fill.
833-844	Tax Liability Sadlerochit Oil Removed 50% Rate	12	Enter the tax liability for Tier One Sadlerochit Oil, subject to the 50% tax rate, removed during the tax year. Enter in dollars only, right justified and zero filled.
845-856	Number of Barrels Tier Two Oil 60% Rate	12	Enter the number of taxable barrels of Tier Two Oil subject to a 60% tax rate, removed this tax year. Enter in whole barrels, right justified and zero filled.
857-892	Reserved	36	Reserved for Service use. Blank fill.
893-904	Tax Liability Tier Two Oil 60% Rate	12	Enter the tax liability for the Tier Two Oil, subject to a 60% tax rate, removed this tax year. Enter in dollars only, right justified and zero filled.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
905-916	Number of Barrels Tier Two Oil 30% Rate	12	Enter the number of taxable barrels of Tier Two Oil, subject to a 30% tax rate, removed this tax year. Enter in whole barrels, right justified and zero filled.
917-952	Reserved	36	Reserved for Service use. Blank fill.
953-964	Tax Liability Tier Two Oil 30% Rate	12	Enter the tax liability for the Tier Two Oil, subject to a 30% tax rate, removed this tax year. Enter in dollars only, right justified and zero filled.
965-976	Number of Barrels Newly Discovered Oil 22 1/2% Rate	12	Enter the number of taxable barrels of Newly Discovered Oil, taxed at the 22 1/2% rate, removed this tax year. Enter in whole barrels, right justified and zero filled.
977-1012	Reserved	36	Reserved for Service use. Blank fill.
1013-1024	Tax Liability Newly Discovered Oil 22 1/2% Rate	12	Enter the tax liability for the Newly Discovered Oil, taxed at the 22 1/2% rate, removed this tax year. Enter in dollars only, right justified and zero filled.
1025-1036	Number of Barrels Incremental Oil 30% Rate	12	Enter the number of taxable barrels of Incremental Tertiary Oil, taxed at the 30% rate, removed this tax year. Enter in whole barrels, right justified and zero filled.
1037-1072	Reserved	36	Reserved for Service use. Blank fill.
1073-1084	Tax Liability Incremental Oil 30% Rate	12	Enter the tax liability for the Incremental Tertiary Oil, taxed at the 30% rate, removed this tax year. Enter in dollars only, right justified and zero filled.
1085-1096	Number of Barrels Heavy Oil 30% Rate	12	Enter the number of taxable barrels of Heavy Oil, taxed at the 30% rate, removed this tax year. Enter in whole barrels, right justified and zero filled.
1097-1132	Reserved	36	Reserved for Service use. Blank fill.
1133-1144	Tax Liability Heavy Oil 30% Rate	12	Enter the tax liability for the Heavy Oil, taxed at the 30% rate, removed this tax year. Enter in dollars only, right justified and zero filled.
1145-1156	Total Taxable Barrels	12	Enter the total number of taxable barrels of oil removed this tax year for all classes of taxable crude oil. Enter in whole barrels, right justified and zero filled.
1157-1168	Total Tax Liability	12	Enter the total tax liability for all oil, removed this tax year. Enter in dollars only, right justified and zero filled.
1169-1180	Tax Withheld Oil Removed This Tax Year	12	Enter the amount of windfall profit tax withheld with respect to oil removed during the tax year. Enter in dollars only, right justified and zero filled.
1181-1192	Underwithheld Tax	12	Enter the amount of windfall profit tax underwithheld, if any. Enter in dollars only, right justified and zero filled. If no underwithholding, zero fill this field.
1193-1204	Overwithheld Tax	12	Enter the amount of windfall profit tax overwithheld, if any. Enter in dollars only, right justified and zero filled. If no overwithholding, zero fill this field.

RECORD NAME: PRODUCER/RECIPIENT "H" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
1205-1216	WPT Withheld From Payments	12	Enter the amount of windfall profit tax withheld from payments made during this tax year, regardless of when the liability for the tax arose. Enter in dollars only, right justified and zero filled.
1217-1219	Originator(s) of 1st Form 6248 Indicator	3	Enter the total number of originators for this form. Right justify and zero fill. If none, zero fill.
1220-1259	Originator's Name (Person furnishing Form 6248 information to payer/filer/first purchaser)	40	If the information on this Form 6248 is based on information from another Form 6248, enter the name of the person who furnished you with Form 6248. Left justify and blank fill. If not present, blank fill.
1260-1268	Originator's TIN	9	If available, enter the TIN of the originator. If no data is available, blank fill.
1269-1308	Second Originator's Name	40	If the information on this Form 6248 is based on information compiled from two or more Forms 6248, enter the name of the second person who furnished you with a Form 6248. If not present, blank fill.
1309-1317	Second Originator's TIN	9	If available, enter the TIN of the second originator. If no data is available, blank fill.
1318-1357	Third Originator's Name	40	If the information on this form is based on information compiled from three or more Forms 6248, enter the name of the third person who furnished you with a form 6248. If not relevant, blank fill.
1358-1366	Third Originator's TIN	9	If available, enter the TIN of the third originator. If no data is available, blank fill.
1367-1372	Preparation Date	6	Enter the date of preparation of this form. If unknown, blank fill.
1373-1382	Owners I.D.	10	Enter up to 10 characters of your account number for the owner/producer. If no data, blank fill.
1383-1450	Reserved	68	Reserved for Service use. Blank fill.

SEC. 7. END OF FILER "I" RECORD

.01 The End of Filer "I" Record is a summary record for a given filer. This record must be 1450 characters long.

.02 The "I" Record will contain the number of documents transmitted for each individual filer. The "I" Record must be written after the last Producer "H" Record for each filer. For each "G" Record on the file there must be a corresponding "I" Record.

.03 The "I" Record cannot be followed by a Tape Mark.

RECORD NAME: END OF FILER "I" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Enter "I".
2-7	Number of 6248s for This Filer	6	Enter the number of "H" Records for this filer. This number should also be shown on Form 4804, Box 13. Right justify, zero fill. This field must be unsigned.

RECORD NAME: END OF FILER "I" RECORD—Continued

Tape Position	Field Title	Length	Description and Remarks
8-47	Filer's Name	40	Enter the name of the filer. Use the same name as shown on the Filer/Transmitter "G" Record. Left justify, blank fill.
48	Type of Account Filer's TIN	1	This position is used to identify the data in tape positions 49 thru 57 as either an EIN or SSN. Use one of the following codes as appropriate. 0 use the digit "0" if the number provided is an SSN. 1 use the digit "1" if the number provided is an EIN. 2 use the digit "2" if it is not known whether the number provided is an SSN or EIN. 3 use the digit "3" if no number is provided (positions 49-57 should be blank filled in this case).
49-57	Filer's Account Number	9	Enter the taxpayer identification number of the filer (SSN or EIN as appropriate). If no TIN is provided, leave blank.
58-69	Filer's Total Tax Liability	12	Enter the sum of the filer's total tax liability. This amount should be shown on Form 4804, Box 16, Total Payment Amount for each filer. This field may be signed or unsigned decimal data, in dollars only.
70-1450	Reserved	1381	Reserved for Service use. Blank fill to end of record.

SEC. 8. END OF REEL "J" RECORD

.01 The End of Reel "J" Record will be present for option 1 only. It must be 1450 characters long.

.02 Write this record when the end of the normal writing area of the reel has been reached, but all the records of the file have not been written. This record indicates that there are additional reels in the file.

.03 Each "J" Record must contain a count of Forms 6248 reported on all "H" Records not summarized in the preceding "I" Record on the Reel.

.04 If you do not wish to use a "J" Record, or your system is unable to generate it, you may delete it; however, the last "H" Record on the tape 'MUST' be followed by a Tape Mark.

.05 All fields in this record must be unsigned.

RECORD NAME: END OF REEL "J" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Enter "J".
2-7	Number of 6248s	6	Enter the number of "H" Records not summarized in a previous "I" Record. Right justify, zero fill.
8-30	Reserved	23	Zero fill.
31-1450	Reserved	1420	Reserved for Service use. Blank fill.

SEC. 9. END OF TRANSMISSION "K" RECORD

.01 The End of Transmission "K" Record is a summary of the number of filers and the number of tapes in the entire file.

.02 This record should be written after the last "I" Record in the file.

.03 Only a Tape Mark or a Tape Mark and Trailer Labels may follow the "K" Record.

.04 The "K" Record must be 1450 characters long.

.05 All fields in this record must be unsigned.

RECORD NAME: END OF TRANSMISSION "K" RECORD

Tape Position	Field Title	Length	Description and Remarks
1	Record Type	1	Enter "K".
2-5	Number of Filers	4	Enter the number of filers in the transmission. Right justify and zero fill.
6-8	Number of Tapes	3	Enter the total number of tapes in the transmission. Right justify and zero fill.
9-30	Reserved	22	Enter zeros.
31-1450	Reserved	1420	Enter blanks.

SEC. 10. TAPE LAYOUTS—OPTION 1

(Reel Sequence Number is in the "G" Record)

The following chart shows, by type of file, the record types to be used in the first two and the last three records to be written on a tape.

Type of File	First record type	Second record type	Second from last record type	Next to last record type	Last record type
Single Filer, single reels	G	H	H	I	K
Single Filer, multiple reels:					
Reel 1	G	H	H	H	J(TM)[1]
Last Reel	G	H	H	I[2]	K
Multiple Filers, single reel:					
First Filer	G	H	H	H	I
Subsequent Filers	G	H	H	H	I
Final Filer	G	H	H	I	K
Multiple Filers, Multiple Reels: First filer's records split between reel 1 and reel 2; second filer's records split between reel 2 and reel 3:					
Reel 1:					
Filer 1	G	H	H	H	J(TM)[1]
Reel 2:					
Filer 1	G	H	H	H	I[2]
Filer 2	G	H	H	H	J(TM)[1]
Reel 3:					
Filer 2	G	H	H	H	I[2]
Filer 3	G	H	H	H	I
Reel 4: Last Filer	G	H	H	I	K
Multiple Filers, single transmitter, separate files for each filer:					
File 1: Filer 1: Last reel	G	H	H	I	K
File 2: Filer 2:					
Reel 1	G	H	H	H	J(TM)[1]
Last Reel	G	H	H	I[2]	K
File 3: Filer 3: Last reel	G	H	H	I	K

---

[1] If your system cannot produce the End of Reel "J" Record, the final "H" Record on an intermediate reel can be followed by a Tape Mark.

[2] Must contain the "Number of 6248s" summarizing all "H" Records on this and previous reels for this filer, not summarized on a previous "I" record.

SEC. 11. TAPE LAYOUTS— OPTION 2

(Reel Sequence Number is in the Header Label)

Where the Header Label is the first record, the following chart shows, by type of file, the record types to be used in the 2nd and 3rd records, where the header label is the first record, and the last three records written on a tape reel prior to the Trailer label.

Type of File	Second record type	Third record type	Second from last record type	Next to last record type	Last record type
Single Filer, single reel	G	H	H	I	K
Single Filer, multiple reels:					
First Reel	G	H	H	H	H
Last Reel	H	H	H	I[1]	K
Multiple Filers, single reel:					
First Filer	G	H	H	H	I
Subsequent Filers	G	H	H	H	I
Final Filer	G	H	H	I	K
Multiple Filers, Multiple Reels: first filer's records split between reel 1 and reel 2; second filer's records split between reel 2 and reel 3:					
Reel 1:					
Filer 1	G	H	H	H	H
Reel 2:					
Filer 1	H	H	H	H	I[1]
Filer 2	G	H	H	H	H
Reel 3					
Filer 2	H	H	H	H	I[1]
Filer 3	G	H	H	H	I
Reel 4:					
Filer 4	G	H	H	I	K
Multiple filers, single transmitter, separate files for each filer:					
File 1: Filer 1: Last reel (could be multiple reel)	H	H	H	I[1]	K
File 2: Filer 2:					
Reel 1	G	H	H	H	H
Last Reel	H	H	H	I[1]	K

---

[1] Must contain the "Number of 6248's" summarizing all "H" Records on this and previous reels for this filer not summarized in a previous "I" record.

SEC. 12. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 84-81 is superseded.

Form **6248**
Department of the Treasury
Internal Revenue Service

Annual Information Return of Windfall Profit Tax—1985

OMB No. 1545-0224
Copy A—File with the IRS

Producer or Other Recipient
Name, address, and ZIP code

Filer
Name, address, and ZIP code

Employer identification no. (EIN)	**Social security no., if no EIN**	**Employer identification no. (EIN)**	**Social security no., if no EIN**

If you have received a Form 6248 from another person concerning oil reported on this Form 6248, enter the name and employer identification number of that person below.

Name

Employer identification number

Type of return (Check only one box): Original ☐ Corrected 2 ☐ Suspense 3 ☐ Corrected suspense 4 ☐

For IRS use ☐ ☐

Part I Producer or Other Recipient

1 Type of Producer (check all applicable boxes):
Individual 1 ☐ Partnership 2 ☐ Trust 3 ☐ Estate 4 ☐ Corporation 5 ☐ Resident of U.S. Possessions 6 ☐ U.S. citizen or entity, or resident alien 7 ☐ Foreign citizen or entity, or non-resident alien 8 ☐

2 Producer Status (check all applicable boxes):
Independent producer 1 ☐ Integrated oil company 2 ☐ Member of "related group" 3 ☐ Producer–no withholding 4 ☐ Royalty owner 5 ☐ Working interest 6 ☐ Trust beneficary 7 ☐ Operator 8 ☐

Part II Exempt Oil

		a. Tier one	b. Tier two	c. Tier three (1) Newly discovered	c. Tier three (2) Incremental tertiary	c. Tier three (3) Heavy
1 Number of barrels of exempt oil (do not include exempt stripper well oil or exempt royalty owner oil)	1					
2 Total (add amounts on line 1, columns a through c(3))					2	

3 Type of exempt oil (check applicable boxes): Governmental interests 1 ☐ Exempt Indian oil 2 ☐ Charitable interests 3 ☐ Exempt Alaskan oil 4 ☐

4 Total barrels of exempt stripper well oil (see instructions)	4	

Part III Exempt Royalty Owner Oil

Total number of certified barrels		a. 1st quarter	b. 2nd quarter	c. 3rd quarter	d. 4th quarter
1 Barrels removed in calendar quarter	1				
2 Total (add amounts on line 1, columns a through d)				2	

Part IV Taxable Crude Oil Removed During 1985

		a. Number of barrels	b. Tax liability
1 Tier one, other than Sadlerochit oil, taxed at 70%	1		
2 Tier one, other than Sadlerochit oil, taxed at 50%	2		
3 Tier one Sadlerochit oil taxed at 70%	3		
4 Tier one Sadlerochit oil taxed at 50%	4		
5 Tier two oil taxed at 60%	5		
6 Tier two oil taxed at 30%	6		
7 Newly discovered oil	7		
8 Incremental tertiary oil	8		
9 Heavy oil	9		
10 Total barrels of oil (add amounts in column a)	10		▨

11 Amount of windfall profit tax liability for oil removed during 1985 (add amounts in column b)	11	
12 Amount of windfall profit tax withheld with respect to oil removed during 1985	12	
13 If line 11 is greater than line 12, subtract line 12 from line 11. This is underwithheld windfall profit tax	13	
14 If line 12 is greater than line 11, subtract line 11 from line 12. This is overwithheld windfall profit tax	14	

Part V Amount of Windfall Profit Tax Withheld from Payments Made in 1985

1 Windfall profit tax withheld from payments made in 1985 (regardless of when windfall profit tax liability arose)	1

Department of the Treasury — Internal Revenue Service

Application for Magnetic Media Reporting of Information Returns

IRS Use Only

OMB No. 1545-0387
Expires 7-31-88

1. Please fill in this form and send to

Internal Revenue Service Center

2. Name and address of organization *(street, city, State and ZIP code)*

3. Payment year for which you plan to begin reporting on magnetic media

4. Employer identification number

5. Kind of magnetic media you plan to submit *(check one)*

☐ Tape ☐ Cassette/Mini-Disk

☐ Disk ☐ Diskette

6. Person to contact about this request

Name:

Title:

Telephone number: *(include area code)*

7. **Documents To Be Reported**

Form	Estimated Volume		Form	Estimated Volume	
	Magnetic Media	Paper		Magnetic Media	Paper
☐ 1099-DIV			☐ 6248		
☐ 1099-INT			☐ W-4		
☐ 1099-MISC			☐ W-2G		
☐ 1099-OID			☐		
☐ 1099-R			☐		
☐ 1099-G			☐		
☐ 1099-PATR			☐		
☐ 1099-B			☐		
☐ 5498			☐		
☐ 8027			☐		
☐ 1042S			☐		

8. **Kind of equipment on which media will be prepared**

Main Frame *(all media types)*			Drive Unit *(all media)*	
Manufacturer	Model		Manufacturer	Model
Tape Only			**All Media Types**	
Width	Tracks ☐ 7 ☐ 9	Density	Recording code *(e.g., EBCDIC, BCD, or ASCII)*	

9. If your firm is acting as agent, please list the name and employer identification number of each payer on a separate sheet and attach it to this application.

10. **Person responsible for preparation of tax reports**	Name *(type or print)*	Title
	Signature	Date

See back of this form for Paperwork Reduction Act Notice.

Form **4419** (Rev. 7-85)

Instructions for Form 4419

Payers or agents who decide to file information returns on magnetic media must complete Form 4419 to receive authorization for filing. Please be sure to complete all appropriate blocks as explained in the following instructions:

Block 2

Enter the name and complete address of the person or organization that will prepare and submit the magnetic media.

Block 3

Show the tax *(payment)* year for which you intend to begin filing information returns on magnetic media.

Block 5

Check the kind of magnetic media you plan to submit. If you plan to submit more than one kind of magnetic media, you should complete a separate application for each kind.

Block 7

Check the boxes next to all of the information returns you file with the Internal Revenue Service.

a. **Magnetic media column**: Enter the total number of individual information returns to be reported on magnetic media *(an estimate is acceptable)*.

b. **Paper column**: Enter the total number of individual information returns to be reported on paper if not all returns will be filed in magnetic media form *(an estimate is acceptable)*.

Block 9

If your firm is preparing information returns on magnetic media for payers other than itself, attach to your application a list of the names and employer identification numbers of the payers. If you add or delete any payers from your file, you *must* submit an updated list of payers.

Block 10

The form must be signed and dated by an official of the company or organization requesting authorization to report on magnetic media.

Filing your application

1. Mail the completed application and any attached lists to the Internal Revenue Service Center at the address shown in BLOCK 1.

2. When we receive your application, we will review it. If it is acceptable, we will send you an authorization letter within 30 days. Do not submit magnetic media until you receive an authorization letter.

3. We encourage new filers to submit test data on magnetic media for review before the filing season. If you want to submit test data, contact the magnetic media coordinator where you file your application.

4. Your authorization will be valid as long as the magnetic media submitted conforms to the specifications of the applicable revenue procedures. However, a new application is required if:

a. filing is discontinued and then resumed, or

b. there is any change in the equipment listed on the application.

Paperwork Reduction Act Notice

We ask for this information to carry out the Internal Revenue laws of the United States. We need it to ensure that the magnetic media you are using will be compatible with our processing equipment. The information is also used to more efficiently schedule and manage its processing in the service centers. You are required to give us this information if you want to file your returns on magnetic media.

Notice of Proposed Rulemaking

Treatment of Qualified Real Estate Agents and Direct Sellers as Nonemployees; Determination of Employer Liability for Certain Employment Taxes; Information Reporting of Direct Sales and Payments of Remuneration for Services

LR-214-82

SUMMARY: This document contains proposed amendments to the Employment Tax Regulations under section 3508, relating to the treatment of qualified real estate agents and direct sellers as nonemployees for Federal income and employment tax purposes, and under section 3509, relating to the determination of employer liability for income tax withholding and employee social security taxes where the employer treated an employee as a nonemployee for purposes of such taxes. It also contains proposed amendments to the Income Tax Regulations under section 6041A, relating to information reporting of direct sales and payments of remuneration for services. Sections 3508, 3509, and 6041A were added to the tax law by sections 269, 270, and 312, respectively, of the Tax Equity and Fiscal Responsibility Act of 1982 (96 Stat. 551, 553, 601) [Pub. L. 97-248, 1982-2 C.B. 462, 535, 536, 561]. The regulations would provide the public with the guidance needed to comply with the applicable tax law.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 10, 1986. The regulations under section 3508 are proposed to be effective for services performed after December 31, 1982, and the regulations under section 6041A are proposed to be effective for payments and sales made after December 31, 1982. The regulations under section 3509 are proposed to be effective for any income and employee social security taxes required to be deducted and withheld, except with respect to assessments made before January 1, 1983.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-214-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Robert E. Shaw of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3297, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

The determination of whether an individual is an employee or independent contractor for Federal tax purposes is important for several reasons. Wages paid to employees generally are subject to social security taxes imposed on the employer and the employee under the Federal Insurance Contributions Act (FICA) and to unemployment taxes imposed on the employer under the Federal Unemployment Tax Act (FUTA). Compensation paid to independent contractors is subject to the tax on self-employment income (SECA), but not to FICA or FUTA taxes. The SECA is generally paid only by self-employed individuals. In addition, Federal income tax must generally be withheld from compensation paid to employees but not from compensation paid to independent contractors.

Except for sections 3121(d)(3) and 3306(i), which establish categories of statutory employees for social security and Federal unemployment tax purposes, prior to the enactment of the Tax Equity and Fiscal Responsibility Act of 1982, the determination of an individual's status as an employee or independent contractor generally was made under common-law (*i.e.*, nonstatutory) rules. Under the common-law test, an individual generally is an employee if the person for whom the individual performs services has the right to control and direct that individual, not only as to the result to be accomplished by the work but also as to the details and means by which that result is accomplished. Thus, the most important factor under the common law is the degree of control, or right of control, which the employer has over the manner in which the work is to be performed.

The Service applies various factors that have evolved from the common law to determine whether the requisite control exists. Because of the difficulty that often arises in applying these factors, several bills introduced in both the House and the Senate during 1982 set forth statutory "safe-harbor" tests which, if satisfied with respect to an individual, would result in that individual being classified as an independent contractor. The proposed safe-harbor requirements, generally applicable to post-1982 services, related to (1) control of hours worked, (2) place of business, (3) investment or income fluctuation, (4) written contract and notice of tax responsibilities, and (5) the filing of required returns. S. Rep. No. 97-494, 97 Cong., 2d Sess. 364 (1982). Workers who did not meet the safe-harbor tests still would have had their employment tax status determined under the common-law rules.

In enacting the Tax Equity and Fiscal Responsibility Act of 1982 (P.L. 97-248) [1982-2 C.B. 462], Congress rejected the broader safe-harbor tests proposed by these bills and instead partially resolved the employee-independent contractor controversy by creating two categories of statutory nonemployees—qualified real estate agents and direct sellers. Thus, notwithstanding the common-law rules, an individual is an independent contractor for services that satisfy the statutory requirements of section 3508. Other employment situations generally must continue to be evaluated under common-law principles.

In response to the serious tax deficiencies that may arise when a worker erroneously treated as an independent contractor is reclassified as an employee, Congress enacted section 3509, which fixes an employer's liability for income tax withholding and employee social security taxes generally at a fraction of the amount of taxes which should have been deducted and withheld. Section 3509 provides relief to employers who would otherwise be liable for the full amount of such taxes which should have been deducted and withheld and provides a sanction for an employer's erroneous treatment of a worker in situations in which the employer would otherwise be able to escape liability for such taxes under the statutory offset provisions of sections 3402(d) and 6521.

To assure increased compliance by direct sellers with the income tax law, Congress added section 6041A (section 312 of the Tax Equity and Fiscal Responsibility Act of 1982) which, in addition to other requirements, imposes an obligation on direct sellers of consumer products to report gross sales totalling $5,000 or more in a calendar year to any buyer for resale in the home or some place other than a permanent retail establishment. Congress also provided a penalty for failure to file this return (section 6652) and a penalty for failure to furnish certain statements (section 6678).

EXPLANATION OF PROVISIONS

In general

The proposed regulations provide that an individual performing services as a qualified real estate agent or a direct seller will not be treated as an employee and the service-recipient will not be treated as an employer for Federal income and employment tax purposes. In order to qualify for such treatment substantially all the remuneration paid by a service-recipient to an individual for services as a real estate agent or direct seller must be directly related to sales or other output and such services must be performed pursuant to a written contract providing that such individual will not be treated as an employee for Federal tax purposes.

The proposed regulations make clear that a statutory employee (that is, an individual treated as an employee under section 3121(d)(3) of the Code) who also qualifies as a nonemployee under section 3508 will be treated as a nonemployee for FICA, FUTA, and Federal income tax withholding purposes with respect to services described in section 3508. For example, an agent-driver (statutory employee) who qualifies as a direct seller (statutory nonemployee) will be treated as a nonemployee for FICA, FUTA, and income tax withholding purposes with respect to services performed as a direct seller. The regulations also make clear that the written contract requirement is not met unless the contract specifically states that the individual will not be treated as an employee for Federal tax purposes. For this purpose, it is not sufficient that the contract merely states that the individual will not be treated as an employee.

"Substantially all" remuneration requirement

Section 3508 requires that in order for an individual to be treated as a qualified real estate agent or a direct seller substantially all of the remuneration received for services as a real estate agent or direct seller must be directly related to sales or other output. The proposed regulations provide that the "substantially all remuneration" test is satisfied with respect to services performed as a real estate agent or direct seller if at least 90 percent of the total remuneration received during the calendar year by the individual for services performed as a real estate agent or direct seller is directly related to sales or other output rather than to the number of hours worked. The proposed regulations also provide rules for applying the "directly related to sales or other output" requirement to pooled remuneration arrangements, remuneration received in advance of sales or performance, and remuneration dependent on the productivity of others.

Direct sellers

A direct seller is any salesperson who, in addition to meeting the "substantially all" remuneration and written contract requirements, sells consumer products, either directly or through a middleperson (*i.e.*, a buyer) for ultimate resale, in the home or in a place other than in a permanent retail establishment. The proposed regulations define "consumer product" as any tangible personal property which is distributed in commerce and which is normally used for personal, family, or household purposes (including any such property intended to be attached to or installed in any real property without regard to whether it is so attached or installed). This definition corresponds to the definition provided in 15 U.S.C. §2301, and the limitation to tangible property is consistent with other definitions of consumer products found in the United States Code (15 U.S.C. §2052; 18 U.S.C. §1365; 42 U.S.C. §6291). The proposed regulations define "permanent retail establishment" as any business operating in or from a structure or facility which remains stationary for a substantial period of time to which consumers go to purchase consumer goods. The proposed regulations also clarify that vendors operating within, or on the grounds of, a permanent structure or facility such as a sports arena or amusement park are considered to operate in a permanent retail establishment for purposes of section 3508. Thus, the term "direct seller" may include door-to-door salespersons of not only products traditionally thought of as consumer products (*e.g.*, personal toiletry items, vacuum cleaners, kitchen products) but also products which require installation or construction on the consumer's property (*e.g.*, residential swimming pools, aluminum siding, kitchen cabinets, storm windows, insulation, carpeting) and products not used in or around the home. The term also includes salespersons who sell consumer goods directly to consumers through an exchange medium other than a permanent retail establishment (*e.g.*, mobile meal wagons or street vendors). The term does not include door-to-door salespersons of intangible products (*e.g.*, insurance, cable television subscription).

Persons who provide services generally are not direct sellers. For example, persons who provide services that do not involve the use of a product (*e.g.*, polltakers) or services that involve parts or materials which are incidental to providing services (*e.g.*, painting, carpet cleaning, septic tank cleaning, lawn care, pest control services, or appliance repair) are considered service providers rather than direct sellers.

Services of real estate agent and direct seller

The proposed regulations provide that the services performed as a direct seller are activities generally associated with the sale of consumer products in the home or otherwise than in a permanent retail establishment. These services include activities that are necessary to increase the sales efforts of other individuals, such as providing motivation, encouragement, training, recruitment, or counseling. Installation services performed by a direct seller in connection with the sale of a consumer product generally are not services performed by a direct seller. However, the proposed regulations provide that installation services rendered by a seller in conjunction with the sale of a consumer product will be services performed as a direct seller if the value of the installation services is 10 percent or less of the purchase price of the product (including installation).

The services performed as a real estate agent are those activities generally associated with the sale of real property. Such services include appraising property, advertising and showing property, closing sales, acquiring a lease to the property, and recruiting, training and supervising other salespersons. The services performed as a real estate agent do not include the management of property.

Retirement plans for self-employed individuals

The proposed regulations make clear that the fact that an individual is treated as a nonemployee under section 3508 for employment tax purposes will not prevent the individual from being covered under a qualified retirement plan for self-employed individuals.

Employer liability under section 3509

An employer's liability for failure to deduct and withhold income tax or employee social security taxes by reason of treating an employee as a nonemployee for purposes of such taxes is generally determined under section 3509. The employer's liability for income tax withholding is determined as if the amount required to be deducted and withheld was equal to 1.5 percent (3 percent where the employer disregards certain reporting requirements) of the wages paid to the individual erroneously treated as a nonemployee. The employer's liability for employee social security taxes is determined as if such taxes imposed were 20 percent (40 percent where the employer disregards certain reporting requirements) of the amount imposed without regard to section 3509. The increased percentages are applicable where an employer fails to timely file any return or statement under sections 6041(a), 6041A, or 6051 that would be required consistent with the employer's treatment of the worker as a nonemployee.

The proposed regulations clarify that, for purposes of section 3509, an employer fails to withhold taxes when the employer fails to pay over the full amount of tax required to be deducted and withheld during a calendar year on or before the due date for the return relating to such taxes for the final quarter fo such calendar year. Thus, section 3509 is generally applied with respect to each calendar year as a unit.

Under section 3509 and the proposed regulations, if an employer's liability for any tax is determined under section 3509 the employer (i) may not collect from the employee any amount of tax so determined, and (ii) is not entitled to any offset of liability under section 3402(d) or 6521. An employee's liability for taxes is not affected by application of section 3509 to the employer and the offset provisions of section 6521 may, where applicable, apply with respect to the employee's liability for employee social security taxes. An employer's liability for employer social security taxes is not affected by section 3509.

Section 3509 does not apply where an employer deducts income tax but not employee social security taxes or where the employer intentionally disregards the requirements to withhold and deduct Federal income tax or employee social security taxes. Section 3509 does not apply to employee social security taxes with respect to statutory employees described in section 3121(d)(3). The proposed regulations clarify that if an employer's liability for any tax is determined under section 3509 the employer may still be liable for penalties with respect to his or her failure to deduct and withhold such tax. The amount of such penalties, however, is based on the amount of the employer's liability for such tax under section 3509.

The proposed regulations also clarify that the amount of an employer's liability for tax determined under section 3509 will be considered satisfied to the extent of the amount of such tax which was actually withheld and deducted from the employee and paid. If the amount withheld, deducted, and paid exceeds the employer's liability as computed under section 3509, however, the employer may not claim a refund or credit of such excess amount.

New reporting requirements

Section 6041A added two reporting requirements relating to payments as remuneration for services and gross sales of consumer products to a buyer for resale in the home or otherwise than in a permanent retail establishment. Section 6041A(a) requires that a service-recipient engaged in a trade or business, who, in the course of that trade or business, makes payments to a person as remuneration for services, report such payments if the total remuneration paid to that person by the service-recipient during the calendar year is $600 or more. The proposed regulations provide that such remuneration does not include any amounts which the service-recipient knows are excludable from the gross income of the person performing services (*e.g.*, qualified foster care payments under section 131). Section 6041A(b) requires a direct seller to report gross sales of consumer products totaling $5,000 or more in a calendar year to any buyer who resells the product in the home or any place other than a permanent retail establishment. All sales of consumer products to a buyer for resale to another person are taken into account in determining the aggregate amount of sales to that buyer during the calendar year, even if the buyer resells some of the products in a permanent retail establishment.

The proposed regulations clarify that the aggregate amount of sales of consumer products to a buyer during a calendar year includes the sale of products used by the buyer for the buyer's personal use or consumption (including products disposed of in a manner other than resale such as gifts to friends or relatives). However, the aggregate amount of sales does not include the sale of goods that cannot be resold, such as catalogs and samples.

The proposed regulations make clear that an information return is required with respect to any person who sells consumer products in the home or otherwise than in a permanent retail establishment regardless of whether that person purchases the product from the company and resells it to the consumer or is a company salesperson (other than an employee) who does not acquire title to a product before selling it.

The proposed regulations provide that the regulatory exceptions to the reporting requirement under section 6041, as set forth in §1.6041-3, are applicable to the reporting requirement under section 6041A(a).

COMMENTS AND PUBLIC HEARING

Before adoption of these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the Federal Register.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service, New Executive Office Building, Washington, D.C. 20530. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

SPECIAL ANALYSES

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required.

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public comment requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

DRAFTING INFORMATION

The principal authors of these proposed regulations are Robert E. Shaw of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service, and Donald W. Stevenson, formerly of that Division. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Parts 1 and 31 are as follows:

EMPLOYMENT TAX REGULATIONS
(26 CFR Part 31)

Paragraph 1. The authority for Part 31 continues to read in part:

Authority: 26 U.S.C. 7805. * * *

Par. 2. There are inserted immediately after §31.3507-2 the following two new sections.

§31.3508-1 Treatment of qualified real estate agents and direct sellers as nonemployees.

(a) *In general.* For Federal income and employment tax purposes,

(1) An individual who performs services after December 31, 1982, as a qualified real estate agent or as a direct seller shall not be treated as an employee with respect to such services, and

(2) The service-recipient shall not be treated as an employer with respect to such services.

(b) *Qualified real estate agent defined*—(1) *In general.* For purposes of section 3508 and this section, the term "qualified real estate agent" means any individual who is a sales person (including an individual who does not personally make sales but who recruits, trains, or supervises other individuals who make sales) if—

(i) Such individual is a licensed real estate agent,

(ii) Substantially all of the remuneration (whether or not paid in cash) for the service performed by such individual as a real estate agent is directly related to sales or other output (including the performance of services) rather than to the number of hours worked, and

(iii) The services performed by such individual as a real estate agent are performed pursuant to a written contract between such individual and the service-recipient and the contract provides that such individual will not be treated as an employee with respect to such services for Federal tax purposes.

(2) *services performed as a real estate agent.* For purposes of this section, the services performed by an individual as a real estate agent include any activities that customarily are performed in connection with the sale of an interest in real property. Such services include the advertising or showing of real property, the acquisition of a lease to real property, and the recruitment, training, or supervision of other real estate sales persons. Such services also include the appraisal activities of a licensed real estate agent in connection with the sale of real property. Services performed as a real estate agent do not include the management of property.

(c) *Direct seller defined*—(1) *In general.* For purposes of section 3508 and this section, the term "direct seller" means any person if—

(i) Such person—

(A) Is engaged in the trade or business of selling (or soliciting the sale of) consumer products to any buyer on a buy-sell or deposit-commission basis for resale by the buyer or any other person in the home or in some other place that does not constitute a permanent retail establishment, or

(B) Is engaged in the trade or business of selling (or soliciting the sale of) consumer products in the home or in some other place that does not constitute a permanent retail establishment,

(ii) Substantially all the remuneration (whether or not paid in cash) for the performance of the services described in paragraph (c)(2) of this section is directly related to sales or other output (including the performance of services) rather than to the number of hours worked, and

(iii) Such person performs the services described in paragraph (c)(2) of this section pursuant to a written contract between such person and the service-recipient, and the contract provides that such person will not be treated as an employee with respect to such services for Federal tax purposes.

(2) *Services performed as a direct seller*—(i) *In general.* The services described in this paragraph (c)(2) are any services that customarily are directly related to the trade or business of selling (or soliciting the sale of) consumer products in the home or in any other location that does not constitute a permanent retail establishment. Such services include any activity to increase the productivity of other individuals engaged

in such sales, such as recruiting, training, motivating, and counseling such individuals. Except as provided in paragraph (c)(2)(ii) of this section, such services do not include the installation or construction on the customer's property of a consumer product. See paragraphs (f) and (g)(3) of this section for the inapplicability of section 3508 where the sale or use of consumer products is only incidental to the rendering of services.

(ii) *Installation of consumer product in conjunction with the sale of such product.* If an individual engaged in the trade or business of selling consumer products performs installation services in conjunction with the sale of a consumer product such services shall be included as services performed as a direct seller only if the value of such installation services is 10 percent or less of the purchase price of such consumer product (including installation). If the value of such installation services exceeds 10 percent of the purchase price of the consumer product (including installation) the installation services shall not be included as services performed as a direct seller. See paragraph (j) of this section for treatment of dual services under section 3508.

(d) *Substantially all remuneration directly related to sales or other output*—(1) *Substantially all remuneration*—(i) *In general.* The requirement of paragraph (b)(1)(ii) or (c)(1)(ii) of this section is satisfied for any calendar year with respect to the services described in such paragraph if at least 90 percent of the total remuneration, including advances and draws (except as provided in paragraph (d)(1)(ii) of this section), received by the individual from the service-recipient for performing such services during that calendar year is directly related to sales or other output rather than to the number of hours worked.

(ii) *Repayment of advances or draws.* For purposes of paragraph (d)(1)(i) of this section, total reumuneration received by an individual does not include any portion of an advance or draw that is repaid directly or indirectly (including repayment by a debit against the individual's account with the service-recipient) pursuant to a binding written agreement which on the date the advance or draw is received requires repayment of the amount by which such advance or draw exceeds the amount which is directly related to sales or other output (as defined in paragraph (d)(2) of this section). The determination of whether any amounts not excluded under this paragraph (d)(1)(ii) from the total remuneration received by an individual is directly related to sales or other output for purposes of paragraph (d)(1)(i) of this section is made on the basis of all the facts and circumstances (see paragraph (d)(2)(i) of this section).

(2) *Directly relating to sales or other output*—(i) *In general.* An item of remuneration is directly related to sales or other output if that item is paid, awarded, or credited to the individual on the basis of the individual's services with respect to one or more specific sales transactions or the accomplishment of one or more specific tasks rather than on the basis of the number of hours worked. Whether an item of remuneration is directly related to sales or other output shall be determined on the basis of all the facts and circumstances. For purposes of this section an item of remuneration that is in the nature of salary, that is, a fixed periodical compensation paid for services rendered without regard to the amount of services rendered, shall be treated as an item of remuneration that is paid, awarded, or credited on the basis of the number of hours worked.

(ii) *Directly related to sales or output of some other person.* for purposes of this section, remuneration received by an individual based on the sale or productivity of some other individual shall be treated as directly related to sales or other output if it was paid, awarded, or credited on the basis of such other individual's services with respect to one or more particular sales transactions or the accomplishment of one or more specific tasks.

(iii) *Remuneration received from a pool.* Remuneration received by an individual under an arrangement whereby a service-recipient pools the remuneration of several individuals and a portion of the aggregate pooled remuneration is periodically distributed to each pool participant shall be treated as directly related to sales or other output only to the extent that the amount of remuneration received by that individual from the pool does not exceed the amount of remuneration that, in the absence of the pool arrangement, such individual would have received on the basis of the individual's services with respect to one or more specific sale transactions or the accomplishment of one or more specific tasks. Amounts received from the pool in excess of the amount that person would have ordinarily received for performing services in connection with such specific sales transactions or specific tasks are not directly related to sales or other output.

(e) *Written contract requirement*—(1) *In general.* Except as otherwise provided in paragraph (e)(2) of this section, a written contract that states that the individual will not be treated as an employee without specifically stating "for Federal tax purposes" does not meet the written contract requirements set forth in paragraph (b)(1)(iii) and (c)(1)(iii).

(2) *Existing contracts*—(i) *In general.* A contract which—

(A) Is in effect on or before February 28, 1983, and

(B) States that the individual performing the services will not be treated as an employee but does not specifically include the phrase "for Federal tax purposes,"

will be deemed to satisfy the written contract requirement if the service-recipient furnishes to the individual performing the services a written notice that specifically states that the individual will not be treated as an employee "for Federal tax purposes."

(ii) *Date contract requirement deemed satisfied.* If the notice described in paragraph (e)(2)(i) of this section is mailed or otherwise furnished on or before February 28, 1983, the written contract requirement shall be deemed satisfied as of the date of the original contract. If the notice is furnished after that date, the written contract requirement is deemed satisfied as of the date the notice is furnished.

(f) *Trade or business of selling consumer products.* For purposes of section 3508 and this section, a person is not engaged in the trade or business or selling (or soliciting the sale of) consumer products if the sale or use of such products is in an incidental part of a trade or business in which such person primarily renders services to clients. Whether the sale or use of a product is an incidental part of a trade or business that primarily consists of rendering services shall be determined on the basis of all the facts and circumstances, taking into account such factors as the cost of the product in relation to the cost of the service. Generally, the sale or use of a product is an incidental part of a trade or business that primarily consists of rendering services if the use of the product is necessary to the performance of the particular service (*e.g.*, insecticide in a pest control business). See paragraph (c)(2) of this section for the applicability of this section to individuals who install consumer products in conjunction with the sale of such products.

(g) *Definitions*—(1) *Buy-sell basis.* A transaction is on a buy-sell basis if the buyer performing the services is entitled to retain part or all of the difference between the price at which the buyer purchases the product and the price at which the buyer sells the product as part or all of the buyer's remuneration for the services.

(2) *Deposit-commission basis.* A transaction is on a deposit-commission basis if the buyer performing the service is entitled to retain part or all of a purchase deposit paid by the consumer in connection with the transaction as part or all of the buyer's remuneration for the services.

(3) *Consumer product.* The term "consumer product" means any tangible personal property which is distributed in commerce and which is normally used for personal, family, or household purposes (including any such property intended to be attached to or installed in any real property without regard to whether it is so attached or installed). The term "consumer product" does not include any product used in the manufacture of another product to be distributed in commerce or any product used only incidentally in providing a service (*e.g.*, insecticide used in a pest control service, materials used in an appliance repair business).

(4) *Permanent retail establishment.* A permanent retail establishment is any retail business operating in a structure or facility that remains stationary for a substantial period of time to which consumers go to purchase consumer goods. Examples of these establishments are: grocery stores, hardware stores, clothing stores, hotels, restaurants, drug stores, and newsstands. In addition, amusement areas, such as amusement parks and sports arenas, at which consumer products are sold are permanent retail establishments. Portable or mobile structures, facilities, or equipment, such as street vendor stands and mobile carts or vehicles, generally do not constitute permanent retail establishments. However, sales of consumer products may occur in a permanent retail establishment for purposes of this section even though portable or mobile structures, facilities, or equipment is used. For example, a vendor who sells consumer products, such as souvenirs or food, in the stands of a sports arena or on the grounds of an amusement park sells consumer products in a permanent retail establishment. Also, a vendor who sells consumer products in a parking lot or other property which is near to and serving a sports arena or other amusement area pursuant to an agreement which grants to the vendor or to the service-recipient the right to sell consumer products on such property sells consumer products in a permanent retail establishment, regardless of whether the sale is made within a permanent structure.

(5) *Service-recipient.* The term "service-recipient" means the person (other than a client or customer) for whom the services as a qualified real estate agent or direct seller are performed (*e.g.*, a real estate firm or a company whose consumer products are sold door-to-door).

(h) *No inference.* The fact that an individual does not qualify under section 3508 and this section as a qualified real estate agent or as a direct seller with respect to any services does not create an inference that such individual is an employee or the service-recipient is an employer with respect to such services.

(i) *Application to statutory employees.* A statutory employee (that is, an individual in one of the categories of workers defined in section 3121(d)(3) or 3306(i) to be employees) who meets the requirements of paragraph (b) or (c) of this section for classification as a qualified real estate agent or as a direct seller shall be treated as a nonemployee for Federal income tax, Federal Insurance Contribution Act (FICA), and Federal Unemployment Tax Act (FUTA) purposes with respect to services performed as a qualified real estate agent or as a direct seller (as described in paragraphs (b)(2) and (c)(2) of this section, respectively).

(j) *Dual services*—(1) *In general.* Section 3508 shall apply only with respect to services performed as a qualified real estate agent or a direct seller. Whether an individual is treated as an employee or as a self-employed individual with respect to services other than those performed as a qualified real estate agent or a direct seller shall be determined under common-law principles.

(2) *Examples.* The Following examples illustrate the principles set forth in this paragraph (j).

Example (1). A is a licensed real estate agent who performs services as a real estate agent pursuant to a written contract described in paragraph (b)(1)(iii) of this section. In addition to performing services as a real estate agent A performs general bookkeeping duties for the same service-recipient. All of the remuneration for the services performed as a real estate agent is directly related to sales. A will be treated as a nonemployee under section 3508 only with respect to A's services as a real estate agent. Whether A is treated as an employee or as a self-employed individual with respect to the bookkeeping duties will be determined under common-law principles.

Example (2). B is engaged in the trade or business of selling aluminum siding. B performs services as a direct seller pursuant to a written contract described in paragraph (c)(1)(iii) of this section. All sales are made in the customer's home and the purchase price includes installation. B installs all aluminum siding which he sells and receives a commission based upon the purchase price as compensation for his services with respect to both the sale and the installation. The value of such installation services exceeds 10 percent of the purchase price of the siding. B will be treated as a nonemployee under section 3508 only with respect to his services as a direct seller. Whether B is treated as an employee or as a self-employed individual with respect to services performed in installing the siding will be determined under common-law principles.

Example (3). The facts are the same as in example (2) except that B sells and installs personal computers and that the value of the installation services performed by B is less than 10 percent of the purchase price of the computers including installation. B is treated as a nonemployee under section 3508 with respect to both his services in selling the computers and in installing them. See paragraph (c)(2)(ii) of this section.

Example (4). Assume all the requirements of section 3508(b)(1) and paragraph (b) of this section are satisfied with respect to A, a real estate agent, except that A did not obtain a real estate license until March 29. The license was valid for the remainder of the year. A is treated as self-employed under section 3508 for that portion of the year beginning on March 29. Whether for Federal tax purposes A is to be treated as self-employed for the other portion of the year shall be determined under common law.

(k) *Coordination with retirement plans for self-employed.* this section shall not prevent an individual who is treated as self-employed under section 3508 from being covered under a qualified retirement plan for self-employed individuals pursuant to section 401(c)(1) of the Code.

§31.3509-1 Determination of employer's liability for certain employment taxes.

(a) *In general.* Except as otherwise provided in this section, if during any calendar year any employer fails to deduct and withhold any tax under chapter 24 (relating to withholding of income tax) or subchapter A of chapter 21 (relating to the social security tax on employees) of the Internal Revenue Code of 1954 with respect to any employee by reason of treating such employee as not being an employee for purposes of such chapter or subchapter, the amount of the employer's liability for such tax with respect to such year shall be determined under this paragraph (a).

(1) *Income tax withholding.* The employer's liability for tax under chapter 24 for such year with respect to such employee shall be determined as if the amount required to be deducted and withheld were equal to 1.5 percent of the wages (defined in section 3401(a)) paid to such employee for such year.

(2) *Employee social security taxes.* The employer's liability for employee social security taxes under subchapter A of chapter 21 for such year with respect to such employee shall be determined as if the taxes imposed under such subchapter were 20 percent of the amount imposed under such subchapter for such year without regard to this paragraph (a)(2).

Section 3509 and this section do not affect an employer's liability for taxes under subchapter B of chapter 21 (relating to employer social security taxes) of the Internal Revenue Code of 1954. See paragraph (c) of this section for increased employer liability where an employer fails to meet certain reporting requirements.

(b) *Definitions*—(1) *Fails to deduct and withhold any tax*—(i) *In general.* For purposes of section 3509 and this section, an employer fails to deduct and withhold any tax under chapter 24 or under subchapter A of chapter 21 with respect to an employee for a calendar year if such employer fails to pay over the full amount of such tax required to be deducted and withheld during such calendar year (determined without regard to section 3509 and this section) on or before the due date for the return relating to such tax for the final quarter of such calendar year.

(ii) *Example.* The provisions of this paragraph (b)(1) may be illustrated by the following example:

Example. M, an employer, does not deduct and withhold income and social security taxes with respect to A, an employee, for the first quarter of 1985 because of M's erroneous belief that A is not an employee. On April 1, 1985, M ascertains the error and begins to withhold and deduct the full amount of income and social security taxes with respect to A for the remaining three quarters of 1985. M also makes timely adjustments under section 6205 with respect to the first quarter's taxes not deducted and withheld, and pays over the full amount of income and social security taxes which were required to be deducted and withheld during 1985 on or before the due date for the return for the fourth quarter of 1985. M has not failed to deduct and withhold income and social security taxes with respect to A during 1985 for purposes of section 3509 and this section.

(2) *Treatment of employee as not being an employee.* For purposes of section 3509 and this section, an employer has treated an employee as not being an employee for purposes of the withholding requirements of chapter 24 or subchapter A of chapter 21 if, because of his belief that the employee was not an employee, the employer (i) has failed to deduct and withhold such tax as defined in paragraph (b)(1) of this section for the calendar year and (ii) has also failed to file one or more employment tax returns (including, where applicable, Forms 940 (Employer's Annual Federal Unemployment (FUTA) Tax Return), 941 (Employer's Quarterly Federal Tax Return), 942 (Employer's Quarterly Tax Return for Household Employees), 943 (Employer's Annual Tax Return for Agricultural Employees), and W-2 (Wage and Tax Statement)) for any period during the calendar year with respect to such employee. For purposes of this paragraph (b)(2) an employer who has filed a delinquent or amended employment tax return as a result of Internal Revenue Service compliance procedures (*i.e.*, examination or collection activities) has failed to file an employment tax return.

(c) *Employer's liability increased where employer fails to meet reporting requirements*—(1) *In general.* In the case of an employer who fails to meet the applicable requirements of section 6041(a), 6041A, or 6051 with respect to any employee, unless such failure is due to reasonable cause, paragraph (a) of this section shall be applied with respect to such employee:

(i) By substituting "3 percent" for "1.5 percent" in paragraph (a)(1) of this section; and

(ii) By substituting "40 percent" for "20 percent" in paragraph (a)(2) of this section.

(2) *Applicable requirements.* For purposes of paragraph (c)(1) of this section, an employer has failed to meet the applicable requirements of section 6041(a), 6041A, or 6051 with respect to an employee if—

(i) The employer has treated such employee as not being an employee for purposes of the withholding requirements of chapter 24 or subchapter A of chapter 21, and

(ii) The employer has failed to satisfy any of the requirements described in sections 6041(a), 6041A, and 6051 and the regulations thereunder (relating to information returns and statements) which would be applicable consistent with the treatment described in paragraph (c)(2)(i) of this section.

An employer who has failed to timely file any return or statement required under section 6041(a), 6041A, or 6051 has failed to meet the applicable requirements of that section.

(d) *Special rules.* For purposes of section 3509 and this section:

(1) *Determination of liability.* If the amount of any employer's liability for tax with respect to an employee is determined under section 3509 and this section:

(i) Such employee's liability for income tax or employee social security taxes shall not be affected by the assessment or collection of any tax so determined and any amount assessed or collected as a result of the application of this section shall not be credited against the employee's tax liability;

(ii) Such employer shall not be entitled to recover from such employee any tax determined under this section;

(iii) Sections 3402(d) and 6521 shall not apply with respect to such employer's liability determined under this section, although section 6521 may apply with respect to an employee's liability regardless of whether the employer's liability is determined under section

3509; and

(iv) Tax imposed by section 3101 or 3402 (including amounts determined under section 3509) for any calendar year that the employer has reported and paid over with respect to such employee shall be allowed as a credit against tax determined under section 3509 with respect to such employee for such calendar year. If the amount of such reported and paid over tax exceeds the employer's liability for tax as determined under section 3509, however, such excess does not constitute an overpayment of tax and does not entitle the employer to a refund or credit for the amount of such excess.

(2) *Section not to apply where employer deducts and withholds income tax but not social security taxes.* Section 3509 and this section shall not apply to any employer with respect to any wages if:

(i) The employer deducted and withheld any amount of the tax imposed by chapter 24 with respect to such wages, but

(ii) Failed to deduct and withhold the amount of the taxes imposed by subchapter A of chapter 21 with respect to such wages.

(3) *Section not to apply to social security tax with respect to certain statutory employees.* Section 3509 and this section shall not apply to any tax under subchapter A of chapter 21 with respect to an individual described in section 3121(d)(3). For purposes of the preceding sentence, if an individual would be an employee under section 34121(d)(3) but for the fact that such individual is an employee under section 3121(d)(1) or (2), such individual shall be treated as an individual described in section 3121(d)(3).

(4) *Section not to apply in cases of intentional disregard.* Section 3509 and this section shall not apply to the determination of any employer's liability for tax under chapter 24 or subchapter A of chapter 21 for any calendar year if any part of such liability is due to the employer's intentional disregard of the requirement to deduct and withhold such tax. For purposes of the preceding sentence, an employer has intentionally disregarded the requirement to deduct and withhold a tax if the employer intentionally failed to deduct and withhold the full amount of such tax with respect to any wages paid on or after the date on which the employer ascertained the employee status of a worker.

(5) *Section not to apply to assessments made before January 1, 1983.* Section 3509 and this section shall not apply to any tax assessed before January 1, 1983.

(6) *Penalties.* Section 3509 and this section do not relieve an employer from liability for any penalties, additions to tax, or additional amounts otherwise applicable with respect to a failure to deduct and withhold any taxes. However, for purposes of applying any penalty, addition to tax, or additional amount with respect to any tax for which an employer's liability is determined under section 3509, the employer's tax liability as determined under that section shall be treated as the tax the employer should have withheld, deducted, and paid over.

INCOME TAX REGULATIONS
(26 CFR Part 1)

Par. 3. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.6041A-1 also issued under 26 U.S.C. 6041A.

Par. 4. A new §1.6041A-1 is added immediately after §1.6041-7 to read as set forth below:

§1.6041A-1 Returns regarding payments of remuneration for services and certain direct sales.

(a) *Returns regarding remuneration for services*—(1) *In general.* If—

(i) Any service-recipient engaged in a trade or business pays in the course of that trade or business during any calendar year after 1982 remuneration to any person for services performed by that person, and

(ii) The aggregate amount of remuneration paid to such person during such calendar year is $600 or more.

then the service-recipient shall make a return in accordance with paragraph (e) of this section. For purposes of the preceding sentence, the term "service-recipient" means the person for whom the service is performed (*e.g.*, in the case of a real estate agent, the real estate firm for which such agent performs services). For purposes of this paragraph (a)(1) only, the term remuneration does not include amounts paid to any person for service performed by such person if the service-recipient knows that such amounts are excludable from the gross income of the person performing such services. For example, a return is not required with respect to amounts paid to a foster parent which are known by the service-recipient to constitute foster care payments that are excludable from gross income under section 131. For purposes of this paragraph (a)(1), a service-recipient shall be considered to know facts set forth in a written statement provided to the service-recipient, made under the penalties of perjury and signed by the person performing such services, in the absence of knowledge by the service-recipient that such statement is untrue. See section 6041A(d) for rules relating to the application of section 6041A and this section to governmental units (and agencies or instrumentalities thereof).

(2) *Payment attributable to parts and materials.* For purposes of section 6041A and this section, the aggregate amount of remuneration paid to any person for services rendered includes any payments for parts or materials used by such person in rendering the services unless the trade or business of such person is primarily that of selling parts or materials. Whether a person is engaged primarily in the trade or business of selling parts and materials rather than of providing services shall be determined on the basis of all the facts and circumstances, taking into account such factors as whether such person holds himself or herself out as a dealer in parts and whether, with respect to the type of service rendered, a service-recipient ordinarily would specify the type or brand of parts or materials to be used.

Example. X company makes a payment to an unincorporated repair shop for repairs to one of the company's automobiles. The automobile sustained body damage in an accident. The repair contract requires payment of $300 for labor and $400 for new parts that were installed. The repair shop does not hold itself out as a dealer in parts. Generally, customers of the repair shop do not specify the type or brand of replacement parts to be installed. Therefore, the aggregate amount of remuneration that is required to be reported pursuant to section 6041A(a) includes the payment for parts.

(b) *Returns regarding direct sales of $5,000 or more.* (1) *In general.* If—

(i) any person engaged in a trade or business in the course of such trade or business during any calendar year sells consumer products to any buyer on a buy-sell, deposit-commission, or other commission basis for resale (by the buyer or any other person) in the home or otherwise than in a permanent retail establishment, and

(ii) The aggregate amount of such sales made by such person to such buyer during such calendar year is $5,000 or more,

then such person shall make a return with respect to such buyer in accordance with paragraph (e) of this section. This requirement shall apply to sales made in any calendar year after 1982.

(2) *Sale defined.* For purposes of this paragraph (b), a person will be considered to sell a product to a buyer for resale even though such buyer does not acquire title to the product prior to selling it to the consumer. For example, a company sales person, paid on a commission basis, who does not acquire title to a product before selling it to the consumer is considered to have bought the product for resale for purposes of section 6041A(b) and this paragraph.

(3) *Acquisition for resale in a permanent retail establishment.* Section 6041A(b) and this paragraph do not apply to sales of a product to a buyer who resells the product only in a permanent retail establishment, as defined in §31.3508-1(g)(4) of this chapter (Employment Tax Regulations). If a buyer acquires consumer products from a person for resale both in the home (or otherwise than in a permanent retail establishment) as well as in a permanent retail establishment, then such person shall, for purposes of determining the aggregate amount of sales made to such buyer under paragraph (b)(1)(i) of this section, take into account all sales of such products made to such buyer during the calendar year.

(4) *Products purchased for personal use or consumption.* All sales to a buyer of consumer products on a buy-sell, deposit-commission, or other commission basis that are suitable for resale to another person shall be taken into account in determining the aggregate amount of sales made to such buyer under paragraph (b)(1)(i) of this section even if such buyer purchases some of the products for the buyer's personal use or consumption or disposes of some of the products other than by resale (for example, gifts to relatives). Sales of products that cannot be resold, such as samples and catalogues, are not taken into account in determining the aggregate amount of sales to a buyer during the calendar year.

(5) *Consumer product defined.* For purposes of section 6041A(b) and this paragraph, the term "consumer product" means any tangible personal property which is distributed in commerce and which is normally sued for personal, family, or household purposes (including any such property intended to be attached to or installed in any real property without regard to whether it is so attached or installed). The term "consumer product" does not include any product used to manufacture another product to be distributed in commerce or any product used only incidentally in providing a service (*e.g.*, insecticide used in a pest control service, materials used in an appliance repair business).

(c) *Engaged in trade or business.* For purposes of section 6041A(a)(1) or (b)(1) and this section, whether a service-recipient or other person is engaged in a trade or business shall be determined under the rules set forth in §1.6041-1(b).

(d) *Exceptions to return requirement*—(1) *Return required under another section.* No return shall be required under paragraph (a) of this section if a statement with respect to the services is required to be furnished under section 6051, 6052, or 6053.

(2) *Transactions exempt from reporting under section 6041.* No return shall be required under paragraph (a) of this section with respect to a payment which is exempted under §1.6041-3 from the reporting requirement of section 6041, and no return shall be required under paragraph (b) of this section with respect to sales made to a corporation.

(e) *time and manner of filing*—(1) *Form.* The return required to be filed under section 6041A(a) or (b) and paragraph (a) or (b) of this section shall be filed on Forms 1096 and 1099 in accordance with the instructions accompanying those forms.

(2) *Time for filing.* The return shall be filed on or before February 28 of the year following the calendar year for which the return is filed.

(3) *Place of filing.* The return shall be filed with the appropriate Internal Revenue Service Center, at the address listed in the instructions for Forms 1096 and 1099.

(4) *Contents*—(i) *In general.* Unless otherwise provided in the instructions to Form 1099, the return required under section 6041A(a) or (b) and paragraph (a) or (b) of this section shall set forth the information contained in paragraph (e)(4)(ii) or (iii) of this section.

(ii) *Return required under section 6041A(a).* The return required to be filed under section 6041A(a) and paragraph (a)(1) of this section shall set forth the aggregate amount of remuneration paid to the person with respect to whom the return is made during the calendar year for services rendered, the name, address, and taxpayer identification number of the person making the payment, and the name, address, and taxpayer identification number of the recipient of the remuneration.

(iii) *Return required under section 6041A(b).* A return required to be filed under section 6041A(b) and paragraph (b)(1) of this section shall set forth the name, address, and taxpayer identification number of the person making the sales, and the name, address, and taxpayer identification number of the buyer.

(f) *Statements to be furnished to persons with respect to whom information is required to be furnished*—(1) *In general.* Every person required to file a return pursuant to section 6041A(a) or (b) and paragraph (a) or (b) of this section shall furnish a written statement to each person whose name is required to be set forth in that return.

(2) *Time for furnishing statement.* The written statement required under paragraph (f)(1) of this section shall be furnished to the person on or before January 31 of the year following the calendar year for which the return under section 6041A(a) or (b) was made.

(3) *Contents of statement.* The statement shall contain—

(i) The name, address, and taxpayer identification number of the person required to make the return, and

(ii) In the case of a return required to be filed under section 6041A(a) and paragraph (a)(1) of this section, the aggregate amount of payments to the person required to be shown on the return.

(g) *Recipient to furnish name, address, and identification number.* Any person with respect to whom a return or statement is required to be made pursuant to section 6041A and this section by another person shall furnish to that other person his name, address, and identification number upon demand by the person required to make the return.

(h) *Penalties*. For provisions relating to the penalties for failure to file a return or to furnish a statement under section 6041A and this section, see sections 6652 and 6678 of the Code. For provisions relating to the penalty for failure to supply identification numbers under this section, see section 6676.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

Notice of Proposed Rulemaking

Accounting for Long-term Contracts; Corporations Filing Consolidated Returns With a Contractor

LR-121-85

SUMMARY: * * * [T]he Internal Revenue Service is issuing a Treasury decision, adopting final regulations relating to accounting for long-term contracts. This document contains a notice of proposed rulemaking to amend the regulations adopted by that Treasury decision. The amendments clarify how certain rules of the Treasury decision apply in the case of certain corporations which produce components or subassemblies and with which the contractor joins in filing a consolidated return.

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 7, 1986. The proposed regulations are proposed to be effective on January 6, 1986 and would apply to taxable years ending after such date.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, (LR-121-85) Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Paulette Chernyshev of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3288, not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 451 of the Internal Revenue Code of 1954 which have been adopted by Treasury decision and published * * * [on page 5, this Bulletin]. The Treasury decision provides that the beginning of manufacture by the taxpayer of components and subassemblies related to a contract can constitute the contract commencement date, and that the taxpayer must use the extended period costing rules for components and subassemblies produced by the taxpayer which reasonably can be expected to be incorporated into the subject matter of extended period long-term contracts. These amendments are proposed to extend the rules set forth in the preceding sentence to certain corporations with which the taxpayer joins in filing a consolidated return.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the notice and public procedure requirements of 5 U.S.C. 553 do not apply because the rules proposed are interpretative. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. Chapter 6).

DRAFTING INFORMATION

The principal author of these proposed regulations is Paulette Chernyshev of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and the Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805 * * *

Section 1.451-3 amended under the authority in 96 Stat. 324, 493.

Par. 2. Section 1.451-3 is amended as follows:

1. Paragraph (b) is amended by adding a sentence to the end of paragraph (b)(3)(v) as set forth below:

2. Paragraph (d) is amended by adding a sentence to the end of paragraph (d)(6)(iv) as set forth below.

The added language reads as follows:

§1.451-3 Long-term contracts.

(b) *Definitions, and special rules relating to certain contracts.* * * *

(3) *Extended period long-term contract.* * * *

(v) *Special rule for contract commencement date in case of components or subassemblies produced by the taxpayer.* * * * For taxable years ending after the date the Treasury decision based on these proposed amendments is published in the Federal Register, the term "taxpayer" as used in this paragraph (b)(3)(v) includes members of a group with which the taxpayer joins in the filing of a consolidated return if such group does not elect not to defer gains and losses on intercompany transactions (See §1.1502-13(c)(3)).

§1.451-3 Long-term Contracts

(d) *Completed contract method.* * * *

(6) *Allocation of costs to extended*

period long-term contracts. * * *

(iv) *Special rule for component parts or subassemblies produced by the taxpayer.* * * *

For taxable years ending after the date the Treasury decision based on these proposed amendments is published in the Federal Register, the term "taxpayer" as used in this paragraph (d)(6)(iv) includes members of a group with which the taxpayer joins in the filing of a consolidated return if such group does not elect not to defer gains and losses on intercompany transactions (See §1.1502-13(c)(3)).

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

Deletions from Cumulative List of Organizations Contributions to Which Are Deductible Under Section 170 of the Code

Announcement 86-14

The names of organizations that no longer qualify as organizations described in section 170(c)(2) of the Internal Revenue Code of 1954 are listed below.

Generally, the Service will not disallow deductions for contributions made to a listed organization on or before the date of announcement in the Internal Revenue Bulletin that an organization no longer qualifies. However, the Service is not precluded from disallowing a deduction for any contributions made after an organization ceases to qualify under section 170(c)(2) if the organization has not timely filed a suit for declaratory judgment under section 7428 and if the contributor (1) had knowledge of the revocation of the ruling or determination letter, (2) was aware that such revocation was imminent, or (3) was in part responsible for or was aware of the activities or omissions of the organization that brought about this revocation.

If on the other hand a suit for declaratory judgment has been timely field, contributions from individuals and organizations described in section 170(c)(2) that are otherwise allowable will continue to be deducible. Protection under section 7428(c) would begin on February 10, 1966, (the date of publication of this announcement) and would end on the date the court first determines that the organization is not described in section 170(c)(2) as more particularly set forth in section 7428(c)(1). For individual contributors, the maximum deduction protected is $1,000, with a husband and wife treated as one contributor. This benefit is not extended to any individual who was responsible, in whole or in part, for the acts or omissions of the organization that were the basis for revocation.

Substantiation Requirements With Respect to Listed Property; Limitations Applicable to Lessees of Passenger Automobiles—Public Hearing

Announcement 86-18 [1]

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to the requirements to substantiate certain deductions and credits claimed with respect to "listed property," and the limitations on the investment credit and deductions for lease payments that apply to certain lessees of passenger automobiles.

DATES: The public hearing will be held on Monday, March 3, 1986, beginning at 10:00 a.m. If necessary to accommodate all speakers, the public hearing will be reconvened on Tuesday, March 4, 1986, at 10:00 a.m. Outlines of oral comments must be delivered or mailed by February 17, 1986.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. The requests to speak and outlines of oral comments should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-145-85), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: B. Faye Easley of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed and temporary regulations under sections 61, 132, 162, 274, and 280F of the Internal Revenue Code of 1954. These regulations first appeared in the Federal Register for Wednesday, November 6, 1985 (50 FR 46088 [LR-145-84, 1985-46 I.R.B. 47] and 50 FR 46006 [T.D. 8061, 1985-46 I.R.B. 7]). Portions of the regulations then appeared in revised format in the Federal Register for Monday, December 23, 1985 (50 FR 52281) [T.D. 8063, 1986-3 I.R.B. 4]. These regulations relate to the requirement to substantiate certain business expenses with adequate records or sufficient corroborative evidence, the limitations on the investment credit and deductions for lease payments that apply to certain lessees of passenger automobiles, and certain substantiation rules related to the taxation of fringe benefits.

The following specific topics are covered in the regulations published on November 6, 1986, and will be the subject of the public hearing:

Substantiation requirements (§§1.274-5T and 1.274-6T),

Limitations applicable to lessees of passenger automobiles (§§1.280F-1T and 1.280F-5T),

Deductions with resect to noncash fringe benefits (§1.162-25T),

Special rule for valuing commuting use of employer-provided vehicles (§1.61-2T Q/A-20 through Q/A-21, now §1.61-2T(f), as revised by T.D. 8063, published in the Federal Register for December 23, 1985 (50 FR 52281)), and

Substantiation requirements applicable to a working condition fringe (§ 1.132-1T Q/A-4a and Q/A-4b, now §1.132-5T(c) through (h), as revised by T.D. 8063, published in the Federal Register for December 23, 1985 (50 FR 52281)).

No other provisions of the proposed

---

[1] Filed by the Office of the Federal Register on January 21, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 22, 1986, 51 F.R. 2898.

and temporary regulations on the taxation of fringe benefits contained in T.D. 8063, published in the Federal Register for December 23, 1985 (50 FR 52333 and [LR-216-84, 1985-3 I.R.B. 40] 50 FR 52281 [T.D. 8063, 1986-3 I.R.B. 4]), are to be addressed at the hearing. These provisions will be the subject of a separate public hearing to be scheduled in the near future.

Comments on §1.274-5T at the hearing on March 3, are to be limited to the portions of that section that are new. Existing §1.274-5 of the Income Tax Regulations, which was first adopted by Treasury decision in 1962, reflects the addition to the Code of the substantiation requirements of section 274(d). That section of the regulations served as the basis for new temporary regulation §1.274-5T, which reflects the application of section 274(d) to listed property. As published in the Federal Register for November 6, 1985, the portions of §1.274-5T that differ from existing §1.274-5 are underlined. Testimony on the provisions of §1.274-5T should be limited to the underlined portions of that section.

The rules of §601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations, should submit, not later than Monday, February 17, 1986, an outline of the oral comments to be presented at the hearing and the time they wish to devote to each subject.

Each speaker will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Philip G. Arneson	Sparta, WI	Attorney	Indefinite from December 15, 1985
Joseph P. Day	Woburn, MA	Attorney	Indefinite from December 24, 1985
Kenneth H. Dillard	Nashville, TN	Certified Public Accountant	Indefinite from December 31, 1985
LeRoy Hodge	Hamilton, NY	Attorney	Indefinite from December 10, 1985
Frank S. Lukuch	Barberton, OH	Certified Public Accountant	Indefinite from December 4, 1985
W. Stephen McConnell	Tampa, FL	Certified Public Accountant	Indefinite from December 26, 1985
Nathan Rich	Wilmington, DE	Certified Public Accountant	Indefinite from December 1, 1985
Walter E. Shettlemore	Long Beach, MS	Certified Public Accountant	Indefinite from December 20, 1985

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.61-2T, removed; new 1.61-2T, added; 1.132-1T, removed; new 1.1.32-1T, added; 1.132-2T through 1.132-8T, added; 1.162-25T, 1.274-5T, 1.274-6T, amended.	Taxation of fringe benefits and exclusions from gross income of certain fringe benefits	1986-3 I.R.B. 40	Feb. 21, 1986
26 CFR 1.43-3(e), revised 1.47-1, 1.48-9, 1.167(a)-11, amended	Recapture of investment credit for mass assets	1986-4 I.R.B. 42	Feb. 18, 1986

Definition of Terms

Revenue rulings and revenue procedures (hereinafter referred to as "rulings") that have an effect on previous rulings use the following defined terms to describe the effect:

Amplified describes a situation where no change is being made in a prior published position, but the prior position is being extended to apply to a variation of the fact situation set forth therein. Thus, if an earlier ruling held that a principle applied to A, and the new ruling holds that the same principle also applies to B, the earlier ruling is amplified. (Compare with *modified, below*).

Clarified is used in those instances where the language in a prior ruling is being made clear because the language has caused, or may cause, some confusion. It is not used where a position in a prior ruling is being changed.

Distinguished describes a situation where a ruling mentions a previously published ruling and points out an essential difference between them.

Modified is used where the substance of a previously published position is being changed. Thus, if a prior ruling held that a principle applied to A but not to B, and the new ruling holds that it applies to both A and B, the prior ruling is modified because it corrects a published position. (Compare with *amplified* and *clarified*, above).

Obsoleted describes a previously published ruling that is not considered determinative with respect to future transactions. This term is most commonly used in a ruling that lists previously published rulings that are obsoleted because of changes in law or regulations. A ruling may also be obsoleted because the substance has been included in regulations subsequently adopted.

Revoked describes situations where the position in the previously published ruling is not correct and the correct position is being stated in the new ruling.

Superseded describes a situation where the new ruling does nothing more than restate the substance and situation of a previously published ruling (or rulings). Thus, the term is used to republish under the 1954 Code and regulations the same position published under the 1939 Code and regulations. The term is also used when it is desired to republish in a single ruling a series of situations, names, etc., that were previously published over a period of time in separate rulings. If the new ruling does more than restate the substance of a prior ruling, a combination of terms is used. For example, *modified and superseded* describes a situation where the substance of a previously published ruling is being changed in part and is continued without change in part and it is desired to restate the valid portion of the previously published ruling in a new ruling that is self contained. In this case the previously published ruling is first modified and then, as modified, is superseded.

Supplemented is used in situations in which a list, such as a list of the names of countries, is published in a ruling and that list is expanded by adding further names in subsequent rulings. After the original ruling has been supplemented several times, a new ruling may be published that includes the list in the original ruling and the additions, and supersedes all prior rulings in the series.

Suspended is used in rare situations to show that the previous published rulings will not be applied pending some future action such as the issuance of new or amended regulations, the outcome of cases in litigation, or the outcome of a Service study.

Abbreviations

The following abbreviations in current use and formerly used will appear in material published in the Bulletin.

A—Individual.
Acq.—Acquiescence.
B—Individual.
BE—Beneficiary.
BK—Bank.
B.T.A.—Board of Tax Appeals.

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86-19, page 4.

Credit for producing fuel from a nonconventional source. After December 31, 1984, gas produced from a tight formation that also falls under any of the categories of gas specified in 18 CFR 272.103(a) under the Natural Gas Policy Act of 1978 (NGPA) will no longer be eligible for the credit allowed by section 29 (formerly section 44D) of the Internal Revenue Code.

Rev. Rul. 86-21, page 17.

Corporations; odd-lot purchases of own stock; broker reporting requirements. A corporation that purchases odd-lot shares from its stockholders on an irregular basis is not a broker for purposes of the reporting requirements of section 6045(a) of the Code.

Rev. Rul. 86-22, page 4.

LIFO; price indexes; department stores. The October 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, October 31, 1985.

T.D. 8064, page 18.

LR-236-84, page 26.

Temporary and proposed regulations under section 6050K of the Code relate to information returns, statements, and notifications required when there is a sale or exchange of certain partnership interests.

EXEMPT ORGANIZATIONS

Announcement 86-19, page 31.

A list is given of organizations now classified as private foundations.

Finding Lists begin on page 37.
Announcement of Suspensions on page 35.
Announcement of Notice of Proposed Rulemaking on page 36.

Department of the Treasury
Internal Revenue Service

EMPLOYMENT TAXES

Rev. Proc. 86-8, page 22.

Form 940; credit reductions; computation. The credit against employment tax for amounts paid into the unemployment funds maintained by various states, Puerto Rico, and the Virgin Islands, is reduced for wages paid by employers during 1985 for services performed in those jurisdictions.

EXCISE TAXES

Rev. Rul. 86-20, page 16.

Gas guzzler tax liability. The gas guzzler tax imposed by section 4064 of the Code applies to automobiles imported without a prototype-based fuel economy rating assigned by the Environmental Protection Agency.

Rev. Proc. 86-9, page 22.

Gas guzzler tax; computation of liability. Guidelines are set forth for importers of automobiles to compute gas guzzler tax liability under section 4064 of the Code for automobiles that are imported without a fuel economy rating assigned by the Environmental Protection Agency.

T.D. 8066, page 4.

Amendments to the regulations under section 4041 of the Code relate to the retail excise tax on special fuels.

EMPLOYEE PLANS

Announcement 86-20, page 34.

Group legal services plans, cafeteria plans, and educational assistance plans are required to file an annual return for years beginning after December 31, 1984. The return should be filed on either Form 5500, Form 5500-C, or Form 5500-R. These forms have been revised and are now available.

ADMINISTRATIVE

LR-59-85, page 26.

Proposed amendments to the regulations relate to information reporting of allowances, or reimbursements, or charges for travel and other expenses of public employees and certain other persons.

Announcement 86-17, page 27.

Publication 1212, List of Original Issue Discount Instruments (Revised December 1985), contains incorrect information in Section I-B. The corrected information is provided in this Announcement and will also be available from IRS Distribution Centers together with Publication 1212.

T22.23:

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

READEX FICHE best copy available

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 29—Credit for Producing Fuel from a Nonconventional Source

Credit for producing fuel from a nonconventional source. After December 31, 1984, gas produced from a tight formation that also falls under any of the categories of gas specified in 18 CFR 272.103(a) under the Natural Gas Policy Act of 1978 (NGPA) will no longer be eligible for the credit allowed by section 29 (formerly section 44D) of the Internal Revenue Code.

Rev. Rul. 86-19

Section 29(a) of the Code (formerly Section 44D(a)) provides a credit against income tax of $3 per barrel-of-oil equivalent of qualified fuels sold by the taxpayer during the taxable year, subject to stated conditions. Section 29(c)(1)(B) provides that the term "qualified fuels" includes "gas produced from . . . a tight formation." However, section 29(c)(2)(B)(i) provides that the term "gas produced from a tight formation" shall only include gas the price of which is regulated by the United States.

Section 121 of the Natural Gas Policy Act of 1978, Pub. L. No. 95-621, 15 U.S.C. section 3331 (1982) (NGPA) eliminated price controls as of January 1, 1985, on certain categories of natural gas classified under section 102(c) and section 103(c) of the NGPA. The Federal Energy Regulatory Commission (FERC) has issued regulations concerning the types of gas that were deregulated by section 121. *See* 49 Fed. Reg. 46,874 (Nov. 29, 1984). These regulations include amendments to 18 C.F.R. section 272.103(a), which defines "deregulated natural gas." *See* 49 Fed. Reg. 46,884. The FERC also decided that gas is deregulated if it falls into two or more categories any one of which is a deregulated category. *See* 49 Fed. Reg. 46,877-79.

Thus, gas produced and sold after December 31, 1984, that falls under any of the categories listed in 18 C.F.R. section 272.103(a) (as amended) is gas the price of which is not regulated by the United States. Gas produced from a tight formation is generally classified as section 107(c)(5) gas under the NGPA. However, a considerable amount of section 107(c)(5) gas also is classified as section 102 or 103 gas. Thus, if gas from a tight formation also qualifies under section 102 of 103, it is deregulated for purposes of the NGPA. In accordance with section 29(c)(2)(B)(i) of the Code, even if such gas would otherwise qualify as gas produced from a tight formation, it is not a qualified fuel under section 29(c), and producers of the gas are not eligible for the credit allowed by section 29(a).

Section 472.—Last-in, First-out Inventories

26 CFR 1.472-1: Last-in, first-out inventories.

LIFO; price indexes; department stores. The October 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, October 31, 1985.,

Rev. Rul. 86-22

The price indexes (appearing at the top of page 5) for October 1985 were issued by the Bureau of Labor Statistics on November 26, 1985, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472-1(k) of the Income Tax Regulations and Rev. Proc. 72-21, 1972-1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, October 31, 1985.

Indexes are prepared on a national basis for the store total, for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, paints, and wallpaper, as well as contract departments.

Section 3302.—Credits Against Tax

26 CFR 31.3302(c)-1: Limit on total credits.

Reductions (for 1985) in credit applicable to employers for whom services are performed in various "states." See Rev. Proc. 86-8, page 22.

Section 4041.—Imposition of Tax [Special Fuels]

26 CFR 48.4041-1: Taxes on diesel fuel, special motor fuel, and fuel used in noncommercial aviation.

T.D. 8066

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER D, SUBCHAPTER H, PART 48—MANUFACTURERS AND RETAILERS EXCISE TAXES; PART 154—TEMPORARY REGULATIONS IN CONNECTION WITH THE AIRPORT AND AIRWAY REVENUE ACT OF 1970; PART 602—REPORTING AND RECORDKEEPING REQUIREMENTS

Retail Excise Tax on Special Fuels

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document provides final regulations which revise and update the regulations relating to excise taxes on special fuels. Changes to the applicable law were made by the Excise Tax Reduction Act of 1965 [Pub. L. 98-44, 1965-2 C.B. 568], the Airport and Airway Revenue Act of 1970 [Pub. L. 91-258, 1970-1 C.B. 361], the Energy Tax Act of 1978, [Pub. L. 95-618, 1978-3 C.B. (Vol. 2) 1], the Tax Equity and Fiscal Responsibility Act of 1982 [Pub. L. 97-248, 1982-2 C.B. 462], the Surface Transportation Assistance Act of 1982 [Pub. L. 97-424, 1983-1 C.B. 405], and the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1]. These regulations provide necessary guidance to the public for compliance with the law and affect sales or uses of diesel fuel, special motor fuels and fuels for use in noncommercial aviation.

DATES: Except as otherwise provided in this document, the regulations are effective for sales or uses of diesel fuel, special motor fuels and fuels for use in an aircraft after December 31, 1954.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On October 22, 1980, the FEDERAL REGISTER published proposed amendments to the Manufacturers and Retailers Excise Tax Regulations (26 CFR Part 48) under section 4041 of the Internal Revenue Code of 1954 (Code) (45 FR 69933). The amendments were proposed to conform the regulations to statutory changes made to section 4041 of the Code since 1964. These statutory changes were made by the Excise Tax Reduction Act of 1965 (P.L. 89-44, 79 Stat. 136) [1965-2 C.B. 568], which repealed all retailers excise taxes on articles other than special fuels, and the Airport and Airway Revenue Act of 1970 (P.L. 91-258, 84 Stat. (Part 1) 237) [1970-1 C.B. 361], which imposed a tax under section 4041 of the Code on the use of fuels in noncommercial aviation. A public hearing on the proposed regulations was held on April 8, 1981. After consideration of all comments received concerning the proposed amendments, those amendments are adopted as revised by this Treasury decision. In addition, this Treasury decision revises the proposed regulations by incorporating the statutory changes made to section 4041 by the Energy Tax Act of 1978 (P.L. 95-618, 92 Stat. 3174) [1978-3 C.B. (Vol. 2) 1], which repealed the excise tax reduction for special motor fuels used in a motor vehicle for non-business, off-highway purposes; the Tax Equity and Fiscal Responsibility Act of 1982 (P.L. 97-248, 92 Stat. 324) [1982-2 C.B. 462], which reimposed the tax and increased the rate of tax on fuel used in noncommercial aviation; the Surface Transportation Assistance Act of 1982 (P.L. 97-424, 96 Stat. 2168) [1983-1 C.B. 405], which increased the rate of tax on diesel and special motor fuels and which repealed the excise tax reduction for diesel fuel used in a diesel-powered highway vehicle for non-business, off-highway purposes; and the Tax Reform Act of 1984 (P.L. 98-369, 98 Stat. 1005) [1984-3 C.B. (Vol. 1) 1], which increased the tax on diesel fuel.

PUBLIC COMMENTS

Several public comments were received regarding the proposed regulations. The more significant comments are discussed below.

In response to a comment suggesting the deletion of the temporary regulations under §154.1-1 to confirm that these regulations supersede that section, §154.1-1 has been removed.

Taxable Sales

Sections 48.4041-2(a), 48.4041-2(b), 48.4041-3(a), 48.4041-3(b), 48.4041-4(a), and 48.4041-4(b) all deal with the sales of special fuels. Two commentators requested that the term "sale" as used in these sections be changed to "taxable sale". The commentators were concerned that, absent this change, some sales, not taxable in fact, might be presumed to be taxable. In response to the comments, the suggested changes were made.

Bulk Sales

Sections 48.4041-5 and 48.4041-6 established general rules on fuels sold or used, including rules on bulk sales. Commentators suggested amending §48.4041-5(a)(2)(ii) and §48.4041-6(b) to make it clear that a taxable bulk sale has not occurred unless the seller acknowledges in writing the receipt of the purchaser's statement that the bulk sale was taxable. This would protect a seller from the later claim of a purchaser that such a statement was delivered when this was not the case. The final regulations do not adopt this request because the seller's liability for the tax would then depend upon the seller's acknowledgement and this would defeat the purpose of the regulation.

Section 48.4041-5(a)(2) also establishes requirements for purchasers who make bulk purchases from a single seller for both taxable and nontaxable purposes. These sales may be treated as only partially taxable if proper records are kept and certain other requirements are satisfied. Two commentators requested adding language to §48.4041-5(a)(2) stating that the recordkeeping burden is on the purchaser, not the seller, because the information for such records is within the control of the purchaser, not the seller. The final regulations adopt this suggestion.

Consignments

Section 48.4041-5(b)(2) concerns consignments which are generally not taxable. Tax is due on the later sale of the fuel by the consignee on behalf of the consignor where the fuel is sold for taxable use. Consistent with the suggestions of the comments, §48.4041-5(b)(2) was changed to make it clear that the owner of the fuel at the time of the taxable sale is the person liable for the tax.

Registered Highway Vehicles

Two commentators requested that the definition of "registered highway vehicle" in §48.4041-8(i)(2) be changed to exclude vehicles operated pursuant to special permits "for operation at particular times and under specified conditions." These vehicles were considered registered highway vehicles under the proposed regulations. Under the final regulations, a vehicle will not be considered registered solely by reason of the fact that a special permit has been issued.

Noncommercial Aviation

Another commentator requested that §48.4041-8(j) be rewritten to define noncommercial aviation so as to exclude from the tax imposed by section 4041 special fuel used in "carriage for hire" which is only an "incidental" use as opposed to a major enterprise for profit. The final regulations do not adopt this position because it is not authorized under section 4041(c).

The commentators suggested that a "good faith", rather than "reasonable diligence", test should be imposed on sellers under §48.4041-11(d)(5), relating to tax-free sales of fuel for use in noncommercial aviation. It was determined, however, that sellers should exercise reasonable diligence in ascertaining that the liquid fuel is not being used in noncommercial aviation.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in these final regulations have been submitted to the Office of Management and Budget (OMB) for review under the Paperwork Reduction Act. These regulations have been approved by OMB (control number 1545-0023).

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this final rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. Although a notice of proposed rulemaking which solicited public comments was issued, the Internal Revenue Service concluded when the notice was issued that the regulations are interpretative and that the notice and public procedure requirement of 5 U.S.C. 553 did not apply. Accordingly, the final regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. 6).

DRAFTING INFORMATION

The principal author of this regulation is William A. Jackson of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

* * * * *

Adoption of Amendments to the regulations

Accordingly, 26 CFR Parts 48, 154 and, 602 are amended as follows:

Paragraph 1. The authority citation for Part 48 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 2. Sections 48.4041, 48.4041-1, and 48.4041-2 are removed and new §§48.4041-1 and 48.4041-2 are added immediately after §48.0-5 and the heading for subpart B-E. The new sections read as follows:

Subpart F—Special Fuels

§48.4041-1 Taxes on diesel fuel, special motor fuel, and fuel used in noncommercial aviation.

(a) *In general*. Section 4041 imposes an excise tax at the retail level on the sale of diesel fuel for use as a fuel in a diesel-powered highway vehicle, special motor fuel for use as a fuel in a motor vehicle or motorboat, and fuel for use in an aircraft in noncommercial aviation. A tax is also imposed when these liquid fuels are purchased tax-free and subsequently used for one of the above-mentioned purposes, or when these liquid fuels are purchased at one rate of tax and a higher rate of tax applies as a result of the use made of the liquid fuels.

(b) *Rates of tax*. Following are the rates of tax per gallon applicable to liquid fuels taxable under section 4041.

(1) *Diesel fuels.* (i) Before April 1, 1983, diesel fuel sold for use or used as a fuel in a diesel-powered highway vehicle that at the time of the sale or use is—

(A) Registered or required to be registered for highway use—4 cents

(B) Owned by the United States and used on the highway—4 cents

(C) Not registered and not required to be registered for highway use—2 cents

(D) Owned by the United States and not used on the highway—2 cents

(E) A vehicle described in paragraphs (b)(1)(i)(A) or (B) of this section in which the fuel that is used before April 1, 1983, was purchased at the rate of 2 cents a gallon for use in a vehicle described in paragraphs (b)(1)(i)(C) or (D) of this section, an additional—2 cents.

(F) A vehicle described in paragraphs (b)(1)(i)(A) or (B) of this section in which the fuel that is used on or after April 1, 1983, and before August 1, 1984, was purchased before April 1, 1983, at a rate of 2 cents a gallon for use in a vehicle described in paragraphs (b)(1)(i)(C) or (D) of this section, an additional—7 cents

(G) A vehicle described in paragraphs (b)(1)(i)(A) or (B) of this section in which the fuel that is used on or after August 1, 1984, and before October 1, 1988, was purchased before April 1, 1983, at a rate of 2 cents a gallon for use in a vehicle described in paragraphs (b)(1)(i)(C) or (D) of this section, an additional—13 cents.

(ii) On or after April 1, 1983, and before August 1, 1984, diesel fuel—

(A) Sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in such a vehicle—9 cents

(B) Used by any person as a fuel in a diesel-powered highway vehicle, unless there was a tax imposed by reason of paragraphs (b)(1)(i) or (ii)(A) of this section—9 cents

(C) Sold for use or used in an off-highway business—no tax

(D) On which no tax was imposed by reason of paragraph (b)(1)(ii)(C) of this section, relating to an off-highway business use, and is used before August 1, 1984, in other than an off-highway business use—9 cents

(E) Sold before August 1, 1984, and on which no tax was imposed by reason of paragraph (b)(1)(ii)(C) of this section, relating to off-highway business use, and is used on or after August 1, 1984, in other than an off-highway business use—15 cents. For purposes of paragraphs (b)(1)(iii)(C), (D), and (E) of this section, the term "off-highway business use" has the same meaning given to such term by section 6421(d)(2).

(iii) On or after August 1, 1984, and before October 1, 1988, diesel fuel—

(A) Sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in such a vehicle—15 cents

(B) Used by any person as a fuel in a diesel-powered highway vehicle, unless there was a tax imposed by reason of paragraphs (b)(1)(i), (ii), or (iii)(A) of this section—15 cents

(C) Sold for use in an off-highway business use—no tax

(D) On which no tax was imposed by reason of paragraph (b)(1)(iii)(C) of this section, relating to an off-highway business use, and which is used in other than an off-highway business use—15 cents. For purposes of paragraphs (b)(1)(iii)(C) and (D) of this section, the term "off-highway business use" has the same meaning given to such term by section 6421(d)(2).

(2) *Special motor fuels.* (i) On or after January 1, 1979, and before April 1, 1983, special motor fuel—

(A) Sold by any person to an owner, lessee or other operator of a motor vehicle or motorboat for use as fuel in such motor vehicle or motorboat—4 cents

(B) Used by any person as a fuel in a motor vehicle or motorboat, unless there was a taxable sale of such liquid under paragraph (b)(2)(i) of this section—4 cents

(C) Sold for use or used in a qualified business use, the tax imposed under paragraph (b)(2)(i)(A) and (B) of this section is—2 cents

(D) On which tax was imposed at a rate of 2 cents a gallon by reason of paragraph (b)(2)(i)(C) of this section, relating to a qualified business use, is used in other than a qualified business use, an additional—2 cents

(E) Sold before April 1, 1983, and on which tax was imposed at a rate of 2 cents a gallon by reason of paragraph (b)(2)(i)(C) of this section, relating to qualified business use, and which is used on or after April 1, 1983, and before October 1, 1988, in other than an off-highway business use, an additional—7 cents. For purposes of paragraphs (b)(2)(i)(C) and (D) of this section, the term "qualified business use" has the same meaning as that given to the term "off-highway business use" by section 6421(d)(2).

(ii) On or after April 1, 1983, and before October 1, 1988, special motor fuel—

(A) Sold by any person to an owner, lessee or other operator of a motor vehicle or motorboat for use as a fuel in such motor vehicle or motorboat—9 cents

(B) Used by any person as a fuel in a motor vehicle or motorboat, unless there was a tax imposed by reason of paragraph (b)(2)(i) or (ii)(A) of this section—9 cents

(C) Sold for use or used in an off-highway business use—no tax

(D) On which no tax was imposed by reason of paragraph (b)(2)(ii)(C) of this section relating to an off-highway business use, which and is used in other than an off-highway business use—9 cents. For purposes of paragraphs (b)(2)(ii)(C) and (D) of this section, the term "off-highway business use" has the same meaning given to such term by section 6241(d)(2).

(3) *Noncommercial aviation.* (i) On or after July 1, 1970, and before October 1, 1980, any liquid—

(A) Other than any product taxable under section 4081, that is—

(*1*) Sold by any person to an owner, lessee or other operator of an aircraft, for use as a fuel in such aircraft in noncommercial aviation—7 cents

(*2*) Used by any person as a fuel in an aircraft in noncommercial aviation, unless there was a taxable sale of such liquid under paragraph (b)(3)(i)(A)(*1*) of this section—7 cents

(B) That is taxable under section 4081 and that is—

(*1*) Sold by any person to an owner, lessee or other operator of an aircraft for use as a fuel in such aircraft in noncommercial aviation—3 cents

(*2*) Used by any person as a fuel in an aircraft in noncommercial aviation, unless there was a taxable sale of such liquid under paragraph (b)(3)(i)(B)(*1*)—3 cents.

(ii) On or after October 1, 1980, and

before September 1, 1982, any liquid sold for use or used as a fuel in an aircraft in noncommercial aviation—no tax.

(iii) On or after September 1, 1982, and before January 1, 1988, any liquid—

(A) Other than any product taxable under section 4081, that is—

(1) Sold by any person to an owner, lessee or other operator of an aircraft for use as a fuel in such aircraft in noncommercial aviation—14 cents

(2) Used by any person as a fuel in an aircraft in noncommercial aviation, unless there was a tax imposed by reason of paragraph (b)(3)(i)(A)*(1)* or (iii)(A)*(1)* of this section, or unless no tax was imposed by reason of paragraph (b)(3)(ii) of this section—14 cents

(3) Used by any person as a fuel in an aircraft in noncommercial aviation where tax was imposed on the sale of such liquid—the excess of the rate set forth in paragraph (b)(3)(iii)(A)(2) of this section over the tax imposed on the sale

(B) That is taxable under section 4081 and that is—

(1) Sold by any person to an owner, lessee or other operator of an aircraft for use as a fuel in such aircraft—the excess of 12 cents a gallon over the rate at which the tax was imposed under section 4081

(2) Used by any person as a fuel in an aircraft in noncommercial aviation, unless there was a tax imposed by reason of paragraph (b)(3)(i)(B)(*1*) or (iii)(B)(*1*) of this section, or unless no tax was imposed by reason of paragraph (b)(3)(ii) of this section—the excess of 12 cents a gallon over the rate of which tax was imposed under section 4081.

(iv) On or after January 1, 1988, any liquid sold for use or used as a fuel in an aircraft in noncommercial aviation—no tax.

(c) *Credit for tax paid.* For a credit or refund for tax paid on diesel fuel, special motor fuel, or fuel used in noncommercial aviation that is resold, or used otherwise than for the purpose for which purchased, see section 6427(a).

§48.4041-2 Application of tax on sales of diesel fuel use in diesel-powered highway vehicles.

(a) *In general*—(1) *Sales of diesel fuel before April 1, 1983.* The tax imposed by paragraph (1) of section 4041(a) applies to the taxable sale of diesel fuel before April 1, 1983, by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in the diesel-powered vehicle. The tax applies to diesel fuel sold for use in a diesel-powered highway vehicle, whether the vehicle actually is employed in highway or off-highway use.

(2) *Sales of diesel fuel on or after April 1, 1983, and before October 1, 1988.* The tax imposed by paragraph (1)(A) of section 4041(a) applies to the taxable sale of diesel fuel on or after April 1, 1983, and before October 1, 1988, by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in such a vehicle. The tax does not apply to diesel fuel sold for use in an off-highway business use.

(b) *Liability for tax.* The tax on the taxable sale of diesel fuel is payable by the person who sells the diesel fuel to the owner, lessee, or other operator of a diesel-powered highway vehicle.

(c) *Rate of tax*—(1) *In general.* Tax is imposed on the sale of diesel fuel at the rate applicable on the date on which the diesel fuel is sold. See §48.4041-1(b)(1) for rates.

(2) *Diesel fuel sold before April 1, 1983.* For diesel fuel sold before April 1, 1983, for use in a diesel-powered highway vehicle, the test of taxability at the rate specified in §48.4041-1(b)(1)(i)(A) is whether the vehicle in which the fuel is to be used is registered, or required to be registered, for highway use under the laws of any State or foreign country at the time of sale. Tax at a rate specified in that section applies to all fuel sold for use in a diesel-powered highway vehicle which is registered, or required to be registered, for highway use under the laws of any State or foreign country, even though the vehicle is seldom or never used on the highway and regardless of the proportion of the fuel used off the highway as compared to total fuel consumption.

(3) *Diesel fuel sold on or after April 1, 1983, and before October 1, 1988.* For diesel fuel sold for use in a diesel-powered highway vehicle on or after April 1, 1983, and before October 1, 1988, the test of taxability at the rate specified in paragraph (b)(1)(ii)(A) or (iii)(A) of §48.4041-1 is whether the vehicle in which the fuel is to be used is a diesel-powered highway vehicle. The tax applies to all fuel sold for use in a diesel-powered highway vehicles unless the diesel fuel is sold for use or used in an "off-highway business use" as defined in section 6421(d)(2).

(d) *Example.* Application of the tax to the sale of diesel fuel may be illustrated by the following example:

Example. The M Corporation is engaged in the construction of a power dam at a site removed from all public highways. Part of its construction equipment consists of diesel-powered shovels; bulldozers, and highway-type dump trucks. Some of the trucks are registered for highway use and are used both on and off the public roads. Others are not registered and under the applicable State law are not required to be registered for highway use because they are used entirely on the construction site. Before April 1, 1983, the diesel fuel sold for use in the registered dump trucks is all subject to tax at the rate specified in §48.4041-1(b)(1)(i)(A), even though a portion of it is used off the public highway. Before April 1, 1983, the fuel sold for use in the nonregistered trucks, that are operated entirely off the highway, is taxable at the rate specified in paragraph (b)(1)(i)(C) of §48.4041-1. On and after April 1, 1983, and before August 1, 1984, fuel sold for use in the registered trucks is taxable at the rate specified in §48.4041-1(b)(1)(ii)(A), and the fuel sold for use in the nonregistered trucks that are operated entirely off the highway is exempt from tax as specified in §48.4041-1(b)(1)(ii)(C), assuming the trucks are used in off-highway business uses. On and after August 1, 1984, and before October 1, 1988, fuel sold for use in the registered trucks is taxable at the rate specified in §48.4041-1(b)(1)(iii)(A), and fuel sold for use in the nonregistered trucks is exempt from tax as specified in §48.4041-1(b)(1)(iii)(C), assuming the trucks are used in off-highway business uses. No tax is payable with respect to the diesel fuel sold for use in the power shovels and bulldozers, since they are not "highway vehicles" as defined in §48.4041-8(b).

(e) *Cross references.* (1) For the tax applicable in certain cases based on the use of diesel fuel as a fuel in a diesel-powered highway vehicle, see §48.4041-6.

(2) For the definition of the terms "highway", "highway vehicle", "diesel-powered highway vehicle", "diesel fuel", and "registered", see paragraphs (a), (b)(1), (b)(4), (e), and (i) of §48.4041-8, respectively. For the definition of the term "off-highway business use", see section 6421(d)(2).

(3) For the exemption from tax with respect to diesel fuel sold for use on a farm for farming purposes, or as sup-

plies for vessels, see §§48.4041-9 and 48.4041-10, respectively.

(4) For the credit or refund of tax paid on diesel fuel resold or used for a purpose other than the purpose for which purchased, see section 6427(a).

Par. 3. Sections 48.4041-3, 48.4041-4, 48.4041-5, 48.4041-6, 48.4041-7, 48.4041-8, 48.4041-9, and 48.4041-10 are removed, and §§48.4041-11, 48.4041-12, 48.4041-13, and 48.4041-14 are redesignated as §§48.4041-15, 48.4041-16, 48-4041-17, and 48.4041-18, respectively.

Par. 4. The following new sections are added immediately after §48.4041-2T. The new sections read as follows:

§48.4041-3 Application of tax on sales of special motor fuel for use in motor vehicles and motorboats.

(a) *In general.* The tax imposed by paragraph (2)(A) of section 4041(a), (or before April 1, 1983, paragraph (1) of section 4041(b)), applies to the taxable sale of special motor fuel by any person to an owner, lessee, or other operator of a motor vehicle or motorboat, for use as a fuel in the motor vehicle or motorboat. The tax does not apply to special motor fuel sold for use on or after April 1, 1983, and before October 1, 1988, in an off-highway business use.

(b) *Liability for tax.* The tax on the taxable sale of special motor fuel is payable by the person who sells the special motor fuel to the owner, lessee, or other operator of a motor vehicle or motorboat.

(c) *Rate of tax*—(1) *In general.* Tax is imposed on the sale of special motor fuel at the rate applicable on the date on which the special motor fuel is sold. See §48.4041-1(b)(2) for rates. The test of taxability at the rates specified in §48.4041-1(b)(2)(i)(A) and (ii)(A) is whether the fuel is to be used in a motor vehicle or motorboat. For purposes of paragraphs (c)(2) and (3) of this section, the term "qualified business use" has the same meaning as that given to the term "off-highway business use" by section 6421(d)(2).

(2) *Special motor fuel sold for use as a fuel in a motor vehicle.* Tax at the rates specified in paragraphs (b)(2)(i)(A) and (ii)(A) of §48.4041-1 applies in the case of the sale of special motor fuel for use as a fuel in a motor vehicle. Tax at the rates specified in that section applies regardless of whether the motor vehicle is a highway vehicle. However, a reduced rate of tax from that imposed by paragraph (b)(2)(i)(A) of §48.4041-1 is allowed by paragraph (b)(2)(i)(C) of §48.4041-1 if special motor fuel is sold for use in a qualified business use. An exemption from the tax imposed by paragraph (b)(2)(ii)(A) of §48.4041-1 is allowed by paragraph (b)(2)(ii)(C) of §48.4041-1 if the special motor fuel is sold for use in an off-highway business use.

(3) *Special motor fuel sold for use as fuel in a motorboat.* Tax at the rates specified in paragraphs (b)(2)(i)(A) and (ii)(A) of §48.4041-1 applies in the case of the sale of special motor fuel for use as fuel in a motorboat. The qualified business use reduced rate of tax set forth in paragraph (b)(2)(i)(C) of §48.4041-1 and the off-highway business use exemption set forth in paragraph (b)(2)(ii)(C) of §48.4041-1 are not applicable to motorboats unless the motorboat is a vessel employed in the fisheries or whaling business. See section 6421(d)(2)(B).

(d) *Example.* Application of the tax to the sale of special motor fuels may be illustrated by the following example.

Example. The N Company is engaged in the manufacture of ceramic products. It has a vehicle which is used to haul clay from a clay pit to its factory. This vehicle has not been registered for highway use and under the applicable State law is not required to be registered for highway use since none of the hauling of clay is done on public highways. The N Company also uses a ditch digging machine in the vicinity of the clay pit for the construction of drains. A fork lift truck is used to move cartons of merchandise from place to place inside the company's warehouse and to assist in the loading of merchandise onto the company's highway trucks for delivery to purchasers. The highway trucks are registered by the State for use on highways. Special motor fuel is used for the operation of all of these items of equipment. Before April 1, 1983, the special motor fuel sold for use as a fuel in the registered highway trucks is subject to tax at the rate specified in §48.4041-1(b)(2)(i)(A). On or after January 1, 1979, and before April 1, 1983, the special motor fuel sold for use as a fuel in the unregistered truck used to haul clay from the pit to the factory and in the fork lift truck, assuming both of these are used in qualified business uses, is subject to tax at the rate specified in §48.4041-1(b)(2)(i)(C). If the unregistered truck and forklift are not used in qualified business uses, then the special motor fuel sold for use in these vehicles is taxable at the rate specified in §48.4041-1(b)(2)(i)(A) since both are motor vehicles. No tax is payable with respect to the special motor fuel sold for use in the ditch digging machine since that machine is not a motor vehicle. On and after April 1, 1983, and before October 1, 1988, special motor fuel sold for use in the registered trucks is taxable at the rate specified in §48.4041-1(b)(2)(ii)(A) because the trucks are motor vehicles. On and after April 1, 1983, and before October 1, 1988, special motor fuel sold for use in the unregistered truck and the fork lift, assuming that both vehicles are used in off-highway business uses, is exempt from tax as specified in §48.401-1(b)(2)(ii)(C). If the unregistered truck and fork lift are not used in off-highway business uses, then the special motor fuel sold for use in these vehicles is taxable at the rate specified in §48.4041-1(b)(2)(ii)(A) since both are motor vehicles. No tax is payable with respect to the special motor fuel sold for use in the ditch digging machine since that machine is not a motor vehicle.

(e) *Cross reference.* (1) For the tax applicable in certain cases based on the use of special motor fuel as a fuel in a motor vehicle or motorboat, see §48.4041-6.

(2) For the definition of the terms "highway", "motor vehicle", "special motor fuel", and "registered", see paragraphs (a), (c), (f), and (i) of §48.4041-8. For the definition of the term "Off-highway business use", see section 6421(d)(2).

(3) For the exemption from tax with respect to special motor fuel sold for use on a farm for farming purposes or as supplies for vessels, see §§48.4041-9 and 48.4041-10, respectively.

(4) For credit or refund of tax paid on special motor fuel resold or used otherwise than for the purpose for which purchased, see section 6427(a).

§48.4041-4 Application of tax on sales of liquid for use as fuel in aircraft in noncommercial aviation.

(a) *In general.* The taxes imposed by subparagraphs (1)(A) and (2)(A) of section 4041(c) apply to the taxable sale of any liquid by any person to an owner, lessee, or other operator of an aircraft, for use as a fuel in the aircraft in noncommercial aviation.

(b) *Liability of tax.* The tax on the taxable sale of any liquid used as fuel in aircraft in noncommercial aviation is payable by the person who sells the liquid to the owner, lessee, or operator of an aircraft in noncommercial aviation.

(c) *Rate of tax.* Tax is imposed on the sale of liquids used as fuel in aircraft in noncommercial aviation at the rate applicable on the date on which the liquid is sold. See §48.4041-1(b)(3) for rates.

(d) *Cross references.* (1) For the tax applicable on the basis of the use of fuel in an aircraft in noncommercial aviation, see §48.4041-6.

(2) For the definition of the term "noncommercial aviation", see paragraph (j) of §48.4041-8.

(3) For the exemption of tax with respect to liquids used as fuel in aircraft in noncommercial aviation sold for use on a farm for farming purposes or as supplies for vessels or aircraft, see §§48.4041-9 and 48.4041-10, respectively. For tax-free sales if sellers and purchasers are registered, see §48.4041-11.

(4) For credit or refund of tax paid on fuel used in noncommercial aviation that is resold or used otherwise than for the purpose for which purchased, see section 6427(a).

(e) *Effective date.* The provision of this section shall apply to sales or uses occurring before October 1, 1980, and to sales or uses occurring on or after September 1, 1982, and ending before January 1, 1988.

§48.4041-5 Sales of diesel and special motor fuels and fuel for use in aircraft; rules of general application.

(a) *Taxability of liquid fuel delivered into purchaser's tanks—(1) Fuel supply tanks.* The sale of diesel fuel to an owner, lessee, or other operator of a diesel-powered highway vehicle, or of special motor fuel to an owner, lessee, or other operator of a motor vehicle or motorboat, or of fuel to an owner, lessee, or other operator of an aircraft used in noncommercial aviation is considered a taxable sale of the liquid fuel if the liquid fuel is delivered by the seller into the fuel supply tank of the vehicle, motorboat, or aircraft. For purposes of this paragraph (a), liquid fuel sold at a location unattended by the seller (such as under a meter system) is considered to be delivered into the fuel supply tank by the seller. In this regard, see section 6427(a) for credit or refund of tax if liquid fuel acquired in a transaction subject to tax is used in a nontaxable use.

(2) *Bulk tanks.* The sale of diesel fuel to an owner, lessee, or other operator of a diesel-powered highway vehicle, or of special motor fuel to an owner, lessee, or other operator of a motor vehicle or motorboat, or of fuel to an owner, lessee, or other operator of an aircraft used in noncommercial aviation is considered a taxable sale of the liquid fuel of—

(i) The liquid fuel is delivered by the seller into a bulk supply tank (or other container) that is not the fuel supply tank of a vehicle, motorboat, or aircraft; and

(ii) The purchaser furnishes a written statement to the seller before or at the time of the sale stating that the entire quantity of the liquid fuel covered by the sale is for use by it for a taxable purpose as a fuel in such a vehicle, motorboat, or aircraft.

If the purchaser fails to provide the written statement required by paragraph (a)(2)(ii) of this section, the purchaser is liable for the tax on the later taxable sale or use. If a purchaser acquires both fuel that is to be used for taxable purposes and fuel that is to be used for nontaxable purposes, and the fuel that is to be used for taxable purposes is stored in a different storage tank (or container) from the tank used to store the fuel to be used for nontaxable purposes, the written statement described in paragraph (a)(2)(ii) of this section will relate to the fuel to be used for taxable purposes if proper records are kept by the purchaser that sufficiently identify the tanks (or containers) into which tax-paid fuel is delivered and the quantities of fuel delivered into those tanks (or containers). If only occasional sales for delivery into a bulk storage tank (or other container) are made to a purchaser, a separate statement must be furnished for each order. However, if sales are regularly or frequently made to a purchaser, a written statement covering all orders for a specified period not to exceed 12 calendar quarters is acceptable.

(b) *Sales for resale and to consignees.* (1) A sale to a dealer for resale is not subject to tax even if it is known at the time of the sale that the liquid fuel will be resold by the dealer for use as a fuel in a diesel-powered highway vehicle, motor vehicle, motorboat, or aircraft.

(2) The tax is payable by the person who makes the taxable sale. If a taxable liquid fuel is consigned to a person for sale and the consignor retains ownership in the liquid fuel until it is disposed of by the consignee, the consignor is the person liable for the tax when a taxable sale of the liquid fuel is made by the consignee. If the consignor transfers ownership in the taxable liquid fuel to the consignee before sale of the liquid fuel by the consignee, the consignee is the person liable for the tax upon a subsequent taxable sale of the liquid. However, if ownership of the liquid fuel is transferred back to the consignor or to another person before a taxable sale is made, as described in paragraph (a) of this section, and thereafter a taxable sale of the liquid fuel is made by such person or by another person acting as the person's agent, such person is liable for the tax. See paragraph (d) of §48.4041-8 for definition of the term "taxable liquid fuel."

§48.4041-6 Application of tax on use of taxable liquid fuel.

(a) *In general—*(1) *Diesel fuel.* (i) If, before April 1, 1983, a person acquires any diesel fuel by any means other than through a transaction subject to tax under section 4041(a)(1) and uses it as a fuel in a diesel powered highway vehicle, the person is liable for a tax under section 4041(a)(2) on the quantity of diesel fuel so used at the appropriate rate set forth in §48.4041-1(b)(1)(i). If a person acquired any diesel fuel through a transaction which is subject to tax at the rate set forth in paragraph (b)(1)(i)(C) or (D) of §48.4041-1 and uses it for a use described in paragraph (b)(1)(i)(A) or (B) of §48.4041-1, the person is liable for an additional tax under section 4041(a)(2) on the quantity of diesel fuel so used. See §48.4041-1(b)(1)(i)(E), (F), or (G) for the applicable rate of tax. See section 6427(a) for credit or refund of tax where diesel fuel acquired in a transaction subject to tax at the rate set forth in paragraph (b)(1)(i)(A) or (B) of §48.4041-1 is used as described in paragraph (b)(1)(i)(C) or (D) of §48.4041-1 or in a nontaxable use.

(ii) On or after April 1, 1983, and before August 1, 1984, if a person acquires any diesel fuel by any means other than through a transaction subject to tax under section 4041(a)(1)(A) and uses it as a fuel in a diesel-powered highway vehicle, the person is liable for a tax under section 4041(a)(1)(B) on the quantity of diesel fuel so used at the appropriate rate set forth in paragraph (b)(1)(ii) of §48.4041-1. If a person acquired any diesel fuel through a transaction for which no tax is imposed by reason of paragraph (b)(1)(ii)(C) of §48.4041-1 and uses it in other than a nontaxable use, the person is liable for a tax under section 4041(a)(1)(B) on the quantity of fuel so used. See paragraph (b)(1)(ii)(D) or (E) of §48.4041-1 for the applicable rate of tax. See section 6427(a) for credit or refund of tax where diesel fuel acquired in a transaction subject to tax at the rate set forth in paragraph (b)(1)(ii)(A) of §48.4041-1 is used as described in paragraph (b)(1)(ii)(C) of §48.4041-1 or in another nontaxable use

(iii) On or after August 1, 1984, and before October 1, 1988, if a person acquires any diesel fuel by any means other than through a transaction subject to tax under section 4041(a)(1)(A) and uses it as a fuel in a diesel-powered highway vehicle, the person is liable for a tax under section 4041(a)(1)(B) on the quantity of diesel fuel so used at the appropriate rate set forth in paragraph (b)(1)(iii) of §48.4041-1. If a person acquired any diesel fuel through a transaction for which no tax is imposed by reason of paragraph (b)(1)(iii)(C) of §48.4041-1 and uses it in other than a nontaxable use, the person is liable for a tax under section 4041(a)(1)(B) on the quantity of fuel so used. See paragraph (b)(1)(iii)(D) of §48.4041-1 for the applicable rate of tax. See section 6427(a) for credit or refund of tax where diesel fuel acquired in a transaction subject to tax at the rate set forth in paragraph (b)(1)(iii)(A) of §48.4041-1 is used as described in paragraph (b)(1)(iii)(C) of §48.4041-1 or in another nontaxable use.

(2) *Special motor fuel.* (i) On or after January 1, 1979, and before April 1, 1983, if a person acquired any special motor fuel by any means other than through a transaction subject to tax under section 4041(b)(1) and uses it as a fuel in a motor vehicle or motorboat; the person is liable for a tax under section 4041(b)(2) on the quantity of special motor fuel so used at the appropriate rate set forth in §48.4041-1(b)(2)(i). If a person acquired any special motor fuel through a transaction which is subject to a tax at the rate set forth in paragraph (b)(2)(i)(C) of §48.4041-1 and uses it in a use other than one for which the reduced rate applies, the person is liable for an additional tax under section 4041(b)(2) on the quantity of special motor fuel so used. See §48.4041-1(b)(2)(i)(D) or (E) for the applicable rate of tax. See section 6427(a) for credit or refund of tax where special motor fuel acquired in a transaction subject to tax at the rate set forth in paragraph (b)(2)(i)(A) of §48.4041-1 is used for a purpose described in paragraph (b)(2)(i)(C) of §48.4041-1 or in a nontaxable use.

(ii) On or after April 1, 1983, and before October 1, 1988, if a person acquired any special motor fuel by any means other than through a transaction subject to tax under section 4041(a)(2)(A) and uses it as a fuel in a motor vehicle or motorboat, the person is liable for a tax under section 4041(a)(2)(B) on the quantity of special motor fuel so used at the appropriate rate set forth in paragraph (b)(2)(ii) of §48.4041-1. If a person acquired any special motor fuel through a transaction for which no tax is imposed by reason of paragraph (b)(2)(ii)(C) of §48.4041-1 and uses it in other than a nontaxable use, the person is liable for a tax under section 4041(a)(2)(B) on the quantity of fuel so used. See paragraph (b)(2)(ii)(D) of §48.4041-1 for the applicable rate of tax. See section 6427(a) for credit or refund of tax where special motor fuel acquired in a transaction subject to tax at the rate set forth in paragraph (b)(2)(ii)(A) of §48.4041-1 is used for a purpose described in paragraph (b)(2)(ii)(C) of §48.4041-1 or in another nontaxable use.

(3) *Noncommercial aviation.* If a person acquires any liquid fuel by any means other than through a transaction subject to tax under section 4041(c)(1)(A) or section 4041(c)(2)(A) and uses it as fuel in an aircraft in noncommercial aviation, the person liable for a tax under section 4041(c)(1)(B) or section 4041(c)(2)(B) on the quantity of the liquid fuel so used at the appropriate rate set forth in §48.4041-1(b)(3).

(b) ***Bulk purchases by users.*** Taxpayers who purchase taxable liquid fuel in bulk delivered into storage tanks or other containers and use it for taxable or nontaxable purposes or in registered and nonregistered vehicles must maintain adequate records of all fuel used for each purpose to permit verification of the tax paid and of any credits, refunds, or exemptions claimed.

§48.4041-7 Dual use of taxable liquid fuel.

Tax applies to all taxable liquid fuel sold for use or used as a fuel in the motor which is used to propel a diesel-powered highway vehicle or in the motor used to propel a motor vehicle, motorboat, or aircraft, even though the motor is also used for a purpose other than the propulsion of the vehicle, motorboat, or aircraft. Thus, if the motor of a diesel-powered highway vehicle or a motorboat operates special equipment by means of a power take-off or power transfer, tax applies to all taxable liquid fuel sold for this use or so used, whether or not the special equipment is mounted on the vehicle or boat. For example, tax applies to diesel fuel sold to operate the mixing unit on a concrete mixer truck if the mixing unit is operated by means of a power take-off from the motor of the vehicle. Similarly, tax applies to all taxable liquid fuel sold for use or used in a motor propelling a fuel oil truck even though the same motor is used to operate the pump (whether or not mounted on the truck) for discharging the fuel into customers' storage tanks. However, tax does not apply to liquid fuel sold for use or used in a separate motor to operate special equipment (whether or not the equipment is mounted on the vehicle). If the taxable liquid fuel used in a separate motor is drawn from the same tank as the one which supplies fuel for the propulsion of the vehicle, a reasonable determination of the quantity of taxable liquid fuel used in such separate motor or during such period is acceptable for purposes of application of the tax. This determination must be based, however, on the operating experience of the person using the taxable liquid fuel, and the taxpayer must maintain records which support the allocation used. Devices to measure the number of miles the vehicle has traveled, such as hubometers, may be used in making a preliminary determination of the number of gallons of fuel used to propel the vehicle. In order to make a final determination of the number of gallons of fuel used to propel the vehicle, there must be added to this preliminary determination the amount of fuel consumed while idling or warming up the motor preparatory to propelling the vehicle.

§48.4041-8 Definitions.

For purposes of the regulations in this subpart, unless otherwise expressly indicated:

(a) *Highway*. The term "highway" includes any road (whether a Federal highway, State highway, city street, rural road, or otherwise) in the United States which is not a private roadway.

(b) *Highway vehicle*—(1) *In general*. The term "highway vehicle" means any self-propelled vehicle, or any trailer or semi-trailer, designed to perform a function of transporting a load over highways, whether or not also designed to perform other functions, but does not include a vehicle described in paragraph (b)(2) of this section. For purposes of this definition, a vehicle consists of a chassis, or a chassis and a body if the vehicle has a body, but does not include the vehicle's load. Therefore, in determining whether a vehicle is a "highway vehicle", it is immaterial that the vehicle is designed to perform a highway transportation function for only a particular kind of load, such as passengers, furnishings and personal effects (as in a house, office, or utility trailer), a special type of cargo, goods, supplies, or materials, or, except to the extent otherwise provided in paragraph (b)(2)(i) of this section, machinery or equipment specially designed to perform some off-highway task unrelated to highway transportation. In the case of specially designed machinery or equipment, it is also immaterial, except as provided in paragraph (b)(2)(i) of this section, that such machinery or equipment is permanently mounted on the vehicle. For purposes of paragraph (b) of this section, the term "transport" includes the term "tow". A vehicle which is not a highway vehicle within the meaning of this paragraph shall be treated as a nonhighway vehicle for purposes of section 4041. Examples of vehicles that are designed to perform a function of transporting a load over the public highways are passenger automobiles, motorcycles, buses, and highway-type trucks, truck tractors, trailers, and semi-trailers.

(2) *Exceptions*—(i) *Certain specially designed mobile machinery for nontransportation functions*. A self-propelled vehicle, or trailer or semi-trailer, is not a highway vehicle if it (A) consists of a chassis to which there has been permanently mounted (by welding, bolting, riveting, or other means) machinery or equipment to perform a construction, manufacturing, processing, farming, mining, drilling, timbering, or other operation similar to any one of the forgoing enumerated operations if the operation of the machinery or equipment is unrelated to transportation on or off the public highways, (B) the chassis has been specially designed to serve only as a mobile carriage and mount (and a power source, where applicable) for the particular machinery or equipment involved, whether or not such machinery or equipment is in operation, and (C) by reason of such special design, such chassis could not, without substantial structural modification, be used as a component of a vehicle designed to perform a function of transporting any load other than that particular machinery or equipment or similar machinery or equipment requiring such a specially designed chassis.

(ii) *Certain vehicles specially designed for off-highway transportation*. A self-propelled vehicle, or a trailer or semi-trailer, is not a highway vehicle if it is (A) specially designed for the primary function of transporting a particular type of load other than over the public highway in connection with a construction, manufacturing, processing, farming, mining, drilling, timbering, or other operation similar to any one of the forgoing enumerated operations, and (B) if by reason of such special design, the use of such vehicle to transport such load over the public highways is substantially limited or substantially impaired. For purposes of applying the rule of clause (b) of this paragraph (b)(2)(ii), account may be taken of whether the vehicle may travel at regular highway speeds, requires a special permit for highway use, is overweight, overheight or overwidth for regular use, and any other relevant considerations. Solely for purposes of determinations under this paragraph (b)(2)(ii), where there is affixed to the vehicle equipment used for loading, unloading, storing, vending, handling, processing, preserving, or otherwise caring for a load transported by the vehicle over the public highways, the functions are related to the transportation of a load over the public highways even though the functions may be performed off the public highways.

(iii) *Certain trailers and semi-trailers specially designed to perform nontransportation functions off the public highways*. A trailer or semi-trailer is not a highway vehicle if it is specially designed to serve no purpose other than providing an enclosed stationary shelter for the carrying on of a function which is directly connected with and necessary to, and at the off-highway site of, a construction, manufacturing, processing, mining, drilling, farming, timbering, or other operation similar to any one of the forgoing enumerated operations, such as a trailer specially designed to serve as an office for such an operation.

(3) *Optional application*. For purposes of section 4041, if any rules existing immediately prior to January 13, 1977, would, if applicable, unequivocally resolve an issue involving the definition of a highway vehicle with respect to a period prior to such date, at the option of the taxpayer, such rules existing prior to such date shall be applied to resolve the issue for all periods prior to such date, and the rules of paragraph (b)(1) and (2) of this section, which define the term "highway vehicle", shall not apply with respect to such issue for all periods prior to such date.

(4) *Diesel-powered highway vehicle*. The term 'diesel-powered highway vehicle" means any highway vehicle (within the meaning of paragraph (b)(1) of this section) which is also a motor vehicle (as defined in paragraph (c) of this section) and which uses diesel fuel (as defined in paragraph (e) of this section) for propulsion purposes.

(c) *Motor vehicles*. The term "motor vehicle" includes all types of vehicles propelled by motor that are designed for carrying or towing loads from one place to another, regardless of the type of load or material carried or towed and whether or not the vehicle is registered or required to be registered for highway use. Included are fork lift trucks used to carry loads at railroad stations, industrial plants, warehouses, etc. The term does not include farm tractors, trench diggers, power shovels, bulldozers, road graders or rollers, and similar equipment which does not carry or tow a load; nor does it include any vehicle which moves exclusively on rails. For periods prior to January 6, 1977, a vehicle which is designed for towing, but not carrying, loads shall not be considered to be a motor vehicle.

(d) *Taxable liquid fuel.* The term "taxable liquid fuel" (or "taxable liquid") means any liquid which is either—

(1) Diesel fuel as defined in paragraph (e) of this section,

(2) Special motor fuel as defined in paragraph (f) of this section, or

(3) Any liquid fuel used in an aircraft in "noncommercial aviation", as defined in paragraph (h) of this section.

(e) *Diesel fuel.* The term "diesel fuel" means any liquid (other than a product taxable as gasoline under the provisions of section 4081) which is sold for use or used as a fuel in a diesel-powered highway vehicle.

(f) *Special motor fuel.* (1) The term "special motor fuel" includes any of the following sold for use or used as a fuel for the propulsion of a motor vehicle or motorboat:

(i) Liquefied petroleum gases (such as propane, butane, pentane, or methane, or mixtures of the same), or

(ii) Benzol, benzene, naptha, or any other liquid, whether a refined, partly refined, or unrefined product, 10 percent of which has been recovered when the thermometer reads 347° F. (175° C.) or 95 percent of which has been recovered when the thermometer reads 464° F. (240° C.) when subjected to distillation in accordance with the "Standard Method of Test for Distillation of Gasoline, Naptha, Kerosene, and Similar Petroleum Products" (A.S.T.M. designation: D86) of the American Society for Testing Materials, regardless of the trade name under which sold.

(2) The term "special motor fuel" does not include diesel fuel or any product taxable under the provisions of section 4081, nor does it include "kerosene, gas oil, or fuel oil", as defined in paragraph (g) of this section.

(g) *Kerosene, gas oil, or fuel oil.* (1) The term "kerosene, gas, oil or fuel oil" means any product (i) 10 percent of which has not been recovered when the thermometer reads 347° F. (175° C.), and (ii) 95 percent of which has not been recovered when the thermometer reads 464° F. (240° C.), when subjected to distillation in accordance with the "Standard Method of Test for Distillation of Gasoline, Naptha, Kerosene, and Similar Petroleum Products" (A.S.T.M. designation: D86) of the American Society for Testing Materials.

(2) Products designated as kerosene, gas, oil, or fuel oil which do not fall within the specifications of both paragraphs (g)(1)(i) and (ii) of this section are taxable as special motor fuel if sold or used as a fuel in a motor vehicle or motorboat.

(h) *Fuel used in the aircraft in noncommercial aviation.* The term "fuel used in an aircraft in noncommercial aviation" means any liquid (including any product taxable under section 4081) that is sold for use or used as a fuel in an aircraft in noncommercial aviation (as defined in paragraph (j) of this section).

(i) *Registered.* The term "registered", when used with reference to a highway vehicle, means—

(1) Registered for highway use under the laws of any State, District of Columbia, or foreign country, or

(2) Required to be registered for highway use under the law of the State, District of Columbia, or foreign country in which it is operated or situated. Any highway vehicle which is operated under a dealer's tag, license, or permit is considered to be registered. A highway vehicle is not considered to be "registered" solely because there has been issued a special permit for operation of the vehicle at particular times and under specified conditions. However, a highway vehicle which is required to be registered and which also has been issued a special permit for operation of the vehicle under specified conditions, such as carrying an oversized load, is still considered to be "registered".

(j) *Noncommercial aviation.* The term "noncommercial aviation." means any use of an aircraft, other than in a business of transporting persons or property for compensation or hire by air. The term also includes any use of an aircraft, in a business described in the preceding sentence, which is properly allocable to any transportation exempt from taxes imposed by sections 4261 (transportation of persons) and 4271 (transportation of property) by reason of section 4281 (use of small aircraft on nonestablished lines) or 4282 (transportation of members of affiliated group.)

§48.4041-9 Exemption for farm use.

(a) *In general.* The tax imposed by section 4041 does not apply to diesel fuel or special motor fuel, or fuel used in noncommercial aviation, sold for use or used on a farm in the United States for farming purposes. The tax applies in the case of diesel fuel delivered into the fuel supply tank of a highway vehicle, or special motor fuel delivered into the fuel supply tank of a motor vehicle or motorboat, even if it is known that the liquid fuel is to be used on a farm for farming purposes. Credit or refund of the tax paid in such case may be claimed as provided by section 6427(c) upon proof that the taxable liquid was used on a farm for farming purposes. A tax-free sale of fuel delivered into the fuel supply tank of an aircraft in noncommercial aviation where such fuel is to be used on the farm for farming purposes may be made only if the requirements of §48.4041-11 are met. The terms "used on a farm for farming purposes", and related terms, have the same meaning for purposes of the exemption in section 4041(f) and the regulations in this section as these terms are defined in paragraphs (1), (2), and (3) of section 6420(c) and the regulations contained in §48.6420-4.

(b) *Application of exemption.* The exemption referred to in paragraph (a) of this section does not apply with respect to diesel fuel or special motor fuel or fuel used in noncommercial aviation sold for use or used for nonfarming purposes, or diesel fuel or special motor fuel or fuel used in noncommercial aviation sold for use or used off a farm, regardless of the nature of the use. Thus, if a vehicle, motorboat, or aircraft is used both on a farm and off the farm, or if it is used on a farm both for farming and nonfarming purposes, the exemption applies only with respect to that portion of the diesel fuel or special motor fuel or fuel used in noncommercial aviation which is sold for use or used "on a farm for farming purposes". For purposes of this exemption, it is immaterial whether or not a vehicle is registered for highway use. However, the actual use of the vehicle and the place where it is used are material. For example if a truck used on a farm for farming purposes is also used on the highways (even though in connection with operating the farm), tax applies to that diesel fuel or special motor fuel which is sold for use or used in operating the truck on the highways, since the fuel was used off the farm.

(c) *Termination of exemption.* The exemption referred to in paragraph (a) of this section shall not apply on and after October 1, 1988.

§48.4041-10 Exemption for use as supplies for vessels or aircraft.

(a) *Application of exemption.* The tax imposed by section 4041 does not apply to any fuels which are sold for use or used as supplies for vessels or aircraft within the meaning of section 4221(a)(3) and (d)(3), and §48.4221-4. In the case of a liquid sold for use as fuel in an aircraft, a tax-free sale may be made only if the requirements of §48.4041-11 are met. For credit or refund of tax paid on fuels which have been sold or used as supplies for vessels or aircraft, see section 6416(b)(2)(B), section 6427, and paragraph (f) of this section.

(b) *Evidence required to establish exemption.* (1) In order to establish exemption from tax in the case of a sale of fuels for use as supplies for vessels or aircraft, it is necessary that the seller obtain from the owner, charterer, or authorized agent of the vessel or aircraft and retain in its possession a properly executed exemption certificate in the form prescribed by paragraph (c) of this section. If fuel is sold tax free for use as supplies for civil aircraft employed in foreign trade or in trade between the United States and any of its possessions, the exemption certificate must show the name of the country in which the aircraft is registered.

(2) If only occasional sales of fuels are made to a purchaser for use which is exempt from tax as provided in this section, a separate exemption certificate must be furnished for each order. However, if sales are regularly or frequently made to a purchaser for such exempt use, a certificate covering all orders for a specified period not to exceed 12 calendar quarters is acceptable. Such certificates and proper records of invoices, orders, etc., relative to tax-free sales must be kept for inspection by the district director as provided in section 6001. If a seller's records with respect to any sale claimed to be tax free do not include a proper certificate, with supporting invoices and such other evidence as may be necessary to establish the exempt character of the sale, tax is payable by the seller on the sale.

(c) *Acceptable form of exemption certificate.* The following form of exemption certificate, which must be adhered to in substance, is acceptable for the purpose of this section.

Exemption Certificate

(For use by purchasers of fuels for use as supplies for certain vessels or aircraft (section 4041(g) of the Internal Revenue Code of 1954).)

(Date), 19____ ____________________

The undersigned purchaser hereby certifies that he/she is the

____

(owner, character, or authorized agent of owner or charter)

of

____

(Name of company and vessel)

and that the fuel specified in the accompanying order, or a specified below or on the reverse side hereof, will be used only as fuel supplies for a vessel belonging to one of the following classes of vessels (including aircraft) to which section 4041(g) of the Internal Revenue Code applies: (Check class to which vessel belongs):

(1) Vessels (including aircraft) engaged in foreign trade.

(2) Vessels engaged in trade between the Atlantic and Pacific ports of the United States.

(3) Vessels (including aircraft) engaged in trade between the United Sates and any of its possessions.

(v) Vessels employed in the fisheries or whaling business.

(5) Vessels (including aircraft) of war of the United States or a foreign nation.

The undersigned understands that if the fuels are sold or used otherwise than as stated above and for a taxable purpose specified in section 4041 of the Internal Revenue Code, the undersigned will be liable for the tax upon such sale or use. It is also understood that this certificate may not be used in purchasing fuels, if such fuels are for use as fuel in pleasure vessels, or of any type of aircraft except (1) civil aircraft employed in foreign trade or trade between the United States and any of its possessions, and otherwise entitled to exemption, and (2) aircraft owned by the United States or any foreign country and constituting a part of the armed forces thereof.

The undersigned understands that the fraudulent use of this certificate to secure exemption will subject the undersigned and all others making fraudulent use to a penalty equivalent to the amount of tax due on the sale of the fuel and, upon conviction, to a fine of not more than $10,000, or to imprisonment for not more than 5 years, or both, together with the costs of prosecution. The purchaser also understands that it must be prepared to establish by satisfactory evidence the purpose for which the fuel purchased under this certificate was used.

(Signature) ____________________

(Address) ____________________

____

Registration Number if Fuel Used as supplies for civil aircraft engaged in foreign trade or in trade between the United States and any of its possessions.

(d) *Exemption certificate not obtained prior to filing of seller's excise tax return.* If the exemption certificate is not obtained prior to the time the seller files a return covering taxes due for the period during which the sale was made, the seller must include the tax on the sale in its return for that period. However, if the certificate is later obtained, a claim for refund of the tax paid on the sale may be filed on From 843, or a credit for the tax paid may be taken upon a subsequent return as provided by section 6416(b)(2)(B) and §48.6416(b)-2(c).

(e) *Liability of purchaser.* The person who purchases fuels tax free as provided in this section is liable for the tax imposed by section 4041 if the person sells or uses such fuel in a sale or use that is not exempt under any provision of law applicable to the taxes imposed by section 4041.

(f) *Credit or refunds.* (1) If diesel fuel or special motor fuel upon which the tax imposed by section 4041(a)(1) or (2) has been paid, is sold or used as supplies for vessels, a credit or refund of the tax is available under section 6416(b)(2)(B) to the retail dealer who paid the tax. As an alternative, a credit or refund of tax is available under section 6427 to the operator of the vessel who used the fuel. Where the retail dealer claims refund of the tax, the dealer, in accordance with section 6416(a), must reimburse the operator of the vessel for the amount of tax or obtain the written consent of the operator to the filing of such claim.

(2) If aviation fuel upon which the tax imposed by section 4041(c) has been paid is sold or used as supplies for aircraft, credit or refund of the tax is available only as a payment under section 6427 to the operator of the aircraft who uses the fuel or to the person who resells the fuel for such use.

§48.4041-11 Tax free sales of fuel for use in noncommercial aviation only if sellers and certain purchasers are registered.

(a) *In general.* Any sale of liquid fuel for delivery into a fuel supply tank of an aircraft is presumed to be subject to tax under section 4041(c), unless both the seller and purchaser of the liquid fuel are registered as provided in paragraph (b) of this section or are within one of the exceptions provided in paragraph (c) of this section.

(b) *Form of registration.* Except as provided in paragraph (c) of this section (relating to exceptions for State and local governments, for fuel purchased from customs bonded warehouses or continuous customs custody, and for fuel purchased for use in certain aircraft of the United States or of any foreign nation), tax-free sales under section 4041(c) may be made only if both the seller and the purchaser have registered as required by section 4041(i) and this paragraph (b). If fuel is purchased tax paid for use in noncommercial aviation but is used for a nontaxable purpose, see section 6427(a) for provisions relating to refunds or credits of tax for tax-paid fuels not used for the purpose for which sold. Any person desiring to be registered in order to sell or purchase fuel free of the tax imposed by section 4041(c) must, before making any tax-free sale or purchase, file Form 637A, in duplicate. Form 637A must be filed with the District Director of Internal Revenue for the district in which the principal place of business of the applicant is located (or if the applicant has no principal place of business in the United States, with the Director of International Operations, Internal Revenue Service, Washington, DC 20224). The person who receives a validated Certificate of Registry (Validated Form 637A) is considered to be registered for purposes of selling or purchasing fuel tax free as provided in this section.

(c) *Transactions excepted from registrations.* (1) A State or local government purchasing fuel delivered into a fuel supply tank of an aircraft it operates for its exclusive use may, but is not required to, register as provided in this section.

(2) Any purchaser of aircraft fuel who purchases fuel from any customs bonded warehouse or from continuous customs custody elsewhere than in a bonded warehouse is not required to register to purchase aircraft fuel from these sources tax free.

(3) Any purchaser of fuel for use in an aircraft which is owned by the United States or any foreign country and constitutes a part of the armed forces thereof is not required to register to purchase aircraft fuel tax free.

(4) The exceptions from registration in paragraphs (c)(1), (2), and (3) of this section do not relieve purchasers from the requirement of furnishing an exemption certificate as required by paragraph (d) of this section.

(d) *Evidence of tax-free sale.* (1) To establish the right of a purchaser to purchase fuel delivered into the fuel supply tank of an aircraft tax free, the seller must obtain from the purchaser and retain on its possession a certificate, properly executed and signed by or on behalf of the purchaser, containing the following information:

(i) Date of purchase,

(ii) The purchaser's registration number (or the exception from registration which is relied upon), and

(iii) A brief statement of the intended tax-free use of the fuel (for example, by an airline in the business of transporting persons or property for hire).

(2) The following form of certificate, which must be adhered to in substance, is acceptable for the purposes of this paragraph.

(Date) ______________________, 19 ____

The undersigned signifies that he/she, or the

____

(Name of purchaser if other than undersigned)

of which the undersigned is

____

(Title)

holds Certificate of Registry No. ____________

or has not registered because

____

(Brief statement of exception from registration relied upon)

delivered into a supply tank of the subject aircraft may be purchased free of tax because the fuel will be used

____

(Brief statement of tax free use)

The undersigned understands that if the fuel is used otherwise than as stated above and for a purpose taxable under section 4041 of the Internal Revenue Code, the undersigned will be liable for the tax upon such use, and that the undersigned must be prepared to establish by satisfactory evidence the purpose for which the fuel purchase under this certificate was used.

The undersigned also understands that the fraudulent use of this certificate to secure exemption will subject the undersigned and all others making fraudulent use to a penalty equivalent to the amount of tax due on the sale of the fuel and, upon conviction, to a fine of not more than $10,000, or to imprisonment for not more than 5 years, or both, together with the costs of prosecution.

____

(Signature)

____

(Address)

(3) Except as provided in paragraph (d)(4) of this section, a separate exemption certificate must be furnished for each sale of fuel delivered into a fuel supply tank of an an aircraft. If a portion of the fuel is intended to be used for a nontaxable purpose, the entire amount of the fuel may be sold tax free. Exemption certificates and proper supporting records such as invoices, orders, etc., relative to tax-free sales must be readily accessible for inspection by internal revenue officers and retained as provided in section 6001 of the Code and the regulations thereunder.

(4) If the purchaser of fuel to be used in an aircraft has reasonable grounds to believe that 90 percent or more of the total of the fuel to be purchased by it during a specified period not to exceed 12 calendar quarters will be used in a tax-free use, it may furnish each of its suppliers an exemption certificate covering all purchases for the specified period. The certificate shall be substantially in the same form as the certificate in paragraph (d)(2) of this section, except that in place of the date the purchaser shall specify the period covered by the certificate, and the purchaser shall give a brief explanation of its grounds for belief that 90 percent or more of its total fuel will be used in a tax-free use.

(5) The presumption under section 4041(i) that any liquid delivered into a fuel supply tank of an aircraft is taxable places the duty on the seller of the liquid fuel to use reasonable diligence to satisfy itself that a tax-free sale of fuel to the purchaser is allowed by law. In the absence of circumstances surrounding a sale that would raise a question as to whether tax-free sale is allowable, the requirement of reasonable diligence is satisfied if the seller receives and retains the required certificate evidencing the right of the purchaser to buy the fuel tax free. However, if the circumstances are such as to indicate the seller has failed to use reasonable diligence, it is not relieved of liability for the tax imposed by section 4041(c). In addition, if the seller fails to obtain and retain the evidence of taxfree sales as required by this paragraph (d), it is not relieved of liability for the tax imposed by section 4041(c).

§48.4041-12 Sales by United States, etc.

The taxes imposed by section 4041 apply to the sale at retail of taxable liquid fuels by the United States or by any agency or instrumentality of the Untied States, unless by statute specifically exempted from these taxes. However, the exemptions from these taxes provided by section 4041(f), (g), and (h) and the regulations thereunder contained in this subpart F are available to the extent therein provided.

§48.4041-13 Other credits or refunds.

(a) *In general*. For provisions relating to credit or refund of tax paid on taxable liquid fuel resold by the purchaser, or used otherwise than for the purpose for which purchased, see section 6427 and the regulations thereunder contained in Subpart O of this part.

(b) *Taxpaid liquid fuel used by local transit systems*. For provisions relating to credit or refund in the case of taxable liquid fuel used in vehicles while engaged in furnishing scheduled common carrier public passenger land transportation service along regular routes, see section 6427(b) and the regulations thereunder contained in Subpart O of this part.

(c) *Credit or refund of diesel fuel differential amount*. For provisions relating to an income tax credit or refund of the increased diesel fuel tax for original purchasers of diesel-powered automobiles and light trucks, see section 6427(g) and the regulations thereunder contained in Subpart O of this part.

§48.4041-14 Exemption for sale to or use by certain aircraft museums.

(a) *In general*. (1) The tax imposed by section 4041 does not apply to liquids which are sold for use or used by an aircraft museum in an aircraft or vehicle owned by such museum and used exclusively for the procurement, care, and exhibition of aircraft of the type used for combat or transport in World War II.

(2) In the case of liquid sold for use in an aircraft owned by an aircraft museum and to be used for the purposes described in paragraph (a)(1) of this section, a tax-free sale may be made only if the requirements of §48.4041-11 are met.

(b) *Cross reference*. For the definition of aircraft museum, see section 4041(h)(2).

PART 154—TEMPORARY REGULATIONS IN CONNECTION WITH THE AIRPORT AND AIRWAY REVENUE ACT OF 1970

Par. 5. The authority citation for Part 154 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 6. Section 154.1-1 is hereby removed.

Par. 7. The authority citation for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 8. Section 602.101(c) is amended by inserting in the appropriate places in the table:

"§48.4041-5(a)(2)	1545-0023"
"§48.4041-6(b)	1545-0023"
"§48.4041-7	1545-0023"
"48.4041-10	1545-0023"
"§48.4041-11	1545-0023"

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

Approved September 17, 1985.

Ronald A. Pearlman,
Assistant Secretary of the Treasury.

Section 4064.—Gas Guzzlers Tax

26 CFR 48.4064-1: Gas guzzler tax.

Gas guzzler tax liability. The gas guzzler tax imposed by section 4064 of the Code applies to automobiles imported without a prototype-based fuel economy rating assigned by the Environmental Protection Agency.

Rev. Rul. 86-20

ISSUE

If an automobile is imported without a prototype-based fuel economy rating assigned by the Environmental Protection Agency (EPA), is that automobile subject to the requirements of the tax imposed by section 4064(a) of the Internal Revenue Code (the "gas guzzler tax")?

FACTS

EPA issues certificates of conformity to domestic manufacturers and large importers of automobiles for those classes of automobiles complying with federal emission standards. This certificate is based on tests of a prototype vehicle and is the manufacturer's or importer's license to build or import automobiles as described in the manufacturer's or importer's application to EPA for certification. The EPA also conducts fuel economy testing in conjunction with the emission testing conducted on these vehicles. An urban fuel economy test and highway fuel economy test are conducted utilizing different driving schedules and different test procedures, and urban and highway fuel economy values are then determined. The combined fuel economy (also referred to as model type fuel economy), upon which the gas guzzler tax is based, is a weighted average of the urban and highway fuel economy values (with urban weighted 55 and highway weighted 45).

When an automobile is imported without a "certificate of conformity," a bond equal to the value of the vehicle, plus duty, is posted with the U.S. Customs Service. Most such "nonconforming vehicles" are imported by individuals or small volume importers. EPA requires any nonconforming vehicle to be either (1) converted, by installation of emission controls, to conform, in all material respects, to a vehicle that is already certified for sale in the United States, or (2) modified by the installation of emission control components and then individually tested to demonstrate emission compliance in accord with the Federal Test Procedure outlined in 40 C.F.R. Part 86 (1984). After the conversion or modification is completed and emission compliance has been demonstrated to EPA, a bond release letter is issued by EPA to the Customs Service. Inasmuch as a highway economy test is not required by EPA under either of these two procedures, no fuel economy ratings are derived from establishing the emission compliance of the individual automobiles.

There are also certain EPA enforcement and regulatory exemptions to the emissions compliance requirements for imported automobiles. Fuel economy ratings are not required by EPA for these automobiles.

LAW AND ANALYSIS

Section 4064(a) of the Code imposes

on the sale by the manufacturer of each automobile a tax determined on the basis of fuel economy ratings for vehicle model years beginning with 1980.

Section 48.4064-1(a)(3) of the Manufacturers and Retailers Excise Tax Regulations provides that the tax imposed by section 4064 of the Code is payable by the manufacturer making the sale. An automobile sold before the time a determination of fuel economy is made for the model type (as defined in section 48.4064-1(b)(6)) is subject to tax if it is subsequently determined that the fuel economy level of that model type is within the taxable range.

Section 48.4064-1(b)(1) of the regulations provides that a "sale" includes the use (within the meaning of section 4218) or the first lease (within the meaning of section 4217(e)) of an automobile by the manufacturer.

Section 4064(b)(1)(A) of the Code defines the term "automobile" as meaning any 4-wheeled vehicles propelled by fuel which is manufactured primarily for use on public streets, roads, and highways (except any vehicle operated exclusively on a rail or rails) and which is rated at 6,000 pounds gross vehicle weight or less.

Section 4064(b)(5) of the Code provides that the term "manufacturer" includes a producer or importer. Under section 48.4064-1(b)(2) of the regulations, an importer is a person who imports an automobile whether or not in connection with a trade or business.

Section 4064(c)(1) of the Code provides that fuel economy for any model type shall be measured in accordance with testing and calculation procedures established by the EPA Administrator by regulation. Procedures so established shall be the procedures utilized by the EPA Administrator for model year 1975 (weighted 55 percent urban cycle, and 45 percent highway cycle), or procedures which yield comparable results. Procedures under this subsection, to the extent practicable, shall require the fuel economy tests be conducted in conjunction with emissions tests conducted under section 206 of the Clean Air Act, (42 U.S.C. section 7521 (1982). The EPA Administrator shall report any measurements of fuel economy to the Secretary.

Section 48.4064-1(c) of the regulations provides that, for purposes of the gas guzzler tax, the fuel economy for any model type is determined (or redetermined) in accordance with the testing and calculation procedures utilized by the Environmental Protection Agent Administrator for model year 1975 (weighted 55 percent urban cycle and 45 percent highway cycle) or any other procedures (yielding comparable results) established by the Administrator. The Environmental Protection Agency's determination (or redetermination) of a model type's fuel economy is made at the time the general label fuel economy value is calculated (or recalculated). This determination (or redetermination) is conclusive for purposes of the gas guzzler tax.

Thus, the sale, use, or first lease by an importer of a new or used automobile (as defined in section 4064(b)(1) of the Code) that has not previously been subject to the tax imposed by section 4064(a) is subject to tax if the fuel economy rating of the model type in which the automobile falls is within one of the taxable categories in the tables in section 4064(a).

In those situations where an automobile is imported without a "certificate of conformity" and an accompanying EPA assigned fuel economy rating, the fact that EPA has not required a highway fuel economy test for purposes of emission compliance and bond release does not exempt the importer from liability for the gas guzzler tax. It would be impractical, however, for EPA to ascribe a fuel economy rating to all imported nonconforming automobiles of a particular model, based on EPA's testing of one such nonconforming vehicle.

The method of determining the amount of tax depends on the manner in which the vehicle establishes emissions compliance. If the automobile is modified to conform to a vehicle already certified for sale in the U.S., tax liability is based on the fuel economy rating of the certified vehicle it has been made to conform with. Alternatively, if the vehicle is brought into conformity with emission standards through modification and testing, tax liability is based on a presumption of low fuel economy. *See* Rev. Proc. 86-9, page 22, this bulletin, for procedures on the computation of liability. In either instance, the importer may elect to have the vehicle tested for the purposes of generating a fuel economy rating. The procedures to calculate fuel economy are set forth in 40 C.F.R. Part 86 (1984) and are available for use in situations where a fuel economy rating for a certified vehicle is not available for reference.

An automobile that is imported into the United States in a noncomforming mode and that is exempted from conformance to federal emissions standards is not exempted from the gas guzzler tax unless specifically exempted under the gas guzzler tax provisions. Inasmuch as an automobile without emission system modification cannot be compared, for fuel economy purposes, to a certified automobile that is in compliance with federal emission standards, the fuel economy rating of such an automobile has to be independently determined. *See* Rev. Proc. 86-9, page 22, this Bulletin.

HOLDING

An automobile imported without a fuel economy rating assigned by EPA is subject to the requirements of section 4064 of the Code and is subject to the gas guzzler tax if its fuel economy rating falls within one of the taxable categories under section 4064(a).

---

26 CFR 48.4064-1: Gas guzzler tax.

Guidelines for importers of automobiles to compute gas guzzler tax liability for automobiles imported without a fuel economy rating assigned by the Environmental Protection Agency (EPA). See Rev. Proc. 86-9, page 22.

Section 6045.—Returns of Brokers

26 CFR 1.6045-1: Returns of information of brokers and barter exchanges.

Corporations; odd-lot purchases of own stock; broker reporting requirements. A corporation that purchases odd-lot shares from its stockholders on an irregular basis is not a broker for purposes of the reporting requirements of section 6045(a) of the Code.

Rev. Rul. 86-21

ISSUE

Is a corporation's one time purchase of its own stock on an "odd-lot" basis (fewer than 100 shares) subject to the broker reporting requirements of section 6045(a) of the Internal Revenue Code?

FACTS

X corporation made a one time offer to purchase the entire "odd-lot" stock holdings of its stockholders, that is, holdings of less than 100 shares of *X*'s common stock and holdings of 50 shares or less of its preferred stock. *X*'s offer applied to shares tendered during a two month period. The purpose was to reduce the number of stockholder accounts it had to maintain and, thereby, reduce *X*'s stockholder servicing expenses.

The tendered shares were purchased by *X* for a price equal to the mean average market price on the day *X* received the customer's acceptance of *X*'s offer, plus a bonus of less than one dollar per share. Stockholders who tendered their odd-lot shares were required to sell all of their shares including shares held of record and shares held in a broker's or nominee's name. The stockholders were not required to pay brokerage commissions, transfer taxes, or any other fees. All of the purchased shares were retained by *X* as treasury shares which *X*, at the time of the purchase, had no intention to reissue.

LAW AND ANALYSIS

Section 6045(a) of the Code provides that every person doing business as a broker shall, when required by the Secretary, make a return, in accordance with such regulations as the Secretary may prescribe, showing the name and address of each customer, with such details regarding gross proceeds and such other information as the Secretary may by forms or regulations require with respect to such business.

Section 6045(c)(1) of the Code defines the term "broker" to include a dealer, a barter exchange, and any other person who (for a consideration) regularly acts as a middleman with respect to property or services.

The term "broker" is further defined by section 1.6045-1(a)(1) of the Income Tax Regulations to mean a person that, in the ordinary course of a trade or business during the calendar year, stands ready to "effect" sales to be made by others. Section 1.6045-1(a)(10) provides that the term "effect" includes acting as a principal in a sale.

Section 1.6045-1(b), Example (2)(vi), of the Income Tax Regulations provides that a corporation that issues and retires long-term debt on an irregular basis is not a broker within the meaning of section 1.6045-1(a)(1) in the absence of additional facts that indicate the corporation is a broker.

The one time offer by *X* to purchase the odd-lot shares of stock was intended to reduce *X*'s stockholder servicing costs. Such a purchase was not in the corporation's ordinary course of business nor was it a transaction that occurs on a regular basis. A corporation that retires its long term debt on an irregular basis is not a broker. Similarly, a corporation purchasing odd-lot shares from its stockholders on an irregular basis is not a broker for purposes of section 6045(a) of the Code, where, as here, there are no additional facts that indicate otherwise. On the other hand, a corporation is a broker for purposes of section 6045(a) if it regularly stands ready to redeem its stock or to retire its debt.

HOLDING

X's one time odd-lot purchases of its own stock are not subject to the broker reporting requirements of section 6045(a) of the Code.

Section 6050K.—Returns Relating to Exchanges of Certain Partnership Interests

26 CFR 1.6050K-1T: Returns relating to exchanges of certain partnership interest. (Temporary)

T.D. 8064

TITLE 26—INTERNAL REVENUE.—CHAPTER 1, SUBCHAPTER A, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; SUBCHAPTER H, PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Information Returns Relating to Sales or Exchanges of Certain Partnership Interests

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document provides temporary regulations relating to information returns, statements, and notifications required where there is a sale or exchange of certain partnership interest. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced * * * [on page 26, this Bulletin]. The temporary regulations reflect changes to the applicable tax law made by section 149 of the Tax Reform Act of 1984 [Pub. L. 98-369, 1984-3 C.B. (Vol. 1) 1, 197] and provide guidance on the manner of filing and contents of required information returns, statements, and notifications under section 6050K of the Internal Revenue Code of 1954.

DATES: The regulations contained in this document are effective with respect to sales or exchanges of partnership interests made after December 31, 1984.

FOR FURTHER INFORMATION CONTACT: Robert E. Shaw of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, (Attention: CC:LR:T LR-129-85). Telephone 202-566-3297 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

EXPLANATION OF PROVISIONS

Under section 6050K(a) and §1.6050K-1T a partnership must file a return on Form 8308 when there is a sale or exchange described in section 751(a) (a "section 751(a) exchange") of any interest in that partnership during any calendar year after 1984. A section 751(a) exchange occurs when any portion of any money or other property received by a transferor partner in exchange for all or a part of his or her interest in the partnership is attributable to section 751 property (unrealized receivables and substantially appreciated inventory items as defined in section 751(c) and (d)). Generally, a sale or exchange of an interest in a partnership (or a portion thereof) at a time when the partnership has any section 751 property will constitute a section 751(a) exchange.

A return on Form 8308 must be filed with respect to each sale or exchange. Section 1.6050K-1T(a)(2), however, provides that the Commissioner may, at a future date, authorize the use of a single document which includes all of the partnership's returns for a calendar year, or of a composite document, by partnerships that are required to file 25 or more separate returns in any calendar year. The information to be supplied on Form 8308 includes the names, addresses, and taxpayer identification numbers of the transferee and transferor in the exchange and of the partnership, the date of the exchange, and such other information as may be required by Form 8308 or its instructions. Form 8308 shall contain a printed notice that the information on the Form has been supplied to the Internal Revenue Service, that the transferor is required to treat a portion of the gain realized from the section 751(a) exchange as ordinary income, and that the transferor in a section 751(a) exchange is required under §1.751-1(a)(3) to attach a statement relating to the exchange to his or her income tax return for the taxable year in which the exchange occurred. The partnership return on Form 8308 is to be filed as an attachment to the partnership's Form 1065 for its taxable year in which the calendar year in which the section 751(a) exchange occurred ends.

Under section 6050K(b) and the temporary regulations all partnerships that are required to file returns under section 6050K(a) must furnish a statement to each person whose name appears on the partnership's Form 8308 showing the name and address of the partnership in addition to the information shown on the Form 8308 with respect to that person. A copy of Form 8308 is to be used as the statement. The statement must be furnished on or before January 31 following the calendar year in which the section 751(a) exchange occurred (or, if later, 30 days after the partnership has notice of the exchange). Thus, under the statute the partnership must generally prepare Form 8308 prior to the time it must be filed so as to allow the timely furnishing of statements to the transferor and transferee.

Section 6050K(c)(1) and the temporary regulations require the transferor of a partnership interest in a section 751(a) exchange to notify the partnership of the exchange, in writing, on or before the thirtieth day after the date of the exchange (or, if earlier, January 15 of the calendar year following the calendar year in which the exchange occurred). The written notification from the transferor must include the names and addresses of the transferor and transferee, the date of the exchange, and the taxpayer identification number of the transferor and, if known, of the transferee.

Under section 6050K(c)(2) and the temporary regulations the partnership is not required to file a return or furnish statements under section 6050K until the partnership has notice of the section 751(a) exchange. Section 1.6050K-1T(e) clarifies that a partnership has notice of a section 751(a) exchange when either (1) the partnership receives the written notification from the transferor required under section 6050K(c)(1), or (2) the partnership has knowledge that there has been a transfer of a partnership interest at a time when the partnership had any section 751 property. However, no return or statements are required under section 6050K if the transfer was not a section 751(a) exchange (*e.g.*, a transfer which in its entirety constitutes a gift for federal income tax purposes). A partnership may rely on a written statement from the transferor that the transfer was not a section 751(a) exchange in the absence of knowledge to the contrary. Under the temporary regulations the partnership is generally not required to value property. However, in certain circumstances a partnership may not be able to determine whether it had any section 751 property on the date of a transfer of a partnership interest without determining the value of such property. In such cases, partnerships that do not wish to make such a valuation may file Form 8308 in order to avoid the risk of incurring a penalty under section 6652(a).

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; PAPERWORK REDUCTION ACT OF 1980

No general notice of proposed rulemaking is required by 5 U.S.C. 553(b) for temporary regulations. Accordingly, the Regulatory Flexibility Act does not apply and no Regulatory Flexibility Analysis is required for this rule. The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis is therefore not required. The reporting requirements added by this document have been submitted to the Office of Management and Budget (OMB) in accordance with the requirements of the Paperwork Reduction Act of 1980. The reporting requirements have been approved by OMB.

DRAFTING INFORMATION

The principal author of these temporary regulations is Robert E. Shaw of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Part 1 and Part 602 are amended as follows:

INCOME TAX REGULATIONS
(26 CFR Part 1)

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.6050K-1T also issued under 26 U.S.C. 6050K.

Par. 2. A new §1.6050K-1T is added immediately after §1.6050J-1T to read as follows:

§1.6050K-1T Returns relating to sales or exchanges of certain partnership interests. (Temporary)

(a) *Partnership return required.* (1) Except as provided in paragraph (a)(2) of this section, a partnership shall make a separate return on Form 8308 with respect to each section 751(a) exchange of an interest in such partnership which occurs after December 31, 1984. The term "section 751(a) exchange" means any sale or exchange of a partnership interest (or portion thereof) in which any portion of any money or other property received by a transferor partner in exchange for all or a part of his or her interest in the partnership is attributable to section 751 property. The term does not include a distribution which is treated as a sale or exchange between the distributee and the partnership under section 751(b). For purposes of this section, the term "section 751 property" means unrealized receivables, as defined in section

751(c), and inventory items which have appreciated substantially in value ("substantially appreciated inventory items"), as defined in section 751(d). A partnership that is in doubt as to whether partnership property constitutes section 751 property to any extent or as to whether a transfer of a partnership interest constitutes a section 751(a) exchange may file Form 8308 in order to avoid the risk of incurring a penalty under section 6652(a). The penalty under section 6652(a) will generally apply, however, to partnerships that do not file Form 8308 where in fact a section 751(a) exchange occurred, except as provided in paragraph (e) of this section.

(2) The Commissioner may authorize the use, at the option of the partnership, of a single document which includes all of the partnership's returns for a calendar year in the case of partnerships required under paragraph (a)(1) of this section to make 25 or more returns on Form 8308 for any calendar year. In addition, the Commissioner may authorize the use for this purpose, also at the option of such a partnership, of a composite document. These authorizations shall be subject to such conditions, limitations, and special rules governing the preparation, execution, filing, and correction thereof as the Commissioner may deem appropriate. Such composite document shall consist of a form prescribed by the Commissioner and an attachment or attachments of magnetic tape or other approved media. To the extent that the use of a single or composite document has been authorized by the Commissioner, references in this section to Form 8308 shall be deemed to refer also to returns included in a single or composite document under this paragraph (a)(2). Any single or composite document so authorized shall include the information required to be provided on Form 8308 under paragraph (b) of this section with respect to each section 751(a) exchange.

(b) *Contents of return.* The return on Form 8308 shall include the following information:

(1) The names, addresses, and taxpayer identification numbers of the transferee and transferor in the exchange and of the partnership filing the return;

(2) The date of the exchange; and

(3) Such other information as may be required by Form 8308 or its instructions.

(c) *Statement to be furnished to transferor and transferee.* Every partnership making a return under paragraph (a) of this section must furnish to each person whose name is set forth in such return a written statement on or before January 31 of the calendar year following the calendar year in which the section 751(a) exchange occurred to which the return under paragraph (a) relates (or, if later, 30 days after the partnership is notified of the exchange as defined in paragraph (e) of this section). The partnership shall use a copy of the completed Form 8308 as a statement unless the Form 8308 contains information with respect to more than one section 751(a) exchange (see paragraph (a)(2) of this section). If the partnership does not use a copy of Form 8308 as a statement, the statement shall include the information required to be shown on Form 8308 with respect to the section 751(a) exchange to which the person to whom the statement is furnished is a party, as well as the printed notice on Form 8308 with respect to the facts that the information shown on the statement has been supplied to the Internal Revenue Service, that a transferor of a partnership interest in a sale or exchange described in section 751(a) of the Internal Revenue Code is required to treat a portion of any gain or loss resulting from the sale or exchange as ordinary income or loss, and that the transferor in a section 751(a) sale or exchange is required under paragraph (a)(3) of §1.751-1 to attach a statement relating to the sale or exchange to his or her income tax return for the taxable year in which the sale or exchange occurred.

(d) *Requirement that transferor notify partnership.* The transferor of any partnership interest in a section 751(a) exchange shall notify the partnership of such exchange in writing within 30 days of the exchange, (or, if earlier, January 15 of the calendar year following the calendar year in which the exchange occurred). The written notification from the transferor shall include the following information:

(1) The names and addresses of the transferor and transferee in the section 751(a) exchange;

(2) The taxpayer identification number of the transferor and, if known, of the transferee; and

(3) The date of the exchange.

Any transferor who notified a partnership under section 6050K(c)(1) prior to January 22, 1986 by a notification that does not meet the requirements of this paragraph (d) shall furnish such partnership with the written notification described in this paragraph (d) on or before February 21, 1986.

(e) *Partnership not required to make a return or furnish statements under this section until it has notice of the exchange.* A partnership shall not be required to make a return or furnish statements under this section with respect to any section 751(a) exchange until it has been notified of the exchange. For purposes of section 6050K(c)(2) and this section a partnership is notified of a section 751(a) exchange when either:

(1) The partnership receives the written notification from the transferor required by paragraph (d) of this section; or

(2) The partnership has knowledge that there has been a transfer of a partnership interest or any portion thereof, and, at the time of the transfer, the partnership had any section 751 property. However, no return or statements are required under section 6050K if the transfer was not a section 751(a) exchange (*e.g.*, a transfer which in its entirety constitutes a gift for federal income tax purposes). For purposes of this paragraph (e)(2), the partnership may rely on a written statement from the transferor that the transfer was not a section 751(a) exchange in the absence of knowledge to the contrary. For rules applicable where the partnership is in doubt as to whether partnership property constitutes section 751 property to any extent or as to whether a transfer of a partnership interest constitutes a section 751(a) exchange, see paragraph (a)(1) of this section.

(f) *Partnership return is to be attached to Form 1065.* Any partnership return on Form 8308 required under this section shall be filed as an attachment to the partnership's From 1065 for its taxable year in which the calendar year in which the section 751(a) exchange occurred ends and shall be filed at the time (determined with regard to any extension of time for filing) and place prescribed for filing of the partnership's Form 1065 for that taxable year (see paragraph (e) of §1.6031-1 for the time and place for filing Form 1065). However, if a partnership is notified of an exchange (as defined in paragraph (e) of this section) after the partnership has filed Form 1065 for the taxable year for which the exchange should have been reported, Form 8308 shall be filed by amending the partnership's Form 1065 for that taxable year and filing the amended Form 1065 with the Form 8308 attached on or before the thirtieth day after the partnership is notified of the exchange.

(g) *Penalties*. For penalties for failure of:

(1) Transferors to furnish the notification required by paragraph (d) of this section see section 6678(c);

(2) Partnerships to furnish any statement required under paragraph (c) of this section see section 6678(a); and

(3) Partnerships to file the return on Form 8308 as required by paragraph (a) of this section see section 6652(a)(1) and (3).

OMB CONTROL NUMBERS UNDER THE PAPER REDUCTION ACT

(26 CFR Part 602)

Par. 3. The authority for Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 4. Section 602.101(c) is amended by inserting in the appropriate places in the table "1.6050K-1T . . . 1545-0941."

* * * * *

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue it with notice and public procedure under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

Approved December 12, 1985.

Ronald A. Pearlman,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on December 20, 1985, 8:45 a.m., and published in the issue of the Federal Register for December 23, 1985, 50 F.R. 52313)

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.602: Forms and instructions.
(Also Part I, Section 3302; 31.3302(c)-1.)

Rev. Proc. 86-8

SECTION 1. PURPOSE

The purpose of this revenue procedure is to bring up to date the procedure to be followed in computing reductions in the credit against the tax reportable on Form 940, Employer's Annual Federal Unemployment Tax Return, for 1985.

SEC. 2. BACKGROUND

.01 Section 3301 of the Internal Revenue Code imposes an excise tax on employers based on wages paid with respect to employment. Section 3306(a) defines the term "employer," and section 3306(b) defines the term "wages," for purposes of the tax imposed by section 3301.

.02 Section 3302 of the Code provides for credits against the tax imposed by section 3301. Reductions in the amount of credit otherwise allowable are provided for in section 3302(c). If a state has not restored amounts that were advanced under Title XII of the Social Security Act, 42 U.S.C. sections 1321-1324 (1982), then section 3302(c)(2) provides that reductions in the credit otherwise available shall occur in the case of a taxpayer that is subject to the unemployment compensation law of that state and that pays wages attributable to that state.

.03 Section 3302(c)(2)(A) of the Code, in conjunction with section 3302(d), provides with respect to 1985 that, for each taxable year beginning with the second consecutive calendar year in which the advances have not been repaid, the reduction is equal to 0.3 percent of the wages paid.

.04 Section 3302(c)(2)(B) of the Code provides for an additional reduction for a taxable year beginning with the third or fourth consecutive year in which the advances have not been repaid, and section 3302(c)(2)(C) provides for an additional reduction for a taxable year beginning with the fifth or any succeeding consecutive year. Section 3302(d)(7) provides that the percentage of any additional reduction is determined by the Secretary of Labor.

.05 Section 3302(f) of the Code provides a cap on the credit reduction in the case of any state that meets certain solvency requirements, as determined by the Secretary of Labor on or before November 10. The credit reduction applicable to employers subject to the unemployment compensation law of such a state is limited to either 0.6 percent of wages paid or the percentage credit reduction that was in effect in the case of the state for the preceding taxable year, if greater than 0.6 percent. A state that partially meets the solvency requirements may partially limit the credit reduction. A state must apply to the Secretary of Labor in order for a cap to be put into effect.

.06 Section 3302(d)(3) of the Code provides that credit reductions for any year may be forestalled if a state restores to the United States Treasury, before November 10 of that year, the full amount of the advances.

.07 For purposes of the tax imposed by section 3301 of the Code, section 3306(j)(1) provides that the term "state" includes the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands.

SEC. 3. CREDIT REDUCTIONS FOR 1985

In a letter of November 12, 1985, 50 Fed. Reg. 49142 (1985), the Department of Labor advised the Secretary of the Treasury that none of the following states had repaid the advances before November 10, 1985. In addition, the Department of Labor has set forth the appropriate credit reduction for employers subject to the unemployment compensation law of each state, with respect to employment attributable to that state. As a result, credit reductions will take effect in the amount of the following percentages of the wages (as defined in section 3306(b) of the Code) paid by such an employer that are attributable to the following states:

(a) 0.6 percent—Louisiana, Puerto Rico, and Vermont;

(b) 0.7 percent—Connecticut;

(c) 0.8 percent—Ohio and West Virginia;

(d) 0.9 percent—Illinois and Pennsylvania;

(e) 1.1 percent—Minnesota;

(f) 1.2 percent—the Virgin Islands.

SEC. 4. PROCEDURE

If a credit reduction applies, it is computed on Part I, lines 6 and 7 of the Form 940 for 1985, and carried to line 2, Part II or line 4, Part III.

26 CFR 601.402: Sales taxes collected by return.
(Also Section 4064; 48.4064-1.)

Rev. Proc. 86-9

SECTION 1. PURPOSE

The purpose of this revenue procedure is to set forth guidelines for importers of automobiles to compute gas guzzler tax liability under section 4064 of the Internal Revenue Code for automobiles that are imported without a fuel economy rating assigned by the Environmental Protection Agency (EPA).

SEC. 2. BACKGROUND

.01 Section 4064 of the Code imposes on the sale by the manufacturer (the definition of which includes an importer) of each automobile a tax in accordance with the tables set forth in section 4064(a). The liability for tax is based on the model year of the automobile and the fuel economy rating of the model type into which the automobile falls.

.02 Rev. Rul. 86-20, page 16, this Bulletin, concerns automobiles that are imported without a prototype-based fuel economy rating assigned by the EPA. The ruling holds that the sale, use, or first lease of such an automobile is subject to the gas guzzler tax imposed by section 4064(a) of the Code.

.03 Unless specifically excepted, automobiles imported into the United States must conform to federal emission standards. The large importers usually apply for a "certificate of conformity" to those emission standards by having prototype models tested for compliance. The certificate then becomes the importer's license to import vehicles into the United States. EPA also normally assigns fuel economy ratings to those prototype automobiles. The fuel economy rating is a combination of the urban economy rating, which is based on the emission test results, and the highway economy rating.

.04 Automobiles that are imported without a "certificate of conformity" must either be (1) converted, by installation of emission controls, to conform in all material respects to an automobile that is already certified for sale in the United States or (2) modified by installation of emission control components and individually tested to demonstrate emission compliance. *See* EPA regulations, Importation of Motor Vehicles and Motor Vehicle Engines, 40 C.F.R. section 85.1504 (1984). A fuel economy rating is not generally available for these vehicles because EPA does not require a highway fuel economy test on them and thus a separate highway fuel economy test would be required in order to devise a fuel economy rating.

SEC. 3. SCOPE AND OBJECTIVE

.01 Section 4064(c)(1) of the Code provides that, for purposes of the gas guzzler tax, fuel economy for any model type shall be measured in accordance with testing and calculation procedures established by the EPA Administrator by regulation. Procedures so established shall be the procedures utilized by the EPA Administrator for model year 1975 (weighted 55 percent urban cycle, and 45 percent highway cycle), or procedures which yield comparable results. Such procedures, to the extent practicable, shall require that fuel economy tests be conducted in conjunction with emissions tests conducted under section 206 of the Clear Air Act, 42 U.S.C. section 7521 (1982). The EPA Administrator shall report any measurements of fuel economy to the Secretary.

.02 Although those automobiles that are imported into the United States and are modified under the two methods described in section 2.04 are not assigned fuel economy ratings at the time of emission testing or modification, these vehicles are subject to the gas guzzler tax under Rev. Rul. 86-20, and liability is computed as follows:

SEC. 4. PROCEDURE

.01 Except as provided in section 4.04, in those instances where the importer modifies, or causes to be modified, an imported automobile under the first method set forth in section 2.04, the fuel economy rating for such automobile shall be equal to the EPA-prescribed rating for the original manufacturer's certified prototype to which such automobile has been modified to conform for emission purposes. The EPA-prescribed fuel economy ratings for model years, 1980 through 1986 are listed below.

.02 If, as in the second method set forth in section 2.04, an automobile has been modified and individually tested for emission compliance, no certified automobile is available for comparison. Except as provided in section 4.04, the imported automobile is presumed to fall within the lowest fuel economy rating prescribed for the particular model year of the automobile in the tax rate tables contained in section 4064(a) of the Code. For purposes of complying with section 4.01 and this section 4.02, the importer shall retain documentation of modification and/or testing for a period of three years from the date the tax becomes due or the date the tax is paid, whichever is later.

.03 Certain imported automobiles are exempted from compliance with the federal emission standards by virtue of EPA enforcement and regulatory exemptions. Those vehicles may be driven in the United States without modification or testing. For purposes of the gas guzzler tax, such a vehicle is ascribed the lowest fuel economy rating in the tables in section 4064(a) of the Code for the particular model year of the automobile. An automobile that is imported under an EPA exemption and is later modified to conform to federal emission standards is ascribed a fuel economy rating gas if it had been imported and modified according to one of the methods described in section 2.04.

.04 In any instance where an importer believes that an ascribed fuel economy rating is inappropriate for a particular vehicle, the importer may, at the importer's own expense, have the vehicle individually tested. The testing must be in accordance with EPA procedures for a fuel economy rating and must be carried out at one of the EPA (Office of Air, Noise and Radiation) recognized laboratories that are capable of conducting motor vehicle emission tests. State emission checks or tests performed at service stations or repair shops are not acceptable. The taxpayer shall retain the fuel economy test documentation for a period of three years from the date the tax becomes due or the date the tax is paid, whichever is later.

SEC. 5. EFFECTIVE DATE

This revenue procedure is effective with respect to 1980 and later model year automobiles.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Information Returns Relating to Sales or Exchanges of Certain Partnership Interests

LR-236-84

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary income tax regulations relating to information returns, statements, and notifications required where there is a sale or exchange of certain partnership interests. The text of the temporary regulations serves as the comment document for this notice of proposed rulemaking.

DATES: Written comments and requests for a public hearing must be delivered or mailed by February 21, 1986. The regulations are proposed to be effective with respect to sales or exchanges of partnership interests made after December 31, 1984.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, 1111 Constitution Avenue, N.W., Attention: CC:LR:T (LR-236-84), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Robert E. Shaw of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, (Attention: CC:LR:T LR-236-84). Telephone 202-566-3297 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

BACKGROUND

The temporary regulations in the Rules and Regulations portion of this issue of the FEDERAL REGISTER amend the Income Tax Regulations (26 CFR Part 1) under section 6050K of the Internal Revenue Code of 1954.

For the text of the temporary regulations see T.D. 8064 published * * * [on page 18, this Bulletin]. The preamble to the temporary regulations explains the addition to the regulations.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that the proposed rule is not subject to review under Executive Order 12291. Accordingly, a Regulatory Impact Analysis is not required. Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6).

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request of any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

The collection of information requirements contained in this notice of proposed rulemaking have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on these requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer of Internal Revenue Service, New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests that persons submitting comments on these requirements to OMB also send copies of those comments to the Service.

DRAFTING INFORMATION

The principal author of these proposed regulations is Robert E. Shaw of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations both on matters of substance and style.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on December 20, 1985, 9:22 a.m., and published in the issue of the Federal Register for December 23, 1985 50 F.R. 52332)

Notice of Proposed Rulemaking

Information Reporting of Allowances, or Reimbursements, or Charges for Travel and Other Expenses of Public Employees and Certain Other Persons

LR-59-85

SUMMARY: This document contains proposed regulations governing information returns required to be filed by public sector employers and by payors with respect to persons in the service of an international organization regarding allowances or reimbursements provided for traveling or other bona fide ordinary and necessary expenses, including an allowance for meals and lodging or a per diem allowance in lieu of subsistence. This action is necessary to clarify existing regulations with respect to information reporting. These regulations affect employers, employees, certain third-party paying agents, and payors with respect to persons in the service of an international organization.

DATES: The regulations are proposed to be effective January 1, 1986, and would apply to information returns required to be filed for calendar years after 1986. Written comments must be delivered or mailed by March 10, 1986.

ADDRESS: Send comments to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-59-85), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Renay France of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) Telephone 202-566-3829 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 6041(a) of the Internal Revenue Code of 1954. The amendments would clarify the Internal Revenue Service's position with respect to amounts provided to employees and certain other persons as allowances or reimbursements for traveling or certain other business expenses. This clarification is necessary because some employers and payors appear to be either unaware of, or failing to comply with, the Service's position.

EXPLANATION OF PROVISIONS

The proposed amendments would delete present §1.6041-3(j) to make clear that all employers, including the United States, a State, Territory or a political subdivision thereof, and the District of Columbia, are required to report amounts provided to persons in the military or civil service as allowances, reimbursements, or charges for traveling and other business expenses, including an allowance for meals and lodging or a per diem allowance in lieu of subsistence, except to the extent that such persons are required to and do account to the employer for such expenses within the meaning of §1.162-17(b)(4).

Similarly, the amendments would delete §1.6041-3(n) to make clear that allowances, reimbursements, or charges for traveling and other business expenses, including an allowance for meals and lodging or a per diem allowance in lieu of subsistence, provided to persons in the service of an international organization, as defined in section 7701(a)(18), are subject to reporting except to the extent that such persons are required to and do account to the international organization for such expenses within the meaning of §1.162-17(b)(4).

These proposed amendments would make clear that payments of this character are subject to §1.6041-3(i), which provides that no information return is required with respect to advances, reimbursements, or charges for traveling and other business expenses of an employee to the extent that the employee is required to account (within the meaning of the term "account" as set forth in §1.162-17(b)(4)) and does so account to the employer for such expenses.

NON-APPLICABILITY OF EXECUTIVE ORDER 12291

The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis, therefore, is not required.

REGULATORY FLEXIBILITY ANALYSIS

It is hereby certified that this rule will not have a significant impact on a substantial number of small entities because the number of significantly affected small entities is insubstantial.

COMMENTS AND REGULATIONS FOR A PUBLIC HEARING

Before adopting these proposed regulations consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations is Renay France of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Proposed amendments to the regulations

The proposed amendments to 26 CFR Part 1 are as follows:

Paragraph 1. The authority for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805. * * * Section 1.6041-3 also issued under 26 U.S.C. 6041(a).

Par. 2. Section 1.6041-3 is amended as follows:

1. Paragraph (j) is removed.

2. Paragraph (k) is redesignated as paragraph (j).

3. Paragraph (l) is redesignated as paragraph (k).

4. Paragraph (m) is redesignated as paragraph (l).

5. Paragraph (n) is removed.

6. Paragraph (o) is redesignated as paragraph (m).

7. Paragraph (p) is redesignated as paragraph (n)

8. Paragraph (q) is redesignated as paragraph (o).

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

(Filed by the Office of the Federal Register on January 8, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 9, 1986, 51 F.R. 985).

Corrections to Publication 1212

Announcement 86-17

Publication 1212, *List of Original Issue Discount Instruments* (Revised December 1985), contains incorrect information in Section I-B about the publicly traded long-term corporate debt instruments originally issued at a discount after December 31, 1984. The Internal Revenue Service was advised that, for those instruments listed in Section I-B, an inaccurate procedure had been utilized in calculating both the "daily portion" of original issue discount (OID) for the "accrual periods" covering calendar years 1985 and 1986, and the dollar amount of OID to be reported by brokers and middlemen on information returns for those calendar years. Copies of the revised Section I-B will be made available with Publication 1212 through Internal Revenue Service distribution centers. The corrected information is also provided in the list that follows:

Publication 1212
Section I—B
(Revised January 1986)

This section reflects publicly traded corporate debt instruments--mostly long-term--which were originally issued at a discount after December 31, 1984.

Name of Issuer	CUSIP No.	Issue Date	Maturity Date	Issue Price (Percent of Principal Amount)	Annual Stated Interest Rate	Daily Portion of OID (Dollar Amount per $1,000 of Maturity Value in each Accrual Period)					OID to be Reported per 1,000 of Maturity value For Calendar Year

Foundations Status of Certain Organizations

Announcement 86-19

The following organizations have failed to establish or have been unable to maintain their status as public charities or as operating foundations. Accordingly, grantors and contributors may not, after this date, rely on previous rulings or designations in the Cumulative List of Organizations (Publication 78), or on the presumption arising from the filing of notices under section 508(b) of the Code. This listing does *not* indicate that the organizations have lost their status as organizations described in section 501(c)(3), eligible to receive deductible contributions.

Former Public Charities. the following organizations (which have been treated as organizations that are not private foundations described in section 509(a) of the Code) are now classified as private foundations:

Youth's Hope, Northridge, CA

If an organization listed above submits information that warrants the renewal of its classification as a public charity or as a private operating foundation, the Internal Revenue Service will issue a ruling or determination letter with the revised classification as to foundation status. Grantors and contributors may thereafter rely upon such ruling or determination letter as provided in section 1.509(a)-7 of the Income Tax Regulations. It is not the practice of the Service to announce such revised classification of foundation status in the Internal Revenue Bulletin.

Annual Return Required for Fringe Benefit Plans

Announcement 86-20

Section 6039D of the Internal Revenue Code, which was added by Public Law 98-611 and Public Law 98-612, requires group legal services plans described in section 120, cafeteria plans described in section 125, and educational assistance programs described in section 127 to file an annual return with the Internal Revenue Service for years beginning after December 31, 1984. The Service will issue regulations soon stating that these plans should file the required return on either Form 5500, Annual Return/Report of Employee Benefit Plan; Form 5500-C, Return/Report of Employee Benefit Plan; or Form 5500-R, Registration Statement of Employee Benefit Plan.

The forms and their related instructions have been revised so that fringe benefit plans required to file need only complete specified items.

For more information, see Forms 5500, 5500-C, and 5500-R and instructions, which are now available.

Announcement of the Disbarment, Suspension, or Consent to Voluntary Suspension of Attorneys, Certified Public Accountants, Enrolled Agents and Enrolled Actuaries from Practice Before the Internal Revenue Service

Under 31 Code of Federal Regulations, Part 10, an attorney, certified public accountant, enrolled agent or enrolled actuary, in order to avoid the institution or conclusion of a proceeding for his disbarment or suspension from practice before the Internal Revenue Service, may offer his consent to suspension from such practice. The Director of Practice, in his discretion, may suspend an attorney, certified public accountant, enrolled agent or enrolled actuary in accordance with the consent offered.

Attorneys, certified public accountants, enrolled agents, and enrolled actuaries are prohibited in any Internal Revenue Service matter from directly or indirectly employing, accepting assistance from, being employed by or sharing fees with, any practitioner disbarred or under suspension from practice before the Internal Revenue Service.

To enable attorneys, certified public accountants, enrolled agents and enrolled actuaries to identify practitioners under consent suspension from practice before the Internal Revenue Service, the Director of Practice will announce in the Internal Revenue Bulletin the names and addresses of practitioners who have been suspended from such practice, their designation as attorney, certified public accountant, enrolled agent or enrolled actuary, and the date or period of suspension. This announcement will appear in the weekly Bulletin at the earliest practicable date after such action and will continue to appear in the weekly Bulletin for five successive weeks or for as many weeks as is practicable for each attorney, certified public accountant, enrolled agent or enrolled actuary so suspended and will later be consolidated and published in the Cumulative Bulletin.

The following individuals have been placed under consent suspension from practice before the Internal Revenue Service:

Name	Address	Designation	Term of Suspension
Philip G. Arneson	Sparta, WI	Attorney	Indefinite from December 15, 1985
Joseph P. Day	Woburn, MA	Attorney	Indefinite from December 24, 1985
Kenneth H. Dillard	Nashville, TN	Certified Public Accountant	Indefinite from December 31, 1985
LeRoy Hodge	Hamilton, NY	Attorney	Indefinite from December 10, 1985
Frank S. Lukuch	Barberton, OH	Certified Public Accountant	Indefinite from December 4, 1985
W. Stephen McConnell	Tampa, FL	Certified Public Accountant	Indefinite from December 26, 1985
Nathan Rich	Wilmington, DE	Certified Public Accountant	Indefinite from December 1, 1985
Walter E. Shettlemore	Long Beach, MS	Certified Public Accountant	Indefinite from December 20, 1985

Announcement Relating to Proposed Regulations Published With Notice of Proposed Rulemaking

Changes in regulations as announced below have been published in the Federal Register in tentative or proposed form to provide interested parties with an opportunity to file their objections or suggestions for consideration prior to final adoption of such regulations. These announcements will appear in the Bulletin during the period which has been prescribed for the submission and consideration of any views, arguments, or suggestions pertaining to the proposed regulations so published. Statement of such views, arguments or suggestions should be submitted in writing, preferably six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

Section affected	Subject	Published in the Bulletin	Expiration date for submission of views
26 CFR 1.61-2T, removed; new 1.61-2T, added; 1.132-1T, removed; new 1.1.32-1T, added; 1.132-2T through 1.132-8T, added; 1.162-25T, 1.274-5T, 1.274-6T, amended.	Taxation of fringe benefits and exclusions from gross income of certain fringe benefits	1986-3 I.R.B. 40	Feb. 21, 1986
26 CFR 1.451-3, amended.	Accounting for long-term contracts	1986-6 I.R.B. 55	Mar. 7, 1986

INTERNAL REVENUE BULLETIN

The Introduction on page 3 describes the purpose and content of this publication. The weekly Internal Revenue Bulletin is sold on a yearly subscription basis by the Superintendent of Documents. Current subscribers are notified by the Superintendent of Documents when their subscriptions must be renewed.

CUMULATIVE BULLETINS

The contents of the weekly Bulletin are consolidated semiannually into a permanent, indexed, Cumulative Bulletin. These are sold on a single copy basis and *are not* included as part of the subscription to the Internal Revenue Bulletin. Subscribers to the weekly Bulletin are notified when copies of the Cumulative Bulletin are available. Certain issues of Cumulative Bulletins are out of print and are not available. Persons desiring available Cumulative Bulletins, which are listed on the reverse, may purchase them from the Superintendent of Documents.

BULLETIN INDEX-DIGEST SYSTEM

The Bulletin Index-Digest System provides a fast and easy way to research Revenue Rulings, Revenue Procedures, Public Laws, Treasury Decisions, and other matters of a permanent nature published in the weekly Internal Revenue Bulletin, or Cumulative Bulletin from 1953 on. It is a comprehensive and up-to-date research tool that requires no filing or other clerical maintenance. The current revision consists of four Services, available on a subscription basis, each including a basic volume that covers the period 1953-1983/1984 and a cumulative supplement covering material published in subsequent Bulletins for the following two-year period. Cumulative supplements are issued quarterly for the Income Tax Service and semiannually for the Estate and Gift, Employment, and Excise Tax Service.

HOW TO ORDER

Check the publications and/or subscription(s) desired on the reverse, complete the order blank, enclose the proper remittance, detach entire page, and mail to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Please allow two to six weeks, plus mailing time, for delivery.

Highlights of this Issue

These synopses are intended only as aids to the reader in identifying the subject matter covered. They may not be relied upon as authoritative interpretations.

INCOME TAX

Rev. Rul. 86-23, page 6.

Investment credit; recapture; distribution to parent corporation; subsequent transfer to partnership. Recapture of investment credit under section 47 of the Code does not occur where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest.

Rev. Rul. 86-24, page 7.

Expenses of farmers; amounts paid for cows and embryo transplants. A purchaser of cows that are pregnant with transplanted embryos, who subsequently sells the cows and the calves separately, must allocate the original purchase price between the cows and the calves. The portion of the original purchase price that equals the fair market value of the cows is allocated to the cows; the remaining amount is allocated to the calves. Neither the costs attributable to the cows, nor the costs attributable to the embryos, are deductible currently as expenses. Gain or loss from the sale of the cows or calves is ordinary income or ordinary loss.

Rev. Rul. 86-25, page 18.

Recapitalization; exchange or old stock for three new classes. In a corporation's plan of recapitalization, the exchange by one group of shareholders of voting common stock for newly issued class A voting common stock and nonvoting preferred stock and, by another group of shareholders, the exchange of voting common stock for newly issued class A voting common stock and nonvoting class B common stock is a reorganization within the meaning of section 368(a)(1)(E) of the Code provided the transaction has a bona fide business purpose, is an isolated transaction, and is not part of a plan to increase periodically the proportionate interest of any shareholder in the assets or earnings and profits of the corporation.

T 22.23:

Rev. Rul. 86-26, page 19.

LIFO; price indexes; department stores. The November 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, November 30, 1985.

Rev. Rul. 86-27, page 20.

Dividends paid deduction; personal holding company income. A personal holding company subsidiary liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income.

Rev. Rul. 86-30, page 24.

Limited partnerships. The states of Alabama, Minnesota, Nebraska, Oklahoma, West Virginia, and Wisconsin are added to the list of the states that have enacted legislation that corresponds to the Uniform Limited Partnership Act for purposes of section 301.7701-2 of the regulations. Rev. Rul. 84-80 amplified.

T.D. 8068, page 9.
LR-218-83, page 35.

Temporary and proposed amendments to the regulations relate to elections under section 338(h)(10) of the Code and to the extension of time for making certain other elections under section 338.

LR-106-77, page 33.

Proposed amendments to the regulations under section 936 of the Code relate to qualified possession source investment income for purposes of the Puerto Rico and possession tax credit.

EXCISE TAXES

Rev. Rul. 86-28, page 22.

Sale price of truck; tire exclusion; use of predetermined price. A vehicle retailer that does not have an established retail price of tires may use the tire manufacturer's predetermined price established by the manufacturer under Federal Trade Commission (FTC) regulations in determining the retail fair market value of the tire pursuant to section 4052(b)(1)(B)(iii) of the Code.

Mission of the Service

The purpose of the Internal Revenue Service is to collect the proper amount of tax revenues at the least cost to the public, and in a manner that warrants the highest degree of public confidence in our integrity, efficiency and fairness. To achieve that purpose, we will:

—Encourage and achieve the highest possible degree of voluntary compliance in accordance with the tax law and regulations;

—Advise the public of their rights and responsibilities;

—Determine the extent of compliance and the causes of noncompliance;

—Do all things needed for the proper administration and enforcement of the tax laws;

—Continually search for and implement new, more efficient and effective ways of accomplishing our Mission.

Statement of Principles of Internal Revenue Tax Administration

The function of the Internal Revenue Service is to administer the Internal Revenue Code. Tax policy for raising revenue is determined by Congress.

With this in mind, it is the duty of the Service to carry out that policy by correctly applying the laws enacted by Congress; to determine the reasonable meaning of various Code provisions in light of the Congressional purpose in enacting them; and to perform this work in a fair and impartial manner, with neither a government nor a taxpayer point of view.

At the heart of administration is interpretation of the Code. It is the responsibility of each person in the Service, charged with the duty of interpreting the law, to try to find the true meaning of the statutory provision and not to adopt a strained construction in the belief that he or she is "protecting the revenue." The revenue is properly protected only when we ascertain and apply the true meaning of the statute.

The Service also has the responsibility of applying and administering the law in a reasonable, practical manner. Issues should only be raised by examining officers when they have merit, never arbitrarily or for trading purposes. At the same time, the examining officer should never hesitate to raise a meritorious issue. It is also important that care be exercised not to raise an issue or to ask a court to adopt a position inconsistent with an established Service position.

Administration should be both reasonable and vigorous. It should be conducted with as little delay as possible and with great courtesy and considerateness. It should never try to overreach, and should be reasonable within the bounds of law and sound administration. It should, however, be vigorous in requiring compliance with law and it should be relentless in its attack on unreal tax devices and fraud.

Introduction

The Internal Revenue Bulletin is the authoritative instrument of the Commissioner of Internal Revenue for announcing official rulings and procedures of the Internal Revenue Service and for publishing Treasury Decisions, Executive Orders, Tax Conventions, legislation, court decisions, and other items of general interest. It is published weekly and may be obtained from the Superintendent of Documents on a subscription basis. Bulletin contents of a permanent nature are consolidated semiannually into Cumulative Bulletins, which are sold on a single-copy basis.

It is the policy of the Service to publish in the Bulletin all substantive rulings necessary to promote a uniform application of the tax laws, including all rulings that supersede, revoke, modify, or amend any of those previously published in the Bulletin. All published rulings apply retroactively unless otherwise indicated. Procedures relating solely to matters of internal management are not published; however, statements of internal practices and procedures that affect the rights and duties of taxpayers are published.

Revenue rulings represent the conclusions of the Service on the application of the law to the pivotal facts stated in the revenue ruling. In those based on positions taken in rulings to taxpayers or technical advice to Service field offices, identifying details and information of a confidential nature are deleted to prevent unwarranted invasions of privacy and to comply with statutory requirements.

Rulings and procedures reported in the Bulletin do not have the force and effect of Treasury Department Regulations, but they may be used as precedents. Unpublished rulings will not be relied on, used, or cited as precedents by Service personnel in the disposition of other cases. In applying published rulings and procedures, the effect of subsequent legislation, regulations, court decisions, rulings, and procedures must be considered, and Service personnel and others concerned are cautioned against reaching the same conclusions in other cases unless the facts and circumstances are substantially the same.

The Bulletin is divided into four parts as follows:

Part I.—1954 Code.

This part includes rulings and decisions based on provisions of the Internal Revenue Code of 1954.

Part II.—Treaties and Tax Legislation.

This part is divided into two subparts as follows: Subpart A, Tax Conventions, and Subpart B, Legislation and Related Committee Reports.

Part III.—Administrative, Procedural, and Miscellaneous.

To the extent practicable, pertinent cross references to these subjects are contained in the other Parts and Subparts.

Part IV.—Items of General Interest.

With the exception of the disbarment and suspension list included in this part, none of these announcements is consolidated in the Cumulative Bulletins.

The first Bulletin for each month includes an index for the matters published during the preceding month. These monthly indexes are cumulated on a quarterly and semiannual basis, and are published in the first Bulletin of the succeeding quarterly and semi-annual period, respectively.

The Bulletin Index-Digest System, a research and reference service supplementing the Bulletin, may be obtained from the Superintendent of Documents on a subscription basis. It consists of four Services: Service No. 1, Income Tax; Service No. 2, Estate and Gift Taxes; Service No. 3, Employment Taxes; Service No. 4, Excise Taxes. Each Service consists of a basic volume and a cumulative supplement that provide (1) finding lists of items published in the Bulletin, (2) digests of revenue rulings, revenue procedures, and other published items, and (3) indexes of Public Laws, Treasury Decisions, and Tax Conventions.

The contents of this publication are not copyrighted and may be reprinted freely. A citation of the Internal Revenue Bulletin as the source would be appropriate.

For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Prices: Domestic—$1.75 a single copy, $82.00 a year subscription. Foreign—$2.19 a single copy, $102.50 a year for subscription.

ADMINISTRATIVE

Rev. Rul. 86-29, page 23.

Returns; information failure to file; Form 1041, Schedule K-1. Schedule K-1 is considered an information return that is required to be timely filed with Form 1041, U.S. Fiduciary Income Tax Return. Trusts that fail to file Schedule K-1, file K-1s that omit material information, or file substitute K-1s not in an approved format, are subject to the penalty under section 6652(a)(1)(A) of the Code.

Rev. Proc. 86-10, page 25.

Assessments; penalties; appeal procedures. Procedures for appeal of assessments of certain additions to tax, additional amounts, and penalties are now found in section 601.106 of the Statement of Procedural Rules. Rev. Proc. 78-1 is obsolete.

Rev. Proc. 86-11, page 25.

Information retrieval and videotex; user charges and guidelines. User charges and guidelines are set forth for information retrieval and videotex tax library material produced by the Service.

Notice 86-2, page 25.

Regulations relating to the enrollment of individuals to practice before the Service have been amended.

Announcement 86-21, page 36.

Publication 583, Information for Business Taxpayers (Revised November 1985), contains an incorrect dollar amount and an incorrect line reference.

Announcement Relating to Decisions of the Tax Court

It is the policy of the Internal Revenue Service to announce in the Internal Revenue Bulletin at the earliest practicable date the determination of the Commissioner to acquiesce or not acquiesce in a decision of the Tax Court which disallows a deficiency in tax determined by the Commissioner to be due.

Notice that the Commissioner has acquiesced or nonacquiesced in a decision of the Tax Court relates only to the issue or issues decided adversely to the Government.

Actions of acquiescences in adverse decisions shall be relied on by Revenue officers and others concerned as conclusions of the Service only to the application of the law to the facts in the particular case. Caution should be exercised in extending the application of the decision to a similar case unless the facts and circumstances are substantially the same, and consideration should be given to the effect of new legislation, regulations, and rulings as well as subsequent court decisions and actions thereon.

Acquiescence in a decision means acceptance by the Service of the conclusion reached, and does not necessarily mean acceptance and approval of any or all of the reasons assigned by the Court for its conclusions.

No announcements are made in the Bulletin, with respect to memorandum opinions of the Tax Court.

The announcements published in the weekly Internal Revenue Bulletins are consolidated semiannually and annually. The semiannual consolidation appears in the first bulletin for July and in the Cumulative Bulletin for the first half of the year and the annual consolidation appears in the first Bulletin for the following January and in the Cumulative Bulletin for the last half of the year.

The Commissioner ACQUIESCES in the following decision:

Taxpayer	Docket No.	*Report* Volume	Page
Gamble, Launce E. & Joan L.[1]	1617-76	68	972

---

[1] Acquiescence in the issues relating to (1) whether petitioners must report as ordinary trade or business income, the gain on the sale of a thoroughbred colt which was 16½ months old, and (2) what portion, if any, of the purchase price of a mare in foal must be allocated to the foal. See Rev. Rul. 86-24, page 7, this Bulletin.

Part I. Rulings and Decisions Under the Internal Revenue Code of 1954

Section 38.—General Business Credit

26 CFR 1.38-1: Investment in certain depreciable property.

Whether recapture of investment credit under section 47 of the Code occurs where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest. See Rev. Rul. 86-23, below.

Section 47.—Certain Dispositions, Etc., of Section 38 Property

26 CFR 1.47-3: Exceptions to the application of section 1.47-1.
(Also Sections 38, 332, 381, 721, 723; 1.38-1, 1.332-1, 1.381-1, 1.721-1, 1.723-1.)

Investment credit; recapture; distribution to parent corporation; subsequent transfer to partnership. Recapture of investment credit under section 47 of the Code does not occur where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest.

Rev. Rul. 86-23

ISSUE

If a wholly owned subsidiary corporation had claimed investment tax credit with respect to certain property and if the property is later distributed to the parent corporation in a complete liquidation of the subsidiary and is then contributed by the parent to a partnership in which the parent corporation holds a 75 percent interest, does section 47(a) of the Internal Revenue Code require any recapture of the investment tax credit?

FACTS

X and its three subsidiaries were corporations engaged in active businesses. *X* determined that it would be advantageous to operate the businesses in partnership form in conjunction with corporation *Y* and *Z*. Accordingly, *X* liquidated the three subsidiaries in transactions that qualified under section 332(a) of the Code. Subsequently, in a transaction that qualified under section 721(a), *X* contributed all of the property it had received in the liquidations to a new partnership it had formed with *Y* and *Z*. In return for the contribution of property, *X* received a 75 percent interest in the partnership. In return for their cash contributions to the partnership, *Y* and *Z* received 15 percent and 10 percent partnership interests, respectively.

The property received by *X* in the liquidation of its subsidiaries and subsequently transferred to the partnership included section 38 property that had been previously placed in service by the subsidiaries. The liquidations and subsequent transfer occurred before the close of the useful life that was taken into account in computing the investment tax credit under section 38 of the Code.

The partnership continued to operate the businesses previously operated by *X*'s three subsidiaries. The section 38 property transferred to the partnership was retained as section 38 property in the same businesses.

LAW AND ANALYSIS

Section 38 of the Code provides for a general business credit that includes for a taxable year the investment tax credit determined under section 46(a). Sections 46(a) and (c) provide that the amount of the investment tax credit for any taxable year is equal to the sum of certain specified percentages of the qualified investment in section 38 property.

Section 47(a)(1) of the Code provides that if, during any taxable year, any property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer, before the close of the useful life that was taken into account in computing the credit under section 38, then the tax under chapter 1 for the taxable year shall be increased by an amount equal to the aggregate decrease in the credits allowed under section 38 for all prior taxable years that would have resulted solely from substituting, in determining qualified investment, for the useful life the period beginning with the time the property was placed in service by the taxpayer and ending with the time the property ceased to be section 38 property.

Section 47(b) of the Code provides that property shall not be treated as ceasing to be section 38 property with respect to the taxpayer by reason of a mere change in the form of conducting the trade or business as section 38 property and the taxpayer retains a substantial interest in the trade or business.

Section 1.47-1(a) of the Income Tax Regulations reiterates the substance of section 47(a)(1) of the Code.

Section 1.47-3(e)(1) of the regulations provides that section 1.47-1(a) shall not apply to a disposition of section 38 property in a transaction to which section 381(a) of the Code (relating to carryovers in certain corporate acquisitions) applies. If the section 38 property described in the preceding sentence is disposed of, or otherwise ceases to be section 38 property with respect to the acquiring corporation, before the close of the estimated useful life that was taken into account in computing the transferor corporation's qualified investment, then section 1.47-1(a) shall apply to the acquiring corporation with respect to the section 38 property.

Sections 1.47-3(f)(1)(i) and (ii) of the regulations provide that provisions concerning investment tax credit recapture do not apply to section 38 property where the relevant disposition or cessation is by reason of a mere change in the form of conducting the trade or business in which section 38 property is used, provided that the following four conditions are satisfied:

(a) the section 38 property is retained as section 38 property in the same trade or business;

(b) the transferor of the section 38 property retains a substantial interest in the trade or business;

(c) substantially all of the assets (whether or not section 38 property) necessary to operate the trade or business are transferred to the transferee to whom the section 38 property is transferred; and

(d) the basis of the section 38 property in the hands of the transferee is determined in who or in part by reference to the basis of the section 38 property in the hands of the transferor.

Section 1.47-3(f)(2) of the regulations states that a substantial interest is retained in a trade or business only if, after the change in form, the retained interest in the trade or business is substantial in relation to the total interest of all persons or is equal to or greater than the transferor's interest prior to the change in form.

Section 332(a) of the Code provides that no gain or loss shall be recognized on the receipt by a corporation of property distributed in complete liquidation (as determined under section 332(b)) of another corporation.

Sections 381(a)(1) and 381(c)(26) of the Code provide that, in the case of the acquisition of assets of a corporation by another corporation in a distribution to such other corporation to which section 332 (relating to liquidations of subsidiaries) applies, the acquiring corporation shall take into account the items required to be taken into account for purposes of section 38 in respect of the transferor corporation.

Section 721(a) of the Code provides that no gain or loss shall be recognized to a partnership or to any of its partners in the case of a contribution of property to the partnership in exchange for an interest in the partnership.

Section 723 of the Code provides that the basis of property contributed to a partnership by a partner shall be the adjusted basis of such property to the contributing partner at the time of the contribution increased by the amount (if any) of gain recognized to the contributing partner at such time.

In the present situation, because the liquidation of *X*'s subsidiaries are complete liquidations that qualify for nonrecognition treatment under section 332(a) of the Code, section 381(a) is applicable to the liquidation transactions. Section 1.47-3(e)(1) of the regulations provides that the recapture provisions do not apply to a transaction to which section 381(a) is applicable. Therefore, the liquidation of *X*'s subsidiaries into *X* does not result in investment tax credit recapture.

The recapture issue, however, is presented a second time by *X*'s contribution of the businesses to the partnership. Section 1.47-3(e)(1) of the regulations provides that if section 38 property that was subject to a section 381(a) transaction is later disposed of, or otherwise ceases to be section 38 property with respect to the acquiring corporation, before the close of the estimated useful life which was taken into account in computing the transferor corporation's qualified investment, then the recapture provisions of section 1.47-1(a) apply to the acquiring corporation with respect to the section 38 property.

X is an acquiring corporation for purposes of section 1.47-3(e)(1) of the regulations, and *X* disposed of the section 38 property received from the liquidation transactions when it contributed the property to the partnership. The contributions, however, are not treated as dispositions for investment tax credit recapture purposes if the four conditions set forth in section 1.47-3(f)(1)(ii) are satisfied.

The first condition of section 1.47-3(f)(1)(ii) of the regulations is satisfied because, following the transfer by *X* of the subsidiaries' property to the partnership, the same businesses previously operated by the subsidiaries continued to be operated by the partnership. The third condition is satisfied because all of the assets necessary to operate those businesses were transferred to the partnership. The fourth condition is satisfied because of the application of sections 721(a) and 723 of the Code,; which provide that the basis of the section 38 property in the hands of the partnership is determined by reference to *X*'s basis in the property.

With respect to the second condition of section 1.47-3(f)(1)(ii) of the regulations, a transfer may result in a decrease in the transferor's interest without triggering disposition treatment provided that a substantial interest in relation to the total interest of all persons is retained by the transferor. *See* Rev. Rul. 77-361, 1977-2 C.B. 6, 7. In *Example (5)* of section 1.47-3(f)(6) a corporation transferred all of the assets it used to its manufacturing business to a partnership in exchange for a 50 percent interest in the partnership. The *example* concludes that the corporation retained a substantial interest in the business. In the present situation, because *X* has a 75 percent general partnership interest in the partnership following the contribution of property to the partnership, *X* has retained a substantial interest in the business for purposes of section 1.47-3(f)(1)(ii).

Accordingly, the transfer of the property by *X* to the partnership meets the four conditions of section 1.47-3(f)(1) of the regulations for treatment under section 47(b) of the Code as a mere change in the form of doing business. The transfer, therefore, does not result in investment credit recapture.

HOLDING

Under the circumstances described above, the complete liquidation by a parent corporation of its subsidiaries followed by the transfer of the subsidiaries' property to a partnership does not result in investment tax credit recapture under section 47(a) of the Code.

Section 61.—Gross Income Defined

26 CFR 1.61-4: Gross income of farmers.

What is the proper amount to include in income from the sale of breeding cows and calves. See Rev. Rul. 86-24, below.

Section 162.—Trade or Business Expenses

26 CFR 1.162-12: Expenses of farmers.
(Also Sections 61, 263, 1012, 1231; 1.61-4, 1.263(a)-1, 1.1012-1, 1.1231-2.)

Expenses of farmers; amounts paid for cows and embryo transplants. A purchaser of cows that are pregnant with transplanted embryos, who subsequently sells the cows and the calves separately, must allocate the original purchase price between the cows and the calves. The portion of the original purchase price that equals the fair market value of the cows is allocated to the cows; the remaining amount is allocated to the calves. Neither the costs attributable to the cows, nor the costs attributable to the embryos, are deductible currently as expenses. Gain or loss from the sale of the cows or calves is ordinary income or ordinary loss.

Rev. Rul. 86-24

ISSUE

What is the proper federal income tax treatment of the cost of (1) nonpurebred cows carrying embryos transplanted from purebred cows and of (2) purebred calves under the circumstances described below?

FACTS

After hormone treatments, purebred cows owned by *X* corporation are artificially inseminated with semen from a purebred bull. The embryos are surgically removed and implanted in the non-purebred cows. Following a positive pregnancy test, *X* offers the implanted cows for sale to the public. The cows are usually resold after giving birth to purebred calves. The purchase price of each cow pregnant with an embryo transplant is 25*x* dollars, which is equal to its fair market value. The fair market value of a cow similar to the implanted cow which was not pregnant is 8*x* dollars. The sales price of an implanted cow after it has given birth to a purebred calf is 8*x* dollars.

A, an individual that uses the cash receipts and disbursements method of accounting and files income tax returns on a calendar year basis, purchased from *X* 10 cows pregnant with transplanted purebred embryos for 250*x* dollars in July 1984. *A* allocated the entire purchase price to the cows and none of the purchase price to the purebred embryos.

In 1984, 10 purebred calves were born to the implanted cows and *A* then sold the cows for 80*x* dollars. Since *A* had allocated the entire purchase price to the cows, *A* intends to claim an ordinary loss of 170*x* dollars with respect to the sale of the cows on the 1984 federal income tax return. *A* intends to hold the purebred calves for sale.

LAW AND ANALYSIS

Section 162 of the Internal Revenue Code provides that there shall be allowed as a deduction all ordinary and necessary expenses paid or incurred during the tax year in carrying on any trade or business.

Section 1.162-12(a) of the Income Tax Regulations provides that the purchase of feed and other costs connected with raising livestock may be treated as expense deductions but that amounts expended in purchasing work, breeding, dairy, or sporting animals are regarded as investments of capital and shall be depreciated unless the animals are included in an inventory in accordance with section 1.61-4.

Section 263(a) of the Code provides generally that no deduction shall be allowed for capital expenditures.

In *Gamble v. Commissioner*, 68 T.C. 800 (1977), acq., page 5 this Bulletin, a taxpayer purchased for $60,000 a pregnant broodmare for use in the taxpayer's business of racing thoroughbred horses. When the taxpayer purchased the pregnant broodmare, the taxpayer received a broodmare and also an unborn foal. The court concluded that the portion of the $60,000 purchase price that was properly allocable to the unborn foal became the taxpayer's cost basis in the foal under section 1012 of the Code.

Section 1.61-4(a) of the regulation provides that, for farmers using the cash receipts and disbursements method of accounting, the profit from the sale of livestock or other items which were purchased is generally ascertained by deducting the cost from the sales price in the year in which the sale occurs. However, in the case of the sale of purchased animals held for draft, breeding or dairy purposes, the profits shall be the amount of any excess of the sales price over the amount representing the difference between the cost and the depreciation allowed or allowable.

Section 1221 of the Code defines the term "capital asset" as property held by the taxpayer (whether or not connected with the taxpayer's trade or business) but does not include, among other things, property used in a trade or business that is subject to an allowance for depreciation and property held by the taxpayer of a kind which would properly be included in the inventory of a taxpayer or property held by the taxpayer primarily for sale to customers in the ordinary course of the taxpayer's trade or business.

Section 1222(3) of the Code provides that the term "long-term capital gain" means gain from the sale or exchange of a capital asset held for more than 6 months if and to the extent such gain is taken into account in computing gross income.

Section 1231(a) of the Code provides that if, during the tax year, the recognized gains on sales or exchanges of property used in the trade or business, plus the recognized gains from the compulsory or involuntary conversion of property used in the trade or business and capital assets held for more than 6 months into other property or money, exceed the recognized losses from such sales, exchanges, and conversions, such gains and losses shall be considered as gains and losses from sales or exchanges of capital assets held for more than 6 months. If such gains do not exceed such losses, such gains and losses shall not be considered as gains and losses from sales or exchanges of capital assets.

Section 1231(b)(3)(A) of the Code provides that the term "property used in the trade or business" includes cattle, regardless of age, held by the taxpayer for draft, breeding, dairy, or sporting purposes , and held by the taxpayer for 24 months or more from the date of acquisition.

In the present situation, *A* purchased cows carrying transplanted purebred embryos. The 25*x* dollar purchase price must be allocated to the cow and the embryo on the basis of the fair market value of each. The fair market value of the cow is 8*x* dollars and the fair market value of the cow plus embryo is 25*x* dollars. Accordingly, the portion of each 25*x* purchase price that is equal to the fair market value of the cows, 8*x* dollars, is properly treated as the purchase price of the cow. *A*'s income from the sale of the cows will be determined in accordance with section 1.61-4(a) of the regulations. In this case, because the cows were used in a trade or business and were subject to depreciation, they are not capital assets under section 1221. Since the cows were purchased by *A* for breeding purposes and sold within 24 months, the cows do not qualify as property used in the taxpayer's trade or business within the meaning of section 1231(b)(3)(A) of the Code. Thus, any gain or loss on the sale of the cows will be ordinary income or ordinary loss. Since only 80*x* dollars of the purchase price is properly allocable to the cows and *A* sold the cows for 80*x* dollars, *A* has no gain or loss on the sale of the cows.

A also purchased purebred embryos that will become purebred calves. The balance of the 25*x* dollars that is not allocable to the cost of the cow is properly allocable to the cost of the embryo. The amount allocable to the embryo is an amount expended in purchasing livestock and must be capitalized under section 1.162-12(a) of the regulations. In this case, the calves were primarily held for sale to customers in the ordinary course of business. Thus, the calves are not capital assets under section 1221 of the Code. Thus, any gain or loss on the sale of the calves will be ordinary income or ordinary loss.

HOLDING

The portion of the 250*x* dollars paid

to *X* for the pregnant non-purebred cows, the fair market value of the cows of 80*x* dollars, is treated as the purchase price of the cows. *A* will not recognize any gain or loss on the sale of cows because *A*'s 80*x* dollar basis in the cows equal the 80*x* dollars received on the sale.

The balance of the 250*x* dollar purchase price, 170*x* dollars, is attributable to the cost of purchasing the purebred calves. Since the calves are not capital assets under section 1221 of the Code and are not property used in the taxpayer's trade or business within the meaning of section 1231(b), any gain or loss on the sale of the calves will be ordinary income or ordinary loss.

Section 263.—Capital Expenditures

26 CFR 1.263(a)-1: Capital expenditures.

Whether the cost of a cow and an embryo transplant may be deducted as an expense. See Rev. Rul. 86-24, page 7.

Section 305.—Distributions of Stock and Stock Rights

26 CFR 1.305-4: Distributions of common and preferred stock.

Whether a certain transaction is a distribution of property to which section 301 of the Code applies by reason of the application of section 305(b)(3). See Rev. Rul. 86-25, page 18.

Section 332.—Complete Liquidation of Subsidiaries

26 CFR 1.332-1: Corporate liquidations.

Whether recapture of investment credit under section 47 of the Code occurs where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest. See Rev. Rul. 86-23, page 6.

Section 338.—Certain Stock Purchases Treated as Asset Acquisitions

26 CFR 1.338(h)(10)-1T: Elective recognition by selling consolidated group of deemed sale gain or loss on target's assets (temporary).
(Also Section 1502; 1.1502-75T.)

TITLE 26—INTERNAL REVENUE.—CHAPTER I, SUBCHAPTER A, SUBCHAPTER H, PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953; PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Temporary Regulations Under Section 338(h)(10) of the Internal Revenue Code of 1954 and Extension of Time to Make Certain Elections

AGENCY: Internal Revenue Service, Treasury.

ACTION: Temporary regulations.

SUMMARY: This document contains temporary regulations relating to section 338(h)(10) of the Internal Revenue Code of 1954 ("Code") as added by the Technical Corrections Act of 1982 ("TCA") [Pub. L. 97-498, 1983-1 C.B. 451, 470]. This document also contains amendments to temporary regulations so as to extend the time for making certain elections under section 338 to March 15, 1986. The temporary regulations provide guidance to taxpayers concerning the application of section 338. The text of the temporary regulations set forth in this document also serves as the text of the proposed regulations cross-referenced * * * [on page 35, this Bulletin].

DATES: These regulations are effective upon publication in the FEDERAL REGISTER. These temporary regulations under section 338(h)(10) generally apply to stock acquisitions made after January 12, 1983. The temporary regulations being amended generally apply to stock acquisitions made after August 31, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia Wendlandt or Bennett C. Steinhauer of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T (202-566-3458, not a toll-free number).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document adds new temporary regulations §1.338(h)(10)-1T to Part 1 of Title 26 of the Code of Federal Regulations. The temporary regulations implement section 338(h)(10) of the Code by adding new §§1.338(h)(10)-1T and 1.1502-75T and by amending §1.338-1T(e). Section 338(h)(10) was originally added as section 338(h)(9) by section 306(a)(8)(B)(i) of TCA (Pub. L. No. 97-448; 96 Stat. 2402) [1983-1 C.B. 451, 470] and was redesignated as section 338(h)(10) by section 712(k)(6) of the Tax Reform Act of 1984 (Pub. L. 98-369; 98 Stat. 951) [1984-3 C.B. (Vol. 1) 1, 458].

This document also amends §§1.338-1T and 1.338-4T to extend from August 23, 1985, to March 15, 1986, the date for electing section 338, for making certain other elections under section 338, and for certain other purposes. Finally, this document amends the table of OMB control numbers in Part 602 of Title 26 of the CFR to reflect the OMB control number assigned to §1.338(h)(10)-1T. The temporary regulations added and amended by this document will remain in effect until superseded by later temporary or final regulations relating to these matters.

EXPLANATION OF PROVISIONS

INTRODUCTION

Section 338, generally, provides that, if the stock of a corporation ("target") is acquired by another corporation ("purchasing corporation") in a qualified stock purchase, the purchase corporation may elect (or may be deemed to elect under certain consistency rules) to have the target treated as if it had sold all of its assets (as "old target") and then purchased those assets (as "new target"). The deemed sale of assets by old target generally is governed by the nonrecognition rule of section 337. Section 338(h)(9) now provides that old target is not treated as a member of an affiliated group with respect to the deemed sale of its assets, except as otherwise provided in section 338(h)(10). Thus, even if consolidated returns are filed by the selling group and by the purchasing group, the general rule is that any gain that target must recognize notwithstanding section 337 is reported by target on its final return which is a separate return referred to as a "deemed sale return." See §1.338-1T(f)(3)(i). Section 338(h)(10) provides that, under regulations, if the target is a member of a selling consolidated group ("selling group") and section 338(h)(10) is elected, old target is treated as having sold all of its assets to new target in a single transaction. Gain or loss is recognized by old target on the deemed sale of its assets but, except as provided by regulations, no gain or loss is recognized upon the sale or exchange of old target stock to the purchasing corporation. Old target, then, is treated as having sold all of its assets in a single taxable transaction while a member of the selling consolidated group. For an exception, see the discussion of tandem transactions below. Thus, if section 338(h)(10) is elected, the selling consolidated group directly bears any income tax on the deemed sale of target's assets instead of target initially bearing that tax on a separate return.

CHARACTERIZATION OF TRANSACTION

Under the document, the section 338(h)(10) transaction is characterized as if old target sells all of its assets at the close of the acquisition date and then immediately liquidates under section 332. Thus, this document rejects the alternative of treating old target in the transaction as simply terminating.

ELIGIBILITY FOR ELECTION

Under §1.338(h)(10)-1T, section 338(h)(10) may be elected for any target that is a member of a selling group whose acquisition date occurs after January 12, 1983, the date section 338(h)(10) was enacted.

The selling group is an affiliated group that filed or is required to file a consolidated return for the taxable period that includes the acquisition date, provided that the group's common parent is not a target. Notwithstanding §1.1502-75(a)(1) and (c), §1.1502-75T (as added by this document) provides that the selling group may not withdraw its consolidated return or elect to discontinue filing consolidated returns on or after the day that a section 338(h)(10) election is made for a former member of the group.

TIME AND MANNER OF ELECTION

The procedural rules for making a section 338(h)(10) election and related reporting requirements are designed to ensure that the purchasing corporation (through the target) receives the intended results of a section 338 election while any income tax arising on target's deemed sale of its assets is shifted to the selling consolidated group. Thus, the section 338(h)(10) election is an irrevocable election made jointly by the selling group and the purchaser on Form 8023 (the statement of section 338 election). A copy of this form must be filed with the return of the selling group for the taxable period that includes the acquisition date. The schedule listing each corporation subject to the section 338 election required by §1.338-1T(e)(1) shall indicate which of the listed corporations is subject to the section 338(h)(10) election under the stock consistency rules explained below in this document. As part of the election procedure, the selling group must indicate the date and Service Center where the group filed its consolidated return for the taxable period that includes the acquisition date or for the last taxable period for which one was filed.

Interim election procedures provide the method of making an election until Form 8023 is modified to include a section 338(h)(10) election.

A section 338(h)(10) election may be made on or before the later of March 15, 1986, or the 15th day of the 9th month beginning after the month in which the acquisition date occurs. This last day is the same date as the last day for making a section 338 election since both elections must be made simultaneously. Exceptions to the simultaneous election requirement are provided for transitional section 338(h)(10) elections and pre-section 338(h)(10) target elections. In the case of a pre-section 338(h)(10) target election, all parties shall treat the transaction as if the election is not made until a delayed section 338(h)(10) statement of election is filed.

CONSEQUENCES OF ELECTION

The following consequences obtain when an election is made for a section 338(h)(10) target:

1. Old target recognizes gain or loss as if, while a member of the selling group, it sold in a single taxable transaction all of its assets at the close of the acquisition date. For an exception, see the discussion of tandem transactions below.

2. Gain or loss from the sale or deemed sale of the stock of a section 338(h)(10) target or target affiliate to the purchaser by the selling group is ignored for all purposes of chapter 1 of the Code.

3. Old target is deemed to have liquidated under section 332 at the close of the acquisition date but after the deemed asset sale. Thus, attributes listed in section 381, such as net operating loss carryovers, carry over from target to the transferee in the deemed liquidation.

4. No gain or loss is recognized by the selling group or by shareholders other than the purchasing corporation with respect to target stock that is not acquired by the purchasing corporation in the transaction. The basis of such stock in the hands of minority shareholders (other than the selling group) remains unchanged. The basis of such stock retained by the selling group is adjusted to reflect its proportionate share of the net fair market value of new target's assets and no gain or loss is recognized as a result of this basis adjustment.

5. If the purchasing corporation owns shares of nonrecently purchased stock, it is deemed to have made a gain recognition election with respect to such shares.

6. The adjusted grossed-up basis (the "AGUB") of the target stock is the same as if only an express election were made except that it does not include income tax liabilities resulting from the deemed sale. The AGUB is allocated to assets in accordance with section 338(b)(5).

7. The foregoing deemed sale and liquidation rule applies for purposes of the consolidated returns regulations.

DEEMED SALE PRICE

The price at which the assets of each old target is deemed to be sold is their fair market value. An elective formula (the "MADSP") for deemed sale price is provided that takes into account liabilities and other relevant items.

STOCK CONSISTENCY REQUIREMENTS

The temporary regulations require that, if a section 338(h)(10) election is made for one target, it is deemed to be made for all target affiliates that are members of the same selling group and whose stock is purchased by members of the same purchasing group.

TANDEM TRANSACTIONS

The temporary regulations provide rules coordinating section 338(h)(10) with sections 337 and 338(h)(12). These rules may apply when the sale of old target stock is part of the liquidation of the entire selling consolidated group.

MISCELLANEOUS MATTERS

The information return and recordkeeping requirements of section 6043 and §1.332-6 are inapplicable to the constructive section 332 liquidation of target.

Further, a deemed sale return for target that is subsequently mooted by a section 338(h)(10) election is considered to be a return so that interest will be paid on the overpayment of tax.

AMENDMENTS TO §§1.338-1T and 1.338-4T

Section 1.338-1T(e) is amended to integrate the requirements for making a section 338(h)(10) election with requirements for a section 338 election. Sections 1.338-1T and 1.338-4T are amended to extend certain due dates from August 23, 1985, to March 15, 1986.

COMMENTS REQUESTED

Comments are requested on the rules for determining the deemed sale price under §1.338(h)(10)-1T(f). Consideration is being given to determining such amount under a mandatory formula (the "mandatory MADSP formula") and eliminating the option to determine the deemed sale price by reference to the fair market value of each asset of old T. Such comments should address, among other things, the concern that the mandatory formula not impose any undue administrative burdens on taxpayers.

REGULATORY FLEXIBILITY ACT; EXECUTIVE ORDER 12291; AND PAPERWORK REDUCTION ACT OF 1980

A general notice of proposed rulemaking is not required by 5 U.S.C. 553 for temporary regulations. Accordingly, these temporary regulations do not constitute regulations subject to the Regulatory Flexibility act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this temporary rule is not a major rule as defined in Executive Order 12291 and that a regulatory impact analysis therefore is not required. The collection of information contained in these regulations has been submitted to the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act of 1980. These requirements have been approved by OMB (control No. 1545-0702).

DRAFTING INSTRUCTION

The principal author of these temporary regulations is Bennett C. Steinhauer of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

* * * * *

Adoption of amendments to the regulations

Accordingly, 26 CFR Parts 1 and 602 are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority citation for Part 1 is amended by adding the following citation:

Authority: 26 U.S.C. 7805; * * * §§1.338(h)(10)-1T, 1.338-1T, and 1.338-4T also issued under 26 U.S.C. 338; * * * §1.1502-75T also issued under 26 U.S.C. 1502.

Par. 2. There is inserted in the appropriate place a new §1.338(h)(10)-1T. The new section reads as follows:

§1.338(h)(10)-1T Election recognition by selling consolidated group of deemed sale gain or loss on target's assets (temporary).

(a) *Scope*. This section sets forth the requirements, conditions, and consequences of a section 338(h)(10) election if a target corporation is acquired in a qualified stock purchase from a selling consolidated group. Subject to the detailed rules in paragraphs (c) and (j) of this section, the primary effects of a section 338(h)(10) election are a deemed taxable sale by target of all its assets followed by a deemed complete liquidation to which section 332 applies. In addition, gain or loss on the actual sale of target stock by a member of the selling group to a member of the purchasing group included in the qualified stock purchase is ignored.

(b) *Definitions and nomenclature*. For purposes of this section (and except as otherwise provided in this section)—

(1) *In general*. The definitions set forth in §§1.338-1T(b) and 1.338-4T(b)(2) also apply to this section. The nomenclature in §1.338-4T(b)(1) does not apply to this section.

(2) *Section 338(h)(10) target*. A corporation is a 'section 338(h)(10) target" if it is an original target that is included in the selling group's consolidated return for the taxable period that includes the acquisition date.

(3) *Selling consolidated group*. The "selling consolidated group" is the affiliated group (as defined in section 1504) which for the taxable period that includes the acquisition date—

(i) Includes the section 338(h)(10) target,

(ii) Filed a consolidated return or is required to file a consolidated return, and

(iii) Has as its common parent a corporation for which a section 338 election by the purchasing corporation does not apply.

(4) *Section 338(h)(10) target affiliate*. A "section 338(h)(10) target affiliate" is any member of the selling consolidated group that is an affected target.

(5) *Nomenclature*. (i) The S group is a selling consolidated group.

(ii) T is a section 338(h)(10) target.

(iii) T1, T2, etc. are section 338(h)(10) target affiliates.

(iv) S1, S2, etc. are members of the S group other than T, T1, T2, etc.

(v) P, P1, P2, etc. are members of the purchasing group. When the context requires, a reference to P refers to the purchasing corporation or corporations. See section 338(h)(8).

(vi) K is a shareholder of T other than a member of the S group of a member of the purchasing group.

(6) *Examples*. The provisions of this paragraph (b) may be illustrated by the following examples.:

Example (1). T is a wholly-owned subsidiary of S2. T1 is a wholly-owned subsidiary of S2. T2 is a wholly-owned subsidiary of T1. S1, S2, T, T1, and T2 are all members of an affiliated group that files a consolidated return for calendar year 1986 with S1 as its common parent. On June 1, 1986, P1 purchases all of the outstanding stock of T and an express election and a section 338(h)(10) election are made for T. On July 1, 1986, P2 purchases all the outstanding stock of T1. Both T1 and T2 are section 338(h)(10) target affiliates.

Example (2). Assume the same facts as in *Example (1).* Assume further that P1 purchases all of the stock of S1 on July 10, 1986. Since the express election for T causes a deemed election for S1 (an affected target), a section 338(h)(10) election may not be made for S1, T, T1, or T2 because there is no selling consolidated group.

(c) *Eligibility for section 338(h)(10) election.* A section 338(h)(10) election may be made for T if—

(1) P makes a qualified stock purchase of T stock,

(2) The acquisition date with respect to the stock of T or of any section 338(h)(10) target affiliate is after January 12, 1983, and

(3) An express election is made for T.

(d) *Time and manner of making section 338(h)(10) election*—(1) *Simultaneous joint election requirement.* Except as provided for a delayed election in paragraph (d)(7) of this section, the section 338(h)(10) election is made jointly by P and the S group on Form 8023 in accordance with the instructions to the Form.

(2) *Election irrevocable.* Once made, a section 338(h)(10) election is irrevocable.

(3) *Annotation on required schedule.* Section 1.338-1T(e)(1)(i)(D) requires that the schedule required by §1.338-1T(e)(1) must indicate which of the listed corporations is subject to a section 338(h)(10) election, including corporations subject to deemed section 338(h)(10) elections under paragraph (h) of this section. This indication is made by clearly identifying such corporations, such as by a footnote system.

(4) *Attachments to target returns and additional filings.* Under §1.338-1T(e)(2)(i), a copy of the statement of section 338 election that is filed with the return of the S group for the taxable period which includes the acquisition date is considered filed with the last return of old target.

(5) *Consequence of failure to comply with requirements of §1.338-1T(e)(1) and (2).* For consequences of failure to comply with the requirements of §1.338-1T(e)(1) and (2), see §1.338-1T(e)(3). Thus, an election and failure to comply with these requirements will not invalidate a section 338(h)(10) election and will have no effect on the applicability of paragraph (h) of this section.

(6) *Interim procedures*—(i) *In general.* If Form 8023 and accompanying instructions do not prescribe making the statement of section 338(h)(10) election on the face of Form 8023, then a separate statement of section 338(h)(10) election must be attached to the Form 8023 filed for T. For purposes of §1.338-1T(e) and paragraph (d)(4) of this section (relating to attachments to target returns and additional filings), this attached statement of section 338(h)(10) election is treated is an integral part of the Form 8023.

(ii) *Contents of separate section 338(h)(10) election statement.* The separate statement of section 338(h)(10) election must—

(A) Contain the name, address, and employer identification number of each of P, T, and the common parent of the S group,

(B) Identify the election as an election under section 338(h)(10) of the Code,

(C) Indicate the date and Service Center where the S group filed its consolidated return for the taxable period that includes the acquisition date or for the last taxable period for which one was filed, and

(D) Be signed by both a person for P and a person for the common parent of the S group each of whom states under penalties of perjury that he or she is authorized to make the section 338(h)(10) election on behalf of P or the S group (as the case may be).

(7) *Delayed elections*—(i) *In general.* In lieu of the simultaneous election requirement of paragraph (d)(1) of this section, a delayed section 338(h)(10) statement of election ("delayed election") may be filed with the Internal Revenue Service Centers with which P and the S group file their respective annual income tax returns in the following two situations:

(A) An express election was made before March 15, 1986 ("transitional election").

(B) An express election was made before the date the target became a section 338(h)(10) target, *i.e.*, before the date that the affiliated group of which the target was a member filed or was required to file a consolidated return ("pre-section 338(h)(10) target election").

(ii) *Time for filing*—(A) *Transitional election.* A transitional section 338(h)(10) election must be filed on or before March 15, 1986.

(B) *Pre-section 338(h)(10) target election.* A pre-section 338(h)(10) target election must be filed on or before the date that is the earlier of *(1)* the 30th day after the day the affiliated group of which the target is a member files a consolidated return for the period that includes the target's acquisition date or *(2)* the 15th day of the 4th month following the close of the S group's taxable year in which the acquisition date occurs.

(iii) *Contents of delayed statement.* The delayed section 338(h)(10) statement of election must contain the same information as required for a separate statement of section 338(h)(10) election by paragraph (d)(6)(ii) of this section except that the election must be prominently identified as a "DELAYED SECTION 338(h)(10) STATEMENT OF ELECTION ON ACCOUNT OF A TRANSITIONAL ELECTION" or "DELAYED SECTION 338(h)(10) STATEMENT OF ELECTION ON ACCOUNT OF A PRE-SECTION 338(h)(10) TARGET ELECTION" (as the case may be).

(iv) *Attachments to delayed statement.* There must be attached to the delayed statement of election copies of both the Form 8023 filed for T and the schedule required under §1.338-1T(e)(1) properly annotated in accordance with paragraph (d)(3) of this section.

(v) *Application of certain provisions.* The delayed section 338(h)(10) statement of election is treated as an integral part of Form 8023 for purposes of §1.338-1T(e) and paragraph (d)(4) of this section as of the day such delayed statement of election is filed.

(vi) *Operating rule.* Beginning with the date an express election is made and until a delayed section 338(h)(10) statement of election is filed for T, all parties shall treat the transaction as if a section 338(h)(10) election is not made. Thus, for example, until the delayed election is made, any recapture gain (as defined in §1.338-4T(h)(2) (iv)) recognized by old T is reported, pursuant to

§1.338-1T(f)(3), by old T in its last return.

(8) *Coordination with consolidated returns regulations.* On or after the day that a section 338(h)(10) election is made for a former member of the S group, the group may not withdraw its consolidated return for the taxable period that includes the acquisition date or for certain periods elect to discontinue filing consolidated returns. See §1.1502-75T.

(e) *Detailed consequences of section 338(h)(10) election.* If a section 338(h)(10) election is made, the following consequences apply:

(1) *Taxable sale of all target assets.* Old T recognizes gain or loss as if, while a member of the S group, it sold all of its assets in a single transaction as of the close of the acquisition date. For determination of deemed selling price, see paragraph (f) of this section. For coordination with sections 337 and 338(h)(12), see paragraph (j) of this section.

(2) *Nonrecognition treatment for target stock*—(i) *General rule.* For purposes of chapter 1 of the Code, gain or loss on the actual sale or exchange by the S group to P of stock of T or of a section 338(h)(10) target affiliate included in a qualified stock purchase is ignored. Likewise, gain or loss on the deemed sale of the stock of a section 338(h)(10) target affiliate that is a subsidiary of T is ignored.

(ii) *Example. The provisions of this subparagraph (2) may be illustrated by the following example:*

Example. S1 owns all of the outstanding stock of T and T1. T1 owns all of the outstanding stock of T2. On March 1, 1986, P purchases all of the outstanding stock of each of T and T1. An express election and a section 338(h)(10) election are made for T. Thus, a deemed election and a deemed section 338(h)(10) election, under paragraph (h) of this section, are caused for T1 and T2. Gain or loss realized by S1 on the actual sale of the T and T1 stock is ignored as is the gain or loss on the deemed sale of T2 stock by old T1. Thus, for example, gain or loss realized on the sale of the T and T1 stock is not taken into account in S1's earnings and profits.

(3) *Deemed section 332 liquidation for target*—(i) *In general.* Except as otherwise provided in this section, the target corporation is treated as if (at the close of the acquisition date but after the deemed sale of its assets) it distributed all its assets in a complete liquidation to which section 332 applies.

(ii) *Cross-references.* (A) For treatment of T stock retained by K and the S group, see paragraph (e)(4) of this section.

(B) For deemed gain recognition election with respect to nonrecently purchased T stock held by P, see paragraph (e)(5) of this section.

(C) For carryovers of old T's tax attributes (*e.g.*, earnings and profits and net operating loss carryovers) to certain members of the S group that owned T stock, see section 381.

(4) *Treatment of unacquired target stock*—(i) *Nonrecognition treatment.* No gain or loss shall be recognized by K or the members of the S group with respect to their shares of T stock that are not acquired by P as part of the qualified stock purchase ("unacquired stock").

(ii) *Basis to K.* K's basis for its new T stock is the same as K's basis for its unacquired old T Stock.

(iii) *Basis to S group.* The basis of the unacquired T stock held by members of the S group shall be equal to the net fair market value of the portion of the new T assets that such members would receive were new T to complete liquidate at the beginning of the day after the acquisition date.

(iv) *Net fair market value.* For purposes of this subparagraph (4), the net fair market value of new T's assets is the excess of their fair market value over new T's liabilities as of the beginning of the day after the acquisition date.

(v) *Fair market value.* For purposes of paragraph (e)(4)(iv) of this section, the fair market value of new T assets is determined in the same manner as is the deemed sale price of old T assets under paragraph (f) of this section except that, if the S group elects the MADSP formula to determine the deemed selling price of old T assets, then the fair market value of new T assets is the MADSP amount determined under paragraph (f)(2)(i) of this section for old T assets.

(vi) *Example.* For an example illustrating S11's basis in unacquired T shares if the MADSP formula is not used, see *Example (4)* in paragraph (g) of this section.

(5) *Deemed gain recognition election.* If P owns shares of nonrecently purchased T stock (as defined in section 338(b)(6)(B)) on the acquisition date, then P shall be deemed to have made a gain recognition election with respect to these shares and to have sold those shares under §1.338-4T(j)(2) *Answer 2* (i).

(6) *Adjusted grossed-up basis*—(i) *In general.* P's adjusted grossed-up basis of T is the sum of—

(A) P's grossed-up basis in recently purchased T stock,

(B) The basis amount (as set forth in section 338(b)(3)(B)) of P's nonrecently purchased T stock,

(C) The liabilities of new T as of the beginning of the day after the acquisition date (other than liabilities that were not liabilities of old T), and

(D) Other relevant items.

(ii) *Allocation.* P's adjusted grossed-up basis for the T stock shall be allocated as basis among the T assets in accordance with section 338(b)(5).

(7) *Effect on consolidated returns*—(i) *General rule.* The deemed sale and liquidation rules of paragraph (e)(1) and (3) of this section apply for purposes of the consolidated return regulations. Illustrations of the preceding sentence are set forth in the remainder of this subparagraph (7).

(ii) *Investment credit recapture.* Any section 38 property deemed sold by T on the close of the acquisition date may be subject to section 47(a) (relating to dispositions of section 38 property). An increase in tax is added to the tax liability of the S group under §1.1502-2 for the taxable period that includes the acquisition date. See §1.1502-3(f)(1).

(iii) *Deferred intercompany transactions*—(A) *Target as selling member.* In general, in the case of an acquisition to which section 381(a) applies, under §1.1502-13(c)(6), the transferee inherits the entire remaining balance of the deferred gain or loss of the transferor. Thus, the member or members of the S group that would be subject to §1.1502-13(d), (e), and (f) (relating to restoration of deferred gain or loss) with respect to T's entire remaining balance of deferred gain or loss as of the close of the acquisition date had T actually liquidated under section 332 are thereafter subject to such provisions as a result of the deemed liquidation under section 332.

(B) *Target as owning member.* Deferred gain or loss is taken into account under §1.1502-13(f)(1) as of the close of the acquisition date by selling members of the S group with respect to any items which T (as the owning member) is deemed to have sold.

(iv) *Cross-references.* See §1.1502-75T(a) for prohibition on selling consolidated group withdrawing a consolidated return on or after the day that a section 338(h)(10) election is made for a former member of the group. See §1.1502-75T(b) for prohibition on selling consolidated group electing to discontinue filing consolidated returns on or after the day that a section 338(h)(10) election is made for a former member of the group.

(8) *Coordination with §§1.338-1T and 1.338-4T*—(i) *References to §1.338-1T.* The following table sets forth the subunits of §1.338-1T and indicates whether each is applicable or irrelevant to this section and section 338(h)(10).

Subunit of §1.338-1T	*Applicable to this section*	*Irrelevant to this section*
(a)		X
(b)(1)-(7)	X	
(b)(8)		X
(c)	X	
(d)	X	
(e)	X	
(f)(1)-(3), (6), and (8)		X
(f)(4), (5), and (7)	X

***Paragraph (h) of §1.338-4T is modified by paragraph (f) of this section.**

****Paragraph (j) of §1.338-4T is modified by paragraph (e)(5) of this section.**

*****§1.338-4T(k)(1) *Answers 1-3* are applicable as modified by paragraph (j) of this section.**

(f) *Deemed sale price*—(1) *General rule.* The price at which each asset of old T is deemed to have been sold is its fair market value as of the close of the acquisition date.

(2) *Elective MADSP formula.* Under the authority of section 338(h)(11), in lieu of the general rule, the S group may elect to determine the price at which each asset of old T is deemed sold by—

(i) Determining modified ADSP ("MADSP") and

(ii) Then determining the deemed selling price by allocating MADSP to each asset in proportion to its relative fair market value.

(3) *Formula.* The elective formula is:

$$MADSP = G + L + X$$

For purposes of this formula:

(i) "G" is the grossed-up basis of P's recently purchased T stock as set forth in §12.338-4T(h)(3). *Answer 2* (ii).

(ii) "L" is the sum of new T's liabilities as of the beginning of the day after the acquisition date (other than liabilities that were not liabilities of old T).

(iii) "X" is other relevant items.

(4) *Procedure for electing MADSP formula and revoking that election.* The election to apply the MADSP formula is made by attaching to the consolidated Federal income tax return of the S group (including an amended return) for the taxable period in which the acquisition date falls (the "taxable period return") a statement containing the following, or substantially similar, declaration: "THIS RETURN REFLECTS A MADSP FORMULA ELECTION FOR T UNDER SECTION 338(h)(10) AND §1.338(h)(10)-1T(f)". The MADSP election is revoked by attaching to an amended consolidated Federal income tax return of the S group for that taxable period the following, or substantially similar, declaration: "THIS RETURN DOES NOT REFLECT A MADSP FORMULA ELECTION FOR T UNDER SECTION 338(h)(10) AND §1.338(h)(10)-1T(f)". In addition, a MADSP election may be made or revoked in connection with the examination of the taxable period return. A MADSP election made for T also applies to all section 338(h)(10) target affiliates as does the revocation for T. A MADSP election may not be made or revoked if the period within which to make an assessment of tax has expired for any return that would be affected by the election or revocation. For this purpose, a return would be affected by the election (or revocation) if the election (or revocation) would have the effect, directly or indirectly, of increasing the tax liability reported in that return. If a MADSP election is made or revoked, members of the S group shall make proper adjustment to the basis of their unacquired T stock referred to in paragraph (e)(4)(iii) of this section.

(g) *Examples.* The provisions of paragraphs (e) and (f) of this section may be illustrated by the following examples:

Example (1). (i) T is a member of the S group which uses the calendar year. T uses the accrual method of accounting. T has only one class of stock, all of which is owned by S1. On March 1, 1986, S1 sells all of its T stock to P for $80,000 and both an express election and a section 338(h)(10) election are made for T. The S group does not elect the MADSP formula. On that date, assume the following facts:

	Basis	*Fair market value*	*Liability*
Assets:			
Land	$50,000	$75,000	
Equipment (recomputed basis $70,000)	30,000	60,000	
Liability:			
Note payable			$40,000

(ii) The deemed selling price of each old T asset, as determined under the general rule of paragraph (f)(1) of this section, is as follows:

	Fair market value
Land	$75,000
Equipment	60,000

(iii) Under paragraph (e)(1) of this section, old T recognizes $25,000 gain on the deemed sale of the land, *i.e.*, $75,000–$50,000, and ordinary income under section 1245 of $30,000 on the deemed sale of the equipment, *i.e.*, (the lower of fair market value, $60,000, or recomputed basis, $70,000) less adjusted basis, $30,000.

Example (2). (i) Assume the same facts as in *Example (1)*, except that the S group elects the MADSP formula.

(ii) Under paragraph (f)(3) of this section, the MADSP is as follows:

	*Basis**
Land	$50,000
Equipment	30,000
Total	80,000

*Basis shown for reference.

Gain on the deemed sale of the land is $16,667, *i.e.*, $66,667–$50,000. Ordinary income under section 1245 on the deemed sale of the equipment is $23,333, *i.e.*, (the lower of the amount deemed realized, $53,333, or the recomputed basis, $70,000) minus adjusted basis, $30,000.

Example (3). (i) The facts are the same as in *Example (1)*. In addition, assume the following:

(A) As of the close of the acquisition date, old T's current earnings and profits, other than those generated from the deemed sale of its assets, are $21,950. As of the close of 1985, old T had neither accumulated earnings and profits nor a deficit.

(B) Other than earnings and profits, old T has no items described in section 381(c).

(ii) The consequences that obtain to P, T, and S1 include the following:

(A) As determined in *Example (1)*, old T recognizes $25,000 of gain on the deemed sale of the land and $30,000 of ordinary income under section 1245 on the deemed sale of the equipment. Thus, earnings and profits attributable to the deemed sale of all of old T's assets are $55,000.

(B) P's basis in new T stock is P's cost for the stock, $80,000.

(C) The adjusted grossed-up basis of new T is $120,000, *i.e.*, P's cost for the old T stock ($80,000) plus T's liability (note payable, $40,000). (Assume there are no other relevant items.) This adjusted grossed-up basis is allocated as basis among the new T assets under section 338(b)(5).

MADSP = G + L + X
MADSP = $80,000 + $40,000 + 0
MADSP = $120,000

(iii) The portion of MADSP allocated to each asset is determined under paragraph (f)(2)(ii) of this section as follows:

Fair market value	*Fraction*	*Allocable MADSP portion*
$ 75,000	5/9	$ 66,667
60,000	4/9	53,333
$135,000	1	$120,000

(D) Assume that, under §1.1502-33(d), old T's allocable share of the S group's consolidated tax liability for 1986 (all of which is attributable to the deemed sale of T's assets) is $11,950.

(E) As of the close of the acquisition date but after the deemed sale of its assets, old T's earnings and profits are $65,000, *i.e.*, $21,950 + $55,000 − $11,950.

(F) S1 succeeds to and takes into account old T's earning and profits of $65,000, determined as of the close of the acquisition date but after the deemed sale.

(G) S1 does not recognize gain or loss upon its sale of the old T stock to P.

Example (4). (i) Assume the same facts as in *Example (3)* except that S1 sells 80 percent of the old T stock to P for $64,000.

(ii) The consequences that obtain to P, T, and S1 include the following:

(A) P's basis for the new T stock is P's cost for the stock, $64,000.

(B) The adjusted grossed-up basis of new T is $120,000 as in *Example (3)*. The calculation (which is different) is not shown.

(C) S1 does not recognize gain or loss with respect to the retained stock in T.

(D) Under paragraph (e)(4)(iii) of this section, the basis of the T stock retained by S1 is $19,000, calculated as follows:

Net fair market value of T assets as of the beginning of the day after the acquisition date ($75,000 + $60,000 − $40,000)	$95,000
Multiplied by the proportion of T stock retained by S1	.20
Basis of S1's retained 20 percent of T stock	19,000

(E) S1 succeeds to and takes into account old T's earnings and profits of $65,000 as in *Example (3)*.

(F) The other consequences are the same as in *Example (3)*, except to the extent inconsistent with this subdivision (ii).

Example (5). (i) Assume the same facts as in *Example (4)* except that K owns 20 percent of the outstanding T stock and these shares are not purchased by P. K's basis in its T shares is $5,000.

(ii) The consequences that obtain to P, T, and S1 include the following:

(A) Section 1.381(c)(2)-1(c)(2) requires that T's earnings and profits be computed by taking into account the amount of its earnings and profits properly applicable to distributions to minority shareholders. Hence, S1 succeeds to and takes into account 80 percent of T's earnings and profits of $65,000, or $52,000, as a result of the deemed distribution of 80 percent of old T's assets to S1 in the deemed liquidations to which section 332 applies.

(B) K recognizes no gain or loss.

(C) K's basis in its T stock remains at $5,000.

(D) The other consequences are the same as in *Example (4)*, except to the extent inconsistent with this subdivision (ii). The consequences in *Example (4)* with respect to stock retained by S1 are inapplicable.

Example (6). (i) Assume that S1 sells all of its T stock to P and that all of the other facts are the same as in *Example (3)* except that the equipment is held by T1, a wholly-owned subsidiary of T.

(ii) In addition, assume the following:

(A) T1 has no liabilities other than its share of the S group's consolidated tax liability generated by the deemed sale of the equipment, its sole asset.

(B) As of the close of the acquisition date, but before the deemed sale of the equipment, T1 has none of the attributes listed in section 381(c).

(iii) The consequences that obtain to T1 include the following:

(A) The deemed selling price of the equipment, under the general rule of paragraph (f)(1) of this section, is $60,000.

(B) Under paragraph (e)(1) of this section, T1 recognizes ordinary income under section 1245 of $30,000 on the deemed sale of the equipment as determined in *Example (1)*.

(C) Assume that, under §1.1502-33(d), T1's allocable share of the S group's consolidated tax liability for 1986 is $4,950.

(D) As of the close of the acquisition date, but after the deemed sale of the equipment, T1's earnings and profits are $25,050, *i.e.*, $0 + $30,000 − $4,950.

(iv) The consequences that obtain to T include the following:

(A) Old T does not recognize gain or loss upon its deemed sale of the T1 stock.

(B) The deemed selling price of the land, under the general rule of paragraph (f)(1) of this section, is $75,000.

(C) Gain on the deemed sale of the land is $25,000, the same amount as T recognizes in *Example (1)*.

(D) Assume that, under §1.1502-33(d), old T's allocable share of the S group's consolidated tax liability for 1986 is $7,000.

(E) Old T succeeds to and takes into account old T1's earnings and profits of $25,050, determined as of the close of the acquisition date but after the deemed sale by T1 of its asset.

(F) As of the close of the acquisition date, but after the deemed sale of its assets, old T's earnings and profits are $65,000, *i.e.*, $21,950 + $25,050 + ($25,000 − $7,000). (Note that T's current earnings and profits, other than those generated by the deemed sale of its assets, are $21,950, as set forth in subdivision (i)(A) of *Example (3)*.)

(v) The consequences that obtain to S1 include the following:

(A) S1 does not recognize gain or loss upon its sale of the old T stock to P.

(B) S1 succeeds to and takes into account old T's earnings and profits of $65,000, determined as of the close of the acquisition date but after the deemed sale of old T's assets.

(vi) P's basis in the new T stock is P's cost for the old T stock, $80,000.

Example (7). (i) The facts are the same as in Example (6) except that S1 elects to use the MADSP formula and P already owns 20 percent of the T stock which constitutes nonrecently purchased stock. Assume further that P's basis in these shares of nonrecently purchased T stock is $6,000, that P paid $64,000 for the 80 percent of old T stock purchased from S1, and that the fair market value of the T1 stock is $60,000.

(ii) The gain recognized by old T on the deemed sale of its assets is calculated as follows:

(A) Under paragraph (f)(3) of this section, the MADSP for the T assets is as follows:

MADSP = G + L + X
MADSP = $64,000/.8 + $40,000 + 0
MADSP = $80,000 + $40,000 + 0
MADSP = $120,000

(B) The portion of MADSP allocated to each T asset is determined under paragraph (f)(2)(ii) of this section as follows:

	Basis*	Fair market value	Fraction	Allocable MADSP portion
Land	$50,000	$ 75,000	5/9	$ 66,667
T1 stock	**	60,000	4/9	53,333
Total	**	$135,000	1	$120,000

*Amount not stated.

(C) Old T recognizes gain of $16,667 on the deemed sale of the land, *i.e.*, the same amount as T recognizes in *Example (2).*

(D) Old T does not recognize gain or loss upon its deemed sale of the old T1 stock.

(iii) The gain recognized by T1 on the deemed sale of its asset (equipment) is calculated as follows:

(A) Under paragraph (f)(2) of this section, the MADSP for the T1 asset (equipment) is as follows:

(B) MADSP = G + L + X
MADSP = $53,333 + 0 + 0
MADSP = $53,333

(C) Under paragraph (e)(1) of this section, T1 recognizes ordinary income under section 1245 of $23,333 on the deemed sale of the equipment, *i.e.*, (the lower of the amount deemed realized, $53,333, or the recomputed basis, $70,000) minus adjusted basis, $30,000.

(iv) The additional consequences to T1 include the following:

(A) Assume that, under §1.1502-33(d), old T1's share of the S group's consolidated tax liability (all of which is attributable to the deemed sale of old T1's equipment) for 1986 is $3,733.

(B) As of the close of the acquisition date, but after the deemed sale of its asset, T1's earnings and profits are $19,600, *i.e.*, $23,333 − $3,733.

(v) The additional consequences that obtain to T include the following:

(A) Assume that, under §1.1502-33(d), old T's allocable share of the S group's consolidated tax liability for 1986 (all of which is attributable to the deemed sale of old T's land) is $4,667.

(B) Old T succeeds to and takes into account old T1's earnings and profits of $19,600, determined as of the close of the acquisition date but after the deemed sale by T1 of its asset.

(C) As of the close of the acquisition date, but after the deemed sale of its assets, old T's earnings and profits are $53,550, *i.e.*, $21,950 + $19,600 + ($16,667 − $4,667).

(vi) The additional consequences that obtain to S1 include the following:

(A) S1 does not recognize gain or loss upon its sale to P of old T stock (that is recently purchased stock).

(B) S1 succeeds to and takes into account 80 percent of old T's earnings and profits of $53,550, or $42,840, determined as of the close of the acquisition date but after the deemed sale of the T and T1 assets. See §1.381(c)(2)-1(c)(2).

(vii) P is deemed to have made a gain recognition election for its nonrecently purchased T stock. As a result, it recognizes gain of $10,000, calculated under paragraph (e)(5) of this section as follows:

(A) P's grossed-up basis for its recently purchased T stock is $64,000, *i.e.*, the basis of the recently purchased T stock, $64,000, multiplied by the fraction in section 338(b)(4), (1 − .2)/(.8).

(B) P's basis amount for its nonrecently purchased T stock is $16,000, *i.e.*, the grossed-up basis in the recently purchased T stock, $64,000, multiplied by the fraction in section 338(b)(3)(B), (.2/(1.0 − .2).

(C) The recognized gain is $10,000, *i.e.*, the basis amount, $16,000, minus P's basis, $6,000.

(viii) As a result of the deemed gain recognition election, P's basis in the nonrecently purchased T stock is increased from $6,000 to $16,000. P's basis in all the T stock is $80,000, *i.e.*, 64,000 plus $16,000.

(h) *Deemed section 338(h)(10) election*—(1) *In general.* P and S shall be treated as having made a section 338(h)(10) election for any section 338(h)(10) target affiliate if—

(i) P makes an express election for T and

(ii) P and S make a section 338(h)(10) election for T.

(2) *Example.* The provisions of this paragraph (h) may be illustrated by the following examples:

Example (1), On January 1, 1986, and February 1, 1986, P purchases directly from S1 the stock of T and T1, respectively. An express election and a section 338(h)(10) election are made for T. P and S are treated as having made a section 338(h)(10) election for T1.

Example (2). T1 is a wholly-owned subsidiary of T. On March 1, 1987, P purchases all the T stock from S1. An express election and a section 338(h)(10) election are made for T. P and S are treated as having made a section 338(h)(10) election for T1.

(i) [Reserved]

(j) *Coordination with section 337 and section 338(h)(12)*—(1) *General rule.* If all the conditions set forth in paragraph (j)(2) of this section are met, then—

(i) Old T is treated as having distributed all of its assets as of the close of the acquisition date for purposes of section 337 and provisions that relate to section 337 and

(ii) Any items reportable for old T for its last taxable period are included in the S group's consolidated return for the taxable period that includes the acquisition date.

(2) *Conditions.* The conditions referred to in paragraph (j)(1) of this section are as follows:

(i) A section 338(h)(10) election is made for T.

(ii) The provisions of section 338(h)(12) (relating to transaction 337-338 transactions) are satisfied.

(iii) The provisions of section 337(c)(3) (relating to section 337 chain liquidations) are met.

(3) *Exception for section 338(c)(1) percentage.* If the general rule of this paragraph (j) applies, then, under §1.338-4T(k)(1) *Answer 3* (ii), T nevertheless recognizes gain or loss on both actual and deemed sales (that would otherwise by subject to the nonrecognition rule of section 337) to the extent of the section 338(c)(1) percentage.

(4) *Deemed gain recognition election.* The provisions of paragraph (e)(5) of this section (relating to deemed gain recognition election) apply to transactions described in this paragraph (j).

(5) *Examples.* The provisions of this paragraph (j) may be illustrated by the following examples:

Example (1). (i) Individual A owns all of the stock of S1, S1 owns all of the stock of S2, and S2 owns all of the stock of T. These corporations constitute an affiliated group. T has two assets. Asset No. 1, a capital asset, has a basis of $200 and fair market value of $300. Asset No. 2, which is section 1245 property, has a basis of $50 and a fair market value of $75. Its recomputed basis is $60. On January 1, 1986, plans of complete liquidation are adopted for all members of the group, including T. On June 1, 1986, members of the group sell property including all of the T stock, to P. At no time is the plan for T's liquidation rescinded before June 1, 1986 (the acquisition date). An express election and a section 338(h)(10) election are made for T. On October 1, 1986, all of the members of the S group, other than T, distribute their respective assets in complete liquidation.

(ii) The following consequences obtain to the members of the S group, T, and A:

(A) Under section 337(a), no gain or loss is recognized to the members of the S group (including T) upon the actual sale of property (as defined in section 337(b)) including the sale of T stock by S2.

(B) T realizes gain of $125, *i.e.*, ($300 − $200) + ($75 − $50), on the deemed sale of its assets. Since section 337(a) applies, T recognizes only $10 of this gain which is ordinary income under section 1245, *i.e.*, (the lower of the fair market value, $75, or recomputed basis, $60) minus adjusted basis, $50. This ordinary income under section 1245 is reported on the consolidated return of the S group for the taxable period that includes the acquisition date. The remaining realized gain of $115 (*i.e.*, $125–$10) is not recognized under section 337.

(C) Pursuant to section 332, no gain or loss is recognized to S1 upon the complete liquidation of S2.

(D) Pursuant to section 331, gain or loss is recognized to A upon the complete liquidation of S1.

Example (2). Assume the same facts as in *Example (1)*, except that K owns 20 percent of the outstanding T stock and such shares are not disposed of in the transaction. Thus, this section

338(c)(1) percentage (within the meaning of §1.338-4T(h)(2)(v)) is 20 percent. The consequences are the same as in *Example (1)*, except that T recognizes capital gain of $20 on the deemed sale of Asset No. 1, i.e. 20 percent of $100, and section 1231 gain of $3 on the deemed sale of Asset No. 2, *i.e.*, 20 percent of $15.

Example (3). Assume the same facts as in *Example (2)*, except that T makes an actual sale of Asset No. 2 on May 15, 1986, to individual C for $75. The consequences are the same as in *Example (2)*.

(k) *Miscellaneous procedural matters*—(1) *Inapplicability of provisions*. The provisions of section 6043 and §1.332-6 (relating to information returns and recordkeeping requirements for corporate liquidations) shall no apply to the constructive section 332 liquidation of T as provided by paragraph (e)(3) of this section. However, these provisions apply to transactions to which paragraph (j) of this section applies.

(2) *Mooted section 338(h)(9) return*—(i) *Transitional rule*. A deemed sale return for T (as defined in § §1.338-1T(f)(3)(i)) that is subsequently mooted by a section 338(h)(10) election shall be considered a return within the meaning of section 6011 for purposes of section 6513 (relating to time return deemed filed and tax considered paid) and section 6611 (relating to interest on overpayment of tax).

(ii) *Example*. The provisions of this subparagraph (2) may be illustrated by the following example:

Example. On January 1, 1984, P purchases all of the outstanding T stock from S1 and makes an express election for T. Old T's final tax return is filed on April 15, 1984 and the tax due of $10,000 is paid at that time. Subsequently, a delayed statement of a section 338(h)(10) election is filed for T pursuant to the provisions of paragraph (d)(7) of this section. As a result, section 338(h)(10) is elected for T. T is entitled to a refund of $10,000 plus interest thereon from April 15, 1984.

Par. 3. Section 1.338-1T is amended as follows:

1. Paragraph (c) is amended by removing from the first sentence the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

2. Paragraph (e)(1)(i) is amended by—

a. Removing the word "and" from the end of paragraph (e)(1)(i)(B),

b. Removing the period from the end of paragraph (e)(1)(i)(C), and by adding in its place ", and ", and

c. Adding, immediately following paragraph (e)(1)(i)(C), a new paragraph (e)(1)(i)(D) to read as set forth below.

3. Paragraph (e)(1)(ii) is amended by removing, from each place they appear, the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

4. Paragraph (e)(2)(i) is revised to read as set forth below.

5. Paragraph (e)(2)(ii) is amended by removing, from each place they appear, the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

6. Paragraph (e)(3) is amended by inserting in the last sentence after "§1.338-4T(j)(2)" the words "or a section 338(h)(10) election under §1.338(h)(10)-1T(d)".

7. Paragraph (f)(7)(ii) is amended by removing the words "August 23, 1985" and adding in their place the words "March 15, 1986".

8. Paragraph (h) is amended by removing, from each place they appear, the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

9. Paragraph (j)(2) is amended by removing from the third sentence the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

§1.338-1T Elections under section 338(g) of the Internal Revenue Code of 1954 (temporary).

* * * * *

(e) *Schedule; attachments to target returns*—(1) *Schedule of information relating to corporations subject to election*—(i) *Required data*. * * *

(D) If an election under section 338(h)(10) is made, clearly identify (such as by a footnote system) each corporation listed on the schedule which is subject to that election, including corporations subject to deemed section 338(h)(10) elections under §1.338(h)(10)-1T(h).

* * * * *

(2) *Attachments to target returns; additional filings with certain Service Centers*—(i) *Attachments*. Required items must be attached to old target's final return and to the first return of new target. If target is a foreign corporation not subject to United States tax (as defined in paragraph (k)(3)(iii) of this section), the first return of new target is considered to be the return specified in paragraph (k)(6) of this section. If the target is subject to section 338(h)(10) election, the final return of old target is considered to be the return of the selling consolidated group for the taxable period which includes the acquisition date. The required items are (A) a copy of the statement of election, (B) the schedule described in paragraph (e)(1) of this section ("schedule"), and (C) if a gain recognition election under section 338(b)(3) is made in the statement of election, a copy of the gain recognition statement ("GRS"). See §1.338-4T(j)(2) for guidance on the GRS and §1.338(h)(10)-1T(d) for guidance for a section 338(h)(10) election. The requirement of this subdivision (i) applies both to the corporation for which the statement of election is expressly made and to a corporation subject to such a statement by reason of section 338(f)(1).

* * * * *

Par. 4. Section 1.338-4T is amended as follows:

1. Paragraph (f)(5) Answer (vii)(A) is amended by removing the words "[120th day after date of publication of these regulations in the Federal Register]" and by adding in their place the words "March 15, 1986".

2. Paragraph (f)(6)(iv) Answer 1(i)(C)(*1*) is amended by removing the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

3. Paragraph (j)(2) Answer 5(i) is amended by removing from the third sentence the words "August 23, 1985" and by adding in their place the words "March 15, 1986".

Par. 5. Immediately after §1.1502-75 there is added a new §1.1502-75T. The new section reads as follows:

§1.1502-75T Temporary regulations for filing of consolidated returns; coordination with section 338(h)(10).

(a) *Withdrawal of consolidated return barred*. Notwithstanding the last sentence of §1.1502-75(a)(1), a consolidated return for the taxable period that includes the acquisition date (as defined in section 338(h)(2)) may not be withdrawn on or after the day that a section 338(h)(10) election is made for a former member of a selling consolidated group (as defined in §1.338(h)(10)-1T(b)(3)).

(b) *Election to discontinue barred*. Notwithstanding §1.1502-75(c), if a section 338(h)(10) election is made for a former member of a selling consolidated group that has not filed a consolidated return for the taxable period that includes the acquisition date but filed a consolidated return for a preceding taxable period, the selling consolidated group must file a consolidated return for the taxable period that includes the acquisition date and permission to discontinue filing consolidated returns cannot be granted for, and shall not apply to, that period or a preceding period.

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 6. The authority citation for 26 CFR Part 602 continues to read as follows:

Authority: 26 U.S.C. 7805.

Par. 7. Section 602.101(c) is amended by inserting in the appropriate place in the table "§1.338(h)(10)-1T(d), (f)(2), and (f)(4) . . . 1545-0702".

There is a need for immediate guidance with respect to the provisions contained in this Treasury decision. For this reason, it is found impracticable to issue this Treasury decision with notice and public procedure under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

Approved December 10, 1985.

Ronald A. Pearlman,
Assistant Secretary
of the Treasury.

(Filed by the Office of the Federal Register on January 3, 1986, 12:46 p.m., and published in the issue of the Federal Register for January 8, 1986, 51 F.R. 741)

Section 368.—Definitions Relating to Corporate Reorganizations

26 CFR 1.368-2: Definition of terms.
(Also Section 305; 1.305-4.)

Recapitalization; exchange of old stock for three new classes. In a corporation's plan of recapitalization, the exchange by one group of shareholders of voting common stock for newly issued class A voting common stock and nonvoting preferred stock and, by another group of shareholders, the exchange of voting common stock for newly issued class A voting common stock and nonvoting class B common stock is a reorganization within the meaning of section 368(a)(1)(E) of the Code provided the transaction has a bona fide business purpose, is an isolated transaction, and is not part of a plan to increase periodically the proportionate interest of any shareholder in the assets or earnings and profits of the corporation.

Rev. Rul. 86-25

Is the transaction described below a reorganization as defined in section 368(a)(1)(E) of the Internal Revenue Code or is it a distribution of property to which section 301 applies by reason of the application of section 305(b)(3)?

FACTS

X, a closely held domestic corporation, had 3,000 shares of $100 par value voting common stock ("old common") outstanding. For valid business reasons, a plan of reorganization was adopted pursuant to which *X* authorized the issuance of a new class A no par value voting common stock, a new class B no par value nonvoting common stock, and a new class C $100 par value nonvoting, nonparticipating, nonconvertible preferred stock. The only difference between the class A and class B common stock was the voting rights of the class A stock, and the only difference between the class A common stock and the old common stock was the par values. No terms of the old common stock, such as dividend or liquidation rights, are tied to the par value.

The plan of reorganization provided that each outstanding share of old common stock could be exchanged either for one share of class A common stock plus 99 shares of class B common stock, or for one share of class A common stock plus six shares of class C preferred stock. Pursuant to the plan of reorganization, one group of *X* shareholders surrendered 2,500 shares of *X* old common stock in exchange for 2,500 shares of class A common stock and 15,000 shares of class C preferred stock. A second group of shareholders surrendered 500 shares of old common stock in exchange for 500 shares of class A common stock and 49,500 shares of class B common stock. The value of the stock received by each shareholder of *X* was equal to the value of the stock surrendered by such shareholder in the exchange. The exchange of stock was an isolated transaction and not part of a plan to increase periodically the proportionate interest of any shareholder in the assets or earnings and profits of *X*.

LAW AND ANALYSIS

Section 368(a)(1)(E) of the Code provides that the term "reorganization" includes a recapitalization. In *Helvering v. Southwest Consolidated Corp.*, 315 U.S. 194, 202 (1942), 1942-1 C.B. 218, the Supreme Court of the United States defined a recapitalization under a predecessor of section 368(a)(1)(E) as a "reshuffling of a capital structure within the framework of an existing corporation."

Section 354(a) of the Code states that no gain or loss will be recognized if stock in a corporation that is a party to a reorganization is exchanged solely for stock in such corporation.

Section 305(a) of the Code contains the general rule that gross income does not include the amount of any distribution of the stock of a corporation made by such corporation to its shareholders with respect to its stock.

Section 305(b)(3) of the Code provides that section 305(a) shall not apply to a distribution by a corporation of its stock, and the distribution shall be treated as a distribution of property to which section 301 applies if the distribution (or a series of distributions of which such distribution is one) has the result of the receipt of preferred stock by some common shareholders and the receipt of common stock by other common shareholders.

Section 305(c) of the Code provides that a change in redemption price, a difference between redemption price and issue price, a redemption which is treated as a distribution to which section 301 applies, or any transaction (including a recapitalization) having a similar effect on the interest of any shareholder may be treated as a distribution with respect to any shareholder whose proportionate interest in the earnings and profits or assets of the corporation is increased by such change, difference, redemption, or similar transaction.

Section 1.305-7(c)(1) of the Income Tax Regulations provides that a recapitalization (whether or not an isolated transaction) will be deemed to result in a distribution to which section 305(c) of the Code applies if it is pursuant to a plan to periodically increase a shareholder's proportionate interest in the assets or earnings and profits of the corporation.

Section 1.305-7(c)(4) of the regulations provides that an example of the application of section 1.305-7(c) is example (12) of section 1.305-3(e).

In Example (12) contained in section 1.305-3(e) of the regulations, five shareholders owned 300 shares each and five shareholders owned 100 shares each of Corporation *R*'s 2,000 shares of class A stock outstanding. In preparation for the retirement of the five major shareholders, *R*, in a single and isolated transaction, had a recapitalization in which each share of class A stock was exchanged either for five shares of new class B nonconvertible preferred stock plus 0.4 share of new class C common stock, or for two shares of new class C common stock. As a result of the exchanges, each of the five major shareholders received 1,500 shares of class B nonconvertible preferred stock and 120 shares of class C common stock, and the remaining shareholders each received 200 shares of class C common stock. The example concludes that none of the exchanges are within the purview of section 305 of the Code.

In the instant case, had *X* made an outright distribution of the new preferred stock and new class B common stock on the old common stock, the distribution would have been taxable as a distribution of property under section 301 of the Code by reason of the application of section 305(b)(3).

Nevertheless, a transaction that effects a reshuffling of a corporation's capital structure will be respected as a recapitalization exchange to which section 305(b)(3) of the Code does not apply so long as it has a bona fide business purpose and is an isolated transaction and not part of a plan to increase periodically the proportionate interest of any shareholder in the assets or earnings and profits of a corporation. *See* Example (12) in section 1.305-3(e) of the regulations, discussed above. *Compare Bazley v. Commissioner*, 331 U.S. 737 (1947), 1947-2 C.B. 79, (the exchange lacked a bona fide business purpose and was therefore not a reorganization) and section 1.301-1(l) of the regulations (a distribution occurring at the same time as a recapitalization is taxable as a dividend if, in substance, it is not part of the recapitalization).

HOLDING

Under the circumstances set forth above, the exchange of old voting common stock for either class A voting common stock plus class C nonvoting preferred stock or class A voting common stock plus class B nonvoting common stock, will qualify as a tax-free recapitalization under section 368(a)(1)(E) and 354(a) of the Code, and will not be treated as distributions of property to which section 301 applies by reason of the application of section 305(b)(3).

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 54-192, 1954-1 C.B. 99, and Rev. Rul. 54-482, 1954-2 C.B. 148, are amplified.

Section 381.—Carryovers in Certain Corporate Acquisitions

26 CFR 1.381-1: General rule relating to carryovers in certain corporate acquisitions.

Whether recapture of investment credit under section 47 of the Code occurs where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest. See Rev. Rul. 86-23, page 6.

Section 472.—Last-in, First-out Inventories

26 CFR 1.472-1: Last-in, first-out inventories

LIFO; price indexes; department stores. The November 1985 Bureau of Labor Statistics price indexes are accepted for use by department stores employing the retail inventory and last-in, first-out inventory methods for valuing inventories for tax years ended on, or with reference to, November 30, 1985.

Rev. Rul. 86-26

The following price indexes for November 1985 were issued by the Bureau of Labor Statistics on December 23, 1985, for use by department stores, and are accepted by the Internal Revenue Service, under section 1.472-1(i) of the Income Tax Regulations and Rev. Proc. 72-21, 1972-1 C.B. 745, for appropriate application to inventories of department stores employing the retail inventory and last-in, first-out inventory methods for tax years ended on, or with reference to, November 30, 1985.

Indexes are prepared on a national basis for the store total, for 20 major groups of departments, and for two special combinations—soft and durable goods. The store total index covers all departments, including some not listed separately, with the following exceptions: candy, foods, liquor, tobacco, paints, and wallpaper, as well as contract departments.

BUREAU OF LABOR STATISTICS, DEPARTMENT STORE INVENTORY PRICE INDEXES BY DEPARTMENT GROUPS

Section 541.—Imposition of Personal Holding Company Tax

26 CFR 1.541-1: Imposition of tax.

Whether a personal holding company subsidiary liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income. See Rev. Rul. 86-27, this page.

Section 545.—Undistributed Personal Holding Company Income

26 CFR 1.545-1: Definition.

Whether a personal holding company subsidiary liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income. See Rev. Rul. 86-27, this page.

Section 561.—Definition of Deduction for Dividends Paid

26 CFR 1.561-1: Deduction for dividends paid. (Also Sections 541, 545, 562; 1.541-1, 1.545-1, 1.562-1.)

Dividends paid deduction; personal holding company income. A personal holding company subsidiary liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income.

Rev. Rul. 86-27

ISSUE

May a personal holding company subsidiary that is liquidated into its parent corporation claim a deduction for dividends paid under section 561 of the Internal Revenue Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income under the circumstances described below?

FACTS

P and *S* are corporations. *S* was a wholly owned subsidiary of *P*. *P* is, and *S* was, engaged in the business of investing and reinvesting in stocks and securities and collecting, investing, and distributing the income therefrom. *P* is, and *S* was, a personal holding company within the meaning of section 542 of the Code.

In February 1984 the management of each corporation determined that it would be administratively convenient to liquidate *S* and place all of its assets in *P*. Accordingly, the Board of Directors of *S* adopted a resolution containing a plan of complete liquidation under which *S* was to be merged into *P* pursuant to state law. *P* approved and adopted *S*'s plan of liquidation. Pursuant to the plan, the liquidation and merger occurred in November 1985. Neither *P* nor *S* transferred any of *S*'s assets to another corporation before or after *S*'s liquidation except to unrelated third parties in the ordinary course of their businesses of investing and reinvesting in stocks and other securities. *S* sought to take its liquidation distribution into account when computing its undistributed personal holding company income under section 545(a) for the taxable year of the distribution.

LAW AND ANALYSIS

Section 541 of the Code provides for the imposition of a personal holding company tax for each tax year on the undistributed personal holding company income of personal holding companies equal to 50 percent of the undistributed personal holding company income.

Section 545(a) of the Code provides that the term "undistributed personal holding company income" means taxable income of a personal holding company adjusted in the manner provided in subsections (b), (c), and (d), minus the dividends paid deduction.

Section 561(a) of the Code provides that the deduction for dividends paid shall be the sum of (1) the dividends paid during the taxable year, (2) the consent dividends for the taxable year (determined under section 565), and (3) in the case of a personal holding company, the dividend carryover described in section 564.

Section 562(a) of the Code provides that the term "dividend" shall, except as otherwise provided in this section, include only dividends described in section 316 (relating to definition of dividends for purposes of corporate distributions).

Section 562(b)(2) provides that in the case of a complete liquidation of a personal holding company occurring within 24 months after the adoption of a plan of liquidation, the amount of any distribution within that period pursuant to the plan shall be treated as a dividend for purposes of computing the dividends paid deduction, to the extent the amount is distributed to corporate distributees and represents the distributees' allocable share of the undistributed personal holding company income for the taxable year of the distribution computed without regard to this paragraph and section 316(b)(2)(B).

Section 1.562-1(b)(2)(i) of the Income Tax Regulations notes that section 562(b)(2) of the Code makes an exception to the general rule that a deduction for dividends paid is permitted only with respect to dividends described in section 316. This regulation also provides that amounts distributed in liquidation in a transaction which is preceded or followed by a transfer to another corporation of all or part of the assets of the liquidating corporation may not be eligible for the dividends paid deduction. This language indicates that a dividends paid deduction in the context of a complete liquidation will be closely scrutinized to assure that the benefit of the deduction is only obtained if there is in fact a complete liquidation. Thus, the dividends paid deduction will not be available where the distributed assets are reincorporated by the distributee.

Section 1.562-1(b)(2)(ii) of the regulations provides that the corporate distributees' allocable share of undistributed personal holding company income for the taxable year of the distribution (computed without regard to sections 316(b)(2)(B) and 562(b)(2) of the Code) shall be determined by multiplying the undistributed personal holding company income by the ratio which the aggregate value of the stock held by all corporate shareholders immediately before the record date of the last liquidating distribution in the year bears to the total value of all stock outstanding on that date.

In the present situation *S* was a personal holding company and *P* was a corporate distributee. *S*'s complete liquidation occurred within 24 months of adoption of the plan of liquidation. Because *S* was a wholly owned subsidiary of *P*, the amount distributed to *P*, to the extent it represents *S*'s undistributed personal holding company income, represented *P*'s allocable share of that income within the meaning of section 562(b)(2) of the Code. In addition, none of *S*'s assets was transferred to another corporation before or after *S*'s liquidation except to unrelated third parties in the ordinary course of *P*'s or *S*'s business of investing and reinvesting in stocks and securities. Any such transfer did not affect the complete nature of *S*'s liquidation and, therefore, the abuse that section 1.562-1(b)(2)(i) of the regulations was intended to prevent is absent. Under these circumstances *S*'s liquidation falls within the scope of section 562(b)(2) and the regulations thereunder.

HOLDING

A personal holding company subsidiary that is liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income under the circumstances described above.

Section 562.—Rules Applicable in Determining Dividends Eligible for Dividends Paid Deduction

26 CFR 1.562-1: Dividends for which the dividends paid deduction is allowable.

Whether a personal holding company subsidiary liquidated into its parent corporation may claim a deduction for dividends paid under section 561 of the Code to the extent of the amount distributed to the parent that represents the subsidiary's undistributed personal holding company income. See Rev. Rul. 86-27, page 20.

Section 721.—Nonrecognition of Gain or Loss on Contribution

26 CFR 1.721-1: Nonrecognition of gain or loss on contribution.

Whether recapture of investment credit under section 47 of the Code occurs where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest. See Rev. Rul. 86-23, page 6.

Section 723.—Basis of Property Contributed to Partnership

26 CFR 1.723-1: Basis of property contributed to partnership.

Whether recapture of investment credit under section 47 of the Code occurs where a wholly owned subsidiary corporation distributes section 38 property to its parent corporation in complete liquidation and the parent subsequently contributes the property to a partnership in which the parent holds a 75 percent interest. See Rev. Rul. 86-23, page 6.

Section 1012.—Basis of Property—Cost

26 CFR 1.1012-1: Basis of property.

What portion of the purchase price of a cow impregnated with an embryo must be allocated between the cow and the calf subsequently born. See Rev. Rul. 86-24, page 7.

Section 1231.—Property used in the Trade or Business and Involuntary Conversions

26 CFR 1.1231-2: Livestock held for draft, breeding, dairy or sporting purposes.

Whether cows purchased for breeding purposes qualify as property used in the taxpayer's trade or business. See Rev. Rul. 86-24, page 7.

Section 1502.—Regulations [Consolidated Returns]

26 CFR 1.1502-75T: Temporary regulations for filing of consolidated returns; coordination with section 338(h)(10).

Election under section 338(h)(10) of the Code for a former member of a consolidated group. See T.D. 8068, page 9.

Section 4051.—Imposition of Tax on Heavy Trucks and Trailers Sold at Retail

Whether, for purposes of determining the taxable sale price of a highway vehicle under section 4052(b) of the Code, a dealer may exclude as the fair market value at retail of the tires, a predetermined price established by the tire manufacturer under Federal Trade Commission regulations for warranty adjustment purposes. See Rev. Rul. 86-28, below.

Section 4052.—Definitions and Special Rules

26 CFR 145.4052-1: Special rules and definitions.
(Also Section 4051.)

Sale price of truck; tire exclusion; use of predetermined price. A vehicle retailer that does not have an established retail price of tires may use the tire manufacturer's predetermined price established by the manufacturer under Federal Trade Commission (FTC) regulations in determining the retail fair market value of the tire pursuant to section 4052(b)(1)(B)(iii) of the Code.

Rev. Rul. 86-28

ISSUE

For purposes of determining the taxable sale price of a highway vehicle under section 4052(b) of the Internal Revenue Code, if a vehicle dealer does not have an established lowest retail price of tires, may the dealer exclude, as the fair market value at retail of the tires, a predetermined price established by the tire manufacturer under Federal Trade Commission (FTC) regulations for warranty adjustment purposes?

FACTS

X, a vehicle dealer, sells at retail trucks and trailers that are subject to the tax imposed by section 4051(a)(1) of the Code. Some of the vehicles sold by *X* are equipped with tires manufactured by *Y*. *X* does not make separate sales of *Y*'s tires at retail, and *Y* does not provide *X* with manufacturer's suggested retail prices for any of its tires. Title 16 C.F.R. section 228.16 (1985) contains the FTC rules concerning the advertising of tire warranties. Section 228.16(b) provides that to avoid deception of purchasers as to the value of guarantees, adjustments should be made on the basis of a price which realistically reflects the actual selling price of the tire. Under section 228.16(b)(3), a predetermined price which fairly represents the actual selling price of the tire is considered to be an appropriate price base for making such guarantee adjustments.

In accordance with this FTC regulation, *Y* has published a predetermined price list which consists of the average selling prices for which its retail dealers sell their tires. It is based on an annual survey that *Y* performs in its markets in the United States.

LAW AND ANALYSIS

Section 4051(a)(1) of the Code imposes on the first retail sale of certain truck and trailer chassis and bodies (including in each case parts or accessories sold on or in connection therewith or with the sale thereof) a tax of 12 percent of the amount for which the article is so sold.

Section 145.4052-1(d)(2)(iii) of the Code provides that in determining the price for which an article is sold, there shall be excluded the fair market value (including any tax imposed by section 4071) at retail of any tires (not including any metal rim or rim base).

Section 145.4052-1(d)(2)(iii) of the Temporary Excise Tax Regulations, as amended by T.D. 8050, 50 Fed. Reg. 37350, 37351 (1985), 1985-42 I.R.B. 12, provides that the fair market value at retail of tires shall be determined by the lowest established price for which the vehicle retailer would sell such tires at retail in the ordinary course of trade. The lowest established price is the lowest price for which the vehicle retailer sells, or offers to sell, a single tire to an independent purchaser who would not ordinarily be expected to buy more than one. If the vehicle retailer has no lowest established price, the Commissioner will accept any price, provided that, under the facts and circumstances, such price is not unreasonable. (For vehicles sold on or after April 1, 1983, and before October 13, 1985, a price will not be considered unreasonable if it is no more than an amount equal to 50 percent of the manufacturer's suggested retail price.)

As *X* does not make separate sales of *Y*'s tires at retail, it does not have a lowest established price for which it sells, or offers to sell, such tires to independent purchasers within the terms of section 145.4052-1(d)(2)(iii) of the temporary regulations. In the absence of a lowest established price for *Y*'s tires, the Commissioner will accept from *X*, as the fair market value at retail of the tires, any price that is not unreasonable. The use of *Y*'s predetermined price (which was developed for purposes of 16 C.F.R. section 228.16 and which is computed annually on the average actual sale price of *Y*'s tires by its dealers) is not unreasonable.

In lieu of using the tire manufacturer's predetermined price, however, a vehicle retailer can continue to use any price not unreasonable under the facts and circumstances test, as set forth in section 145.4052-1(d)(2)(iii) of the Temporary Excise Tax Regulations.

HOLDING

A vehicle retailer that does not have an established lowest retail price of tires because such retailer does not make separate sales of tires at retail may use, but is not required to use, the tire manufacturer's predetermined price as defined in 16 C.F.R. section 228.16(b)(3) in determining the retail fair market value of a tire pursuant to section 4052(b)(1)(B)(iii) of the Code.

Section 6041.—Information at Source

26 CFR 1.6041-1: Return of information as to payments of $600 or more.

Whether Schedule K-1 of Form 1041 is an information return for purposes of sections 6041(a) and 6652(a)(1)(A) of the Code. See Rev. Rul. 86-29, below.

Section 6652.—Failure to File Certain Information Returns, Registration Statements, Etc.

26 CFR 301.6652-1: Failure to file certain information returns.
(Also Section 6041; 1.6041-1.)

Returns; information; failure to file; Form 1041, Schedule K-1. Schedule K-1 is considered an information return that is required to be timely filed with Form 1041, U.S. Fiduciary Income Tax Return. Trusts that fail to file Schedule K-1, file K-1s that omit material information, or file substitute K-1s not in an approved format, are subject to the penalty under section 6652(a)(1)(A) of the Code.

Rev. Rul. 86-29

ISSUE

For purposes of the penalty imposed by section 6652(a)(1)(A) of the Internal Revenue Code, does the term "statement of the amount of payments to another person required by . . . section 6041(a)" of the Code include Schedule K-1 to Form 1041 (U.S. Fiduciary Income Tax Return)?

FACTS

Situation 1 Trust *TrA* filed Form 1041, U.S. Fiduciary Income Tax Return, and made payments to each beneficiary of $600 or more in a taxable year, but failed to file any of five required Schedules K-1 with the Form 1041.

Situation 2: Trust *TrB* filed Form 1041 and filed Schedules K-1, and made payments to each beneficiary of $600 or more in a taxable year, but omitted certain material information from three of the five schedules.

Situation 3: Trust *TrC* filed Form 1041 and made payments to each beneficiary of $600 or more in a taxable year, but filed five "substitute" Schedules K-1 (summaries). Contrary to the requirements in Rev. Proc. 83-9, 1983-1 C.B. 639 and in the instructions to Schedule K-1 (Form 1041) the substitutes were not in an approved format and were unprocessible.

LAW AND ANALYSIS

Section 6041(a) of the Code provides, with certain exceptions not here relevant, that all persons engaged in a trade or business and making payment in the course of such trade or business to another person of rent, salaries, wages, premiums, annuities, compensations, remunerations, emoluments, or other fixed or determinable gains, profits, and income of $600 or more in any taxable year shall render a true and accurate return to the Secretary, under such regulations and in such form and manner and to such extent as may be prescribed by the Secretary, setting forth the amounts of such gains, profits, and income, and the name and address of the recipient of such payment.

Section 6652(a)(1)(A) of the Code provides that in the case of each failure to file a statement of the amount of payments to another person required by section 6041(a) or (b) (relating to certain information at source) on the date prescribed therefore (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause and not to willful neglect, there shall be paid (upon notice and demand by the Secretary and in the same manner as tax) by the person failing to file the statement, $50 for each such failure, but the total amount imposed on the delinquent person for all such failures during any calendar year shall not exceed $50,000.

Section 1.6041-1(a)(2) of the Income Tax Regulations provides that information returns are required to be made on Forms 1096 and 1099 except that the return with respect to distributions to beneficiaries of a trust or of an estate shall be made on Form 1041. Instructions for Form 1041 and Schedules A, B, D, J and K-1, state that a Schedule K-1 must be filed with Form 1041 to report a beneficiary's income from the estate or trust. The instructions also describe acceptable substitute Schedules K-1. Form 1096, instruction paragraph K, "Other Information Returns," lists the Schedule K-1 for Form 1041 and states that income information reported on the K-1s must not be reported on any of the other Forms covered in the instructions to Form 1096.

In *Commissioner v. Lane-Wells Co.*, 321 U.S. 219, 223 (1944), 1944 C.B. 540, the Supreme Court noted that the Congress gave discretion to the Commissioner to prescribe by regulation forms of returns. The discretion was granted so that the Commissioner would not only obtain necessary tax information but obtain that information with such "uniformity, completeness, and arrangement that the physical task of handling and verifying returns may be readily accomplished."

The Schedules K-1 are required to be filed with Form 1041 and serve the function of reporting the income of a beneficiary of an estate or trust. Thus, the schedules are among the information returns required by section 1.6041-1(a)(2) of the regulations.

In *Situation 1*, *TrA* filed Form 1041 but failed to file five Schedules K-1. In *Situation 2*, *TrB* omitted material information on three of five Schedules K-1. In *Situation 3*, *TrC* filed five substitute Schedules K-1 that were not in an approved format.

Thus, in the three situations the Schedules K-1 either were not furnished to the Service or were not in acceptable format. The Service, therefore, was hindered in carrying out its responsibility of performing the information collection duties placed upon it by Congress.

HOLDINGS

For purposes of the penalty imposed by Section 6652(a)(1)(A) of the Code, the term "statement of the amount of payments to another person required by . . . Section 6041(a)" of the Code includes Schedule K-1 to Form 1041. Therefore, the consequence of the three fact situations would be as follows:

Situation 12. *TrA*'s failure to file five Schedules K-1 resulted in five failures to file an information return for the purpose of imposing the penalty provided by section 6652(a)(1)(A) of the Code.

Situation 2. *TrB*'s failure to provide the missing information for three of five Schedules K-1 resulted in three failures to file an information return for the purpose of imposing the penalty provided by section 6652(a)(1)(A) of the Code.

Situation 3. *TrC*'s failure to file five substitute Schedules K-1 in an approved and processible format resulted in five failures to file an information return for the purpose of imposing the penalty provided by section 6652(a)(1)(A) of the Code.

Section 7701.—Definitions

26 CFR 301.7701-2: Associations.

Limited partnerships. The states of

Alabama, Minnesota, Nebraska, Oklahoma, West Virginia, and Wisconsin are added to the list of states that have enacted legislation that corresponds to the Uniform Limited Partnership Act for purposes of section 301.7701-2 of the regulations. Rev. Rul. 84-80 amplified.

Rev. Rul. 86-30

In Rev. Rul. 84-80, 1984-1 C.B. 275, Rev. Rul. 84-180, 1984-2 C.B. 314, and Rev. Rul. 85-178, 1985-43 I.R.B. 16, the Internal Revenue Service listed several states that revised their limited partnership statutes following the promulgation of the Revised Uniform Limited Partnership Act. The Service determined that the legislation enacted by those states corresponds to the Uniform Limited Partnership Act ("ULPA") for purposes of section 301.7701-2 of the Procedure and Administration Regulations.

The Service has determined that the following additional states have enacted legislation that, as of the effective date, corresponds to ULPA for purposes of section 301.7701-2 of the regulations:

ALABAMA: Ala. Code sections 10-9A-1 through 10-9A-203 (Supp. 1984) effective January 1, 1984.

MINNESOTA: Minn. Stat. Ann. sections 322A.01 through 322A.87 (West 1982) effective January 1, 1981.

NEBRASKA: Neb. Rev. Stat. Sections 67-237 through 67-297 (R.S. Supp., 1982) effective January 1, 1982.

OKLAHOMA: Okla. Stat. Ann. tit. 54, sections 301 through 364 (West Supp. 1984) effective November 1, 1984.

WEST VIRGINIA: W. Va. Code sections 47-9-1 through 47-9-63 (Michie Supp. 1984) effective January 1, 1982.

WISCONSIN: Wis. Stat. Ann. sections 179.01 through 179.94 (West Supp. 1984) effective September 1, 1984.

EFFECT ON OTHER REVENUE RULINGS

Rev. Rul. 84-80 is amplified.

Section 7805.—Rules and Regulations

26 CFR 301.7805-1: Rules and regulations

Administrative procedure for appeal of certain assessed penalties described in Rev. Proc. 78-1 is obsolete. See Rev. Proc. 86-10, page 25.

Part III. Administrative, Procedural, and Miscellaneous

26 CFR 601.104: Collection functions.
(Also Part I, Section 7805; 301.7805-1.)

Rev. Proc. 86-10

Rev. Proc. 78-1, 1978-1 C.B. 550, implemented on a trial basis procedures for appeal of assessments of certain additions to tax, additional amounts, and penalties. That revenue procedure is obsolete. Procedures for appeal of such assessment are now found in sections 601.106(a)(1)(ii)(c) and 601.106-(a)(1)(iii) of the Statement of Procedural Rules.

---

26 CFR 601.602: Tax forms and instructions.

Rev. Proc. 86-11

SECTION 1. PURPOSE

The purpose of this Revenue Procedure is to notify the public that the Internal Revenue Service has revised its policies set forth in Revenue Procedure 85-14, 1985-1 C.B. 515, regarding the user charge and user guidelines for the Internal Revenue Service Videotex Tax Library.

SEC. 2. BACKGROUND

.01 The Internal Revenue Service produces an annual library of tax information that is formatted for electronic publishing (information retrieval and videotex) applications. This library (database) consists of selected Taxpayer Information Publications (TIPS) as well as tax information briefs and other items.

.02 The public also has the option of obtaining magnetic tapes of the Taxpayer Information Publications and other items in unformatted masterfile form. These masterfiles have their elements identified by Standard Generalized Markup Language (SGML) concepts.

SEC. 3. PROCEDURE

.01 A user charge of $0.11 per thousand characters will be charged for magnetic tapes of the library.

.02 Information on the configuration and acquisition of the magnetic tapes containing the library and masterfile tapes can be obtained from the address referenced in Section 5.

SEC. 4. LIMITATIONS

.01 All material contained on the tapes may be used freely. A citation to the publication number and title would be appropriate.

.02 As an alternative method of ordering forms and publications, the Internal Revenue Service has instituted the Order Entry Program. Order Entry allows subscribers to commercial videotex services to order forms and publications through their service's network. These orders are filled by the Internal Revenue Service. Any vendor or service desiring to participate in the Order Entry Program must conform with the procedures and specifications prescribed by the Service.

SEC. 5. INQUIRIES

Any inquiries in regards to this Revenue Procedure should be made to Internal Revenue Service, 1111 Constitution Avenue, N.W., Room 1231, Washington, D.C. 20224, Attention: PM:S:FM:P.

SEC. 6. EFFECT ON OTHER DOCUMENTS

Rev. Proc. 85-14, 1985-1 C.B. 515, is superseded.

Regulations Governing the Practice of Attorneys, Certified Public Accountants, Enrolled Agents, and Enrolled Actuaries Before the Internal Revenue Service

Notice 86-2

AGENCY: Department of the Treasury.

ACTION: Final rule.

SUMMARY: This document contains final regulations governing practice before the Internal Revenue Service (31 CFR Part 10) by requiring that those who are enrolled to practice before the Internal Revenue Service renew their enrollment on a periodic basis. A condition of eligibility for renewal of enrollment will be the satisfaction of continuing professional education requirements. The rule also establishes a fee for the renewal of enrollment. The fee will be for the purpose of defraying the costs of administering the program. In addition, this notice contains modifications of the regulations reflecting the transfer to the Office of Director of Practice certain functions formerly performed by the Commissioner of Internal Revenue relative to the enrollment of individuals who wish to practice before the Internal Revenue Service.

DATE: These final regulations are effective January 22, 1986.

FOR FURTHER INFORMATION CONTACT: Mr. Leslie S. Shapiro, Director of Practice, Internal Revenue Service, Washington, DC 20224 (202) 535-6787.

SUPPLEMENTARY INFORMATION:

BACKGROUND AND COMMENTS

The administration of the program relating to the enrollment of those who wish to practice before the Internal Revenue Service was transferred to the Office of Director of Practice in 1982. At that time a complete study was made of the enrollment process and the applicable regulations. Those regulations accord individuals permanent enrollment with no need to renew that status. There are over 33,000 enrolled individuals on the enrollment roster. However, there is no means for determining the accuracy of that roster. For example, persons on the roster may have passed away, have become certified public accountants or attorneys, no longer have a need to retain their enrollment status, etc. Consequently, as a sheer "housekeeping" measure, renewal of enrollment was deemed necessary. At the same time, consideration was given the desirability of continuing professional education for the enrollee community. In this regard, the public relies on tax practitioners to be competent and skillful in representing taxpayers' interests before the Internal Revenue Service. The Internal Revenue Service also relies on the competence and skill of tax practitioners. Continuing professional education was found to be the most widely accepted means of retaining the knowledge of a professional and of keeping abreast of changes in the subject matter, methodology and state of the art applicable to a particular profession. It also was determined that most professions, both learned and trade, have mandated continuing professional education as a requirement for continued licensure. For example, 46 states require continuing professional education as a condition for certified public accountants to retain their active licenses to practice. For those who are enrolled to practice before the Internal Revenue Service, the need for continuing professional education is manifest. Our Federal tax laws and procedures are volatile and dynamic. In 1984 alone, massive changes were made in the Internal Revenue Code by the Tax Reform Act of 1984 (Pub. L. 98-369); the Retirement Equity Act of 1984 (Pub. L. 98-397); the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378); Pub. L. 98-573; Pub. L. 98-611; and Pub. L. 98-612. The benefits of continuing one's education in the tax area and related subjects are abundant; the detriments appear to be non-existent. Accordingly, it was concluded that formalization of a continuing professional education program for individuals enrolled to practice before the Internal Revenue Service would be in the best interest of the public and would be consistent with what has been found necessary and desirable for the other professions in our country. The requirements and methodologies of the continuing education programs of other professions, particularly those relating to certified public accountants, also were studied. Our proposals were based on those studies and on recommendations made to us by representatives of the enrolled practitioner community.

On July 3, 1984, the Treasury Department published in the Federal Register (49 FR 27326) an advance notice of proposed rulemaking that would amend the regulations governing practice before the Internal Revenue Service contained in 31 CFR Part 10 (Treasury Department Circular No. 230). The notice addressed the Treasury Department's intent to require those enrolled to practice before the Internal Revenue Service (enrolled agents) to renew their enrollment status on a periodic basis. A condition for renewal would be the satisfaction of continuing education requirements described in the notice. Comments on the advance notice were invited.

On April 23, 1985, the Treasury Department published in the Federal Register (50 FR 15937) a proposed rule to amend the regulations governing practice before the Internal Revenue Service. The notice of proposed rulemaking addressed the comments on the advance notice, and a number of modifications were made.

Approximately thirty-five written comments on the proposed rule were received. After consideration of all comments regarding the proposed rule, it is hereby adopted with modifications as explained below.

COMMENTS

1. A number of comments support the proposal in its entirety. Other comments supporting the concept of continuing professional education have raised concerns the same as those raised in response to the advance notice of proposed rulemaking. (a) One such concern is that the scope of the proposal should be extended to include attorneys and certified public accountants as well as enrolled agents. The concern was addressed in detail in the notice of proposed rulemaking. We continue to endorse the concept that all who practice before the Internal Revenue Service should further their knowledge of Federal tax laws and procedures. However, as discussed in the notice of proposed rulemaking, the Agency Practice Act, 5 U.S.C. 500, prohibits the Treasury Department from placing any limitation or qualification on the recognition of an attorney or certified public accountant who has met the conditions of the statute. Accordingly, to require continuing education of attorneys and certified public accountants would not be a condition for renewal of enrollment since they are not enrolled to practice before the Internal Revenue Service by the Treasury Department; to require it as a condition of eligibility to practice before the Internal Revenue Service would be a limitation not permitted by law. (b) A similar concern is that licensed public accountants in some jurisdictions must meet state licensing authorities' continuing education requirements in order to maintain their good standing. As a result, they should not be subject to the continuing education requirements of the proposal. We continue to believe the requirements of the regulations should be applied evenly to all enrolled agents, regardless of licensed public accountant status. An undue hardship is not anticipated for those individuals to meet the continuing education requirements for renewal of enrollment. We expect that satisfaction of recognized continuing education programs in the field of taxation which meet state requirements also will meet the Treasury Department requirements. Consequently, it is more likely than not that a licensed public accountant will satisfy, through one continuing education program, both his or her state's continuing education requirements and those of the Treasury Department. (c) Another comment supporting continuing professional education expresses concern that regulations relating to those who prepare Federal tax returns are nonexistent even though such individuals may be in the most need of continuing professional education. This is an area not under the jurisdiction of regulations in 31 CFR Part 10, since preparers of tax returns are not required to be attorneys, certified public accountants, or enrolled agents. We therefore cannot act on this comment.

2. Comments were received regarding the number of continuing professional education hours required for renewal of enrollment. Concern has been expressed that the number of hours required in the proposal is insufficient. Other commenters believe that the proposed required hours are too rigorous. Further comments reflect concern that the unavailability of sufficient courses in certain geographic areas and the registration costs for some courses may make it inconvenient or difficult to meet the continuing education requirements of the proposal. The same comments in response to the advance notice were considered, together with a further analysis of the various state requirements regarding certified public accountants. As a result, the notice of proposed rulemaking reduced the number of hours from 30 hours per year (90 hours over a three year period) to 24 hours per year (72 hours over a three year period). In addition, the proposal contemplates that qualifying correspondence and home study courses may be utilized to satisfy the requirements of the regulations. The number of hours in the proposal is what is believed necessary to sustain continuing professional education and is in fact less than that required of professionals by most licensing agencies. A sound program cannot be effected if the number of hours is reduced. In addition, we con-

tinue to believe that correspondence and/or home study courses will be appropriate for those who find the availability of other courses inconvenient because of geographic location or cost. Correspondence and home study courses are those programs not qualifying as formal group sessions under the regulations and which: (1) Are offered by qualified sponsors; (2) provide a means for measuring completion of the course by the attendees, e.g. written test; (3) have certificates of completion issued by the sponsor specifying subject matter and recommended continuing education credit hours; and (4) require that the sponsor maintain written records relating to each student and of the program outline for a period of three years immediately following completion of the program by each student.

3. Concern has been expressed regarding the amount of the renewal fee, hoping it will not be a revenue raising measure. We are obliged to follow the guidelines on user charges issued by the Office of Management and Budget. Under those guidelines, a reasonable charge is made to each identifiable recipient from a measurable unit or amount of government service from which he or she derives a special benefit. In this connection, the government agency is responsible for establishing the charges based on a determination of estimated costs for carrying out the activity. Those costs include such things as salaries, management, research and enforcement. The maximum charge or fee is governed by the total cost of the program. The costs and charges must be reviewed periodically. The renewal fee, which will be consistent with such guidelines, is not expected to be prohibitive. It clearly will not be a revenue raising measure in the sense the comments indicate.

4. Some comments address the renewal period. The notice of proposed rulemaking establishes the renewal period to be three years. The comments suggest the renewal period be changed from three years to either two years or four years. The reason for the suggestion appears to be that two years would be consistent with most state continuing professional education programs for certified public accountants. An analysis of the continuing education requirements of State Boards of Accountancy has disclosed that approximately fifty per cent of the states requiring continuing education have a biennial reporting period and approximately fifty per cent have triennial reporting period. We believe that to achieve operating efficiency and in the interest of the planning of individuals enrolled to practice before the Internal Revenue Service, a three year enrollment period is the most beneficial. Consequently, the renewal cycle will remain the same as in the proposal.

5. Concern has been expressed regarding the time period during which individuals enrolled to practice before the Internal Revenue Service must apply for renewal of enrollment. The proposal contemplates applications for renewal to be made between October 1 and December 31. The commenters suggest the filing of renewal applications should be extended from December 31 to January 31 to allow individuals who participate in year-end tax updates to file a renewal application timely. We concur in this suggestion. Thus, all individuals enrolled to practice before the Internal Revenue Service will be required to apply for renewal during the period November 1, 1986 to January 31, 1987. The first effective date of renewal will be April 1, 1987. Thereafter, applications for renewal will be required during the period between November 1, 1989 and January 31, 1990 and between November 1 and January 31 every third year subsequent thereto.

6. Consistent with the above modifications, a change also is required relating to the time period in which to satisfy the continuing professional education requirements. In this regard, the notice of proposed rulemaking requires that a minimum of 24 hours of continuing education credit be completed between January 1, 1986 and December 31, 1986. A minimum of 72 hours of continuing education credit is required to be completed between January 1, 1987 and December 31, 1989, and during each three year period subsequent thereto. The final rule has been changed to provide that a minimum of 24 hours of continuing education credit must be completed between January 1, 1986 and January 31, 1987, and a minimum of 72 hours of continuing education credit must be completed between February 1, 1987 and January 31, 1990, and during each three year period subsequent thereto.

7. Comments were received regarding the additional hours of continuing professional education an individual who fails to meet the continuing education requirement would be required to attain. The proposal requires four additional hours for each month an individual's enrollment is inactive, not to exceed 36 hours, if there has been a failure to satisfy the continuing education requirement of the regulations. The comments suggest this may be an onerous burden. An individual is precluded from practice before the Internal Revenue Service for failure to comply with the requirement. The additional hours requirement would only exacerbate the problem of those who have not complied with the continuing education requirement and are ineligible for renewal of enrollment to practice before the Internal Revenue Service. We concur in this suggestion. Thus, an individual who fails to comply with the continuing education requirement and is determined ineligible to practice before the Internal Revenue Service by reason thereof may be reinstated upon completing the continuing education requirement of the renewal period immediately preceding the reapplication period and filing the renewal application with the Director of Practice. The individual would be required to comply with the continuing education requirement of the enrollment cycle in which he or she is reinstated. The "make-up" hours cannot be used for this purpose.

8. There has been an expression of concern that those ineligible to practice before the Internal Revenue Service should not indicate in any manner that they are eligible to practice before the Internal Revenue Service. While such prohibition was implicit in the proposed rule, the final rule makes it explicit. Any individual ineligible to practice before the Internal Revenue Service for failure to renew enrollment is prohibited, in any manner, from directly or indirectly indicating he or she is enrolled to practice before the Internal Revenue Service and from using the term "enrolled agent," the designation "E.A." or other form of reference to eligibility to practice before the Internal Revenue Service.

9. Concern has been expressed that consideration should be given to indi-

viduals who voluntarily request being placed in an inactive status, thereby permitting such individuals to retire from enrollment with dignity. We believe this suggestion to be sound, and have provided in the final rule that an individual may request that his/her enrollment be placed in an an inactive status on the basis of retirement from practice before the Internal Revenue Service or for other reasons the Director of Practice will consider on an individual basis. An individual in an inactive retirement status may not practice before the Internal Revenue Service and may only hold his/her former enrollment status if such status is classified as inactive. Reinstatement to active enrollment may only be effected by satisfying the continuing education requirements of the enrollment cycle immediately preceding the application for renewal of enrollment.

10. Some comments have suggested that the regulations identify qualifying sponsors as including the programs of the American Bar Association, American Institute of Certified Public Accountants, National Society of Public Accountants, National Association of Enrolled Agents and their respective affiliated state organizations. Considerable attention has been given this recommendation. We believe the recognition of courses offered or approved by bona fide professional organizations having viable continuing education programs in the areas contemplated by the regulations is a desirable goal. In order to achieve this goal, the final rule provides for the recognition of such courses as being acceptable. In order to be so recognized, it will be necessary for a professional organization each enrollment cycle to seek approval by the Director of Practice for this purpose. A list of approved professional organizations will be published in order that the enrolled agent community is made aware of the organizations having programs available to them. In this manner, not only is there the availability of the four organizations and their state affiliates referred to above to be recognized, but there will be flexibility for recognizing other organizations having viable programs. For example, the International Foundation of Employee Benefits has advised us of its educational programs. It should be considered for inclusion with those organizations having courses acceptable for meeting the requirements of the regulations.

11. Concern has been expressed that the proposed renewal of enrollment requirement is inconsistent with enrollment previously granted, enrollment which was considered permanent. The commenters believe that the requirement for continuing professional education should not apply to those individuals currently enrolled to practice before the Internal Revenue Service; rather, it should be prospective in nature. The proposed rule does not change the permanent nature of enrollment. Active enrollment to practice before the Internal Revenue Service will continue to remain permanent so long as renewal of enrollment is effected. As noted previously, continuing professional education must be applicable to all who are enrolled to practice before the Internal Revenue Service. An exception for those who are already enrolled would be at variance with the purposes of the proposal.

12. Comments received have questioned the relevance of allowing courses in business computer science and financial management. We believe the business community has acknowledged that we are now engaged in an information management society. The growth in the use of computers to process information has been immense in recent years. There has been a rapid rise in the use of computers by all facets of business for the recording and reporting of financial information. This includes tax records and the preparation of tax returns. The Internal Revenue Service is now embarking on a test project involving the electronic filing of tax returns. Consequently, we believe the allowance of continuing education credit for courses in business computer science and financial management to be appropriate and necessary in today's environment.

13. Comments received concern the number of hours of credit allowed for serving as an instructor, discussion leader or speaker. It is felt that the 25% maximum credit contemplated in the proposal is arbitrary and unnecessarily low. Based on our consideration of the comments and further evaluation of the subject, we have determined that expanding the maximum credit for instruction and preparation of 50% of the continuing education requirement for an enrollment cycle to be appropriate.

14. The final rule also makes some changes not addressed in the comments. They include the following. (a) The final rule clarifies the fact that failure to renew enrollment or a request to be placed in an inactive retirement status is not available to an individual who is the subject of a discipline matter. (b) The final rule eliminates the requirement for documentation of continuing professional education at the time an application for renewal of enrollment is made. Instead, the necessary records must be retained and furnished the Director of Practice upon request consistent with the verification program provided for in the final rule. (c) A number of changes of a stylistic or clarifying nature have been made.

SPECIAL ANALYSIS

This rule relates solely to professional services in connection with Internal Revenue Service and Treasury Department proceedings and is not expected to have any significant economic consequences. Therefore, it has been determined that this rule is not a major rule as defined in Executive Order 12291 and a regulatory impact analysis is not required. It is hereby certified that this rule is not expected to have a significant economic impact on a substantial number of small entities. Accordingly, a regulatory flexibility analysis is not required.

PAPERWORK REDUCTION ACT

The collection of information requirements contained in this proposed rule have been approved by the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)) under Control No. 1545-0946.

DRAFTING INFORMATION

The author of these regulations is Mr. Leslie S. Shapiro, Director of Practice, Department of the Treasury. Other personnel in the Treasury Department participated in the development of the regulations, both as to substance and style.

LIST OF SUBJECTS IN 31 CFR PART 10

Administrative rules and procedures, Lawyers, Accountants, Enrolled

Agents, Enrolled Actuaries, Appraisers.

Authority: These rules are issued under authority of Sec. 3, 23 Stat. 258, secs. 2.12, 60 Stat. 237 et seq.; 5 U.S.C. 301; 31 U.S.C. 330; 31 U.S.C. 321.

AMENDMENTS TO REGULATIONS

PART 10—[AMENDED]

Accordingly, 31 CFR Part 10 is amended as follows:

1. The authority for Part 10 continues to read as follows:

Authority: Sec. 3, 23 Stat. 258, secs. 2-12, 60 Stat. 237 et seq.; 5 U.S.C. 301; 31 U.S.C. 330; 31 U.S.C. 321.

§10.1 [Amended]

2. In section 10.1, paragraph (b) is revised to read as follows:

* * * * *

(b) *Duties*. The Director of Practice shall act upon applications for enrollment to practice before the Internal Revenue Service; institute and provide for the conduct of disciplinary proceedings relating to attorneys, certified public accountants, enrolled agents, enrolled actuaries and appraisers; make inquiries with respect to matters under his jurisdiction; and perform such other duties as are necessary or appropriate to carry out his functions under this part or as are prescribed by the Secretary of the Treasury.

* * * * *

§§10.4, 10.5, and 10.7 [Amended]

3. In section 10.4; sections 10.5(a), (b), and (c); and §10.7; in each place where it appears, the word "Commissioner" is removed and the words "Director of Practice" inserted.

4. In §10.5 paragraph (d) is revised to read as follows:

§10.5 Application for enrollment.

* * * * *

(d) *Appeal from denial of application*. The Director of Practice, in denying an application for enrollment, shall inform the applicant as to the reason(s) therefor. The applicant may, within 30 days after receipt of the notice of denial, file a written appeal therefrom, together with his/her reasons in support thereof, to the Secretary of the Treasury. A decision on the appeal will be rendered by the Secretary of the Treasury as soon as practicable.

5. Section 10.6 is revised to read as follows:

§10.6 Enrollment.

(a) *Roster*. The Director of Practice shall maintain rosters of all individuals:

(1) Who have been granted active enrollment to practice before the Internal Revenue Service;

(2) Whose enrollment has been placed in an inactive status for failure to meet the requirements for renewal of enrollment;

(3) Whose enrollment has been placed in an inactive retirement status;

(4) Who have been disbarred or suspended from practice before the Internal Revenue Service;

(5) Whose offer of consent to resignation from enrollment to practice before the Internal Revenue Service has been accepted by the Director of Practice under section 10.55 of this part; and

(6) Whose application for enrollment has been denied.

(b) *Enrollment card*. The Director of Practice will issue an enrollment card to each individual whose application for enrollment to practice before the Internal Revenue Service is approved after the effective date of this regulation. Each such enrollment card will be valid for the period stated thereon. Enrollment cards issued individuals before February 1, 1987 shall become invalid after March 31, 1987. An individual having an invalid enrollment card is not eligible to practice before the Internal Revenue Service.

(c) *Term of enrollment*. Active enrollment to practice before the Internal Revenue Service is accorded each individual enrolled, so long as renewal of enrollment is effected as provided in this part.

(d) *Renewal of enrollment*. To maintain active enrollment to practice before the Internal Revenue Service, each individual enrolled is required to have his/her enrollment renewed as set forth herein. Failure by an individual to receive notification from the Director of Practice of the renewal requirement will not be justification for circumvention of such requirement.

(1) All individuals enrolled to practice before the Internal Revenue Service before November 1, 1986 shall apply for renewal of enrollment during the period between November 1, 1986 and January 31, 1987. Those who receive initial enrollment between November 1, 1986 and January 31, 1987 shall apply for renewal of enrollment by March 1, 1987. The first effective date of renewal will be April 1, 1987.

(2) Thereafter, applications for renewal will be required between November 1, 1989 and January 31, 1990, and between November 1 and January 31 of every third year subsequent thereto. Those who receive initial enrollment during the renewal application period shall apply for renewal of enrollment by March 1 of the renewal year. The effective date of renewed enrollment will be April 1, 1990, and April 1 of every third year subsequent thereto.

(3) The Director of Practice will notify the individual of renewal of enrollment and will issue a card evidencing such renewal.

(4) A reasonable nonrefundable fee may be charged for each application for renewal of enrollment filed with the Director of Practice.

(5) Forms required for renewal may be obtained from the Director of Practice, Internal Revenue Service, Washington, DC 20224.

(e) *Condition for renewal: Continuing Professional Education*. In order to qualify for renewal of enrollment, an individual enrolled to practice before the Internal Revenue Service must certify, on the application for renewal form prescribed by the Director of Practice, that he/she has satisfied the following continuing professional education requirements.

(1) *For renewed enrollment effective April 1, 1987.*

(i) A minimum of 24 hours of continuing education credit must be completed between January 1, 1986 and January 31, 1987.

(ii) An individual who receives initial enrollment between January 1, 1986 and January 31, 1987 is exempt from the continuing education requirement for the renewal of enrollment effective April 1, 1987, but is required to file a timely application for renewal of enrollment.

(2) *For renewed enrollment effective April 1, 1990 and every third year thereafter.*

(i) A minimum of 72 hours of continuing education credit must be completed between February 1, 1987 and January 31, 1990, and during each three year period subsequent thereto. Each such three year period is known as an enrollment cycle.

(ii) A minimum of 16 hours of continuing education credit must be completed in each year of an enrollment cycle.

(iii) An individual who receives initial enrollment during an enrollment cycle must complete two (2) hours of qualifying continuing education credit for each month enrolled during such enrollment cycle. Enrollment for any part of a month is considered enrollment for the entire month.

(f) *Qualifying continuing education.*

(1) *In General.* To qualify for continuing education credit, a course of learning must:

(i) Be a qualifying program designed to enhance the professional knowledge of an individual in Federal taxation or Federal tax related matters, i.e. programs comprised of current subject matter in Federal taxation or Federal tax related matters to include accounting, financial management, business computer science and taxation; and

(ii) Be conducted by a qualifying sponsor.

(2) *Qualifying Programs.*

(i) *Formal programs.* Formal programs qualify as continuing education programs if they:

(A) Require attendance;

(B) Require that the program be conducted by a qualified instructor, discussion leader or speaker, i.e. a person whose background, training, education and/or experience is appropriate for instructing or leading a discussion on the subject matter of the particular program; and

(C) Require a written outline and/or textbook and certificate of attendance provided by the sponsor, all of which must be retained by the attendee for a three year period following renewal of enrollment.

(ii) *Correspondence or individual study programs (including taped programs).* Qualifying continuing education programs include correspondence or individual study programs completed on an individual basis by the enrolled individual and conducted by qualifying sponsors. The allowable credit hours for such programs will be measured on a basis comparable to the measurement of a seminar or course for credit in an accredited educational institution. Such programs qualify as continuing education programs if they:

(A) Require registration of the participants by the sponsor;

(B) Provide a means for measuring completion by the participants (e.g., written examination); and

(C) Require a written outline and/or textbook and certificate of completion provided by the sponsor which must be retained by the participant for a three year period following renewal of enrollment.

(iii) *Serving as an instructor, discussion leader or speaker.*

(A) One hour of continuing education credit will be awarded for each contact hour completed as an instructor, discussion leader or speaker at an educational program which meets the continuing education requirements of this part.

(B) Two hours of continuing education credit will be awarded for actual subject preparation time for each contact hour completed as an instructor, discussion leader or speaker at such programs. It will be the responsibility of the individual claiming such credit to maintain records to verify preparation time.

(C) The maximum credit for instruction and preparation may not exceed 50% of the continuing education requirement for an enrollment cycle.

(D) Presentation of the same subject matter in an instructor, discussion leader or speaker capacity more than one time during an enrollment cycle will not qualify for continuing education credit.

(iv) *Credit for published articles, books, etc.*

(A) Continuing education credit will be awarded for publications on Federal taxation or Federal tax related matters to include accounting, financial management, business computer science, and taxation, provided the content of such publications is current and designed for the enhancement of the professional knowledge of an individual enrolled to practice before the Internal Revenue Service.

(B) The credit allowed will be on the basis of one hour credit for each hour of preparation time for the material. It will be the responsibility of the person claiming the credit to maintain records to verify preparation time.

(C) The maximum credit for publications may not exceed 25% of the continuing education requirement of any enrollment cycle.

(3) *Periodic examination.* Individuals may establish eligibility for renewal of enrollment for any enrollment cycle by:

(i) Achieving a passing score on each part of the Special Enrollment Examination administered under this part during the three year period prior to renewal; and

(ii) Completing a minimum of 16 hours of qualifying continuing education during the last year of an enrollment cycle.

(g) *Sponsors.* (1) Sponsors are those responsible for presenting programs.

(2) To qualify as a sponsor, a program presenter must:

(i) Be an accredited educational institution;

(ii) Be recognized for continuing education purposes by the licensing body of any State, possession, territory, Commonwealth, or the District of Columbia responsible for the issuance of a license in the field of accounting or law;

(iii) Be recognized by the Director of Practice as a professional organization or society whose programs include offering continuing professional education opportunities in subject matter within the scope of this part; or

(iv) File a sponsor agreement with the Director of Practice to obtain approval of the program as a qualified continuing education program.

(3) A qualifying sponsor must ensure the program complies with the following requirements:

(i) Programs must be developed by individual(s) qualified in the subject matter;

(ii) Program subject matter must be current;

(iii) Instructors, discussion leaders, and speakers must be qualified with respect to program content;

(iv) Programs must include some means for evaluation of technical content and presentations;

(v) Certificates of completion must be provided those who have successfully completed the program; and

(vi) Records must be maintained by the sponsor to verify completion of the program and attendance by each participant. Such records must be retained for a period of three years following completion of the program. In the case of continuous conferences, conventions, and the like, records must be maintained to verify completion of the program and attendance by each participant at each segment of the program.

(4) Professional organizations or societies wishing to be considered as qualified sponsors shall request such status of the Director of Practice and furnish information in support of the request together with any further information deemed necessary by the Director of Practice.

(5) Sponsor agreements and qualified professional organization or society sponsors approved by the Director of Practice shall remain in effect for one enrollment cycle. The names of such sponsors will be published on a periodic basis.

(h) *Measurement of continuing education coursework.*

(1) All continuing education programs will be measured in terms of contact hours. The shortest recognized program will be one contact hour.

(2) A contact hour is 50 minutes of continuous participation in a program. Credit is granted only for a full contact hour, i.e. 50 minutes or multiples thereof. For example, a program lasting more than 50 minutes but less than 100 minutes will count as one contact hour.

(3) Individual segments at continuous conferences, conventions and the like will be considered one total program. For example, two 90-minute segments (180 minutes) at a continuous conference will count as three contact hours.

(4) For university or college courses, each semester hour credit will equal 15 contact hours and a quarter hour credit will equal 10 contact hours.

(i) *Recordkeeping requirements.*

(1) Each individual applying for renewal shall retain for a period of three years following the date of renewal of enrollment the information required with regard to qualifying continuing professional education credit hours. Such information shall include:

(i) The name of the sponsoring organization;

(ii) The location of the program;

(iii) The title of the program and description of its content e.g., course syllibi and/or textbook;

(iv) The dates attended;

(v) The credit hours claimed;

(vi) The name(s) of the instructor(s), discussion leader(s), or speaker(s), if appropriate; and

(vii) The certificate of completion and/or signed statement of the hours of attendance obtained from the sponsor.

(2) To receive continuing education credit for service completed as an instructor, discussion leader, or speaker, the following information must be maintained for a period of three years following the date of renewal of enrollment:

(i) The name of the sponsoring organization;

(ii) The location of the program;

(iii) The title of the program and description of its content;

(iv) The dates of the program; and

(v) The credit hours claimed.

(3) To receive continuing education credit for publications, the following information must be maintained for a period of three years following the date of renewal of enrollment:

(i) The publisher;

(ii) The title of the publication;

(iii) A copy of the publication; and

(iv) The date of publication.

(j) *Waivers.* (1) Waiver from the continuing education requirements for a given period may be granted by the Director of Practice for the following reasons:

(i) Health, which prevented compliance with the continuing education requirements;

(ii) Extended active military duty;

(iii) Absence from the United States for an extended period of time due to employment or other reasons, provided the individual does not practice before the Internal Revenue Service during such absence; and

(iv) Other compelling reasons which will be considered on a case-by-case basis.

(2) A request for waiver must be accompanied by appropriate documentation. The individual will be required to furnish any additional documentation or explanation deemed necessary by the Director of Practice. Examples of appropriate documentation could be a medical certificate, military orders, etc.

(3) A request for waiver must be filed no later than the last day of the renewal application period.

(4) If a request for waiver is not approved, the individual will be so notified by the Director of Practice and placed on a roster of inactive enrolled individuals.

(5) If a request for waiver is approved, the individual will be so notified and issued a card evidencing such renewal.

(6) Those who are granted waivers are required to file timely applications for renewal of enrollment.

(k) *Failure to comply.* (1) Compliance by an individual with the requirements of this part shall be determined by the Director of Practice. An individual who fails to meet the requirements of eligibility for renewal of enrollment will be notified by the Director of Practice at his/her last known address by first class mail. The notice will state the basis for the noncompliance and will provide the individual an opportunity to furnish in writing information relating to the matter within 60 days of the date of the notice. Such information will be considered by the Director of Practice in making a final determination as to eligibility for renewal of enrollment.

(2) The Director of Practice may require any individual, by first class mail to his/her last known mailing address, to provide copies of any records required to be maintained under this part. The Director of Practice may disallow any continuing professional education hours claimed if the individual concerned fails to comply with such requirement.

(3) An individual who has not filed a timely application for renewal of enrollment, who has not made a timely response to the notice of noncompliance with the renewal requirements, or who has not satisfied the requirements of eligibility for renewal will be placed on a roster of inactive enrolled individuals for a period of three years. During this time, the individual will be ineligible to practice before the Internal Revenue Service.

(4) During inactive enrollment status or at any other time an individual is ineligible to practice before the Internal Revenue Service, such individual shall not in any manner, directly or indirectly, indicate he or she is enrolled to practice before the Internal Revenue Service, or use the term "enrolled agent," the designation "E.A.," or other form of reference to eligibility to

practice before the Internal Revenue Service.

(5) An individual placed in an inactive status may satisfy the requirements for renewal of enrollment during his/her period of inactive enrollment. If such satisfaction includes completing the continuing education requirement, a minimum of 16 hours of qualifying continuing education hours must be completed in the 12 month period preceding the date on which the renewal application is filed. Continuing education credit under this subsection may not be used to satisfy the requirements of the enrollment cycle in which the individual has been placed back on the active roster.

(6) An individual placed in an inactive status must file an application for renewal of enrollment and satisfy the requirements for renewal as set forth in this section within three years of being placed in an inactive status. The name of such individual otherwise will be removed from the inactive enrollment roster and his/her enrollment will terminate. Eligibility for enrollment must then be reestablished by the individual as provided in this part.

(7) Inactive enrollment status is not available to an individual who is the subject of a discipline matter in the Office of Director of Practice.

(l) *Inactive retirement status.* An individual who no longer practices before the Internal Revenue Service may request being placed in an inactive status at any time and such individual will be placed in an inactive retirement status. The individual will be ineligible to practice before the Internal Revenue Service. Such individual must file a timely application for renewal of enrollment at each applicable renewal or enrollment as provided in this part. An individual who is placed in an inactive retirement status may be reinstated to an active enrollment status upon filing an application for renewal of enrollment and providing evidence of the completion of the required continuing professional education hours for the enrollment cycle. Inactive retirement status is not available to an individual who is the subject to a discipline matter in the Office of Director of Practice.

(m) *Renewal while under suspension or disbarment.* An individual who is ineligible to practice before the Internal Revenue Service by virtue of disciplinary action is required to meet the requirements for renewal of enrollment during the period of ineligibility.

(n) *Verification.* The Director of Practice may review the continuing education records of an enrolled individual and/or qualified sponsor in a manner deemed appropriate to determine compliance with the requirements and standards for renewal of enrollment as provided in this part. (Approved by the Office of Management and Budget under Control No. 1545-0946).

6. Section 10.99 is revised to read as follows:

§10.99 Effective date of regulations.

The regulations of this part shall become effective on January 22, 1986 and shall supersede all prior regulations related to this part.

Part IV. Items of General Interest

Notice of Proposed Rulemaking

Qualified Possession Source Investment Income

LR-106-77

SUMMARY: This document contains proposed regulations defining the term "qualified possession source investment income" for purposes of the Puerto Rico and possession tax credit enacted by the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1].

DATES: Written comments and requests for a public hearing must be delivered or mailed by March 24, 1986. The regulations are proposed to apply generally to taxable years beginning after December 31, 1975.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T (LR-106-77), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Jacob Feldman of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR:T, 202-566-3289, not a toll-free call.

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 936 of the Internal Revenue Code of 1954, and deletes Temporary Regulations (26 CFR Part 7) under section 936. Section 936 was added to the Code by section 1051(b) of the Tax Reform Act of 1976 [Pub. L. 94-455, 1976-3 C.B. (Vol. 1) 1, 119] and was amended by section 701(u)(11) of the Revenue Act of 1978 [Pub. L. 95-600, 1978-3 C.B. (Vol. 1) 1, 151].

EXPLANATION OF PROVISIONS

A domestic corporation that elects the application of section 936 may qualify for the Puerto Rico and possession tax credit. This credit is equal to the Federal income tax attributable to *inter alia* the corporation's qualified possession source investment income. Section 936(d)(2) defines qualified possession source investment income as gross income (less the properly apportioned or allocated deductions) that is—

(1) From sources within a possession of the United States in which a trade or business is actively conducted;

(2) Attributable to investment in that possession (for use therein); and

(3) Attributable to the investment of funds initially derived from the active conduct of a trade or business in that possession or from such investment.

Source of Income

Proposed §1.936-2(a) provides that generally the source of income for purposes of section 936 is to be determined in accordance with §1.863-6. Special rules are provided for determining the source of certain interest and dividends (proposed §1.936-2(b)).

Investment in a Possession (for use therein)

Proposed §1.936-3 takes the position that interest and certain dividends derived by a U.S. corporation which conducts an active trade or business in Puerto Rico will be treated as attributable to investment in Puerto Rico (for use therein) as required under section 936(d)(2) if the interest or certain dividends qualify for exemption from Puerto Rican income tax. To qualify for exemption from Puerto Rican income tax, a taxpayer must satisfy criteria in the Puerto Rican income tax statute and regulations thereunder that the funds invested are in fact used in Puerto Rico. This is the position taken in temporary regulation §7.936-1. The present proposed regulations, however, reflect the updating of the Puerto Rican regulations on April 17, 1984. In addition, for investments made by the U.S. corporation more than 30 days after publication of the regulation by Treasury decision, the U.S. corporation must obtain at the time it makes the investment the written agreement of the institution receiving the funds that the investment of the funds by the institution will qualify for the exemption under Puerto Rican regulations.

Reliance on the Puerto Rico regulatory system for satisfaction of this requirement is based on the rules in existence as a result of the April 17, 1984, amendments. Changes in those rules, or in the method of operation of the Puerto Rico government's regulatory or investment authority, may require the development and application of a separate set of rules for determining when investment income is attributable to investment in Puerto Rico (for use therein).

Proposed §1.936-3 deals only with the application of section 936(d)(2) to investment in Puerto Rico. The credit provided by section 936 is also available with respect to certain investment income derived from other possessions of the United States (not including the Virgin Islands), if such income is attributable to investment of funds in the possession "for use therein" and if the other requirements of section 936(d)(2) are met.

Initially Derived from a Possession

Proposed §1.936-3A takes the position that funds are treated as initially derived from a possession if such funds represent an investment of taxable income from sources without the United States derived from the active conduct of a trade or business in a possession or a reinvestment of qualified possession source investment income. Such funds are treated as qualified funds and the amount which may be invested is determined on an annual basis. Losses as well as distributions with respect to these funds will reduce the amount of qualified funds. Therefore, an investment which is treated as made from qualified funds in one year might no longer qualify if a loss or a distribution of income reduces the amount of qualified funds. The proposed regulation also takes the position that an investment of funds derived from a capital contribution does not qualify.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

Although this document is a notice of proposed rulemaking which solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not subject to Executive Order 12291, and, accordingly, a regulatory impact analysis is not required.

DRAFTING INFORMATION

The principal author of these proposed regulations is Jacob Feldman of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

* * * * *

Proposed Amendments to the Regulations

The proposed amendments to 26 CFR Parts 1 and 7 are as follows:

INCOME TAX REGULATIONS

Paragraph 1. The authority for Part 1 continues to read in part:

Authority: 26 U.S.C. 7805. * * * Section 1.936-2, 1.936-3, and 1.936-3A also issued under 26 U.S.C. 936(d)(2). * * *

Par. 2. New §1.936-2, 1.936-3 and 1.936-3A are added after §1.936-1 to read as follows:

§1.936-2 Source of income.

(a) *In general.* Except as provided in §1.936-2(b) (relating to certain interest), for purposes of section 936(d)(2), the determination as to whether gross income is from sources within a particular possession shall be made in accordance with §1.863-6.

(b) *Certain interest.* (1) Interest paid by a possessions corporation that meets the condition of section 936(a)(2)(A) with respect to a particular possession is from sources within that possession.

(2) Interest paid or credit on deposit accounts with a possession branch of a corporation or partnership is from sources within the possession if, at the time of payment or crediting, the branch is engaged within the possession in the commercial banking business or the business of a savings and loan or similar association.

§1.936-3 Investment in a possession (for use therein).

For purposes of section 936(d)(2), interest and certain dividends derived after April 17, 1984 (less deductions allocable and apportionable thereto) by a domestic corporation engaged in the active conduct of a trade or business in Puerto Rico shall be treated as attributable to investment in Puerto Rico (for use therein) if the interest or certain dividends qualify for exemption from Puerto Rican Income Tax under regulations issued by the Secretary of the Treasury of Puerto Rico, as in effect on April 17, 1984 under the authority of the Acts No. 6 of December 15, 1953, 57 of June 13, 1963, and 25 of June 2, 1978, as amended, to determine the institutions which are eligible to receive funds from exempted businesses under those Acts. In the case of any investment of funds made by the possessions corporation after [Date that is 30 days after the date of publication in the Federal Register of this regulation as a Treasury decision], the preceding sentence shall not apply unless the possessions corporation receives, at the time the funds are delivered for investment, the written agreement of the institution receiving the funds that the funds will be invested by the institution so as to qualify for exemption under the foregoing regulations of Puerto Rico. Interest derived after September 30, 1976 and before April 18, 1984 shall be treated as attributable to investment in Puerto Rico (for use therein) if the interest qualifies for exemption from Puerto Rican Income Tax under regulations issued by the Secretary of the Treasury of Puerto Rico as in effect on September 28, 1976 under the authority of section 2(j) of the Puerto Rico Industrial Incentive Act of 1963, as amended.

§1.936-3A Funds derived from a possession.

(a) *In general.* Funds treated as derived from the active conduct of a trade or business in a possession or from investment of such funds in a possession ("qualified funds") include—

(1) Taxable income from sources without the United States derived from the active conduct of a trade or business in the possession, and

(2) Qualified possession source investment income,

reduced by any distributions paid with respect to such income and by any losses (not otherwise taken into account under subparagraph (1) or (2)) from such activity or investment. The amount of any capital contributions to a possessions corporation is not treated as qualified funds.

(b) *Limitation on investment.* Notwithstanding paragraph (a), the amount of qualified funds which may be invested in a possession and give rise to income which is treated as qualified possession source investment income is limited to the total qualified funds for the taxable year and for all prior taxable years which are not already invested in a possession. For this purpose, qualified possession source investment income is not included in total qualified funds for the current taxable year, but is included with respect to prior taxable years.

(c) *Illustration:* The principles of paragraphs (a) and (b) of this section are illustrated by the following example:

Example: X has operated in Puerto Rico as a section 936 corporation since January 1, 1980. In 1980 X earned $30,000 from the active conduct of a business in Puerto Rico and paid a dividend of $20,000. On January 1, 1981 X invested $20,000 in a Puerto Rican financial institution. For the year 1981 X had a loss of $10,000 from the conduct of its business and received $1500 in interest. For the years 1982 and 1983 X earned $40,000 and $60,000 respectively from its business and $2,000 each year from its investments which qualify under §1.936-3 and paid dividends of $20,000 and $30,000 respectively. On January 1, 1984 X deposited $80,000 in the same Puerto Rican financial institution for a total deposit of $100,000. For 1984 X had a $5,000 loss from its business, but received $15,000 of interest form its investments.

For 1981, the interest received from the investment in the Puerto Rican financial institution was not qualified possession source investment income since there were no qualified funds for 1981. The $30,000 of income received by X from the active conduct of its business in 1980 was reduced to zero by a $20,000 dividend in 1980 and a $10,000 loss in 1981.

For 1982 and 1983 the $20,000 originally deposited in 1981 and not withdrawn are treated as qualified funds and all of the income derived therefrom as qualified possession source investment income assuming the requirements of §§1.936-2 and 1.936-3 are met. The zero qualified funds at the end of 1981 were increased to $20,000 in 1982, representing $40,000 of active business income less $20,000 of dividends; in 1983, the qualified funds available for investment were further increased to $52,000, representing $60,000 of active business income in 1983 less dividend payment of $30,000 (or $30,000) plus $2,000 of qualified possession source investment income accrued in 1982). The $1500 of interest earned in 1981 was not derived from qualified funds and, therefore, was not qualified possession source investment income. In addition, this amount and any amount of interest derived therefrom can never be qualified funds since the $1500 was neither derived initially from the active conduct of a trade or business in Puerto Rico nor was it qualified possession source investment income.

For 1984, $7350 of the $15,000 of interest received on the $100,000 investment constitutes qualified possession source investment income since only $49,000 of the $100,000 deposited was from qualified funds ($52,000 of qualified funds at the end of 1983 reduced by the $5000 of loss incurred in 1984 and increased by the $2,000 of qualified possession source investment income accrued in 1983).

TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

Par. 3 The authority for Part 7 continues to read as follows:

Authority: 26 U.S.C. 7805

Par. 4. Section 7.936-1 is removed.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.

(Filed by the Office of the Federal Register on January 17, 1986, 8:45 a.m., and published in the issue of the Federal Register for January 21, 1986, 51 F.R. 2726)

Notice of Proposed Rulemaking

Section 338(h)(10) Election and Extension of Time to Make Certain Elections

LR-218-83

SUMMARY: * * * [T]he Internal Revenue Service is issuing temporary regulations that add new §§1.338(h)(10)-1T and 1.1502-75T, relating to elections under section 338(h)(10), and that amend existing temporary regulations §§1.338-1T and 1.338-4T, relating generally to procedural and miscellaneous matters under section 338. The text of the new and revised sections also serves as the comment document for this notice of proposed rulemaking.

DATES:

PROPOSED EFFECTIVE DATE

The regulations under section 338(h)(10) are proposed to generally apply to stock acquisitions made after January 12, 1983. The temporary regulations being amended generally apply to stock acquisitions made after August 31, 1982.

DATE FOR COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Written comments and requests for a public hearing must be delivered or mailed by March 10, 1986.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T [LR-218-83], Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Patricia Wendlandt or Bennett C. Steinhauer of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-3458, not a toll-free call).

SUPPLEMENTARY INFORMATION

BACKGROUND

Temporary regulations published in the Rules and Regulations portion of this issue of the FEDERAL REGISTER add new temporary regulations §§1.338(h)(10)-1T and 1.1502-75T to Part 1 of Title 26 of the Code of Federal Regulations ("CFR") and amend temporary regulations §§1.338-1T and 1.338-4T. Section 1.338-1T was published as T.D. 7942 in the FEDERAL REGISTER on February 8, 1984 (49 FR 4722) [1984-1 C.B. 93], was amended and redesignated (as §1.338-1T) by temporary regulations published as T.D. 7975 in the FEDERAL REGISTER on September 6, 1984 (49 FR 35086) [1984-2 C.B. 81], and was further amended by T.D. 8021 in the FEDERAL REGISTER on April 25, 1985 (50 FR 16428) [1985-1 C.B. 96]. Section 1.338-4T was also published in T.D. 8021. The final regulations that are proposed to be based on the new and amended temporary regulations would be added to Part 1 of Title 265 of the CFR. Those final regulations would provide guidance on elections under section 338(h)(10) of the Code as well as on the date for electing section 338, for making certain other elections under section 338, and for certain other purposes. Section 338 of the Code was added by section 224 of TEFRA (Pub. L. No. 97-248; 96 Stat. 485) [1982-2 C.B. 462, 501] and was amended by section 306(a)(8) of the Technical Corrections Act (Pub. L. No. 97-448; 96 Stat. 2402) [1983-1 C.B. 451, 470] and section 712(k) of the Tax Reform Act of 1984 (Pub. L. No. 98-369; 98 Stat. 946) [1984-3 C.B. (Vol. 1) 1, 456]. For the text of the new and amended temporary regulations, see T.D. 8068, published * * * [on page 9, this Bulletin]. The preamble to the temporary regulations explains the additions to the regulations.

REGULATORY FLEXIBILITY ACT AND EXECUTIVE ORDER 12291

Although this document is a notice of proposed rulemaking that solicits public comment, the Internal Revenue Service has concluded that the regulations proposed herein are interpretative and that the notice and public procedure requirements of 5 U.S.C. 553 do not apply. Accordingly, these proposed regulations do not constitute regulations subject to the Regulatory Flexibility Act (5 U.S.C. chapter 6). The Commissioner of Internal Revenue has determined that this proposed rule is not a major rule as defined in Executive Order 12291 and that a Regulatory Impact Analysis therefore is not required.

COMMENTS AND REQUEST FOR A PUBLIC HEARING

Before these proposed regulations are adopted, consideration will be given to any written comments that are submitted (preferably eight copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER. The collection of information requirements contained herein have been submitted to the Office of Management and Budget (OMB) for review under section 3504(h) of the Paperwork Reduction Act. Comments on the requirements should be sent to the Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for Internal Revenue Service. New Executive Office Building, Washington, D.C. 20503. The Internal Revenue Service requests persons submitting comments to OMB to also send copies of the comments to the Service.

DRAFTING INFORMATION

The principal author of these proposed regulations is Bennett C. Steinhauer of the Legislation and Regulations Division off the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulations, both on matters of substance and style.

Roscoe L. Egger, Jr.,
Commissioner of
Internal Revenue.
